## General Instructions

### Purpose of Form

FCC Form 601 is used to apply, or to amend a pending application, for an authorization to operate a license in the Commercial Mobile Radio, Auctionable Fixed Microwave and Personal Radio Services.

FCC Form 601 is a multi-sectional form. Each application or amendment may contain as many Schedules as necessary.

### **Who Must File What Forms and When**

All initial long-form applications for auction winners should be filed using the FCC Form 601. Further, all additional applications and similar requests by auction licensees (i.e., modification requests, amendments, renewals, cancellations, notifications, extensions of time, and so on) should be filed using this FCC form. Incumbent licensees who received authorization from the FCC prior to auctions (i.e., Cellular Radiotelephone, Paging and Radiotelephone, Specialized Mobile Radio, 929-930 MHz Paging Systems and Public Coast Stations) should continue to use the same forms as they have previously. Only licensees in these services that have received their license via auctions should use the FCC Form 601.

### **Information Current and Complete**

Information filed with the FCC must be kept current and complete. The applicant must notify the FCC regarding any substantial and significant changes in the information furnished in the application(s). See Section 1.65 of the Commission's rules.

Item 8 Enter the letter that indicates the type of legal entity applying.

► **Legal Name of Applicant**

Items 9 through 21 identify the applicant. If an authorization is granted, the information provided will become the licensee's name, address, and telephone number of record. The FCC will send the authorization and notice of all final dispositions of an application to this address.

Items 9-10 If Item 8 is I (for Individual), enter the name of the person applying in Item 9. Otherwise, enter the name of the entity in Item 10.

Item 11 Enter the name of the Real Party in Interest (i.e., the party showing *de facto* and *de jure* control) of the applicant. The Real Party in Interest is the individual or entity with ultimate or overall control of the license or application. For the detailed definition of the Real Party in Interest, refer to the Commission's rules, especially Sections 24.413, 24.813, and 27.307. It may also be necessary to file the FCC Wireless Telecommunications Bureau Ownership Form, FCC Form 602.

Failure to respond to FCC correspondence sent to the address of record may result in dismissal of an application, liability for forfeiture, or revocation of an authorization.

Item 21 Enter the applicant's e-mail address, if desired and available.

► **Contact Information**

Items 22-31 These items identify the contact representative, if different from the applicant. This is usually the headquarters office of a large company, the law firm or other representative of the applicant, or the person or company that prepared or submitted the application on behalf of the applicant. If there is a question about the application, an FCC representative will communicate with the applicant's contact representative.

If this section is used, a name (Item 22) and telephone number (Item 29) are required at a minimum. If the address items are completed, you may enter a post office box number in Item 24 or a street address in Item 25, or enter information for both items.

► **Regulatory Status**

Item 32 Enter the letters for all types of radio service offerings that apply to the service being provided. Use the Modification (MD) purpose in Item 2 to change or add radio service offerings. If Common Carrier is selected, the applicant must have a complete and up-to-date Ownership Form, FCC Form 602, with applicable schedules, either on file or filed with this application.

All entities that are "telecommunications carriers" should select common carrier on this form. The term "telecommunications carrier" means any provider of telecommunications services, except that such term does not include aggregators of telecommunications services (the term "aggregator" means any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services). A telecommunications carrier shall be treated as a common carrier under the Communications Act and the Commission's rules (i.e., as an entity which holds itself out for hire indiscriminately, in interstate or foreign communications by wire or radio, or in interstate or foreign radio transmission of energy, for the purpose of carrying transmissions provided by the customer), only to the extent that it is engaged in providing telecommunications services.

The term "telecommunications service" means the offering of telecommunications (i.e., the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received) for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

Non-common carriers generally do not hold themselves out indiscriminately for hire as carriers of communications provided by the customer. A person engaged in radio broadcasting shall not, insofar as such person is so engaged, be deemed a common carrier. Thus, those entities not engaged in for hire carriage of communications would select non-common carrier for this item of the Form 601.

Private carriers would consist of all entities that are utilizing telecommunications services purely for internal business purposes or public safety communications and not on a for hire or for profit basis. Such entities should select "private" on the Form 601.

► **Type of Radio Service**

Item 33 Enter the letters for all applicable types of radio services.

Item 34 Mark this item Y if the applicant proposes to provide interconnected service to the public switched telephone network, as defined in the FCC rules. Otherwise, mark this item N.

► **Fee Status**

Items 35-37 These items allow the applicant to apply for exemption from FCC application fees and regulatory fees. See the instructions for FCC Remittance Advice, FCC Form 159.

► **Environmental Policy**

Item 38 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either Y or N.

Enter Y if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

If this item is answered Y, complete the Environmental Data section of the Schedule for Auctionable Services, FCC Form 601, Schedule B, and attach an Environmental Assessment.

► **Alien Ownership Questions**

Items 39-43 These items request indications and information that enable the FCC to determine whether an applicant is eligible under Section 310 of the Communications Act of 1934, as amended to hold a station license. The FCC cannot grant an authorization to a foreign government or the representative of a foreign government. Therefore, if the true and correct answer to Item 39 is "yes," the applicant is not eligible for a license and the FCC will dismiss the application, if filed, without further consideration. The FCC cannot grant an authorization to provide commercial radio service to any applicant for which the true and correct answer to Item 40, 41, or 42 is "yes." The applicant must answer all questions. A "yes" answer to any question requires an exhibit to be attached explaining the circumstances.

► **Basic Qualification Questions**

Items 44-47 These items request information that enables the Commission to determine whether the applicant is qualified to hold an FCC authorization. If the answer to any one or more of Items 44-47 is "yes," attach as an exhibit a statement explaining the circumstances and a statement giving the reasons why the applicant believes that grant of the application would be in the public interest notwithstanding the actual or alleged misconduct.

► **General Certification Statements**

By signing this form, the applicant certifies that the statements listed in this section are true, complete, correct, and made in good faith.

► **Signature**

Items 48-50 These items must be completed. To be acceptable for filing, applications and amendments must be signed in accordance with Part 1 of the FCC rules. The signor must be a person authorized to sign the application. Paper originals of applications must bear an original signature. On paper originals, neither rubber-stamped nor photocopied signatures are acceptable.
