Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Our last task items has taken an unusually long time to get updated cost quotes but we are pushing to acquire and revised original core estimate.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We are finding commercially available equipment, costs are a little higher than I think they should be. Most notably is Lead Times are unacceptable, I suspect due to inventory intentionally managed at below minimum quantities and or manufacture of materials held until after orders secured.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

Thanks to the FCC teams for navigating through what I can only imagine would have been the most difficult project of a lifetime.
