Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

No, my company has not conducted work on the removal of covered equipment since the submittal of the last form. Removal has been physically completed but we continue to process invoices and records associated with submittal for reimbursement through the SCRCP program. No, my company has not conducted work on the disposal of covered equipment since the submittal of the last form. Removal and subsequent disposal of the physical equipment has been completed, but we continue to work on being reimbursed for those expenses through the SCRCP program. No, my company has not conducted work on the replacement of covered equipment and services since the submittal of the last form. Replacement work has been completed. All our work now is related to invoice submittal and pending reimbursement from the SCRCP program.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We have found that some equipment and services are commercially available, and some are not. PTSI is waiting for full funding of the program so that our expenses can be properly reimbursed.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

PTSI has followed all aspects of the Rip & Replace program in good faith and with our own capital. We have met and exceeded costs above and beyond our initial ~40% allotment. PTSI urgently requests attention from the FCC and Congress on fully funding this National Security Threat initiative. With added consideration to the work related to invoice submittal and pending reimbursement in the progress reporting percentages then PTSI would consider our work 99% complete and at a standstill until the work related to invoice submittal and pending reimbursement is complete.
