RE: Dobson Technologies, Inc. – Election of Enhanced A-CAM Support in Oklahoma

Dear Mr. Harkrader:

Dobson Technologies, Inc. and its subsidiaries (#130425) (the “Company”) hereby confirms that it elects the Enhanced Alternative Connect America Cost Model (Enhanced A-CAM) support amount for the state of Oklahoma, as specified in Report 2.1 released on September 21, 2023. In return, the Company commits to satisfy the specific service obligations associated with that amount of model support. This includes both the deployment of 100/20 Mbps or faster service to all required locations and the maintenance of 100/20 Mbps or faster service to locations the Company currently serves. The Company acknowledges that its election of Enhanced A-CAM applies to both its A-CAM and CAF BLS study areas within Oklahoma.

The Company is currently considering the following technologies to meet its Enhanced A-CAM deployment obligations: fiber to the premises (definitely); licensed terrestrial fixed wireless (likely); unlicensed terrestrial fixed wireless (possibly).

Please contact Trent LeForce at 405-242-0336 or tleforce@dobson.net if you have any questions or require additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Maella". The signature is fluid and stylized, with a long horizontal stroke extending to the right.

Francisco Maella
CEO, Dobson Technologies, Inc.
