Dear Mr. Bench:

The North American Numbering Council (NANC) has been informed that the NIIF is working on an issue related to the Toll Free Record Application performance problems under Issue 173. The NANC considers the resolution of this matter to be of an urgent nature and requests that the NIIF propose a solution to the problem and report back to the NANC by November 28, 2000, if at all possible.

Please contact me at 913-362-0945 should you have any questions. Thank you for your attention to this important matter.

Sincerely,

John R. Hoffman  
NANC Chair
