Award Terms & Conditions – Special Terms

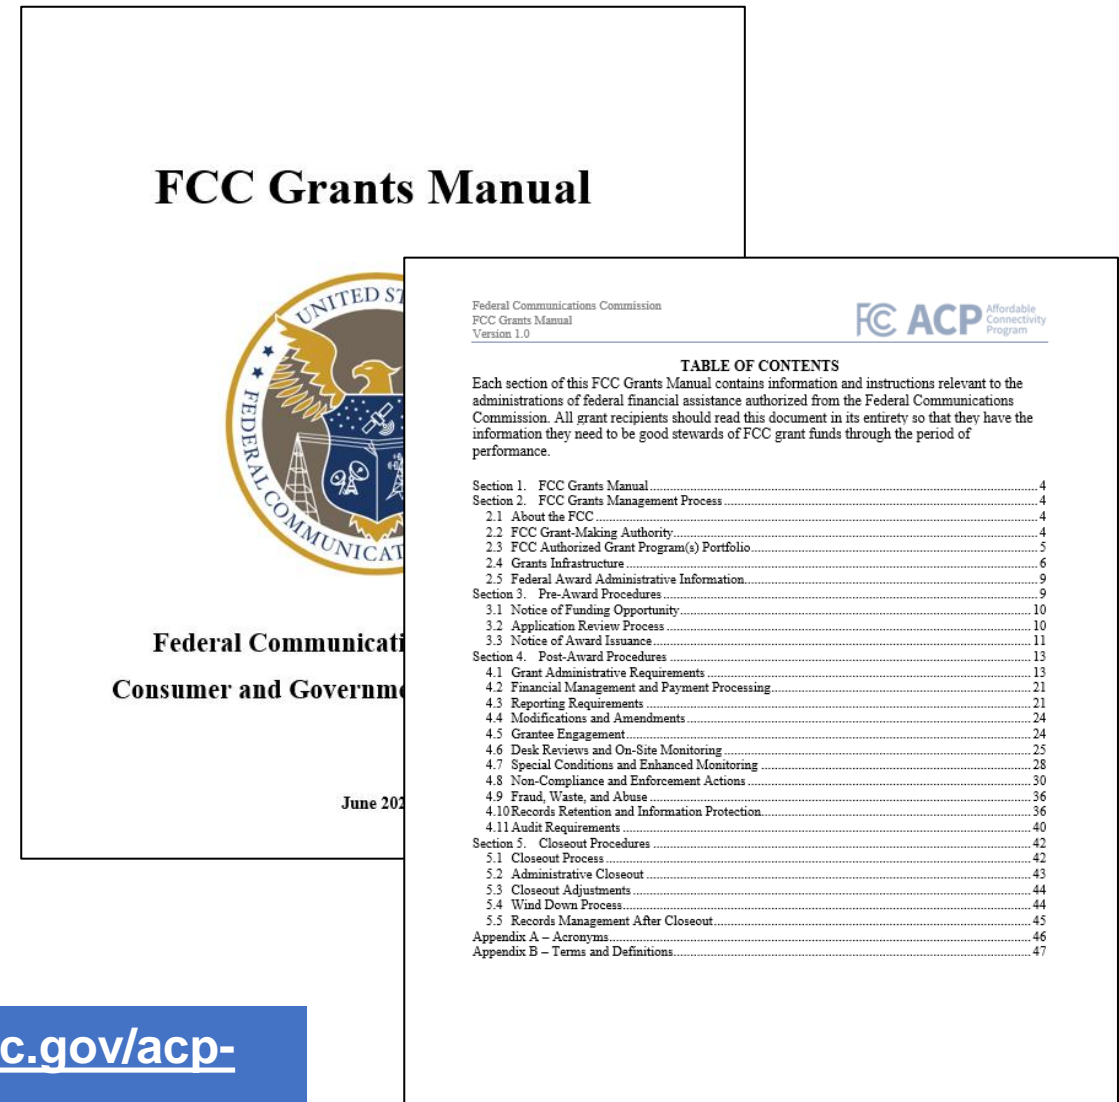

- For some the Notice of Award may include special terms and conditions **at the very end of the document**, which may explain:
 - Unallowable costs that reduced the target allocation amount
 - Additional documentation needed such as cost-share/match, copy of the current Negotiated Indirect Costs Rate Agreement (NICRA), and revised budget forms due to further reduced costs
 - Funding holds that have been placed on your account in Payment Management Services (PMS)
 - Risk determinations that have been proactively made based on past performance
- Recipients are required to submit the requested information through GrantSolutions. Once the additional information is submitted an award modification will be issued clearing the special term.

Note: Final allocations are not subject to negotiation. If final allocations differ from target allocations, it is due to unallowable costs that were deducted following FCC's budget review.

FCC Grants Manual

- At the end of June 2023, the FCC will release the FCC Grants Manual at www.fcc.gov/acp-grants.
- FCC CGB developed the FCC Grants Manual to ensure grant recipients (grant recipients, recipients, or grantees) awarded grant funds understand the requirements of accepting an award.
- The Manual is the official repository of the policies and procedures for the administration of grants administered by the FCC.
- This document should serve as the primary reference and day-to-day management tool for FCC grant recipients and subrecipients in all financial management and grant administration matters.
- The manual may be updated periodically on the grant's webpage referenced above.

The FCC Grants Manual will be published on www.fcc.gov/acp-grants webpage.

Guidance on Award Amendments

- The FCC began awarding ACP Outreach Grant Program funds based on proposed applications and budget resubmissions
- No no-cost budget modifications or amendment requests will be accepted by the Commission until after July 30, 2023, when the first programmatic and financial reporting requirements are due
- These reporting requirements will set a baseline to ensure each grant recipient is executing against the approved projects and allow the CGB Grants Team to view the challenges faced to determine if an award amendment is appropriate

Reminder: Recipients must obtain prior written approval from the FCC GMS for proposed programmatic/budget change requests, unless otherwise provided by the terms and conditions of an FCC award. Requests for prior approval must be electronically via GrantSolutions. Requests requiring prior FCC approval are not effective unless and until approved in writing by the FCC.

A description of the ACP rules and requirements can be found on FCC’s website at www.fcc.gov/acp, along with sample ACP promotional materials. If questions arise during the development or repurposing of ACP promotional materials, they can be addressed to your assigned Grants Management Specialist.”

INSIDER TIPS FOR MAKING THE PMS PROCESS WORK SMOOTHLY FOR YOU

1. In accordance with OMB Circulars A-102 and A-110, grant funds are to be requested for immediate disbursement needs. Requests for reimbursement may be at any time. Grantees should not be holding excess cash. Funds may be requested as often as needed during our regular business hours.
2. Promptly return any unused funds you will not spend within three business days.
3. Be sure to submit the Federal Financial Report (FFR) Federal Cash Transaction Report (FCTR) and/or the Federal Financial Report (FFR) on time, if applicable.
4. Promptly respond to PMS requests for information. PMS cannot release your funds until it receives the information.
5. Be accurate; this goes without saying. Review your Federal Cash Transaction Report (FCTR), if applicable, each quarter and reconcile any differences with your records.
6. Contact PMS for issues regarding your draw-down requests, cash management rules, Federal Financial Report and Federal Cash Transaction Report (FCTR). These are the areas where PMS can be of service to you. **Always have your PMS account number (PAN) or EIN handy and stated on all correspondences.**
7. Always check our web page (<https://pms.psc.gov>) for PMS updates, closings, etc.

Training Sessions

Payment Management Services hosts **Webinar Training Sessions** for grant recipient organizations throughout the year. Performance Progress Reporting

Miriam Montgomery, Grants Program Officer

Why Performance Reporting?

@ the Grantee-level

- Used to determine grantee's progress against approved project outcomes
- Enables review of financial expenditures against grant accomplishments
- Captures project accomplishments
- Captures possible challenges and areas where technical assistance may be needed

@ the Program-level

- Demonstrates program impact using structured data across recipients
- Allows for progress reporting against grant program objectives and supporting measures as described in the applicable NOFO

Performance reporting serves dual purposes!

Performance Progress Reporting

Performance reporting for FCC grants is a two-part submission:

- ✓ Performance Progress Report Form (SF-PPR; sent directly to recipients and available at www.fcc.gov/acp-grants)
- ✓ FCC's PPR-Supplement (Sent directly to recipients and available at www.fcc.gov/acp-grants)

Reporting cadence:

PPR/FFR Reporting Period	Report Due Date
October 1 – December 31	January 30
January 1 – March 31	April 30
April 1 – June 30	July 30
July 1 – September 30	October 30

Similar reporting cadence as quarterly FFR submissions. First report due on **7/30/2023**.

Recipients are required to attach both their completed PPR and PPR-Supplemental in GrantSolutions on a quarterly basis. FFR and PPR reports are required, including partial calendar quarters, as well as in periods where no grant award activity occurs.

PPR v. PPR Supplement

PPR

PPR submissions should include:

- A brief narrative of overall project status
- A summary of project expenditures and accomplishments
- A description of any potential issues that may affect project completion
- Additional information as appropriate, to include an explanation of cost overruns or high costs

PPR is a PDF form and includes a text box to provide FCC-requested information

PPR Supplement

PPR Supplement should include:

- Grant program measurement data
 - Outreach-related measures; and/or
 - Enrollment-related measures
 - Intended outcomes and supporting milestones
 - Grantees can have up to 5 outcomes and each outcome can have up to 8 milestones
-  For entities that received less funding than their requested amount, this will be their opportunity to update outcomes and milestones based on awarded funds

PPR-Supplement is an Excel-based form that enables structured data collection and reporting across recipients to gauge program impact

Performance Progress Report (PPR) Instructions

The *Performance Progress Report (PPR)* is a standard, government-wide performance progress reporting format used by Federal agencies to collect performance information from recipients of Federal funds awarded under all Federal programs that exceed \$100,000 or more per project/grant period, excluding those that support research. General instructions for completing the PPR are contained below. For further instructions on completing the PPR, please contact the agency's points of contact specified in the "Agency Contacts" section of your award document.

Report Submissions

- The PPR must be submitted to the attention of the agency's points of contact specified in the "Agency Contacts" section of the award document in accordance with the requirements established in the award document.
- If additional space is needed to support the PPR, supplemental pages should be attached. The additional pages must indicate the following at the top of each page: Federal Grant or other Identifying Award Number, Recipient Organization, DUNS Number, EIN, and period covered by the Report. Page numbers should be used if a particular page is used more than once.

Reporting Requirements

Complete the entire “Baseline (Q1)” Tab as part of the July 30, 2023 submission.

- The Baseline Tab will need to be completed to represent Q1 reporting
- Once grantees submit their initial PPR Supplemental, future grantee progress will be tracked against Baseline information that was submitted in July 2023
 - Grantees will not be able to update Baseline (Q1) data in future PPR Supplemental submissions
- Below are data elements that are found in the Baseline (Q1) tab that will not be repeated/requested as part of future quarterly submissions:
 1. **For the Period of Performance**, what is the targeted number of outreach activities/events planned? (*Performance Measure #1*)
 2. **For the Period of Performance**, what is the targeted number of individuals reached to increase awareness of the ACP? (*Performance Measure #2*)
 3. **For the Period of Performance**, what is the targeted number and type of in-person enrollment assistance events planned? (*Performance Measure #3*)
 4. **For the Period of Performance**, what is the targeted number of people enrolled as a result of enrollment events?
- **Questions 5 – 15** will be repeated in subsequent quarterly submissions as they are meant to demonstrate grant-funded progress/accomplishments that took place during the reporting period

PPR Supplement – Quarterly Tab

- Unlike the Baseline Tab that is completed and submitted for Q1, Quarterly Tab will be submitted for subsequent quarterly submissions
 - Final PPR Supplement submission will be due 120 days post end of performance period
- For Q2 – Q8, the FCC will **only** review information provided under the Quarterly Tab to represent progress during the reporting period
 - Reminder: FFR quarterly submissions represent cumulative obligations and expenditures
- All questions under this Tab must be completed fully each quarter

Key Takeaways:

1. Baseline Tab should capture target numbers for the Period of Performance and actual numbers for the reporting period (May – June, 2023) as applicable
2. All recipients must submit the Baseline Tab for the first quarterly submission (Due: July 30, 2023)
3. All recipients must submit the Quarterly Tab for all subsequent quarterly submissions (Q2 – Q8)
4. PPR-Supplements must be submitted via GrantSolutions as an Excel-based attachment only

ACP Application Enhancement Update & Enrollment Walkthrough

Jamile Kadre, Telecommunications Access Policy Division, Wireline Competition Bureau

Over the last few months, the Commission and USAC have made a number of enhancements to help streamline the National Verifier application process for consumers, including:

- Streamlining the account creation process by not requiring the consumer to sign back in after creating an account;
- Updating the identify verification section to clarify that providing the last four digits of your SSN will likely result in faster processing, that the identity check does not affect the consumer's credit, and which types of government IDs are acceptable
- Updating error messages that consumers receive so that it is easier for consumers to understand the action they need to take and why they have received an error while applying and simplifying the language outlining document requirements, with acceptable documentation examples added

During the walkthrough, application enhancements will be marked with a blue star (★).

Enhancements (cont.)

- Reducing the number of steps that a consumer must take before finding out their eligibility
 - For those who can qualify through a data-match with an eligibility database, applicants now only have 3 steps before learning if they qualify
 - Program selection now only requires 1 question for the majority of applicants, asking them to select if they qualify for Medicaid and/or SNAP
- Simplifying the consumer certification language and process to one step, requiring only 1 written confirmation
- Automatically moving an applicant to the next step of the application once they create an account
- Giving applicants explicit instructions to sign up with a provider once they are approved
- Simplifying the application process for mobile phone users; and

Consumer Application Process

- Consumers can qualify to participate in the ACP through their participation in certain qualifying programs (such as SNAP and Medicaid) or if their income is at or below 200% of the Federal Poverty Guidelines
- Once qualified, consumers sign up with a participating service provider of their choice to receive service
- Consumers can complete these steps by either qualifying directly through the National Verifier or by working through the process with their desired service provider
