Re: Election for Fenton Cooperative Telephone Company
Public Notice DA 23-779, released August 30, 2023

Dear Mr. Wang,

By this letter, Fenton Cooperative Telephone Company, Study Area Code 351179, accepts the Commission's offer of Enhanced Alternative Connect America Cost Model (Enhanced A-CAM) Version 2.6.0, support in the amount of \$141,435 annually for 15 years, as specified in Report 1.1 at the \$350 per location funding cap, and with resulting build-out obligations as presented in FCC WCB Public Notice DA 23-779, released August 30, 2023. Fenton Cooperative Telephone Company commits to satisfy the specific service obligations associated with that amount of model support, including both the deployment of 100/20 Mbps or faster service to all required locations and the maintenance of 100/20 Mbps or faster service to currently served locations. Also...If there is another better offer in this 15 year time frame that would allow us to better serve our customers like ACAM II would have... We would like the opportunity to accept the new and better offer just so we can offer comparable services in price and quality like any of the companies whose funding was greatly enhanced by ACAM II.

The technologies Fenton Cooperative Telephone Company plans to use to meet their Enhanced A-CAM deployment obligations are:

GPON fiber to the premises network;

Sincerely,

Vaughn Borchardt
President
