“Enhanced A-CAM – A-CAM 2.6.0 – Report Version 2, Report/Tables 2.1 through 2.5.” The amount the Company intends to elect is identified by year in Report/Table 2.3. According to the Enhanced A-CAM Order, the Bureau will determine the exact set of locations that must be served “based on the Fabric, the Broadband Data Collection, and further deduplication of enforceable commitments” and “may make adjustments, by no later than the end of 2025.”<sup>3</sup> Accordingly, the commitment made above encompasses the exact set of locations and any adjustment in support that will ultimately be determined by the Bureau pursuant to this “true-up” process.

The Company hereby notifies the Bureau that it intends to use fiber optic plant to deliver FTTH services with G-PON or XGS-PON technology to meet its Enhanced A-CAM deployment obligations.

Please contact the undersigned with any questions on the Company’s Enhanced A-CAM election described herein.
