News media information 202/254-7674. Recorded listing of releases and texts 202/632-0002.

May 8, 1985

## NOTICE OF RANDOM SELECTION OF FM CHANNELS

1. Notice is hereby given of the results of the May 6, 1985, random selection of FM channels determining the sequential order in which the 689 new FM allotments made in Docket MM 84-231 will be made available for applications. The order that we will invite applications is shown in the table below; this can be used with the attached list of communities.

2. The Commission will assign a window application filing period to each particular channel. Applications will be accepted for filing for these channels only during the applicable pre-announced individual allotment window filing period. These individual allotment windows will be announced on public notices.

3. If the Commission substitutes a new channel for one of the present 689 allotments in Docket No. 84-231 the cities as identified in the attachment will not change its place in sequence even though channels may change.
