**Re: Enhanced A-CAM Election Letter  
USConnect Holdings, Inc. 300192**

To Whom It May Concern:

USConnect Holdings, Inc., Provider ID 300192 hereby submits this letter to indicate that it will elect the Enhanced Alternative Connect America Model (Enhanced A-CAM) support in Study Area Codes 462195 and 462203 in Colorado.

The Federal Communications Commission's Wireline Competition Bureau (Bureau) released a Public Notice instructing rate-of-return carriers electing EA-CAM to file a letter via email by September 29, 2023 confirming that it "elects the Enhanced A-CAM support amount as specified in Report 1.1 released on August 30, 2023, and commits to satisfy the specific service obligations associated with that amount of model support, including both the deployment of 100/20 Mbps or faster service to all required locations and the maintenance of 100/20 Mbps or faster service to currently served locations. Subsequent to the release of the Enhanced A-CAM Election PN, the Bureau released revised versions of the offers in updated reports entitled "Enhanced A-CAM – A-CAM 2.6.0 – Report Version 2, Report/Tables 2.1 through 2.5."

The Company hereby commits to satisfying the specific service obligations associated with that amount of model support that it is eligible to receive in Colorado, including both the deployment of 100/20 Mbps or faster service to all required locations and the maintenance of 100/20 Mbps or faster service to currently served locations. The location totals and specific service obligations for each type of location are specified in the Excel workbook entitled "Enhanced A-CAM – A-CAM 2.6.0 – Report Version 2, Report/Tables 2.1 through 2.5." The amount the Company intends to elect are identified in Report/Table 2.1. According to the Enhanced A-CAM Order, the Bureau will determine the exact set of locations that must be served "based on the Fabric, the Broadband Data Collection, and further deduplication of enforceable commitments" and "may make adjustments, by no later than the end of 2025." Accordingly, the commitment made above encompasses the exact set of locations and any adjustment in

support that will ultimately be determined by the Bureau pursuant to this “true-up” process.

The Company hereby notifies the Bureau that it intends to use a combination of fiber to the premise and hybrid fiber/fixed wireless technology utilizing a combination of licensed and unlicensed fixed wireless to meet its Enhanced A-CAM deployment obligations.

Please contact the undersigned with any questions on the Company’s Enhanced A-CAM election described herein.
