The Company hereby notifies the Bureau that it intends to use fiber to meet most of its Enhanced A-CAM deployment obligations and, as a last resort to serve the more remote locations, is exploring the use of unlicensed fixed wireless and/or Low Earth Orbit (LEO) “celestial” fixed wireless that meets all the FCC’s requirements for Enhanced A-CAM, including speed and latency with the Company subsidizing the cost of the equipment and service if necessary to make sure that pricing complies with FCC regulations.
