## Explanation of Effort and Availability of Commercial Equipment

\*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

AST Telecom LLC has not conducted work on the removal of covered equipment since the submittal of the last form. We are currently in the process of integrations and testing phase of the RIP project. Once we complete all tests and ready to cutover to the new network, we will commence the removal process. AST Telecom LLC has not conducted work on the disposal of covered equipment since the submittal of the last form. We have not yet removed the covered equipment and services since the submittal of the last form. We have not yet removed the covered equipment.

\*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We are finding that some equipment and services are commercially available, and some are not. Project planning with revised phases, project scheduling and resourcing have been dynamically and carefully adjusted to accommodate the timing for receiving the intended replacement equipment and services, while pursuing the project activities to keep the project moving forward towards completion.

\* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

Supply chain issues and a lack of funding have both impeded AST Telecom LLC's ability to complete this project in the time and manner we had originally hoped for. We are working diligently taking the most appropriate approaches and actions to complete the project.

Timeline Deviation: We were working for a hopeful launch in December 2023 and the replacement of the Huawei equipment with Ericsson to be completed in 2024/Q1. Despite our efforts to changeover/migrate in 2024/Q1, in the best interest of successful network replacement, our timeline now is between 2024/Q1 and Q2. The shipping for disposal and recycle is shifting to Q2 of 2024.
