

## PROPOSED FORM-FILLABLE ALERT TEMPLATES IN ENGLISH

February 15, 2024

On February 15, 2024, the Federal Communications Commission’s Public Safety and Homeland Security Bureau sought comment on whether it would be feasible for wireless providers participating in Wireless Emergency Alerts to implement the below English form-fillable alert message templates, which could be customized by alert originators to use event-specific information. These are not the final versions of the templates and should not be used in an emergency situation or for any other reason. The Bureau seeks comment on whether the templates themselves are ones that are most commonly used by alert originators, whether the templates themselves reflect the most time-sensitive emergencies, what the fillable elements themselves should be, and whether including them in this way would be effective during emergencies. More information about this proceeding may be found at <https://www.fcc.gov/multilingual-wireless-emergency-alerts>.
