March 1, 2007

Fred Campbell
Chief, Wireless Telecommunications Bureau
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Dear Mr. Campbell:

Pursuant to Section 27.607 of the Federal Communications Commission’s (“FCC”) Rules1 and the Memorandum Opinion and Order granting its request for waiver to provide band management services in the 220-222 MHz band2, Access 220, LLC (“Access 220”), a wholly owned subsidiary of Access Spectrum, LLC, is pleased to provide this Annual Report on its progress in providing band management services utilizing its 220-222 MHz licenses.

As of January 1, 2007, Access 220 had entered into nine Spectrum Use Agreements (“SUA”), all of which are with unaffiliated entities. Four SUAs authorize the deployment of voice systems and have ten-year terms. Three SUAs authorize the deployment of fixed data systems and have ten-year terms. One SUA authorizes the deployment of a fixed data system and has a five-year term. One SUA authorizes the deployment of a voice and data system and has three-year term.

Access 220 continues to make progress towards its spectrum leasing business plans, consistent with its business objectives and FCC expectations and expect to continue to provide high-quality service through our 220 MHz assets. Building on this foundation, Access 220 will continue to work to meet additional demand for 220-222 MHz spectrum. Please feel free to contact me if you have any questions.

Sincerely,

Andrew J. Rein
