RE: WARNING NOTICE: Amateur Radio license KI6GVY; General Mobile Radio license WQDY853

Dear Mr. Migliori:

The trustee of the Amateur radio repeater KB5TJJ, operating on 146.700 MHz, requested in writing on December 1, 2006, that you refrain from use of the repeater. The letter was issued as a result of your failure to follow operational rules set forth by the licensee/control operators of the repeater system for its users. Additionally, the licensee of the WQZC300 General Mobile Radio Service repeater, operating on 462.700 MHz, has requested that you not operate on that system for the same reasons. You were previously requested to refrain from using both systems, but have apparently ignored both verbal and written requests.

The Commission requires that repeaters be under the supervision of a control operator and not only expects, but requires, such control operators and licensees to be responsible for the proper operation of the repeater system. Control operators may take whatever steps are appropriate to ensure compliance with the repeater rules, including limiting the repeater use to certain users, converting the repeater to a closed repeater or taking it off the air entirely.

Please be advised that we expect you to abide by the request to stay off the KB5TJJ and WQZC300 systems and any other such request by a repeater licensee, control operator or trustee. If you use the repeaters again after receipt of this letter, we will initiate enforcement action against your licenses, which may include revocation, monetary forfeiture (fine) or a proceeding to restrict the frequencies on which you may operate KI6GVY and WQDY853. Fines normally range from \$7,500 to \$10,000.

Please call me at 717-338-2502 if you have any questions about this matter.

Sincerely,

W. Riley Hollingsworth
Special Counsel
