**RE: Warning Notice: Amateur Radio license N2YHI**

Dear Mr. Williams:

The trustee of the N6LUI repeater system operating in your area on 147.360, 223.940 and 447.825 MHz has requested in writing that you refrain from use of the repeater. The request was issued as a result of your failure to follow operational rules set forth by the licensee/control operators of the repeater system for its users.

The Commission requires that repeaters be under the supervision of a control operator and not only expects, but requires, such control operators and licensees to be responsible for the proper operation of the repeater system. Control operators may take whatever steps are appropriate to ensure compliance with the repeater rules, including limiting the repeater use to certain users, converting the repeater to a closed repeater or taking it off the air entirely.

Please be advised that we expect you to abide by the request to stay off the N6LUI system and any other such request by a repeater licensee, control operator or trustee. If you use the repeater again after receipt of this letter, we will initiate enforcement action against your license, which may include revocation, monetary forfeiture (fine) or a modification proceeding to restrict the frequencies on which you may operate N2YHI. Fines normally range from \$7,500 to \$10,000.

Section 308(b) of the Communications Act of 1934, as amended, 47 U.S.C. Section 308(b), gives the Commission the authority to obtain information from licensees about the operation of their stations. Accordingly, you are requested to respond to this letter within 20 days of receipt indicating what steps you have taken to comply with the request of the licensee of the N6LUI repeater system. In a letter of this type we are required to advise you that a willfully false or misleading reply would be the subject of a separate enforcement action. See 18 U.S.C. Section 1001. Please call me at 717-338-2502 if you have any questions about this matter.

Sincerely,

W. Riley Hollingsworth  
Special Counsel
