

Universal Service Fund 2013 Data Collection Instructions

The data requested here is required by FCC rules (47 C.F.R. 36.611) to be submitted annually to NECA. This data is due to NECA by July 31, 2013. Data for voluntary quarterly updates must be in accordance with FCC rules (47 C.F.R. 36.612). Price Cap study areas and Price Cap affiliated Rate of Return study areas are no longer required to provide this data.

The 2013 Data Collection Form is similar to the one used last year, with your company-provided data for last year printed for reference. Please confirm the Contact Name and Telephone Number on Data Lines (020) and (030) and make any necessary changes. Then, starting on Data Line (060), enter the amounts for the 12-month period ending December 31, 2012, in the spaces provided.

The mechanized USF System will be available beginning June 4, 2013 for direct, online use to enter and analyze your company's data. Data must be entered, edited and range checked, and Released or Special Released by July 31, 2013. If you choose not to use the USF System to enter your data online, please return the completed form via mail or fax to your NECA Regional office by July 31, 2013.

Regardless of the method used to submit data, a Certification statement, included as the last two pages of this Data Collection Form, is required by FCC rules for all data submissions to NECA (annual, quarterly and any subsequent revisions to the above data submissions). The certification must be signed by the officer or employee responsible for the overall preparation of the data submission. The rural status of the company must be confirmed in Section VII.A. Any data submitted for exchanges acquired by LEC study areas may be certified by completing Section VII.B on the Data Collection Form. Data for multiple LEC study areas of a single holding company may be certified by completing Section VII.C of the Data Collection Form. The certification should be sent to your NECA Regional office by July 31, 2013 to complete the collection process. Please read the sections on **DATA REQUIREMENTS** and **RECONCILIATION REQUIREMENTS** on the next page. These are the guidelines which will be used by NECA to assure your data is in conformance with FCC rules and consistent with data used for separations purposes.

Each line on the Data Collection Form includes a Data Line reference number; a description of the information being requested; a Latest View 2012-1 Amount supplied for comparison; and a Pending View 2013-1 Amount field. Example:

<u>Data Line</u>	<u>Description</u>	<u>Latest View 2012-1 Amount</u>	<u>Pending View 2013-1 Amount</u>
(250)	Circuit Equip. Category 4.13	8,710	_____

The Data Line descriptions included in these Instructions follow a similar format. Data Line numbers and descriptions are provided followed by a brief explanation of the type and often the possible source of the data to be entered. References to applicable parts of FCC rules are provided in brackets.

Please contact your NECA Regional Office with any questions regarding the Data Collection Form or these Instructions.

NON-REGULATED ACTIVITIES MUST BE EXCLUDED FROM AMOUNTS REPORTED FOR USF PURPOSES.

Universal Service Fund 2013 Data Collection Instructions

DATA REQUIREMENTS

Data required for this submission and voluntary quarterly submissions must be unseparated regulated amounts (i.e., combined state and interstate), actual or calculated amounts as of the end-of-period and must be in accordance with FCC rules. Preliminary or estimated amounts must be revised and reported to NECA when finalized data is available.

Data must be representative of the regulated telephone operations only, as authorized by the FCC, for the 12-month USF Data Collection Period (Data Line 040) for which it is being submitted. Investment, expenses, taxes, benefits and rents, etc., associated with non-regulated operations and costs associated with plant leased to other entities must be excluded. The non-regulated portion of accounts used for both regulated and non-regulated activity, e.g., motor vehicle, plant maintenance, benefits and rents, etc., must be excluded.

Pursuant to section 36.611 of the FCC's rules, rural telephone companies that acquire exchanges from another incumbent local exchange carrier, and merge the acquired exchanges into existing study areas, must provide separate data collection forms for the acquired and existing exchanges. Companies that acquire exchanges from competitive local exchange carriers should maintain separate data records for the acquired and existing exchanges pending further clarification from the FCC.

A cost study used for developing categorization factors for USF purposes must be representative of the period for which Part 32 data is being reported. If a preliminary or prior period cost study is used, USF data must be revised and reported to NECA when the finalized current period study is available. If cost study data is not available for voluntary updates, the data reported for use in developing categorization factors must be representative of the period for which Part 32 data is being reported and include the normal adjustments that would be used for the cost study (e.g., spreading of power and common equipment, exclusion of non-regulated costs, any other appropriate cost study adjustments).

Some Data Line entries are for specific subaccounts. For example, Account 3100 (2210) on Data Line (260) is the amount of Account 3100, Accumulated Depreciation, attributable to Central Office Switching Equipment, Account 2210.

RECONCILIATION REQUIREMENTS

The USF mandatory Annual Data Collection (year end) and Voluntary Updates (12-month periods ending March 31, June 30 and September 30) will be reconciled to corresponding financial data when it becomes available (i.e., finalized financial records) for all study areas involved in the USF process. In order to achieve the objective of ensuring that these reconciliations are completed in a consistent manner, a set of reconciliation guidelines has been developed.

These guidelines require that any adjustments necessary to bring data into compliance with FCC Rules (subject to separations) should be reflected in the USF Annual Data Collection data and will be the basis of reconciliation to year-end financials underlying cost studies. Voluntary updates must be reconciled to period-ending company financial data. Information submitted by the company as part of the normal Cost

NON-REGULATED ACTIVITIES MUST BE EXCLUDED FROM AMOUNTS REPORTED FOR USF PURPOSES.

Universal Service Fund 2013 Data Collection Instructions

Study Documentation requirements or its equivalent will be used by NECA staff in completing the reconciliation, wherever possible. If the cost study is revised, then for USF data to remain consistent, appropriate USF adjustments must be reported to NECA. In cases where the reconciliation involves non-calendar-year fiscal companies, the data would involve comparison of information that encompasses amounts representing year-end amounts or equivalents for the USF period under review.

This reconciliation is intended to ensure that various financial information, based on the same source (company financials), although provided at different times to different users, is consistent and fully complies with FCC rules. In all cases the EC will be notified of USF reconciliation data changes affecting their company.

AVERAGE SCHEDULE TO COST CONVERSIONS

All study areas that are cost rate of return not affiliated with Price Cap carriers as of December 31st are required to submit the USF mandatory Annual Data Collection to NECA by July 31st. (For example, if a study area converted to cost during 2012, cost 2013-1 data must be submitted in July 2013.)

Study areas that convert to cost settlements after December 31st may submit cost USF data during the Annual Data Collection. (For a March 2013 conversion, cost 2013-1 data may be submitted in July 2013.) These study areas may also submit cost USF data for the prior Annual Data Collection. (For a March 2013 conversion, cost 2012-1 data may be submitted in March 2013.)

In addition to the prior Annual Data Collection, companies have the option of submitting prior Quarterly Updates for the same USF year. (For a March 2013 conversion, cost 2012-2 and/or cost 2012-3 data may be provided in March 2013.) Prior Quarterly Updates will not be accepted unless the associated Annual Data Collection is provided. Both the prior annual data and the prior quarterly data must be submitted at the same time. (For a March 2013 conversion submitting a quarterly update in March 2013, cost 2012-1, cost 2012-2 and cost 2012-3 data would be submitted at the same time.)

Study areas that convert to cost settlements during the fourth quarter may submit cost USF data for the both the most recently filed Annual Data Collection and the prior Annual Data Collection. (For a November 2013 conversion, cost 2012-1 and cost 2013-1 data may be submitted in November 2013.)

Certifications are required for all submitted USF data.

NON-REGULATED ACTIVITIES MUST BE EXCLUDED FROM AMOUNTS REPORTED FOR USF PURPOSES.

(250) Circuit Equipment - Category 4.13
[Part 36.126]

Enter the investment in Central Office Equipment Category 4.13 including power and common equipment. Development of this amount must be consistent with Responsible Accounting Officer Letter 21, dated September 8, 1992. If the end-of-period investment is not directly available, there are two alternative methods, described below, that can be used for obtaining this amount. If preliminary or estimated data is used, the amount must be revised and reported to NECA when the finalized data is available.

Method 1 - Part 36 Study

1. $\frac{\text{Cat 4.13 incl. power and common (Cost Study)}}{\text{Total Central Office Equipment (Cost Study)}} = \text{Ratio} [.xxxxxx]$
2. $\text{Ratio (Step 1)} \times \text{Data Line (245)} = \text{Data Line (250)}$

Method 2 - Continuing Property Records For End-of-Period

If the CPR end-of-period coincides with the USF end-of-period, complete only Steps 1 and 2 below and enter the sum on Data Line (250).

If the CPR end-of-period is different from USF end-of-period, then complete Steps 1 through 4 below:

1. Determine the investment in Category 4.13 from the CPR, excluding power and common equipment.
2. Determine the amount of power and common equipment assigned to Category 4.13. [Part 36.121(c)(1)]
3. $\frac{\text{Step 1} + \text{Step 2}}{\text{Account 2230 (CPR end-of-period)}} = \text{Ratio} [.xxxxxx]$
4. $\text{Ratio (Step 3)} \times \text{Data Line (240)} = \text{Data Line (250)}$

Enter method used in Data Source column for Data Line (250) and retain all work papers.
