

third party respondents. *Section 90.1211* authorizes the fifty-five 700 MHz regional planning committees to develop and submit on a voluntary basis a plan on guidelines for coordination procedures to facilitate the shared use of the 4940–4990 MHz (4.9 GHz) band. The Commission has stayed this requirement indefinitely. Applicants are granted a geographic area license for the entire fifty MHz of 4.9 GHz spectrum over a geographical area defined by the boundaries of their jurisdiction—city, county or state. Accordingly, licensees are required to coordinate their operations in the shared band to avoid interference, a common practice when joint operations are conducted.

Commission staff will use the information to assign licenses, determine regional spectrum requirements and to develop technical standards. The information will also be used to determine whether prospective licensees operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate regional requirements or provide for the efficient use of the available frequencies. This information collection includes rules to govern the operation and licensing of the 700 MHz and 4.9 GHz bands rules and regulation to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934, as amended. Such information will continue to be used to verify that applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[FRS 17006]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) has transferred (within the FCC), renamed, and modified an existing system of records, FCC/OMD–31, Private or Civil Injury Claimants

(formerly FCC/OGC–6, Private or Civil Injury Claimants), subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. Staff in the Office of the Managing Director (OMD) and the Office of General Counsel (OGC) use the personally identifiable information (PII) in this system for purposes that include, but are not limited to, determining whether a damage claim filed against the FCC should be paid and for reference purposes when similar cases arise. As necessary, the records may be transferred to the appropriate Federal agency charged with the responsibility of disposition.

DATES: This action will become effective on September 28, 2020. Written comments on the system's routine uses are due by September 28, 2020. The routine uses in this action will become effective on September 28, 2020, unless written comments are received that require a contrary determination.

ADDRESSES: Send comments to Leslie F. Smith, Privacy Manager, Information Technology (IT), Federal Communications Commission (FCC), Washington, DC 20554, or to Leslie.Smith@fcc.gov or Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Leslie F. Smith, (202) 418–0217, or Leslie.Smith@fcc.gov or Privacy@fcc.gov (and to obtain a copy of the Narrative Statement and the Supplementary Document, which includes details of the modifications to this system of records).

SUPPLEMENTARY INFORMATION: FCC/OMD–31 helps the FCC to determine whether a damage claim filed against the FCC should be paid and for reference purposes when similar cases arise. This notice serves to update and modify FCC/OMD–31 to reflect various necessary changes and updates, including an increased use of information technology, the expansion of the system's coverage of issues related to torts, and format changes required by OMB Circular A–108, since its previous publication. The substantive changes and modifications to the previously published version of the FCC/OMD–31 (formerly: FCC/OGC–6, Private or Civil Injury Claimants) system of records include:

1. Changing the name of the system of records to FCC/OMD–31, Private or Civil Injury Claimants, to note that this system is being transferred to the FCC's Office of the Managing Director. Both

the Office of the Managing Director and the Office of General Counsel are the joint managers for this system of records. The joint management of this SORN is also reflected in the information in the System Manager's section.

2. Updating the Security Classification to follow OMB guidance and FCC guidance.

3. Adding 28 U.S.C. 1346(b), 1402(b), 2401(b), 2671 *et seq.*, 31 U.S.C. 3711; and Military Personnel and Civilian Employees' Claims Act, 31 U.S.C. 3721, to the Authorities for Maintenance of the System as part of the necessary updates to the system to add military and civilian employees to the groups who are private or civil injury claimants.

4. Modifying the Purposes, Categories of Individuals, and Categories of Records to add military and civilian employees to those individuals who are private or civil injury claimants.

5. Deleting routine use (1) Public Access, since releases under the FOIA are covered by 5 U.S.C. 552a(b)(2), so a separate routine use for them is not needed.

6. Updating language and/or renumbering four routine uses: (1) Adjudication and Litigation; (2) Law Enforcement and Investigation; (3) Congressional Inquiries; and (4) Government-wide Program Management and Oversight.

7. Adding four new routine uses: (5) Breach Notification to address real or suspected data breach situations at the FCC; (6) Assistance to Federal Agencies and Entities to allow the FCC to provide assistance to other Federal agencies in their data breach situations; (7) For Non-Federal Personnel to allow contractors performing or working on a contract for the Federal Government access to this system's information; and (8) Non-FCC Individuals and Organizations to provide information to individuals and organizations as necessary to obtain information related to an investigation. Routine Uses (5) and (6) are required by OMB Memorandum 17–12.

8. Adding two new sections: Reporting to a Consumer Reporting Agency to address valid and overdue debts owed by individuals to the FCC under the Debt Collection Act, as recommended by OMB; and History to reference the previous publication of this SORN in the **Federal Register**, as required by OMB Circular A–108.

The system of records is also updated to reflect various administrative changes related to policy and practices for storage, retrieval, and retention and disposal of the records; administrative, technical, and physical safeguards; and updated notification, records access, and contesting records procedures.

Access to these office suites is through card-coded doors. The access points to these offices are also monitored. Only authorized OMD, OGC, and B/O supervisors and staff who are responsible for responding to these claims have access to these paper records. Other FCC employees and contractors in other B/Os may be granted access as required, on a temporary or limited basis for specific purposes related to the private or civil injury claim processes.
