Amendment No. 29: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: \$1,782,271,000, of which \$11,885,000 for health care for the elderly shall be available for obligation for the period October 1, 1991 through September 30, 1991.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree with the concern expressed by the Senate regarding the current discrepancy between the allocation of community health center funds between urban and rural centers relative to the numbers of patients served by urban and rural centers. Funds provided to community health centers should reflect accurately the location of patients served by centers unless there are compelling reasons not to allocate funds equitably between urban and rural centers. The conferees request that the Department prepare a report on the funding allocations between urban and rural community health centers, and suggest methods, if appropriate, to eliminate the current differential within two years.

The conferees have included \$2,000,000 to continue the various Pacific Basin initiatives, of which \$1,660,000 shall be for the Pacific Basic Medical Officers project.

The conferees have included \$1,300,000 for the Native Hawaiian health care initiatives. Of the amount provided, the conferees intend \$700,000 to be used for a comprehensive health care master plan, \$500,000 for health professions scholarships, and \$100,000 for administrative support of the Papa Ola Lokahi.

The conferees are agreed that funding for the hemophilia treatment centers program within the Special Programs of Regional and National Significance (SPRANS) in the Maternal and Child Health Block Grant shall, at a minimum, be maintained at the current level. The conferees recognize that, due to maternal income, minority status, age and educational attainment levels, the infants of public housing residents are at a greater risk of mortality and morbidity than the general population. The conferees encourage the agency to use SPRANS funds to test the effectiveness of a coordinated, "one-stop shopping" approach to the provision of pre- and post-natal care services to this population, such as that provided in the Omaha project described in the Senate report.

The conference agreement includes \$4,000,000 for organ transplant activities. It is the intention of the conferees that such amount be divided as follows: \$1,400,000 for support of the activities of the Organ Procurement and Transplantation Network; \$1,200,000 for continued development of the scientific registry; \$700,000 for the Organ Procurement Organization grant program authorized by section 371 of the Public Health Service Act; and \$700,000 for the Division of Organ Transplantation.

This amount for the Division of Organ Transplantation includes funds for the study of tissue retrieval and distribution; for the Division to work with the Health Care Financing Administration to evaluate how best to enforce the routine referral program mandated by section 1138(A)(iii) of the Social Security Act; and for the development of a new program within the Division to provide needy families with information about transplantation and the resources available in each state to assist such families with the catastrophic expenses associated with transplant surgery.

The conference agreement provides \$15,000,000 for pediatric AIDS demonstration projects. The conferees are aware of private sector interest in the development of model pediatric consortia to provide health and social services, research and training focused on HIV infected individuals and their families and women of child-bearing years. The conferees urge the agency to fund up to three

such pediatric demonstrations. These demonstrations shall, to the extent possible, provide care for children and their families in the same setting. Such model consortia shall work in collaboration with the National Institute of Child Health and Human Development, the National Institute of Allergy and Infectious Diseases, and the Office of Minority Health. Further, the conferees urge the agency to allocate fiscal year 1990 funds as expeditiously as possible.

The conferees have provided \$17,438,000 for adult health care AIDS demonstrations. The conferees intend that projects funded in fiscal year 1989 be entitled to compete for additional funds in fiscal year 1990.

The conferees have provided \$30,000,000 for the AIDS drug reimbursement program. The conferees direct the Secretary to permit the States to make available to eligible individuals therapeutics determined to prolong life or prevent the serious deterioration of health arising from AIDS or HIV infection. The conferees understand that the funding needs for the program may be greater than anticipated in this bill. Therefore, the conferees are agreed that this program will be carefully monitored with the recognition that a supplemental appropriation may be necessary to adequately fund it.

The conferees remain concerned about the price of AZT. Even with the recent price reduction by the manufacturer of the drug, AZT remains prohibitively expensive for most AIDS patients. While the conferees are providing additional funds for the AIDS drug reimbursement program, the conferees strongly urge the manufacturer of AZT to take further steps to make the drug more affordable and more widely accessible to low-income patients.

Amendment No. 30: Deletes language proposed by the House which would have placed a limitation on funding for health education and training centers.

The conferees have provided \$4,000,000 for the new border health education centers program. The program, as authorized in P.L. 100-607, will fund contracts with schools of medicine and osteopathy to create health education and training centers that will improve the supply and quality of personnel providing health services along the border between the United States and Mexico and in other areas with demonstrated serious unmet health care needs. Funds are to be divided equally between border and non-border areas. It is the intent of the conferees that the funds made available for the border area initiative are to include those areas of the border states which are most severely affected by Hispanic immigration but not necessarily in close proximity to the border.

Amendment No. 31: Earmarks \$4,400,000 for AIDS facilities renovations instead of \$4,300,000 as proposed by the House and \$4,200,000 as proposed by the Senate.

Amendment No. 32: Deletes language proposed by the Senate regarding eligibility for excellence in minority health education.

Amendment No. 33: Reported in technical disagreement. The conferees on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as fol-

In lieu of the matter inserted by said amendment, insert the following: *Provided further, That of this amount, \$30,000,000 is available until expended for grants to States for Human Immunodeficiency Virus drug reimbursement, pursuant to section 319 of the Public Health Service Act; Provided further, That user fees authorized by 31 U.S.C. 9701 may be credited to appropriations under this heading, notwithstanding 31 U.S.C. 3302*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have deleted bill language overriding an across-the-board cut totalling \$1,360,000 for grants to four rural hospitals. The conferees have agreed that this will be the final year of funding such grants.

VACCINE INJURY COMPENSATION

Amendment No. 34: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which permits the Department to use trust fund monies for administrative costs.

Surgeon General's Conference.....	125,000
Worker notification.....	500,000
Musculoskeletal disorders.....	1,000,000
Industrial medical center.....	250,000

Of the amounts provided for occupational safety and health research, \$11,250,000 has been included for farm safety and health. Of that amount, under surveillance, \$2,000,000 is for the farm family survey and \$2,000,000 is for rural hospitals; under research, \$2,000,000 is provided for Agricultural Centers, which may also provide training, and \$1,000,000 is provided for lung disease; and finally, under intervention, \$2,150,000 is provided for agriculture health promotion, and \$2,100,000 for cancer screening. An additional amount of \$250,000 is provided for the Educational Resource Centers for farm safety and health.

Within the amount provided for AIDS activities, the conference agreement includes \$11,154,000 for activities for the hemophilia project, \$119,402,000 for confidential counseling and testing and \$14,515,000 for direct grants to minority community-based organizations.

The conferees are agreed that separate funding must be provided to any local health department which serves the largest political jurisdiction in a MSA, when such MSA reported more than 2,000 AIDS cases as of June 30, 1989, and such cases represent at least 75 percent of the AIDS cases reported in that State.

The conference agreement includes funds for the development of AIDS education programs and exhibits to be located in science museums.

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended to read as follows:

In lieu of the matter inserted by said amendment, insert the following: *Provided further, That employees of the Public Health Service, both civilian and Commissioned Officer, detailed to States or municipalities as assignees under authority of section 214 of the Public Health Service Act in the instance where in excess of 50 percent of salaries and benefits of the assignee is paid directly or indirectly by the State or municipality, and employees of the National Center for Health Statistics, who are assisting other Federal organizations on data collection and analysis and whose salaries are fully reimbursed by the organizations requesting the services, shall be treated as non-Federal employees for reporting purposes only;*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 37: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended to read as follows:

In lieu of the matter inserted by said amendment, insert the following: *and, in addition, for high priority construction project of Centers for Disease Control, \$5,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have provided an additional \$5,000,000 in the buildings and facilities account of the Centers for Disease Control for high priority construction projects.

NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES

Amendment No. 44: Reported in technical disagreement. The managers on the part of the House will offer a motion to reconsider and concur in the amendment of the Senate with an amendment. In lieu of the amount stricken and inserted by said amendment insert: \$691,866,000. The conference agreement appropriates \$691,866,000 instead of \$692,639,000 as proposed by the House and \$752,939,000 as proposed by the Senate. The Senate bill includes \$61,847,000 for the newly established National Center for Human Genome Research. The House bill included these funds in a separate appropriation account. The conference agreement follows the House format (see amendment no. 53). The managers on the part of the Senate will move to concur in the amendment of the House in the amendment of the Senate.

NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT

Amendment No. 45: Appropriates \$450,593,000 as proposed by the Senate instead of \$448,493,000 as proposed by the House.

The conferees encourage the National Institute of Child Health and Human Development to consider the establishment of a center grant program for child health research as described in the Senate report.

The conference committee continues to recognize the importance of a controlled study of the use of infant apnea monitoring and is concerned that the NICHD has been slow to achieve this objective. To that end the conference agreement includes funding for the implementation of the first year of the 5 year plan for sudden infant death syndrome research, applauds the other important and meritorious SIDS research initiatives outlined in the plan, and recommends implementation in an expeditious manner.

The conference agreement also includes funds sufficient for NICHD to consider additional Mental Retardation Research Centers dependent on the results of the upcoming peer review competition.

NATIONAL EYE INSTITUTE

Amendment No. 46: Appropriates \$241,205,000 instead of \$240,636,000 as proposed by the House and \$241,774,000 as proposed by the Senate.

RESEARCH RESOURCES

Amendment No. 51: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the amount stricken and inserted by said amendment, insert \$354,191,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are agreed that the Biological Models and Materials Resources section of the Laboratory Animal Sciences and Primate Research Program, should receive sufficient funds to significantly expand research in this area.

The conferees are concerned about the proposal to increase the current eligibility threshold from \$200,000 to \$500,000 and to limit institutional flexibility in the Biomedical Research Support program. Raising the threshold would result in the elimination of 40 percent of the schools of nursing, 57 percent of the optometry schools, 50 percent of the allied health schools, 18 percent of the dental schools, 17 percent of the veterinary medical schools, and 11.5 percent of the pharmacy schools from the BRSR program. The conferees direct that the impact of such proposals be evaluated and reported to the House and Senate Appropriations Committees prior to proposed implementation.

NATIONAL CENTER FOR NURSING RESEARCH

Amendment No. 52: Appropriates \$33,969,000 instead of \$32,696,000 as proposed by the House and \$34,969,000 as proposed by the Senate. The Conferees commend the efforts of the Secretary's Commission on Nursing, as established under Public Law 92-463, to address the nursing shortage in this country. Funds have been provided to fund a Commission for a period of one year, ending September 30, 1990. The conferees also encourage the Secretary to appoint a nurse as an Assistant to the Secretary to assist in the implementation of the Commission's recommendations, and to serve as an advisor to the Secretary on health care policy matters which affect nursing.

NATIONAL CENTER FOR HUMAN GENOME RESEARCH

Amendment No. 53: Restores language included by the House but stricken by the Senate amended to appropriate \$60,000,000 under a separate appropriation account for the newly established National Center for Human Genome Research instead of \$62,000,000 as proposed by the House. The Senate bill did not include a separate account for this center but had included \$61,847,000 for this purpose under the National Institute of General Medical Sciences.

JOHN E. FOGARTY INTERNATIONAL CENTER

Amendment No. 54: Appropriates \$15,556,000 instead of \$15,579,000 as proposed by the House and \$15,532,000 as proposed by the Senate.

NATIONAL LIBRARY OF MEDICINE

Amendment No. 55: Appropriates \$83,311,000 as proposed by the House instead of \$80,729,000 as proposed by the Senate.

OFFICE OF THE DIRECTOR

Amendment No. 56: Appropriates \$108,987,000 instead of \$106,987,000 as proposed by the House and \$127,570,000 as proposed by the Senate.

The conferees are agreed that sufficient funds up to \$2,000,000 is available within the Office of the Director to establish an intramural research program on diagnostic radiology.

Amendment No. 57: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following: *Provided further, That in addition, the Secretary shall transfer \$15,000,000 from appropriations available to each of the Institutes which shall be available for extramural facilities construction grants if authorized in law and if awarded competitively including such amount as he may deem appropriate for research animal production facilities*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement requires the Secretary to transfer \$15,000,000 from the individual institutes for the purpose of funding extramural facilities construction projects, if such projects are identified by the Director of NIH as of urgent national importance, are authorized in law and are awarded competitively. The conferees have deleted the earmarks for seven extramural construction projects as proposed by the Senate without prejudice. The conferees believe that these are meritorious projects which should be well received in the normal competitive process.

BUILDING AND FACILITIES

Amendment No. 58: Appropriates \$61,600,000 instead of \$61,600,000 as proposed by the House and \$41,600,000 as proposed by the Senate. The conferees have provided sufficient funds for the first phase of the Child Health/Neuroscience Building.

ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH ADMINISTRATION

ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH

Amendment No. 59: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: *\$1,934,177,000, of which \$7,359,000 for homeless activities shall be available for obligation for the period October 1, 1990 through September 30, 1991, and*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

While the conferees encourage the National Institute of Mental Health to fund clinical training activities that include a payback requirement, the conferees do not intend that funding be limited only to activities with payback. The conferees intend, however, that the funds for clinical training be distributed on an equitable basis across the five core mental health professions. The conferees urge the Institute to give priority in awarding clinical training funds to trainees who provide service in public facilities and mental health underserved areas.

The conferees intend that up to \$4,000,000 of the funds provided above the budget request for Community Support Demonstrations be used for prevention services demonstration projects, as authorized in section 520A(b) of the Public Health Service Act, and demonstration projects for the prevention of youth suicide, as authorized by section 520A(a) of the Act.

The conferees continue to be very supportive of prevention activities, noting in particular that the suicide rate for those between the ages of 15 and 24 has almost tripled during the past thirty years. Accordingly, the conferees intend that the National Institute of Mental Health significantly increase its financial commitment to prevention projects during fiscal year 1990. The Institute should submit a detailed report on this directive prior to the 1991 budget hearings.

Amendment No. 60: Deletes language proposed by the Senate that would have earmarked mental health research funds for specific populations.

The conferees have deleted without prejudice bill language earmarking funding of mental health research. The conferees direct the National Institute of Mental Health to fund not less than \$7,000,000 in rural mental health research and not less than \$3,000,000 in Native American mental health research in fiscal year 1990. The conferees urge the Institute to work closely with researchers in these two areas.

The conferees are aware that the University of Denver, the University of Utah, and the University of California at Berkeley have developed American Indian social work programs and would be willing to work with local tribal and urban Indian communities to determine the effectiveness of family-centered mental health services.

The conferees further encourage the Institute to establish an Office of Rural and Native American Mental Health to coordinate the research, and expect the Institute to report to the Appropriations Committees on the progress of the rural and Native American mental health research initiatives prior to the fiscal year 1991 budget hearings.

Amendment No. 61: Deletes language proposed by the Senate that would have earmarked funds for a Presidential addiction research award.

The conferees nevertheless encourage the National Institute of Drug Abuse to establish such an award within existing funds if sufficient legislative authority exists.

FEDERAL SUBSIDY FOR SAINT ELIZABETHS HOSPITAL

Amendment No. 62: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which maintains the availability of funds previously appropriated for maintenance and administrative activities.

ASSISTANT SECRETARY FOR HEALTH

OFFICE OF THE ASSISTANT SECRETARY FOR HEALTH

Amendment No. 63: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment which inserts a legal citation.

Amendment No. 64: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended as follows:

In lieu of the sum proposed by said amendment, insert the following: \$77,352,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees intend that \$1,000,000 be provided to the 1989 International Winter Special Olympics Games Committee, for the purpose of supporting the 1989 International Winter Special Olympics Games.

The conference agreement includes \$6,000,000 for the National Vaccine Program established under Public Law 99-660. The conferees intend these funds to support the National Vaccine Program (\$1,500,000 and 13 FTE's) and basic and applied research and clinical trials of pertussis vaccines (\$4,500,000 and 7 FTE's). Development, testing and approval of new acellular pertussis vaccines are the highest priority of the vaccine program. Neither limited resources nor limited opportunities for appropriate field testing should be wasted in a diffuse approach. Therefore, the conferees expect that the National Vaccine Program Interagency Group will coordinate all pertussis trials funded through the National Vaccine Program or other funding sources in the Department of Health and Human Services. In addition, by funding another trial, the conferees do not intend to impede possible approval of any acellular pertussis vaccines currently under review by the Food and Drug Administration.

In conjunction with the Decade of the Brain, commencing on January 1, 1990, the conferees direct the Assistant Secretary for Health to work with the National Academy of Sciences/Institute of Medicine to sponsor a symposium event to bring together leading scientists from all relevant disciplines to discuss the state of the art and to course upon short- and long-term goals. Funding shall be derived from available funds, including the one-percent evaluation set-aside.

Funds are provided or to be used for the reorganization of the Health Service regional offices, prior to approval of a reorganization request.

The conferees are agreed that the amounts provided for AIDS activities within the Public Health Service include funds for the

Indian Health Service, not to exceed the total for these costs estimated in the President's Budget.

Amendment No. 65: Changes legal citation as proposed by the Senate.

Amendment No. 66: Deletes language proposed by the House and stricken by the Senate to earmark \$1,500,000 for the National Commission on Acquired Immune Deficiency Syndrome and \$4,000,000 for the Abandoned Infants Assistance Act. These activities are funded elsewhere in the bill.

MEDICAL TREATMENT EFFECTIVENESS

Amendment No. 67: Appropriates \$27,000,000 instead of \$30,000,000 as proposed by the Senate and \$5,000,000 as proposed by the House.

Amendment No. 68: Authorizes the transfer of \$5,000,000 from the Medicare trust funds as proposed by the Senate instead of \$15,000,000 as proposed by the House.

The conferees are agreed that both Federal and trust fund amounts are available for the full range of Medical Effectiveness Research activities.

The conferees agree that medical effectiveness studies of new and emerging technology are appropriate. The conferees are aware that such studies involving positron emission tomography can be conducted under this account.

HEALTH CARE FINANCING ADMINISTRATION

GRANTS TO STATES FOR MEDICAID

Amendment No. 69: Appropriates \$30,136,654,000 as proposed by the Senate instead of \$29,616,497,000 as proposed by the House

PROGRAM MANAGEMENT

Amendment No. 70: Appropriates \$101,908,000 as proposed by the House instead of \$102,908,000 as proposed by the Senate.

Amendment No. 71: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: \$1,917,172,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are agreed that Medicare contractor operations shall be continued at current services levels, adjusted to reflect new responsibilities and higher workload volume in fiscal year 1990. The rate of operations should maintain payment safeguard activities commensurate with the fiscal year 1989 audit activity effort level, including claims review, and recoveries of third party liabilities.

The conferees intend that any funds included in the budget request for the implementation of the catastrophic health insurance program which may not be required for such purpose shall be made available for ongoing operations, including as a first priority Medicare payment safeguard operations.

SOCIAL SECURITY ADMINISTRATION

SUPPLEMENTAL SECURITY INCOME PROGRAM

Amendment No. 72: Appropriates \$9,098,758,000 as proposed by the House instead of \$9,095,758,000 as proposed by the Senate. The conferees are agreed that not less than \$3,500,000 shall be used for new outreach activities for potential Supplemental Security Income recipients particularly the elderly. The conferees encourage this initiative to include a combination of direct services and contract service with organizations such as the existing network of area agencies on aging and the Administration on Aging.

LIMITATION ON ADMINISTRATIVE EXPENSES

Amendment No. 73: Provides for a limitation on trust funds of \$3,837,389,000 instead of \$3,833,389,000 as proposed by the House and \$3,847,389,000 as proposed by the Senate.

Amendment No. 74: Deletes language added by the Senate which would have established a statutory requirement that the number of employees at the Social Security Administration at the end of fiscal year 1990 should not be reduced below the level in effect on September 30, 1989. The conferees are agreed, however, that the amounts in the bill should be used to at least maintain current Social Security Administration staffing levels, and to the extent possible, partially restore past reductions, particularly in field offices. The Department of Health and Human Services is therefore directed to take no action in the fiscal year 1990 which would lower end of year employment levels below the level in effect on September 30, 1989.

FAMILY SUPPORT ADMINISTRATION

LOW INCOME HOME ENERGY ASSISTANCE

Amendment No. 75: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: \$1,393,000,000, of which \$60,000,000 shall become available for making payments on September 30, 1990

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees intend that the \$60,000,000 available for payment on September 30, 1990 be accomplished in the following manner:

1. State or Territory with a carryover balance on October 1, 1989 shall not be provided before September 30, 1990 with that portion of the allotment for fiscal year 1990 as bears the same ratio to the carryover balance as its carryover balance bears to the total of all the carryover balances on October 1, 1989. States which historically spend their funds earlier in the fiscal year, as evidenced by lack of fiscal year 1989 carryover, are expected to receive their full allotment at regular time. The purpose of this is to assure that those States which do not have any carryover funds in fiscal year 1990 have their allocation of fiscal year 1990 funds available for the year.

heating season. States that have carryover or transfer funds to other programs can adjust more easily to the delayed availability of funds. Nothing in this agreement shall change the amount of funds allocated to each State and Territory under the statutory formula.

REFUGEE AND ENTRANT ASSISTANCE

Amendment No. 76: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment insert the following:

REFUGEE AND ENTRANT ASSISTANCE

For making payments for refugee and entrant assistance activities authorized by title IV of the Immigration and Nationality Act and section 501 of the Refugee Education Assistance Act of 1980 (Public Law 96-422), \$368,822,000, of which \$210,000,000 shall be available for State cash and medical assistance.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees recognize that the President's budget request for Refugee and Entrant Assistance falls well below the amount required to maintain current services. As a result, while the conference agreement provides \$126,504,000 above the budget request overall, it remains \$13,534,000 below the 1989 level. The conferees intend that the period of reimbursement for cash and medical assistance not fall below 12 months. Coupled with the enhanced resources provided for social services, the \$210,000,000 provided for cash and medical assistance should allow sufficient time for State and voluntary agencies to provide the adjustment services necessary for refugees to achieve self-sufficiency.

The conferees intend that the funds provided in this bill for voluntary agencies should be available for fiscal year 1989, as well as 1990 costs, should that become necessary.

The conference agreement for targeted assistance includes \$14,000,000 to increase the current program of support for communities which continue to be affected as a result of the massive influx of Cuban and Haitian entrants during the Mariel boatlift. This program received \$10,500,000 in fiscal year 1989 and in the Senate bill.

The conferees intend that 10 percent of the total appropriated targeted assistance be used for grants to localities most heavily impacted by the influx of refugees such as Laotian Hmong and Cambodians, including secondary migrants who entered the United States after October 1, 1989. The conferees expect these grants to be awarded to communities not presently receiving targeted assistance because of previous concentration requirements and other factors in the grant formulas, as well as those who do currently receive targeted assistance grants. These grants shall be available to assist local schools, hospitals, employment services, and other institutions.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to shift appropriations from fiscal year 1990 to 1992 in order to more closely reflect projected outlay patterns. The conferees believe that the remaining appropriation for fiscal year 1990, when combined with the unspent appropriations from fiscal years 1988 and 1989, will be sufficient to meet the needs of State and local governments and legalized aliens in fiscal year 1990. The funds appropriated for fiscal year 1992 are made available under the same terms and conditions as they would have been in 1990.

In lieu of the sum proposed by said amendment, insert the following: *\$2,784,090,000*

The conferees expect the Secretary of Health and Human Services to devote \$50,000,000 of the fiscal year 1990 Head Start appropriation to increasing Head Start teachers' salaries.

The conferees direct the Administration for Native Americans to allocate \$1,000,000 this year to continue funding for the Native Hawaiian demonstration revolving loan program. This will complete the level of funding authorized by P.L. 100-175.

Amendment No. 85: Deletes language proposed by the Senate that would have earmarked funds for the aging outreach program notwithstanding current law.

Amendment No. 86: Deletes appropriation of \$1,200,000,000 for child care proposed by the Senate. In lieu of the sum proposed by said amendment, insert the following: *\$1,380,048,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

It is the intention of the conferees that the Office of Human Development Services proceed to develop regulations on the collection of data on administrative costs under the foster care program. Because of the need for administrative cost data, it is expected that proposed regulations will be published for public comment no later than January 1, 1990, and issued in final form by March 1, 1990.

GENERAL DEPARTMENTAL MANAGEMENT

Amendment No. 88: Appropriates \$80,577,000 instead of \$80,327,000 as proposed by the House and \$90,577,000 as proposed by the Senate. The additional funds over the House bill are for rural transportation technical assistance and coordination.

Amendment No. 89: Appropriates \$50,600,000 as proposed by the Senate instead of \$49,498,000 as proposed by the House. An additional 22 FTE's are provided over the House bill.

Amendment No. 90: Reported in disagreement.

Amendment No. 91: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following: *except that this section shall not apply to funds made available for fiscal year 1990*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The agreement of the conferees deletes authority for the Secretary to make transfers between appropriation accounts during fiscal year 1990.

Amendment No. 92: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment which limits the use of funds appropriated for the National Institutes of Health and the Alcohol, Drug Abuse and Mental Health Administration to pay the salary of an individual through a grant or other extramural mechanism at a rate in excess of \$120,000 per year. This language was requested by the President but had not been included by the House. This limitation does not restrict the salary of any researcher which is a matter between that individual and his employer. This provision merely limits the portion of that salary which may be paid with general funds.

Amendment No. 93: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the words "Conference Center" inserted by said amendment, insert: *International House*

Amendment No. 94: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

Sec. 219. Of the funds appropriated in this Act for the National Institutes of Health, a reduction of \$4,000,000 is to be applied to all appropriations as a result of improved procurement practices and a reduction of \$10,000,000 is to be applied to all appropriations as a result of savings achieved under section 217 of this title.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. This language results in savings of \$14 million as a result of improved procurement practices and extramural grant salary limitations at the National Institutes of Health.

Amendment No. 95: Deletes languages proposed by the Senate related to a change in the alcohol, drug abuse, and mental health block grant formula.

The conferees have deleted without prejudice a revision to section 1912A(b) of subpart I of part B of title XIX of the Public Health Service Act. The conferees are concerned about the impact of the current formula on States whose allocations have been adversely affected by the size of the formula's minimum State grant. The conferees understand that the necessary formula change is contained in the anti-drug abuse legislation passed by the Senate.

Amendment No. 96: Deletes language proposed by the Senate allowing funds from the sale of recycled solid wastes to be credited to the appropriation accounts of various agencies of the Department of Health and Human Services.

Amendment No. 97: Deletes language proposed by the Senate related to rural referral center regulations.

The conferees have deleted this provision without prejudice. The conferees understand a similar provision is pending in reconciliation legislation, which could be retroactive to the end of fiscal year 1989, thus avoiding reduction of Medicare reimbursement levels to hospitals designated as rural referral centers. In the interim, the conferees expect that no portion of the sums provided in this bill will be used to implement regulations relating to the classification of rural referral centers, until action has been completed on the fiscal year 1990 budget reconciliation legislation.

Amendment No. 98: Deletes language proposed by the Senate regarding a study of children whose mothers abused drugs during their pregnancy.

While the conferees have deleted this bill language, they nevertheless expect the Secretary of Health and Human Services to conduct the study described.

Amendment No. 99: Deletes language proposed by the Senate that would have required the Secretary of Health and Human Services by law to submit a report to Congress providing certain information, including budgetary information, and on the 20 illnesses that are the leading causes of death in the United States. The conferees believe however that such a report is necessary and direct the Secretary to provide it prior to next year's appropriations hearings.

Amendment No. 100: Deletes language proposed by the Senate related to a Presidential award for addiction research.

Amendment No. 101: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended to read as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 221. During the 12-month period beginning October 1, 1989, none of the funds made available under this Act may be used to impose any reductions in payment, or to seek repayment from or to withhold any payment to any State pursuant to section 427 or 471 of the Social Security Act, as a result of a disallowance determination made in connection with a compliance review for any Federal fiscal year preceding Federal fiscal year 1990, until all judicial proceedings, including appeals, relating to such disallowance determination have been finally concluded, nor may such funds be used to conduct further compliance reviews with respect to any State which is a party to such judicial proceeding until such proceeding has been finally concluded.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment inserts language which establishes a one-year moratorium on the assessment of penalties under Federal foster care programs.

TITLE III—DEPARTMENT OF EDUCATION

COMPENSATORY EDUCATION FOR THE DISADVANTAGED

Amendment No. 102: Appropriates \$5,434,777,000 instead of \$5,380,069,000 as proposed by the House and instead of \$5,080,762,000 as proposed by the Senate.

Amendment No. 105: Deletes language proposed by the House related to migrant education. This issue has been dealt with under Amendment No. 104.

Amendment No. 106: Earmarks \$33,197,000 for neglected and delinquent programs instead of \$34,778,000 as proposed by the House and instead of \$31,616,000 as proposed by the Senate.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The conference agreement inserts language proposed by the Senate which provides for a minimum State grant under the concentration grant program of \$340,000. Identical language was included in the fiscal year 1989 appropriation for this program. The agreement also inserts a new provision setting a minimum grant for State administration grants of \$375,000.

Amendment No. 109: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment which inserts legislative language permitting evaluation and technical assistance funds to be spent whether or not final regulations have been issued for those parts of the chapter 1 program which are currently funded. The conferees are agreed that this is the last year for such an exception. The House bill included no similar provision.

Amendment No. 110: Modifies language proposed by the House but stricken by the Senate by permitting the transfer of not to exceed \$125,000,000 for a new Merit Schools program and not to exceed \$50,000,000 for a new Magnet Schools of Excellence program only if such programs are specifically authorized in law prior to March 1, 1990. The House bill would have allowed \$350,000,000 to be transferred for these purposes. This action is not intended as a statement of support for these new programs. The decision regarding authorization of these initiatives should be made through the normal legislative process.

The conference agreement includes \$15,000,000 for new star schools grants in fiscal year 1990. Comprehensive School Health (sec. 4605)	4,000,000
Total	18,178,000

The conferees expect that not less than \$3,000,000 of the funds available for discretionary activities (sec. 4601) be used for the initiative to improve the educational performance and employment opportunities of "underachieving" students cited in the House report accompanying the bill. The conferees further expect that within the amount made available for federal activities under the Drug Free Schools national programs activity, \$500,000 should be used for innovative alcohol abuse education programs and administered as if appropriated under sec. 4607.

The conferees wish to make clear that the training and advisory services authorized by title IV of the Civil Rights Act will provide grants to 10 regional desegregation assistance centers and to civil rights units in State education agencies to enable them to assist school districts to address the problems associated with desegregation on the basis of race, sex, and national origin.

The conference agreement modifies Senate language to earmark \$2,000,000 for fellowships under the bilingual education program instead of \$1,500,000. The conference agreement also specifies that this will support approximately 200 trainees. The House bill includes no similar provision.

EDUCATION FOR THE HANDICAPPED

Amendment No. 124: Appropriates \$2,083,776,000 as proposed by the Senate instead of \$2,063,827,000 as proposed by the House. The conference agreement reallocates handicapped funds in compliance with authorization ceilings in the basic law.

The conferees are agreed that the Secretary may use up to \$1 million to support the development of descriptive video services for the blind if his study of this technology, which has been requested in H. Rept. 101-172, determines that the technology is commercially viable and that there is no significant opposition from the Federal Communications Commission. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have provided an increase in funding for the National Institute on Disability and Rehabilitation Research. It is the intention of the conferees that NIDRR establish a new research and training center dealing with the needs of low-functioning deaf individuals.

The conferees are also agreed that a portion of the increase provided to the National Institute on Disability and Rehabilitation Research should be used to develop improved prosthetic and orthotic devices using new technologies.

The Iowa Brain Injury Registry indicates over 10,000 head injuries occur in Iowa each year. Similar data are available for the State of Alabama. The conferees encourage the Department to consider those areas of high incidence of head injuries when making its awards for head-injury centers.

SPECIAL INSTITUTIONS FOR THE HANDICAPPED

AMERICAN PRINTING HOUSE FOR THE BLIND

Amendment No. 131: Appropriates \$5,740,000 instead of \$5,537,000 as proposed by the House and \$5,492,000 as proposed by the Senate.

The conferees note that California State University at Northridge, Gallaudet University, National Technical Institute for the Deaf, Postsecondary Education Consortium at the University of Tennessee, Seattle Central Community College, Southwest Center for the Hearing Impaired, and St. Louis Technical Institute have expertise in these areas.

The conferees direct the Secretary to grant the approval for the National Technical Institute for the Deaf to admit foreign students and that such students should pay a 50-percent tuition surcharge. The conferees intend this foreign student tuition surcharge be the same 50-percent rate for Gallaudet University and Howard University. In lieu of the sum proposed by said amendment insert the following: \$6,044,097,000 together with an additional \$131,000,000 which shall be available only for unfinanced costs in the 1989-90 award Pell Grant program: Provided, That \$286,000,000 shall only be available if such funds are necessary to pay a maximum grant of \$1,000 during the 1990-1991 program year: Provided further, That notwithstanding section 479A of the Higher Education Act of 1965 (U.S.C. 1001 et seq.), student financial aid administrators shall be authorized, on the basis of adequate documentation, to make necessary adjustments to the cost of attendance and expected student or parent contribution (or both) and to use supplementary information about the financial status or personal circumstances of eligible applicants only for purposes of selecting recipients and determining amount of awards under subpart 2 of part A, and parts B, C, and D of title IV of the Act: Provided further, That notwithstanding section 411(b)(6)(B) of the Higher Education Act of 1965 as amended no basic grant under subpart 1 of part A of title IV of

that Act shall be awarded to any student who is attending on a less than half-time basis for a period of enrollment beginning on or after January 1, 1990, except that any such student who received a basic grant for a period of enrollment beginning before January 1, 1990, shall be eligible to receive a basic grant for a period of enrollment beginning on or after such date from funds appropriated for fiscal year 1989: Provided further, That notwithstanding section 411(b)(6)(B) of the Higher Education Act of 1965 as amended, no basic grant under subpart 1 of part A of title IV of that Act shall be awarded from funds appropriated for fiscal year 1990 to any student who is attending on a less than half-time basis: Provided further, That any institution participating in any loan program authorized under part B of title IV of the Higher Education Act of 1965 as amended, with a default rate, as determined by the Secretary, that exceeds 30 percent shall implement a pro rata refund policy that complies with minimum standards established by the Secretary in regulations, for any title IV aid recipient who withdraws before the earlier of six months from the beginning of the course of study for which the loan was received, or the date on which the student completes one-half of that course and these provisions, except as specifically indicated, shall apply to all fiscal year 1990 funds

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement departs from the structure of the House and Senate bill by providing a combination of additional appropriations and legislative modifications in response to radically revised cost estimates generated by the Administration for the Pell Grant program. The President submitted a revised budget request for this program on July 25, 1989 adjusting his estimate of program costs upward by an additional \$696 million. This new estimate included \$331 million for a perceived shortfall in fiscal year 1989 and \$365 million as a reestimate for 1990 program costs. Because of the extreme fluctuations in these estimates, the Senate Committee asked the Comptroller General to review the Administration's estimating procedures as well as the accuracy of its budget request. The conferees look forward to reviewing this report in January of 1990.

On September 29, 1989, however, after a series of messages on this matter, some of which were confusing and contradictory, the Office of Management and Budget informed the Congress that additional funds were not explicitly provided for fiscal year 1989 in the regular 1990 appropriations bill, the Administration would immediately seek to recover all or part of Pell Grants already awarded to 1.4 million students for the 1989/1990 academic year. Cost estimates calculated by the Congressional Budget Office, on the other hand, indicate a 1989 funding shortfall of not more than \$131 million and that program costs for 1990 are likely to be up to \$300 million less than the revised budget estimate submitted by the Administration.

Based on this information, the conferees have provided an immediate appropriation of \$131 million to cover the funding shortfall for the 1989/1990 academic year. Although the conferees have provided explicit legislative authority for the use of funds for the

shortfall, the conferees do not necessarily concur in OMB's view that this language is necessary in order for funds to be used for this purpose. The conferees note that OMB's policy differs substantially from previous Administration practice in handling the financing of current year shortfalls. As a result of this 1989 appropriation and some 1989 savings achieved through the provisions cited below, the conferees consider any attempt to impose a linear reduction of Pell Grant awards in the current academic year to be both unacceptable and unnecessary.

The conference agreement also includes the following legislative actions intended to deal with the Pell Grant funding problem:

Legislative language identical to current law limiting the discretion of student aid administrators in adjusting Pell Grant awards at the campus level;

Legislative language implementing the Administration's proposal for the implementation of pro-rata refund policies at postsecondary institutions with loan default rates in excess of 30 percent;

Legislative language delaying the eligibility of students attending on a less than half time basis for Pell Grant awards. An exception will be made for the 1989/1990 award year for less than half time students that have been awarded a Pell Grant for a period of enrollment beginning prior to January 1, 1990.

The conferees have agreed to these legislative changes reluctantly because of jurisdictional concerns but consider these provisions to be reasonable ones which are directed at recognized problems which contribute to the funding difficulties with the Pell Grant program.

GUARANTEED STUDENT LOANS

Amendment No. 140: Appropriates \$3,826,314,000 as proposed by the Senate instead of \$3,651,000,000 as proposed by the House.

Amendment No. 141: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

That part of the matter stricken and inserted by said amendment, be the following: for titles I, III, IV, section 501, 523, and subpart D of title V, and titles XII,

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes \$115,000,000 for special programs for the disadvantaged, TRIO. In addition to these funds, the conferees direct the Secretary to implement the language in the House report relating to Upward Bound, \$27,000,000 of the increase provided in this account to fund

an additional 25 applications from those already approved, but unfunded, in the recently-held competition.

The conferees also expect that within the amount made available for School, College, University Partnerships program, not less than \$400,000 shall be used for a competition based on the initiative described in the Senate report accompanying the bill.

Within the amount made available for international education domestic programs, the conferees expect that not less than \$5,000,000 shall be available for the international business education centers initiative authorized under section 6261 of the Omnibus Trade Act of 1988. The conferees note that a much smaller sum was competed under this program in fiscal year 1989 and that the authorizing statute does not prohibit the 1989 grantees from competing for an expanded level of support in 1990. The conferees expect continuing projects to be considered on an equal basis with new applications in the competition for 1990 funds and do not intend that any continuation grant would be automatically reduced in its second year.

Funds available for the various activities at Howard University may be reprogrammed if approved by the House and Senate Appropriations Committee using the normal reprogramming procedures.

The conference agreement provides for a 50 percent tuition charge for foreign students which is to be phased in over a three year period. The conferees expect the Secretary of Education to concert with the appropriate University authorities, to submit a plan to the House and Senate Appropriations Committees no later than January 1, 1990 describing the procedures for implementation of this surcharge.

Amendment No. 148: Earmarks \$1,500,000 for the endowment program instead of \$7,458,000 as proposed by the House and instead of \$1,482,000 as proposed by the Senate.

\$5,000,000 for the National Board for Professional Teaching Standards. These funds are provided contingent on the enactment of legislation authorizing this appropriation to the Board. These funds are to remain available for this purpose through the entire fiscal year and may not be used for any other purpose unless a transfer of these funds is approved in writing by the House and Senate Appropriations Committees through the normal reprogramming procedure.

The House bill did not provide funds for this activity.
