Need High-Speed Internet?

The FCC has a new map showing where high-speed service is – and is not – available across the country.

Help make sure the National Broadband Map is accurate by checking your home or small business.

Visit **BroadbandMap.fcc.gov**

Help Improve the National Broadband Map!

- Search for your address at
  BroadbandMap.fcc.gov
- Is the location information wrong?
  Click Location Challenge.
- Are the internet services listed not available?
  Click Availability Challenge.

To challenge mobile coverage,
download the FCC Speed Test App.
