Overview

Purpose of Form
Form FCC 605 is a multi-purpose form. It is used to apply for an authorization to operate radio stations, amend pending applications, modify existing licenses, and perform a variety of other miscellaneous transactions (refer to page 4 and 5 of these instructions for a detailed list) in the Wireless Telecommunications Bureau (WTB) radio services. This includes the Ship Radio, Aircraft Radio, Amateur Radio, Restricted and Commercial Operator Radio, and the General Mobile Radio [GMRS] Services. The purpose of this form is to collect data pertaining to the proposed request. This data is used by the FCC to determine whether the public interest would be served by a grant of the request.

Introduction
FCC Form 605 is a multi-part form comprising a main form and several schedules. Each application or amendment must contain only one Main Form (Pages 1 and 2).

Main Form
The purpose of the Main Form is to obtain information sufficient to identify the filer and establish the filer's basic eligibility and qualifications. The Main Form also contains the required certification and signature block. The Main Form is required for every application or amendment filed on FCC Form 605.

Schedules
The purposes of the optional schedules are as follows:

Schedule A
The Schedule for Changes Affecting Multiple Call Signs or File Numbers is used to submit global changes to items on the FCC 605 Main Form that affect either multiple call signs or multiple file numbers.

Schedule B
The Schedule for Additional Data for the Ship Radio Service (47 CFR Part 80) is used to submit the required additional parameters for ship stations including search & rescue information. This schedule is used in conjunction with the Main Form.

Schedule C
The Schedule for Additional Data for the Aircraft Radio Service (47 CFR Part 87) is used to submit the required additional parameters for aircraft stations. This schedule is used in conjunction with the Main Form.

Schedule D
The Schedule for Additional Data for the Amateur Radio Service (47 CFR Part 97) is used to submit the required additional parameters for amateur stations. This schedule is used in conjunction with the Main Form.

Schedule E
The Schedule for Additional Data for Commercial Radio Operators, Restricted Radiotelephone, and Restricted Radiotelephone-Limited Use Radio Services (47 CFR Part 13) is used to submit the required additional parameters for these licenses and permits. This schedule is used in conjunction with the Main Form.

Schedule F
The Temporary Operator Permit for the Ship, Aircraft, Restricted Radiotelephone, Restricted Radiotelephone-Limited Use, and GMRS Radio Services is used to obtain a Temporary Operator Permit while the applicant's application is being processed by the Commission. This schedule can only be completed and retained by the applicant upon submission of a completed and signed FCC 605 Main Form and appropriate Additional Data Schedule to the FCC.

Schedule G
The Schedule for Exemption From Ship Station Requirements is used to supply information for exemption in the Ship Radio Service (Part 80.59c). This schedule is used in conjunction with the Main Form.

Item 2 You must indicate the purpose for which the application is being filed by inserting the appropriate two-letter abbreviation from the following list. Only one purpose may be specified. For the General Mobile Radio Service [GMRS], effective January 1, 1989, 'new' or 'major modifications' may not be filed by business applicants/licensees.

NE - New: To request a new license. This purpose should only be used for initial applications. A change in vessel or aircraft constitutes a need for a new license. MD - Modification: To request a change in the conditions of any data for a license during the term of that license. Use Item 5 to provide the call sign (serial number for Commercial Operator License) of the affected station. The appropriate schedule must be completed and attached, and must accurately describe the data that has been modified. See applicable Commission rules. Choose purpose MD if you are requesting consolidation of DO and DM (Commercial Operator).

Note: After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for Modification.

Note: If the only changes desired are to administrative data, use the Administrative Update purpose instead of Modification (see Administrative Update purpose below for further description of administrative updates).

RM - Renewal/Modification: To renew (within the specified renewal time frame, must be filed no later than expiration date of the authorization and no sooner than 90 days prior to expiration date) an existing authorization and request a change in the conditions for that authorization. The appropriate schedule must be completed and attached, and must accurately reflect the data that has been modified. If you wish to consolidate DO and DM (Commercial Operator) licenses and renew at the same time, choose purpose RM.
