For the General Mobile Radio Service [GMRS], effective January 1, 1989, 'new' or 'major modifications' may not be filed by business applicants.

NE - New: To request a new license. This purpose should only be used for initial applications. A change in vessel or aircraft constitutes a need for a new license.

The appropriate schedule must be completed and attached, and must accurately describe the data that has been modified. See applicable Commission rules.

Note: After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for Modification.

Note: If the only changes desired are to administrative data, use the Administrative Update purpose instead of Modification (see Administrative Update purpose, below, for further description of administrative updates).

AM - Amendment: To amend a previously-filed, currently pending application(s). Use Item 4 to provide the File Number(s) of the affected pending application(s). The appropriate schedule must be completed and attached, and must accurately reflect the amended data. See applicable Commission rules.

RO - Renewal Only: To renew an existing authorization that has not expired and where no changes in the conditions are being requested at the time of renewal. (To make any modifications to your existing authorization use the Renewal/Modification purpose.) Use Item 5 to provide the Call Sign(s) of the affected station(s).

The appropriate schedule must be completed and attached, and must accurately reflect the data that has been modified.

CA - Cancellation of License: To cancel an existing license. Use Item 5 to provide the Call Sign(s) of the affected station(s).

WD - Withdrawal of Application: To withdraw a previously-filed, currently pending application(s). Use Item 4 to provide the File Number(s) of the affected pending application(s).

DU - Duplicate License: To request a hardcopy duplicate of an existing license(s). Use Item 5 to provide the Call Sign(s) of the affected station(s).

AU - Administrative Update: To request a change of any administrative data on a license. These changes are limited to the following: Changes in licensee name (without a change in ownership, control or corporate structure), and changes in name of vessel, changes in mailing address, phone number, fax number, and email address. Use Item 5 to provide the call sign of the affected station. If the administrative update is needed for multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 605, Schedule A.

Note: After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for an Administrative Update.

Item 3 In emergencies or other urgent conditions requiring immediate or temporary use of facilities, request may be made for special temporary authority (STA) to install and/or operate new or modified equipment, subject to the appropriate requirements governing Special Temporary Authorizations contained in the FCC rules. If the filing is requesting an STA, enter 'S'; otherwise enter 'N' (Not Applicable). If item 3 is answered 'S', attach an exhibit including the following information: description of the nature of the extraordinary circumstance, equipment to be used, type of operation to be conducted, explanation of how the facilities will be used, times and dates of operation, and a list of airports and/or ports that will be visited.

Note: Special Temporary Authorizations are applicable only to Ship and Aircraft applicants.

Item 4 If the filing is a request for an Amendment or Withdrawal of a pending application(s) on file with the FCC, enter the File Number(s) of the original application(s). This information can be obtained by contacting the FCC at 1-888-225-5322. If the amendment or withdrawal affects multiple file numbers, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 605, Schedule A.

Item 5 If the filing is a request for a modification, renewal only, renewal/modification, cancellation, duplicate, or administrative update of an existing license, enter the Call Sign of the affected license in item 5. If the filing is a request for a renewal only, cancellation or duplicate of an existing license(s), enter the Call Sign(s) of the affected license(s) in item 5. This information can be obtained by contacting the FCC at 1-888-225-5322. If the request affects multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

Item 6 This item is optional. If the filing is a request for a New, Amendment, Renewal Only, or a Renewal/Modification, enter the requested authorization expiration date. Applicants may, if desired, request the month and day of license expiration. However, in no cases will licenses be granted for terms that exceed the license term as governed by the rules for each service.

Item 7 If the filing is requesting a Waiver or Exception of the Commission's Rules, enter 'Y'; otherwise, enter 'N'. If item 7 is answered 'Y', attach an exhibit including a statement of reasons sufficient to justify a waiver. The required showing must be made for all rule waivers desired, identifying the specific rules or policies for which the waiver is requested. For assistance with fees applicable to the radio services governed by the FCC's rules, call (202) 418-0220 or 1-888-CALL-FCC (225-5322).

Item 8 Enter 'Y' if attachments (other than associated schedules) are being filed with this application. Otherwise, enter 'N'.

►Applicant Information

Items 9 through 21 identify the applicant. If an authorization is granted, the information provided will become the licensee's name, address, and telephone number of record. The FCC will send the authorization and notice of all final dispositions of an application to this address. Failure to provide the FCC with a current and valid mailing address in the United States, and the subsequent failure to respond to FCC correspondence sent to the specified address may result in dismissal of an application, and/or liability for forfeiture, or revocation of your authorization to operate a radio station.

Item 9a If Item 10 is I (for Individual), you must enter the Social Security Number (SSN) of the individual person applying in Item 11. Otherwise, you must enter the Employer Identification Number (EIN) of the entity in Item 12. This data is required to comply with the Debt Collection Improvement Act of 1996. This information will not be made available for public inspection.

Item 9b This item must be filled out if in addition to providing a TIN, you have obtained a Sub-Group Identification Number (SGIN) from the FCC. A SGIN is required in instances where the applicant or licensee does not have a unique TIN because it is a sub-group or department of the entity identified by the TIN (e.g., a governmental entity or academic institution) and therefore shares the TIN with other subgroups or departments of the same entity. The SGIN allows each sub-group to track the licenses it holds. The SGIN is not needed for entities that have a unique TIN that is not used by any other licensee.

Item 10 This item must be completed. Enter the appropriate code which indicates the legal entity type of the applicant. Enter 'I' for Individual, 'U' for Unincorporated Association, 'T' for Trust, 'G' for Government Entity, 'C' for Corporation, 'L' for Limited Liability Corporation, 'P' for Partnership, 'J' for Joint Venture, or 'O' for Consortium.

Note: For GMRS: effective January 1, 1989, new or major modification applications may NOT be filed by business applicants.

Items 11 and 12 If Item 10 is I (for Individual), you must enter the name of the individual person applying in Item 11. Otherwise, you must enter the name of the entity in Item 12.

Items 13-19 Enter the name, address, and telephone number of the person to whom the FCC should send correspondence. You may enter a post office box number in Item 14 or a street address in Item 15, or enter information for both items. Enter the city, state, and zip code in Items 16, 17, and 18, respectively. Refer to FCC 605 Main Form Instructions, Appendix I, for a list of valid state, jurisdiction, and area abbreviations. Enter a telephone number, including area code, in Item 19.

Items 20 and 21 Enter the applicant's fax number and e-mail address, if desired and available.

►Fee Status

Items 22-23 These items allow the applicant to apply for exemption from FCC application fees and regulatory fees. See the instructions for FCC Remittance Advice, FCC Form 159.

►General Certification Statements

By signing this form, the applicant certifies that the statements listed in this section are true, complete, correct, and made in good faith.

►Certification Statements for GMRS Applicants

By signing this form, GMRS applicants certify that the statements listed in this section are true, complete, correct, and made in good faith.

► **Signature**

Items 24-26 These items must be completed. To be acceptable for filing, applications and amendments must be signed in accordance with Part 1 of the FCC rules. The signor must be a person authorized to sign the application. Paper originals of applications must bear an original signature, neither rubber-stamped nor photocopied signatures are acceptable. Any application lacking an original signature may be dismissed for non-compliance with FCC Rules and the fee forfeited. Be sure all necessary attachments are included with the application. For filers filing electronically via ULS, the electronic signature shall consist of the name of the applicant typed on the application as a signature.

NOTICE TO PHYSICIAN CERTIFYING TO A DISABILITY

You are being asked by a person who has already passed a 5 words per minute telegraphy examination to certify that, because of a severe handicap, he/she is unable to pass a 13 or 20 words per minute telegraphy examination. If you sign the certification, the person will be exempt from the examination. Before you sign the certification, please consider the following:

THE REASON FOR THE EXAMINATION - Telegraphy is a method of electrical communication that the Amateur Radio Service community strongly desires to preserve. We support their objective by authorizing additional operating privileges to amateur operators who increase their skill to 13 and 20 words per minute. Normally, to attain these levels of skill, intense practice is required. Annually, thousands of amateur operators prove by passing examinations that they have acquired the skill. These examinations are prepared and administered by amateur operators in the local community who volunteer their time and effort.

THE EXAMINATION PROCEDURE - The volunteer examiners (VEs) send a short message in the Morse code. The examinee must decipher a series of audible dots and dashes into 43 different alphabetic, numeric and punctuation characters used in the message. To pass, the examinee must correctly answer questions about the content of the message. Usually, a fill-in-the-blanks format is used. With your certification, they will give the person credit for passing the examination, even though they do not administer it.

MUST A PERSON WITH A HANDICAP SEEK EXEMPTION?

No handicapped person is required to request exemption from the higher speed telegraphy examinations, nor is anyone denied the opportunity to take the examinations because of a handicap. There is available to all otherwise qualified persons, handicapped or not, the Technician Class operator license that does not require passing a telegraphy examination. Because of international regulations, however, any handicapped applicant requesting exemption from the 13 or 20 words per minute examination must have passed the 5 words per minute examination.

ACCOMMODATING A HANDICAPPED PERSON - Many handicapped persons accept and benefit from the personal challenge of passing the examination in spite of their hardships. For handicapped persons without an exemption who have difficulty in proving that they can decipher messages sent in the Morse code, the VEs make exceptionally accommodative arrangements. They will adjust the tone in frequency and volume to suit the examinee. They will administer the examination at a place convenient and comfortable to the examinee, even at bedside. For a deaf person, they will send the dots and dashes to a vibrating surface or flashing light. They will write the examinee's dictation. Where warranted, they will pause in sending the message after each sentence, each phrase, each word, or each character to allow the examinee additional time to absorb and interpret what was sent. They will even allow the examinee to send the message, rather than receive it.

YOUR DECISION - The VEs rely upon you to make the necessary medical determination for them using your professional judgement. You are being asked to decide if the person's handicap is so severe that he/she cannot pass the examination even when the VEs employ their accommodative procedures. The impairment, moreover, will last more than one year. This procedure is not intended to exempt a person who simply wants to avoid expending the effort necessary to acquire greater skill in telegraphy. The person requesting that you sign the certification will give you names and addresses of VEs and other amateur operators in your community who can provide you with more information on this matter.

DETAILED INSTRUCTIONS - If you decide to execute the certification, you should complete and sign the Physician's Certification of Disability on the person's FCC Form 605 Schedule D Part 2. You must be an M.D. or D.O. licensed to practice in the United States or its Territories. The person must sign a release permitting disclosure to the FCC of the medical information pertaining to the disability.
