Company Complaining About: Centurylink

Description
I have tried to unsubscribe from Weight Watchers emails for the last year and a half. I "opt out" using their opt out link every single time, and they continue to send me emails. I called and spoke to a representative who said that because "Corporate" can't contact local Weight Watchers offices, there is nothing they can do to take me off the "local" list. I find this hard to believe. In any event, he told me there was no way to opt out of these emails than going back to the physical location of the meeting. I have since moved away from St. Paul, where the meeting location is, and it would be inconvenient for me to do this in person. There is no phone number for this location, even though it is a free standing Weight Watchers store. I called back when I continued to receive emails, and the representative I spoke to said "he would take care of it." I have continued to receive emails. This has been going on for over two years. I have no doubt others are experiencing the same frustration. I have attached a sample of the emails I have been receiving.

Description
I receive many text messages in spanish with the following: I get several in a day with the numbers after fb.com change but the message is the same asking me to confirm my account.
Description
First of all, vocal consent should NEVER be permitted for text messages. The problem with your policy is that people change cell phone numbers and never giving consent still receive text messages for someone who may or may not have given consent in the past. However, as the new PURCHASER and CONSUMER of this cell phone number, I do not want to receive these texts and they must stop. I need to know how to make this happen.

Date: 8/16/2015 1:35:11 PM
City/State/Zip: Jonesboro, Georgia 30236
Company Complaining About: Comcast

Description
My complaint is for the large inconvenience and inconsistent misinformation given to me by Comcast customer services workers. From the time I placed my call for service in June to the actually time that it was provided and working over a month late, I have made cost less calls to Comcast, technical support, customer service and customer solutions department. I had two appointments were techs didn't show up too. Representatives that didn't set up the appointments correctly. The whole point for me needing the services were due to needing to work from home, I have a infant child! Finally when the services were provided the weren't set up correctly the package and bundle was quoted to me for 49.99 for BLAST internet and 140 channels of cable, including modem rental due to all the inconvenience. That was not done when I called this was not done nor was it documented on the account that this would take place. I was told that the representative couldn't have told me that and that's just that and if i wanted to end my service and go to another provided it would be understood. I still continued to reach out and discuss with a supervisor and a customer service representative said they account could be looked into which we be a process that they would review the calls and that would take three days and someone would call me from their resolutions team. This was two weeks ago, no call has been made to me. All the precious time I spent calling, waiting on hold being told one thing and another and even a few representative hanging up on me and some having dropped calls and not even calling back to follow up. Only to be on the phone to have to repeat the same scenario for help is disappointing. I am absolutely disappointed in my treatment from Comcast at this point.

Description

I heard my cell phone ringing, the phone screen showed my brother was calling my phone and his phone number appeared with the name of the saved contact information. Upon answering the phone call I discovered it was NOT my brother, but was in fact an ex-boyfriend of mine who has a criminal history with Identity Theft, Fraud and other relating crimes.

Date of Call: 08/15/2015
Time of Call: 10:00 pm

Additionally, I have had other strange cell phone, personal email and Facebook account(s) activity since the phone call, ie: specific persons telling me they received messages from my Facebook account when in fact I did not send any messages and have NO record of any messages being sent, but can in fact see in the recent account activity section of Facebook that my account was in use during the time of said message(s) apparently being composed.

I have looked at the recent cell phone, email and Facebook account activity and have confirmed multiple strange and unidentifiable log ins, account usages etc.

Company Complaining About: Comcast

Description
I went online to order Internet Plus Service that they are offering for new customers. Once I got to the option to complete my personal information I was asked to enter my date of birth and SSN#. If you choose not to enter a SSN# they want to charge $100 deposit and option to show your ID to a tech. When entering your SSN# the system will tell you it's wrong regardless if you enter the right or wrong number. Once you speak with a rep they will try to setup service for a higher amount. Then they insist on running your SSN# only to tell you that you have to go to the store and show ID and will not give you the option to show a technician. I feel this defeats the purpose of online convenience and Xfinity Comcast way of collecting additional fees before starting service.

Description
For several years, I attended a conference known as PrezCon. After I stopped attending, I asked to be removed from their mailing list, which sends out emails at least once a month, sometimes more often. It has never had an opt out link within the email - you have to email back and wait. Almost two years ago, I asked to be removed and got no response other than more emails. After posting a public message to the organizer ( (b) (6) ) he replied that he was sorry, too busy, too many names to manage, etc but would get my name removed. A short time later I got another email and threatened to report him to ( (b) (6) ) and he relented, finally getting my name removed and him promising that I would be removed "forever". Link:

Fast forward to several months ago - I find myself getting these unwanted emails again. Mr. Thompson STILL fails to provide an opt out link at the bottom of his emails despite my suggestion that he do so. I again post a public message asking to be removed, reminding him of my numerous other requests . I also post a link to the Can Spam Act, suggesting he allow easier opt outs and perhaps find a better way to manage his email list. He deletes the public message, and emails me privately.

I am sorry that the system put you back into our e-mail list. I personally removed it today. If you get anymore please e-mail me the e-mail address and I will remove it asap. We just upgrade the site and I guess your e-mail was embedded in the achieved files. Now do me a favor and stop being so dramatic on ConSim. We are Gamer's here and I have responded to your request as soon as I saw your comments.

Today, I get yet ANOTHER email. It is clear to me that ( (b) (6) ) has no methodology in maintaining his email list; furthermore I am beginning to consider these repeated emails harassment. Perhaps contact from the ( (b) ) will convince him that the "drama" is in fact him breaking the law.

His email address is ( (b) (6) ).

His phone # is ( (b) (6) ).

I've attached a PDF of his most recent email that I received.

City/State/Zip: Moorhead, Minnesota 56560  
Company Complaining About: Prankdial

Description
On August 2, 2015 we received a very threatening and scary phone call claiming we had smashed someone's vehicle and left a note with our name and phone number. This person also threatened to "smash my face". We traced the phone number to Itasca Co MN, which is a couple hours from here. We did contact the police who called the number on our caller ID. This person denied involvement. Later, when we called this person to verify their information and try to figure out how their phone number showed up on our caller ID. This person was rude and hostile. The voice sounded like the person who had made the call. This person's location was 30 miles away from a resort where one of my husbands daughters was working for the summer so we assumed she put this person up to placing the phone call. But, when my husband confronted her about this call this weekend, she denied it and dragged her mother into this situation. Meanwhile, my husbands other daughter is claiming she made this prank phone call using a friends phone. She said she used the app prankdial. We find it incredible that she randomly selected a phone number that just happened to be 30 miles away from where her sister works. We contacted this prankdial via email, explained the situation, and requested verification as to the origination of this prank some can find out which one of our daughters is telling the truth. This company responded by stating we would need to send them a supena! We are not suing our daughters, but we wish we could shut down this company for providing bored kids with a tool to scare and harass others. We are foster parents and we had young children with us when this phone call was received. We were scared for our safety and the safety of these kids. After talking with the police, we then realized this had to be a prank. But this was AFTER we called the phone number which had appeared on our phone and got that person angry. We don't understand how these apps and apps where people can mask their caller ID are legal. We request your assistance in gaining the cooperation from this company to obtain the documentation we asked for. We are trying to handle this situation within our family.

Description
I contacted Att in June for internet service to start in July. I moniter my credit- and received notice that there had been an inquiry- and that that one inquiry had dropped my credit score by 7 points. It was a hard pull inquiry from Att.
I did not authorise a hard pull inquiry from them- and no other internet company had ever done this- not even my new landlord or any other services I had set up. I contacted Att for an explaination of why a hard pull instead of a soft pull -and that it was not authorised by me. No explaination except that thats what they do. I wrote a letter of complaint and had it sent certified mail to the address given by Equifax who monitors my credit. That was on August 4th. The address is a po box- and it still sits there-as of today- not picked up.
Why are they allowed to do hard pull credit checks for internet service? Why are they allowed to affect my credit rating in a negative way- while I pay for their service?

Company Complaining About: Mediacom

Description

I work for Apple Inc. I work from home and need to access my company's VPN. Mediacom refused to open the necessary ports (80) or enable IPSEC pass through due to not being able to monitor my data usage. I spent several days going back and forth with mediacom each time I asked for a tier 2 tech or a supervised I was told that they did not have access to supervisors or higher tiers. When I asked if they could conference call Apple I was hung up on. Moments ago I called and the tech to me that unblocking the port and enabling the pass through was possible, but he could not walk me through the set up. When I asked if he could do it himself he said that he would not. I asked for a supervisor and got the same response. My job is at stake and this has been an issue for over a week. I've lost time in training. Prior to my issues with tech support mediacom refused me service because they did not want to walk through the trees in my backyard. When I had the trees removed they complained that they could not access the pole yet when I filed a complaint with the BBB they had no problem access my backyard. They are horrible and unprofessional and don't care about their customers at all. My livelihood is at stake here but that doesn't seem to be a concern. Maybe I should send them a bill with the cost of raising 3 children on 1 salary.

I received an email from someone calling themselves Hon Obiri Uyi Esq, saying he was trying to find heirs of my father because he had $5.4 million. I know it is a scam. Thought you should know. [b] [b] is his email address.
Facebook has locked my account and wants proof of my identity. I am using my legal name (b) (6) and designated farm page. They are requiring copies of government issued ID or credit card, bank statements, school ID, mail or other sensitive information. This is in direct violation of the privacy act as I have never been warned by Facebook. They have my cell #, date of birth and location already. Giving them any other "proof" could lead to identity theft. They are retaining private property in the form of my copyrighted pictures.

Description
Hello,

Some, long time ago (more than 2 years back), I've tried their IP TV service and decided to NOT continue. I've diligently unsubscribed and asked them to NEVER send me any messages. And it, during long time, was so. But about 6 months back they have started bombarding my e-mail address with their "proposals".

Their messages do NOT have "unsubscribe" link nor they have any instructions at all on how to remove my address from their mailing list.

I've asked them (by replying to and by sending my messages to different addresses within their organization - asking them to stop spamming my address - to no reaction from while continuing receiving different proposals from their service.

In my last reply - a few days back I wrote that I'll submit a complaint to you (b) unless they stop sending messages to my address.

I've attached below a sample of message I sent to them asking to stop their proposals. Please note that a part of that message was written in Russian (Latin characters) and the same text then is written in English - for whomever on their side processes messages - could read and understand them.

Please have them (b) remove my e-mail address from their recipients list.
Please help me - those messages are very annoying and distracting.

Thank you very much,

THURSDAY I RECEIVED IN THE MAIL MY VERDICT ON THE TRESPASSING CHARGES

FILE ON ME AT UNIVERSITY WHILE TRYING TO APPLY FOR ADMISSIONS FOR FALL 2014. WHERE I WAS GIVEN A WARNING AND EXPLAINED TO HIM THAT I HAD BEEN GIVEN ACCESS BY THE UNIVERSITY STAFF TO USE THE LIBRARY COMPUTERS AT THE LIBRARY. WHILE LOOKING UP SCHOLASHIPS ON THE COMPUTER I RECEIVED A WARNING WHICH MEANS ONE THESE CHUCH PASTORS WAS TRAFFICKING ME....MY GUESS...DETECTIVE OF THE POLICE DEPARTMENT.

AFTE EXPLAINING TO THE OFFICER WHAT I WAS DOING, I HAD TO GO BACK AND GET A BOOK THAT LISTED THE ADDRESSES OF SCHOLARSHIP FOUNDATIONS TO SUBMIT MY TRANSCRIPTS TO, WHICH IS WHERE I WAS WHEN I GO ARRESTED.
THIS THE TRIAL I PLEAD GUILTY TO...THE OFFICER INDICATED HE SAW ME WITH CLOTHES IS THE REASON WHY. I SAID MY CLOTHES ARE SITTING IN THE BACK RIGHT NOW...AM I TRESPASSING.

THE JUDGE'S FINAL OUTCOME WAS NOT GUILTY. TO GOD BE THE GLORY.

FRIDAY...
I SUBMITTED A REQUEST FOR RESTITUTION OF RE-PAYMENT DUE INELIGIBILITY TO WORK OR APPLY FOR ADMISSION TO ANY OTHER SCHOOL. UPON DOING SO AN OFFICER PLACED A NOTE IN THE HANDS OF THE COUNTY MUNICIPAL TO BLOCK MY REQUEST. I DIDN'T SAY ANYTHING. AS I HAD ALREADY FORSAW HER ATTITUDE AS SHE TRIED TO SNATCH PAPERS OUT OF MY HANDS WHILE TRYING TO DIG FURTHER FOR INFORMATION OF WHY I NEEDED TO SEE THE CUNTY MUNICIPAL OFFICE.

SUNDAY...
I WENT TO TO EAT AS USUAL WHEN I FELT THE NEED TO MAKE A REPORT AT BESTBUY OF BEING FOLLOWED BY A TAN CADILLAC WITH THE TAG NUMBER. WHEN I GOT TO BESTBUY I SAW IT WAS SWAMPED AND DECIDED TO TAKE MY BAGS TO THE STAIRWELL TO BE OUT OF SIGHT OF THEIR CUSTOMERS. THE SIGN INDICATED EMERGENCY EXIT ONLY...I TURNED TO GO INTO BEST BUY WITH THE BAGS AND SAW 3 VOODOO WITCHDOCTORS...AND TURNED QUICKLY TO GO BACK INTO THE EMERGENCY FOR I FELT THE HEX AND RECOGNIZED...SO THEN I WENT TO COME OUT AND THE SECURITY OFFICER MET ME AT THE DOOR AND ASKED ME TO LEAVE THE PROPERTY AND I ASKED ARE YOU A TRAFFICKER. AND SHE WOULDN'T ANSWER. I THEN BEGIN TO EXPLAIN TO HER ABOUT IT BEING A FELONY TO TRAFFICK IN MISSOURI...SHE SAID YOU TELL THAT TO EVERYBODY...I SAID PLEASE CALL THE POLICE...AND BRENTWOOD CAME AND DID A THOROUGH INVESTIGATION. I WAS READY TO TAKE THIS TRIAL...BUT THE OFFICER A WARNING. AND ASKED THAT I NOT COME BACK TO THE PROPERTY. I AGREED MY WORK WAS DONE...I AM SURE THERE WILL BE FURTHER INVESTIGATION AS THESE VOODOO WITCHDOCTORS CONTINUE THEIR COURSE...REMEMBER TO ARREST THEM INSTEAD...SEE BELOW LINK....I PRAY ALL CORPORATE GIVING TO UNITED WAY BE DENIED AND ALL SHELTERS BE CLOSED...

This is to inform you, that you are going to be legally prosecuted in the Court House within a couple of days. Your S.S.N is put on hold by the U.S Federal Government, so before the case if filed we would like to notify you about this matter.

It seems apparent that you have chosen to ignore all our efforts to contact you in order to resolve your case with the Bureau of Defaulters. At this point you have made your intentions clear and have left us no choice but to protect our interest in this matter. Now this means a few things for you, if you are under any state probation or payroll we need you to inform your manager/Concerned HR department about what you have done in the past and what would be the consequences once the case has been downloaded and executed in your name (b)(6).

Now, FTC is pressing charges against you regarding 3 serious allegation:

1. Violation of federal banking regulation act 1983 (C)
2. willful Misrepresentation of Information.
3. Theft by deception (ACT 21 A)

If we do not hear from you within couple of hours of the date on this letter, we will be compelled to seek legal representation from our company Attorney. We re-serve the right to commence litigation for intent to commit wire fraud under the pretence of refusing to repay a total outstanding amount committed to, by use of the internet. In addition we re-serve the right to seek recovery for the balance due, as well as legal fees and any court cost incurred.

WE CARRY ALL THE RIGHTS RE-SERVED TO INFORM TO FBI, FTC YOUR EMPLOYER AND BANK ABOUT FRAUD.

And once you are found guilty in the court house, then you have to breathe entire cost of this lawsuit which totals to excluding amount you borrow, attorney's fee & the interest charges. You have the right to hire an attorney. If you don't have or can't afford one then the court will appoint one for you.

For OIC (Offer in Compromise) Give us a call back as soon as possible and make sure carry your case number (b)(6) with you.

Description

Ms. Swain,

My children and career have been abducted by several people in your company, namely: my former supervisor [REDACTED] as I served as a contractor through The Judge Group who have partnered with Detective [REDACTED] and Chesterfield Police Department that I am a prostitute and

my kids are prostitutes via [REDACTED] and [REDACTED]...inclined by your employee [REDACTED], whom I knew a former member of First Baptist Church of Chesterfield. I emailed [REDACTED] upon the DMT meeting our M9 deadline September 2, 2007, which I notified him shortly after seeking employment opportunities. Shortly after that email, I suddenly lost my job just a few days following the earthquake which hit: Indiana, Iowa, Illinois, Missouri. I am assuming [REDACTED] caused my job to fail and to force me into prostitution which is common to Illinois...but in the state of Missouri it is called Human Trafficking which is a felony according Missouri House Bill 214. I have been unable to work successfully since then. I have had [REDACTED], [REDACTED], [REDACTED], and [REDACTED] send trucks to my home at [REDACTED], 63368. They would sit there and then place a cable shaped into a noose on the facilities box of the neighbor in front...So now they seemed to have taken my denial to become a prostitute into my daughter, [REDACTED], and [REDACTED] with the help of [REDACTED], which was invoked also upon my calling her just as I had called [REDACTED], they seemed to have contacted [REDACTED] to put things in order with [REDACTED], my recruiter at the Judge Group who blocks and traps my email for [REDACTED]. Your AT&T trucks have been seen twice in Clayton. and I sought the [REDACTED] help to see if they are prostituting my kids in the Saint Louis County Justice Center or the Larry Rice Shelter or the Chesterfield Police Dept. namely Detective [REDACTED] Lt. [REDACTED], Officer [REDACTED]. The trucks in question were reported to the [REDACTED] with tag number and truck number in seeking their purpose here in Clayton

This is the second email I've received from someone claiming to be "[b] [6](b) [6](b) [6](b) [6]". The message states the following (my complaint is against "[b] [6](b) [6](b) [6](b) [6]" not Northland Cable - had to enter Northland Cable because it was a required field):

ATTN: Sir/Madam.

RE: TRANSFER OF $35.700,000.00 Thirty Five million seven hundred thousand United State Dollars. I want to transfer to out $35,700,000.00 Thirty Five million seven hundred thousand Dollars from employers (Reliance Bank) I am seeking for a reliable and honest person who will be capable and fit to provide either an existing bank account or set up a new Bank account immediately to receive this fund, even an empty account can serve this purpose, or you help to seek an honest and reliable businessman who can assist us.

I am [b] [6](b) [6](b) [6](b) [6]. An accountant and auditor, During the course of our auditing I discovered a floating fund in a domiciliary account opened in the bank in 2006 and since 2015 nobody has operated on this account. After going through some old files in the records I discovered that the owner of the account who is a foreigner died without any traceable next of kin hence the dormant nature of the account and if I do not remit this money out urgently it will be re-channeled into the bank's reserve.

I suggest we start the first transfer with twenty million Dollars [20,000,000.00] And upon the successful transfer of the first 20 million without hitches or disappointment from you, I shall re-apply for the remittance of the balance of the fund to your nominated account. I am only contacting you as a foreigner because this money cannot be approved for a local account here and I am not supposed to be in possession of such amount of dollars, but the fund can only be approved to any foreigner or into a foreign account.

I suggest we meet face to face to get acquainted, as the fund in question is a large one before we commence with transfer.

I need your full co-operation to make this work fine, As i will use my office to see that the transaction is hitch free and I will destroy all documents relating the transaction once we conclude the transaction. On the conclusion of this business, You will be given 15% of the total amount, 80% will be for me, while 5% will be for expenses both parties might have incurred during the process of this transaction.

I look forward to your earliest reply through my personal email: [b] [6] [b] [6](b) [6](b) [6].

Best regard,

Dear Commissioner,

I am writing to file a complaint against the Petaluma, California Independent School District, because they have issued an iPad to every student for use both in school and at home despite not having a working Internet filter. For over a week, the district has been forcing the teachers to require the students to use their iPads and access the Internet in class despite the lack of a working Internet filter.

Indeed, while on my son's school campus using his school-issued iPad and using the school's wi-fi, I was able to retrieve the attached pornographic images by searching for "naked woman" in the Google search bar and then clicking on the "Images" tab. The images retrieved are not only of naked women, but of naked people having graphic sexual intercourse.

The school district has locked down the iPads, preventing parents from installing or using their own parental controls on the iPads' Internet browsers when used at home.

Unfortunately, this is not my first encounter with problems like this in the Petaluma School District. The district's Internet filter has suffered repeated break-downs over the past two years, negatively impacting my oldest son who was able to view pornography on campus at his elementary school and later at his junior high school.

Thank you for your cooperation in addressing this problem immediately.

Sincerely,

[Redacted Information]

What we thought was tech support turned into misleading, invasive exercise followed by aggressive malware protection sales. Difficulty downloading Microsoft Office took us to a tech support site that misinformed (said we had Trojan on our wifi!), took control of our computer, asked how we use the computer (e.g., online banking), didn't solve our problem, and tried to sell and aggressively upsell virus protection at a cost of $1200. We hung up and called back to complain, was disconnected : you call [b] (6) [b] (6) The person I talked to said his name was [b] (6) [b] (6) and he said he would fix everything. I was contacted a few minutes ago by a man named "Clayton" who informed me that he was from microsoft and wanted to know how many computers I had connected to the internet. When I refused to answer the question, he informed me that "Microsoft" had detected 8 computers currently running on their system and that it appeared as though someone had hacked into my wireless (which is heavily password protected). When I asked for a name, phone number and badge number he said that he was from "fix by geek." The phone number he called from was (b) (6) . I told him that I would check him out, and when I Googled the phone number, I got several posts on the Better Business bureau website, indicating that this was, indeed, a common scam. Is there anything I can do about this, other than contacting your agency? My telephone is an unlisted number, and I am currently registered on the national "Do Not Call registry, by the way.

I have been a Comcast customer for many years, both internet and TV. On 10/14/14 I contacted a Comcast customer representative about my service. I did not ask him to do anything that would require him to look into my credit history. I just found out that on the day I talked with him, a hard credit inquiry was made from a Sacramento Comcast center. I wrote Comcast and sent them a copy of my credit report. I have not heard from them yet.

I would like to have Comcast publicly apologize for this misuse of my privacy, clear my credit history of their intrusiveness and send me a letter of explanation.

Company Complaining About: Digicel Online Top-up

Description
On 8/21/15 I received an unsolicited text from Digicel Online TopUP-Haiti Digicel stating the following:

"Thank you. Your international Top UP for TOP-UP Haiti-Digicel-PINLESS BALANCE successfully recharged."

I don't deal with any parties in Haiti, this text is of concern because I didn't request this service and am worried about my cell phone personal information being compromised.

### Description
There is an experiment being conducted by military service members on an installation which I believe is located in the DC Area to possibly include the Pentagon... I could be wrong.

These personel can manipulate a person including fellow DoD personel and their dependent minor children to commit murder just like what took place aboard the Navy Yard.

Date: 8/22/2015 6:59:38 PM
City/State/Zip: Lawton, Oklahoma 73505
Company Complaining About: Freedom Fitness Of Lawton, Oklahoma

Description
Approximately two weeks ago I received a marketing text message from a local gym franchise, Freedom Fitness of Lawton, Oklahoma, 73505. The message included instructions to "reply STOP 2 stop," which I did. Yesterday, 8/21/15 I received another text message from the same vendor. Once again instructions to "reply STOP 2 stop" were included, which I did. However this time I received an immediate text message from my mobile carrier, AT&T, stating the message was undeliverable as it was an invalid number, so I attempted to do it again with the same result. My secretary also received a text message from the vendor two weeks ago, opted out, and again received a text message at the same time as I did yesterday. She too attempted to opt out again, also to no avail. I called the vendor to render a verbal complaint. They told me to reply STOP. I told them I had and my secretary had but the number was invalid so we were unable. The clerk took our numbers and said she would let her boss know. I posted a query in my Facebook page asking if anyone else had received unwanted text messages from Freedom Fitness and several of my friends stated they had and that they too had opted out earlier, but were unable to this time.

I am [REDACTED], British citizen and Principal assurance manager for the HSBC in London. A staff of Yokozona consultancy firm got in touch with me, regarding the estate of [REDACTED]. And an investment placed under our bank management some year's back. I would respectfully request that you keep the contents of this mail confidential and respect the integrity of the information you come by as a result of this mail.

I contact you independently of our investigation and no one is informed of this communication. I would like to intimate you with certain facts that I believe would be of interest to you. In 1997, the subject
came to our bank and engage in business discussions with our private banking division.

He informed us that he had a financial portfolio of 8.35 million United States dollars, which he wished to have us turn over (invest) on his behalf.

I was the officer assigned to his case, I made numerous suggestions in line with my duties as the de facto chief operations officer, and especially given the volume of funds he wished to put into our bank. We met on numerous occasions prior to any investments being placed.

I encouraged him to consider various growth funds with prime ratings. The favored route in my advice to customers is to start by assessing data on 6000 traditional stocks and bond managers and 2000 managers of alternative investments. Based on my advice we spun the money around various opportunities and made attractive margins for our first months of operation.

The accrued profit and interest stood at this point at over 10 million United States Dollars, this margin was not the full potential of the fund but he desired low risk guaranteed returns on investments. In mid 1998, he asked that the money be liquidated because he needed to make an urgent investment requiring cash payments in United Kingdom. He directed that I liquidate the funds and had it deposited with United Assets Management and securities UK (in their Securities Trading Firm).

I informed him that HSBC London would have to make special arrangements to have this done and in order not to circumvent due process, the bank would have to make a 9.5% deduction from the funds to cater for banking and statutory charges. He complained about the charges but later came around when I explained to him the complexities of the task he was asking of us. Cash movement across boarders has become especially strict since the incidents of 9/11.

I contacted my affiliate in United Kingdom and had the funds available in United Assets Management and securities. I undertook all the processes and made sure I followed his precise instructions to the letter and had the funds deposited at United Assets Management London UK. United Assets Management and securities UK is a specialist bank that accepts deposits from high net worth individuals and blue chip corporations that handle valuable products or undertake transactions that need immediate access to cash.

In Line with instructions, the money was deposited with United Assets Management Uk (in their Securities Trading Firm). Simeon Arag told me he wanted the money there as soon as he got into the United Kingdom; this was the last communication we had, this transpired around 25th February 1999. In Sept last year, we got a call from United Assets Management Uk informing us about the inactivity of that particular portfolio.

This was an astounding position as far as I was concerned. Given the fact that I managed the International private banking sector I was the only one who knew about the deposit at United Assets Management Uk and I could not understand why Simeon Arag had not come forward to claim his deposit. I made futile efforts to locate a person who his description was declared dead of AUTO ACCIDENT TRAUM

Company Complaining About: Comcast

Description
I was using my iPad to read a news story when I was redirected to the Infinity Comcast website. The message kept asking for me to sign in to my account and stating that if I was not a subscriber how to purchase internet access through them. I am not a Comcast subscriber and I attempted several times to get out of the site and access normally. Comcast blocked all access through any other site with the ad. I noticed a number and called their service number and the person helped me fix the problem. Comcast's ad uses software that changed my settings without my permission or knowledge to redirect my wireless access to them. This is a deceitful sales practice using the internet and they need to be stopped because the user is not informed and less knowledgeable users may signup thinking it is necessary. It seems deceitful to surreptitiously change a user's settings to interfere with the free access to the internet with the provider they've chosen or with wifi without interference from another provider.

I want to file a complaint against the following entity:
VIP Dating Network Ad-Partner,
Tucson AZ 85711

Every day of the week, I am getting at least six unwanted advertisements for sex, ranging from Big Beautiful Women to Cheating Wives to One Night Stands. I never subscribed to any of these things, and have been, up until now re-routing them to my junk folder. For the last three days, I have been using the unsubscribe button and entering my email address. I get sent to a page saying they are sorry to see me go and there is an offer for a three day pass to another site of theirs, I guess to make up for the inconvenience. The problem is that each of these offers has a different email location or person, and trying to reply only leads to a dead end, and the reply is returned as un-deliverable. All of these unwanted emails have the same place of business and address in the body of the email with the unsubscribe link.

With very few exceptions from these sites, there are 477 messages in my junk folder since July 5th, 2015.

The attachment I am submitting is the latest spam I received this morning. I included the header so that the sender can be traced, if you choose to do so. Thank you very much.

Sincerely,
[Redacted]

Description
CHSERFIELD POLICE MAY BE BLOCKING MY SEND AS THEY HOLD MY KIDS HOSTAGE
Short version: Whoisology.com shows my HOME ADDRESS if you search for me by email. This is a scary problem for my family as I am a CASA volunteer and have provided this email information to families not knowing that one could Google it and find my HOME ADDRESS! I have children at home. This is a very scary issue.

Backstory: in 2012 I purchased the domain chugachtax.com which was hosted via Bluehost. That domain expired in February of 2015. I did not purchase "privacy" ... I either wasn't aware I could or I wasn't aware that my home address would be so easily accessible or perhaps I just wasn't concerned at the time since I wasn't doing this type of volunteer work. Recently, I've become much more careful and have been Googling every way people might be able to locate my family (including removing bumper stickers from our vehicles that state where our child goes to school). I found a MAP to my house on another website, but was able to change the data so it no longer points to our home. And I found this listing on Whoisology.com which lists our home address. I'm in a state of panic. I've contacted them twice as well as Bluehost, twice. Whoisology will not respond. Bluehost is powerless since the data that Whoisology has posted is archived. So even if I repurchased the domain with privacy, that wouldn't eliminate the archived data. I called our family law attorney who was not up to speed on what laws may govern this type of thing. I don't need the whole listing removed, but I do need my home address and phone numbers deleted as a minimum.

The Whoisology information, as shown: [redacted]

The White Pages or Whitepages.com has listed my personal information on their website, my wife me and my address. I have use the "opt-out" twice only for them to deny it and keep asking for my "unlisted" phone number. I gave them my cell, they will probably now list this next. I keep calling and calling and calling, they NEVER answer, strangely. These people want your information public, they don't care about your privacy. The person I emailed is Dave in customer service and leaves NO last name. I have left messages more than once. On August 20th, 2015, I opted out and received a conformation number, but they said I did not comply because I did NOT provide my unlisted land line that I pay to have unlisted by Centurylink. Our number and address has been abused over and over and why this such a big deal. I told this to White Pages and they didn't seem to care. There phone is. They ONLY answer if it's the sales number , but not info. removal option, and they will not provide any help at all. Zero 0

I have received three unwanted text messages ("spam") within the past 24 hours from a business that does not identify itself, and, as far as I know, I have not given permission to contact me. The text messages come from the number [b](b)(6) [b](b)(b) , and state the following: "I came across your info on YellowPages.Would u like to offer lifetime warranty to your clients on all their Electronic devices?Reply YUP for details (Lucrative)."

I have searched online and it appears I am not the only one receiving this spam. I understand that sending spam text messages is against FCC rules and I would appreciate your looking into this.

In the interest of full disclosure, this complaint is against a former employer, but note that there will be no records found of me ever filing a complaint about them before. I've just spent years waiting for them to fix their unsubscribe link so I can stop putting in ignore rules every time I setup a new email client. Continually send me marketing emails despite the 30-40 times I've followed the unsubscribe link. As a former employee I can tell you there are plenty of records of IP migration due to IPs being burned by the company/proprietors mass email marketing platform and disdain for following the rules (like getting valid contact lists, or having a valid unsubscribe link). I've done some of those IP migrations myself 3 years ago). I just want to stop having to deal with the unwanted email messages, and wasted bandwidth.

Description
I recently received an email from Comcast telling me I'm over my "300GB" data limit, which did not use to be present. They are telling me they will charge me 10 dollars for each additional 50GB of usage. They are also interjecting ads / popups on 3rd party sites warning me I'm over my utilization - thus sharing my utilization data with other parties. If I upgrade my service or bundle it though, I can remove the limit. I never opt'ed in for this limit.

We recently found by my neighbor’s house a grey box mounted on his fence next to my property with two-way antennas and a 1.7 to 6ghz spectrum antenna. When I researched them I found they are used on law enforcement vehicles. There are also suspicious-looking flower ornaments which could they be used to conceal microphones? My concern is why are they mounted by my property? I did detect an intruder on my wireless network. My concern is can they be tapping into my wireless network, phone, cable ect? I enclosed a picture of the box and ornaments and would like you investigate this.

City/State/Zip: Lexington, Kentucky 40505
Company Complaining About: Time Warner

Description
I'm here to shed some light on 2 websites I feel promote hate, and internet bullying among other things as well. This all started when a friend of mine streams Minecraft on Twitch for fun. She loves to play, and enjoys talking to nice people, and I enjoy watching her stream, but it's getting hard for us to enjoy entertaining people when people from 2 websites come in, and say very bad, hurtful things. I know it's impossible to stop things like this, but honestly that's not what I find to be very alarming. There is a website called raidforums.com that I feel needs to be looked at by the FCC. I've looked at some of the threads and believe this website should be shut down. People on this site tell unaware people that they have a system32 virus, which I found out is a hoax, and deleting that file can harm someone's PC. They also claim to be able to DDoS people. This website promotes nothing but hate, and malicious behaviour. I hope there is something that can be done, and I hope you guys take a look at the website to confirm what I've said. Another website that promotes the same behaviour is 4chan.org, this website has NSFW pics and threads that can be accessed by children very easily, and also has threads about DDoS various people around the internet, while I'm not networking genius I believe DDoS someone is an invasion of privacy. I hope something can be done about these websites and I hope to hear from you.
Ticket: # 488067 - Complaint against Comcast
Date: 8/24/2015 11:11:46 PM
City/State/Zip: Clinton, Pennsylvania 15026
Company Complaining About: Comcast

Description
I'm writing to file a grievance against Comcast. My troubles with Comcast began in July 2014 when we returned from a trip to find we had no internet service. We contacted their customer service department and a technician came out to our house within several days. When the technician arrived he informed us he had to replace the connections at the pole. Upon the conclusion of the appointment we once again had internet. Unfortunately the speed of the internet was not what it once was. At the time we had an internet package that promised a download speed of 75 mbps, however we were averaging a speed around 50 mbps. During the next several months I made periodic calls to Comcast to have their technicians either visit the house and or troubleshoot over the phone. In each instance I was provided with a different story as to why we had slow service (weather, location, usage, bad router and in one instance we were told that Comcast didn't even recognize our router)

Ultimately we were sold on upgrading to a higher package because their technicians claimed we were streaming too many devices to handle the load. This proved to be untrue as in most instances we were only streaming one device at a time. Nevertheless we upgraded to a higher package that claimed download speeds of 150 mbps. While we did notice a small boost in speed it was nothing close to the advertised claim. We now were averaging around 72 mbps still shy of the lesser package.

This scenario continued for nearly a year, countless calls and servicemen at our door with no solution. This takes us to this June 1 when I returned from work only to find no internet. Our babysitter informed me she saw Comcast out at the pole on this date but never came to the house. I attempted to logon to the internet but with no success so I promptly contacted Comcast and was told that there was signal leakage coming from my connections which was causing an outage so they disconnected me and needed to come into the house to check connections. My initial response was to ask why they made no efforts to contact anyone at the house prior to disconnect. Had they done so they would have been able to rectify the situation immediately. The operator had no answer to my question but offered to set up an appointment the following day which he did. Unfortunately the following day I received a call from the same operator who informed me they had to cancel and reschedule for June 13th, nearly two weeks later. Despite my dismay I agreed because what other option do I have. So for two weeks we waited and on Friday June 12th I specifically called Comcast to confirm my appointment between 8 and 10 the following day. I was greeted by a gentleman who promptly told me that I indeed was on the schedule for the next day (lie #1). The following day 10 o'clock came and no truck was in sight, I immediately called to reconfirm my appointment and was told that no, there is no record of my appointment (lie #2). Naturally I was outraged and promptly asked to have my call escalated, the representative obliged but quickly came back after a brief hold and told me that an escalation manager would call me back within 15 minutes (lie #3). Reluctantly I agreed to the callback but didn't trust the representative so upon conclusion of the call I immediately called back to explain my situation and talk to the escalation manager. This new representative quickly stated that they saw the notes and informed me a truck was en-route to my address as we speak. I asked for an eta and was told no firm eta but would see a truck within the hour (lie #4). An hour passed and still no truck so again I was on the phone. Finally with this call I spoke to someone who knew their job, was
pleasant and truly cared about what she was doing. I immediately knew I would get somewhere with this lady because you could actually hear typing in the background after I spoke, she didn't rush through the questions, she truly listened and didn't try to rush me off the phone. This was a true southern lady with charm and respect. This call took around 30-40 minutes and although the outcome wasn't what I had hoped I was at least satisfied that I had the truth. This representative stated she saw some of the notes (not all through) as it seemed most of my calls were never logged by Comcast employees. She informed me that my call/case was cancelled by Comcast and that is the reason no technician showed up on this date. I asked as to why it was cancelled, her response was clear. Someone clearly didn't have the right answers to my questions or didn't want to take the time to do their job properly so it was easiest to just close it out and make it appear as through I was the one requesting the call closed. Ultimately from this discussion she was able to route me to another individual who was able to schedule me an appointment for the following day.

Unfortunately the nightmare doesn't stop there and only gets worse. When the technician arrived the following day he was able to get us up and running (mind you we still do not have the speeds and reliability we pay for). Upon conclusion of the visit he told me we should call customer service the following day for a credit. When I did make the call the following day I voiced my frustration and was offered a credit in the amount of $36. While I appreciated the gesture I stated I was looking for a little more to compensate me for a years worth of headaches. The representative stated he understood my frustration and would put in a request for a full months worth of credits (lie #5) in our case that equals $88.95. Several weeks passed and no credit, had been applied. Again I contacted Comcast to inquire on my credit and again I was given the same story, that they would apply an $88.95 credit despite the fact they had no notes of me ever calling about a credit in the past (lie #6). This now takes me to today, 1 year and 2 months after my troubles began. Today I was on the telephone for nearly 4 hours trying to get resolve to the credit of our account. During this 4 hour phone marathon I was hung up on three times, rerouted to the wrong department 3 times and placed on "hold" numerous times. I say placed on hold in quotations because hold was just a way for the representative to blow me off. I would be put on hold and forgotten about until the call was dropped. One such instance I was on hold for 45 minutes. When I finally did speak to someone who was able to help she offered only the $36 credit. I asked to speak to her superior but instead received just a colleague. This colleague did speak some truths when I asked him why was I told by others in the past that they would offer me credit for an entire month of service if that is not the case. His statement was clear, I was only told that by others as a means to get me off the phone quickly when someone didn't have the answer. Clearly this gentleman wasn't a manager as in all my years of business I've never heard of a manager being trained to give such an answer. I then pressed the conversation to either speak with his manager as I knew he wasn't one or perhaps a complaint department. To my expectations I was immediately hung up on.

In all of this one thing is not forgotten which is that there was signal leakage coming from my internet connection for over a year. Despite repeated attempts to resolve the situation with Comcast they did nothing and who knows what information of mine was leaked out and who else may have been on our network for all those months.

It is for all these reasons I wish to file a grievance with the FCC against Comcast. For Comcast is well aware they are a monopoly in certain areas and without another internet provider to choose from they feel as they can operate with full impunity because they know I as a consumer have no other options to choose from.
Best Regards,

Clinton, PA 15026

In 2006 they illegally stopped my disability pension and I won it back in court only to have a lawyer take most of my back pay $61,000 and I received $17,000 $18,000 and $5,000 and am paying the IRS taxes on all of it from State Street Pension because they didn't have taxes withheld and he continued to take one third of my check until 2014 without having taxes removed and I was unaware. This has caused identity theft and has had money taken from every bank account I have had. It is posted on my credit reports from Financial Plus Credit union in Des Moines IA and now in Wisconsin. People have used my credit cards and I am now in bankruptcy court and my attorney just found accounts open in Wisconsin. This has cost me financially, mentally, and physically, I lost my home to foreclosure and that Short sale wasn't claimed with the IRS. I filed a complaint with them in 2012 and they just closed it a couple months ago saying this hadn't effected to my income so I am paying off $30,000 to the IRS at $500 a month.
Ticket: # 490318 - Buy Domain from GoDaddy resulted in my Identity being exposed
Date: 8/25/2015 7:34:24 PM
City/State/Zip: Los Angeles, California 90062
Company Complaining About: Godaddy

Description
After purchasing a domain from GoDaddy, my information has been made public, and due to laws not requiring them to SELL a protection plan included with the purchase of a domain, they decide to call me and tell me what I SHOULD DO, which is give them another seven dollars a year on the domain price, to be "protected" and "secure". My name, address, phone number and email have been made public by purchasing a "product" from GoDaddy. Because I won't purchase a protection plan, my information has become public and this very well maybe the root of all kinds of identity theft in the world. The source of this problem is the domain companies looking to increase their bottom line by exposing their customers information and then telling them they should protect themselves.

Company Complaining About: Time Warner

Description
I have had a history of issues with cable and Internet not working. There have been multiple cable outages and the internet speeds I pay for are not met. Time warner has acknowledged this issue and advised for me to be patient as it will take them time to upgrade nodes in my area. They still are charging me for a service that they are unable to meet. I called for them to reduce the price and they have not.

Ticket: # 491402 - AT&T not honoring 30-day satisfaction guarantee
Date: 8/26/2015 12:11:41 PM
City/State/Zip: Austin, Texas 78735
Company Complaining About: AT&T

Description
On July 17 I called up AT&T sales to inquire about AT&T's Gigapower in Austin, TX. Daegan (phone: [redacted]) answered my call and discussed their offer with me. I expressed concerns about the low bandwidth cap, and he mentioned that I should give it a try because they had a 30-day guarantee and that I could cancel within that period if I didn't like the service.

We took the service (which was installed on August 3, 2015), and recently found out that the price I'm paying grants AT&T permission to collect my usage data and use it for advertising.

I called up AT&T on August 24, 2015 to remove that "preference", but was told that the price was actually $106, rather than $70 + $29 = $100. Not a big change, but still...

I told the rep on the phone I'd like to make use of the 30-day guarantee I was promised to make the switch to TWC, because for that price I could get Internet and TV (HBO + Showtime included). She replied that I couldn't take that 30-day grace period because that was only for new customers. I explained I was a new customer. That I didn't have AT&T service until August 3, 2015. When she heard that, she switched gears and said that the 30-day guarantee was not available for Gigapower service. I told her I was offered a 30-day by the sales rep, but she said that wasn't correct.

Please investigate this. AT&T is making an offer of a 30-day trial, and then backtracking when the customer requests to make use of it.

Also, is AT&T allowed to use my privacy as a bargaining chip to extract even more money out of me?

I've attached a picture I snapped of my notes during the conversation with the sales rep. It includes his mention of the 30 day guarantee.

Description
My name is [REDACTED] and my business is Denny Financial Resources. I live in Lafayette, Louisiana. When someone is looking for Denny's Restaurant via the internet in Lafayette, La a website called hoursguide.com appears with the Denny's Restaurant logo and my name as Denny's with my address and business phone number. I am receiving numerous phone calls day and night with people looking for the restaurant. Their is no Denny's Restaurant in Lafayette, La. I have spoken to Denny's corporate office about this illegal use of their logo and the incorrect listing of my name and phone number. They claim that hoursguide.com is not a website that they own, support or provide information to. The legal department at Denny's corporate office is aware of this problem, but has not been able to assist me in having my information removed. This listing has been and is a constant distraction to my business and personal life. Imagine getting calls in the middle of the night with elderly parents wondering if something has happened. I look forward to any assistance that can be given to me regarding the non-authorized use of my name, address and phone number. Thank you,

In order to get a voucher to take a CompTIA exam, I have to create an account on Pearson Vue's site. In order to create the account, I have to accept to their terms of service and privacy agreement, or I cannot create an account. I do not agree with their terms, and I cannot create an account unless I click that I do agree. Without the account, I cannot get a voucher for testing, nor can I take the exam. This is preventing me from getting certified, and getting a job in IT. I cannot believe that this is allowed. And isn't this a monopoly if ONLY Pearson can administer the exams? Is there a way for me to have an account without signing over my rights?

To Whom It May Concern: URGENT!!!

My name is [b] [6], School Psychologist/Special Education Coordinator for the Iditarod Area School District (IASD). Since May 15, 2015, I have served in this current capacity, and also worked as the IASD Administrative Assistant to the Superintendent and as a Technology Support staff.

I write today on behalf of myself, and Superintendent Dr. [b] [6]. Please help us with a criminal situation involving a disgruntled former IASD staff member.

A woman by the name of [b] [6] continues to log in to our computer system by activating surveillance software she previously authorized as a district purchase at some point during her employment as, “Technology Director.” We have learned that Grieve installed/activated Airwatch on many IASD computers including the former interim Superintendent’s laptop, which was handed over the current Superintendent in May of 2015.

Her current behavior as a former employee is criminal according to AS 11.46.740. IASD has electronic records verifying claims reported here.

Although no longer employed by IASD, [b] [6] continues to remotely peruse any and all content on staff computers, and she also has the capacity to remotely activate computer microphones and video cameras for eavesdropping in the IASD district office. In some cases, it is suspected that information gleaned illegally is being provided to [b] [6] of NEA Alaska, a union representative assigned to IASD. Poole’s references in specific recent complaints are now under scrutiny in light of what has been discovered regarding this serious, ongoing breach of privacy, confidentiality and attorney/client privilege.

On June 11, 2015, Grieve, who holds an AK teaching license but was functioning as a Director of Technology for IASD, resigned. Upon her resignation, she immediately joined several other recently departed IASD staff in filing a preliminary grievance with NEA Alaska where she made a variety of unsubstantiated allegations.

In the weeks leading up to her resignation, [b] [6] repeatedly refused to provide IASD Superintendent [b] [6] with requested information regarding technology whereabouts, server locations at sites, accounts held by the IASD tech department, computer programs, and all logins/passwords. She eventually provided a list of computer programs and passwords to Weston that were non-working including a non-working password to the IASD wireless system. The list provided did not contain any reference to the Airwatch surveillance software nor was Weston ever provided with an administrative login to that particular software.
To date, we have attempted to block all access to \[b] (6)\]; however, Airwatch records reveal she continues to illegally login to our system by using a variety of employee logins/student names with some linked back to her personal ipad mini.

IASD wireless Internet is provided through erate, which is a federally funded school subsidy administered by the Universal Service Administrative Company. While it is known that \[b] (6)\] interfaces with IASD computers through an erate provided connection in Mc Grath, it is suspected she may also be initiating the connection into IASD using another erate funded source as her current employer is believed to be her husband, \[b] (6)\], Superintendent of Chatham Schools.

Interestingly, \[b] (6)\] served as IASD Assistant Superintendent for a number of years in the past.

A brief chronology of events leading up to this written complaint is as follows:

\[b] (6)\] at DRS, the current IASD internet manager, informed IASD tech staff \[b] (6)\] in late July, that Grieve was continuing to login to the IASD computer system. Shortly thereafter, \[b] (6)\] discovered an Airwatch icon on a computer she was working on. This was the first time the current IASD administration knew Airwatch was installed on any IASD computer.

\[b] (6)\] logged in as \[b] (6)\] on Airwatch several times in May of 2015 but never mentioned the software to \[b] (6)\] in a face to face meeting that took place on or around May 15th, 2015.

\[b] (6)\] logged into Airwatch as \[b] (6)\] and on 6/1, 6/8, and unsuccessfully as \[b] (6)\] on 6/11/2015.

\[b] (6)\] resigned on 6/11/2015. Coincidentally, a draft of a letter to the Professional Teaching Practices Commission (PTPC) existed in email and on the Superintendent’s laptop on 6/10/2015 that challenged \[b] (6)\] ethically and professionally, based on her continued refusal to provide IASD administration with an IASD technology inventory and password/login information.

Airwatch records reveal numerous ongoing logins to the IASD computer system since her resignation on June 11, 2015. IASD has archived these records and continues to collect them.

Grieve appears to have activated numerous devices for Airwatch. Some of her most recent logins are traceable back to her personal mini ipad although she has been logging in as current/former IASD staff and/or students. There is no scenario that would explain student logins to Airwatch over the summer in a place where most families do not have internet.

Airwatch records reveal \[b] (6)\] previously purchased over 300 Airwatch licenses last year for less than 190 IASD devices, which has led to concerns that licenses purchased with IASD funds are being used elsewhere.

Another former IASD staff member who also resigned in June, is a known associate of \[b] (6)\], and is now employed by \[b] (6)\], husband at the Chatham School district. \[b] (6)\] apparently logged into the IASD email system as an IASD employee and deleted all emails (IASD property) from...
the account in August of 2015. Airwatch records indicate two administrative logins for [redacted], one of which was also used over the summer.

There are many more details to this case too numerous to list. IASD has reports that show multiple logins over the summer as staff and/or students. We continue to pay for the Airwatch service so that we can continue to monitor this behavior and keep records of it.

Suffice it to say, we need help stopping this malicious, egregious and unfair illegal behavior. Please contact myself, [redacted], School Psychologist and/or [redacted] ASAP.

Description

We recently moved to our new home in Roswell, GA and are unfortunately stuck with Charter Communications rather than having Comcast. I ordered service with Charter Communications and spelled out each letter of my name, [REDACTED], yet my account was setup with [REDACTED], with my first name being NOWHERE near the correct spelling. I've tried unsuccessfully for the past 2 months to have this corrected and they've corrected the statement but not the name on the notification email. What makes it worse is that this incorrect spelling is the first time I have ever had to endure something like this, where my name has been butchered this badly because it's an Indian name rather than a "typical" name. What proves that Charter has sold this information to others is that I have received mail from AC/Heater service providers, dentists, gyms, and other local businesses for [REDACTED], which is the name that Charter has chosen for me. I have even placed a Better Business Bureau complaint against the company and the company has promised to rectify this mistake but has not done so on all the required documents. Email is below and other unsolicited mail are available as proof. This complaint is for violation of privacy and selling of personal information.

Ticket: # 495751 - Ford Credit -- Insecure Passwords and Customer Information Storage
Date: 8/27/2015 11:36:42 PM
City/State/Zip: Phoenix, Arizona 85008
Company Complaining About: Ford Motor Credit Company

Description
Hello,

I recently read that the FCC is cracking down on companies with poor IT security practices. I recently signed up at www.fordcredit.com in order to make my car payments through Ford Motor Credit. I was surprised to find that they enforce a password length of 10 characters MAXIMUM and NO special characters allowed, only alphanumeric. I'm sure that you understand that this is highly insecure. I immediately assumed it was due to storage-space considerations, but since the password should be run through a hashing algorithm, the length of the password shouldn't even have an effect on end storage size. The only reason they would enforce such arbitrary limits is if they were storing the passwords in plaintext... which would just be ridiculous.

Even if the passwords were hashed, if the password table happened to be stolen in a security breach (which is, unfortunately, is not uncommon in IT security) such a small maximum length with a tiny subset of allowed characters would allow for offline attacks on the table to be highly effective. Heck, even just guessing passwords online would probably prove to be fairly effective for a very determined and patient attacker.

At the current moment, I don't feel safe giving them my credit card details and personally identifying information, but I have to in order to make my car payments. Seeing as Ford is one of the top car companies in the nation, I imagine that they already store a LOT of customer's information and payment methods, and this makes me worry about the safety of other's accounts as well.

Thank you for your help. If the FCC can't look into this issue, please let me know, and I'll see if I can contact Ford directly about this matter; however, I doubt the complaint of one customer would ever make it to someone that could do anything about it in such a large company.

Sincerely,
A security-conscious online consumer

I'm a merchant and Living Social violated our agreement, at that time I vowed I would never do another deal with them and told them to never contact me again. I've been trying for 4 years to get these emails to stop, they have so many employee emails I can't block them fast enough. Here is a typical one, with a misleading subject line, no opt-out, no address, clearly not compliant.

Subject: Follow up for Thursday or Friday?
From: 
Message:
Hi Jonathan-

I hope you are having a great summer!

I was wondering if you would be free for a call Thursday or Friday to speak about any events you may have during the fall season and get a jump on ideas for winter ski season.

Best,

That subject line makes it sound like this is someone I've just spoken with, and doesn't sound at all like a commercial request. I can't opt out, even if I express that in a reply I'll get a new employee naively sending new email next month.

Every time a new Living Social employee emails me I have to re-live the horrible experience we had...them changing the terms on our daily deal without our consent, running the deal early, refusing to take the deal down, me being forced to honor sales with terms I would have never set. I reply asking them to never contact me again and I block the email, but soon enough a new employee is reassigned to our account and I'll get another email. They knowingly operate in violation of Can-Spam and refuse to honor my removal request, please hold them accountable. I don't think any warning or slap on the wrist will change this, they need a large financial penalty to take it seriously. Please make them pay the harshest penalty within your power, it goes beyond pushy marketing and they need to be penalized.
Description
An email message was sent to my iCloud address informing me that I am the recipient of a shipment of a box of U.S. currency consisting of many-many bundles of $100 bills (picture sent with email). This person is also demanding that I "settle costs" about this "shipment." This appears to be some kind of shakedown racket and that is why I am filing a complaint about it. The name of the person at the bottom of this email is (b)(6).
Ticket: # 497066 - Verizon emails are missing
Date: 8/28/2015 3:11:27 PM
City/State/Zip: Fort Washington, Maryland 20744
Company Complaining About: Verizon

Description
Consumer is calling about Verizon bundled service. She is the primary email person and she is having problems with her email. Her husband hasn't received an email since last week. She contacted Verizon on 8/21/15 they said it would take 24 to 48 hours to correct the problem. On Sunday 8/23/15 she called to check the status the recording said it would be fixed by 5PM, which didn't happen. From Monday until today the issue still has not been resolved. Verizon just keeps saying it will be taken care of and someone will contact her in 24 to 48 hours and they have escalated the problem. She has documents in the email that she is afraid she won’t be able to retrieve. Verizon will not allow her to speak to anyone in corporate or provide her with information for their corporate office. Consumer wants to receive a month of free service for her troubles and to have her email restored and reinstated immediately. CTR252

Date: 8/28/2015 3:38:43 PM
City/State/Zip: Lakewood, Washington 98499
Company Complaining About: Comcast

Description
The text I received at about noon on 8/28/2015 is below. It includes a phone number. There is no excuse for you not identifying the owner of that number so you can nail them to a rock and throw the rock into the Atlantic ocean. I have retained the original text; if there is hidden information in the thing, tell me how to send it to you and I will do so. I want to tell you I am damn tired of spending money on this FCC fraud program and getting no results whatsoever. Here is a phone number; it has to work, or it would do the fraudsters no good. So find them.

Here is the message (between quotes):
"(Highly Important.Cod{[b](6) [b]Debit unlock_Call [b](6) [b]now) ID[b](6) Bank 0F Ameirca. Sincerely, Support Dept"

PS: Your form INSISTS on information irrelevant to my complaint. Do you not act on complaints about abuse of telecommunications infrastructure? Are you interested only in consumer abuse by operators of that infrastructure? The FTC suggests that my complaint also be entered here, but it appears to me you don't want to listen.

Date: 8/29/2015 10:46:22 AM
City/State/Zip: East Boston, Massachusetts 02128
Company Complaining About: Comcast

Description
On Friday, August 28, 2015 I tried to sign in to my Comcast email account and was unable to sign in as it didn’t recognize my password with the user ID. When I tried to reset the password it did not recognize my security information. I called Comcast and they told me my user ID was assigned to a person in Pennsylvania with a similar name. They also told me that the user ID assigned to my account now is a series of letters and symbols (e.g., gibberish). I was told to call Comcast's fraud unit this morning and after speaking to two different people I was told that they had to contact the other customer and get his/her agreement to relinquish the user ID and give it back to me. I have had this user ID for many years and have used it to sign into my Comcast account for bill payments and for email right up until earlier this week. In fact, I have banking information on file with Comcast for bill payments. At this point I do not know if the other person has access to my emails or my account information and Comcast cannot assure me with certainty that they do not. I do not know if my account was hacked. Comcast says it was not but they cannot explain how this error occurred. It is very disturbing to me that my security has been compromised and Comcast does not know how it happened or how to fix it. They are a monopoly with a total disregard for their customers. They should be held accountable.

Ticket: # 499065 - Protection of general internet devices from flashing

Date: 8/30/2015 4:02:23 AM
City/State/Zip: Den Helder, Wisconsin 63240
Company Complaining About: None

Description
You have recently put a new pdf up describing a new idea of protecting internet managing devices like, routers, modems, switches etc. From the act of flashing custom or self made firmware on these devices. However I find that this can and probably will become an problem, for privacy and other causes. This devices manages all of the companies or users internet traffic anyone with direct access to it can manipulate, intercept and send any data that passes its connections. By flashing open source trusted and tested firmware on these devices companies and users are protected from possible security flaws, backdoors or other negative intensions from the company selling the device.

You can also imagine possible negative effects if such an device stops being supported by their manufacturer, and a mayor security issue is discovered. Is the user now compromised and not allowed to do anything about it but buy a new device. Does that seem fair, especially since this still could be a very capable device.

Further since this device after buying it is property of the company / user shouldn't it be their right to do whatever they want to this device. After all we are an 'free nation'.

FCC I believe that these intentions of protecting these devices are wrong, Please review and rethink them.

Ticket: # 501178 - Internet advertising adware
Date: 8/31/2015 4:17:11 PM
City/State/Zip: Kansas City, Kansas 66112
Company Complaining About: Time Warner

Description
Even though I have a spyware protection on my system I'm getting pretty tired of having to but new equipment because some advertiser has found a way to hack my personal data....which is supposed to be protected. Over the last 5 years I have had to buy 2 CPU's due to someone or somethings blasting my system and locking it down. That is very irritating and can be expensive.

There should be some limitations on the ads used on the internet. Just today less than an hour ago I was on the internet reading an article and wham....my screen went blank a few secs. then 5-6 windows opened warning me of another virus attack. Well after running my spyware there were 59 intrusions.......99% were due to adware trying to breach my system for personal data. Is this actually legal? Can advertisers really put cookie tracers on your system without permission? I realize the internet is a broad concept but should there also be more protection for the consumer? We don't need anyone tracking which web sites we visit and if we purchase anything and...try to steal that data. None of the advertisers can track you when you go to a store to purchase something why should they have that option on-line.
It is becoming quite a nuisance when you can't use this medium without out fear of being violated. It's like having your house broken into.

Company Complaining About: Verizon

Description
Greetings, I have been receiving at least 3-6 email daily for various services (astrology, dating, insurance, etc.) that I never ordered or authorized. These emails are processed by OmniMail Marketing. While there email content shows supposed link to unsubscribe, the links are images pasted in and are not a live link, hence cant be used. Their website is "under construction." The company is braking the law, please enforce the law and force them play by the rules. Fines for braking the rules should be in order as well. Thank you.
Ticket: # 502358 - unwanted emails
Date: 9/1/2015 9:27:48 AM
City/State/Zip: Ny, New York 10128
Company Complaining About: AT&T

Description
I keep getting emails from:
aceedutech.com and IndiaMart.com
As many times as I have tried to contact them to "Unsubscribe" they continue to send me unwanted emails. They just clog up my Inbox and are not offensive - just selling things.
What else can I do?

Ticket: # 502794 - email service
Date: 9/1/2015 12:04:14 PM
City/State/Zip: Pennsauken, New Jersey 08109
Company Complaining About: Comcast

Description
Dozens of emails in my inbox, as well as in my sent email box, have been wiped from my Xfinity based email website. I did not delete them, they have been deleted by unknown reasons. Comcast customer service has been unable to explain how this happened. Call centers in south and east Asia seem especially challenged to communicate the specific type of issue to Comcast's "Tier 2" level of customer support.

Ticket: # 503395 - charging me a deposit or a demanding a credit check
Date: 9/1/2015 2:49:44 PM
City/State/Zip: Beaverton, Oregon 97008
Company Complaining About: Comcast

Description
We are moving into a home we are purchasing and are being required to pay a deposit even though we are using our own modem and router. They said we could have a credit check and fork over my SS # but since we are still waiting to close on our home we did not want a credit check to show up during the closing process. We are getting electric and gas turned on and they don't require a credit check how is it that for internet and a phone service that this is demanded.
Description
Over 2 years ago I faxed all the required documents to Google to provide me access to my late son's gmail accounts. I followed up by email once in a while, until finally after several months, they asked for a court order, which I emailed to them and followed up again and again. After a few months they asked for a court order specifically for Google. I emailed them the required court order to both [b] (6) and [b] (6). Since then I have sent several email messages asking for status. They don't reply to my messages. This process has caused more grief for me and my family.

A few months ago I filed a Better Business Bureau (BBB) complaint. Google representative sent me an email asking for the documents again. I re-sent everything they require. They stopped communicating with me again. They don't even reply to my BBB requests.

Description
My gmail account is hacked, and I want it to be permanently closed. Some of the government (state of Texas) was allowing it to be monitored and opened as a portal to cause me complete financial destruction, and also evade the police in Dallas after I filed ID theft. I wish I would had notice its personal attack earlier, because I entered a hospital and signed in and then they had messed with my medical record, and wanted to avoid a lawsuit. After that I was shifted back to Texas unknowingly, because I was not getting emails at my Yahoo address, that I still have, but that one is ok now. The Gmail one has to be completely shut down, it is (b) (6) it is insanity.

Description
I received a call from (305) 356-9999 and was told they were the Federal Grant Bank New York giving government grants, and that I had been selected to receive a $7,800.00 grant. [b] (6) [b] asked several questions, then told me to call [b] (6) [b] where arrangements would be made to send my check. When I called they said I would have to pick it up as a money-gram, but I'd have to give $200.00 to receive it. I told them thank you, but I didn't have $200.00, a [b] (6) [b] spoke with me. Please advise me if I have reached the correct department. [b] (6) [b]. I was able to fill out the rd dot requirements as this call had nothing to do with the internet, so I just fill in what I thought would get my message to you, and I have no "company" so I just put in Verizon my phone service company.

Company Complaining About: Comcast

Description
I recently contacted Micro Trend, the company we use for our internet security for a suspected virus. After speaking with 3 agents I was then referred to call Microsoft at [b](6) for the problem. After 3 hours of a remote session with them I then was referred to Hewlett-Packard and was informed that the company at that number was not Microsoft and was a fraud. We feel very violated and have no idea what information they have from our computer. According to many people this is a common problem. Also, to protect our social security numbers we were instructed to contact the credit reporting agencies at AnnualCreditReport.com and flag our numbers. When you google that company there are many sites claiming to be official. There are even two sites that use that exact name but one uses all small letters and one uses capitals at the beginning of each word. You also see a lot of fraud complaints about this on many consumer reports sights. Myself and many people are upset because we do not feel comfortable giving information now over the web and even over the phone. This is crippling the masses in our country. So I went to your sight to try and contact someone to get advice and a legitimate credit report agency number and [b](6) . I tried 0 for the dash and it is an invalid number. So my complaint is multi-faceted, but I would still appreciate a response to it. Thank you, [b](6)

LA fitness continues to email me despite the fact that I have opted out for unsubscribe on multiple occasions. I have spoken with someone on the phone and I have an email confirmation from someone there that I have been removed but they continue to email me. They believe at one point I was a member of their gym and that somehow precludes them from having to unsubscribe me. I have made it clear to them that I have never been a member at LA fitness and they confirmed it was someone else with my same name in a different state. Still though they send me emails!
Ticket: # 508372 - Undesired calls from the Health Insurance Marketplace

Date: 9/3/2015 12:28:01 PM
City/State/Zip: Lenexa, Kansas 66219
Company Complaining About: Government Health Insurance Marketplace

Description
I recently signed onto the Health Insurance Marketplace to find coverage. I have been receiving unsolicited calls like crazy from the many call centers around the country. I signed up, so you would think that calls would cease, they did not. I have received at least 20 additional calls from the different states' locations. Most recently, I received a call and asked the gentleman to put a mark in my file about future calls. He said he doesn't do this. I then asked him, point blank, to cease calling my number. To this he responded that he didn't really care and kept talking over me. At this, I hung up. Shortly afterward I tried calling back to speak to somebody else and found the number was a bad one. This number is [redacted] and my number is [redacted]. I ended up calling another previous number, [redacted] and asked to speak to a supervisor. I was told that nobody was available. WHAT KIND OF OUTFIT IS BEING RUN??? The lady told me that she would place me on the Do Not Call list. This would be fine, except I received at least 2 additional calls from the marketplace. Does this company not share information? When the last person contacted me, I told them of my grief and have not been contacted since.
Ticket: # 508502 - Centurylink call centers and threatening emails to customer  

Date: 9/3/2015 1:07:57 PM  
City/State/Zip: Patrick Springs, Virginia 24133  
Company Complaining About: Centurylink  

Description  
I am 20 year customer with CL, but recently calls for repairs were routed to new sales on the CL systems. Example:1. Call for repair for Dish, then encouraged to transfer to DirectTV. DirectTV tried 3 times to install, but problems with contract between DirectTV and CL on limit to footage of wire required outside of house, but counted as new sale with charges each time I tried to explain to one of call centers who tried to enter as "new sale for each call" and actually sent the same installation representative three times.2: Meanwhile, when internet modem failed, sent customer another old modem and counted as new sale. When I tried to talk to about a dozen different call centers attempting to get corrections about new sales , instead of repairs, I started getting these threatening emails containing information that only one of the call centers would have known. 3: Most worrisome was that one of the call centers gave me a bogus unsecured email address where my problems could supposedly be resolved. Unfortunately, I opened it and am having major computer problems because of the bogus email. When I tried dozens of CL telephone numbers , I am given other telephone numbers that simply go to another call center. Completing a request for assistance on the internet customer service center seems to go into "cyberspace"heaven with no response. Now I have an infected computer, charges on many new installation visits, when I am 20 year CL high speed customer. I am not concerned that I will never get a refund for any of the new installation visits. This will never happen. But I am concerned that some call center is obviously anger that I attempted to report that the many incorrect new sales were repair calls, and now I have an infected computer. As an elderly customer who feels this is a scam, I do not know where to sent this information. Please advise

Ticket: # 508723 - ATT virus emails

Date: 9/3/2015 2:20:39 PM

City/State/Zip: Mansfield, Texas 76063

Company Complaining About: AT&T

Description

Random and periodical emails are being generated directly from the AT&T email. Some individual and/or individuals… i.e. someone and/or something is causing this too occur. The email belonged to my beloved husband of 20 years whom tragically passed some 16 months ago of a terminal disease. When sent, this email always carry’s attachments that if click upon might generates a malicious virus that severely damages, corrupt and perhaps seals personal and proprietary data. This has been occurring for over two months now. All of the AT&T representatives that I have been in communication with the exception of one (A very nice guy but he cannot solve the problem) have been cavalier, non responsive, not helpful. I have literally been on the telephone for hours speaking with AT&T representatives who render scripted apologies, who transfer me from rep to rep, from city to city, from country to country. They waste your time asking unnecessary questions, repeating over and over again, the same thing that I have already told them. Example, (Stated he was a manager) employee number, Tel he makes call back promises and never calls back. (There are too many other representatives to mention in this communication). I have requested from AT&T the following (1) They cancel, stop, deactivate this email. (2) I have requested written confirmation from AT&T that this problem ceases. I would sincerely appreciate it if you can help me.

Thank You

I have received more than 10 text messages from "Lending Club" telling me I have been approved for a payday loan. I have called them five times and asked them to stop texting me and each time I am told they will remove my number. When it happened again today, I called the number and asked to speak with a Supervisor. I was told by the agent (Mr. [b] (6) [b]) that he was a supervisor and could help me. I explained the situation and he said he would remove my name and number from their list. I told him I had called numerous times before and was told the same thing. I asked why this time was different. He said "because I answered your call." I told him that if I did receive another text, I would be filing a complaint with the FCC. He responded with "Call the FCC, Mother Fu@%er" and hung up.

I've been contacting Comcast for the last month about emailing me at the above email address, (b) (6) . Another customer incorrectly provided them with my email address instead of theirs. I contacted that person and they made the correction with Comcast. However, I continue to receive emails from them and not one of the emails provides you with a way to opt out or unsubscribe without logging into an account which I do not have as someone who is not a Comcast customer. I've spent hours trying to get this resolved but cannot as they don't fix it on their end and they use so many emails to reach out to their customers. As I type this complaint I've been on the phone with them for 53 minutes for the fourth time in the last weeks without any resolution.

Description
Had a call this morning from a toll free number at about 7:15 am. They said they were from Windows Tech Support and were calling people who were the subject of hackers and to prove their authenticity they would give me the number of my window software license. I knew this wasn't a bonafide call, but I wanted to see how they operated. They guided me to where I could look up my software license #, read it to me and then asked me to open my event viewer which showed many error messages...at which point they said I had to be transferred to a senior technician who would help me fix my problem. The senior technician asked me to connect to the internet so he could "shadow" my computer...at which point I refused and he became rude and hung up.

I was once publicly registered with the ICANN and WHOIS because I have/had domains under my ownership and management.

After registering I received NUMEROUS auto-dialed calls on my cell phone. I've since cleared the content of my contact information and slowly the unwanted calls have dwindled to a slow trickle.

I now received notice from my Domain host that the ICANN and WHOIS registration requires my contact information be updated to correct contact information. I don't intend to do so unless I can be guaranteed that my contact information will be protected. I was told that my Domain could subsequently be cancelled as a result.

I am not sure what further option I have.

I found out today that if I hadn't disabled my public Xfinity network in comcast's settings, it would be broadcasting. It has been publicly broadcasting an open network without my consent for months, and I was not informed of this. Date: 9/5/2015 2:00:26 AM
City/State/Zip: West Palm Beach, Florida 33413-1284
Company Complaining About: AT&T

Description
I am a subscriber of the AT&T Uverse phone, tv, and internet!
I have been scammed by a company (Gts.o* Company) Located in Nicosia, with an online address of ABCRepairtech.com.
This company has stolen the AT&T Customer database and has represented to me, as well as thousands of other AT&T customers as well, I presume, to get my home phone number, email address, and name, where-upon they popped up on my computer screen to tell me, with the AT&T logo at the top of the page, that they have found spyware on my computer and that I must call the number 8444654888 to activate the solution department so that they could remove all the BAD STUFF I had on my computer!
Now, because I was led to believe that this was, in fact, AT&T contacting me, I did call that number and as soon as I did, they called me back on my home phone line and proceeded to ask for permission to take over my computer, and all I had to do was enter my password and they would remove all the bad stuff on my computer!
When I saw my mouse moving all over my screen, I immediately said that what they were doing to my computer made me very nervous and to cancel the agreement I had authorized. They said they would refund my $103.00 and that would be the end of that!!!!! Since the man on the phone spoke perfect English, and I really thought it was AT&T, I didn't think much more about it until my Bank sent me 10 emails questioning me about the $103.00!! The bank listed the company as being located in Nicosia, at which point I called my bank and took all necessary steps to get my money back! I finally did!
The whole reason for all this description of events, is because when I called AT&T agents, 3 different times, with 3 different agents, they all said there is nothing they can do! PERIOD!!!!! I tried to tell them that the AT&T Customer database had been stolen, and that I had been scammed, they had no interest in this information, even the supervisors I had asked to be switched up to!!
Now, to me, if I knew my customer database information had been compromised by a Company in Nicosia, I would have pushed the call all the way up to the top IT Department so they could investigate what was going on with their Customers INFO !!!!
I want the FCC to look into this and find out how many other AT&T Customers have been contacted, as well as prosecuting these scammers located in Nicosia, OR ANY-WHERE ELSE, FOR THAT MATTER!!!!!
AND, try to educate AT&T that ID Theft is no laughing matter, and all their people should be educated in how to handle any Customers' complaints regarding database THEFT!!!!!

Sincerely, [redacted]

City/State/Zip: Cincinnati, Ohio 45202
Company Complaining About: Time Warner

Description
Beginning several weeks ago Microsoft launched their new Windows 10 software offering it as a "free" upgrade to any previous Windows operating system. However at least 2 dozens times a day or more my screen gets the pop up upgrade message which interrupts work I'm doing and having to incessantly close it. It's beyond irritating! There is currently no way to stop this.
My complaint is just as "robo calls" are illegal, Microsoft is abusing all of their users of Microsoft operating systems by continuously bombarding with this messaging from the stored IP addresses of their users in a harassing way that ANY IP should have the opportunity to "opt out"

Description
Yahoo, GMail, Juno, Windows Outlook (live) and other emails illegally received instead of being received by addressed party then the actual emails are being illegally modified by escapees Cutler, Williams, Brown and others in the Laramie Cty Sheriff's office. The issues are due to an illegal microwave antenna that will pull the signal and allow for them to illegally clone my computer. Then they illegally used my antivirus software while they were calling Symantec with (b) (6) claiming not to be me with (b) (6). I do not allow this illegal activity. I demand my privacy and this is an invasion of privacy to which there are no subpoenas for the demanded illegal reception of my email or the responses that are never received by me going to them illegally. This is a Federal offense and per CALEA is over the limit that the County has for its bonding. So I demand the immediate repaisr to be made restoring my emails to private. They are keeping me from working and that goes for the rest of my family. I will be suing the culprits and FCC for their lack of action. I do not want my emails being read allowed over the CD speakers. That is why they are put inwriting and I demand responses to me from the persons asddressed not from (b) (6) whom has rewritten my emails claims to be me now to steal more funds from me.

Comcast continually calls early mornings on Saturday to confirm internet appointments that occur the following week. This is not only unnecessary, but what we consider harassment. This can be done during normal working hours and business days. In the past week, we noted Comcast is adamant about confirming service calls, but NOT adamant about providing true customer service--techs ill prepared, lack of communication, unanswered calls on our part--the list goes on. We plan to file with the BBB as well, but would appreciate FCC intervention.

On a random basis, I get a pop-up that tells me that I must call [b](6)[/b] because my computer has a virus. This ad blocks my screen and I can't delete it, I keep hitting the X to close it but has no effect. After awhile and repeatedly hitting the X a little box shows up and you can then get out. However, I have to reboot the computer because the cursor does not work properly until you reboot. Today I called the number and got a technician in India, he reluctantly to me where he was located. He said that he would scan my computer and if he found a virus he has a program that I can buy that will remove the virus. I asked him where the company was located, he said California, but he would not give me the name or address. I told him that this was a scam and that he put this virus on my computer and pirated it. He kept telling me that it was a legal company and he could help me. He would not tell me where in California that the company was located, he did admit that he was in India. I told him that I was reporting his phone number to the FCC and he shouted at me to not call again.

Description
About 2 weeks ago, my personal email just stopped working. I went onto the infinity website, logged on to find out my personal email had disappeared. My business email is still working and is the email that I am using to register this complaint. I called Comcast to find out why my email was no longer working. I was told that due to a computer glitch, my email was given to another subscriber. This is an email that I use for household concerns, children school communication, banking, credit cards, and other accounts with vendors and services. I was referred to their security department and was told that the email address would be suspended, an investigation would occur and within 48 hours someone would call and restore my email. I waited one week and had to call again and was given the same story that a computer glitch caused the transfer and they were still investigating. I was told their engineers would be working on the problem and I will be contacted within 48 hours. Of course, I have not heard from the company. I think that it is very disturbing that this has happened. I was lucky my personal data was exposed for only 48 hours. I could have been on vacation and all of my personal data would have been in the hands of a complete stranger for weeks. No one in this company seems to be taking privacy seriously.

I have no idea how [b] [b] [b] [b] got my contact information but I really do not want him or others to have it. Is there any way, through the FCC, that I can impress upon the individual and the company to cease and desist on this matter?

Ticket: # 515041 - At&t Uverse Inquiry Turned into Unrequested Credit Check
Date: 9/8/2015 10:17:39 AM
City/State/Zip: Republic, Missouri 65738
Company Complaining About: AT&T

Description
After having problems with a local cable internet provider in Republic, Missouri, I went to an At&t Company Store in Springfield, MO on 8/22. At that time, I simply asked about Uverse and the speeds available for my address. I also wanted to find out about cost of the service.

I spoke to "[redacted]" who after looking up my address stated that the speeds were very low and not worth establishing service there without doing a "work order" to have a field representative find out how fast the service is. We never even got to the conversation about cost of service. [redacted] asked for my SSN & my drivers license. I explained that I did NOT want to pull credit, that I just wanted to know information right now. He assured me that he was NOT pulling credit, but has to have that information because it's their process. That it's the ONLY way to find out speed. He told me that he would call me back in a week to tell me what the results were and we could go from there.

I sign up with a credit monitoring agency and on Monday 8/24, I received a notice telling me that there was now a "hard inquiry" against my credit from At&t. I checked my Equifax report and it showed the date at the time of 8/22.

Upset, I called the manager [redacted] and spoke to her. She told me that she would need to speak to [redacted] to find out what was done, and would call me back. She called me back and told me that there should have NEVER been a credit check, that she and her entire management staff were confused. And that there's nothing she can do to take it off my credit bureau history because they didn't make that request. I explained I went to NO other location and it had to come from them. She told me that it was just to determine speed and I told her I would file a complaint with At&t corporate & with the FCC. I heard nothing more about it, so I assumed that they had ended the work order.

On 9/5, a At&t Uverse truck parked outside my house, while I was doing yard work [redacted] got out and asked if I was [redacted] and that he was there to go a Uverse Install!

I did NOT authorize this install, explained that to him and he told me that the retail branches do this. They submit work orders and don't tell customers that they are actually ordering the product. They make it sound like it's a field test, when all they have to do is call a corporate number to get an actual speed test without any sort of "order". He stated that he would cancel the order.

I stopped by the retail store again, and spoke to a manager [redacted] who told me that the work order wasn't canceled yet, but should be in 24 hours. And that she would have [redacted] call me Monday 9/7 to tell me that it was canceled. No call.

I called At&t Uverse Customer Service this morning. Filed a complaint and asked if the work order was canceled. They asked me if I'd received a "passcode" to search the record....of course I hadn't, so he couldn't find anything and said this: "I assume it's canceled".

At&t needs to STOP collecting information like this and making customers feel like they are doing what's best, when in hindsight, all the retail branch was doing was "secureing an order for their branch".

Yes, I freely gave them my information, but this retail branch, not 1 time, but 3 times have told me that it doesn't pull my credit that the work order is JUST FOR SPEED inquiries. This is a lie and I have a credit bureau hard inquiry to prove it.

Ticket: # 515517 - Comcast Negligence

date: 9/8/2015 12:54:11 PM
City/State/Zip: Itasca, Illinois 60143
Company Complaining About: Comcast

Description
To whom it may concern,
On 07Sept2015, I had received an Email to my Comcast email [b] that confirmed a change made to my account. The email stated that I will not receive paper statements anymore an email notification will be sent to me when the bill will be posted. Also, an additional Email stated that a credit card was authorized to be charged monthly by Comcast for monthly services. Knowing that I have NOT made any such changes to my account, I have called [b] and spoke to May, a customer rep in tech support department. This person told me that, under my phone number and account number, I do not show listed with the Email I have used for the past 10 years, namely [b]. The representative told me that I must have moved to an address in Alpharetta, GA because that email belongs to a person in Alpharetta. I have told her that, I have not moved in the past 12 years and I reside in Illinois. She stated that, the notes in her system indicated that the person in Alpharetta who has a different account number with Comcast AND a different address has called them earlier that day and requested the Email: [b] Comcast had honored that request and assigned my email [b] to that other person. My entire mailbox was made available to a stranger.
I had told to the tech support to inactivate the email but she refused. My confidential information was put in someone else's property by Comcast employees. This is totally wrong.
Today, 09Sept2015, I am still trying to get a hold of a Comcast senior manager who can explain how this happened with no avail.
I have trusted Comcast to safe guard my information, the information I had saved in that email account is now potentially used for criminal purposes.

Description
I received a phone call at home from a man who said he was from dell support. He gave me the customer support ticket that was issued from dell support in January of this year when they assisted with a computer problem. He went on to say that dell has monitored my computer and that there were indications that malware has been downloaded to the computer in the last couple of weeks. I know that this was not true because the computer had no internet service and had not been used. I explained this to the man, and yet he said I needed to follow his instructions and he would assist me in deleting the malware. I called dell customer support this morning and they told me there is no record of any tech calling me from there. The man gave his name as [b] (6) [6] [6] [6] and his direct callback is [b] (6) [6] [6] [6] I gave this information to dell support so they could alert their security that someone has access to customer support tag information and could subject other consumers to fraud or hacker attack on their computers. They assured me that they would forward the information and instructed me to file this complaint.

Date: 9/8/2015 1:29:36 PM
City/State/Zip: Kansas City, Kansas 66109
Company Complaining About: Onstar

Description
Someone has been using my OnStar system to track my location. My OnStar account is [b] (6) [b]. A few months ago, I no longer received any of the communication that I had approved from OnStar. Plus there was a story in the Local KCMO area where the police along with other federal agencies were using "Stingray" to track individuals and I think that I was put on this list. I had all of my technology targeted including my email, cell phones, wifi at home and my car. There are times where my car will change the radio station, pick different songs, and radio will reset itself. They have also gotten to a point where they shut off my AV devices. I would like my service checked to ensure that no one is tracking me through this service or I want it removed from my car.

City/State/Zip: Tempe, Arizona 85284-1718
Company Complaining About: Verizon Wireless

Description
Over the past approximately five years I have received multiple calls, about 1 every month or so, from bill collectors requesting information on a person (same name of person every time) both on my landline and cellular phones. Several times I have followed the robotic call to reach a person to whom I have explained that I have never known the named person. When I have done that the person has said they would remove my numbers from their system. Then, later, I receive more calls. What can be done about this situation. I have requested names of firms making the calls but the person never revealed that information. The latest call (9/8/2015 at about 1:00 PM in Tempe, AZ) was from a number I captured. The location of that number is Muncie, IN. I looked up that number in reverse phone look-up and received the message that "Owner's name hidden by Whitepages for privacy reasons". What do you suggest I do to stop these harassing calls? Thank you.

I have several times went to put on a sweatshirt and a smell of an African worn top is nasty. It only reminds of the time I saw an African at Clayton Metrolink for several days with his suitcase. Then seeing him a few days later as I always went to use the computer lab as a former Maryville Weekend College student to seek employment... I witnessed the same man there at the university. I never saw him on the same bus with me so I don't know if Ethel Alexander had anything to do with them marching the African gentleman surrounding as they walked somewhere. If the man is still there and Chesterfield police is having your university, or Ethel Alexander bring him where I am for some kind of hypnotical sexual encounter in which I am unaware, please note... I do not consent to lesbian nor monomagus relationships... sexual or indifferent... Kindly see below for the message I left with the "suggestions" link:
This is a RUSE to EXTRACT money from people. You should disclose to the person you FORCE to leave a resume, that the user is unable to access the actual job post without paying a dollar!!!!!!!

Inappropriate and shady way of not only extracting money, but stealing personal information from an unsuspecting consumer. I'm copying the FCC ad additional organizations about this cloak and dagger method of deceiving people in search of a career!!!!!!!

They do NOT disclose that when you're "signing up" to receive job notifications, that they first require you to submit your resume. THEN, after the resume is in their database, they open a link to real estate jobs in your area. When you click on a link for the job, the REQUIRE you to pay $1 to receive the information to apply for the job.

This company DOES NOT DISCLOSE this REQUIREMENT until you've submitted your resume; personal information!!!! Inappropriate, shady and ILLEGAL!!!!

I thank you for your consideration and apologize for the extra emotion through punctuation. I simply expect more out of AMERICA!

With thanks,

My personal information and program passwords have been sent to all computers within our company, ReMax Innovations Realty. This was done by a computer programmer that they hired. I just found out but everyone in the office has known because they see all my personal information. I can't seem to get anyone to do anything about this. My customer base is also available to all of them. With customer names, addresses, email, and phone numbers. This is also an invasion of my customers privacy and mine.

Date: 9/9/2015 9:11:27 AM
City/State/Zip: New Smyrna Beach, Florida 32168
Company Complaining About: AT&T

Description
There needs to be a law to stop spammers from using a person’s own email address as the Sender address instead of using their own address as the sender. This makes it impossible to send it to spam and have it never come back because the computer does not recognize my own email as spam. The company can then continue sending spam. I have to spend at least a half hour a day going to the unsubscribe button, yet they keep on coming, simply because I buy items on-line. My information gets shared (against my wishes) and my only option is to spend my precious time unsubscribing. Why do these companies have the right to invade my privacy? Why do they have more rights on my personal computer than I do? You need to make a law to prevent companies from this using of a person's email as the sender.

Today I received a call with my own phone number and name on my caller ID! I did not answer it. I also receive calls with my Area code and my the first three digits of my phone number to make it look like a neighbor is calling me. I am handicapped and it's an effort for me to get to the phone. I am really getting aggravated with these spoofing calls, especially since it is illegal. I found out all anyone has to do is go to the Internet and look up spoofing and your in to change a persons phone number to whatever number/name you want it to be For FREE! Why isn't this website blocked, especially since it is a FCC Law not to Spoof? Seems quite simple, yet the spoof calls keep coming thru!

City/State/Zip: West Chester, Pennsylvania 19380
Company Complaining About: Comcast

Description
Beginning August 26, 2015, we began having CHRONIC and still unresolved problems with our Xfinity Voice service through Comcast. It has cost us a tremendous amount of lost personal time, privacy and money due to issue at hand trying to get the problem fixed.

Someone (still undetermined) attached a 503 area code Comcast customer's number to our home account in Pennsylvania, so that ALL calls ringing into this customer's number ring into our home as well (at all hours of the day and night). Additionally, when we log into our Comcast account, we can see all the personal billing information of this other Comcast account.

We've made many calls to Comcast, written emails to the President of the company trying to just get ONE PERSON to elevate this technical problem to someone to be researched and yet 3 weeks later we are still trying to get FOCUSED attention on the matter.

This company's technical customer support is like entering a black hole. SOMETHING MUST BE DONE TO REIGN THESE BEHEMOTH IN AND IMPROVE THEIR OPERATIONS!!!

Company Complaining About: Verizon

Description
This is the second complaint I am filing regarding Verizon Networks. I signed up for 50/50 Megabit per Second, but downloading a 230 MB file takes 20 to 24 minutes. This is an average of 0.16 MB per Second instead of 50 MB per second as subscribed.
Secondly, my internet is routed to unknown location other that Verizon Fios Kissimmee. My DNS is hijacked, and my internet traffic are routed to unknown server even if I am not on a VPN. This is a security issue. Verizon is giving access to a third party to monitor my internet traffic, and this is a violation of my privacy. If someone else has access to my internet traffic then I need to see a current warrant.
Finally, my online Verizon account is always locked. This makes it difficult to make changes to my TV programing and pay my bill online. I have Videos and photos to justify my claims. This is the last time I am filling a complaint and hope Verizon Networks will abide by its service agreement.

I switched to Comcast few months ago. Comcast Commercials & Brochures never talked about Data fees. Only talked about how fast there speed was.

I signed a two year agreement for cable & internet service called double play and now they are changing the terms of there agreement during the contract period.

The agreement never said possible change in date usage or in bold letters where it can be found on the agreement. What is the point on having price lock and agreements if you have the right to change them at anytime?

If you lease vehicle with 10,000 miles per year can the leasing company change the terms after signed. NO.

I keep getting anywhere from 5 to 20 emails a day from "CNN Breaking News." Their web address is: [b][b]. My only complaint is that at the bottom of their emails, they give a "You can unsubscribe" link, but all that does is let you delete the emails they have already sent and supposedly block them (which I'm not even sure works). They do offer another option right above that, that says to go to a different website to unsubscribe from their email alerts. It's not a huge deal, but I have a problem because it's misleading and also inconvenient.

Description
Our internet environment is crowded and we have been getting "knocked" off of our password protected network down to the xfinity public network. This has happened often so my son, who's name is on the account, called Comcast to complain. They did a signal test and discovered that there were many devices attached to our secured network. This perplexed my son because we have a very secure password (nobody could guess it even if they wanted to).
He is taking the modem back to Comcast today on a ticket they gave him to exchange it for a more secure modem, but we want to make sure that it doesn't happen again. We live on [b] [6] [6] [6] so the Comcast store he will be returning it to is on [b] [6] [6]. Also, I've noted that on my Microsoft 2011 application Excel application software, or actually the whole suite my certificate keychain has been locked with a password I did not assign. This is of grave concern to me because we are on Housing Authority Housing and I am applying for state jobs (background checks). My son's name is [b] [6] [6] [6] (his legal name is [b] [6] [6] [6]). He will be taking the modem in within the next few hours (before 5 p.m. today). Our secured network is: [b] [6] [6] [6]. The network that shows up when we get "kicked" off is [b] [6] [6] [6] and [b] [6] [6] (think this is a printer). There are a slew of other network addresses attached, but the one that catches my eye the most is the [b] [6] [6] because I may know who this is. This may very well be [b] [6] [6]. He is someone I knew. He raped my niece and covered it up. He may be enabling someone to hack my network (both of his sisters, [b] [6] [6] and (I forgot what his other sister’s name was -- only that her last name is [b] [6] [6]) are highly trained in computer science so it would not surprise me in the least. There are two microsoft certificates that showed up in my Keychain (mac) for Excel that have been there since May (unknown to me). Please look into this. This is scare as hell to me.

Description

I was communicating via fb with a friend from my hometown. He got my personal info by saying he was sending me money. He sent the money. But he got two of my debit card numbers and my social security number. We also exchanged explicit pictures. I also began to notice that my location on my web browser stated that I was in Chicago Or Detroit or Colorado or somewhere In California. Also my facebook account kept sending me alerts that my phone was logging into my account from those states. I am in Kansas so there is no way my phone was doing this. I also started receiving a horrendous amount of porn to my email and at times could not even log in. After I refused to send any more pics he abruptly ended the relationship. I would like to officially state that if there is any type of online accounts accruing monies attached to my social security number then it was done without my permission. Also if you carefully review the conversation in my messages with this man you can see that there is obviously something going on. Especially where he states that he only sends me one flower or 6 at a time and if its not like that then it is not him. He had blatantly told me I may well be talking to someone else. When I went back and carefully read the msgs it is clear someone was also communicating thru my phone. I received an anonymous note under my door stating that my ex husband was going to compromise my identity and either have me removed from my public housing unit or have his girlfriend whose name also happens to be [b] (6) [b], take over this place. I have been a victim of identity theft more than once. And I am very afraid of what's coming. Also of note he had me literally chasing his msgs from my phone and the facebook account. You can see this is our conversation. Please look closely. It's quite clear there is something amiss. I have two accounts we communicated on. The name on one is Sheila Waters the password for this is jesusisalive. Please check the msgs and notifications. The other account name is [b] (6) [b] and the password is [b] (6) [b]. Please check msgs and notifications on this also. But on the [b] (6) [b] account the notifications seem to have been wiped out. I did take screen shots of the msgs on the other account. I hope you can help me with this. The man's name is [b] (6) [b]. He went to school for computer science and information technology. Please call me if you can at [b] (6) [b].

I wanted internet service and was told I had to purchase tv service in order to have the internet service at the price quoted to me. If I did not get tv service the price would be higher. They installed everything and it was all working on August 26, 2015. They disconnected everything on September 09, 2015. They said I cancelled it. Following a review of their records they determined that they sent the invoice to the wrong address somewhere in Indiana. They cancelled the service when the people in Indiana told them to cancel it. Why would they send all my personal information to a different address from where they installed the service? Now, all my personal information is exposed where anybody can have access to it. Why didn't they call me? why didn't they ask to speak to me the account owner? What good are passwords if they don't use them for security purposes when determining if they have the correct party? Why would they send my personal information to another office in another state? Now they told me they would have to do the installation all over again and charge me again. I would go elsewhere with my business but unfortunately there is no other broadband company offered in my specific area.

I received a telephone call on Fri. nite. Caller identified himself as being level 5 Microsoft technician receiving critical error alerts. He had me go into a event viewer to observe the 'critical errors' and the halting of Microsoft's Windows operating system and a type of Trojan virus. I asked him how I would know he was whom he said he was. He then went on to relate that I had contracted with iYogi, but that iYogi was no longer authorized by Microsoft due to the vast number of complaints. He told me how much I had paid to iYogi for services and assured me that he was authorizing a refund of those funds due to iYogi no longer being contracted with Microsoft. He took control of my computer (and password) and had us shut down our two laptops, printer and router for 24 hours while TechNet (Technosys) out of New Delhi India, cleared the virus and hackers that he claimed were on our network. He sold us 5 years of 24hr/7d wk/365d yr services for $499.99 with $349.99 that I had paid to iYogi to be reimbursed to my bank account. His name was [b][6]. He said I had to pay by check as there were potential hackers online who should not see my banking info. He took quick picture of my check using the camera on my computer and did everything very quickly then deleted the thank you for using some internet check server. He downloaded a TechNet icon, a tablet icon that gave his phone no. and terms (being what I'd stated) and phone number to reach their company. He also downloaded 'Microsoft Anti-hacking application' icon. but when I clicked (and Panda icon). He was supposed to call me back Mon.to install this on the other laptop.He failed to call. I called them on Weds. leaving message.He called me Weds nite (Thurs. their time) saying there was fire next door to them + building was being evacuated for safety.He never called me until today when I'd left two more messages. He supposedly downloaded these things to my other computer.Meanwhile I'd called my bank.No refunds.My check cleared last night.They are sending a form for me to complete to try to get monies back but they are not confident.They said perhaps because it was done electronically, it could be done.I called Microsoft who told me it never calls customers+that it did not have contract with iYogi or with TechNet (Technosys).This is not only a scam but fraudulent use of internet, preying on the vulnerable.I was told by [b][6] that these hackers get your financial information and steal your identity and that whatever they do under your name could hold me legally accountable since it was from my internet account. The only reason I did not hang up on him was that he knew about my iYogi contract. Can anything be done to recover my money.I had just purchased internet security from iYogi (Genitech optimum) for $159.99 the day prior. [b][6] told me simply to dispute that as that software was not sufficient and did lend to a virus on my computer.I also did notify my bank to open a dispute on that since it was paid via credit card. But this $499.99 is money we do not have that is lost. The money (the check he had me write) was wired more or less using some sort of check service (I'd never had experience with anything like that before). As I was not sure who to complain to I also filed with Internet Crime Complaint Center (IC3)

SONY’s playstation network verification emails fail to let you opt-out electronically. When another person gives them your email address, they send you multiple emails for "Verification" but if it is not you tells you to contact them from their web site, without providing a link to contact information but instead links you to their general support site. Their web site does not allow you to contact them unless you have a valid playstation ID and neither the website nor the email offer a simple opt-out link or form.

City/State/Zip: Allen, Texas 75013
Company Complaining About: AT&T

Description
I have repeatedly asked an email service provider in Chicago to cease and desist in sending me spam emails and now I'm filing a complaint with the FCC.

Here are the specific addresses:

I have repeatedly tried to stop these SPAM emails, not I'm getting upset:

Here's the address of this organization:

Once I subscribed to AT&T I started getting these unwanted emails from this company in Chicago which appears to be in the spam business of some kind and it is VERY ANNOYING to say the least. Perhaps a simple call to their offices will confirm what I'm saying and resolve this consumer complaint? If they are a CIA organization their not a shining example of what government could be, nor how to send emails.

My web traffic has also slowed down (Google doesn't work), but I can get to Facebook, Bing and other web sites just fine, but why not Google? It started when these folks started monitoring me (I think) and sending me spam I want to file a formal complaint.

Thank you FCC,

Physicist/Software Developer, EE
Allen, TX USA 75013

I've included sample emails I captured. The Google "slow down' is difficult to prove, but I have had ATT here at my house but they say my DSL is fine and tests as OOKLA show nothing wrong with bandwidth or speed, thuis I suspect my Google "server" is being highjacked or co-opted for monitoring purposes.
At least fix their software threads and give me decent service along with it!!
PO'd! are you listening.. Chicago boys?

on 9/13/15, 10:15am I had a voice mail that identified themselves as Citi Card and needed to speak with me about a card issued to me, reassured me this was NOT a sales call. I did call them as the previous day I made some rather large purchases & wanted to make sure there were no issues. When I called they wanted to make sure, for security purpose, who I was & I said well you called me & I was returning a call, so then asked for my phone number and then wanted my name on the account, mailing address, mother's maiden name & I would not give out any other info. They said my card was behind and did I want to bring it up to good standing by making the $77 payment that was past due. I knew I was not behind on anything and when I said that and how I pay my card off every time and then I stared to ask who was this & where from etc, then the person hung up on me. I did call Citi bank to find out what was going on, they started a Identity Investigation. I also want to file this complaint here as they have my home address information.

Description
A few years ago, I subscribed to Entertainment Weekly, but once my subscription ran out, they kept emailing me. After a while, I unsubscribed from it. They alerted me that I still might see a few more emails, which was fine, but I kept getting them, and kept getting them, and I kept unsubscribing, and kept unsubscribing. Finally, they went away, until today, when I got ANOTHER advertisement email from them. This is ridiculous. I can't make it much clearer that I don't want to hear from them.

Ticket: # 528002 - Verizon obtained my credit information without my knowledge/consent

Date: 9/14/2015 4:14:40 PM
City/State/Zip: Cerritos, California 90703
Company Complaining About: Verizon

Description

My credit report indicates that "VERIZONTEL" accessed/obtained my credit history from Equifax on September 12, 2015. VERIZONTEL accessed/obtained my credit information without my knowledge/consent.

On September 12, 2015, I visited a Verizon Wireless store (located at Cerritos, CA 90703) and spoke with an employee named [redacted] who specialized in Verizon Fios home internet service. I told [redacted] that I was previously a Verizon customer (both cell phone and home internet) and was interested in learning about current pricing and promotions.

[redacted] explained the current pricing and promotions, and I told her that I was interested in starting home internet service. I asked [redacted] whether starting service would require my credit to be obtained, and I told Katherine that I did not want my credit to be accessed because I planned to apply for a mortgage in the next few weeks.

[redacted] stated that my credit information was not necessary. [redacted] stated that because I was previously a Verizon Fios Home Internet customer, she could verify my eligibility and place my order without accessing or obtaining my credit information. [redacted] stated that she would look up my prior history and would just need my driver license as well as my phone number and e-mail address. Katherine also asked to take my picture, stating that Verizon needed to match the picture with my driver license.

[redacted] then asked me a few questions. She asked how many years I had lived at my home, how many people live in the home with me, and whether I had a credit card with any of the following companies?

The last question seemed odd, and I asked [redacted] whether she was obtaining my credit information. [redacted] stated, "No, I checked the box stating not to pull your credit".

[redacted] then proceeded to schedule an installation date and provided me with an order number (order number [redacted]).

When I arrived home, I contacted Verizon by phone at [redacted] and spoke with a representative named [redacted]. I also called a second time and spoke with a representative named [redacted] (employee ID [redacted], located in Arizona). I gave both representatives my order number, and both confirmed that Verizon obtained my credit information as part of the order. [redacted] advised me that pulling credit information without consent is illegal and that I should go back to the store and complain to the store supervisor.
I went back to the store and spoke with store manager [b] (6) [b] (6). I also contacted the local police. Deputy [b] (6) [b] (6) from the Cerritos Police Station spoke with me and with store employee [b] (6) [b] (6). [b] (6) told Deputy [b] (6) [b] (6) that she checked the box on her computer tablet stating not to pull my credit and that my credit information should not have been accessed.

[b] (6) [b] (6) showed Deputy [b] (6) [b] (6) her computer tablet and allowed me to take photos and videos of the tablet screen. On the tablet screen, there is a yes/no question that asks, "In order to arrange for a service, we need to verify your identity and credit history. May we perform a credit bureau check?". [b] (6) [b] (6) told me and Deputy [b] (6) [b] (6) that she checked the "No" box next to this question.

In summary, VERIZONTEL not only accessed my credit information without my knowledge/consent but did so despite my explicit instruction not to access my credit and despite Verizon employee [b] (6) [b] (6) representation that she checked the box "No" when asked whether it was okay to perform a credit check.

VERIZONTEL should be punished for its bad behavior, as my understanding is that it is illegal to access someone's credit information without their knowledge/consent. In addition to any penalties allowed under the law, VERIZONTEL should pay for any negative impact to my credit score as well as to my upcoming mortgage loan application.

Description
While online a warning came up saying my Windows Firewall was infected and that there was a possible Trojan virus. The notices said to call the Windows security desk at [redacted]. As I could not close out the website, I called the number and spoke to a very heavy dialected male who first asked if I had an Apple or Windows product. (Why would a Windows helpline service Apple products?) By this point my "danger, danger" intuition was in full swing. He then asked if I used my computer for online banking. I immediately made an excuse to get off of the line stating that I would call back. I phoned my brother and asked him to check the phone number out online. Of course there were many online warnings attached to the number as being scammers. After closing my computer down and re-booting, he then walked me through blocking all pop-ups and clearing my browser history on my new computer. I also ran a scan and no malware or viruses were detected. As there are many reports of this same number as being fraudulent, I am hoping something can be done to shut them down.

IDTRUE says I have to have a court order to remove my information from their website. I cannot afford a court order because in Michigan I have to obtain an attorney. I do not want my information, mainly my address on the internet as I have a brother in law that is very angry at my husband because he was left off of my father-in-law's will. My father-in-law is 94 and my husband had nothing to do with his wishes. My brother-in law has tried to fight and luckily there were other men in the crowd that stopped the fight. I can't believe he is so angry that he is resorting to threaten a family member so we moved and now he can obtain our address from this sight. I need help. IDTrue will not remove mine or my husband’s information and they have no opt out feature. This is unconstitutional because I should be able to have my name off a website if I choose. Please help. Description
I once ordered from [REDACTED] who is now [REDACTED]. They send me email every day several times a day. I then attempted to remove myself via their unsubscribe link which take you to a "Could not find path [REDACTED]. Back to home" page. So basically they will not allow you to remove yourself from their list.

I contacted their help desk / customer service approximately 15 times to get this resolved. I have several ticket numbers they gave me and still they refuse to stop sending me email.

I called their customer service and the hoster again today. They refused to assist. Please make them stop sending me email! I begged them very nicely and they refuse.

US regulations require they remove me if I request it. They are failing to do so. I believe a fine of 2000$ would encourage them to adhere to US regulations.

A Company called [REDACTED] is continually harassing me to "service" my computer. Originally I thought they were a legitimate company. So allowed them to service it one time. However, they constantly every few days ask for money from me to do it again. I only paid them once, $99.99 using my debit card. So last night my son wiped clean and deleted all their trails out of my computer. Also contacted them and threatened to report them to the FBI. Well that evidently didn't mean anything to them, because today they called again asking for permission to once again "service my computer". I immediately contacted the police. He took a report, but told me to contact my bank again. Which I did, but of course they already had similar information on file in their fraud dept. from last night. Please, I'm asking for your help to end this nightmare. And stop this illegitimate company from harassing me (and others Americans) any longer. I can promise you that if they were able to sucker me, they're doing the same to many more people than we can imagine. The phone numbers they use are [REDACTED] and I believe [REDACTED]. Additionally they attached to my computer what's called "team viewer": verification is [REDACTED]. Please, I ask you again, to stop this company in its tracks before they can accomplish stealing more money and information from Americans. A male voice said that [redacted] is not available. I asked why he called in the night with a telemarketing recorded message, and he answered that they are not telemarketers. When I asked what was the emergency, he repeated that they are not telemarketers. I am sorry that I answered the phone call. Had I not, it would have been recorded. All I have for proof is caller ID and time. Since this number claims no business with us, and that IT WAS a recorded message, I believe it was a telemarketing attempt to leave a message on our voice mail that woke me up and I answered. Since I am an elder home care business, I can get emergency calls at night. But a prerecorded message attempting to sell me something is out of line. I do not know, "What my business was preselected for".

I've tried virtually every method of unsubscribing from their emails, but nothing works. They continue to send emails consistently, even months after the unsubscribe request.

In more detail, my unsubscribe attempt involves the following:
1. Click "safely unsubscribe" from a Time Warner Cable advertisement email.
2. Select the option to "Remove me from all Time Warner Cable emails."
3. Click the "Submit" button.

Every time I get a response stating that the effects will take 10 days. They obviously never take effect though, as I have been receiving advertisement emails no matter how many times I unsubscribe.

Date: 9/17/2015 1:50:13 AM
City/State/Zip: Huntsville, Alabama 35801
Company Complaining About: Wow!

Description
Hello,
My name is & I just discovered that my name, home address & private cell phone number has been published on a website without my authorization. I recently went to great lengths to protect my privacy, contacting all major internet media reporting companies, requesting & having my information removed from the Internet. My cell phone number is on the Do Not Call Registry, as well as my husband's & our 12 year old n Minor child living with us. I also do Not have my cell phone listed or entered with any social media accounts, have limited access & tightened my security levels due to being harassed online several weeks ago on Facebook.

Leaking this information is a direct violation of my privacy rights, endangering my minor child, myself & my family for any predator and/or someone who could potentially be unstable, that was harassing me. I had to block the individual & have kept records of the messages, in case I have any further problems that escalate.

Please have my information removed immediately from this website & any other sites that show my name, home address & cell phone number. My husband is an attorney, and a night court judge who has had threats made against "him & his family" from a convicted prisoner. Our private information could put my minor child & entire family in danger upon the release of this prisoner, or any known associations this prisoner has. This is exactly why I keep my privacy protected, and companies like this do not stop to think they may have just put me in harm's way to be stalked, or worse--signed my family's death warrant. The Internet is dangerous & there Has to be a limitation. Standards & Punishments need to be set for companies that release an individual's private information without their consent.

Sincerely with gratitude,

Huntsville, AL 35801

Company Complaining About: Choxi

Description
I've attempted to unsubscribe from Choxi three times (see screenshots attached), yet they keep sending me junk emails. I want to file a complaint since I'm sure if I'm having these problems with this company, other people are too.

- The first time I contacted them it was because their email didn't have an unsubscribe link, which, as I understand it, is not allowed based on the CAN-SPAM act. The customer service rep claimed I was removed from the mailing list, but I continued to receive emails.
- They added an unsubscribe link to the footer, but it seems like it does nothing—I've gotten confirmations that the unsubscribe went through (see attached).
- The unsubscribe link only works on desktop, not mobile (it goes to an error message). This makes it even more difficult to get off this list.

Thank you for looking into this.

I am a member of the social media website MeetMe and was messaged by a guy looking to send me nude pictures in order to receive and further share a nude picture of me. I reported him to MeetMe, but as with previous times, they will likely not do anything about it. I tried posting a status warning other women, especially underage women, about this guy being a potential predator yet it was deleted for supposedly violating MeetMe’s rules. This is not okay and needs to be handled accordingly.

Ticket: # 535201 - New Ebay User Agreement
Date: 9/17/2015 3:02:28 PM
City/State/Zip: Silver Spring, Maryland 20910
Company Complaining About: Verizon

Description
Earlier today, I received an Ebay message advising of changes to the Ebay User Agreement that will take effect in late October. One of the bullet points in that message reads as follows:
"Authorization to contact you and record calls: To make our existing policy clearer, we updated some of the language regarding when we may contact you using autodialed or prerecorded calls or by text message. We also updated this section to let you know how to change your communication preferences if you don't want us to contact you."

Upon drilling down to the full User Agreement, the following more detailed wording appears:
"Pursuant to the eBay User Agreement, you agree that eBay, its affiliates, agents, and independent contractors may contact you at any telephone number you provide to us or from which you place a call to us, or any telephone number at which we reasonably believe we may reach you, using any means of communication, including calls or text messages using an automatic telephone dialing system and/or prerecorded messages, even if you incur charges for receiving such communications."

There was no language "to let you know how to change your communication preferences if you don't want us to contact you," as was stated in the bullet point. Nor were any opt-out provisions provided anywhere in the agreement. However, a question about opting out raised in the internal Ebay user forums elicited the following response, ostensibly from an Ebay staff member:
"You can contact us at: eBay Inc. Attn: Legal – Privacy Office San Jose, CA 95125"

I believe the FCC ruled against substantially identical provisions proposed by Paypal, Inc. several weeks ago.

Thanks for your consideration.

AFTER GIVING THEM MY INFORMATION, BIRTH DATE ECT.THEY TOLD ME THAT THIS DUI BELONG TO A PERSON WITH MY OLD MARRIED NAME, HOWEVER, THE BIRTH DATE WAS FEBRUARY 27 , 1954. THIS IS NOT MY YEAR OF BIRTH. I HAVE ADDRESS THIS WITH THE DMV IN CALIFORNIA HOWEVER, THEY DON'T LISTEN TO MY REQUESTS AND WAS ANGRY AT ME FOR REPORTING THE ID THEFT. I HAVE JUST BECAME AWARE OF THIS AFTER SEVERAL YEARS. IT'S NOT POSSIBLE FOR ME WITH A YEAR OF 1964 TO HAVE EVEN RECEIVED THIS TICKET, I WAS TEN YEARS YOUNGER, FROM WHEN IT ACCURRED. THE DMV HAVE PUT ME IN A VERY DIFFICULT SITUATION AND IT HAS CAUSED A LOT OF STRESS, AFTER AN ACCIDENT ON SEPTEMBER 21 , 2015. I DECIDED TO LEAVE AND OPT OUT OF DRIVING MY CAR BECAUSE I DON'T WANT ANY MORE PROBLEMS BY THEM PUTTING ME THROUGH DOUBLE ALL THE TESTS AND THEY STILL CONTINUE TO MAKE ERRORS. I AM A US. CITIZEN, WHITE FEMALE AND SPEAK ONLY ENGLISH. I HAVE VISITED AN ASIAN COUNTRY. ON MY RETURN THE ID THEFT MUST HAVE HAPPENED TWICE, BECAUSE I CANNOT EVEN GET THE COUNTY SERVICES UNTIL GOING BACK TO WORK. HOWEVER, I AM DOING MUCH BETTER AND WITH MY MASTER OF ART DEGREE...I GOING TO APPLY AND GO BACK TO WORK. JUST ANOTHER ISSUE. PLEASE HELP. AND TWO ADULT CHILDREN. I AM DIVORCED IN 1990, SO I RETURNED TO MY MAIDEN NAME. I HAVE NEVER HAD A DUI OR DRANK AND DROVE. JUST MINOR TICKETS OVER THE YEARS. SO THERE SHOULD NOT BE INFORMATION ABOUT SOMEONE ELSE ON MY DMV RECORD. HOWEVER, I HAD OTHER THINGS BY AND ON MY CREDIT REPORTS. ETC...THESE TWO LIVE IN A TOWN THAT I DON'T LIVE IN ANYMORE. Ticket: # 536495 - AT&T spam texts being called "informational" and hence allowed and no-opt out needed

Date: 9/17/2015 10:44:23 PM
City/State/Zip: Fort Wayne, Indiana 46814
Company Complaining About: AT&T

Description
Hello, I have previously written to the FCC about AT&T. My ticket number was [b] (6) [#]. I was told I would get a written reply from AT&T by postal mail within 5-7 days. However, I never received such a reply by postal mail whatsoever! I did reply to my FCC auto message that had originally been sent me that I should expect such a letter to apprise FCC that AT&T never mailed me anything by that deadline. Now, instead, approximately 15 days later, today, I received this EMAIL letter which I am attaching based on a different letter I wrote to their legal department (this is NOT based on FCC's serving of my complaint but is through a different route altogether). As you can see from the letter, AT&T believes that since their spams such as "come in to an AT&T store today! Come get your new phone today!" are considered "informational" and about one's "account", rather than "promotional" or "marketing" messages, that they somehow are allowed to 1) have no opt-out mechanism as required by the FCC whatsoever, and 2) can continue at will to send these spam texts no matter how many times people beg to STOP STOP STOP!!! whether by calling them, writing them or anything like that as I detailed in my original complaint. In fact, the letter I am attaching herein proves it: their attorney says so: they REFUSE to stop texting me!!! And they say the FCC allows it!

What this means is this: This is my new reality. I have come to terms with the fact that a large corporation such as AT&T from whom I depend on my phone connection for emergencies, for contact with needed family and friends and all live sustaining needs can just WAKE ME UP in the morning, at night and any time they wish and I CANNOT DO ANYTHING ABOUT IT. And the FCC cannot help me. No one can. Is this my new reality? Can corporations seriously just do wake people up anytime they want, as frequently as they want just by calling it "informational" instead of "promotional"? So I can create a company tomorrow and just spam people day and night giving them no allowance for sleep (AT&T has woken me with texts as early at 6am on a sunday morning) by simply calling it "informational" text and "non-promotional" text and the FCC can do nothing at all about it whatsoever?

Description
I recently visited my local Comcast office to set-up internet service. While there the employee asked for my SS#. He did not say why. Two days later I see there is a hard inquiry on my credit report. Had I know this was going to be done I would not have given it to him. I believe if you do not want a credit check Comcast allows you to pay a deposit instead. This was not even discussed or offered by the Comcast employee. It was just so nonchalant. Now I have a hard credit inquiry that will stay on my credit report for at least 2 years - just so I can get internet service. This is something that can't be undone. I'm really distraught that they would do something so drastic without informing me as a customer to the procedure or requirements and giving me an option.

Date: 9/18/2015 12:26:58 PM
City/State/Zip: Ames, Iowa 50014
Company Complaining About: Mediacom

Description
Those are a violation of their new status as Common Carriers and you can file a complaint with the FCC against them. In order to present that banner to your browser like that, they must first hijack your web traffic, insert code for the banner into the webpage you want to view, and then present that data to your browser as if it originated from the server you contacted. It's basically a man-in-the-middle attack by your ISP. It is akin to your phone company breaking into your conversation to tell you your bill is due, or UPS opening a package, inserting a flier about an upcoming holiday, and resealing the package. ISPs need to communicate with their customers like any other business--by phone or mail or email--and can't abuse their position as your internet provider to contact you. If this has happened to you, filing a complaint is easy, just fill out the form, describe your issue and when you experienced it, and Mediacom is forced to respond. You'll receive a scary-looking envelope from their legal department that contains a non-scary letter explaining how they will respond, and some emails from the FCC about how the process is going.

Description
David's Bridal does not have an easy way to opt out of receiving their email advertisements. I have emailed them multiple times and called them. They have told me that it takes different lengths of time to opt out. Once they emailed me that it would take 24 hours. Someone called me and left me a voice message saying it will take 30 days to stop receiving their email ads.
I have never encountered this before. Virtually every email advertisement I have received has an 'unsubscribe' link and it is very simple to opt out.

When we were unable to get the information loaded directly onto my phone I asked that I get it downloaded to my home computer so I could save family pictures and music. In the middle of their instructions I realized that the information from my computer was being uploaded to the Verizon cloud. I asked immediately for them to stop but was ignored and Verizon customer service allowed personal information from my home computer to be uploaded to the cloud against my objections but does not have the system in place to allow me to retrieve it. I only have the ability to retrieve it one item at a time and there are thousands of items. I'm concerned about social security numbers, checking and savings account numbers, and personal information sitting in the cloud.

Company Complaining About: Verizon Wireless

Description

Hello,

I've received messages from a company named Movistar+ but I did not sign up with them, despite the canned message at the bottom of their email that claims the message is not spam. In addition, when I tried to unsubscribe using the link at that bottom of the email, it requires a login, which I don't have and should not be required to use to unsubscribe. They make it very difficult to opt-out. And I should not have received their emails to begin with. Thanks for your help!

Ticket: # 540003 - Fraud Attempt on Mac Computer

Date: 9/20/2015 11:20:52 AM

City/State/Zip: Pittsburgh, Pennsylvania 15224

Company Complaining About: The Company Was Ms Online

Description

I was on my Mac and a window popped up saying there was an issue and to contact this number [b (6) ]. They said that Apple defers calls to them and that I had "no security on my server". They showed my all this fancy stuff on my computer that I didn't understand. They then duped me into charging $199 to my credit card for them to "repair my server". They gave me a transaction ID from MS online of [b (6) ]. I called Apple and they said it was a scam. I have called my credit card company to report the charge. I have attached the payment receipt.
Ticket: # 540072 - Unwanted Text Messages  
Date: 9/20/2015 1:24:56 PM  
City/State/Zip: Ephrata, Pennsylvania 17522  
Company Complaining About: Time Warner  

Description  
I have received numerous unsolicited calls and text messages from Time Warner Cable. For instance, I have received twenty-five (25) unwanted text messages from the phone number "(b) (6)." The first message received, on August 31, 2015 at 11:57 a.m., was as follows "Medical Panic Alarm in Progress! The Time Warner Cable monitoring center has been notified of your alarm."

I then received twelve (12) messages as follows "Alarm in progress! Unless you disarm it within 30 seconds, the monitoring center will be notified." And twelve (12) response messages thereto as follows "Your alarm has been cancelled. Time Warner Cable's monitoring center will not be notified." These messages began, as indicated above, in late August and have continued through September 19, 2015.

I have continued to receive these unsolicited contacts despite that I contacted Time Warner and disclosed that the company had the wrong phone number and I did not want to be contacted any further. This has also continued despite that Time Warner representatives confirmed over the phone that they had the wrong phone number. Finally, I have contacted Verizon Wireless who indicated they are unable to block the text message number because it is not 'ten (10) digits.'

Please, I would appreciate any assistance the FCC can provide as I do not want to continue receiving these texts or phone calls. These messages arrive at all times of day, count against my wireless plan limitations, and are extremely inconvenient. I thank you in advance for your attention to this matter.

Despite explicitly deleting my Skype history and changing my preferences to keep no history, from time to time when I start Skype I can clearly see chat transcripts and Skype calls from days, weeks, or even months earlier in my recent history window. Microsoft should abide by my settings and permanently delete my history so that neither I, Microsoft, or anyone else can access them. This seems like it should be enforced by anti-wiretapping and anti-eavesdropping laws, which in some jurisdictions require all parties consent and I do not.

City/State/Zip: Philadelphia, Pennsylvania 19143

Company Complaining About: Comcast

Description

- Received a junk commercial text from [redacted]

- The name in the message [redacted] is not me

- I have never done business with this company nor opted in to communications from them.

- The link in the message loads a page with personal info for [redacted] at [redacted] in Honey Brook, Pennsylvania. I have no idea who this person is, but when searched online, this is a real person who lives at the address the page displays. If I were him I'd be pretty mad and concerned about identity theft.

- Calling the phone number reports all circuits are busy.

Screenshots of the text message w/ source phone number, and the page displayed by the link are attached.

Ticket: # 542837 - Bandwidth caps, unreliable usage meter, data insecurity

Date: 9/21/2015 9:01:35 PM
City/State/Zip: Bartonsville, Pennsylvania 18321
Company Complaining About: Blue Ridge Cable

Description
I am outraged that Blue Ridge Cable now imposes caps, and overage fees upon it's customers. Blue Ridge is a monopoly in my area. PenTeleData partners with another provider in the PA/NJ area called Service Electric Cable. Both Blue Ridge and Service Electric buy their bandwidth from PenTeleData. Service Electric, which is NOT a monopoly- has uncapped service which is about 25% less than Blue Ridge. Say for the sake of argument I use 5TB of data in a month. If I have Service Electric- I pay $50. If I have Blue Ridge- I pay $568. For the SAME bandwidth, from the SAME source. How is this fair?

In addition, I had 100 GB's deducted from my allotment the FIRST day this went into effect, and I am not the only one.

While they are watching me- WHO is watching them to make sure their usage meters are accurate? If they want to bill by the byte then they ought to be regulated to make sure the customer is getting what they pay for. My cap is 500 GB's. I want to make sure I am getting 500 GB's, not 400, not 300, but WHAT I PAID FOR. This is outrageous. We're supposed to just take their word for it? I think not.

Today I found out that Blue Ridge is not even doing their own monitoring. They have contracted out the bandwidth monitoring to a third party called "OpenVault". The more I read, the more I don't like this.

Just read if you don't believe me:

This line is from the above link: "Robust Analytics: Collecting vast amounts of data is one thing but OpenVault's solution has built-in Analytics and Reporting functionality that turns raw data into meaningful information".

Read my lips- DATA HARVESTING AND COLLECTION. Not just a simple "how much" a customer used- but collection and harvesting and analysis, and being sold to advertisers and other parties who have NO BUSINESS HAVING ACCESS TO IT.

Then there's this:

This paragraph is from the above website:
"FourthWall's MassiveData division delivers viewership and set-top box diagnostics data, reports, analytics, and advanced advertising to television stakeholders and innovators who need to target the right audience with the right message".

So if I read that right, our personal data that flows through Blue Ridge's network is being measured, and harvested by third parties, with the intention of being sold to other third parties, many of them foreign.

HOW CAN THIS BE LEGAL?????? I DID NOT AGREE to this!

Check out some of the "partners" of OpenVault:

They are ALL data collection services! And most of them are Eastern European and one is in Turkey. Can you say SECURITY RISK? There, I knew you could.
I as a customer AM NOT COMFORTABLE WITH THIS ARRANGEMENT. And the FCC shouldn't be either!
PLEASE investigate this. I don't want my data in the hands of third parties, especially FOREIGN third parties! All in pursuit of the almighty dollar.
My God- there has to be a limit on what these bastards are allowed to do to customers!

On a Utah job group on Facebook a woman by the name of [REDACTED] posted a video trying to get people to apply for a company in Utah. The woman that is in the video is a debt collector for the company Ironwood Payments on the phone speaking to a customer trying to collect payment on an account. Midway through the video she says his name is [REDACTED] and the amount he owes and the payment arrangements. I do not see how this is right of stating all his personal information like this. If they want to post a video of a fake mock account then okay.

I work for a company that is regulated for the FCC, we cannot have cameras on the call floor because what if our customers' information is seen or heard it could be posted online just like this man's information was.

Provide in the screen shot below is the address and phone number of the company.

So their two ways to face the public do not have the legally required opt out. Please fine them an enormous amount of money!

letter:

I'm and i'm the senior author at Work from your home magazine. I am from New Orleans, and a full-time stay at home mommy.

Approximately A few months ago my hubby suddenly lost his position and it flipped our world upside down. I found myself so scared and did not know the things we might do in order to make a living. We were undoubtedly behind on our mortgage loan and simply missed out on a payment on our only auto.

Our world seemed to be coming crashing all the way down and it was breaking my heart simply picturing the way we would take care of my sweet little little princess.

Just as I appeared to be inside weakest place I got this e-mail. I simply believed it had been another of these tricks. However I was very desperate that I just thought I would discover what it was exactly about. Immediately after looking at some training videos and seeing this didn't cost money to start I chose to give it a try.

During my initial 7 days I reached $722. The very next few days I developed another $976. I could not believe it. It was real money in my account and my life began to transform. In just a several months I began earning more cash in a full week than my hubby made in a full four week period. And I am able to do everything in the house.

If you need to find out how I performed this simply look at the site listed below.

I received regular emails from a company referred to as MRC of Castle Rock and each time I have tried to unsubscribe using the link in their emails. Furthermore, I have contacted their administrating email addresses asking to be removed. I have informed them I will file a complaint with the FCC each time they email me a few months ago, and yet they keep emailing me. I want this spam to stop.

So, after numerous attempts at stopping emails from this company whose products and practices offend me and I find to be harmful to people, I need help making this stop now. They seem to be clearly breaking two of the three rules outlined in the Unwanted texts, email and the CAN-SPAM Act.
Description
I received several emails from the domain `b)(6)` claiming to be Verizon and claiming I was approaching my data usage limit. The final message said I had gone over my limit. I responded before realizing it was not Verizon. I called Verizon and they said it might be a third-party seller. Then I received another message from `b)(6)` selling phones. The Verizon rep suggested I unsubscribe, but their unsubscribe instructions led me to a page with no unsubscribe option. In fact, if I filled out the form there and submitted it, the fine print says I agree to receiving their ads. On top of these issues, the first emails said they were sent to my ex-husband's email address, and I have been divorced from him for five years. There are safety issues, and I am worried that he could access my account through the link in the emails that went directly into my account. What can be done? Thank you. `b)(6)`

This company has fraudulantly stolen my credit card information and used it to bill my credit card for a product or service I did not authorize. According to Capital one they have been doing so for the past 76 months inclusive since May. I learned of this on the evening of 09/22/2015 at 8:44Pm when I spoke with Capital One. The Cap One rep gave me their phone number ( [b] [6] [b] [6] ) which is a bogus number, I was greeted by an automated system which asked my to input my mailbox number? This was my first and initial contact with this Company. After Cap one gave me the site address, I looked online and learned that this is either a Marketing company or a "I-phone/I-pad" download center, I do not nor have I ever had any such device, NOT even a flip-top cell phone! When I did a google search, the google directory stated that the site forbids google to display any information about "[b] [6] [b] [6] " . Again Prior to this evening I have never heard of this company and therefore never authorized the use of my credit card!

Company Complaining About: AT&T

Description
For the past several months, I have continued to receive vulgar emails from various persons. I do not open them as the 'introductions' and or subject usually begins as follows:

**"having trouble getting p*%#@sy"
**"want a lesbian hookup"
**"popular threesomes.."
And others too foul and disgusting to repeat!!

I use the "blocking" instructions on my Hotmail account, however I continue to receive. This is a place of business - specifically, a law practice. We do not tolerate such abhorrant anti-social behavior under any circumstances. I would appreciate very much having this matter resolved as quickly as possible.
I am writing this email not only on behalf of myself, but other women who may have experienced the same situation as I did. I was violated in my home by a Comcast employee close to two weeks ago, and nothing has been done about it. I have literally spoken to five other Comcast employees to rectify this matter and nothing has been done about it. I have not even been updated on the ongoing investigation. I assume my case is not significant enough. From a security and customer service level, I am beyond frustrated with Comcast. I have detailed my account below:

I arrived to my apartment around 8:45. As I was parking, the technician made a comment about being there for thirty minutes. I replied and said I thought you all called customers as you were on the way. He then says that the automated service took the place of individualized phone calls. I led him into my apartment, and he asked where my modem was. I directed him to my bedroom. He made mention of what was wrong with my wifi and began working with my modem and wires. As he was working, he began making small talk. He asked my age, education level, marital status, etc. During this time, he made mention of the fact that his marriage was falling apart. It was during this time that he made mention of a pleasure toy that was in one of my unpacked boxes. He proceeds to ask, "what is that?" I replied, that it was a toy. He made more mention of it, and I began to give evasive answers in an attempt to steer away from the awkward conversation. When he turned back to continue to fix the modem, I placed another object over the toy to try to conceal it more. After my wifi had been connected, he tells me to get my computer and Ethernet cord. He told me that he was going to help me rename my wifi and change my password. During the entire appointment, I was sitting on my bed while he was working on the modem. The modem was across the room close to the exit, and my bed was near the window. After I grab my computer, he comes to stand behind me near the window and next to the box containing the toy. As I open my computer, there are several updates that have to load. During this time, he notices my tattoo on my back and touches it and asks what does it say. I reacted to him touching me by jolting closer to the edge of the bed. I tell him what it says and the meaning, and he then proceed to touch my brand on my back. I move completely over and wait for the updates to load. He proceed to tell me what website to go to change my wifi. I make the necessary changes, and he mentions that he was trying hard to remain professional. I asked him what he meant. He reaches over and grabs the toy and asks if I have any batteries for it. I say no, and he places it next to me on the bed. I ask him if he was done, and he gets down on his knees in front of me and says that he just wants to please me. I jump up from the bed and run into the living room. From the living room, I thanked him for helping me with my internet. As he is leaving, he asks for a hug. I gave him a hug, and he begins to rub down my side. I push him off of me, and he says that he wants to give me his card. I agree to take his card as I was debating reporting him. When he returns, he stands in my doorway, and asks for another hug. I try to close the door, and he does not move. He asks for another hug, and I oblige him to get him away from my apartment. He finally leaves. I remembered that I had to go pick up a friend so I leave shortly thereafter. As I am on the way, I receive a phone call from him. I do not answer as I did not recognize the number. He leaves a voicemail stating that he left a present for me at my door. Completely creeped out and concerned, I tell my friend the story when he gets in the car. He agrees
to come home with me to see what was left at the door. When I get to my door, I discover that he left batteries. I assumed that these were batteries meant for my toy. As soon as I got in my apartment, I called the Dekalb County Police and Comcast customer service to report the incident.

After the incident, I literally waited 30 minutes on hold to even speak with an agent. While I was on the phone with an agent, it took 30 more minutes to even file the report. It took days to even get a follow up phone call on this matter. It was during this phone call, that I was advised by another woman that I should have had someone with me during the service appointment. So you mean to tell me that every single woman has to have a person with them for an appointment with a service technician? The only way that I can be respected in my home is to have someone with me? After this phone call, I was contacted by an investigator. Again, I had to take 30 minutes away from my job to even speak with him on the matter. On top of that I had to use my lunch break the next day to even speak with him again so he could hear the voicemail left to validate my claims. I was assured I would be contacted but have yet to hear anything about this pending investigation. NOTHING. I HAVE HEARD NOTHING. After speaking with the investigator, I had someone call me in reference to how the matter was being handled. She assured me that she would be contacting me about Comcast trying to make up for my troubles. Now, if this was just about free internet, I would not be so upset. But Comcast has literally done nothing to even try and compensate for my experience... NOTHING. After this incident, I did not even sleep at my home in fear that the service technician would come back. When I finally returned, I slept with my door lock just in case the technician made it into my home. I look over my shoulder anytime I am entering my apartment. I am beyond disgusted at this point. This has literally been the worst experience I have ever had with a company. Hopefully, this will serve as a tool for companies to better pick their agents. I wonder how many other people have been violated who got discouraged with the rigorous process that Comcast has put them through... As I google Comcast, there is a slogan that "Comcast Cares." This could not be farther from the truth. I have contacted an attorney, and I am looking into my options. I hope this never happens to anyone else.

Company Complaining About: Party City

Description
On Sept 17 2015, at party city in Florence Kentucky I made a purchase and a return at the same time. They asked for my email address and I assumed they were verifying something for the return, so I gave it to them. I asked what the email address was for and they said it was for promotions. I explicitly told them I did not want to receive any emails from party city. The cashier confirmed what I had said. Since then I have been receiving an email every single day. I emailed them back on Sept 23, 2015 and told them that if I kept receiving them that I would report them. I still continue to receive them - the last one was at 4:21 am today.

I received the message below from (b) (6)

I am willing to cooperate in any investigation or prosecution of this person.

"Unfortunately your data was leaked in the recent hacking of Ashley Madison and I know have your information. I have also used your user profile to find your Facebook page, using this I can now message all of your friends and family members.

If you would like to prevent me from sharing this dirt info with all of your friends and family members (and perhaps even your employers too?) then you need to send 1 bitcoin to the following BTC address.

Bitcoin Address:
(b) (6)

You may be wondering why should you and what will prevent other people from doing the same, in short you now know to change your privacy settings in Facebook so no one can view your friends/family list. So go ahead and update that now (I have a copy if you dont pay) to stop any future emails like this.

You can buy bitcoin using online exchanges easily. If the bitcoin is not paid within 3 days of 23 Sep 2015 then my system will automatically message all of your friends and family members. The bitcoin address is unique to you.

Consider how expensive a divorce lawyer is. If you are no longer in a committed relationship then think about how this will affect your social standing amongst family and friends. What will your friends and family think about you?

Sincerely,
(b) (6)"

I have attempted to unsubscribe from Ipsy.com emails several times, the last instance being on August 26, 2015. I was previously interested in their products but decided that I was no longer interested around June 2015. Please note that I never made a purchase with Ipsy. I used the unsubscribe link on the email to stop these (now unwanted) emails. Unfortunately, I received new email communication from this company today, September 23, 2015. Ipsy.com is not adhering or utilizing the unsubscribe function with their mailing list and I feel this is in violation of CAN-SPAM. I have made my requests to not have email communications from this company clear and they have not adhered to my request. I am attaching a screenshot of the unsubscribe confirmation from August 26, 2015.
Hi FCC,

I've continued to get Condé Nast email contacts after unsubscribing from their list. I don't even believe I ever subscribed.
I've now attempted to unsubscribe multiple times over the past few months and just continue to receive their emails. They aren't keeping up with their unsubscriptions.

City/State/Zip: Meriden, Connecticut 06451
Company Complaining About: Cox

Description
To whom it may concern,
I am writing to you today to complain about Cox Communications. They have added advertisements into my private email account. This is private space that I pay for already. And it is not cheap. Now they have added unwanted advertisement banners at the top of my email inbox, and a small ad at the bottom of my log in page.
I have emailed Cox about the problem. They had done this in the past, and when I complained, the ads were removed. This time when I contacted them, they said that the ads cannot be removed, or turned off by me.
I believe that this practice is unethical because they are making money from me for using the space and making money by selling ads to put in my already paid - for space.
I hope you can help in this matter for me and everyone else who has a Cox email account.
Thank you for your time.
Sincerely,

Meriden, CT

Description
Many Verizon phone representatives are not following privacy protection protocol and are not investigating and resolving possible fraudulent activity. I am attempting to set up a new FIOS account with Verizon. Last week they had me verify who I was by faxing in my ID. My identity was verified and I was approved but no information was provided why I needed to fax in my ID to prove who I was. I had an appointment for installation yesterday but was informed by a representative that my name, address, and phone number were not matching on my account. He gave me the name address and phone number listed on the account and it didn't match my information. Yesterday I spoke to many representatives from Verizon and I still don't know if they have resolved identity issues on my account or if there is fraudulent activity. Some representatives such as [b] and [b] give me names, addresses, and phone numbers that are not mine and should not be on my account, they do not know how to verify who I am, much less protect my personal information. I spoke to one representative at the end of my long day on the phone with Verizon who followed privacy protection protocol.

Date: 9/25/2015 1:16:47 PM
City/State/Zip: Lombard, Illinois 60148
Company Complaining About: Comcast

Description
On September 15th LulzBot, an Aleph Objects, Inc. company, concluded a contest or contests advertised via Facebook, Twitter, Reddit and more. The contest was announced on their sponsored forums in August.

Links to the contest(s) can be found at the end of this communication.

For the contest as announced on the forums it was announced with no end date. The number of prizes was not identified and the use of "prizes" suggests there were more than one. No rules regarding age or laws were displayed. No rules stating that "no purchase necessary" were included. An end date was later added. The number of prizes were later reduced to one single prize. The rules were unclear and suggested they were specifically seeking developers for products. The method of judgment for entries was unclear. At the conclusion of the contest a single prize was awarded to an individual specifically (as announced by LulzBot) for contributions to LulzBot sponsored forums which was not a winning condition in the rules. It seems that LulzBot awarded this individual a prize for donations to their sponsored forums by chance entry to the contest. I believe this also suggests that future contests by LulzBot are winnable by considerations made to their public forums independent of the rules.

In parallel to the forum contest a contest also began on Reddit that seemed identical to the forum contest. It is not clear if this is the same contest. Prizes were increased from one to four for the Reddit contest and awarded early before the end date of the contest. Forum contestants were not made aware that there was a parallel contest taking place. Prizes were awarded for vague reasons and to individuals including special status Reddit moderators. Only one prize went to a developer (as displayed with skill and knowledge in their contest entry).

I feel that LulzBot intentionally influenced their own contest so that they could cherry-pick individuals based on criteria outside of the conditions of a contest and outside of the rules of the contest.

Contacting at Aleph Objects resulted in stating that they would contact their internal legal team. is no longer responding to emails.

Ticket: # 551633 - FiveFourGroup LLC Spam Complaint/Violation

Date: 9/25/2015 1:16:51 PM
City/State/Zip: Scottsdale, Arizona 85260
Company Complaining About: Cox

Description
I have unsubscribed from FiveFourGroup LLC's email list multiple times now over the course of a year and still receive ad's from them. FiveFourGroup LLC continually choses to disregard the Canspam act and blatantly ignores their responsibility to stop messaging the public after they have unsubscribed from their email list. I am tired of these start up companies being so bullish with spam and not adhering to the unsubscribe policy.

I briefly had a trial subscription to Microsoft Azure services which I cancelled within a few days. Subsequently I have received constant and frequent emails from Microsoft Azure. They contain an "unsubscribe" link with the message "If you no longer wish to receive these emails you may unsubscribe at any time."... but after clicking the link, it returns a page with the message "We are unable to process your request. Close your browser and try again later." I tried that and it still returns the same message. I tried using 3 other browsers still get the same message. I called the company at the 800 number on their website and was told that to unsubscribe that I have to follow a multiple step procedure involving following other links and navigating a confusing series of options and then getting a form to fill out and return after which someone would contact me to verify that I wish to unsubscribe. That is unacceptable.

Subject: RE: Public Workshop – Management Essentials – Oct. 8-9 in Sunnyvale

Federal rules require the following for commercial email:
• Identification – The email must be clearly identified as a solicitation or advertisement for products or services.
• Opt-Out – The email must provide easily-accessible, legitimate and free ways for you to reject future messages from that sender.
• Return Address – The email must contain legitimate return email addresses, as well as the sender's postal address.
You are in violation of federal law.

This is my 4th request to be removed from all mailing lists. The next email I receive from your organization will result in a complaint by me to the FCC.

Company Complaining About: Frontier Communications

Description
I had major PC problems and had to reformat and reinstall Windows 7 that Microsoft sent me for another computer I had problems with. the reason I had to reformat and reinstall was because my internet provider tech support said my PC had issues, My IP is Frontier Communications. I couldn't go anywhere on the web and my PC would not even start in Safe Mode. I tried to get into my email which is at Yahoo. I could get in even with my secret questions and other email account for password recovery. I looked for about two hours for phone numbers I could call for help. Well, I found a number on a yahoo forum, that said it was the number for email problems with yahoo accounts, here is the number I called, [(b) (6) **********]. to make a very long story short he wanted me to let him check my computer using the Log Me In app, which I have let Frontier use to fix my PC and since this guy's phone number was on a Yahoo forum, I thought it would be okay. He "RAN" a scan on my PC and said I had a Trojan from California from Russian Hackers, and showed me a file that was the virus, he said they could remove it and fix my PC for $499, I told him I didn't have that much, then he said they had another deal for just $299, I told him I didn't have that much and he said $99 version would not give me as much protection and real quick sent me this number to call [(b) (6) **********]. He quickly launched a page with that number and other info and then I realized what was going and tried to close the page but i was stuck right there and he kept talking and I hung up really fast and unplugged my power supply and ethernet cable and called Frontier tech support and told them the story and he said the file that was supposed to be a Trojan was a file that is needed and that every single PC ever made except Apple had that file and he read me the complaints about those two phone numbers and that they hacked mostly into Apple PC's and he laughed and said that I didn't even have a n Apple. they helped me get it all sorted out and told me to register a complaint with you guys. Thank you!!!

Hello FCC, I would like to file a complaint against an unknown authority. I believe my internet network is webtapped by law enforcement. The basis of my complaint is: Remotely making changes to my software, restricting my web search queries, manipulating my browser navigations and selections, placing malware and spyware on my hard disk drive through my network. I can accept the monitoring of my internet traffic, but, I can not accept the fact that my operating system becomes corrupted and manipulated. I have tried to correct the behaviors of my computers by reinstalling the operating systems, monitoring my wireless gateway settings and I have spent approximately 300 hours reinstalling and personalizing my computers. I am not exaggerating either! Your attention and research of my complaint would be very appreciated.

Ticket: # 554426 - Roblox should be shut down
Date: 9/27/2015 2:27:37 PM
City/State/Zip: Olathe, Kansas 66061
Company Complaining About: Roblox

Description
Technically, there is a lot of abuse on here. I have been playing this site for about three or four years now, and this is getting way too ridiculous.

Most of the people on here are corrupted (key word CORRUPTED) into paying for something called Builder's Club, and if you don't have it, you're basically a peasant to their minds. Most people's insults to NBCs (non-builders club) are 'noob', 'stupid', 'noobcake', and things like that. After all, they do need Robux, their (quite expensive) virtual currency, to make them look 'attractive'.

With that said, that leads me directly into ODing, which stands for online dating. Many kids, every day, are confronted by '123 for bf/gf' type crap. This is what REALLY annoys me the most. More and more kids are being brainwashed by the middle-aged naked men living in his mother's basement. Of course, like a cliche, ask for their personal information. Yes, I know what you're thinking, "But the kids are smart enough". Yeah, that's a lie almost everybody believes. Some kids actually don't know the danger, and of course, curiosity kills the cat. When they try to report it, however, they get either: Banned themselves, or NOTHING HAPPENS.

This is due to the poor mod-bots they put on the site to run loose. They are programmed to ban whoever breaks the ToS.

So I was screwing around on youtube, and found, "I GOT BANNED" and things like that. So out of curiosity, I clicked it. One of the ban's reasons said, "You must be 13 years or older to be a moderator". This offended me SO much, I didn't know either to flip the table or flip Shedletsky off into the depths of hell.

You know the ESRB ratings for the video games that actually go into a CONSOLE, some of the users created those same games on Roblox, except being more blocky. Not does it commit copyright infringement, it makes the kids more violent themselves. Some parents even noticed their kids get suspended because of this! Yep, and the contents really soak into their minds like a sponge. A few other games have sexual themes. Crazy Amy, a popular one, has spread itself like butter onto the kids brain. TASTY.

Don't even get me started on their consumerism tactics. Roblox goes crazy. Advertisements for Builders Club, other violent groups or games, and I even saw a Victoria's Secret ad on there once. Ah, yes, how can we forget the HACKERS. There are so many hackers on Roblox, it will take you more than a year and a half to count them all. Almost everybody knows the group F.E.A.R. It's like a part of their maggot-infested mind. F.E.A.R. is known throughout Roblox as a hacker group, forcing six-year-olds into their group.

That was a lot, thanks for taking the time and patience to read.

Signed with hope,

Company Object Management Group along with numerous individuals have been monitoring me through use of my wireless Comcast modem. Records will show use of illegal breaking and entering. Use of power, installation of malware including Stingray technology. A wireless mobile site was detected on my cell phone. I reported it, but the harassment has become worse. I have all documents relating to virtual machines running, power bills, mobile site photos, and anything else I can provide. The exploitation of mobile services has made the bands different than those that are allowed unless it's under monitoring. VMWare Virtual machine is running on my android with "persistent" USF, my school before the hacking began, files. I have had emails hijacked and name ruined online i.e. banned from Ebay for life. All my machines and family members that were donated have been infected, while I was gone or over the AC power where I detected a network much like a SMART home would have.

We visited a Bass Pro Shops store in Nashville TN where we were invited to complete an entry for a free drawing. Before I could complete the section covering opt out options for email, the representative took the form from me and said, "That's all you need." I told him I didn't want to receive any emails from anyone, and he said we wouldn't.

Within a week we started receiving, on average, 85 solicitation emails per day. None of these emails have the required unsubscribe options.

I contacted Bass Pro Shops to complain and to my surprise they admitted passing on our contact information without my consent. They said they would contact a firm called Blue Green Vacations and would instruct them to remove our email address from their lists and from any listings our email information had been passed on to. A representative from Blue Green Vacations contacted us and said they would take care of the problem. Despite this, we continue to receive as many as 135 emails a day. The problem got to the point where our email system crashed last Thursday, losing all of our emails - some of which contained critical customer orders.

We want to pursue action against Bass Pro Shops and Blue Green Vacations and would welcome the assistance of the FCC.

Hi [Redacted],

I know you indicated you are looking for information for possibly 1 or more people, but sometimes we don't get all the information included. So, very quickly if you could answer the following:

• Ages of anyone to be included on the policy?
• Current health insurance carrier, if any?
• The best time and phone number to reach you?

I make the process of finding affordable health insurance quick and easy. I can help you apply for subsidy (if you qualify), find a plan that fits your needs and budget and of course my services are offered at no cost to you. I will follow up shortly with a phone call and we can go from there.
Or give me a call anytime.

My loyalty is to my clients and not an insurance company!

Thanks,

Keystone Advisors

Thanks for your quick response. I won't be able to get back to you right away because I am currently deployed and in and out of cell range. I will get back to you as soon as possible. If this is in response to my inquiry on CL please read the message below.

Thanks I deliberately left this message for you because I don't want to keep you waiting, I received and highly appreciate your response to my inquiry.

Anyway, I have read through your advert for your post. and from what I have seen, it is priced favorably compared to others so I want you to consider it sold to me because I am ready to offer you the demanded price. I am Sgt (Military) currently on duty serving the country. Presently I on duty in a remote area until November 29, 2015. We have a bad and fluctuating network here otherwise I would have called you and seal the deal on phone. At the moment, email and text messages works best for me. I'll appreciate if we can make the purchase as fast as possible as I am ready to seal the deal right away and pay you via my PayPal account which is attached to my bank account as that is the only secure form of payment that I have access to right now. So, please get back to me with your FULL NAME AND PAYPAL EMAIL ADDRESS, PICKUP ADDRESS AND PHONE NUMBER so that I can initiate the payment immediately. If you don't have a paypal account, it is absolutely free to set one up, visit www.paypal.com and set up one. After we are done with the payment aspect and you have received your cash, a shipper will be hired that will come for the pick up. If this is a deal, then let me have the requested paypal details to proceed with the payment.

Best Regards,

Less than 30% of the internet speed service agreed and charged is provided by AT&T, with many
times to a blackout, for over 5 years.
Have multiple photos, videos and measurements from different online and offline platforms/apps.
They never did anything to improve, on the other hand go to the extreme point, to a harassment level
to push us to upgrade to a service we do not need. They even call after hours, last call was around
9:03pm and have recorded evidence of their call back and support services with the associates
approval. We have never failed to pay the bills, while they have being providing an extremely poor
service for more than 5 years. They have also hacked into the modem they have provided. Their
respond to our question "can you access our modem without the password"? Was YES! This is a
breach of contract, in multiple levels, and FCC must address all the issues, which are: charges,
privacy, harassment, and horrible customer service.  They have not addressed any issues, and trying
to reach them almost impossible, whenever was possible they ask same questions and do nothing
after an hour on the phone. They MUST address all issues, the Best Way Possible, or this will end up
all the way to the Supreme court if we have to!

Credit Card Type Used: MC
Credit card number: XXXX XXXX XXXX [b] (6)
Last Payment: 68.99 on 2014-06-23 17:55:54
Your computer ip address: [b] (6)

Plus we have access to your complete profile data including your pics, secret fantasies, conversations, etc.

We have access to your Facebook page as well. If you would like to prevent me from sharing this dirt info with all of your friends, family members, spouse, then you need to send exactly 10 bitcoins (BTC) to the following BTC address:

Bitcoin Address: [b] (6)

We are providing a chance to solve this case. You make a payment to the above mentioned btc address. The time ends in the next 24 hours. We will not publish your data and we will not inform your contacts.

You can get bitcoins at an exchange like Expresscoin.com [b] (6), or a Bitcoin ATM machine [b] (6)

If you pay within 24 hours of receipt then we will delete your record. No payment? Then you will see what happen after this period. Once this period has expired, we can't do anything more for you. Our website is launching soon. We will surprise your family, friends and colleague with it. We will give you this one last chance.

You may be wondering why should you and what will prevent other people from doing the same, in short you now know to change your privacy settings in Facebook so no one can view your friends/family list. So go ahead and update that now (I have a copy if you dont pay).
Consider how expensive a divorce lawyer is. If you are no longer in a committed relationship then think about how this will affect your social standing amongst family and friends. What will your friends and family think about you?

I was a customer of TWC and hit very hard economic problems. TWC cut off my account. I've since been able to pay them what I owe them and want to buy a cheaper internet only service from them. They will not offer any plans to me until I go to one of their stores. They will not tell me why and my account shows a zero balance. I work during the hours they are open. I literally work 7 days a week, 12+ hours a day to keep my head above water. I cannot take time off work to go to a store and be publically shamed by some clerk behind a counter who needs SOMETHING from me...most likely money. I don't understand how they can get away with this practice. Allow me to deal with whatever this issue is in a more private setting, via the phone or email, and I'd be happy to comply in order to get new service. They've stopped me from getting service thru EarthLink since they own the system. So I don't have any internet or email in my house because of their monopoly. Please help.

Comcast has a policy in regards to their wireless gateway internet modems in regards to WiFi and WiFi security that invades the privacy of their users.

I had called in on June 23, 2015 because my internet was not working, an agent would have to reset my modem to factory defaults and he claimed he was going to put back all my settings after the factory reset, I informed the agent please don't I'll do it my self you do not know my WiFi password, he claimed yes I retrieved it from your modem, I then asked him what is it as a challenge and he confirmed the password. The policy has since changed due to a court order in regards to this incident, the agent did get arrested 3 days later for a federal charge in the hacking category and Comcast was forced by the federal court system to revise the policy. The policy has it stands now is the the agents no longer has access to the passwords for any reason.

When you do a search on Yahoo for the Irving Police department, one of the phone numbers and addresses are my homes number. I've had this number for over 30 years and lived at this address for 19.

I called the Irving Police Department and they do not have this number or address listed as one of theirs.

I then call Yahoo. They told me that there was nothing that I could do other than to try to buy the listing which could take up to 6 months. I tried to follow their process but it did not work.

I receive calls for the Irving Police multiple times daily. I can not answer the calls but If it's an emergency this error could be life impacting. I'm looking for your help in getting Yahoo to act.

If you google and get to yellow pages, you get the same listing. Police department at my address and phone number.

I don't think that yellow pages is cause the problem as I've asked people where they got my number and they always say Yahoo.

Company Complaining About: Comcast

Description
I got put on an email list for Concord Toyota back in April when I sold my car. I have opted out of their emails 4 times now, but every month, I still get an email from them wanting me to buy a car. Cited from the CAN-SPAM Act of 2003 "Once a consumer sends a business an "opt-out" request, a company has ten (10) business days to comply. If it doesn't, the business can be held liable under CAN-SPAM for $250 every time that it sends another e-mail to a person who already made an "opt-out" request. A court can increase the amount of damages up to three times if it can be proved that the spammer "willfully and knowingly" refused to stop the e-mails after the consumer's request."

Unfortunately your data, including complete credit card details, was leaked in the recent hacking of Ashley Madison. Below is the glimpse of the data we have about you:

Name: [b] (6)
Address: [b] (6), OH 44125, US
Credit Card Type Used: VI
Credit card number: [b] (6)
Last Payment: 68.99 on 2014-11-04 10:02:18
Your computer ip address: [b] (6)

Plus we have access to your complete profile data including your pics, secret fantasies, conversations, etc.

We have access to your Facebook page as well. If you would like to prevent me from sharing this dirt info with all of your friends, family members, spouse, then you need to send exactly 5 bitcoins (BTC) to the following BTC address:

Bitcoin Address: [b] (6)

We are providing a chance to solve this case. You make a payment to the above mentioned btc address. The time ends in the next 24 hours. We will not publish your data and we will not inform your contacts.

You can get bitcoins at an exchange like [b] (6)

If you pay within 24 hours of receipt then we will delete your record. No payment? Then you will see what happen after this period. Once this period has expired, we can't do anything more for you. Our
website is launching soon. We will surprise your family, friends and colleague with it. We will give you this one last chance.

You may be wondering why should you and what will prevent other people from doing the same, in short you now know to change your privacy settings in Facebook so no one can view your friends/family list. So go ahead and update that now (I have a copy if you don't pay).

Consider how expensive a divorce lawyer is. If you are no longer in a committed relationship then think about how this will affect your social standing amongst family and friends. What will your friends and family think about you?

Company Complaining About: Rock Solid Credit

Description
I am receiving two or more emails per week advertising different products/services for sale. My email address is listed both in the 'From' and 'To' lines. There is information at the bottom of the emails listing names (company & individual) and hot buttons to unsubscribe. Names and addresses listed at the bottom of the emails change with each email, though it is highly likely they are all originating with a single spammer. Unsubscribing has no effect; the emails just keep coming. An email received today (9/30/15) at 2:32 am serves as an example. It advertises wireless security cameras. At the bottom of the email is the following: "to unsub from Rock Solid Credit please click here. You can also write us at complaint Department [redacted], Laguna Hills, CA 92653 USA". Below this is listed: [redacted] (them on next line) Click here to Un-Subscribe from our mailing list. [redacted], Osceda, MO 64776". So, this spammer is falsifying the address information (omitting/hiding their address) and ignoring requests to unsubscribe from their mail lists.

Description
I am receiving as many as 1000 spam e mails I suspect from the same computer programs which use many undeliverable e mail addresses that change every time I attempt to directly reply to unscubscribe. I have tried at least 100 times to unsubscribe to the growing list of specific commercial e mails with no success.
Thus far the sender or senders have done the following:

Sending multiple emails through Internet Protocol addresses that the sender represents falsely as being his/her property (fake e mail addresses that continue to change for the same ads)

Trying to disguise the source of the email and to deceive recipients regarding the origins of the emails, by routing them through other computers
Sending multiple spam emails via multiple mailings with falsified information in the header

Using various email accounts obtained by falsifying account registration information, in order to send multiple spam emails.[12]

I need assistance in discontinuing this problem. If you provide an e mail address I can send the last few days as a sample. Approximately 75 spam e mails.

Company Complaining About: Godaddy.com

Description
9/17 our company was looking for the URL vieteck.com. It was available on both godaddy.com for $14.99 and namecheap.com for $10.99. We specifically searched for it on [b] [6]. A week later when we were to buy the URL, Godaddy had bought the name and raised the price an additional $2,895.00. The line item on the invoice from godaddy states the $2,895.00 is a 'Premium Domain Purchase One Time Fee'. How is this not in violation of Anticybersquatting Consumer Protection Act. Even though vietek had not been trade marked, Godaddy used it's tracking data to monopolize on a domain that no one else was interested in 15 days ago.

Description
received a call on Aug. 5th 2015. Caller said he was a microsoft certified technician and that I had "error" reports from my computer and he was calling to clear it up. The charge would be $70.00. He took over the computer and cleaned it up. When he said the charge is $149.00, I protested and said I would call microsoft direct. He then said they were not connected to microsoft and if I did not pay they would lock up my computer and render it useless. I had no choice but to agree to pay. Now I am getting calls from a private number from the same people. I answered the phone once and made the excuse that I had an emergency and could not talk. Now they call every few days from a number marked "private. I am concerned they will plant viruses or software eventually. The 149.00 charge to my credit was to Unification Energy [b] (6) [b] CA. They caller had a heavy foreign accent. Any other information you need please feel free to contact me. Thank you so much

Company Complaining About: Time Warner

Description
I was recently notified of a $10 increase in my monthly Internet service through Time Warner Cable. They gave me all of 7 days notice before the increase would go into effect. After talking to a representative to bundle my service with the phone, I hang up and find out I need a special modem, that she had ordered a different phone number than mine. Back on the phone this time with another gentlemen who said she had messed up the entire order and that there were extra charges to keep my phone number and I needed to buy a special adapter. He goes to check on something, comes back and says, I'm sorry we need to send a technician out to the house for $39.99 to install the phone modem. After being the phone over an hour now, I told them to just forget about the phone, that I wasn't jumping through hoops and wanted to reduce my service costs. I told them they don't do anything for their existing customers and people shouldn't be selling your products when they don't know what they're selling. I told him I should just cancel the Internet and re-sign to get a special offer. The representative stated, no you would be still considered an existing customer and we have your social security number on file! That blew my mind, that is infringing on my privacy rights! I don't think representatives from a cable company should be threatening me because they have my social security number and information on file. I told them to just forget it and leave the Internet with the added cost and I'll deal with this again!

Ticket: # 565507 - Email accounts provided to outside party w/o my knowledge for Cablevision’s personal gain

Date: 10/2/2015 11:20:44 AM
City/State/Zip: Brooklyn, New York 11212
Company Complaining About: Cablevision (optimum)

Description
I am a former Cablevision TSG worker that is the subject of a lawsuit brought by the Communication Workers of America and the NLRB against Cablevision (Optimum). I am also an active Cablevision subscriber. In the course of my court testimony, the Cablevision attorney, began asking me about my "other" email accounts that I own (alluding to those owned by Cablevision) to determine if I may not have turned over all the emails requested of me. Given the fact that I only have 2 personal email accounts that I use on a day to day basis, both of which are NOT (Optimum) Cablevision accounts I reminded him that I do own email accounts on Cablevision’s network, 15 to be exact, but that as an Optimum subscriber I had a right to privacy and that he was usurping his authority.. in short snooping my subscriber account to advance their legal position. I advised him the accounts, although owned by me, are the accounts of my family members, which suggests a greater breach. I am sure Mr. has the information in his notes, and no matter if a labor action was brought against Cablevision, Cablevision had no right to access my subscriber information. I have seen technicians terminated for violating subscriber privacy rights in the past, and it was the most egregious act anyone could commit. As I am not the subject of a criminal probe by no stretch of the imagination, I do not understand how Cablevision believes they had the right to share my information for their personal gain.

The law firm of Kauff McGuire & Margolis LLP is the attorney that I reminded of my rights as a subscriber. Ms. , Regional Director of Human Resources, would be the person to have been involved in the breach. Snooping into my subscriber records could be discovered by merely viewing employee logins. All logins are tracked. You could always direct the NLR court to provide you with the transcript.

I would appreciate a thorough investigation into this allegation. I can be reached for discussion at

Ticket: # 566788 - "Peeple" app will massively violate CAN-SPAM act
Date: 10/2/2015 6:11:58 PM
City/State/Zip: Los Angeles, California 90069
Company Complaining About: Peeple — an Internet App Developer

Description
There is a horrific privacy threat looming to your constituents here in L.A. and frankly to all Americans. It threatens to severely harm survivors of abuse, rape, stalking, and other trauma.

"Peeple" is an upcoming app with $7 million in seed funding. It presents a massive privacy threat to millions of Americans and its business model plans to systematically violate the CAN-SPAM act.

I've linked to articles, below. The short version: they plan an app that treats all human beings like businesses on Yelp. *Anyone* claiming to have your phone number and a Facebook account to verify their "real" identity can create a profile of you, including your name and photo and any private information, real or false, without your knowledge and against your will.

Peeple has announced that victims will be contacted by a text message to their cell phone to notify them anytime there is a negative review. This is without you giving any consent. It is a clear violation of CAN-SPAM, and it is a fundamental part of their business model.

Incidentally—and putting victims of abuse in harm's way—if it is a negative review, the only planned recourse will be to directly confront your accuser online. This will be incredibly traumatic for victims of abuse, bullying, stalking, and rape who are targeted this way.

It sounds impossible, but that's really the case. For women fleeing violent exes, stalking victims, young teens being pushed to the edge by cyberbullies, etc. the consequences will be horrific. There *will* be suicides. There will be old abuse cases, freshened and escalated until the woman is victimized again. It is incredibly dangerous.

For me, personally, the mere announcement of the app is already causing emotional distress for some survivors I'm close to.

There may be solid legal ground to intervene, and whoever does so will be a hero to the Internet. Please be that hero.

The issue was is of enough national concern that yesterday it trended on Twitter under the hashtag #peeple. There are also online petitions growing rapidly (see below).

Finally, I should add that the people at Peeple have shown little but dishonesty and hypocrisy in how they've handled the outrage — deleting hundreds of their own and other people's comments from Twitter and Facebook, a right that they openly plan to deny to countless innocent people who just want their privacy.

Please consider this. There are countless women in this country, including two whom I personally love dearly, who are threatened by this perversion of social media.
If you're close to anyone who has been genuinely traumatized by stalking, spousal abuse, or bullying, you know that for some vulnerable people, Peeple may be a life and death concern.

Incidentally, please forgive that I have not provided fully accurate physical address information here. I have family members who have been pursued, and I cannot risk disclosure of the home address. This is precisely why Peeple is such a threat to my loved ones and millions of other Americans.

Thank you.

Today I was again informed by an automated voice that I was "able" to pay my bill with the Master Card ending in ....

So again T-Mobile has stored that information without my consent. This happened before, see reference in the Subject Line.

She did call back and assured me that all call centers were owned by T-Mobile ... not my concern.

In Texas, Public Utilities are allowed by Regulatory bodies to process Automated Payments up to five days in advance of Due Dates. This income stream is a derivative business to the common utility regulated. I would like very much like a formal response from the FCC regarding the regulatory coverage of this derivative "turf".

Description
I am receiving hundreds of spam emails from (b) (6). I need for them to stop this spamming.
Description
Thank you for your work! I am receiving a large amount of spam from a company that I have not done business with, and it does not allow opt-outs. I visited the website of [redacted] looking for a costume my daughter wants for Hallowe’en. They had it and I put it in my shopping cart, but eventually didn't buy it. I did not give them my email address, but somehow they pulled it from my computer. They have been sending me spam urging me to buy the item, multiple times per day! I removed the item from my cart and went on their website to unsubscribe from all emails (which I had never subscribed to) (and please note, they didn't have that option in the email body despite the legal requirement). But they still keep sending me emails. They are based in China but do have offices in the USA. Please sanction them and ask Internet domain name regulators or other enforcers to shut down their website. I see multiple complaints on the Internet from other consumers receiving the same barrage of spam. Thank you.

Description
I've received several emails of the last 6 months from a specific sales rep at a company called Domo. I've unsubscribed using the link they provided twice, and even just last week replied to the email saying that I've already unsubscribed twice. Yet, today another email came from the same rep completely ignoring my requests to stop.

I never opted in to receive emails from the rep or have any affiliated with his company. I'm assuming he got my email from my attending a salesforce conference two years ago or an email marketing conference I attended last spring.

I wouldn't care about this if I didn't myself run the marketing automation efforts for Penske and know that they are clearly out of compliance.

The News Press in Fort Myers, Fla., continues to send me daily news reports and advertisements by email. I have opted out at least two dozen times over many months and have called them them multiple times. They have assured me repeatedly that they will add me to a do-not-mail list, yet the spam continues to come. It seems obvious that they are justifying their advertising rates by loading up their email list with addresses, including those that have opted out. I have never subscribed to this newspaper and have no business relationship with it whatsoever.

Description
I had been having problems connecting to my Comcast/Xfinity internet service for several months. I began to notice that people walking and driving past my home would stop and park around my home and search for minutes to hours for a cell phone connection, including the people who live next door to me .... I live at a very busy intersection in a drug community. I also noticed that more and more networks were showing up on my computer when I signed in, including Xfinity Wifi.

When I called several Comcast representatives, I was told that I did not have that type of service for hotspots. Nevertheless, it continues. Even though I've discontinued using my wifi, people are still searching for phone signals and connecting around my home or using my modems and/or router. I have even been prevented from accessing or maintaining a private network for my home.... it constantly reverts to public. I never understood why a home network should be designated as public and not private. I understand the reasoning given that public networks are given more safeguards, but I don't necessarily believe that.

When I discontinued connecting to a router and was using only modems, I changed the priority setting from wifi to Ethernet, and it would constantly revert to wifi, upon startup. I am unable to control the settings for my computer. I should be able to control the PCs that I paid thousands of dollars for, not the manufacturers of equipment I need to use them or the internet service provider.

I also have Cable TV with Comcast, and I am wondering if this is somehow being used. I realize that there is a tower near here, but I believe people who do not have minutes for their phones are somehow accessing my wifi signal to connect to their cell phones. I can't prove this, but I have been watching it occurring now for months. I would like to be able to use my computer's wifi without becoming telephone service for my entire community, especially since it is a drug community.

Please direct me to a solution to this privacy invasion. Thank you for your attention to this matter.

All the advertising speaks about the match of money up to $200. I gave them $100 and was expecting the match of $100. Nope....you have to deposit 400 to get your 100 since they really only pay 25% of your money and it takes a long time. Not exactly sure of the timeframe. I contacted fan duel about this and I will attach the chat screen here. As you will see, they offered me $10 dollars to be deposited in my account not to complain and they apologized for the mis representation. Emails now come to me often asking me to continue playing. I believe the public is being hurt by the false advertising that Fan Duel is doing regarding this match. I look forward to your response.

Description
I got a friend request from a person who said she works at Facebook. Her Name is [Redacted] and I won the Facebook Lottery. I was real skeptical at first and should have trusted my instincts. Anyhow she convinced me to send to me a large sum of money to a Western Union account "Receivers name: [Redacted]  
Receivers state: Omaha  
Receivers city: Nebraska  
zip code: 68131  
I told her I didn't have the money... a few days later she contacted me again saying they got the check and ready to send it. She was convincing enough I then sent the money to another account  
Receivers Name [Redacted]  
Receivers City: Aztec  
Receivers State: New Mexico  
Zip Code: 87410   
A day later she tells me that I need to text the courier he is on the way. I texted to the number [Redacted]. I got a text from that number today saying it was Yellow tagged and I need to send another 2000.00. I refused knowing now I was scammed. Anther line texted my phone [Redacted] and was trying to get me to send the money right away. I called those numbers and got a voicemail box. Someone called me from [Redacted] saying I just called them. I have copies of all the conversation I had with this group of people.

Company Complaining About: Centurylink

Description
Century Link Communications and their representatives have failed to take the proper security measures when setting up new customer accounts. They allowed another individual (whom I don't know) to open a business account using my personal information which has caused fraudulent charges to be applied to my credit. The representative investigating the issue failed to close the fraudulent account and did not return my call as promised. I then called again and spoke with another representative who was able to close the account only after additional charges had been applied. I am now being harassed by creditors for a delinquent bill that is not my responsibility and an account I did not authorize to have opened. I have filed a police report and completed an affidavit of identity theft through the FTC, furthermore I have placed a fraud alert on my credit and have notified all 3 major credit reporting bureaus. I would like action to be taken against Century Link Communications as they have failed to protect me as a consumer. If needed, I can provide documentation to you regarding this issue (police report, affidavit of ID theft, etc.). Thank you.

twice now while my daughter (who is a two and a half year old toddler) and I have been watching Baby Einstein episodes through the internet via YouTube - we were suddenly bombarded by a horrific and violent At&T commercial. we most recently were watching Baby Einstein’s Lullaby video cuddled up together when multiple horrible zombies suddenly appeared attacking a man in the car for an ATT commerical. we were totally unprepared for this inapropriate intrusion. Technology is a wonderful thing when used appropriately and conscientiously. How neglectful and completely inappropriate of ATT for advertising in this media form and same for yputube for allowing it. i pay for this service and expect that what i receive is safe and appropriate. This is blantant disregard for an audience who can not protect itself. please address for me ans others like us. i wasnt sure where to file this complaint. its youtube through my att phone on the internet for att commercial. Very violent and unacceptable.

On a daily basis I receive about 3-5 emails from Systel Inc., in Atlanta, GA. Their offshore team send mass emails regarding open positions with their company. I am not interested in receiving these emails, and I have made multiple attempts to have them remove me from their mailing lists to no avail. I have emailed them, used the link to contact them to remove me (link opens an email, i send the email and get an error message back that it can't be delivered), and called them as well. My company is a staffing company, however I am not a recruiter. I do not wish to receive these emails any longer. I have even tried blocking them, but somehow they still get through.

My name is Jerry Whitmer. I have been a Comcast customer for over 20 years. I do not use this email ID with my account, but I suddenly started receiving email for a new Xfinity account for somebody at [redacted] in Luray, VA - who I found out is also [redacted]. Comcast has been trying to get me to contact the other [redacted] to fix his account. I'm sorry, but he's a few cards short of a full deck and wouldn't understand what I'd ask him to do let alone why should he care? I talked to him once and he told me he has no email. Comcast kept on putting the onus on ME to fix the problem. It's not my problem - it's Comcast's. I have received specific info that only the Luray, VA [redacted] should be receiving - like his account ending in [redacted], etc, etc. Comcast has been extremely unhelpful in resolving this issue.

Company Complaining About: Verizon

Description
We have been dealing with this for awhile, the police department is aware of this as well. We have had computer hacked to the point of entire driver being completely erased, harddrives being x'ed out...you name it. They are still doing such. We sit at home, do personnel stuff, or schooling and the Wifi get completely disconnected. For no reason. I have reported to Verizon and they cannot find it. I pay for a service through Verizon and they need to do something about this. I know the connection that are doing such acts; they are: SecretService, 3PVYH, Actiontec-0586-2.4G, Cassidy's Mobile, FIOS-YBTI.

Each time they log in, I get full five bars from them, making my internet loose strength, all types of things. Now they have somehow tonight, again, disconnected my internet, messed with my printer, now we are again, having connection and computer issues. These people need to be stopped. I am very much done with it.

The police are also aware, awhile back, I have reported illegal activity from the same individuals and seemingly on purpose they are doing this.

Sent another link, with video, expounding upon our issue to your [b] (b) [email link].

Hello,
There is a forum online (Chronicle of the Horse) which does not allow you to unsubscribe from it. They suggest that you delete your posts, but that does not cover it, as people quote your posts in theirs. I do not want to be associated with this organization any longer, or have an account with them. I do not want to have my information or name searched by their members or be located within their site with online searches. This cannot be in accordance with online regulations. I understand that this is a small issue compared to the things that you deal with on a daily basis, but the right to be forgotten and online privacy are a big issue to many of us. There are many others who have requested to be removed and have met with the same bullying that I encountered, which has now deteriorated to threats.
Thank you for your time

**Description**  
My iPad safari browser froze this morning. I received a pop up message indicating that due to security concerns, I needed to call this 800 number; [redacted]. I called the number, and it appeared like a scam to me. I hung up. I was able to access the Internet via another device, and it is clear that this is a scam fishing exercise that is been going on for at least three months. Using the same phone number. I would like an explanation on why the FCC allows an 800 number to be used for such an illegal purposes for so long? The representative indicated that my computer needed to be frozen because I have been ignoring the phone calls from Apple. It is true that I had received two or three calls which I determined or scam. They were looking to gain access to my computer to resolve a so called security issue. They misrepresented themselves as agents for Apple. From the looks of the Internet, this is been going on for a long time. The FCC needs to step in and enforce the laws and prosecute this scammer.

Description
The AT&T Sales Representative failed to mention that he would be running a hard-credit check on my account, otherwise I would have told him to no we are not interested. We had a wireless provider, but AT&T offered a 30-day free trial. The prices were competitive so we tried it out (we cancelled the account before 30 days, due to the horrendous customer service). Our representative told me he needed my info to setup the account. One year later I see he did an unauthorized credit check on my account. I recently disputed with Equifax, and they denied my claim. I will be writing for a reinvestigation, because I never authorized the check.

Company Complaining About: Comcast

Description
I called Comcast on 10-10-2015 to inquire about disconnecting a modem box that I've had for years as it stopped working. In the conversation, the agent, named [redacted], attempted to up-sell me to another service which I declined. Today, on 10-11-2015 I received a notice from my credit service monitor, Transunion, that an inquiry had been made on my account - and it turns out it is from Comcast on 10-10-2015. That has impacted my credit score. Considering I have been a stable paying customer for over ten years and that I have not changed addresses in over 10 years and that I only asked what the service was and did not commit to it, I am filing a complaint against Comcast for consumer fraud and invasion or privacy. I have the document from Transunion to back up my claim.

Description
Received a threatening email that threatens to launch a cyber attack unless money is paid immediately. Text of the email is below. Originating address claims to be: (b) (6)

To introduce ourselves first:

(b) (6)
(b) (6)
(b) (6)
(b) (6)
(b) (6)

Or just google (b) (6) and you will find more info.

So, it’s your turn!

All your servers and websites will be going under attack unless you pay 10 Bitcoin.

Pay to (b) (6)

Please note that it will not be easy to mitigate our attack, because our current UDP flood power is 400-500 Gbps.

We are aware that you probably don’t have 40 BTC at the moment, so we are giving you 24 hours to get BTC and pay us.

Find the best exchanger for you on (b) (6). You can pay directly through exchanger to our BTC address, you don’t even need to have BTC wallet.

Current price of 1 BTC is about 230 USD, so we are cheap, at the moment. But if you ignore us, price will increase.

IMPORTANT: You don’t even have to reply. Just pay 10 BTC to the above BTC address we will know it’s you and you will never hear from us again.

But if you ignore us, and don’t pay within 24 hours, long term attack will start, price to stop will go to 100 BTC and will keep increasing for every hour of attack.

If you think about reporting us to authorities, feel free to try. But it will not help. We are not amateurs. The best thing that can happen, they will go publicly about it. We will, again, get some free publicity. But for you, price will go up.
IMPORTANT: It?s a one-time payment. Pay and you will not hear from us ever again!

In many cases, our ?customers? fear that if they pay us once, we will be back and ask for more. That?s not how we work. We never attack the same target twice.

We do bad things, but we keep our word.
Thank you?

I filed a claim for reimbursement with Hyundai USA at

I was required to enter both email & phone numbers on the form. There is a statement with a check of box that says "By clicking here, you consent that we (Hyundai Motor America) may contact you using pre-recorded voice messages/text messages and automatic telephone dialing system to your cell or other phone numbers provided by you as the law allows even if it results in a charge to you. You do not have to consent in order to obtain any of our products or services."

The last sentence says you do not need to consent to receive services. I did not check the box but the form would not allow me to submit without accepting the terms of this statement. I do not want any phone calls or text messages from them at any time but I do want my refund for the recall that I had repaired prior to receiving the notice of recall.

Description
I keep receiving solicitations from a martial arts business called "BJJ Hollywood". They do not have an opt-out/unsubscribe option in the email. I never signed up for the email, have never attended - nor heard of - this school. I have written to them 3 times asking to be removed from the list.

Here is today's email pasted and I've attached a few others with my final request for removal. There have been 2-3 additional emails outside of that:

Company Complaining About: (b) (6)

Description
My email address is and has been registered on do not solicit. (b) (6) company evidently received my email address and has emailed solicitations weekly to as frequently as daily. To request them to stop, you have to create an account, which I don't want. After several weeks, I replied to 3 of their solicitations asking them each time to stop. 2 of the 3 times someone from their company replied stating they would cease. The solicitations have continued and are now coming daily. The final reply I sent outlined my intentions to pursue legal council if they don't stop. That was 2 weeks ago and I am still receiving solicitations daily, including today.
Ticket: # 586626 - My Mobile Number is being used to send mass text messages

Date: 10/13/2015 10:27:02 AM
City/State/Zip: Canyon Lake, Texas 78133
Company Complaining About: Verizon Wireless

Description
My mobile number [REDACTED] has been stolen and used to send mass text messages w/ the following verbiage and link:

"Thank you for your loyalty, now you can upgrade your device at no cost, please visit [REDACTED]."

It does not discriminate between land lines or mobile and is sent as a text message (not iMessage). I was made aware by the mass number of angry responses to stop texting people. Further, I received the carrier messages that "this is a landline".

The texts do not show up on carrier's (Verizon's) network as being sent by my device.

Please help stop these texts from being sent.

Sincerely, [REDACTED]

Company Complaining About: Verizon Wireless

Description
Today I began receiving messages from the number [b] (6) [b] (6) [b] (6), first it appeared to be a person trying to confirm my identity, a few days later then sent more messages telling me her name is Mrs. [b] (6) [b] (6) [b] (6) from a company called Suncorp Group LTD. telling me my resume has been viewed and sent to their head department. A few days after this they sent more messages listing the jobs available. None of these are what I would want to do and then asking me which job I am applying for. I did not apply for anything with this company. The then told me the company was called DSM a Global Science Based company active in health and nutrition and Materials. When asking this person to remove me from their database they started calling me names and being unprofessional. I told them if they continued to contact me I would report them. They continued to harass me via text message and calling me names.

I got a threat from Crystal theboss from a group I joined earlier 2015, I got a pic from her and the word Bitch on the comment stating when I feel threatened I hit back and you don't want to mess with me; then a ghost message appeared on my computer when I got onto google stating I can see everything you do...My computer was hacked and I received a phone on 10/12/15 trying to scam me into paying on a student loan I actually owe. They gave me a phone number and address and I called to verify and of course it was bogus. I'm supposed to get a call back 10/14/15 for more details...They have my address, telephone number and god knows what else...I have done the necessary things such as calling my bank;changing passwords Now what else should I do...Facebook should be held responsible for the encroachment and hacked items. I would also press charges on who has done this to me....

Date: 10/13/2015 10:23:39 PM
City/State/Zip: North Las Vegas, Nevada 89085
Company Complaining About: Godaddy

Description
To whom it may concern,

I am acting on behalf of spear-phishing victims [b](6). This abuse report has been created because the domain [b](6), listed below in the whois lookup, has been participating in a spear-phishing campaign aimed at customers of the Latter-Blum real estate company based out of New Orleans, LA. It's perceived goal is to lift e-mail account credentials, with no malicious redirects have been noted at this time. The real estate company website for Latter & Blum allegedly suffered a compromise of their own and unauthorized individuals started a spear-phishing campaign utilizing the company's e-mail system to the company's active customers. In this instance, the e-mail was sent from compromised account [b](6) to one of the company's customers, using the domain ahsuniverse.com as the credential lifting landing page, disguised as a dropbox link.

It is unknown if a police report or FCC complaint has been filed from Latter & Blum, Inc, however since the phishing landing page is still active and capable of lifting log-on credentials, this report is being generated to inform the provider of the misuse. I am filing the FCC complaint on behalf of the victims.

Below you will find the entire whois record of the malicious domain and the original spear-phishing e-mail received by the victim customer; [b](6). No further information from Latter & Blum, Inc is available.

The malicious link inside the e-mail has been "de-fanged" to prevent accidental clicking. The whois record contains active links to potentially malicious, compromised, or spoofed domains. Be cautious.

This abuse report is being sent to all listed contact and abuse e-mails from the whois contact database, the webmaster and internet service provider. All parties have been notified and it is my intention to have actionable results by cleansing this domain in the event it was compromised or the malicious account removed permanently, if possible.

Thank you for your time and assistance.
