

10.11.2005 4/70
Protocol 2

ARTICLE 1. PURPOSE

The band 470-512 MHz is allocated to the land mobile and
the television broadcasting services. The United States of
America at this time plans to make no further allocations in
that band for land mobile purposes and recognizes the need of
the United Mexican States to use part of this band for land
mobile purposes and agrees to facilitate the implementation
such use in the United Mexican States consistent with its own
requirements for television broadcasting in the band.

PROTOCOL CONCERNING USE OF
THE 470-512 MHZ BAND FOR LAND MOBILE SERVICES
ALONG THE COMMON BORDER

This Protocol is being concluded pursuant to the Agreement
Between the Government of the United States of America and the
Government of the United Mexican States Concerning the
Allocation and Use of Frequency Bands by Terrestrial
Non-Broadcasting Radiocommunication Services Along the Common
Border signed June 16, 1994, herein referred to as the
Agreement.

ARTICLE I. Purposes

The band 470-512 MHz is allocated to the land mobile and to the television broadcasting services. The United States of America at this time plans to make no further allocations in that band for land mobile purposes and recognizes the need of the United Mexican States to use part of this band for land mobile purposes and agrees to facilitate the implementation of such use in the United Mexican States consistent with its own requirements for television broadcasting in the band

ARTICLE II. Definition

For purpose of this Protocol and as provided for in Article IV of the Agreement, the term Administration(s) shall refer to the Federal Communications Commission of the United States of America and the Secretaria de Comunicaciones y Transportes of the United Mexican States.

ARTICLE III. Conditions of Use

1. The assignment of frequencies in the band 470-512 MHz for the land mobile service in areas less than 150 kilometers from the common border can be made only after coordination with and concurrence by the other country.

2. In areas near the Pacific Coast and the coast of the Gulf of Mexico, where the propagation characteristics are unusual, coordination and concurrence may be required for greater distances. Such distances will be determined by mutual agreement following propagation tests to be conducted jointly by both Administrations, and those distances will be the maximum distances within which coordination will be required.

3. The country which has authorized, or which may in the future authorize, land mobile stations in the 470-512 MHz band within 150 kilometers of the common border shall furnish the other country complete details including the television channels used and the technical parameters of the land mobile stations authorized.

ARTICLE IV. Entry Into Force and Termination

This Protocol shall enter into force on the same date as the Agreement. It shall remain in force until it is replaced by a new Protocol, or until it is terminated in accordance with Article VII of the Agreement.

IN WITNESS WHEREOF, the respective representatives have signed the present Agreement.

Done at Williamsburg, Virginia, this sixteenth day of June, 1994, in duplicate, in the English and Spanish languages, both texts being equally authentic.
