**Note:** Form 477 filings for data as of June 30, 2009 through June 30, 2011 were collected using 2000 Census geographies. Form 477 filings for data as of December 31, 2011 through June 30, 2021 were collected using 2010 Census geographies. Form 477 filings for data as of December 31, 2021 and later were collected using 2020 Census geographies.

**Note:** The June 30, 2014 Form 477 filings were not subject to typical quality checks. Due to technical difficulties with the redesigned Form 477 filing interface, the filing deadline for Form 477 data as of June 30, 2014 was moved to December 11, 2014. Because of that delay, the Commission staff were not able to perform their typical process of identifying anomalies or errors in the data, following up with filers, and requesting updates to the data where appropriate – a process which usually generates a significant number of corrections and hence a more accurate Form 477 data set.
