### **III. Matching Programs**

*The Computer Matching and Privacy Protection Act of 1988* (Pub. L. 100-503) requires the Data Integrity Board (DIB) of each federal agency to review its matching activities on a yearly basis. 5 U.S.C. § 552a (u)(3)(D). In conducting this review of the FCC’s activities, the DIB has identified nine matching activities and/or data sharing arrangements in which the FCC acted as a “source agency,” as that term is defined in 5 U.S.C. § 552a (a)(11). The DIB also took action in 2017 to enter into five new computer matching agreements in which the FCC acted as the “recipient agency,” as that term is defined in 5 U.S.C. § 552a (a)(11), for a total of 14 matching activities and/or data sharing arrangements. These activities are discussed below.

#### **B. Recipient Agency Activities**

In a Report and Order adopted on March 31, 2016, the Commission ordered the Universal Service Administrative Company (USAC) to create a National Lifeline Eligibility Verifier (“National Verifier”) that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. Lifeline and Link Up Reform and Modernization Order et al., Third Report and Order, Further Report and Order, and Order on Reconsideration, 31 FCC Rcd 3962 (2016).

The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, or Veterans and Survivors Pension Benefit.

The DIB met several times in 2017 to review computer matching agreements in which the FCC and USAC compared Lifeline subscriber lists against lists of persons enrolled in qualifying programs.

- On April 7, 2017, the DIB met to consider a computer matching agreement (CMA) between the FCC, USAC, and the Department of Housing and Urban Development (HUD). The DIB approved the agreement, which compares Lifeline subscriber data against enrollment information in three HUD systems. *See* 82 Fed. Reg. 37586 (Aug. 11, 2017). In its review of this agreement, the DIB determined that the benefits of the matching activity were greater than the costs. The FCC records matched in this agreement are part of the FCC/WCB-1, Lifeline Program, system of records. *See* 82 Fed. Reg. 38686 (Aug. 15, 2017).
- On July 27, 2017, the DIB met to consider CMAs between the FCC, USAC, and the Colorado Office of Information Technology, the Mississippi Department of Human Services, the New Mexico Human Services Department, and the Utah Department of Workforce Services. The DIB approved these agreements, which compare Lifeline subscriber data against information in the SNAP and Medicaid enrollment records compiled by the four state agencies. *See* 82 Fed. Reg. 46989 (Oct. 10, 2017). In its review of this agreement, the DIB determined that the benefits of the matching activity were greater than the costs. The FCC records matched in this agreement are part of the FCC/WCB-1 system of records. *See* 82 Fed. Reg. 38686 (Aug. 15, 2017).
