

# Disaster Response & Recovery Working Group

Chair: Red Grasso, North Carolina Department of Information Technology

Vice-Chair: Jonathan Adelstein, The Wireless Infrastructure Association

# Presentation on Report and Recommendations

- Final Report and Recommendations submitted to the BDAC
- Today's presentation will highlight:
  - Best practices provided for disaster planning, response, and recovery.
  - Recommendations for enhancing resiliency and promoting further coordination between stakeholders.
- Discussion at the end of presentation.

## Best Practices for Planning, Response, & Recovery

- Detailed sections for the Planning, Response, and Recovery phases
- Identified ongoing activities followed by recommendations
- Intended audience is broad and terms are captured in footnotes
- Recommendations are broadly applicable to many areas
- Scope focused on physical infrastructure disruption or damage

## Recommendations for Enhancing Resiliency & Promoting Coordination

- Many of the Working Group's recommendations are focused on **enhancing collaboration** between government, power, and communications stakeholders, including for information distribution, service restoration processes, on-the-ground coordination, and developing joint response plans and after-action assessments.

# Planning Phase Recommendations

- Relationship Building and Maintaining Formal Relationships
- Deployment of Resilient Broadband Infrastructure
- Information Sharing
- Development and Refinement of Response Plans
- Governmental Approval Processes
- Commercial Power Supply

# Response Phase Recommendations

- Emergency Preparedness Plans
- Emergency Operations Center Coordination
- Information Sharing
- Expediting Service Restoration Approval Processes
- Aerial Imagery

# Recovery Phase Recommendations

- After-Action Assessments
- Expediting Service Restoration Approval Processes
- Information Sharing
- Debris Removal

The background of the slide is a dark blue color with a faint, light blue circuit board pattern. The pattern consists of various lines, rectangles, and small circles, resembling a printed circuit board (PCB) layout. The pattern is more dense in the corners and fades towards the center.

# Discussion

The background of the slide is a dark blue color with a faint, light blue circuit board pattern. The pattern consists of various lines, rectangles, and small circles, resembling a printed circuit board (PCB) layout. The pattern is more dense in the corners and fades towards the center.

Thank You
