CERTIFIED MAIL-RETURN RECEIPT REQUESTED

July 25, 2007

Frederick C. Severa
American Samoa DX Society in California
121 Prospector Street
Folsom, CA 95630

Subject: Amateur Radio License AH8I: Warning Notice, Case #EB-2007-2996

Dear Mr. Severa:

Enclosed is a copy of a letter we sent in March to your address of record in our Amateur radio Service database. The letter was returned as undeliverable. The letter stated that Commission monitoring information indicates that on February 12, 2007 at 0221 UTC, you operated in the SSB mode on 7.055 MHz from a location near Reading, CA. That mode is not authorized to you on that frequency under Commission rules. See Section 97.301 of the Commission's rules, 47 C.F.R. § 97.301.

Such operation may reflect adversely on your qualifications to retain an Amateur Radio license. Section 308(b) of the Communications Act of 1934, as amended, 47 U.S.C. § 308(b), gives the Commission the authority to obtain information from applicants and licensees about the operation of their station and their qualifications to remain a licensee. Accordingly, you are requested to respond to this office within 30 days of receipt of this letter explaining the operation of February 12, 2007. The information you submit will be used to determine what action to take in this matter.

You are also requested to verify your current address. Please call me at 717-338-2502 if you wish to discuss this matter.

Sincerely,

W. Riley Hollingsworth
Special Counsel
