## FEDERAL COMMUNICATIONS COMMISSION

### Privacy Act System of Records.

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice; one new Privacy Act system of records; three deleted systems of records.

**SUMMARY:** The Federal Communication Commission (FCC or Commission, or the Agency) proposes to add one new, consolidated system of records, FCC/OMD-25, Financial Operations Information System (FOIS) to its inventory of records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a) as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency (5 U.S.C. 552a(e)(4)). FCC/OMD-25 will consolidate the three system of records, FCC/OMD-6, Financial Accounting Systems (FAS), FCC/OMD-9, Commission Registration System (CORES), and FCC/OMD-19, Denial of Federal Benefits (Drug Debarment List), and also add new and/or updated information that pertains to the mission and activities of the FCC's Financial Operations (FO) organization in the Office of Managing Director, which are associated with the Commission's financial and budgetary operations, programs, activities, and transactions, and the related telecommunications functions. Upon approval of FCC/OMD-25, the Commission will cancel FCC/OMD-6, FCC/OMD-9, and FCC/OMD-19.

**DATES:** Written comments are due on or before November 7, 2016. This action will become effective on November 15, 2016 unless comments are received that require a contrary determination.

**ADDRESSES:** Send comments to Leslie F. Smith, Privacy Analyst, Information Technology (IT), Room 1-C216, Federal Communications Commission (FCC), 445 12th Street SW., Washington, DC 20554, (202) 418-0217, or via the Internet at [Leslie.Smith@fcc.gov](mailto:Leslie.Smith@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** Leslie F. Smith, (202) 418-0217, or [Leslie.Smith@fcc.gov](mailto:Leslie.Smith@fcc.gov), and to obtain a copy of the Narrative Statement, which includes details of this proposed new system of records.

**SUPPLEMENTARY INFORMATION:** The FCC previously gave notice of the three systems of records, FCC/OMD-6, Financial Accounting Systems (FAS), FCC/OMD-9, Commission Registration System (CORES), and FCC/OMD-19,

Denial of Federal Benefits (Drug Debarment List), which it intends to cancel upon approval of FCC/OMD–25, Financial Operations Information System (FOIS), by publication in the **Federal Register** on April 5, 2006 (71 FR 17234, 17250, 17253, and 17264 respectively). The Financial Operations Information System (FOIS) consolidates the three separate systems of records: FCC/OMD–6, Financial Accounting Systems (FAS),<sup>1</sup> FCC/OMD–9, Commission Registration System (CORES),<sup>2</sup> and FCC/OMD–19, Denial of Federal Benefits (Drug Debarment List),<sup>3</sup> and extends coverage to all other related FO financial and budgetary information systems, subsystems, databases, records, and paper document files, which include but are not limited to Genesis, Fee Filer, Red Light Display System, Accounts Payable and Accounts Receivable, Research Reconciliation and Reporting, Budget Center, Electronic Form 159/Remittance Over Secure Internet E-Commerce (ROSIE) system, Pay Fees system, Commission Registration System (CORES), Historical Collections system, Historical Loans system, International Telecommunications Settlements invoicing systems, FO-Administration, system-to-system integrations, databases, and related FO documents and forms. This consolidation will create a single, organization-wide, and consistently-defined system of records that also provides various improvements, which include, but are not limited to, increased efficiency in the Commission's reporting capabilities and enhanced reliability and consistency in the Commission's financial and budgetary data and related management and oversight of these telecommunications programs, functions, and activities.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Information in this system is maintained as follows:

1. Electronic data, records, and files are housed in the FCC's computer network databases and/or at a FCC authorized contractor;
2. The DOJ maintains the Drug Debarment data at its facilities and transfers the Drug Debarment data files to the FCC under the terms of the matching agreement. These files are immediately discarded by the FCC after being loaded into the secure database on the FCC's computer network; and
3. Paper documents, including printouts and other related materials, records, and files are stored in the FO office suite and at a FCC authorized contractors.

**RETRIEVABILITY:**

1. Retrieval of records in the FCC's financial and budgetary (electronic) information systems, subsystems, and databases includes, but is not limited to the individual's name and/or type of transaction, call sign, processing number, SSN, ITIN, FRN, vendor code, fee control number, payment ID number, and/or sequential number.
2. Paper documents, records, and files can be similarly retrieved (manually) by these data markers.

3. Retrieval of records in the Drug Debarment database is as follows:

- (a) An initial search is done using the name and ITIN or name and zip code

between the Drug Debarment database and the CORES registration databases (*i.e.*, from the database with the name of an application on file with the FCC, which the FCC will then review).

(b) A subsequent search is done if an individual with a preliminary match file an FCC application or requests services from the FCC. The FCC may obtain additional data elements from DOJ, such as address, zip code, and, if required by the FCC application, date of birth, in order to determine if there is an actual match.

(c) An additional file search, as required, may also include the FCC confirmation report, identifying information obtained from the DOJ debarment entry and any correspondence with the applicant attached to the individual's application.

**SAFEGUARDS:**

1. The FCC's IT privacy safeguards include a comprehensive and dynamic set of safety and security protocols that are designed to meet all Federal IT privacy standards, including those required by the National Institute of Standard and Technology (NIST) and the Federal Information Security Act of 2002 (FISMA). The protocols cover all electronic records, files, and data, including those that are housed in the FCC's computer network databases; and those information system databases that are housed at the FCC's authorized contractor(s). The DOJ's Drug Debarment Databases, which are co-located with and secured under these same safety and security standards as individual registration records, also comply with NIST and FISMA requirements. The drug debarment data files are immediately discarded by the FCC after being loaded into the secure database. In addition, the FCC discards extraneous information, unless it is required by the FCC to determine a data match, or for other requirements.

2. There are a limited number of paper documents, files, and records, which are stored in file cabinets in the FO office. All access points for the FO office suite are monitored. These cabinets are locked when not in use and/or at the end of the business day.

3. Furthermore, as part of the FCC's privacy safeguards, only authorized FCC supervisors, employees, and contractors (including sole proprietor contractors) may have access to the electronic data and the paper document files.

**RETENTION AND DISPOSAL:**

1. The financial records are retained at the FCC for six to seven years following the end of the current fiscal year:

(a) Financial records are stored at the FCC's facility for two years; then

(b) Financial records are transferred for to an authorized FCC contractor for off-site storage for the duration of the required records retention schedule period, *i.e.*, four years and three months.

2. The records are then transferred to the National Archives and Records Administration's (NARA) Federal Records Center and destroyed by shredding when 6 years and 3 months old. Electronic records are destroyed physically (electronic storage media) or by electronic erasure. Paper records are destroyed by shredding.

3. (a) The match reports from the Drug Debarment database list are retained by the FCC for only as long as it is necessary to obtain the debarment entry information and corresponding application for manual confirmation of the match. Thereafter, the paper match reports are shredded. The electronic data are destroyed by electronic erasure.

(b) However, periodically, a match report will be randomly retained for a period of an additional 90 to 120 days to provide a quality check of the verification process. Where the verification process establishes that a match does not indicate that the applicant has been denied Federal benefits under section 5301, the debarment entry information used in that determination is retained by the FCC for 30 days after the application has cleared the debarment check.

(c) The debarment entry information relating to match reports that is retained for quality control purposes is retained until that quality check is completed. Where a match is confirmed by the manual verification process, the debarment entry information is retained for a period of at least 90 days after the date of the letter referred to above. If the

application contests the determination that a section 5301 denial of Federal benefits bars a grant of the application, the debarment entry information is retained until such time as the FCC's action on the application is no longer subject to review in any court.
