**Re: WARNING FOR UNLICENSED RADIO OPERATION  
EB-10-GB-0091**

Dear Mr. Wireman:

It has come to the attention of the Federal Communications Commission that at various times in the last several months you have operated overpowered transmitting equipment on 11 meters that is causing interference to operators in the amateur bands, for which a license is required.

The Commission's rules require that you operate your CB station with an FCC certified CB transmitter.<sup>1</sup> The rules also prohibit the use of external radiofrequency power amplifiers (sometimes called linears or linear amplifiers).<sup>2</sup> The rules further provide that use of a non-certified CB transmitter and/or a power amplifier voids your authority to operate the station."<sup>3</sup>

**UNAUTHORIZED OPERATION OF THIS RADIO STATION MUST CEASE IMMEDIATELY.**

You have ten (10) days from the date of receipt of this warning to respond to this office. The response must contain a statement of the specific action(s) taken to come into compliance with the Commission's rules and should include a time line for completion of pending corrective action(s). **You are directed to support your response with a signed and dated affidavit or declaration under penalty of perjury, verifying the truth and accuracy of the information submitted in your response.** Your response should be sent to: 1270 Fairfield Road, Gettysburg, PA 17325 and reference the listed case number.

<sup>1</sup> 47 C.F.R. § 95.409(a).

<sup>2</sup> 47 C.F.R. § 95.411(a)(1).

<sup>3</sup> See 47 C.F.R. §§ 95.409 (a); 95.411(b).

In an inquiry of this type we are required to notify you that under the Privacy Act of 1974, 5 U.S.C. § 552a(e)(3), the Commission's staff will use all relevant information before it, including information you disclose in your reply, to determine what, if any, enforcement action is warranted in this matter.

Sincerely,

Laura L. Smith  
Special Counsel
