

I have the honour to refer to the Exchange of Notes dated October 24, 1962 concerning the *Coordination and Use of Radio Frequencies Above 30 Megacycles per Second* and to the Exchange of Notes of June 6 and 24, 1965 amending the Technical Annex of the said Agreement.

During a series of discussions concerning the operation of fixed and mobile radio services along the border, the representatives of our two Governments have reached an understanding which is embodied in the *Arrangement between the Department of Communications of Canada and the National Telecommunications and Information Administration and the Federal Communications Commission of the United States Concerning the Use of the 406.1 to 430 MHz in Canada/United States Border Areas* annexed to this note.

This Arrangement should be annexed to the above-mentioned Agreement as Arrangement E. The Index to the Technical Annex should be modified in order to add, after item 33, a new item which would read as follows:

<u>Item</u>	<u>Frequency Bands Mc/S</u>	<u>Authorized Coordination Agencies or Channels</u>		<u>Coordinating Agreements and Remarks</u>
		<u>U.S.</u>	<u>Canada</u>	
33 bis	406.1-430	NTIA	DOC	Arrangement E

In view of the fact that the United States has not decided how the 421 to 430 MHz band will be shared between the Government and the non-Government users of the spectrum, it may be necessary, once this decision has been made, to change the coordination channel for stations in the fixed and mobile services operating in the band 421 to 430 MHz.

If the proposals outlined above are acceptable to the Government of the United States, I have the honour to propose that this note, which is authentic in English and French, and your reply to that effect shall constitute an agreement between our two Governments which shall enter into force on the date of your reply.
