

ATLAS TELEPHONE COMPANY, INC.

Serving Big Cabin, Welch and Blue Jacket

9/19/2023

Barbara Summa

PO Box 77

Big Cabin, OK 74332

To whom it may concern,

Please accept this correspondence confirming that Atlas Telephone Company (ATC) accepts the Enhanced A-CAM support amount as specified in Report 1.1 (WC Docket 10-90), released August 30, 2023, and commits to satisfy the specific service obligations associated with that amount of model support, including both the deployment of 100/20 Mbps or faster service to all required locations and the maintenance of 100/20 Mbps or faster service to currently served locations.

ATC intends to utilize a combination of both fiber-to-the-premise and/or fixed wireless broadband technologies, based on analysis of locations and cost, to meet the Enhanced A-CAM deployment obligations. In addition, ATC will abide by all terms and conditions attached to the FCC offer, as specified in 47 CFR Part 54.308(3), 54.308(e), as well as existing regulatory compliance requirements, including those set forth in 54.313, 54.314, 54.316, 54.320, and 54.322, as a high-cost recipient. It will also comply with all Low Income, Schools and Libraries and, where pertinent, Rural Health Care Program requirements in Part 54 Subpart E, F, and G of the Commission's rules.

We assent, based on this correspondence accepting the Enhanced A-CAM offer, the Wireline Competition Bureau publishing this Enhanced A-CAM offer acceptance "to inform, among other processes, the BEAD Program challenges conducted by states or eligible entities and prevent any duplication of support to a location where it is determined that the Enhanced A-CAM service provider plans to deploy a technology that would satisfy the requirements for being deemed an enforceable commitment for the deployment of qualifying broadband to a location."

Sincerely,

Barbara Summa, President

Atlas Telephone Company
