**Re: WC Docket No. 10-90 – Election of Enhanced Alternative
Connect America Cost Model (Enhanced A-CAM) Support**

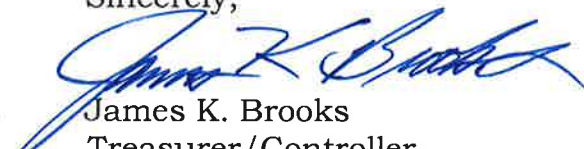

Dear Mr. Harkrader,

Pursuant to WC Docket No. 10-90 and DA 23-779, Western Elite Incorporated Services, Provider ID 130651 (Inland Telephone Company), Study Area Code 472423, hereby confirms that it elects the support amount as specified in Report 1.1 released August 30, 2023, and commits to satisfy the specific service obligations associated with that amount of model support including but not limited to voice service, deployment of 100 Mbps down/20 Mbps up or faster to all required locations, the maintenance of 100 Mbps down/20 Mbps up or faster to currently served locations, and performance testing and reporting.

Construction will consist of a combination of fiber-to-the-premise, microwave backhaul to fiber-to-the-premise distribution points, leveraging existing copper using VDSL2 where feasible, fixed wireless technology and may use in problematic situations where the terrain does not permit the previously mentioned solutions, a satellite solution.

If you should have any questions or need further information, please call me at (509) 649-2211.

Sincerely,

James K. Brooks
Treasurer/Controller
