June 13, 1984

Reclassification of Class 'C' FM Facilities
Re: BC Docket 80-90

The new rules adopted in BC Docket 80-90 specify a minimum ERP of 100 Kw and a minimum HAAT of 300 meters for class 'C' facilities. Existing class 'C' facilities have until March 1, 1987 to meet these minimums or be reclassified to a lower class. This notice contains a list of those facilities which are below the minimums and the new classifications which they will receive in March 1987 if there is no upgrade.

The list is divided into 3 parts.

Part 1, is a list of those facilities for which both the ERP and HAAT are below the minimum.

Part 2, is a list of those facilities for which only the ERP is below the minimum.

Part 3, is a list of those facilities for which only the HAAT is below the minimum.

Each part is arranged by channel number and then by state and city, and contains license, construction permit and application records in the FM Engineering Data Base as of June 1, 1984. The facility class shown is based on the current authorization (license or CP). No attempt has been made to correlate applications, which upgrade facilities, with license or CP records on the list.

Noncommercial educational facilities will be reclassified on March 1, 1987 as defined in Section 73.506(a)(3). The separation distance requirements between noncommercial educational facilities on channels 218, 219, and 220 or facilities separated in frequency by 10.6 or 10.8 MHz (53 or 54 channels) and allotments or assignments on the non-reserved channels will be based on these reclassifications and the distance obtained from Table A, B, or C (Section 73.207) as appropriate. For other non-commercial educational facilities, the reclassification is for administrative purposes only.

The list is published for information purposes only. The inclusion or exclusion of any FM facility does not reflect a determination of any eventual class designation. The inadvertent exclusion of any FM facility from this list will not be grounds for an extension of the March 1, 1987 date.

Questions regarding this list should be directed to Gary Kalagian 632-2049 or John Boursy 634-6315.

CLASS C FACILITIES TO BE RECLASSIFIED: ERP & HAAT ARE BELOW MINIMUMS SPECIFIED IN DOCKET 80-90
