**SUBJECT: WARNING NOTICE and REQUEST FOR STATION INFORMATION**  
**Amateur Radio license K2AAW**  
**Case #EB-2007-2981**

Dear Mr. Zildzo:

Information before the Enforcement Bureau (copy enclosed) indicates that on various dates in February and July, 2006, and March and April, 2007, you operated on frequencies assigned to Extra Class licensees but prohibited to General Class licensees. Commission records show that you have been a General Class licensee since June 1, 2001.

The enclosed documents submitted by you to a radio organization indicate that on over 200 occasions between February 18 and July 9, 2006, you operated on Extra Class frequencies. Such operation raises serious questions regarding your qualifications to retain an Amateur radio license.

Section 308(b) of the Communications Act of 1934, as amended, 47 U.S.C. § 308(b), gives the Commission the authority to obtain information from applicants and licensees about the operation of their station and their qualifications to remain a licensee. Accordingly, you are requested to respond to this office within 30 days of receipt of this letter furnishing the following information:

1. List the dates and times from January 1, 2006 through April 10, 2007 that you have operated on frequencies not assigned to General Class operators, and specify the frequencies.
2. The enclosed document dated March 22, 2006 bears your call sign, operating times and frequencies and was apparently submitted by you to a national radio organization. Did you submit the March 22, 2006 document?
3. The enclosed document dated July 10, 2006 bears your call sign, operating times and frequencies and was apparently submitted by you to a national radio organization. Did you submit the July 10, 2006 document?
4. Did you submit any other documents in 2006 or 2007 reflecting operation of frequencies not allocated to General Class licensees, to any radio organizations? If so, provide copies of those documents.
5. Did you receive any Official Observer Advisory Notices regarding out-of-band operation in 2006 or

2007? If so, provide copies of those notices and copies of your responses, if any, to each.

In an inquiry of this type we are required to notify you that a willfully false or misleading reply constitutes a separate violation made punishable under *United States Code* Title 18, Section 1001.

The information you submit will be used to determine what, if any, additional enforcement action is warranted. That action may include monetary forfeiture (fine), revocation or suspension. Additionally, no upgrade of your license will be routinely granted until this matter is resolved. You may submit any other information that you wish us to consider in this matter. Please call me at 717-339-2502 if you have any questions.

Sincerely,

W. Riley Hollingsworth  
Special Counsel
