Company Complaining About: Courier Journal

Description

The Courier Journal continues to send me unsolicited email. I never signed up for there services. I selected the opt-out option from all future emails on April 16, 2015. I then received email from them on April 23rd, April 29, and May 6th. I submitted a second opt-out request as provided in the email on May 8th.

I received yet more email from them on May 27th. I emailed customercare@courier-journal.com and requested removal from all emails.

I received more email (attached) from them on June 11th.

They have failed to honor my multiple request to opt-out. I will again opt-out and email them.

Company Complaining About: Microsoft Certified Technician

Description

I received a phone call today from a guy purporting to be a Microsoft Certified Technician. I told him that I am a tech as well, if I can't fix it, he will. Is aw that he was calling from GA 404-894-8286. When dialed that number gives you a message stating that this is the University of Georgia, and that this number was hacked somehow. She then went on to explain that a complaint should be filed with FCC. I have attached the call as well.

Ticket: # 336971 - Publishing of an unlisted telephone number and other personal information

Date: 6/12/2015 1:13:02 PM

City/State/Zip: Federal Way, Washington 98023

Company Complaining About: Whtiepages.com (there More Than Likely Are Others)

Description

Whitepages.com has acquired several pieces of personal information which includes: my home address along with a map/satellite viewing feature/my approximate age/my full name and my unlisted telephone number. I consider this an extreme breech of my PII. I contacted Comcast (my phone/internet/cable) provider and they told me that while I pay them (\$2.50/month) to keep my phone landline phone unlisted- there are websites that gather information from "other" sources and publish that information on the internet. Comcast claims to have no control over my situation. Are there no restrictions from commercial websites disclosing personal identifiable information- or are we all just fish in a barrel that can be subjected to invasion of privacy at someone else's whim? I find this most disturbing. Look for yourself on this particular website: whitepages.com. Enter my name (b) (6) and Federal Way, WA. The information available to anyone that knows just a few bits of information about a person is unbelievable. NOTE- I have provided my home telephone number in this complaint (below) and would request that you respect the fact that the number is unlisted- for any good that appears to do for me.

Ticket: # 337213 - Consistently Receiving Postal Junk Mail from Time Warner Cable**Date:** 6/12/2015 2:32:38 PM**City/State/Zip:** Lewisville, Texas 75067**Company Complaining About:** Time Warner

Description

Hello. I am a former Time Warner Cable consumer service customer and in late 2013 I terminated my service with them. Not long after that, in 2014 I started receiving Business Class offers via US postal mail. I have called them multiple times to opt-out and have been told it was taken care of. I filled out their online web form multiple times and now I have even filed a Better Business Bureau complaint against this company to simply honor my right to privacy. They claimed to have removed me from their marketing junk mail. Yet today I had to re-open my BBB complaint because this obviously is not happening. Now their letters in the mail are borderline harassment and are filled with wording like "Important Service Notice" and "For Addressee Only" on the outside because they must figure that as a consumer we are likely simply throwing this junk in the trash where it belongs. The BBB recommended I contact the FCC to file a complaint since this is an obvious issue with these cable companies. The sad truth is I am not even a business so why are they sending me business class letters? There is a reason why Time Warner Cable and Comcast have the lowest customer service satisfaction in this country, and this is a prime reason why they deserve the complaints they get. I simply want them to honor my request to privacy and leave me alone! Thank you for your time in this matter.

Dear FCC,

I would like to file a complaint. I have already notified the journalist about the issue but it did not resolve the matter. This complaint involves the article titled: "Are you an African American?' In this article they have posted (b) (6) complete birth certificate. This woman has not been found guilty of anything and this seems like a direct invasion of personal privacy. A birth certificate is an important document that is used for many legal issues. It is so private that there are laws with regard to who can acquire a copy of someone's birth certificate from a county clerk, especially for someone who is still living or recently deceased.

I am completely appalled by the unethical behavior that is occurring in journalism today. People are being persecuted in the media without any kind of confirmed guilt or wrong doing. It is not right to do this to people. And furthermore, this woman probably can claim African because we all typically have African genes. I personally can claim caucasian, hispanic, Native American, Jewish, North African and other. What difference does it make? People do not have to disclose their ethnicity in the professional world. It is against the law to discriminate. Even the NAACP has stated that they do not have a problem with (b) (6) and state she has excellent advocacy work. Why aren't people commending her for her advocacy work to promote diversity and equality? She appears to be doing more for her community and people of color than all who are judging her.

I do not have any connection with anyone in the article. I am just a concerned citizen who believes ethical lines have been crossed. I would personally hate for this to happen to me.

Please do something about this! It is not right to post someone's birth certificate permanently online!

Thank you,

Ticket: # 338380 - Predatory Student Loan Processor**Date:** 6/12/2015 8:24:21 PM**City/State/Zip:** Vancouver, Washington 98664**Company Complaining About:** Comcast

Description

There is a company that has accessed my email info and has been spamming me between 30-50 times a day for two months. Their telephone number is 866/351-3815. I've worked with my ISP, called my student loan provider and also called this company numerous times, the unsubscribe link will not work. All but two of the people who answer deny the phone number in every single different-name/different-address email is theirs, but I've gotten two men on the phone who acknowledged this is their number and that the emails are from them. ONLY three of them would tell me what they do. The others refused to give me a supervisor or to tell me what company it is. They now have blocked my phone number so I can NEVER get help stopping the inundation of spam. My ISP cannot do it bc they are using an email address propagator that generates many email addresses repeatedly day in and day out 24/hours a day. One of them said his name was Brian Kelley - bkelly@federalstudentloanservices.com - sent him 30 unique emails with headers, and he says they never got to him. He called me to ask about them. We worked thru it on the phone. I've had no fewer than 11 of their staff hang up on me today and now they blocked my phone. NObody would allow me to speak to a supervisor, a Hindi, a black, three men and two women would not tell me the name of the company.

Ticket: # 338771 - Verizon CAN SPAM violation

Date: 6/13/2015 9:24:25 AM

City/State/Zip: Newton, Massachusetts 02462

Company Complaining About: Verizon Wireless

Description

I do not have a customer or business relationship with Verizon wireless. I do not have an account with them. I receive unsolicited emails at my email address (example attached). There is no opt out link available, since the emails are related to another person's account. I have contacted Verizon multiple times about this issue. They have told me the following:

- 1) There is no process in place to verify the email addresses added to user accounts are authentic.
- 2) They do not request permission from the owner of the email address to attach it to a customer account.
- 3) They are unable to remove my email address from their system because I'm not the owner of the customer account.

This appears to be a violation of the CAN SPAM law because they do not have my permission to send these email solicitations, and they have not provided a working opt out mechanism.

Company Complaining About: Sudden Link

Description

How do I get SuddenLink, or any other internet service to stop sending advertising to me via their service. It happened again this morning when I opened my service to check emails and check on my bank account. It is an audio advertisement that immediately starts up. This has happened numerous times and each time I have visited the OPT OUT option and clicked on the selection for all advertising. I thought that would be an end to it but apparently not. Two mornings ago I nearly sliced my hand while doing dishes when the audio unexpectedly came on. Seriously, this needs to stop. Any help or recommendations would really be appreciated. City/State/Zip: Fort Collins, Colorado 80526

Company Complaining About: Verizon Wireless

Description

Verizon is modifying my HTTP requests to websites to include an ID uniquely identifying me. This ID is used by advertisers and Verizon to build a profile of the sites I visit, the stuff I buy, etc. There's no way to opt out and there's nothing I can do on my phone to disable the header. This is both interfering with my communications with 3rd party websites (effectively modifying the content of my conversation with the 3rd party) and a clear violation of my privacy. More details on what they are doing are available in this article: <https://www.eff.org/deeplinks/2014/11/verizon-x-uidh> Thank you for considering my complaint.

Ticket: # 339149 - Unrequested Marketing Emails**Date:** 6/13/2015 2:34:37 PM**City/State/Zip:** Plantation, Florida 33322**Company Complaining About:** Comcast

Description

Yesterday I made a purchase at the local hhgregg. The salesman asked me for my email address which I gave him thinking it was for tracking purposes in the event that I needed to return something or that they would be emailing a receipt. Lo and behold, today I am receiving marketing emails from them. Under no uncertain terms did I agree to be on their mailing list. While I fully intend to unsubscribe, I feel this is a violation of my privacy. If this was hidden in the fine print, then shame on them. However, the sales person never mentioned it was for marketing reasons. Note, my complaint is not with the ISP, it is with hhgregg.

Company Complaining About: Apple

Description

I have worked on my situation for 3 years, filed IC3, contacted local authority and Apple since 2012! Apple case number 804759193 about my identity and credentials being compromised. I worked with Apple to use a public email from gmail and they set the password for me to use. When I log into the iCloud account with (b) (6) it says I am ygsmcc@gmail.com, but Apple can not find a ygsmcc@gmail.com acct. They remoted in and took screen shots and told me to use the password they set up as the engineers look into this. Three weeks later I am calling Apple again, my laptop on my network crashed and my 21" iMac on a Remote Desktop located 30 miles away crashed at the same time I logged into the iCloud account. I then spent 2 days reformatting my computers to still not be able to earn an income. Working with Apple last night and today they are still saying they have never seen this before. I know it's a business, personal and university licensing issue with in all of Apple. I log in to Apple today from there website and it took me to an Apple Connect Page, I logged in with (b) (6) and was take to a page that's a developer page with the name of (b) (6). I filed support claim online and its under (b) (6) with the correct phone number and email acct. however it says I need to provide a valid name. So I changed it to (b) (6) and it went through. This is how it has been since 2012 when I found my only Apple ID (b) (6) (15 years) was compromised with developer licenses and they attached to everything I was associated with. We sat on the yahoo email for 3 years, let it go back to yahoo in July of 2014 and yahoo sold it in January of 2015 for \$1.99. yahoo says I have to get a supoena to get this fixed. I need help, it's getting attached back to everything I had done business related. I had no ide that Yahoo sold emails if they are on a waiting list. It's in their legal document that I have to find out how to get the law enforcement to sign so I can get my privacy back. I took the yahoo supoena to Lenexa Police and they looked at. Me and treated me like I was crazy. I said I will never ask the for help again. My life has been like this for 3 years, I have more back up than anyone should have at my level of business, but yet the law does not take this as a serious crime. While my home and. Business has been vandalized almost to the ground. I must get FCC to take this seriously and help me take action. You have the provided the Internet, phone companies and others to investigate, but always find a way to get out of this serious crime. We may not be Walmart, but we do have 75 employees and my payroll runs 30,000 plus every two weeks. My 3 years of commitment is coming to an end, they have broke us, ruined our reputation and continue to manipulate our data, phones and Internet within all various companies. It's a business credential issue that is associated with all the companies that we are licensed under. They just move it around in small pieces so it keeps me not focused on my businesses. Apple does know about this and they need to step up, it's not going to get resolved with out the support of a higher authority.i am attach
Hing the images from today, but Apple alone has as they said at least 500 call in complaints from my issue.

Company Complaining About: Psiwarriors.com

Description

I used to be a member of a social media site Psiwarriors.com. A few months ago the owner of the website changed and some alterations were made to the site. One of these was a group email system. I get many messages a day from this website through group email to hundreds of other users who can now see my email address. I have clicked the unsubscribe button at the bottom of the page and when I fill out my email address it bans my IP from the server and I continue getting emails. I have sent a personal email to the administrator asking to be removed several times and have received no reply and continue to get emails. I see many other users asking to be removed from the messaging system as well who apparently have the same issue. I'd certainly like to see this resolved soon.

It seems apparent that you have chosen to ignore all our efforts to contact you in order to resolve your debt with the Bureau of Defaulters Agency. At this point you have made your intentions clear and have left us no choice but to protect our interest in this matter. Now this means a few things for you, if you are under any state probation or payroll we need you to inform your manager/Concerned HR department about what you have done in the past and what would be the consequences once the case has been downloaded and executed in your name.

Now, FTC is pressing charges against you regarding 3 serious allegations:

1. Violation of federal banking regulation act 1983 (C)
2. Collateral check fraud
3. Theft by deception (ACC ACT 21A)

If we do not hear from you within 48 hours of the date on this letter, we will be compelled to seek legal representation from our company Attorney. We reserve the right to commence litigation for intent to commit wire fraud under the pretense of refusing to repay a debt committed to, by use of the internet. In addition we reserve the right to seek recovery for the balance due, as well as legal fees and any court cost incurred.

WE CARRY ALL THE RIGHTS RESERVED TO INFORM TO FBI, FTC, AND HOME LAND SECURITY YOUR EMPLOYER AND BANK ABOUT FRAUD.

And once you are found guilty in the court house, then you have to bear the entire cost of this lawsuit which totals to \$13,271.15, excluding loan amount, attorney's fee & the interest charges. You have the right to hire an attorney. If you don't have/can't afford one then the court will appoint one for you.

(b) ,

I'm Stacy and i'm the top author at Do business from home journal. I am from Atlanta, as well as a fulltime stay at home mom.

Just about Few months ago my man suddenly lost his employment and it transformed our world upside down.

I became so frightened and didn't know what we might do in order to earn an income. We had been undoubtedly overdue on the home loan and easily missed a monthly payment on our only family car.

My personal world had been coming crashing straight down and it was initially breaking up my heart simply visualizing the way we would look after my lovely tiny girl.

Just as I appeared to be within my weakest place I got this electronic mail. I really believed it absolutely was yet another one of those rip-offs. However I was very distressed that I just chose to see what it was all about. After watching a number of video tutorials and knowing it did not cost any money to start I decided to give it a shot.

During my initial few days I produced \$677. The next week I made yet another \$918. We could not believe it. This was a real income in my bank account and my life began to transform. Within a few months I began generating more income in a few days than my partner made in a whole calendar month. And i'm capable of doing all this in the home.

If you'd like to see how I performed this just simply visit the web page down below.

Ticket: # 342657 - Retaliation from Tech Service Associate After Complaining About Him to Customer Service

Date: 6/16/2015 9:46:29 AM

City/State/Zip: Saline, Michigan 48176

Company Complaining About: Comcast

Description

have been having ongoing internet connectivity issues with my Xfinity/Comcast service. I have called numerous times to rectify this problem with no solution. I have been told that I need to sit next to the modem/router in order to have my service work. On Sunday, my issue went to a level 2 tech service associate. He again, told me that I just need to sit next to the modem/router in order for the internet to work. I told him that I was actually sitting right next to the modem/router, and I still had no connection. He then told me that my problem was solved, I should just plug the cable into my laptop and work that way. I told him I was done with having him try to help me, and I would call back and speak with someone else that would be able and willing to try to fix the problem. I called back and spoke with someone in customer service, and made a complaint specifying the associate named "Kevin", telling that he was rude, not able to help, but more importantly, not willing to help. They made note of my complaint, offered to credit my account for the time they could see I was offline (I think \$18.00), upgrade my speed, and reduce my monthly bill. They then transferred me to another tech service associate, who then tried to address the problem.

My family and I were gone for the rest of the day, and didn't arrive back home until late in the evening. I tried to get back online around 11:00 PM, and had not connectivity to the internet at all. My wireless connection wasn't even visible as one of the networks to connect to. When I finally was able to locate the network, I received a message that my security encryption key was not working. I have all of my devices (laptops, tablets, desktops) set up to save the security encryption key saved so we don't have to type it in each time we log on. The security encryption key was no longer saved, it showed up as a blank space. I tried to enter the security encryption key for our network, and I got the message that the code/password was wrong, I tried again, about 4 times, then tried another device, with the same result. I called Xfinity/Comcast, and was connected to an associate in Las Vegas, who asked me what the issue was, I told him that I couldn't log on with my security encryption key/password. He then asked me if my password was "ABCD12345"? I told him no, and then gave him the code that I normally would log on with. He informed me that my password had been changed by the tech associate that I had made the complaint about (apparently he could see the time stamp of when the change had been made, and the id of the person who made the change. Xfinity/Comcast has been "investigating" this incident for a few days now, with no resolution. It is inconceivable to me, that my passwords can be changed without my permission, resulting in me not being able to do my job (both my husband and I work from home, and access to the internet is crucial for us to perform our work), purely out of retaliation.

This is a multi-faceted issue: That Xfinity employs people who act with such a low level of integrity and professionalism, that they don't care about their paying customers, that I now feel that my account information is not secure, and that I am still having issues with my internet connectivity with no resolution to the problem. I, as a consumer, do not really have any other decent options for internet in my area that will allow my husband and me to perform our jobs the way we need to.

I'm not sure that filing this complaint will change anything, but as consumers, we need to speak out against these corporations that no longer care about their customers, no longer care about the quality of their service, and basically have us over a barrel because we don't have enough options for alternative service providers.

Thank You,

Since last year, I had experience spying with some of my equipment from optimum which is cablevision, this first started on my last address at 181 Rockaway Parkway apt 5-C. my internet was being hacked and my phone calls were being listening too. I suspected someone from upstairs 6-c was the one spying, why? because he use to kicked the floor as I complained to optimum like trying to stopped me from saying anything. this can only be done by someone like a technician. I noticed the tech misspelled my name to ayusa instead of ayuso. this maybe the reason there were able to hocked up my service with the service upstairs for spying purposes. why? I have been attacked by people following me outside and so forth. I move to 501 new York avenue on the 4-4-2014 and the same is happening I heard breathing over the phone like someone is listening to my conversation. I did call optimum and I was told to call the police. they were not helpful. now my computer is relentlessly being attacked by someone, a lot of phishing attempts, this is every time. I get on and videos play by themselves. I have a very good antivirus software which keeps me protected although why I am been attacked so hard? I am nobody special just a guy who likes to use the internet like everyone else.my cable box ECE09B3C0782 keeps acting up and I did had representatives BEFORE telling me is the cable box although is no way in hell I can get a new one like the rep suggested before. still acting up and no help from optimum. I am entitle to privacy and I understand peoples computers get hacked by this is happening to me too often and is happening for very long time.

Company Complaining About: Comcast

Description

I've been attempting to unsubscribe from Best Western International's marketing emails.

In the emails they send, they include an unsubscribe link and a link to their privacy policy, including how to contact them. I've attempted multiple times since May to unsubscribe, and they continue to send emails. The contact information for their privacy policy is incorrect (directs users to contact customercare@bestwestern.com, except that email address doesn't exist)

Attempting to go to bestwestern.com and read their privacy policy for contact information, including unsubscribing from email, directs users to email customerservice@bestwestern.com. However, that email address also doesn't work.

Finally, calling Best Western's customer service line to unsubscribe, they first provide the unsubscribe link in the original email (that didn't work), and finally have directed me to email customer.relations@bestwestern.com, which does appear to work, and to which they've not replied.

Considering I've requested multiple times to be unsubscribed, since May, and the contact information they've provided does not work, this seems a violation of the CAN-SPAM act.

Description

I am forwarding two emails I received from this person who claims to be a graduate of West Point. I told him if he tried to contact me again I would file a complaint and have him arrested for impersonating an officer. I will forward his original email, my response and his counter response. Obviously this is a non-human response as he /it assumed my response to him was an offer of help. I leave this issue with you sir, to investigate. If there is anything else I can or should do please let me know. Most respectfully, (b) (6)

Company Complaining About: Centurylink

Description

Caller with east asian (?) accent notifies us that Microsoft Windows has noticed activity that could harm our home computer. They ask that we turn on our computer so that they may help us with troubleshooting to prevent a security problem.

They asked if they were speaking with the primary owner of the computer. I responded, "Yes, this is (b) (6)." They continued. But that is not my name or the name of anyone in our family. This was not a call from an outbound call system using a customer list, it must have been just phone numbers which can be easily generated. The PC software in our house are registered under my husband's or college son's name at Microsoft.

The call originated from "Private Name" "Private Number" at 1:26 Central. Before I continued, I asked to get their call back number because I had to "Run upstairs to get my charger" and I feared I would be disconnected. I was met with silence. I assumed he had hung up.

The same individual called back 1-2 minutes later. He was surprised that I hadn't gotten to my computer yet. I again asked for his number. He asked for my cell phone number so he could call on that number instead. When I wouldn't give him that number citing, "Storms wreaking havoc with the signal." He hung up and did not call back. Contact ended 1:30 PM.

My mother, (b) (6) reported a similar issue to FTC in the last few months (b) (6). She also asked for a call back number, which they did give it to her.

They are impersonating Microsoft, pretending that they are trying to help you secure your computer against an suspicious activity. If someone tries enough numbers, they will get a connection, with the size of the MS market, they will find someone with a PC or Mac running windows. This scam is insidious.

I was handed the phone and heard this person speaking about my account and even told her I was in complete shock of her nerve. This incident happened 6-1-2015

Ticket: # 346576 - Netflix privacy problem and account security problems**Date:** 6/17/2015 4:53:38 PM**City/State/Zip:** Middle Village, New York 11379**Company Complaining About:** Time Warner

Description

My Netflix account showed recommendations based on audio surveillance for months. When I complained to Netflix customer services they denied that they use audio surveillance to chose customer recommendations. I don't believe that they are telling the truth. And, at least, they could have serious system security problems at their end which could have made possible that someone could alter my Netflix account content based on illegally audio surveillance. Or they could be using independent contractors who illegally take upon themselves to customize recommendations based on audio surveillance (that kind of behavior, I experienced, of probably the same group of independent contractors working for Slacker radio, mp3.com and wqxr.com. And which will go so far to mock, bully and harass someone to over power, for fun or/and for a reaction so they can specifically personalize recommendations. And which, in regard to privacy, could make a person feel like is forced to walk naked on the street in broad daylight with no choice).

While I was a Netflix customer I wasn't comfortable about was going on and I did not know what to make of what was going on. I talked to them about my concern in a very diplomatic way in regard with the possibility that the recommendation are kind of invasive but they decline any responsibility and told me that is my responsibility to keep my account user ID and password secure. So, I changed the account access ID (email) and password a few times and made sure that at my end my computer and my email security were not penetrable.

Later on, to my surprise, they also had on their record, an unknown to me, fake account user ID (the email) instead of the email I provided. And this happen a couple of times. And I suspect that this happen because the data base access on their end was compromised and this is troubling because they have my credit card information on their database. I also was unpleasantly surprised that they asked me for the full credit card number over the phone to identify my account because they did not have the right user ID on their record.

On June 12 I closed my account with them. But I remain very concerned about the possibility of invasion of privacy as a fact, which could be intentional or due to negligence and also about the credit card information security in particular.

I also would like to state that my Internet provider, Time Warner, is providing highly reliable and more than fair services for my service cost and I belief that it is not responsible in any way for any of the Netflix questionable practices.

Description

Since mid-February, I have been the victim of cyber-stalking. Since that time to date, there have been over 180 attempts to hack into my Verizon email account. The individual who is attempting to hack into my email requests a temporary password using my user ID, which is my email address. The temporary password is then provided to me by Verizon via text message. I have requested that Verizon change my user ID and Verizon has advised me that this is not possible and that it has no way to address the problem. I am getting so many emails touting one thing or another with the Unsubscriber being VALUERUNNER. A strange thing about this "Unsubscribe" page is that even though there are links to "About," or "Privacy," or "Contact," all those links get some ERROR. Even Valuerunner.com returns an Error.

Now, I am no computer whiz to go chasing this company down. But I do my best to Unsubscribe from each unwanted email that gets sent to me. However, it appears that I am (we are) fighting a losing battle here.

If you have any advice, I'd love to hear it. I will check with my Internet provider for their advice, as well.

Thanks for any and all help. I know there must be folks out there addressing this problem.

Ticket: # 347224 - Is Comcast forcing customer to enable cookies from everyone in order to login to their account?

Date: 6/17/2015 7:52:06 PM

Company Complaining About: Comcast

Description

About 6 weeks ago when I tried to login to my account from the Comcast home page I was returned this message, "Your browser's cookie functionality is turned off. Please turn it on." Since opening an account with Comcast, a LONG time ago, I have been using the Safari browser on my various Apple computers. Never before 6 weeks ago had I received this message. I have always had the Safari Privacy Preferences set to exclude third party and advertiser cookies. When I checked to see who has stored cookies on my computer Comcast and Xfinity have cookies stored. So Comcast cookies are stored on my computer but I receive a message that tells me to turn on cookie functionality? I phoned Customer Service to ask about this. A polite man, probably in a call center in the Philippines, attempted to assist me. I explained to him exactly what was occurring using Safari, same as I wrote above. His bottom line was that I had to turn on my cookies in Safari. I said that was not going to happen and it was totally unacceptable to do that. I asked if he knew of some change at Comcast that necessitates cookie storage from anyone and everyone in order to login to an account . He said he would get back to me the next day. Well I haven't heard a thing. My wife's Mac computer exhibits the same behavior. Today I was at an Apple store and attempted to login to my Comcast account with Safari using a computer in the store. Same problem. When I changed the Preferences to allow everyone to store a cookie I could login to my Comcast account. This is totally unacceptable as it compromises my privacy as well as can allow all sorts of junk and spam from unwanted sources.

I tried to send an email to Comcast outlining the issue and asking what changes if any had been made to login requirements. Of course it is next to impossible to find a place to make a comment and if you find a place in which to enter a comment it goes off to someplace in customer service. I prefer to contact a specific and accountable person.

I located the names of Comcast Vice Presidents in charge of Customer Service, but of course there was no email address to reach them personally. (Convenient way to avoid hearing directly from customers.) Using LinkedIn Inmail I did however send an email detailing all of this to Tom Karinshak, Comcast Sr VP Customer Care - I am still waiting to hear back. I checked LinkedIn for my sent messages and it says, "In Progress." Whatever that means....

Ticket: # 347588 - AT&T internet and phone complaint**Date:** 6/17/2015 10:31:59 PM**City/State/Zip:** Fairborn, Ohio 45324**Company Complaining About:** AT&T

Description

I am providing my Moms telephone number, due to the fact that I have to change my cell phone number.

I had been a customer with AT&T for ten years until this past Monday June 15th. This all started last September 2014. My record at AT&T shows October, but that is because I was trying to cancel my service in-between the billing cycle. When I was transferred to retention I reached an agent who lied to me. This is not the first time I was lied to. The first time I was lied to was when I signed up for internet service, since I already had a phone and never had an issue prior to. They originally told me that once my year contract was up from 2010 to 2011, that I could sign up for another promotion type of service. When that time came, I was informed rudely that I am an existing customer and can not get any promotional pricing. I was upset to hear this, I called back and asked if there was anything that can be done. The agent awarded me a 6 month discount. I then called in from time to time asking for the 6 month discount to help me while going through college. Which takes me to this September. I graduated, and had decided that I wanted to end my service since I was would not need it for school. I felt that I was able to go without service until I found another provider and not suffer with my schooling.

Retention at that time told me that AT&T was fazing out DSL, and ultimately switching out all of their customers to U-verse. She then proceeded to tell me that since she can do things in her department that others cannot, she could give me a great deal if I stayed. I said okay, what would that be. She stated that she could give me my equipment for free, my installation for free, and give me the promotional pricing for 12 months with NO contract. I was extremely adamant about not being placed in a contract, since I have not been in one since 2011, I wanted to cancel my services, and did not want to be tied to their company in way shape or form. I was happy about the free equipment, free installation (due to the fact the first installer was rude, asked way too many personal questions, criticized me for the construction of my deck and fence, lied saying that I did not have Ethernet on my desktop when I did, wrote his own review, and made me uncomfortable), and the fact that she stated that she could do all of this without a contract. I said okay I will keep you for now, but I am not positive if I will in the future. When she was recording our conversation for this "deal", I made sure that I stated on recording that I was to receive all of this without a contract, and the agent said yes you are NOT in a contract. I said okay I wanted it recorded that I am not in a contract.

Everything was fine until May 19th 2015. I had noticed that my Dish satellite was changing channels, and I thought it was a fluke. Then it did it again on May 20th, and 2 more times on May 21st. On May 21st is when I finally called in to Dish complaining. They sent a technician, and sure enough my AT&T internet was hacked into wirelessly. This hacker is currently still on my dish anywhere app, and on the wireless receiver for my satellite. They also got into my cell phone, house phone, 2 emails, got my debt card information, address, both phone numbers, and has and had access to all of my equipment because I had everything set up wirelessly. After around talking to 50 people at Dish, I am provided a new receiver. To make sure my internet was secure I called out AT&T and begged the agent to send out someone to check to make sure my lines were not spliced or to check to make sure my lines are secure. This agent had me feeling that something was going to be done. She gave me the ID theft number for AT&T, the asset protection for AT&T, plus she sent out an agent to my house.

This was my, I do believe, my 4th call into AT&T about this matter. Why have they not done this for me sooner was beyond me! Before, they said I had firewalls, we changed to password (a little too late), and I was transferred to a department who told me I had to pay \$200 to have my service encrypted or a \$16 a month service that I have no clue what it does because he was not forthcoming. I said no, can not pay that at the moment.

I also went in and had my cell phone factory reset, wiped, and was still told since he attached wirelessly he could have coded in my phone like he did my Dish account, and computer, and I will never be able to plug it into my computer due to not knowing if it will put something on my other things that are not infected due to the wireless hack.

When the tech came out, all he did was run a testing on the outside to make sure my lines were working. Came inside and told me, you are working just fine. I told him my concerns about the splicing of my lines, or somehow my modem is corrupt due to the fact this happened all through my wireless internet. Dish has pointed the fingers at AT&T, AT&T has pointed to fingers at Dish. He then tells me its Dish, and since he did not do anything, and could not do anything that was it. I was like, can you please check the poll, he refused stating it read fine, so you are good. No I am not good. How can I be! He was like you must of opened up an email that did this. That made me mad, because I have not been on my email for now almost 4 weeks, and prior to that I had not been on it for 2 weeks, beside that I do not open up any email that I do not know who the sender is. I was hacked into! He leaves and I go to my cell phone provider to see what I can do with my phone.

As I leave my cell phone provider I was still upset about my tech coming and not doing anything, because not only is my internet now secure, I now also cannot do anything with ID and asset protection through AT&T because the tech has to verify my breach, which he did not and refused to. I then decided to call and cancel my services because this has been going on for almost a month, I am just over it. Nothing is being resolved, so if I don't have AT&T, I will not get hacked into again, and if Dish cannot get them off of my receiver and app, I will be canceling them too.

As I call in to cancel, I was informed that I cannot because I am in contract. I was livid! What do you mean that I am in contract, I am most certainly not in a contract. She told me, yes you are. I wasn't polite, but the overview of what I said was that I wanted to speak to a supervisor and that I was recorded with the terms on no contract. I never signed anything, nor have I received anything stating that I was in a contract. I was transferred to a "supervisor", but I was hung up on by "Mike the supervisor". This is not the first time that I have been hung up on. I have been hung up on another time after 3 hours of hold time because the guy did not know how to troubleshoot me.

I had to call AT&T back fuming. I asked to immediately be sent to retention. I want to cancel right now. I was sent to a lady who I told her I apologize, but I am so mad right now I am having trouble talking. I had to take several deep breaths, before I could tell her what happened. She insinuated that I was lying about the agreement that I was under, and that I was given my contract. I told her I never ever received one, I was not under a contract. She then tells me my bill is one. I told her I never had looked it over because the price was always correct, and I called my payment in. I told her that I had a verbal agreement, and it is recorded. I told her that I have been a customer with AT&T, I never had been in a contract, except for one time, when I originally signed up for the internet service and have not been in one since 2011. She said again she can cancel, but I have to pay my contract out. I told her I do not have a contract! She told me once again I was lying. I told her I would not be this mad if I knew I was in one, and would have carried it out, due to the fact that I have been with AT&T since 2005! Yes it was SBC at first, but it then was t

Date: 6/18/2015 2:02:03 PM

City/State/Zip: Gary, Texas 75643

Company Complaining About: Verizon Wireless

Description

On May 13 2015, I began noticing strange things happening in my computer. I could see a USB icon in lower right corner of my computer like it was being plugged in or being removed. I shut off my computer immediately. A short time later, I turned it back on and started looking for files and found that many of my files had been moved to a User Profile folder on this same date and a few days prior. I contacted Verizon, my ISP, and was told there was no way my internet connection had been hacked and I was assured my Verizon account was secure. Next thing I knew, I was unable to access my files because I didn't have the permissions to them. Again I called Verizon, and was given the same spill. I took my computer to a computer expert who found a VPN set up and removed it. The next day, my computer was hacked again and I could see the backup being used and when I to turn off the mifi, it wouldn't turn off. I finally got to a lady in the Verizon chat who gave me instructions on how to change the passwords for the mifi. Within a couple of days, the computer had been accessed again; this time with my password to the mifi changed and I was denied access to it. With all of this being said, this same occurrence happened on three different computers and three different hot spot devices all provided by Verizon. The last time, I purchased a brand new computer, got a new device (jetpack) from Verizon along with a new phone number. It took 11 days before my devices were hacked again. With the first time, all of my personal information, copies of driver's license, social security card, tax returns, online logons/passwords, banking information, etc. were uploaded or backed up from this public User Profile.

I contacted all credit reporting agencies, initiating credit freezes and fraud alerts. I closed all credit card accounts, accounts with financial institutions, email accounts. I was unsuccessful filing reports with Panola County Sheriff's Dept, Texas Dept of Safety for driver's license, the FBI in Tyler TX, and the Social Security Administration. The FTC sent me information on what to do when one's identity is compromised. I even had logs with MAC ID's in the logs as the attempts were being made and even when they became successful.

Now, what good this did me, appears to be none since I had to repeat most the second time my computer/internet connection was hacked. NOBODY would help me get this information to the correct entity to stop this crime.

Verizon has profited by increased data usage, activation charges w/ 2 year contract, and phone number changes. After numerous humiliating, degrading conversations with them, I have become a raving maniac because it is my fault. Verizon only provides access to the internet. The internet allows hackers to get into computers and infects them with virus'.

Currently, I am using a computer to file this complaint since there is no one that will talk to me by phone. Everything must be done online if it is going to be noticed. Please help me regain my life and sanity. I do not have access to a computer or email to deal with this ongoing situation.

Please, please, please, by the grace of God and His mercy, help me.

I am receiving calls from a company called Legal Mediation out of Colorado. Several calls, with the same person using different names. They claim to have my social security number and will take an unspecified legal action if I do not call back.

I have asked them to not contact me as I am not the person they claim. Today I again received a call, stating simply they are taking action against me. I called to ask again for them to stop. The person answering phone claimed they did not make any such call, yet had my phone number.

I want this to end.

Ticket: # 349628 - Comcast using my email address**Date:** 6/18/2015 3:42:32 PM**City/State/Zip:** Westchester, Illinois 60154**Company Complaining About:** Comcast

Description

I have been receiving emails from Comcast (who I do have an internet/phone/cable TV account with) regarding an account that is not mine. I have called Comcast several times and spent literally hours on the phone trying to reach/speaking with their customer service representatives, to absolutely no avail. They tell me they cannot remove my personal email address from this other person's account! I have given Comcast the address of the other account and the last 4 digits of their account number, which is all of the information I can see on the emails Comcast sends to me. Comcast says they cannot remove my email address from that account for "security reasons"!!! What about MY security is what I asked them. In this day of identity theft and data breaches I am extremely uncomfortable and anxious about my personal email address being attached/connected to some stranger's Comcast account. All I want is for Comcast to go into that customer's account and remove my email address from it. They refuse to do that, say they can't do it. I frankly don't believe that they "can't" do it, just that, for some reason, they won't. I don't know what else to do except to put in a formal complaint with you. Are they allowed to just use my personal email address in such a manner??? I'm afraid if that other customer doesn't pay their bills, or somehow get access into my email account, I may end up being responsible for their debts or they may be able to fraud me in some way. I really need some help. I have attached the email, I hope I did that correctly and that you can see it. Thank you for your time.

I was on the computer yesterday (Saturday 20,2015) and a warning came up on the screen of the computer telling me security warning, my computer files were being accessed and to call the number on screen immediately. I got into a panic thinking of our financial things and called, thinking it was legitimate. The call went to Live Technologies Inc. I thought they were probably a third party contractor for Apple. Right away they said that my firewall was turned off and asked if I did it, told them I don't even know how to get to that part and told them no I did not. I should have known better, but again thought it was legit. It was all people from India, so after awhile I started thinking about, but not after I gave them \$549.99. It was at the end (after 3 hours on the phone with them), that I realized it after hearing that every one's name ended with Martin. John Martin, Dean Martin. What person from India ends with Martin and especially all at the same place. Afterward I called the bank and stopped payment on the transaction and cancelled my debit card and email address. The only thing I am worried about is that they made up like an agreement thing and somehow wrote my name at the bottom. Called Geek Squad in my area about it and now have to go there and get rid of files that they put in there that causes viruses, and change my sign in name. Learned my lesson the hard way, but like I said I got into a panic and did not think first. Thought I'd let you know about Live Technologies Inc. If you need to know there email it's support@livetechologiesinc.net and phone numbers 1-866-973-7677 and 1-866-584-4407. I am just worried about that so called form with my name on the bottom if I am going to have any problems with them. Thank You

My issue is Comcast Xfinity is injecting code into my browser to force a redirect to their message and otherwise throttling data speeds to non HTTPS sites. While I disagree with data caps I have no problem paying overage fees. What is unacceptable to me is being forcibly redirected to another site by my ISP.

Below is the image from the page redirected to almost every time I visit a non HTTPS site when near or at my data cap.

Ticket: # 357369 - AOL refusing to investigate massive security breach and identity theft against customers

Date: 6/22/2015 11:58:37 PM

City/State/Zip: Northglenn, Colorado 80233

Company Complaining About: America On Line

Description

AOL is under a massive identity theft hacking attack and they are refusing to cooperate with their customers in a way that will prevent these attacks. They are routinely blaming customers computers while refusing to send them to their fraud department. I had spent 4 hours arguing with them, verifying that my computer had no virus, verifying my computer had no key logger, before I was in contact with their fraud department. Two members of their fraud department refused to assist me, claiming that it is not an identity theft issue, before I got in touch with one who said it was indeed fraud. They refused to give me information about the ip addresses that hacked into my account, I only received those addresses through a secondary source. I then discovered, after having the Aol computer security division in Rochester scan my computer that my computer had NOT been compromised, that AOL had been compromised itself.

AOL refusing to initiate an investigation is a violation of Federal Security and Identity Theft regulations. Their refusal to accept blame while blaming the customer can only be explained as an attempt to conceal and hide the fact they have a massive breach. They lied multiple times about whether or not they can detect ip addresses that log into the email, I discovered from the fraud division they can indeed detect it. They refuse to prevent IP addresses from F***ING CHINA from accessing my email unless I have an FBI official prove to them that I am (b) (6) and I do not live in China.

YOU NEED TO PURSUE THEM NOW! They are allowing people in CHINA to damage my identity and REFUSE to do anything about it!

There is much much more I can provide to you in detail over the phone. Here is the complaint I filed with my police department.

NORTHGLENN POLICE DEPARTMENT
IDENTITY THEFT REPORT

Victim's Name ___(b) (6) Case Number 15-4232

Victim's Telephone Number (b) (6)

The following is my attached statement. The dates are from Saturday, June 20, 2015 to Monday, June 22, 2015. These were telephone conversations with the Security from my Ebay account, and representatives in the fraud complaint division of AOL online email services. Attached are emails that support this communication:

Saturday, June 20, 2015 ζ Security from my Ebay account called to ask if I had authorized a transaction on my Ebay account, in which I had listed items for sale. Ebay security told me that someone had requested a password reset. They then used the information that was sent to my email address on file, in order to reset the password and access my ebay account. This means they had to have access to my email account.

Since this wasn't a recognized IP address for me, Ebay security had put a stop to it. I told them that, no, I had not authorized anything, nor had I used my account in awhile.

We know that was because the IP was from Hong Kong and had tried too access the account several times, but they were denied. They had requested a password reset from Ebay, to send a reset password to ζdalbozofgurthζ, my AOL email account. Ebay immediately blocked them because they knew that I had never been in China. They also informed me to send this information to AOL, my email provider.

Following on that same day, I contacted AOL to inform them of this security breach. AOL said nobody from outside the country had used my account. I thought that the issue was resolved. Then this morning I woke up to find messages from Facebook saying that my account had a password reset requested from somebody in Hong Kong. They immediately gave me everything I needed to confirm that my AOL had been hacked, contrary to what AOL was telling me. I called AOL multiple times over a period of 4 hours. To make a long story short, this is what happened:

AOL first blamed me, until I proved over a very long period of time that my computer had not been hacked, or had a virus , or key logger. Then AOL falsified information about whether or not they had a department that dealt with this issue. When I finally spoke with the Fraud Department, which actually handles this sort of thing, the Fraud Department refused to put a block or investigate any Chinese IP address that logged into my account. After my 4th call to the Fraud Department (because they kept transferring me to the wrong person), they admitted they could, indeed, start an investigation after I threatened them with a lawsuit. I provided them proof that the Chinese hacker wasn't using any sort of IP mask,

that the hacker was openly coming from China because both Ebay and Facebook could detect the original hacker's IP address.

They told me that in order to put an IP lockdown on the account, I had to prove that someone who was not me was hacking me from China. In order to prove that, I have to have a police department make a formal statement, to the AOL fraud line that I am being hacked, that this Chinese address is not my IP address, and that I am Kevin Conner. The legal team is instructed to block all IP addresses that are outside of the United States from accessing my email. They have to provide a list of all IP addresses that have logged into my account in the last several weeks.

My request is that you do what I mentioned above, and that this is now a legal investigation. That number to call is:

800-307-7969 FREE

This is the reason for this report and complaint. Attached please find correspondence from Facebook, as well as Ebay, and it will show both my email: (b) (6) as well as my mother's email: (b) (6), which was also hacked.

The email from Facebook that shows a Chinese IP is: (b) (6)

Please contact the AOL Fraud department for them to put a block on all IP addresses to my account which are coming in from China.

Date: 6/23/2015 8:27:08 AM

City/State/Zip: Haddonfield, New Jersey 08033

Company Complaining About: Comcast

Description

In the past several days I have been unable to access my email. I keep getting a message that my password is incorrect. I went to Comcast and updated my email. Fifteen minutes later same problem. I contacted Comcast Customer Service. They indicated my email may have been hacked, they were connecting me to Comcast Customer Security Assurance department. As my email had been hacked in 2013, someone was using my name and email to get a credit card, I was very concerned.

I was on hold for 25 minutes, then disconnected. I called again I was on hold for 45 minutes. I called back to Customer Service they said they would connect me to the department, another 15 minutes on hold and disconnected. I called Customer Service again, they said they would wait on hold and call me when they had someone from the Security department on the phone. I got a call back. I spoke with the rep and within in 3 minutes of my conversation, I realized the person had no idea about my issue or severity. I asked if he was from the Security department. He avoided the question. I asked again, he hung up on me. I would like to believe that Comcast has an obligation to it's customers to protect their information and when it has been comprised it's their priority to respond, investigate and protect our very private and sensitive information. After 3 hours, I had no resolution. I attempted to protect my information as best as I could by resetting security questions, and noticed an additional email account was added to my account. I never received a notice about this. What is Comcast's responsibility when a customer's information has been hacked?

Date: 6/23/2015 9:50:55 AM

City/State/Zip: Coral Springs, Florida 33067

Company Complaining About: Nintendo

Description

Hello, my name is (b) (6) and I have a story you might want to share.

Nintendo has a game Super Smash Bros for their Wii U console that just added a new Miiverse stage to the game. On the stage, SELECTED images that players and users can write or draw will appear in the background.

Well, MULTIPLE times there were inappropriate pictures that appeared. I emailed Nintendo after the first two and the specialist asked me to call him directly but when I called, the woman on the phone did not connect me and also refused to let me speak with a manager.

In fact, Nintendo did absolutely nothing in regards to speaking to me or even trying to handle the situation or propose any solution.

The woman simply said that I couldn't speak to a manager and they can't do anything unless my lawyer calls them.

And while on the phone, I turned the game on to see if images were still appearing and two penises were shown during my 5 minute hold and I told that to the woman and she still refused to do anything. This is a children's game and images of babies crawling out of vaginas are being displayed as well as racial insults and drawings of penises and rape references.

I am extremely appalled by the lack of filtration on this children's game but also by the lack of care from Nintendo who seem to pride themselves on "family-ness".

I'm in the process of talking to my lawyer and filing a complaint with the FCC but I think this should be made public that this company that makes millions off of children has absolutely no problem showing them pornography and out-right vulgar and vile images and phrases.

I have photos of TWELVE inappropriate posts that were REPEATEDLY displayed on this stage and would be more than happy to give them to you.

One even says, "Shriek works for Al Qaeda"

Another says, "Eat a dick old nigga"

Still, Nintendo did nothing.

Everyone needs to see the true face of this company. They are nothing but sick perverts who allow this explicit content to be shown to children and have blatant disregard for anyone and their feelings.

Please get back to me as I will be sharing this with all news stations in the hopes that someone will voice this story and concern.

Thank you for your time and enjoy your day.

I've received several Calls from FixByTech who claim to be from Addison, Texas. The ladies' voices who have called are all clearly from India. They claim to be supporting MY windows installation. I've never had anything to do with this company. Each time they call they claim to have "discovered" that I added five new computer installations to my network. Each time they call they say the discovery was the day before. This is attempted fraud. I'd like to know from the FCC if these people have been monitoring my network. At the very least this is a phishing attempt, probably to steel my data and get me to pay for services that are unnecessary and that I haven't asked for.

Company Complaining About: Verizon

Description

We pay for 50/50 up and download speeds with Verizon wireless in the DFW metroplex, we have had many issues with our internet speeds being slower than they say it is for years, we have their added router and when we ran tests it was with 1 computer hard wired in with Ethernet, and the speeds are still off. I was on the phone with them multiple times and they had me use their own personal Verizon "speed test" which is so very false and faked, is there anything I should do from here?

Ticket: # 360984 - Comcast Refuses To Change IP Address**Date:** 6/24/2015 9:11:19 AM**City/State/Zip:** Charleston, South Carolina 29412**Company Complaining About:** Comcast

Description

On 06-23-15 I called Comcast to request a new IP address, and after being routed to CSRs in 4 countries in 30 minutes, I hung up and called Comcast Corporate at (215) 665-1700 and spoke to 'Liz' who submitted a ticket to the Charleston, SC office. I requested a new IP address, because I am hammered with spam and telemarketing robocalls whenever I am online at home. I report every call to the National Do Not Call Registry whether it is on my cell phone or the landline I lease from Comcast. My IP address has been recorded and is shared on networks that perpetrate these activities, as was explained to me by a network engineer. I received a call from 'Miguel' at 256-922-6560 who told me that Comcast would only change my IP address to correct this issue if I upgraded to Business Class. I feel this is a direct violation of my civil rights because I am clearly being targeted and they have the power to change this but only if I pay their extortion fee. PLEASE HELP!

Description

I closed my hosting account with HostGator over a year ago. Recently (2 months) I have received numerous delivery failure messages from my closed HG account. As account is closed, it appears a spammer has hacked the account and is sending numerous spam mail under my business name.

I contacted HostGator twice. First they said acct was never closed & would close it. They also stated they would stop the forwarding of hostgator server mail to my business email (not with hostgator). Second call to HostGator 1.5 weeks later and rep. stated account was closed but nothing was done about forwarding of my HG email to my business account. He stated he would fix this.

Another week later and the emails have increased. No one is addressing the fact that someone has hacked my account (I no longer have access to my CPanel to at least stop the notification that "my" emails are not going through).

Is there something that can be done to make this hosting company clear out my email account so NO ONE has access to it, especially since it is sending Spam under my business name?

My complaint is with HostGator, located in Texas, not with Charter, however there was no option below for this.

Ticket: # 362671 - RE: Seeking guidance on implementation of Title II section 222 “privacy of customer information”

Date: 6/24/2015 4:23:15 PM

City/State/Zip: San Jose, California 95124

Company Complaining About: AT&T

Description

Federal Communications Commission

445 12th Street, S.W.

Washington, DC 20554

I would like guidance on how the FCC plans to implement Title II Section 222 “privacy of customer information.”

In the FCC’s Open Internet Order, the FCC asserted increased privacy authority in reclassifying Internet access to be a Title II telecommunications service and not forbearing from Section 222 “Privacy of Customer Information” i.e. CPNI. Currently, these assertions of the FCC’s legacy authority over customer proprietary information into the Internet space produces more questions than answers. Overall, the FCC must clarify for the public if customers’ Internet communications histories including browsing and location services are in fact the types of information subject to FCC regulation under section 222, and, if so, to which set of providers this regulation applies.

Consumers need to know the scope of the protections the FCC will provide for information related to their use of the Internet, and when and from whom consents will be required before this information can be collected or used.

Specifically under section 222, can a consumer expect the FCC to protect against unauthorized use of their detailed Internet communications history from all providers who have access to that information, and, if not, will the FCC explain to consumers why it allows the Internet entities that collect the most customer private information without customers’ express consent, to evade the FCC’s privacy protections. For example, customers increasingly rely on the use of proxy servers – such as Google SPDY proxy servers – to provide their connectivity to much of the Internet. Traffic to and from those proxy servers is often encrypted – thus preventing the ISP from seeing the traffic or doing anything with it other than passing it along to the operator of the proxy server – and the operator of the proxy server essentially acts as a non-facilities-based ISP that is the gateway to the Internet for the customer. Whether these types of providers will be subject to the same obligations as other facilities-based ISPs is likely to become an increasingly important question given the direction of technology change. For example, the shift to HTTP2 and other trusted-proxy arrangements like SPDY is accelerating, in part to drive performance improvements for customers. But with that shift, these providers, who are essentially “non-facilities-based ISPs,” will increasingly take over the role for consumers that traditional ISPs have long played.

Given the public’s general need for guidance on how the FCC will implement section 222, please answer these specific questions.

1. Are customers customers? If section 222 protects the privacy of a customer’s proprietary information related to their use of the Internet, does section 222 now require any entity that collects CPNI via Internet communications to get the collected-from-person’s express prior consent before collecting and using that information?

2. Is telecommunications telecommunications? If broadband Internet access service is now “telecommunications service,” which legally requires protection against CPNI use without user consent, why are the functionally-equivalent services that are routinely transmitted by edge providers’ via their various browser and location-tracking Internet “cookies,” not analogously, and equally, protected by section 222 under the law?
3. Is CPNI CPNI on the Internet? If the FCC Open Internet Order rules the Public Switched Telephone Network (PSTN) to include the Internet and a telephone number to be the equivalent of an IP address, why wouldn’t Section 222 analogously protect the confidentiality of Internet CPNI (IP addresses, web browsing/location history, etc.) when collected, accessed, or used by other Internet providers?
4. Are ISPs ISPs on the Internet? As noted above, a variety of new players are increasingly playing taking over many of the functions traditionally provided by facilities-based ISPs. For example, operators of secure proxy servers, such as SPDY proxy servers or servers used in connection with HTTP2, will increasingly take the place of facilities-based ISPs as consumers’ gateway to the Internet. They will have as much, and likely much more, access to consumers’ information. Will consumers enjoy these same level of protection when they rely on these non-facilities-based ISPs?
5. Is Internet privacy no less important? If the “Commission has emphasized that “[c]onsumers’ privacy needs are no less important when consumers communicate over and use broadband Internet access than when they rely on [telephone] services,” [para 463] why would the FCC conclude that consumers’ privacy needs are less important when consumers communicate over and use edge providers’ communications services than when they rely on broadband Internet access services?
6. Do edge communications platforms use CPNI? If the FCC believes that “broadband providers serve as a necessary conduit for information passing between an Internet user and Internet sites or other Internet users, and are in a position to obtain vast amounts of personal and proprietary information about their customers [para 463],” why would the FCC not believe that major platform providers like Facebook, Google, Apple, and Microsoft, which have more American users and market power than any broadband Internet access provider, which have the ability to see how a consumer is accessing using the Internet regardless of the particular broadband connection the consumer is using at a point in time, and which also “serve as a necessary conduit for information passing between an Internet user” and other Internet users via their messaging, chat, calling, email, video conferencing services, browsers, and location services, are somehow not “in a position to obtain vast amounts of personal and proprietary information about their customers” that implicate section 222 duties?
7. An affirmative duty to protect CPNI? Given that the FCC implicitly has forborne from applying section 222 from edge providers and their routine practice of using CPNI-collecting-cookies-without-user-consent, is there now an FCC required affirmative common carrier duty not to enable unauthorized use of CPNI by an Internet edge provider – especially given that the FCC Open Internet Order explicitly states in para 462 that: “Section 222 imposes a duty on every telecommunications carrier to protect the confidentiality of its customers’ private information” and “we take this mandate seriously”?
8. Access and Use of CPNI by Operating Systems? Since Android and iOS devices broadly and routinely enable the unauthorized use of CPNI and location information, are broadband Internet

access providers prohibited under section 222 from allowing devices using these operating systems from operating on their networks without significant changes in the process by which Android app developers and others can get access to CPNI, especially location information, “without the express prior authorization of the customer?”

On Saturday June 20 2015, while online, 1-844-767-2733 popped up on my computer that was impossible to take off, freezing/locking it. The popup demands you call the # claiming you have a virus, spyware, etc. When you call, a gentleman asks you to go to a website, enter a pin in hopes to take control of your computer (he clearly says he needs access). Then he says it will cost from \$150-700 for him to "fix it". The call clearly goes to India with Indians claiming to be APPLE employees trying to get your credit card info. Now that I am researching the number, this is spreading like wildfire. Some of the people's comments I have read, (mostly elderly) people gave them control of their computer and credit card info. Please help.

There was no way of Facebook of knowing to prompt these names unless they tapped into my PC.

The names are not on my cell phone or iPad, only my PC. Most of the names came from my Excel files that had my yearly Christmas lists. But also there was a reunion file where they harvested names and there were names taken from jpegs.

I really like Facebook but I think this is an egregious intrusion of my privacy. Ask around the office and see if this happened to anyone else.

Most times there isn't even any text in body of email no button to unsubscribe. If you use reply button - address is reject and email not sent. However when there is a button to unsubscribe it does not link to anything - it is just printed. Finally locating a CONTACT US button - I have requested to be removed from their mailing list about 2 weeks ago - to no avail. Today for the second time I have requested to be removed via the CONTACT BUTTON. I do not know, why they are allowed to not follow the same protocol as every other website. Please help. If you are not the correct entity to which I should be contacting, please provide information as to where I can go to resolve this. Thank you.

Company Complaining About: Time Warner

Description

my company requires usage of a VPN, Time Warner Cable will not unblock port 80. They're stopping me from being able to work and they've wasted several hours of my time swapping out modems, having techs come out here not knowing what they're doing, along with blaming my work for issues they should be able to fix. I've missed over 100 hours of work that i am not getting paid for, would not recommend this company to anyone as they're all around, doing illegal things preventing me from being able to work, yet still expecting to get paid.

City/State/Zip: Livonia, New York 14487

Company Complaining About: Time Warner

Description

I have a broadband internet account with Time Warner Cable. I do not purchase any other services from them. They have sent me monthly marketing emails from timewarnercable@email.timewarnercable.com over the past year since I opened my account with them. When I received the first email, I clicked the "unsubscribe safely" button at the bottom of the email and changed my email preferences to "Remove me from all Time Warner Cable emails". Every month, I get another email from them. When I go to my email preferences on their website, it shows that I am unsubscribed from all emails as shown in the attached file. I have no idea why they keep sending them to me when I repeatedly ask them to stop.

Description

The website cheaters liarscheatersRUs.com has apparently been giving out IP addresses to people who do not belong to the IP addy. They are just people who were posted about on the site who contacted the admin and asked for the address so they could find out who the post was started by. I thought this was illegal. The site also does not honor it's own policy to take down posts within 24 hours of posting. they do not follow por honor their own stated policy. Shut them down.

Facebook appears to have a flaw in their system whereas they are not allowing the new owner of a phone number to cancel receiving texts which are intended for the account holder whom previously owned a phone number.

Facebook keeps sending me texts even though I've made them aware that they have a flaw in their system which has in my case resulted in getting these texts.

In my opinion this is a willful violation of the CAN-SPAM act.

There is no way for me to remove myself from their system without illegally accessing someone else's account. I could do that since this flaw opens up that issue as well. I'm choosing not to because that would be a violation of law.

Thanks

Company Complaining About: Centurylink

Description

I was informend by CenturyLink yesterday that allowed my daughter to fraudantilly use my personal information to establish an account with them. Which she then proceeded to not pay. CenturyLink did not verify any personal information, and told me that I am still responsible for the bill and "suggested" I take my child to court as this was a civil matter and that have never had this issue before. So how can such a large established company go install service and not verify any information whatsoever? Any Tom Dick or Harry can call in and say they want CenturyLink services and then charge the services to any Tom, Dick or Harry Jones.

I am outraged that they are allowed to do business this way. And with their poor business practices I am now in debt for \$496.01 and this is ruining my credit for a bill I never had.

Sincerely

Company Complaining About: Comcast

Description

We received communication from you via email that our complaint had been resolved by Comcast and that we would be receiving information in the mail regarding the resolution of this complain. To date we have not had any communication with or from Comcast. Have left 3 messages with John at customer security 888-565-4329 Direct Line 11388, but no call backs. Comcast sent a new modem to our home for us to install ourselves?? We did not request this modem/pay for service calls/have not installed it/are being charged an extra \$10.00 per month on our bill and being told to return other modem to the nearest Comcast dealer??? Where is that??? No postage provided and no one booked to install new modem.....why a new modem....no explanations....call and call and get the Philipines where no one knows anything/put you on hold/transfer/hang up etc....nothing has changed/no improvement in service. To date Comcast email password was changed (not by us); Comcast is broadcasting additional WiFi signal from our home and for a while we had no way to turn it off, our name and address published as a WiFi hot spot, our home page was constantly being changed, our credit and personal information compromised multiple times. Each time Comcast downloads an update to the modems we lose both phone and internet service, sometimes for several hours. This is worse than an annoyance since our home security; smoke and carbon monoxide detectors; life alert are all tied via the phone system to a security company that monitors alarms and dispatches emergency personnel to our home if required. WE are furthermore very concerned that there may be a correlation between the number of times we have had to provide our personal information to a third party overseas (Philippines) and subsequently had our credit cards compromised now 8 times. We do not use WiFi in our home, only a hardwired connection, have shut off Comcast's WiFi hotspot (we hope), and do not use the internet for banking; bill paying or purchasing. We value our privacy and believe that Comcasts current cavalier and reckless business practices have placed us in harm's way. We would appreciate Comcast sending a mailing label to return the modem we did not request or alternatively schedule someone to install it and remove the other modem. We would also appreciate the \$10.00 per month charge for this extra piece of equipment removed from our monthly bill. We are elderly pensioners and are not going to install it ourselves and have no idea where to return it.

City/State/Zip: Chico, California 95928

Company Complaining About: Unknown, But Received On Verizon Network

Description

Received SMS text from alerts@sms.bankofamericavc94bp.com. Text mimicked official Bank of America text. Stated "ID: 825430 \$142.99 was debited from your card. Wasn't you? - Please call +1 (213) 550-3843" When called, automated recording says "Bank of America Security Department" and states that "your debit card has been canceled due to fraudulent activity." Then it says that "information is needed to confirm your identity" and begins by asking for your 16-digit account number. Pressing 0 does not reach a person, it just starts the automated system over again. I hung up at that point and called Bank of America's customer service number. Bank of America confirmed that there was no such account activity or issue and that the phone number and sms ID do not belong to them. The took a report to forward to their fraud department.

City/State/Zip: Jamaica, New York 11434

Company Complaining About: Time Warner

Description

To Whom it may Concern,

My name is (b) (6). I live in Queens NY. I recently received a call from an individual claiming to refund some money I paid them. I don't have their name or the company but the website associated with them is Teamveiwer.com. My computer was slow and they said they could fix it, so I let them into my computer and they removed some programs and the computer worked well until they called me a couple of days ago and they told me that they will refund my money because the computer is going out of business because the FCC and the Better Business Bureau is after them because of the complaints. After I gave the guy my account number and some other information he had me waiting for about 3 hours and he is saying there was a problem with my debit card. After I got suspicious and I told him to just keep the money, he locked my computer. I'm not sure how it started up today, and I'm not sure if he can still get into it, but I'd like them to be investigated. I know I didn't give much information about them....that is because I really don't know who they are except that they have a very strong Indian accent, and he mentioned California and Ohio. Please see what you can do about this matter.

Thank you, (b) (6).

City/State/Zip: Winnetka, California 91306

Company Complaining About: Time Warner

Description

I filed a series of complaints over the last few months to a year. The majority of the complaints are against a business that likes to identify itself as "Home Improvement". If you have access to my closed complaint, you should be able to see these complaints. Today I heard from someone who acknowledged that he had a record that we have spoken in the past. When I asked him for his name, the names of his business and phone number he asked me if I was the police and hung up. That says volumes in my opinion. The number rings busy, and like the other numbers is probably spammed. 818 208 5776 is the number. My name is (b) (6) and my number is (b) (6) - (b) (6). Any suggestions will be appreciated. I am certain that this situation involves serious criminal activity. No category applies below but I will choose one so that this communication can be sent. May I add that there is no valid reason that your computer program needs to be so selective as to reject my submission over the silliest detail! God help a really older person trying to navigate this website!

Date: 6/30/2015 10:37:27 AM

City/State/Zip: Tampa, Florida 33635

Company Complaining About: Coastal Computer Solutions

Description

Hello,

I have been receiving Emails from 4 different people claiming that they are receiving unwanted Emails from ME and that they are sexual in nature, etc. This is a business Email account, and I was concerned about my reputation, so I have sent two of these people an Email back to ask them to copy their Email header information (I provide instructions in the Email) and to send it to me so I can have someone look at it, but they don't respond back. I receive 3 of these emails, then the owner of a company I used to use for IT support, (b) (6), sends me an Email telling me he is receiving them, too, and asking if I want him to look into it. I have outside knowledge that this IT person is doing this to other people within his client base and the purpose is to drum up bogus business that he can bill to these targeted clients (including me). I am not responding to him anymore. I am instead sending all of these Emails to a folder in my Email account as support for this claim. I believe this is not only Email fraud, but also some other type of fraud (charging clients for issues that he knows don't exist). I want him busted. And this could be an easy case for you (a "slam dunk"). We, as honest, hard-working people, should not have to be victims of this obviously lazy and unethical person, and I'm sure he is bilking some clients out of a lot of money to fix these fake problems. Please contact me so that I can provide more detail. But - this guy needs to go to jail and these people need to get their money back. FYI - I am on round 3 of receiving these Emails, so I have received about 12-15 in the past week so far. It is constantly interrupting my business. I've attached 2 Emails samples, but I have more.

Thank you for any help you can provide,

City/State/Zip: Commerce Twp, Michigan 48382

Company Complaining About: Comcast

Description

As an existing customer of over 20 years, I wanted additional service at a second home I purchased. I called Comcast and they sent me all of the necessary hardware with instructions to call them when I wanted to activate it. I have called multiple times and have spoken to multiple people and have been transferred to multiple departments and still can't get service activated. Now a third party collection agency wants a copy of my driver's license and social security card to remove the hold on my account even though I have perfect credit and have never missed a payment with them. I do not feel comfortable providing a company that kind of information in this era of identity theft. People that have said they will correct the issue never call back when they say they will. I believe a number was transposed when I initially called them a month ago causing this identity issue but since I can't get a call back, I am ready to send them their equipment back.

Company Complaining About: AT&T

Description

There were singles sights popping up and I do not go on them as well as I have did a five year opt out of anything like that due to criminal fraudulent online activity using my email internet address. I had a virus of some sort sent into my phone account. Even as I do barely nothing with my phone line due to criminal stalking and having had my phones stolen before. I have no idea what may have been being done during the times my phone would quit working for hours. I have no idea what calls may have been made nor do I have any idea what or if any type of criminal stuff may have been happening with the phone accounts. I know it was as if they were sending the phone number to another phone completely as if I had no phone service at all. I know I have never owned a Galaxy s3 and that was what showed up when I contacted the insurance provider. So the insurance provider told me as a safety precaution I should redo all accounts. I am so sick of this. I have had so many email accounts and facebook accounts that I have to quit using and even when they get deactivated sometimes they pop back open. I will be trying to deactivate and I will be protecting my accounts with lifelock so when they get hacked they will be caught. I will be contacting lifelock right after this complaint. I also would like a complete internet sweep done, anything in my name other than the new email address I want shut down. I will be contacting lifelock to let them know what has happened as well.

People have been calling me non-stop with solicitations to enroll in insurance & asking for personal information. Also, I've received calls with individuals pretending to be credit card/banks asking for personal information. I think this website is a fraudulent site that is using Obamacare in order to get participants and gain their personal data. I have asked them to unsubscribe me and am still to date receiving solicitations for personal information from different numbers. Please let consumers know or prevent anyone else from getting harassed. Thanks in advance!

Ticket: # 380432 - FCC credit check Mandate, Question

Date: 7/2/2015 4:21:43 PM

City/State/Zip: No, Maryland 21009

Company Complaining About: Comcast

Description

Hello,

I was recently trying to attain internet service from Comcast. As a new customer they said they needed to do a credit check on me. When I asked why, they said, "As mandated my FCC, we are required to run credit check to avoid fraudulent accounts and to secure your personal information".

Is this true? What mandate are they speaking of?

Thank you!

Here is the whole conversation. I just put it here as a reference in case you wanted it.

analyst Jessa has entered room

Jessa: Hello (b) (6), Thank you for contacting Comcast Live Chat Support. My name is Jessa. Please give me one moment to review your information.

Jessa: Sorry for the wait! I'm all yours now, how's your day going?

(b) : Hello

(b) Good so far. You?

Jessa: That's nice to hear! I'm having a lovely day so far, thank you for asking.

Jessa: Just to confirm, you are signing as a new customer again, ma I right

(b) : Yeah, I have been a customer in the past, but would like to become one again.

Jessa: Just to set your expectations, you are tagged as a new customer, so we need to go through the process of being a new customer, we will be running your credit check again, would that be fine with you

(b) : No

Jessa: Another option would be paying a deposit, Ian.

(b) : A deposit for what reason?

(b) : Or a credit check for what reason?

(b) : Have I lost you Jessa?

Jessa: Running credit check is needed because we will depend there if we need to ask for a deposit from you.

Jessa: If you refuse to run credit check the last option will be paying the deposit, the deposit will be credited after 12 mos of good credit standing.

(b) : "Running credit check is needed because we will depend there if we need to ask for a deposit from you."

(b) : Could you clarify please?

(b) : I'm not using your equipment. Is that the problem?

Jessa: No, it's not.

Jessa: When we run a credit check and the Equifax forwards us the result and you passed, there will be no deposit required.

(b) I need you to explain why you need to know my financial information to be a customer, please. I like to avoid unneeded credit checks.

(b): The why is important.

Waiting for response from Jessa

Jessa: As mandated by FCC, we are required to run credit check to avoid fraudulent accounts and to secure your personal information

Waiting for response from Jessa

(b): I am having trouble finding that mandate. Could you point me to it please?

(b) Got to go Jessa. It has been enlightening chatting with you. Thank you. Take care

I used a search engine to find info on how long I could keep tuna salad. I believe I clicked on an "answer.com" site. Then my computer froze and a message came up from "Microsoft" indicating that they froze my computer to keep it from further harm and to call 855-240-4311 for immediate assistance. I called and unfortunately allowed them remote access to my computer. Soon thereafter I realized I was a victim of a ransomware scam where the fake company rep told me they were internet security specialists licensed as Microsoft service providers. Here's their website: http://supportmega.com/support_for_microsoft.php They tried to get me to purchase internet security services, I told them I was going to take the computer to Geek Squad, they then showed me a false "Wikipedia" page blasting Geek Squad as "peeping Toms" etc. Geek Squad confirmed that I was a victim of Ransom Ware. I taped the interaction about 5 minutes into it.

My husband has been receiving text messages on his phone from someone making a new friend request on MocoSpace, a service that he has not signed up for and we have not heard of. Because the numbers keep changing, they began at 1(410) 100-001 and now we are at message number 1 (410) 100-133 despite texting stop as instructed by our mobile phone carrier and by taking the steps suggested by technical support. Our last resort will be to change our number but we do not want to do that since this is the number used for all of our medical needs. We do not want to open ourselves up to dangerous mobile or online activity but we need the messages to stop as they occur at all times of the day and night and we are worried that they may already have some of our personal information.

Company Complaining About: AT&T

Description

Hello,

I have been receiving for the past 2 weeks unwanted text messages from various numbers advertising Hebrew home for the aged.

"FRM: faxandpage@extendedcare.com

MSG: Allscripts Alert: NEW Referral for Hebrew Home for the Aged: 30223227 from Jackson Health System - Respond by July 6 2015 10:12AM ET"

This same message has been coming in by various numbers. I have tried blocking number by number, but the next message comes from phone numbers in sequence i.e. 1 (410) 100-108,next message comes from 1 (410) 100-109. I have tried contacting the mobile carrier, but they mentioned there's nothing they can do.

Please Help!

Thank you.

Loosing my emails for the second time, and going out of their way to be "jerky" about giving me any information.

July 1st 2:00 pacific time called, wait 80 minutes and got India.technician had me on the line 4 50 minutes, showing me how to move my ems from my files to the trash can, since emails could not be copy and paste.

requested if he could copy and paste at thunderbird, or live.com, he said he did not know.

Although,most of my 4,000 em are my property, and 2,000 camefrom AOL{does can be recuperated}however, my files such as CATS,PETSMART, JIM'S PICS, MICROCHIPS do not have a copy? Called at 8:00 p.m.(PC) 1:00 a.m.Rabi ,said he was a supervisor, wasted 2 hours again, and open an outlook account.

Do not understand, why Verizon insist in giving service with a country that lack the knowledge of programs in USA

Received a text "Team is thinking abt. it???"

Called saturday, and someone in Baltimore was rude and told me those emails are lost.

Called Public Utility Friday, and they said it was the FCC responsibility to assist me in getting my emails. please ad in internet issue:complain??? pl

Ticket: # 386352 - failure of BestBuy to allow me to opt-out of their solicitation emails

Date: 7/7/2015 8:13:11 AM

City/State/Zip: Philadelphia, Pennsylvania 19144

Company Complaining About: Comcast

Description

I have tried to unsubscribe from bestbuy.com promotional emails three times and despite waiting 10 days each time after filing the complaint, as BestBuy indicates it takes up to 10 business days to stop the emails, I am still getting the emails. They are not responsive and I want to know if they have my email on more than one database for promotions, or they are not respecting my privacy. In any case, I hope that FCC takes my complaint in consideration while enforcing that the unsubscribe commands that the websites have need to be true links, and not boguses.

Date: 7/8/2015 12:46:41 PM

City/State/Zip: Chaplin, Connecticut 06235

Company Complaining About: Charter

Description

CHARTER COMMUNICATIONS SENDS HARASSING POP UPS TO USERS TO SIGN THEIR PRIVACY POLICY ELECTRONICALLY. WHEN I READ POLICY-PLEASE NOTE-THE INFORMATION THAT MY SIGNATURE ALLOWS IS SENT OVER AN INSECURE NETWORK AND CAN BE READ/USED BY A THIRD PARTY.

WOULD YOU SIGN SUCH A POLICY ? I ASKED FOR A HARD COPY AND THEY SAID THEY COULD AND WOULD NOT DO THIS. I NEEDED TO GO TO CHARTER OFFICE AND GET COPY. IN ADDITION--I HAVE CONTINUAL PROBLEMS WITH E MAIL ACCESS--MOST RECENTLY- NEEDED TECH TO COME TO LOOK AT PROBLEM--CHARTER ADMITTED IT WAS THEIR "ISSUE" AND SENT TECH.

I ASKED FOR REFUND AS I COULD NOT ACCESS ALL E MAILS NOR ACCESS DRAFT LETTERS--CHARTER SAID THEY COULD NOT GIVE ME A CREDIT AS I ALREADY HAD GOTTEN A CREDIT FOR A PREVIOUS E MAIL PROBLEM.

I WOULD THINK THAT A COMPANY THAT CAN PURCHASE TIME WARNER CAN GIVE ITS CUSTOMERS A CREDIT --MORE THAN ONCE-- IF THE PROBLEM IS THEIR ISSUE AND NOT CAUSED BY USER.

WITH REGARD TO TV--WHEN CHARTER WENT TO ALL DIGITAL LAST YEAR --THEY SAID I WOULD BE GETTING MORE CHANNELS--YES I GOT MORE CHANNELS--BUT THEY WERE DUPLICATE PROGRAMS. IN OTHER WORDS--

I GOT SEVERAL CHANNELS WITH DIFFERENT NUMBERS BUT THE SAME PROGRAM AIRING AN THE SAME TIME...AND I NEED TO PAY FOR DUPLICATE CHANNELS? I NEVER ASKED FOR THIS. CHECK THEIR CHANNEL GUIDE AND YOU WILL NOTICE FOR EXAMPLE THE AHC CHANNEL LISTED SEVERAL TIMES WITHIN THE SAME TIER/BLOCK OF CHANNELS .

City/State/Zip: Altoona, Iowa 50009

Company Complaining About: Centurylink

Description

My MSN homepage, email and sites I go to are infested with so called interest based ads. I downloaded the protect my choices beta browser extension and have saved over 3000 opt-outs and it hasn't made dent in the ads I am receiving. Most of this companies play games and make it very difficult to find and use the opt out of their ads. Microsoft is currently telling that the site I need to go to, to opt of this ads is unavailable. This ridiculous! Sorry this is a email complaint, could you please forward to the right department. I don't want to have to do it again. Thanks.

Company Complaining About: Erkki.sotamaa@nbl.fi.

Description

I received the following email from Rob, erkki.sotamaa@nbl.fi.
Hello beautiful,

I work for the United State military and live in New York. I have traveled to different countries of the world during my Military assignment. I am single and very hardworking caring man. I very much admire your beauty, i love reading love books, i like swimming, i like surfing on the beach, I hunting, i like walking along the beach. I know it will sound strange to you but i will really like to know more about you and will be happy if you email me and tell me more about yourself, like your age, relationship status and if you're interested in starting a very serious love relationship with me. I await your message with a lot of love, have a beautiful day.

From an admirer,

Rob.

When I tried to copy the email address to send to you it opened a reply to be sent to 2476879692@qq.com . This is apparently phishing or spam. Thought you may want to followup on this. I did not reply to the email. Sent it to spam folder.

Company Complaining About: Ron Rugen Private Investigator

Description

"Ron Rugen kansascitypi" (not friends with me) posted a nude picture of my friend as a comment from one she was tagged in. He also posted a link to the picture on his page stating it was for a fake event in Ireland. I blocked this person, deleted the picture, reported him and the posts to Facebook. However, he is using this picture without permission, and with an inappropriate intention.

He is a Private Investigator in Kansas City. How can a person like this post things like that?

Company Complaining About: Verizon Wireless

Description

I received a SPAM text message from the number (734) 535-7316. The identity of the sender is not disclosed and there is no opt-out method readily available or apparent from the text message. I never requested or consented to receive text messages to my mobile phone for marketing purposes from unknown third parties. This is not the first time I have received an unsolicited text message from this number.

PLEASE NOTE: This is not a complaint about my cell phone service provider. I am entering information about my provider because it is required in order to submit this form, which is the only complaint form I can find linked in the text SPAM section of the FCC's website.

Ticket: # 392607 - Unwanted Text Messages from AT&T

Date: 7/9/2015 1:31:25 PM

City/State/Zip: Thornton, Pennsylvania 19373

Company Complaining About: AT&T

Description

I receive a text message from AT&T every month reminding me about my bill. The message says I can stop those kinds of automatic reminders by responding "STOP", but they keep coming. I called and spoke with a Customer Service Representative and told them I have my billing automated and I do not want to receive monthly text messages, but they have refused to stop the messages. They said that customers are not permitted to opt out of automatic payment reminders. So, despite my specific refusal of these automated messages, AT&T refuses to cease.

Description

Consumer is having issues with AT&T (internet). He contacted AT&T on 07/07/2015 to have his internet service reinstated. He was not told at the time that they would be doing another credit check. He spoke to Brian BL986D today who was very rude and had poor customer service skills. Brian refused to reinstate the service without doing a credit check. He called back and spoke to Athena who informed him that Suzanne ran a credit check on 07/08/2015 around 8:40am without his authorization. He spoke to many AT&T representatives and the only nice and helpful ones were July and Athena. He feels what AT&T is doing is criminal, fraudulent and corrupt. As a resolution, he would like AT&T to reinstate his internet with the price he previously had without running anymore credit reports. If they cannot do this he wants the service cancelled without an ETF. Consumer would also like AT&T to remove the credit check that he did not authorize. ***CTR359-phone***

Company Complaining About: Verizon

Description

I called Verizon fios in April to install security suite. I was having issues with security suite because I received a message stating I needed a user name and password. I called verizon fios and they advised I didn't need a user name and password and connected me with McAfee.. I spoke with McAfee who advised me to talk to Verizon. Once I determined mcafee was downloaded I decided to stop trying to login. Then I wanted to down grade my services because my bill was to high so I started to call Verizon again and they told me my security suite terms and conditions needed to be accepted which I completed prior to the call in April which now its May and I'm trying to change my services. So it affordable for me. So I called almost daily because every representative told me they will open a ticket to get order issued resolved and they will call me back. No one called me back I had to keep calling. On the tenth try I was able to speak with someone who said, yes the order is still pending but I can change your services. I was confused but because no one else was able to help me. I keep calling to this day. After my account was changed I called back again because I started receiving calls at work about my personal text messages. So I began to call Verizon again.. I spoke with a supervisor and found out someone downloaded the security suite and connected my cell phone which I never did. I called verzion again to remove services and verzion again said services are not on my account. Its been 3 months and my bill shows charges still for security suite. I finally access security suite and my calls, text messages, picture capture and personal applications were being accessed and Verizon state they have no clue who downloaded to my computer. Today I just ended a call with another rep who stated she removed the services but before transferring me to a supervisor there services were supposedly already removed. My personal privacy has be violated and I need a resolution.

City/State/Zip: Olathe, Kansas 66061-7802

Company Complaining About: Verizon Wireless

Description

all of a sudden my computer is slow to start and i'm rapidly using up my GBs. when i had att hot spot, it showed 2 computers using the device. i have one. i called att and was told someone in the area hacked in. i'm now using verizon ubs. the problem has started again, the data being eaten up fast. i didn't have this problem last month. i know its possible to steal cable. i guess it would be just as easy to steal wifi. and lately, every time i log on, a lone,crazy red cardinal acts like it is flying into a window in my house. then it does the exact same thing next door at my neighbors house. i think it might be a drone.i don't like the idea of paying for someone else's phone service.

Description

Here is the message that I get on my cellular telephone:

"(LC Furniture Limited located in China is looking for a Payment Officer/Rep in USA and Canada, 10% for you on every transaction. Kindly send your email I.D for more"

Of course, I did not ask this company to send me this information and my number is on the do not call list and has been for many, many, years. It would be really nice and pleasant if the government or whoever the regulatory body is would really CRACK DOWN on this sort of thing because: 1) this is how elderly and vulnerable people get swindled every day in this country and 2) I would really like a break from the unending onslaught of commercial marketing, legal or otherwise, that I receive on a daily basis. It detracts from the life, liberty, and happiness that I am guaranteed and it also impairs interstate commerce because it makes me less willing to engage in long-distance commerce.

Someday the government will CRACK DOWN on this sort of stuff, but until then, I suffer.

Ticket: # 395907 - Suspicion of unlawful monitoring, bogus copyright complaints from Comcast

Date: 7/10/2015 3:47:29 PM

City/State/Zip: Portland, Oregon 97266

Company Complaining About: Comcast

Description

I received an email today from Comcast accusing myself or somebody on my network of unlawfully downloading, copying or furnishing for download copyright material. The material in question appeared to be the first episode of the TV series Gotham, which at this time is available to stream from both the owner's website and Netflix, which our household subscribes to. For these reasons I found the alleged complaint to be highly suspect.

When I contacted Comcast regarding this matter, they informed me that a complaint had been made against us from a third party and that Comcast was not aware of any details but what had been provided. I asked multiple agents at that time how it would be possible for a third party to know about any download traffic on my connection (as described in Comcast's email to me) unless this third party had for some reason set up a "honeytrap" server to illegally distribute their own content (which, as above, they also legally distribute for free over their own site) and was repeatedly assured that this must be the case and that Comcast has not engaged in any proactive monitoring of users' download traffic. For the above reasons I find this explanation to be highly suspect.

I then attempted to inquire as to how any party, Comcast or otherwise, should know what was being "copied" on my own system, per the wording of their email. When I posited that this should only be possible if the system was being monitored by illegal malware and suggested that I should involve my friend who is a computer forensicist, multiple agents became extremely agitated and quickly transferred me. I obviously find this behavior to be extremely suspect as well.

At the final point of contact I spoke to in Comcast's "security assurance" department, an agent told me that I should find the offending file and delete it, then delete all peer to peer and torrent clients on any computer connected to my network. I spent nearly an hour asking the agent if it was Comcast's policy to take action against users of Torrent clients regardless of what they were used for, as Comcast has previously been documented taking extralegal action against such users as well as users of programs such as Tor or other proxy services. The agent repeatedly refused for the course of an hour to answer this question clearly even when expressly instructed to answer in the form of "yes" or "no." In light of Comcast's history of harassment against users of legitimate software which they simply deem "suspicious" I likewise find this behavior to be highly suspect.

I am allegedly being threatened with termination of service in the event of future complaints. According to Comcast's email to me, the complaint in question allegedly originated from antipiracy2@dtechnet.com and concerned season 1, episode 1 of the TV series Gotham, transmitted via Bittorrent.

Ticket: # 396263 - Harassment/Slander/Stalking By Employee of Internet Provider**Date:** 7/10/2015 5:14:58 PM**City/State/Zip:** Clinton, South Carolina 29325**Company Complaining About:** Charter

Description

The manager of a Charter Communications Office (my internet provider) located in Laurens, South Carolina monitors where I go on the internet, then contacts companies I do business with online, and apply to for jobs, in order to tell them blatant lies about me. She calls me to let me know she has detailed information about the companies I communicate with online. A friend of hers who operates a hardware store in Clinton, South Carolina, also calls to reveal he knows private information regarding my employment . The Charter Manager convinced my previous employers to give her information regarding my employment, such as my schedule, my absences, and information from doctor's notes I've submitted to my employer. I usually attain employment with work from home companies. I've never had problems getting, or keeping jobs before the Charter Manager and her associates began this constant harassment, slander, stalking, and invasion of privacy. While employed from home for Think Direct Marketing Group, the training manager accessed private emails, regarding this ongoing harassment, I sent to the NAACP and The Department of Justice, and gave copies to the Charter Manager, who circulated additional copies throughout the community where I live. I've emailed the Department of Labor about this, but received very little assistance. Charter Communications Human Resources has also been informed, but only continues to cover for my harasser. I'm being harassed and slandered by managers/employee at stores throughout the area, and my picture is being sent to employers throughout the country as well as in my community. The pictures include lies, and statements from the Charter Manager and her associates - people who don't even know me. I know how complicated and crazy this complaint must sound. Please consider how this horror negatively affects my life and health. I've changed my phone numbers several times, but the harassers continue to get my new numbers. I don't tell anyone where I'm applying to, or doing business with online, but my harassers always know, thanks to accessing my internet info. The address of the Charter Communications office the primary harasser manages is 354 Templeton Road, Laurens, South Carolina 29360. She has also posted pictures of myself and family members on facebook, along with absolutely vile lies. There has got to be some way to get this stopped. Can you help me? I will continue to document my experiences with the Department of Justice. I am a member of the NAACP, and will also continue to communicate with the organizations representatives.

Date: 7/10/2015 7:02:21 PM

City/State/Zip: New Castle, Pennsylvania 16105

Company Complaining About: Verizon

Description

I repeatedly get phone calls from people who say they are from 'Windows Internet Security' and they are calling to tell me my computer is infected and will soon crash. They want me to go onto my computer and give them access so they can 'fix it'. I know this is a scam. I have done everything from just hang up to scream at them to no avail. I also called Windows Complaint Dept (I got the phone number from their web site). They had me fill out a form. I just got another call from these people and I really want them to stop calling me. I can't get any identifying information on them to help with this. They need to be stopped and I want them to stop calling me. What can I do? Thank you

Later that day I received an email from May O stating the issue had been resolved and "should you continue to receive emails after 48 ho urs forward those emails to us." 07/06 received another email and replied with 3rd request to stop. Received reply from Omar S for my request #5801521 saying they were "working on this." Later that day received another email stating that the issue had been solved. 07/10 received another email from choxi.com. Sent email back to customercare@choxi.com stating receipt of an email and that I was contacting authorities. Which brings us to this moment.

Ticket: # 396734 - Internet Advertising

Date: 7/10/2015 8:40:18 PM

City/State/Zip: Hurst, Texas 76053

Company Complaining About: On Time Ads

Description

THIS IS NOT A COMPLAINT AGAINST MY INTERNET SERVICE PROVIDER.

During the past several months I have received numerous advertisements from On Time Ads, 8707 Dufferin Street, Ste 363, Vaughn, ON L4J DA6. I have tried, unsuccessfully, on numerous occasions, to Unsubscribe by using their on-line Unsubscribe instructions. These do not work. On May 11, 2015, I sent a written request to On Time Ads requesting that my e-mail address be removed from their mailing list. For approximately one month, the ads stopped. However, again this company has begun sending me numerous ads each day. I realize this is a Canadian company I am being harassed by, and the FCC has no control over Canadian businesses, but I am requesting your assistance by contacting the appropriate Canadian authorities or providing me with the name and address of the proper Canadian agency so I can file a complaint with them. Thank you for your assistance.

Ticket: # 396952 - Possible Criminal Activity via Facebook

Date: 7/11/2015 7:46:05 AM

City/State/Zip: Suffolk, Virginia 23437

Company Complaining About: Facebook

Description

I am writing to report possible criminal activity on Facebook.

A Facebook user has been using my pictures without my permission, and creating pornographic images with them depicting images of rape, sexual assault, etc, or the threat thereof.

I reported three of the images, and Facebook removed them. Several more (10+) such images were subsequently made and posted, which I promptly reported. I advised the person posting the images that his account could be suspended by Facebook if he continued to post the offensive material, which is stated in Facebook's terms and conditions.

Facebook has discontinued removing the threatening material. Further, Facebook has suspended my account for advising the person that his account could be suspended by Facebook if he continued his current behaviour. To add insult to injury, Facebook sent me notice stating that my account was suspended due to posting something that violated Facebook's community standards. What I told the person is clearly stated in Facebook's terms and conditions. Yet, for a single alleged "infraction" I was suspended, while the other party posted at least 10 more pornographic images of rape and sexual assault, or the threat thereof, using my likeness, and Facebook allowed him to keep posting such material.

By Facebook's suspension of my account and failure to remove such offensive and threatening material, I can only assume that Facebook condones and encourages such criminal behaviour. As Facebook is an internet entity, FCC acquires jurisdiction.

Date: 7/11/2015 5:32:00 PM

City/State/Zip: Stamford, Connecticut 06902

Company Complaining About: Skype (microsoft)

Description

On July 7, 2015, my Skype account was hacked and used to send spam to my contacts (Skype name, ed.parr; set up email address used, ed.parr@envisionpharma.com). When I contacted Skype about this issue, I was unable to remember sufficient details of the account set up (created about 10 years ago) that would allow me to pass their 'verification' webpage. (as an aside, I was able to satisfy Microsoft, their parent company, about my identity, because I regained access to that). In email correspondence with Skype, they refuse to let me know whether the account has been suspended. Thus, a hacker is potentially being allowed continued access to my account. This defies logic and presents a direct threat to my security and privacy.

How come we arent supposed to give tax return form in order to obtain residency for a drivers license to be issued. My w2 shows all of my income and I dont believe a DPS officer should be able to review how much I made just for proof of where I reside. As of Protecting Federal Tax Information for Government Employees (Video)

This video companion to Pub 4761 provides state tax and federal agency employees with basic information about: the provisions of §6103 that protect tax returns and return information and the civil and criminal penalties for unauthorized accesses or disclosures.

Need and Use video

This video explains the requirement for state tax agencies to establish that they have a tax administration need for federal tax information they request and that they will use it for tax purposes only.

. I am not upset but this needs to be addressed before more people realise and their is a class action lawsuit against the FCC. I am taking the normal and patriotic way and not the route where as a taxpayer I still must pay taxes. Hopefully I will get a thanks but if not. please ake a look over that bill and have it run through the senate and house when theres time. Im sure not to many people such as I have noticed the bill. but there are people and not me who would get extreme over it such as the ones who opposed the patriot act. God bless america. Now if I could just recieve a small business grant.. haha my life would be a lot busier and an investment is all I need. Thanks for your time. and if im wrong then please teach me....im always open minded to how the wording and when too much thinking gets involved in what to actually put onto an informative and prestige website.. Company Complaining About: Charter

Description

My credit cards have been "hacked" several times now by someone, the information shows up on my email and my card company calls me. I'm getting very angry and upset that my cards have to be canceled and replaced so many times!

My son likes to play around on You Tube, and tells me that there are numerous videos on how to get someones social security number and other personal information, then have access to your credit cards. He said it was called "credit card generator."

This is illegal and must be stopped!

I have personally had enough, and I know that there are many people out there who are being ripped off and don't even realize it!

You have got to stop these "how to's" and keep them stopped!

People like me can not afford thieves like this to keep going and teaching others to steal as well!

Ticket: # 400833 - spamming from Choxi.com (formerly nomorerack) - despite numerous requests to stop, they do not

Date: 7/13/2015 11:18:50 PM

City/State/Zip: Los Angeles, California 90035

Company Complaining About: Comcast

Description

1/27/15 After having made it clear in November of 2014 that I no longer wished to receive any emails from nomorerack.com, I received an unsolicited email from info@nomorerack.com

1/27/15 I responded by reminding them that I had explicitly directed their company never to email me again.

5/28/15 I received an unsolicited email from info@choxi.com, giving me VIP status and a \$10 credit with choxi.com - formerly nomorerack.com. I responded, stating, "Once again, REMOVE ME FROM YOUR MAILING LIST."

5/29/15 I received another unsolicited email from Choxi stating that my request had been received and my email would be manually removed, a process that could take up to 48 hours.

5/30/15 I received another unsolicited email from Choxi, again offering me a credit. I responded stating that if my email address was not removed from their list immediately, I would file a complaint with the FCC. In response, I received another email offer.

6/5/15 I received yet another unsolicited email from Choxi, offering me 15% off. I responded, "This is beyond ridiculous. I have requested OVER AND OVER that you remove my email address from your list. I was even told by your representative that my email address would be manually removed. You just don't get how outrageously poorly I was treated as a customer and how serious I take customer service. I'm done warning you to resolve this list management problem. Now it is time to report your company to the FCC. Truly unbelievable."

6/5/15 I received another unsolicited email from Choxi that same day.

6/7/15 I received yet another unsolicited email from Choxi, this time informing me that my 15% offer was expiring soon!

6/7/15 As my emails had obviously failed to get my email address removed, manually or otherwise, I sent a message over Facebook to Choxi. I received a reply that again promised, "We have escalated this issue and rest assured that this was escalated for manual removal to our mailing list."

6/12/15 I receive yet another unsolicited email offer from Choxi.

6/12/15 I again send a message over Facebook and receive yet another empty promise, "Please accept our humblest apologies. Rest assured that your email address has been forwarded again to our technical team for removal."

7/13/15 I receive yet ANOTHER unsolicited email informing me that my 15% offer is expiring soon.

I have absolutely had it with this company. I have been extremely patient and did not file a complaint when I had numerous occasions that warranted such action. This company is either enormously incompetent or they genuinely have zero respect for the law and/or no understanding of what "customer service" really means. This is outrageous and needs to stop.

Description

I signed up to receive emails from the Republican National Committee (RNC). After awhile I wanted to unsubscribe so I hit the unsubscribe link and received notification that I was unsubscribed.

I still continued to receive emails so I contacted them. They told me they would remove my email.

I still continued to receive emails so I unsubscribed online. STILL GETTING EMAILS so I contacted them AGAIN! Again, said they would unsubscribe me.

At this point its clear that they are intentionally not removing me from their mailing list. I also experienced this same phenomenon with another political organization which leads me to believe this is standard practice for organizations of this nature.

Do they work under different rules than businesses because I've never had this NOT work for a business and, being from an IT background, I know unsubscribing someone from an email list is not that complicated.

Date: 7/15/2015 2:02:00 PM

City/State/Zip: Simi Valley, California 93063

Company Complaining About: Uniqlo

Description

I have written to this company four times through their customer service site to stop sending me daily e-mail solicitations. I also have clicked on "unsubscribe" icon for each e-mail and I still am receiving daily e-mails from this company. The name is "Uniqlo" and the e-mails come from the following: mail@enews.uniqlo-usa.com. The customer service "help" line address is: wecare@mail.uniqlo-usa.com. I am requesting assistance from your agency to contact this company with my request. I never signed up to receive anything from them, so I have no idea how they got my information to begin with. This has been on-going now for over two months. Thank you in advance for any help you can provide me to get these people to stop sending me e-mails.

City/State/Zip: Sioux Falls, South Dakota 57103

Company Complaining About: Sovintagepatterns On Etsy.com, Etsy.com, Paypal.com

Description

An e-seller, Lana Bain from "SoVintageOnEtsy" on Etsy.com, also goes by the handle, "ALadiesShop," has intentionally revealed false information and disclosed my full personal name in response to a factual, but negative review of my experience purchasing from her. She has intentionally abused and breached the privacy rules on Etsy, as well as PayPal, and abused consumer protection laws in order to inflict harm to the buyer by releasing my full name on a public etsy platform, unauthorized by me. I want my information to be redacted immediately, and the seller given the appropriate consequence for invading privacy laws.

Date: 7/17/2015 6:22:50 PM

City/State/Zip: Newport, Arkansas 72112-8019

Company Complaining About: Bluesky.net

Description

Yesterday I received a call from a man saying he was a "Windows" technician my computer had been hacked. He said that he would scan and remove. He kept giving instructions on on which keys to press. I fell for his "pitch" until he asked for \$199 to "repair". He called 5 or 6 times and if I didn't pay Windows would "lock " me out. This he did do and it my computer did lock up. When I tried to shut it off Microsoft sent a security update and not to turn off or unplug and it would shut off by itself. After it shut off and I rebooted it worked fine. He made 5 or 6 calls to my AT&T number. (b) (6) and no other calls were made or received here . If you can have AT&T give you list of the sender's number, you might be able to catch this man. The first call was received about 2:45 CDT and should be connective order. If you have any questions ,please call.

Ticket: # 410971 - Cyber Bullying

Date: 7/18/2015 12:44:44 AM

City/State/Zip: Dallas, Texas 75204

Company Complaining About: AT&T

Description

My name is (b) (6) and for in excess of four years I have been exploited on Twitter. My concerns have been previously addressed directly with Twitter but no action was ever taken. Huffington Post is one of the main pages that has been involved in posting tweets about things that occur in my apartment within minutes after something occurs. I am being stalked and harassed and the responsible parties use their connections to exploit my life. the Dallas Morning News has recently started participating as well as the following pages: WSJ, Ebony,CNN,CNET, and Pastor Jamal Bryant.

The parties stalking me follow me and have me followed and use various pages that I view to exploit my personal business or life. I would like to file a formal complaint against every page I named including Dallas Black and if possible file a suit to make the responsible parties to stop. In addition to the above concerns I believe Twitter possibly sent targeted specific news feeds to my profile and that assisted with the harassment. The harassment is occurring over the Internet and it is cyber bullying threats. Twitter is operating as an accessory to a felony for the parties who are harassing me. This has been going on for four years and seven months and I have been unable to get action taken. Various concerns have been expressed through the FBI Website to no avail.

Others wouldn't comply out of the Indianapolis Insurnce fraud divisions.

They also refused to file for Interstate fraud as the 49 states had business and also id theft cases id thefting my documents.

They town of Indianapolis id thefted my grade school documents and parents files- and also fraud using my grandfather death record of MAICKE in Indianapolis. Its like they formed imposable people to to business with thru to many countys of MI and IN and thru to IL where they only plotted to id theft my documents and with business- and refused to arrest who hit me with crimes and who robbed me, or Pay, they using groups also said non-stop insults at me in other state from former neigborhoods

of Indiana state in Nevada too (there big Cole Slaw fraud groups too) There church groups business like to talk only in my documents. They build fraud schools and college scams using my documents to in the state of Indiana and its been like this ever sence..

Alot of there auto workers were id thefting stuff and something and pulled crime and some pulled crimes at me and also thru talk-

others pulled media fraud off the documents and also off the business which wrecked back on stuff- and me.

Then they fraud my documents and then put in stuff my documents and then refused to fiance me--- so just there fraud and prior employee crap and who robbed and hit me with crimes and others states who id thefted my documents.

NONE of there countys of INDIAPOLICE with business or Parents- went to these schools- and they were coping the Lake sides documents of Michigan City Indiana from 2 hours away in INDIAPOLICE- also frauding factorys (others did run some gagets thru those towns area too heard while traveling)

Date: 7/19/2015 8:15:38 PM

City/State/Zip: Natalia, Texas 78059

Company Complaining About: T Mobile

Description

I am getting hounded by SiriusXM regarding an account that is not mine for a radio and a car that I have never owned. They are sending these e-mails to account that I receive on my cell phone. I have called them three times. I have contacted them via online chat. I have done everything I can do to get them to stop sending me e-mails. But they absolutely will not stop. They will not remove my e-mail address from their system.

The last time I called they promised they would stop e-mailing me, but they e-mailed me again today. When I called, they also were trying to collect on an overdue bill for the aforementioned car and installed radio.

Attached is the latest e-mail, sent today. I informed them I was receiving these e-mails on my cell phone, and it did not matter to them.

Please get them to stop. Thank you.

Date: 7/20/2015 4:28:39 PM

City/State/Zip: Eaton, Ohio 45320

Company Complaining About: Verizon Wireless

Description

I put up with getting as many as 10-12 emails daily last year and finally got it stopped and then a couple of months ago it started up again with these clowns using different ISP providers to send me their crap.

They set it up so you cannot Unsubscribe and even when you send a cease and desist email continue to do it violating my privacy rights and basically harassing me. I have spent hours trying to get it to stop and it has cost me a lot of time and I want the FCC in addition to getting it stopped make them pay us a fine.

This is NOT my Internet Provider's fault. I have performed an IP trace and the ISP for these clowns is Verizon Wireless Inc. Registrant is Cellco Partnership DBA AS Number AS22394 and Colo Crossing also connected to Velocity Servers Inc.

I think it is possible that Verizon Wireless has a subsidiary doing it as the IP addresses all trace to the LA area but different routing numbers and they like to rotate different return email addresses.

I contacted Verizon Wireless HDQRTRS and they basically told me they could not doing anything about it and it has become a major FCC issue to make them cease and desist and hopefully pay us a hefty fine.

Verizon Wireless contact information is:
180 Washington Valley Rd.
Bedminster NJ 07921

IP addresses that have been traced are:

70.211.10.96
70.197.85.100
70.197.73.17
70.211.132.166
70.211.137.101
70.197.64.59
70.211.144.231
70.197.65.192
70.197.66.218
70.211.132.141
70.197.79.87
70.197.65.192

Colo Crossing's and Velocity Server Inc's contact information is:

Colocrossing and Velocity Server Inc
Jon Biloh
Linda Clark
8185 Sheridan Dr.
Williamsville NY 14221
1-800-518-9716

Also 325 Delaware Ave.
Suite 300
Buffalo, NY 14202

They are also connected to an outfit named Go Daddy.com LLC

Some IP Addresses are traced to:

104.168.78.98
104.168.77.27
104.168.78.176

There are many more but they trace to the Buffalo NY area.

They spam are all kinds of email ads for all kinds of crap and even dating services and other.

Please make them stop it and also assess a fine to them both as an incentive to stop it.

We think someone hacked into the Centurylink email accounts and pirated numerous embarqmail.com email addresses in the process.

Thank you.

City/State/Zip: Boca Raton, Florida 33431

Company Complaining About: Intel Corporation

Description

FCC Intel Complaint 7-21-2015

The enclosed complaint was sent to Intel Corporation. Intel packaged advertising that appeared on my computers after installing an update to the bios. This was done without my knowledge and without any prior option to refuse the update. After all the efforts and expense made to keep outside attacks and intrusions from infiltrating the operating system we have to subjected to such deceitful practices. Intel admits to bundling the advertising with the update, but did not offer any resolve to remove it. I feel this is a direct invasion of my privacy. Intel Corporation should be held accountable and ordered to offer a means to remove the advertising.

Intel Corp.

July 18, 2015

Dear Sir,

I am using three Dell Optiplex GX260 Mini towers all infected with your logo. Given the fact that that Intel is not offering any resolve to remove this invasive labeling, and your response to my complaint is more of a marketing and survey ploy than a letter of concern. I would like to know how Intel would like to find their place of business and residents inundated with labels and signs from every vendor and contractor they employed? It is outrageous that Intel finds it acceptable to invade the privacy of an individual for the exchange of an update. If the label entered through an update in the bios, as you suggest, the updates were obtained from the Dell downloads site. It further gives cause to think what other programs Intel has bundled with their software. In the meantime I will pursue other avenues of recourse. Mr Ciulla

Description

My name is (b) (6) and I've been busy living my life normally and working to support myself and my girl. My girl four or so months ago was on her facebook page and posted a comment on her timeline she stated should I go back to school and my brother (b) (6) replied with yes and she replied with only if you go back first and he said I already graduated which he didn't she said mk and she replied by playing around with the statement you should get your cracker ass up here we miss you then here is when my mother complaint was more of insults and name calling out of the middle of nowhere callingy girl a whore and that my balls were in a jar being controlled by her I'm her puppet she is a dumb bitch etc. I jumped in and cussed at her for talking to her with disrespect told my mother that she is a bitch and shouldn't speak to my girl like that I threw back insults and for time on she kept responding and verbally cursing and calling me names and I told her off with more decorated words and comebacks this went on for some time hoping it would stop but did not she called me names and told me not to contact her and I told her she doesn't comprehend it she is stupid and more fancy words.. At the end I got more evil with my compile and told her to fuck off don't ever talk to me basically and don't ever talk to my woman and she stated that I never called your whore anything and more fighting went on she also made verbal threats against me coming up here and gonna solve the problem and more bullshit.. Told me I should get a hobby and I said I did I polish my large set of knives which most I sold and sharpen then I clean my rifle that is at my buddy (b) (6) house which I sold so she can't attempt to get me in trouble with lies and bullshit I wanted to make myself feel better told her I bought a new Ford and my home and make 1000 a week but ment to put 1200 aml month I want her to leave me alone I want to live my life without her deviant twisted lies she has tried to throw words on my mouth as well as tho I didn't say them I want to live happy marry my girl and go to college for dietary hoping to become a dietary director and she is making it hard for me to proceed when she messes with my woman and I tried to stand up for her... She is a druggie since I've been a child my grandmother her mom knows of this verry well and wanted nothing to do with her and I have informed my grandmother of her doing these things and she said don't talk to her and I don't for the longest times but my mother seems to keep posting on my Facebook and she blocked me after chasing me out which is good thing cause the conversation stops and I don't have to deal with her.. And my brother (b) (6) use to live up here with grandma and me before I moved on he went to the valley with my mom and decided to stay with her she has corrupted my brother and is down there with her I miss my brother bit when he went down there with her and I don't even speak to him anymore it hurts deep inside to see good family turn the cheek to a good person and go with the bad but I can't stop him and he wants this so I guess it's for the best....I have also got the conversations on messenger through face book nknowing her she only sent parts to get me into trouble..I've been good paid off my court dues and am on my way to a better me..

The phone rep denied the existence of the text service and would not escalate the call to her manager until several requests/demands. The manager did not know much, but did say she would check into it and get back to me the next day. It's been over a week now and the messages are only coming more frequently.

I have never signed up for any Wyndham hotel reward program, nor have I stayed in any of their hotels. This makes me concerned as to where they got my information and what else they have. They could not find an account in my name or number or email. The messages include my name, so they obviously have more info than just my phone number.

The full emails are: wyndhamrewards@e-mails.wyndhamrewards.com, daysinn@emails.wyndhamhotelgroup.com, and noreply@emails.wyndhamhotelgroup.com. I've tried replying STOP and UNSUBSCRIBE, but that did not work.

The messages are as follows:

City/State/Zip: Huddersfield, California 94303

Company Complaining About: T Mobile

Description

Facebook are carrying links and content to sexually explicit web sites varying from pornographic pictures, sex toys, escorts, simply found by searching on their site for basic titles such as "sex". I reported a number of them and they stated that they had been removed prior to there acting on them. When I checked the specific sites a few of thousands were still there. As access to such material by passes parental controls I believe this is totally unacceptable. I note you are yourselves on Facebook, perhaps as a starting point you remove yourself from the site.

Date: 7/22/2015 10:55:14 AM

City/State/Zip: Orlando, Florida 32837

Company Complaining About: Bright House

Description

I received two suspicious e-mails from supposedly fbo.gov today July 22, 2015: one e-mail was supposedly sent on Monday July 20, 2015 at 7:03 AM, which I received today 07/22/2015 at 7:12 AM, and the other e-mail was supposedly sent on Monday July 20, 2015 at 7:48 AM and I received that today on 07/22/2015 at 2:48 AM. Both e-mails advised that the mandatory reset of passwords was due to expire in 10 days and to reset my password to FBO (Federal Business Opportunities) by selecting a link in the e-mail that I had received. Here's the background: I am registered with FBO as a vendor but I never received such an e-mail and I suspect my e-mail and possible personal information has been obtained during the recently reported hack job on federal data bases. Today, I sent a request to FBO to advise me whether FBO did send out such e-mails, and I am awaiting a response. I would like to document my concern and I request the FCC to investigate and let me know as to whether the FBO sent me the two aforementioned e-mails; and if not, please let me know whether my e-mail address only was compromised or whether my entire personal information with FBO was obtained by hackers. I thank you for your assistance. (b) (6)

Date: 7/22/2015 11:47:44 AM

City/State/Zip: Ramona, California 92065

Company Complaining About: Trion Worlds

Description

I have been spammed, even after unsubscribing and removing an account I never signed up for they are still spamming me. How can I stop these people.

1. They give no easy means to unsubscribe.
2. Even after unsubscribing by being forced to login to an account the emails don't stop
3. I have talked with their support team and they assured me my account was closed, yet I still get spam.
4. This has been going on for months with over 50 emails to just this account.
5. I have a second account that has another 50 emails that I went through the same process and yet still I get spammed.
6. I'm tired of dealing with them and turn to you for help.
7. There are endless complaints across the web of these people disregarding any rules you have in place to protect us.
8. Most importantly most of my email is on ,my Cell phone and this has cost me hundreds of dollars in data usage fees.
9. They automatically signed me up for a service I did NOT want.
10. They automatically signed me up for an Newsletter and spam machine related to the unwanted service. I GAVE NO CONSENT FOR THEM TO EMAIL ME.

I'm tired of spending money on reckless people who don't care to practice good policies with their email. I have no patients for a group that I have given every chance to make things right. I have record of all my attempts to ask them to stop emailing me. Obviously they are not interested in good list management nor the FCC's clearly stated rules on spam.

My gmail account has been hacked, compromised, stolen, and I am locked out of the account completely. I want to delete this account completely and there is no way for me to delete it since I am locked out. Further, I have never joined in a circle with (b) (6), this was done after my account was hacked. Further, it shows me named as (b) (6) - very concerning. Whatever activity is going on by and through that account is not being done by me and I have no way of deleting the account. Please help ensure this account is deleted, sequestered, monitored for fraud. The phone number now associated with this account is not mine and I am very concerned about the privacy of both me and my family as a result of this ID theft. Please ensure that Google deletes my account immediately since I am not able to get in and delete it myself since it has been hacked. Plus, I do not live in Raleigh, I live in Cary, NC. It appears that an unincorporated township called Bear Creek was created and this can be the source of the ID theft/issues.

About a month ago, I started receiving emails from "Popular Mechanics" and its sister publication "Car and Driver". This was surprising since I've never read either of those publication, have any interest in the subject matter or purposely signed up to receive content from them.

I have unsubscribed from both publications at least 5 times over the course of the past month. Despite the fact that I've received confirmations that I've been unsubscribed, I am still receiving their emails. In fact, I think that the frequency has increased since requesting that they stop.

I know for a fact that they are violating CAN-SPAM laws. How do I get them to stop?

Ticket: # 421359 - SECURITY ISSUES THAT NEED TO BE INVESTIGATED

Date: 7/23/2015 10:55:02 AM

City/State/Zip: Burbank, Illinois 60459

Company Complaining About: Comcast

Description

Today my mother called me asking for help because her Comcast internet wasn't working after an apparent outage in her hometown of Oak Lawn, Illinois. She has had Comcast service at her address, with the same account user name for 7 years. I will relay all the events of the interaction for you.

Account info-

(b) (6)

(b) (6), Oak Lawn Illinois

(b) (6)

(b) (6) user name (b) (6) (for 7 years)

New user name in question (b) (6)

After inspecting her computer, windows did a troubleshooting step to enable the internet. It then worked after 2 weeks of no service.

I attempted to log in to her Comcast account with her login information of the past 7 years, to find we could log in as a guest only to access email, not account information.

I attempted to login from MY phone, thinking it was a computer problem, it was not. I then called Comcast from HER phone.

Upon reaching an agent from HER phone, we were given this information:

A completely foreign user name.

No record of ANY account changes for this to have taken place.

No requests for change/additions to service at this address of 7 years.

The agent asked me if my name was (b) (6) I, my mothers step-daughter who has never lived with her.

BUT IT GETS BETTER!

The agent asked me about someone named (b) (6), this man lived with ME over 10 years ago, at a different address in a different town and NEVER lived with my mother.

I also have not lived with my mother, or had ANY mutual bills, accounts, debts, loans, etc., in 25 years!

So, her account info has been changed without anyone's knowledge or explanation. They had information on accounts for 2 people that have not resided near or with my mother and her husband, during or before the activation of any Comcast account and services, and I have to ask, HOW DO INDIVIDUAL ACCOUNTS GET TANGLED WITH OTHERS OF PEOPLE WITH DIFFERENT NAMES, ACCOUNT NUMBERS AND NEVER HAVING THE SAME RESIDENTIAL ADDRESSES?

So I am going to assume that Comcast is recording and connecting logins from PHYSICAL LOCATION and somehow applying them. This is not such a far fetched idea when considering cable fraud. This I know. But I am certain that there are legal implications for such practices and will be seeking formal legal advice.

I am hoping you can provide some insight into this travesty, as I will be utilizing every available resource, including but not limited to, personal connections in the national media who also have considerable connections within the community I social media. The practices of this company are deplorable.

I would be happy to speak with you directly.

Ticket: # 421863 - Email address sold/leaked

Date: 7/23/2015 1:04:05 PM

City/State/Zip: London, Uk, Alabama 00000

Company Complaining About: Talktalk In The Uk

Description

Dear FCC,

I have a strong suspicion that AVID, the music software company, have sold or leaked my email address.

I have my own domain name, "(b) (6)", and a catch-all/wildcard email address. This way, I give to each individual company a different and unique email address to reach me.

I bought Sibelius a few years ago, and started getting spam to "(b) (6)", the email address I gave them. I then disabled that email address in particular, and switched my account email address with them to "(b) (6)". At this point I did not want to jump to conclusions.

However, just now I have received a phishing email to "(b) (6)", and I am confident this time that I have never used this email address in any other context than direct communications with AVID/Sibelius. (I cannot send emails using the "(b) (6)" addresses, nor have I forwarded an email sent to such an address; I have checked my pertinent email history.)

I have attached the phishing email in the .eml format. Use caution and your own judgement, as the attachments are likely to be malicious.

As AVID is incorporated in the US, I urge you to take action regarding this issue, even though I reside outside of the US and am not a US citizen.

The contact details for AVID, found at the bottom of their legitimate emails, is as follows: Avid Technology, Inc. 75 Network Drive, Burlington, MA 01803.

Kind Regards,

Please let me know if I can help you further,

Description

On multiple occasions I have received emails from (b) (6) soliciting donations. I tried using the unsubscribe button, and I keep getting a message that they can't find my email address. I emailed them and explained that I was unable to unsubscribe, and asked them to remove my name. I received another email and I again tried unsubscribing, with no luck. This time I emailed them asking to remove me from their mailing list and told them if they continued to email me I would report them to the FCC. This morning I received another email from them, so I am now making good on my promise to them. I have the emails saved, if you need proof.

Ticket: # 424696 - ATT's poor business practices and possible illegal activity**Date:** 7/24/2015 3:14:38 PM**City/State/Zip:** Orange, California 92865**Company Complaining About:** AT&T

Description

Over 4 weeks ago I submitted a request to move my internet and Uverse service to my new home. ATT had to send a technician to the new location to verify the address and validate the services could be moved. They claimed to have done this. On 7/11/15, the technician arrived and informed me that my services could not be moved because the proper cables and wiring was not installed. He made some calls a second tech came out and indicated that a "dig" would need to be done and that would take days to do but if he had the part and a shovel he could do it himself. He stated he would expedite this on Monday. I was clear from the first phone call that I worked from home and could not be without the internet for 5 minutes and that the transition needed to be smooth. Everyday since Monday July 13th, 2015 I spent a minimum of 4 hours on the phone or on chat with ATT. Each day that week I was told it would be resolved and installed within 24 hours. Each time I informed them I am the sole support of 3 children and I need to work. On Thursday, July 16th I was called and told that my internet would be installed by the end of business July 17th. On July 17th at 11:30 am I was told the same thing. At 12:30 pm on 7/17 I was told it would not be installed until 7/30. Each time I talked to ATT I told them I work from home from a desk top computer I need the internet I need to support my family. I was told there was delays because the city would not give them a permit. I called the city of Orange where I live , they do not require cable companies to apply for permits. I called ATT and told them that so they told me it was because the mobile home park refused to allow ATT to provide service to the park residents. I called the management of the park and that is not the case. I have lost income to the point I cant pay my bills. My daughter has not been able to complete her online AP science requirements for the start of her senior year in high school that she was supposed have done by 7/20. The last I heard from ATT was still 7/30. And sometime in the last 4 weeks someone at ATT decided to change the billing name on my account without my permission. I have been calling for 2 weeks to have this corrected and they will not fix it. One of their employees took it upon themselves to change the first name on my account to the name of my favorite singer which was the answer to the security question on the account. ATT will not fix it. They want me to do a change in billing responsibility online which is incorrect. They have an incorrect name tied to my DOB and ss#. They claim they can't change it without me going to an ATT store with my SS card and drivers license for security purposes but yet they were able to change it the first time without this information, without me being there in person or on the phone or doing it online or without my permission. I am concerned about their business practices and if someone from their organization is doing this to other customers. They refuse to see the seriousness of this. I have been a customer of ATT for 20 plus years and this is the customer service I receive. Today they called my cell phone and left a message for (b) (6) . My name is (b) (6) . They have Prince Toral on the account and are leaving messages for (b) (6) . Something is extremely wrong with their privacy issues and it needs to be dealt with. You can not get the same person twice to handle your issues at ATT. There is no way to have a person take care of an issue from start to finish. Too many people have access to personal information. My old address is (b) (6) , CA 92867 I am not sure what address ATT has at this point.

Date: 7/25/2015 6:10:15 PM

City/State/Zip: Craig, Colorado 81625

Company Complaining About: Charter

Description

Every month about one week prior to getting my invoice, Geoff Boytos, Vice President of marketing sends me the current promos. I call the main office. NONE of the employees , supervisors or managers complete the process of stopping these mailed advertisements. I have gone through the 45 day period to which the company was to follow up. I consider this to be an harassment. Should I desire to have changes to my account, I would go to the local office. I have enclosed the junk mail I just received.

Date: 7/26/2015 10:59:00 AM

City/State/Zip: Leesburg, Florida 34748

Company Complaining About: Facebook

Description

I recently discovered a Facebook App "Koshien" which I and other FB users had not downloaded, on our cell phones. The issue is that it is in an Asian or Japanese language, have no idea what it is for or if it is spam or a hack. After several hours trying to delete it, there appears no way to delete this app. I have tried contacting FB to no avail, keep going in circles. Others have commented on FB about the same issue. I have an issue with this due to privacy, having something in a foreign language I do not understand, and not knowing how safe it is. We should have the capability of taking it off our telephones. Again, it is only on the telephone FB, it doesn't show up on the computer.

Description

I received a call from 804-571-1268 from a man claiming to be an officer. He claimed that if I, or my lawyer did not call back, there would be serious repercussions. He had a very thick accent. I've had a number of calls with a Georgia phone number. Up to this point I had not bothered to copy down the number. First the person claimed to be a Dell representative; then from Microsoft; then from the IRS. All these persons had an thick accent. This last threatening phone call, motivated me to complain to the FCC. The last two calls sounded as if it were from the same person. I have saved this last voice mail. Sincerely, (b) (6)

Description

I've unsubscribed from Flash X Hype emails multiple times and continue to receive unwanted promotional emails from them. I've added their email to my spam filter but they started adding numbers their email addresses to avoid going to spam. For example they started sending emails from info@mail.flashxhype.com but when I spam that address their email address changed to info@mail1.flashxhype.com when I spam that they go to "2" and so forth. I've added a filter where if the from email address contains "flashxhype" it would get sent to the trash but after about a week their emails are now coming from info@blacklineage.com. I would like them to stop sending me emails as I've never purchased anything from them, didn't request to be added to their mailing list and have unsubscribed multiple times.

While staying at a Marriott on July 25th-26th, I attempted to use their WiFi services. Once joining their network from an iPhone 6 Plus device I was prompted to accept an untrusted certificate when trying to use a browser to access google.com, and several other sites. I did not accept the certificate but took screenshots of the details. This was clearly a man in the middle attack. It is unclear if this was happening on the Courtyard WiFi or if someone was spoofing their basestation ID. While I don't have a screenshot of the basestation ID, I believe it was "Courtyard_Guest"

Company Complaining About: 1000bulbs.com

Description

For weeks I have been trying to unsubscribe from 1000bulbs.com's marketing emails. When I click the unsubscribe link the preferences already show that I have unsubscribed to all emails. However, their emails continue to be sent to me. Today, I called their 800-number in order to complain. The receptionist told me that many people call to complain because their IT department won't fix the unsubscribe form. He said "even I can't stop the company from sending emails to my personal account."

Obviously 1000bulbs.com isn't complying with the CAN SPAM act by failing to "Honor opt-out requests promptly". They should at least be fined \$16,000 for every email they've sent me!

Company Complaining About: Centurylink

Description

I am trying to "unsubscribe" from DirectTV emails and there is not an easy option in the email page to do this. It is telling me I have to log in and I do not remember my userid/password. I am trying the chat option. This should not be this difficult. I am having no luck on the chat line. I have been given a street address that I can write to if I would like to submit a complaint. My understanding is that it is mandatory to have an "unsubscribe" option readily available in advertising emails to get them to stop. After some back and forth the person has reassured me that I will not be receiving any more emails. It would have probably been easier if the person has a better grasp of the English language. It was obvious from the communication string that they did not.

Company Complaining About: Windstream Communications

Description

Someone in my neighborhood is freeloading on our internet and eavesdropping on our phone conversations. This has been going on for over 5 years. I have made numerous complaints to Windstream, which is both our phone and internet provider. Our phone frequently says "Line in use" when no one is using it at our home. In addition, our email accounts have all been hacked numerous times, despite changing names and passwords. I have put a key scrambling program on our computer to stop key loggers, but this has not fixed the problem. Also, comments and conversations made in our home and on the phone are appearing on facebook and twitter accounts in a twisted fashion. I have gone to the local sheriff already and the local police department and they are not helping at all. The police say they do not have the resources to investigate each complaint. The sheriff's office said that it is impossible to hack into phone systems (which let me know they have no clue about internet crime). Please help.

Company Complaining About: Comcast

Description

About 2 weeks ago I was trying to change my personal email address (b) (6) password and could not get into my account. I call Comcast several times and come to find out that they (around May 2015) had assigned my personal email address to someone in Florida. I asked "weren't there safeguards to prohibit issuing the same account to 2 different people?" they responded that they could not answer how my email address was assigned to someone else. I informed them that even though I could not access my email account (b) (6) via computer I was still able to access it via my cell phone (up until 24 July 2015!) At that time the (b) (6) account was frozen. Furthermore I was told that my email address was (b) (6) - I tell them that I had never established that as my email address. I continued to tell them that I have had (b) (6) t for years and that I had a personal folder in my Comcast account. I fear that my personal information has been compromised by Comcast.

Description

Cheri Bustos is a Congresswoman from Illinois. I do not live in Illinois, but i have received many, many unsolicited emails from her offices. i have telephoned each of her offices asking to have the emails stopped. i have emailed each of her offices asking the same. And i finally wrote and mailed a letter to each of her offices where I said that I would contact the FCC if her emails that have become harassing to me did not stop. I wrote those letters after my other requests were not met, and now I still keep getting emails from her! I wrote and sent the letters a month ago, and all of my requests have been totally ignored. I have attached the several emails that I have saved which I have received since sending the letters. These emails are extremely annoying and harassing because my numerous efforts to get them to stop have been ignored. This is especially upsetting because she is a public servant who should respect the privacy rights of Americans, but she obviously does not. Please get her offices to stop sending me emails!!! Thank you.

Company Complaining About: Wwww.supremofree.com

Description

I have been receiving calls almost daily from people claiming to be from Microsoft about problems with my computer. They claim I have a serious problem that they want to help resolve. Last week I played along with the individual, they took me through a series of screens on my computer to ultimately look at the log, showing various problems. I tried to get this person to give me a call back number, they would not.

I currently have 4 active computers at home, the person could not tell me which computer.

They wanted to have me download a program to fix my problems from www.supremofree.com, which shows as a foreign company. I did not.

Today I received another call and told them I was very busy but would call them back. The number he provided was 202-241-0403, which originates out of Washington DC but it is a Voice Over provider so it could come from anywhere.

In all the calls the person has an accent which sounds from India or Pakistanis (just a guess).

I have no doubt this is a fraud/scheme to gain access to my computer.

I have also filed a complaint for telephone, fraud

Company Complaining About: Government (nmci)

Description

Over 10 years ago, I was researching a trip to the Smokey Mountains & I inadvertently got signed up to receive emails from www.smokymountainvacationinfo.com. Over the years, I have unsubscribed multiple times, yet I keep getting unwanted emails. It is extremely difficult to find a way to contact anyone through their website. I was able to contact someone directly years ago, he promised to remove me. I stopped getting emails for several months, but they started again.

I saved a screenshot of when I "unsubscribed" on 6/25/2015, knowing that I really hadn't been unsubscribed. This morning, I have another email from them & I unsubscribed again.

Ticket: # 430578 - Receiving Unsolicited Email Marketing

Date: 7/28/2015 11:27:15 AM

City/State/Zip: College Park, Maryland 20740

Company Complaining About: Leadership Resources

Description

Good morning,

On Monday, July 27th at approximately 9:00 p.m. an unsolicited email marketing eblast was sent to a listserv managed by our organization and the University of Maryland. The eblast was from the company Leadership Resources with the email address of "programs@leadershipresources.my"

My suspicion is that it was a phishing email or malware, and the company seems to be based in Kuala Lumpur, but I still wanted to file the complaint so you had it on record.

Date: 7/28/2015 12:02:42 PM

City/State/Zip: Ann Arbor, Michigan 48104

Company Complaining About: Comcast

Description

Comcast requires those who use their services to go through a credit check. This is absurd. Why would a service that does not require a loan/credit card check my credit and therefore bring down my score. It is as though they want people to have lower credit so they have to pay the deposit (which they don't give back for a YEAR.) Ban this practice. Now.

Ticket: # 430931 - Phone Call advising my computer is comprised

Date: 7/28/2015 1:05:07 PM

City/State/Zip: Eden, Utah 84310

Company Complaining About: Global Tech Services - This Is Probably A Fraudulent Name

Description

I have received 2 phone calls stating my "PC was compromised." I said, "I have a Mac." A man with a middle eastern accent said, " your Mac is compromised, your bank accounts, emails, everything. I need you to go to your computer right now so I can assist you with this problem." He gave me a "customer registration license ID # that was supposed to prove he was "trustworthy."

I told him I had an appointment and could not go to the computer. He would not give me a call back number but my caller ID said, 646-612-3456. I hung up and called the local authorities. I basically got a voice mail not to give my information to anyone, which I knew anyway.

He called again today 7/28/15 at 9:26 am using the same phone number. I told him I was not interest in his help and hung up. The first call was 7/23/15 at 3:13 pm. He stated after I pressured him he was from Global Tech Services. He would not give my a phone number because they just "use servers."

Description

While clicking on a receipe, my browser was locked and Window Defender popped up and said I had been infected with a virus/malware/Trojan and listed a phone number to call.

I did so and the technician claimed to be associated with Microsoft and wanted to logon to my computer. I gave him permission.. He then said he would need \$250-\$350 dollars to clear up my PC and it would take 4-6 hours. When I said I would like to use someone local, he became belligerent. At this point I knew he had caused the problem and was not with Microsoft. I retained the number for your records.844-243-9135 I am wiping my hard drive now.

Date: 7/28/2015 4:58:50 PM

City/State/Zip: Santa Paula, California 93060

Company Complaining About: Time Warner

Description

I have opted out from Confirmed Profits over and over again. They just change the sending method or provider and put me in. They wont stop even though I have opted out several times. I never signed up for this but regardless, they will not remove me from their mailing system.

Honestly I did get ripped off by another company (or the same one, I don't know), so when I got the original email in my spam box I did take a look, but I never signed up on anything and I opted out a few months back, but they keep changing mailing services or now maybe even using a private one. I have written them to no avail. They just will not stop. All the junk mail they send is for a scam and I think I should be able to stop them. Every time I see them now, it does make me mad. I should not have to put up with them harassing me as a senior citizen, I think I have a right to make them stop! Please help me.

Sendmailsystem@m20.bm07.net on behalf of Confirmed Profits is the senders identifying name in the email. Don't make me go up to (b) (6), San Francisco, CA 94118 (the address showing on the email, its probably fake). Don't make me go up there, because if you don't stop them, I don't know what I will do. I am not threatening anyone. I just want them to stop emailing me and stop taking advantage of people that need more money.

Description

Filing on behalf of our business, American Eagle Outfitters. For the last few years, two of our business's e-mail accounts (counterfeitalert@ae.com and copyrightalert@ae.com) have been getting spammed relentlessly by a Country Club advertising list. None of the usual methods of making them stop seem to work. Any time we try to get removed from the list or call the phone number listed, we actually receive more e-mails, sometimes 5 or more in a day. We also forward every one to spam@uce.gov, and this seems to have gotten a response because now the e-mails come with a message at the bottom that they are only meant for the intended recipient. We filed a complaint with the FTC as well (Ref. #64008446), and when I called them today to see if we could do anything more, they recommended filing this complaint as well. Some of the e-mails are attached, and this is just a sample of what we deal with every day.

Company Complaining About: Frontier Communications

Description

I have lived in the same house since 2006 and have not had an issue with publication of my address till I got internet service with frontier. My home address is now available on the internet and it is putting my families personal safety at risk. (crazy person who wants to harm my husband or my self) I just checked the other day by doing a seach on my name. I do this from time to time to see if there is any information that I don't want to see on the internet. My home address popped up on the first page. The only change I have made is that I have changed from Comcast to frontier in the last year. I believe that they may have sold my information or passed it on to one of their subsidiaries and that information is now published on the internet. I am extremely angry about this since I only use my po box for mail and the only time anyone needs my physical address would be for the actual service. Frontier is the only thing I have changed in the last year or so. the internet method below I am guessing is dsl though I really don't know. it is throughthe phone company frontier

Ticket: # 435502 - Internet Activity Monitoring and Telemarketing

Date: 7/29/2015 9:11:13 PM

City/State/Zip: Charlottesville, Virginia 22903

Company Complaining About: Comcast

Description

Dear reader,

I have been receiving telemarketing calls despite having signed up for the national do-not-call list. As far as I am aware, this is possible because these calls are being made for fund-raising efforts and surveys rather than sales calls, and are therefore exempt.

What I have noticed, however, is that there is a pattern to the calls.

Whenever I open a browser, or alternately, fire up my computer from sleep-mode with a browser open, it takes seconds for the phone to ring.

Now, at first, this did not happen consistently but I have now figured out how to make it happen all the time.

When I turn my modem off and on, and then open a browser/wake my computer, I always get a call.

Why? Because when I turn the modem off/on, I am assigned a new IP address.

I receive both internet and phone service through Comcast.

Now, I know that Comcast sells phone numbers to telemarketing companies, but this is something else.

What I am describing is more pernicious: Comcast monitors my internet activity, and, when I connect (i.e. I am home), they immediately notify third-parties who scramble to call me.

Although sadly in this country companies are allowed to sell my phone number to whomever they want, I sincerely hope that it is still illegal for a company to monitor my use of the internet as a paid service to third parties (i.e. not the NSA).

I hope to receive an answer to my concern.

Thank you.

Kind regards,

(b) (6)

Ticket: # 435508 - Budgetmobile.com took my private info and never sent a phone

Date: 7/29/2015 9:13:15 PM

City/State/Zip: Oroville, California 95966

Company Complaining About: AT&T

Description

When I try to contact budgetmobile.com, the chat feature sends an auto responder that all representatives are busy, leave your email and they'll be in touch. it then emails you a direct auto response that they are busy. When you open a ticket, nothing gets answered. The phone number gives choices. If you choose any, it hangs up on you.

I signed up a few days ago for budgetmobile.com and it was for a free lifeline phone, supposedly. Unfortunately, they have my name, address, phone # of my closest relative, social security number and photos of my medi-cal card. They never contacted me nor did they send a phone. I'm really freaked out. Can someone please help me!

Company Complaining About: Metropcs

Description

Someone is using a spyware program that was transferred to my smart phone from my email. They are using my data up, and can view my emails and phone numbers that I call. I had a restraining order against my ex-girlfriend (b) (6) for a program like this in 2011. She told my sister (b) (6) about Flexispy and all these other spyware programs and she began using one to illegally spy on my phone. I have only had my new cellphone for one month, and now I have another identity theft case. They have been calling my contacts and slandering me, some people that work for government agencies. The local law enforcement agencies do not know what to do. I filed a report, but they will not make any arrest. I.d. theft is to much of a problem. People are living in two seperate apartments in my name that I have never lived in, and the police or the management company have done nothing.

City/State/Zip: Bothell, Washington 98021

Company Complaining About: Cricket

Description

Some other person signed up my phone number to the provider paybyphone.com. I never had to "confirm" or accept this.

I started getting daily messages that are like "Parking for 789ZXG at location 4915 expires at 6:00PM on 2016/07/28. To add more time call 1866-234-7275 or m.paybyphone.com"

The message has no way to opt out. The only way I found out how to contact the company was to google them, read their faq, email their support email address not once but twice to get removed.

They need to provide a way to opt out and need users to confirm before texting them.

I'm with cricket wireless and the msg came from shortnumber: +57685

I recently purchased a PC computer, it had a virus program installed. As i was surfing the net i got a blue screen saying my registry has been compromised do not turn of your computer or you will corrupt your computer and severely damage it, i could not close this window or do anything on the computer. It said i needed to call this numbet 866-348-0117. So i did they said i had a virus and could only fix it by paying them 249.00 and buying a software warranty. I did because i couldnt do anything about this blue screen. A couple days later i get a call from someone claiming to be this co. They kbew what i bought and how much i paid and fooled me into letting them on my computer using the same software that Tech Fix Now uses. My identity was stolen. I feel Tech Fix Now. Forced me to buy there product and their web site is not sufficently secure. I feel someone in authority needs to know this is going on. I have talked with them about and they are not very helpful saying Thank You for letting us know but we cant help you. Im never opening that computer again i feel a key logger is on it. I have not asked for a refund i will take the loss if i have to dont want to deal with those jerks any more. Hope this info helps stop this from happening to someone else. Do i have a case here can you help stop this practice of hijacking someones computer to sell your services? Thank You for your time

Company Complaining About: Wow

Description

Tuesday, July 21, I received a telephone call from 661-748-0240. The man said he was with HP and they had received several reports of trouble from my computer. He said he was told to fix the problems and it would take only 15-20 minutes. I told him I was busy and to try back later. I called HP with the story and they said they never call people. They said the party was probably trying to gain control of my computer.

Today, Thursday, July 30, the man called back,(same phone number,) and, this time, didn't say he was with HP but said he was a certified computer technician and had received signals from my computer indicating problems. I asked how and from whom he got the signals and he said they were on my emails and available to anyone. I tried to get more information from him but he was evasive so I discontinued the call.

Just thought you may be able to find this guy or at least warn others that he is out there.

Description

I'm getting spam of fake women sending me links to get to their website. I have not clicked the links but they are obviously scam. These texts are unacceptable for me and are a distraction at work. Also, I am fairly sure I get charged extra for them. Personally, it seems like cell phone providers are in cahoots with these types of shady businesses because they are obviously spam. However, there is also no where to enter the phone number of the individual texting me so clearly you don't care much either. Is the FCC inept? How do I stop spam texts? I clicked a link for reporting spam texts and it led me here, which seems like the wrong place. That is why I say inept. Anybody home?

Ticket: # 439188 - computer

Date: 7/31/2015 8:54:21 AM

City/State/Zip: Brooklyn, New York 11234

Company Complaining About: Optimum

Description

I was telephone while on my brand new computer by a company called PCsolutions claiming that they were representing Microsoft. I was informed that my computer was being hacked and that the technician was going to repair the problem. I refused and he became indignant and I was spoken to by a Supervisor who informed me that the cost would be \$200. All of the persons who spoke to me had a foreign accent. I hung up and they persisted in phoning me every 5 seconds for over an hour. They threatened to shut down my computer if I did not allow them to repair my computer. The phone number of this outfit is 1-866-290-9703. I am 84 years old, still employed part time and I have high blood pressure. I was totally unstrung by this situation. I do not know how they found my phone number, and I want to know what is my right to privacy.

Ticket: # 439641 - Spam and Phishing

Date: 7/31/2015 11:29:37 AM

City/State/Zip: Country Club, Missouri 64506-1043

Company Complaining About: There Are Numerous Names And Not Available To Me.

Description

For about two months or maybe longer I have been inundated with spam and phishing email at the above email address. Sometimes upwards of five to six at a time at different times during a day. It's very annoying and a terrific waste of my time. The email (spam and phishing) are asking me to "give" them my money so they can "get" their money and so on and so on. I tried gathering information from the headers of the email and sending my request to the postmaster of the ISP the email came from but all were returned to me as undeliverable. I would like the intrusive email to stop but am at a loss as to what to do about it.

Ticket: # 439717 - Kaplan University sending emails after being asked not to contact

Date: 7/31/2015 11:54:20 AM

City/State/Zip: Warner Robins, Georgia 31088

Company Complaining About: Kaplan University

Description

On June 7, 2014, I withdrew from Kaplan University while in a trial period. I periodically would receive emails reaching out to me to re-enroll at Kaplan University. In or about April or May 2015, after receiving one such email, I replied to the email and let the Kaplan Advisor know that I was not interested and to cease and desist all Kaplan communication with me. On May 21, 2015, I received an email from Kaplan University stating, "At your request, I have added your contact information to the Kaplan University internal Do Not Call list" from Joseph Soldo, Admissions Advisor. On June 9, 2015, I received an email from Aileen Banky, Senior Military Admissions Advisor, saying "I was given your information for outreach from my associate director and told to assist you with possible re enrollment. [...] If you have no plans to continue school, that is okay also, Just simply let me know and I will close your file accordingly." I replied to Ms. Banky, "If I receive anymore emails from Kaplan University I will contact the proper authorities as Kaplan has been given proper and repeated notice not to contact me. I am not longer interested in attending (or returning to) your university." On June 9, 2015, I received an email stating, "At your request, I have added your contact information to the Kaplan University internal Do Not Call list" from Aileen Banky, Admissions Advisor. Today, July 31, 2015, I received yet another email from Military Office of Returning Students, trying to get me to re-enroll, stating "You are getting this email because you are a current or previous military affiliated student here with Kaplan University [...] If you have no interest in returning, that is okay also, simply let me know so that I can have them close your file." At this point the latter part of the statement in the email is incorrect. After being informed that I am not interested in returning and receiving confirmation emails stating I will not be called and that my file will [supposedly] be closed, I am still receiving annoying emails.

Ticket: # 440291 - Harassing Phone Call / Unauthorized Recording / Unauthorized Broadcast

Date: 7/31/2015 2:38:29 PM

City/State/Zip: Forest Park, Illinois 60130

Company Complaining About: Comcast

Description

I was the victim of 3 prank phone calls (the last one I did not pick up). The individuals used information from my Twitter account to present themselves as representatives of Comcast. I do not know how they got my cell phone number. They harassed me while on the phone and demanded I remove posts from my twitter account and were argumentative with me. They also sent me to an extremely graphic website (helpdeskcorporate.com -> THIS IS A POP UP SITE WITH VERY GRAPHIC MATERIAL ON IT). I later found out that these individuals are part of an online prank call program under the Prankcallnation.com umbrella. The male caller goes by the pseudonym of "Macron". I did not authorize the recording of my phone call and I did not authorize the broadcast / publishing of said recording. They have subsequently posted the recording to their main site (prankcallnation.com) as well as to various other sites including the iTunes Podcast library and Twitter. I have filed a complaint with Comcast Security Assurance and am seeking legal representation to have the recording removed (or at a minimum, my portion) from all locations. Please let me know if there is any other information you need.

I have included a recording of the show below. I am the first "victim" and the second phone call happens around 30 minutes after the 1st.

Description

It started with a phone call yesterday. The caller said he was from tech services. The caller said he was from tech services and that they had been sending me messages about a problem with my computer. I told him I hadn't received any messages and ignored the call. This morning I received a pop up warning from them on my computer telling me I needed to call 844 261-0985 because someone had access to my data on my computer and they needed to fix it. I had to power down to stop the message. I've received this type of call from several different numbers more than 6 times but this is the first time I've got the pop up message.

Company Complaining About: AT&T

Description

I never opted into Tiffany although I purchased there many years ago. I started to get emails about a month ago via my Yahoo account.

I opted out several times using their opt out on the email.

I reported the messages as SPAM to Yahoo.

I replied to the email as "Unsubscribe"

I wrote to privacy@tiffany.com to ask them to remove my name. No luck - it's infuriating. I cannot get emails I WANT to receive via Yahoo and this place just emails whenever they want. Do they have some deal with Yahoo?

Ticket: # 441400 - Identity theft using cellular facilities

Date: 8/1/2015 3:17:14 AM

City/State/Zip: Miami Beach, Florida 33109

Company Complaining About: Sprint

Description

Summary of events provided to my company:

Sat: 6/13 Evening: Personal Laptop used and Media PC for primary TV (Samsung Smart TV). Noticed Primary email (b) (6) and alternate email (b) (6) were swapped in google chrome browser. Looked into settings noticed Extensions had developer mode enabled and developer toolkit was installed. Unplugged Ethernet cable from adapter to isolate from the rest of my network. No other devices seemed impacted. Cannot recall if Dell work laptop was shut down or in sleep mode.

Sun 6/14: Master password vault I use (LastPass) loaded incorrectly when investigating personal laptop. determined that had been compromised. Checked online accounts Only evidence was a login to my Citibank account 3 hours prior to my login. No funds taken or access blocked. Proceeded to get all my cards and accounts replaced and new credentials for all logins exposed. Used Dell laptop for most of this.

6/15-6/17: Worked as normal during this time, but investigated ,my laptop to verify what had occurred. Firewall rules changed and locked to allow access inbound and denied ability to change or disable most rules now initiated from system root. Appears the attack used a built in admin account that verifies authentic copies of Windows and denied my ability to change credentials . Noticed WiFi adapter had been enabled and active so switched off physically. Network map showed my smart tv and Epson printer as PC clients on the network and as connection points to the router. I physically switched off all wifi radios including phones and Nest thermostat.

Thursday 6/17: had noticed peculiar responses on my android phone. Saw 5+GB bluetooth data transferred through Google + in the past 24 hours and noticed my headphones were enabled for data in addition to phone & audio. Google location services showed my phone(that I had all radios and location disabled and physically sitting in from of me),moving back/forth from the corner of the bldg next to mine to a parking spot across the street frequently and all day. I logged in to my router and saw Wifi enabled again, so turned it off. It turned back on and right away...I saw the router setting change "by itself". I also noticed this was being done by clones of my prior phone Galaxy Note 3 and my new phone Galaxy S6 that had DHCP IP's from my router. This went back/forth several times for only a minute or two then an attempt to upload firmware began. I unplugged everything, powered down completely, put into a large bag, and left to go to a friend's home (around 1am).

6/18: contacted my manager who was on vacation but told me to contact IT support. Was not able to reach during 2 attempts with 20+ minutes then 90+ minutes hold time. contacted Sprint using a borrowed phone to reprogram the MEID/MSID of my phone so attacker would not see and would lose access to my phone number through the cloned phones. When the phone restarted, an audible alarm indicated the phone was stolen, which turns on location services to locate the phone. I received a gmail with the location pinpointed, then my phone wifi turned on

(again, by itself). Every device connected to my friend's network became infected. I saw the laptop he let me use start to perform a system update so I unplugged the power and pulled the battery. It appears that I stopped the payload from completing its functions and did not have a chance to delete itself or re-configure the device to approve its actions.

Subsequent to 6/18: all devices (mainly android phones belonging to my friend's agency) have been compromised even though wifi, bluetooth, and location services disabled. Every email and phone conversation potentially overheard.

6/23 Was finally able to reach corporate legal and received response actions to perform.

I am following instructions as provided, but have indicated concern for safety (only based on the the proximity required to perform some of the exploits mentioned). I request course of action to take with regard to ensuring personal safety while abiding by requested course of action.

Also, I request that someone update my direct manager, as he has indicated that I not contact him until this has been resolved (deleted text)

Subsequent to the above detail provided to my employer:

I have tried to return my phone to Sprint to replace it with a phone with an uncompromised serial number. More supporting details available to support the following:

- * Several calls to Sprint Support, Fraud and Security were routed to an operator posing as the intended recipient, providing conflicting, misleading and false information.

- * These calls were transferred to Sprint stores and taken by Sprint store employees.

- * Upon following direction given by the local Sprint store and the corner of ALton Road and Lincoln Road, I became convinced that Multiple employees at this store, as well as the store at 8650 SW 24th St and the store at 13509 Biscayne Blvd are equally involved. This is mainly due to similar misdirection and proven calls redirected to the store while pretending to be other Sprint support agents.

I gave up my Sprint phone with a \$400 cancellation fee to change carriers and get out from under the surveillance. I believe the surveillance has been significantly curtailed, but events indicate they are still trying to monitor me. I keep my phone locked down, with location services turned off, and wifi/bluetooth off as well. When I turn off location services, I begin to receive several "wrong number calls" regarding various random reasons (e.g. to discuss the estimate to repair my Honda Civic). I am guessing the attempt is to keep me on the line long enough to locate me. It all sounds far-fetched, but the technology available to any engineer with a cellular provider can perform all of what I have described very easily.

I constantly wonder why I am worth the time and effort for this kind of intrusion. My work computer (which cannot be part of this investigation without consent from my company) contained PHI for thousands of health insurance members in another state/commonwealth. But also, whoever is doing this gained access to every account I have (banking, credit, retirement, insurance, etc) and I have evidence they were accessing several of those accounts, yet nothing has been taken. They know where their lines are that, if they do not cross, I have no legal recourse. It is my guess (and only a speculation) that these actions are intended to gather "clean" identities to be sold to whoever buys

them. Most people do not know what is happening, but I know about most of these exploits from my masters program at FIU. That may explain the excessive monitoring since I attempted to curtail the activity they did not expect me to recognize.

One thing about the "crossing the line" factor: If what I speculate is true in some form or fashion, they have crossed the line. Fraudulent use of cellular communications, intercepting calls (some to non-Sprint destinations), and intercepting calls by encroaching on the T-Mobile network that I now use.

Forgive the disorganized nature of this complaint. It has been terribly difficult to get to this point where I can even send this. I have screenshots, videos, computer logs, and actual Sprint employees from call centers that have confirmed the allegations by referencing their internal systems. I will happily work with you and provide all I can to help resolve this issue that has been plaguing me for over 6 weeks now.

Regards,

I have an apple ipod gen. 5 and upon power up it automatically updated to this new apple ios 8.4 operating system even tho I did not authorize it and my device was set to not automatically update. now the ipod does not have the options to play the music I have purchased as before. now I must upload play lists in order to randomly play the music that I have purchased. it will no longer play my full music library randomly, I must tell apple what I want to listen too even though this is music I have purchased from them. this update to the software is just to get me to purchase the new apple music radio app. and every time I try to play my music I have purchased it trys to sell me this new app. upon contacting apple on this date , 8-1-15, I had to request an exemption from purchasing help as my device is over a year old even though the update is new, and once I received the exemption to purchase help for an un authorized update I was told that I cannot revert my device back to the way it was before the un authorized update. I hope some legal action can be taken against this company for forcing customers to continually review there forced attempts at purchasing this new apple music radio service under the guise of a software update. thank you.

It is possible to inject a microchip into the ear canal that can pick up 1 wireless internet frequency. The voice can't be heard in sound-proof rooms, eg banquet rooms where weddings are held. And, if a radio is set in between stations w/i line of sight of the ear, the transmission is picked up the radio antenna & not the ear. Apparently, this isn't picked up by brain scans, MRI. It mimics mental illness. I presume the hospitals buy these frequencies from the FCC.

There was some Stalker who looked like my brother who got is auto trade in which was some old car from the 1990s Chevette who kinda looked like my brother and he stalked me in Hollywood Florida doing hard jesters at me while looks are close to my brother...

Then there is some photo image groups who pulled drive by shit in Nevada immatating (b) (6)

(b) (6) looks thru the Deserty some other pulled some photo image stunt off of his looks of the 1970s robbed photos..

All those job applications and also applications for lending and department store stuff- which I always get turned down some herds took off on my MOXY pulling that fraud

In 2002 after other wrecked on me and my stuff when flying to locations of other robbing and planning to rob me.. This is where some of my Belonging ended up.

My Robbed Volkswagen with one payment left on my lease- which I was in the process of Trading it in with \$5000 in equity in it was robbed to a Lake Shore Ford Store in Burns Harbor.. VW leases get turned into VW not Ford Moter company they robbed my Auto, I think it was also thru that Shawn Holt since while falsely jailed after Causlity and property loss I saw him with my VW riding it down the hwy.. While I was in a Jail Van-- while they jailed me with others id thefting me using (b) (6) who also tore around my Town home.

Some thing which I did buy for my brother from a small botique store in 2002 some wooden box, ended up in a fraud Kennith Cole Macy department store ad in Chicago IL. Others also pulled some Tennis Ball stalking media crap-- which had something to do with my moms 3rd family of the Shover Family.

I was still a Registred Commodites Broker with internet of (b) (6) and (b) (6) other hacked me out of my yahoo account then were frauding thru Woman day centers in Los Angeles CA while other id thefted with herds id thefting using (b) (6) and (b) (6) and fraud using Indiana year books as medial Kaiser building and then fraud using Harmon as construction crews and then fraud using (b) (6) as construction crews id thefting of Indiana state then others id thefted using (b) (6) as construction crews thru CA state

Then others thru some other commodites firm in Florida were found with my account of commoditesbroker.com others forged my name off my account to rob my domain name while I was in a trama center in Indiana.

Other then created fraud McDonald name tags using Moxy and then other thru Florida chanted were not "Commodites brokers" at me thru McDonalds

That McDonalds also used Brand in there Adverting frauding my (b) (6) death Record.

Others thru Burger King also thru Mi pulled some sound like (b) (6) product too frauding me.

Then others created fraud herds thru online dating using (b) (6) and others frauding using (b) (6) as some product then someone id thefted using (b) (6) as some massive onlines listing as webhandels...

Its part of my filed police report and also was my IRS business permit name for a while.

My robbed Teady BEAR which was in my brothers home in 2002 was found in that Commerial of "That All STATE Stan" that man was in Miami Florida after those 2002 burgeries... Other robbed and broke in to my brother home after those other theft ring and after (b) (6) home burglary-- I went thru 4 Back to Back...home invasion with theft others did and assults.. also with in 30 miles of all locations-- Then STATE FARM ID id thefting my my documents as agents and offices in many states and also thru FLORDIA..

But it was Mutual of Omaha Commercial who looked Close to my brothers look who was the 2002 who broke in to my brother home while I was there. while theft ring 1-7 was seen also on that Indiana state Defensive driving tap with one of the theft ring guys of 1-7 and with a similar profile to my brother looks.

Its was massive similar profile crimes --- It took me over 4 years to get my typing and also part of my spelling back..

That not all the crimes, then Medial and factory workers joined in than other as divorced out family members still hitting me with crimes around home burgerises too... Others from workers groups and there stalking some even went on Vaction after hit me with crimes and parts of theft ring stalked me for years..

Also divorced out Seely family did work for that Lake Shore Ford Company-- they were also in that Auto store in Michigan City IN stalking me.... Terry Seely also pulled bumper to Bumper drive by stalking with hard jesters at me thru Chesterton IN on my bumper.. on a one way street (at Mill Contract murger time) Other also pulled some Wig Stunt thru the auto store of Michigan City Indiana Hyundia Moter immatation my decest moms looks at me ... AT Mill Contract Murger time.

Others also immatated (b) (6) decest moms looks of Helen thru private property of Dogwood Park thru 2002 at me --pulling another photo imitating stalking stunt..

Others also pulled those crimes as designers and fashion companys also id thefted me and my docments and as department stores also id thefting my documents and as media groups and tv script and movie script companys also id thefted my documents.

Others also id thefted my documents riding around on dump trucks thru Florida id thefting using Boyer and then thru Nevada using Moxy... Then all the construction permit fraud.

Company Complaining About: Comcast

Description

I have "unsubscribed" from Choice Home Warranty e-mail messages using their link now over 5 times over the last month and still get their e-mail messages. I also see that there are hundreds of complaints on Yelp about their spam and inability to unsubscribe.

It seems that Choice Home Warranty uses several different domain and e-mail addresses (all with Choice Home Warranty in the description and header) so I cannot block the sender either.

It also seems that they have shared my e-mail address with others presenting themselves as Choice Home Warranty so the battle to unsubscribe from their notices and avoiding or blocking their e-mail is a never ending one now.

Description

I received a text from 954-641-8290 and texted QUIT and received another response so I texted STOP and have, received 3 more texts one which included a sexual graphic picture. I am unaware of any time providing my number to any party for this purpose and am concerned that by asking them to quit or stop twice has not halted their actions. I have 2 young children in the house that do not need to see this type of message.

Ticket: # 442668 - Verizon Wireless Jetpack Inaccurate Data Usage and NOT SECURE

Date: 8/2/2015 2:08:58 PM

City/State/Zip: Lindenwold, New Jersey 08021

Company Complaining About: Verizon Wireless

Description

I was told by verizon that the only way I could get internet access where I currently live is by way of the verizon wireless ELIPSIS jetpack. I have later since found that other tenants in the building subscribe to verizon DSL...

The ELIPSIS jetpack is registered by a telephone/cell number—which makes no sense to me because no matter how many times I have contacted verizon-- no one can explain why.

The verizon ELIPSIS jetpack data usage is not accurate. The verizon ELIPSIS jetpack is not secure. I only connect to one device at a time, unless I need to print something. And, I only turn the ELIPSIS jetpack on when I am actually on line. In typing this information, I am not on line. And, when I submit it, I will do it from our free internet access in the building.

The first week of usage, the data remained below 1 gig and I was using my PC every day. By the third week, it was up to 1.7 gig. I installed the Chromecast, logged into my Comcast account and watched a segment of Power and it shot up to over 3 gig. When I received an alert that the data was close to 5 gig, I removed the Chromecast device from my TV and laptop—and I immediately turned the device off; and used my cell phone as a hot spot to access the internet on my PC for a week or more... And, fortunately, our building has free internet access in one of our community rooms—so I use that often. Nevertheless, I did not turn the ELIPSIS jetpack on again until 7/20/2015—with the exception of the 1 time I called verizon wireless for instructions...

On 7/24/2015, when I received my bill, there was a \$10 overage charge. I contacted Verizon Wireless and the charge was removed by DAVID. This was after I pointed out to DAVID that as soon as I received the alert, I turned off the ELIPSIS jetpack—so I didn't go over. I explained to DAVID that I'd found the information on line that would start the dispute process (NoticeofDispute@Verizonwireless.com) in house; however, I know that I have options in terms of who I can file a formal complaint.

I told DAVID that every time I make contact with verizon wireless, nothing makes sense. I spoke to a rep named Elicia on 7/7/2015, who was slurring her words—and could not explain to me—if I chose to remove the sim card and put it in a verizon compatible cell phone—would I have access to the telephone number associated with the ELIPSIS jetpack. It was a hypothetical question; nevertheless, she could not answer.

I told DAVID—approximately 7/18/2015—I called with questions and I spoke with Ashley on 7/9/2015 who told me that she would send me a PIN in the form of message to the ELIPSIS jetpack— so that I could set up my account on line. I questioned how I am supposed to read the messages on the jet pack. She told me that I could read messages/texts AND for this reason, I had to turn on the ELIPSIS jetpack so that she could instruct me on how to access the message on the ELIPSIS jetpack. I told her that my PC was connected to my cell phone hotspot and questioned IF I TURN ON THE ELIPSIS JETPACK, HOW WILL THAT WORK. She assured me it would have no effect on my data usage because I was using my cell phone as a hotspot. The instructions she gave me did not work . She then gave me instructions on how to log in to the ELIPSIS jetpack—however, that didn't work either. So, she told me that she would mail the PIN to me... which never happened.

I am very concerned that this sort of thing will continue to happen because I am using my PC less than I was and the data usage is more... According to DAVID, verizon reflected I used 1.7 gigs in one day and for the last 3 days, I had not used it.

I find that when I log in to websites I have had bookmarked for over 3 years—their website treats me as though I am on a public computer; taking me through a series of security questions. I find that there is always an amber colored caution sign in many of the toolbars on the websites I visit. I find that when I am connecting to the ELIPSIS jetpack, it often has to acquire... That being said, I question the level of security and access to my personal information is being compromised through the ELIPSIS jetpack...

I want out of the ELIPSIS jetpack contract; termination of account without payment (ETF) and also to be reimbursed in the form of a refund of any monies spent so that I may apply it to the cost of Verizon DSL <http://www.verizon.com/home/highspeedinternet/> that is secured by Online Protection by McAfee

Ticket: # 443292 - Someone called Comcast, impersonated Account holder, and terminated the internet service plan

Date: 8/3/2015 10:13:00 AM

City/State/Zip: San Rafael, California 94901

Company Complaining About: Comcast

Description

On July 27th, 2015, our internet service was abruptly halted. When I called Comcast to see what was going on, they told me that I, (b) (6), had called several hours earlier and requested my service to be terminated. After my service was restored, I was transferred to the security department, where I explained my issue. The operator in the security department told me that the best course of action was to be transferred back to sales, and file a report with a supervisor about the incident. The supervisor that I talked to in the sales department (Employee ID:UH!) filed a report on my behalf (Report ID: 029 260 601), and informed me that I would be getting a call within a few days from Security and that they would provide me with the phone number that called to terminate my service, and the recording of the conversation between the operator and the imposter so that we could file a report with the police and press charges. It was not until I called back on Friday, July 31st, that I found out from a security employee (Employee ID: 36590) that the report that was filed on July 27th (Report ID: 029 260 601) was actually only an escalation towards the operator that talked to the imposter. I then spoke to a security supervisor (Employee ID: 232) who put locks on my account and filed a report about the fraudulent incident (Ticket #: NA176949857). He informed me that the issue would be investigated internally and that if the security department needed more information from me, they would call me. I asked if I would be able to receive the imposter's phone number and the recording of the conversation, and he informed me that Comcast does not release such information to the public, and said that my best option would be to go and file a report with the FCC. I would really appreciate it if you guys could help me out, as I would like to press charges against the imposter.

Ticket: # 443980 - Boost Mobile- Log-in information sent plaintext over email

Date: 8/3/2015 1:18:36 PM

City/State/Zip: Philadelphia, Pennsylvania 19143

Company Complaining About: Boost Mobile

Description

I contacted Boost about their network and a phone I was interested in. To submit to Customer Care about account issues, you have to provide your login information.

Over the course of the email chain, I realized that Boost Mobile was sending my full account details in plaintext over email, fully visible to me and any Boost employee. This information would give a Boost employee full access to my account, including my bankcard information. Should emails on either side ever be compromised, my bankcard information and other details would be compromised.

I reported it in the email and have not heard back. I reported it privately to their social media team due to the seriousness of the issue. I was informed that because I input the information when I submitted my request, it was going to be sent plaintext.

That's not how internet security works. I've since changed my pin and am looking for a new carrier but this is a big deal. Passwords and passcodes should not be displayed plaintext.

HACKER ON MY VERIZON PHONE (b) (6). 7/27: Received text from: 405-065-0879 : "You could be somebody's hhusband". Unfortunately, I replied asking to refrain from further contact. It answered: Haha, I can't believe you answered." Followed by several text messages, a picture of a woman blowing a kiss, and telling me "looking at your photos right now, LMFAO." It invited me to: VIPStreamnow.com. I blocked phone # and changed my password.

7/29: received a message from: "www.goo.gl/CqHEFP": "You look so good, I could put you on a plate and sop you up with a bisquit". I blocked this as well. Also went to Verizon with a complaint and due to low battery (down to 6 hrs)., they sent me a new phone.

8/1: I was communicating on Viber with my daughter, she told me she was moving. Suddenly I saw the message at 7:25 p.m.: "Hurt emowwhe.! "

Initially, I thought it was my daughter who had texted that message on Viber and tried to call her if she was o.k. She had no knowledge of the message. Later, when I looked back, it looked as though the message originated from me. However, I didn't type it, a third party had input that comment!

I am feeling stalked and scared. I reported this to Verizon on 8/2 and also called today to talk to them personally to see what can be done.

Please help to make that person stop.

Company Complaining About: Virgin Mobile

Description

Since yesterday, I received a text from 326-65 claiming that it's a Facebook reset code. It looked legitimate at first until I remembered I never registered my cellphone number to Facebook. This is the second day they sent a different code with a different link and it's getting out of hand. I worry that my privacy on iPhone or social media could easily be compromised if these text persist. If you could do anything to help, thank you!

Ticket: # 445820 - Concerning: Copyright Infringement and Indecent Internet Pornography

Date: 8/4/2015 8:00:08 AM

City/State/Zip: Milwaukee, Wisconsin 53233

Company Complaining About: Webfusion Ltd.

Description

This is a formal complaint against a registrar of an internet domain which endorses and or publish child predator pornography. It is also a complaint against a domain name holder of whom derived the domain name through breach of confidence.

Accordingly; the issues of the complaint are as follows. The internet service provider WEBFUSION LTD. acting on behalf of their web server 123-reg.co.UK were involved in the production and publication of indecent pornographic material which promote or encourages child molestation and homosexual relationship by means of comic book references and explicit mature content. All such content is open to General internet traffic of any age without appropriate age check identification verification systems in the site.

The domain registrar is not believed to be directly affiliated with the litigant of the case, whom is the registered domain name holder. The name of the actual website is SUPERVERSITY.COM. As a reference as to the origin of such a name, various copyrighted materials and previously published articles used the name in a less graphic and political context, asserting a formal educational facility for public administration certification. The explicit and graphic interpretation of the litigant is libelous and slanderous to the original civility of the term.

The website derived a majority of its conceptualization from aanother website named SUPERWIKIA.COM, which is not a pornographic website and which did originally publish and copyright the term "superversity". Neither Superwikia nor Superwikia, Inc. is related to or affiliated with the litigant website and or registrar of superversity.com. The litigant did use subversive and insolvent communication means to fabricate a relationship with private emergency dispatch companies, thus establishing an antitrust and unfair trade situation against Superwikia, Inc. This act appears to be a form of blackmail and extortion by means of false association and slander of character. The private emergency response company is located in the city of Milwaukee, WI; United States and does have a history of complaints filed against them with the city.

Child enticement and antitrust activity are very serious offenses and should be investigated very carefully using local, State and Federal agencies to monitor and more thoroughly prosecute malicious and insolvent offenders. Internet pornography is not illegal, but copyright infringement and internet indecency are illegal and damages should be limited to minimize predatorial activity. As a footnote to this complaint, a minimal punishment of revocation and forfieture of the domain name as well as removal of all explicit materials found on the website should be sought by Federal prosecution until compliance with decency laws and age verification has been met by the registrar and the site host.

Ticket: # 447489 - Corvettes being at well below market price

Date: 8/4/2015 4:20:39 PM

City/State/Zip: Lacey, Washington 98516

Company Complaining About: Comcast

Description

Searched site carsforsale.com last Saturday, searched for 04 through 06 corvettes. There were a few very low cost vehicles, they included pictures of the vehicles, was able to obtain VIN numbers for 2 different corvettes through the above website. 06 Vette 1G1YY26U965124967 and the 04 1GYY22G145105102, these were being listed in Marietta GA, at a dealership called Quality Auto Solutions, LLC, the same vehicles and more corvettes are now being advertised on the same website, but they have now moved on to a place(don't recall the name) in Mass. on Sun and G's Automotive in Nashville TN yesterday. The cars only appear for a few hours on each site and then disappear, the prices and mileage will vary on each site, but the pictures are the same.

I tried to obtain information regarding the VIN number on a 06 vette and the price offered, I received text messages from the following:

2482203483 - I posted the car for a friend. for more info, details, questions and pics, please contact her at (b) (6).

The 2nd text confirmed a VIN number of an 04 Corvette with Texas personalized plate of PEP, that number is 6059888939.

I did not purchase anything, however, I am concerned that my email address and cell phone number are in the hands of these individuals, and my computer may be compromised, which includes my on-line banking information.

The "posters" have obtained the pictures of the cars, and obtained VIN numbers, based upon the price requested, usually in the \$3,000 to \$4,000 range for these vehicles, it is apparent that this posting does not involve a car that the individuals are in possession of.

They are sophisticated enough to create fake "pictures" of the dealerships, went through the "dealers" website yesterday, and compared to google maps today, there is a large billboard in one version "fake" and no billboard in the other, I did look at 8 years worth of pictures on the google map version today.

My concern is that the individuals are selling vehicles, or supposedly selling vehicles at extraordinarily low prices, without knowledge of the actual owners of the vehicles; I am assuming that they don't have actual titles, but may be able to create them to carry out the "scam" for any potential buyer.

I have 2 emails from carsforsale.com where I obtained the VIN numbers if that is helpful

I am assuming that the

Description

I have sent letters of complaint to Chairman Wheeler. My concerns are numerous involving the above referenced issues, described in some detail in an email and letter dated August 4, 2015.

I am disabled and currently facing intense scrutiny after exposing an attempt by local attorneys and judges to remove an existing Order of Protection that was issued against my ex husband, (b) (6) of (b) (6), Bristol, VA 24201. This is his employer's address, (b) (6) - (b) (6). He has consistently refused to give the court details of his true whereabouts, something I find very suspicious for a man whom judges have issued Orders of Protection against. He has gone into federal records with the IRS, fraudulently filed and received tax refunds by forging my identity information. I suffer from multiple sclerosis and must go into the hospital once a month for blood product infusions via a port implanted in my chest. His defense attorney hired an Indian doctor who gave up practicing medicine to stalk my records. He has a live in girl friend who just happened to "transfer in" from Morristown, TN to the EXACT infusion center where I receive treatment. He is NOT listed as practicing law with (b) (6), in Kingsport, TN, who has served as both criminal and divorce counsel for my ex husband, who is a Chief Financial Officer for the firm.

He has an in house counsel, (b) (6) who ran for State Attorney General for TN in 2006. He has served as chief witness & cocounsel to my husband. This is highly irregular as (b) (6) negotiated the terms of my long term disability settlement along with my husband against Johnson and Johnson back in 2007.

(b) (6) sits on the State Board of judicial ethic review. His conduct & assistance to my ex husband has been most damaging as well as libelous, as shown in the emails forwarded to Chairman Wheeler.

(b) (6), who own the firm where my husband is employed, fly in Republican VP candidates for private fund raising dinners. I am having a most difficult time, as one might imagine, procuring justice.

Company Complaining About: Uber Inc.

Description

Uber Inc. continued to spam me incessantly ever since i rode with them several years ago. I processed an opt out through the bottom of the emails, which took me to a black Uber webpage. In February and march of 2015, I contacted Ubers legal counsel, Ubers customer service, & ubers media relations(since spam is a form of media marketing) with official letters describing that i did not want their marketing emails and that they were violating my rights. They continued to email me for several more months with email marketing spam. In addition, when i sent my official email clarifying my position and demanding that the spam cease, Uber Inc. harvested my email address from my complaint, and submitted and signed me up for ADDITIONAL email marketing spam coming from UBER communications with emails about offers, deals, and services. I have reached out to UBER, they refused to resolve the matter amicably, and they have refused to communicate with me so that we may resolve this matter. Uber is in violation of the Can Spam act for failing to provide a unsubscribe mechanism that "WORKS", for refusing to remove me from the email spam system, and for signing me up for additional spam services through me email provided in my complaint and cease spam letter.

I'm not sure what to do, but they're flooding my text message inbox. Help!

Ticket: # 449554 - Spam Call

Date: 8/5/2015 1:22:41 PM

City/State/Zip: Bloomfield Hills, Michigan 48304

Company Complaining About: AT&T

Description

Caller called my cell phone from number 2039087432. They said they were from Microsoft and that someone had hacked into my computer and was using my ip address in Canada and Mexico. They had my name and address incorrect but wanted me to open my computer anyway to "clear it up" while on the phone with them and provide information. I was suspicious so when I said that I would prefer to call Microsoft myself they quickly hung up. I reverse looked up the number and it is from Connecticut and I live in Michigan. The man had a very heavy accent and I could hear operators and computer typing in the background. I believe I am on the DO Not Call list too.

Thank you,

Company Complaining About: Bright House

Description

We use a Google e-mail account for our default e-mails, not our Internet Provider's Bright House account. We are reporting a scam/phishing/thieving e-mailing we received about funds due to us (which aren't). E-mail wants all kinds of information on us. When we responded with "UNSUBSCRIBE" in the subject line (as there is NO unsubscribe information anywhere in the e-mailing), they replied still asking for our information. We informed them we are reporting them to you.

E-mail sent from: (b) (6) (b) (6)

Direct Hotline: (b) (6)

Another name on the e-mail (at the end of the message) is: (b) (6)

Again, this is nothing to do with our Internet provider, but we have to give you that information on your form to get this complaint to you. Do we need to forward the e-mail to you? And if so, to what e-mail address do you want us to send it to?

Thank you for your help! We are trying to prevent people from being harmed.

Description

I constantly get unsolicited texts for Jamaican club events. I have no idea how I got on this list. It's not anything I would remotely be interested in. I always ask to be taken off their list immediately and then I block the number on my iphone. However, a week or two later, it's the same promo but from a different number. How do I stop this? The most recent number is 954-260-1829. They include a link to a web site bit.ly/Jam_Ind. This has been going on for over two years. Maybe three or four. It's ridiculous. Please help.

Company Complaining About: Verizon

Description

On June 9, 2015 my facebook account was hacked and was sending out spam with a malware virus attached. I changed passwords and removed the virus from my computer. I also found out later I was not receiving emails that were being sent. I have deleted both those emails and created new ones. Then on July 21, 2015 my twitter account was hacked it was tweeting friends spam with a malware virus attached. I ran my anti virus and my computer didn't have a virus. When i accessed my twitter account I realized it had been hacked. Here is the IP address that accessed my account.

(b) (6) Then on August 2, 2015 I was blocked from my facebook account and asked to verify that I actually owned the account. I was asked to take a picture of my state ID's and submit them to facebook for proof. I submitted my drivers license and S.S. card. I did cover up the number. I don't know if this is common for facebook to ask or not. Haven't been able to find that out. I fear my account may have been hacked that day also. I have checked my credit report and haven't seen anything unusual at this point as of August 5, 2015. I have submitted a fraud alert to the credit agencies. I also will be filling out a form and sending it to the IRS. I will be contacting my local law enforcement today. I also found an email and name on my smart phone today that I am unsure of. I haven't had my phone in service for a few months and not sure if it has anything to do with this but just in case the name is (b) (6) and the email is (b) (6) I have not had an active account for a few months but the phone does still connect to my Wi Fi.

Date: 8/5/2015 6:39:02 PM

City/State/Zip: New Castle, Pennsylvania 16101

Company Complaining About: Comcast

Description

I called Comcast on August 4, 2015 for information on pricing, etc., and the woman gave me a little information. She said they were running a special and since I was a senior citizen I would get more discounts. She took my name and address to see if Comcast was available in my area. Foolishly when she asked me for my Social Security number (she said she had to do a credit check). She then asked me to give her my phone number in case we would be disconnected. No sooner than that, the phone was disconnected and there was no call back. I am very upset that Comcast has my S.S. number. My husband just had a extensive surgery and I am busy tending to him. I regret calling them. I guess there is nothing I can do..... I just wanted you to know. She never had any intention on helping me. She said she had to figure out all the fees for installation (while I was on the phone). As I said--- I don't want Comcast after all I've heard and read but I am upset they have my SS number and they never contacted me..... Thank you so much.

Ticket: # 451479 - political spam

Date: 8/6/2015 12:46:54 AM

City/State/Zip: Federal Way, Washington 98003

Company Complaining About: Rand Paul

Description

I never contacted Rand Paul. I have never been to his website, never given my email. Upon receiving multiple spams I even emailed them and told them to remove me from their contact list. I've blocked each email address as it comes in and they only find other names or servers to use to continue to invade my email box. I have unsubscribed multiple times, makes no difference. I even posted a complaint on his Facebook page. Some yutz commented on his page, chiding me for my irritation saying "all candidates do this" Au contraire! I am 61 years old and have enjoyed email use through the last 3 presidential elections. I have never had ANY candidate contact me.

Since I have been saving them and not deleting them (which I did for a while) I have recorded the following addresses:

Alexandraforrand2016@gmail.com

Elizabethforrand2016@gmail.com

info@rand2016.com

info@randpaul2016.com

rand.paul@randpaul2016.com

randhpaulmd@gmail.com

randhpaulmd@yahoo.com

Between May 20th and August 5th I have received 35 spams. That is roughly a spam every other day. At first they were landing in my spam folder. Then they started landing in my inbox. If this were a business not following the rules, wouldn't they be chastised somehow? I don't care what his politics are. I will NEVER vote for this man because his way of doing business (continuing to contact via using alternate addresses to skirt blocking) shows contempt and an "I'll do it my way regardless of your choices." attitude. I've had enough of that the last 7 years.

Sincerely, (b) (6)

*Company name: this complaint isn't about my service provider. It's about a business (yes, politics is a business for those running) ignoring the laws regarding spam and unsubscribing requests.

City/State/Zip: Cary, North Carolina 27518

Company Complaining About: Time Warner

Description

My Campbell University account has been used by other people, signing in via telephone and these connections made are being done without my permission/consent. I changed my account login password one week ago and it has already been changed again, in essence I am locked out of my Campbell University email account and no longer have access to retrieve my previous FCC complaint data to add information to the tickets I have already started. My social security number has been stolen, phone numbers stolen and used for businesses without my consent, and it appears it is also tied into my Campbell University school account, as well. I have never had a school loan in my entire life and it appears that someone has taken out a private school loan in my name, as well. This is VERY concerning to me. I want my privacy to be protected via my Campbell University account. Further, the data going through the account is my intellectual property. I have not gone into business with Campbell University. I have not been paid by Campbell University and I have paid the college for their services, not the other way around. Thus, the account is not "their property," it is my property and does not belong to anyone else but me. This misuse, privacy, and access made by others via my account must be addressed as it is a violation of my constitutional right to privacy. I want open access to my account as I have paid for the service, do not expect to be "locked out," have the password changed, other services added to the account that are not wanted, to have services added that have not been requested, Amazon book accounts (perhaps) added to my school account, and so forth. Please look into these issues as I am currently locked out of my account and unable to retrieve my previous FCC complaint data in reference to all of the telephone data showing up on my credit report. Please reference Raleigh Police Department ID theft complaint #P15040698, as well, as I fully believe this has been going on for quite sometime and I want my privacy to be respected in the State of NC as it clearly has not been for a very, very long time.

When he asked for my Computer ID, I told him that I will check with Microsoft first. It turns out that Microsoft did not authorize anyone to call, and there are complaints & warnings on the web about this scam since 2014. People are saying that they have filed complaints with FCC about this scam since 2014 and obviously NOTHING has been done from your side.

City/State/Zip: Landenberg, Pennsylvania 19350

Company Complaining About: Comcast

Description

Last night I contacted Comcast to ask a simple question about our email service. When I spoke with a representative from technical support I was asked for the last 4 #s of the account holder's social security #. When they were given I was told that these were not the #s on file. I was transferred to a billing representative who said their billing system was changed in December and perhaps an error had been made then and the number was dropped from the account. When we gave the last 4 #s of another family member's ssn we discovered that these are the numbers that they now have on file. When I was reconnected back to technical support another representative answered and said that I did not have to provide the numbers because he had them. We are concerned that our personal security information is not being properly handled by Comcast. They have not called us as we have asked them to do to discuss the matter. Can you please help us with this matter as we are concerned about protecting our privacy? Thank you.

Description

I received a text from louvergie@uptodate.cf stating "Rise up ~ orbb.it/ZjZV3 ~"

I have never seen this site, nor have I seen it advertised anywhere. I certainly did not give them consent to message me on my phone, and I see no "unsubscribe" button. It happened on August 6th at 11:03 AM Pacific Time. As I said, at no point did I give consent to my phone being messaged by this company, as I had never heard of it.

Hi,

I find myself in a position i am not happy to be in, I made a trip down to Manila Philippines for Business Trip, but facing a little challenge here as i tried to make few withdrawals from the cash machines here but not going through, have been to the bank also to see if i can withdraw from there but was informed that i can't withdraw from my account here in Philippines due to network errors, so i was wondering if i could get a quick loan of (\$2,750) from you or you let me know how much you can raise now because i need it to clear some little things here and then get a cab to the airport. I promise to refund it back once i get back home. Let me know what you can do to help....

Company Complaining About: Verizon Wireless

Description

After acceptance I realized how intrusive it was and could not uninstall it because of Microsoft blocks on my computer. Verizon is my provider and though Microsoft said it was a free download, indeed, it is not. It went way over my data usage. I had to pay Best Buy to take it off my computer and Verizon for extra data usage. Microsoft should always leave people an out for simple removal. Besides the money, it was terribly stressful. I am a senior citizen with heart problems. I do not need this...and I want my money back for this FREE download.

Description

Somewhere between 1:30pm and 2:30 pm I received 2 phone calls to (b) (6) (my home phone) identifying themselves as 440-327-2744. This happened on August 8, 2015. I let the answering machine pick it up. I did not answer it, I thought it was strange that someone was calling me and my number was coming over the caller ID. I reported it to the police who then told me to call the phone company (Windstream). They told me to contact you with roughly a time and date that this happened and explained that this was "spoofing". I just recently got a new computer to replace the old one and have approximately 6,000 e-mails because I had done without for a long time. If you respond via e mail it may (?) get buried. I hope everything is ok. Thank you for your patience.

Date: 8/8/2015 4:09:31 PM

City/State/Zip: Fuquay Varina, North Carolina 27526

Company Complaining About: Facebook

Description

The recent move by Facebook requiring a valid driver's license for accounts after those accounts were activated goes far beyond simple terms of service. In fact, by selling customer metadata and then requiring the exposure of the real name of the consumer via public profile name listings they are directly violating numerous Net Neutrality laws, DOJ regulations on corporate espionage, US Codes on corporate espionage and also endangering the lives of users who have valid reasons to obfuscate their personal relationships from their email addresses.

I complied with their request to provide a redacted US identification but still they demanded, illegally, that I change my account name to my IRL name. As a security expert with government contracts this exposes my family directly to foreign powers purchasing metadata by linking an email address they do not own with a public name they do not own. This is a direct attempt to circumvent state law on public ownership of identity records by a corporate entity.

I formally request a DOJ injunction and unlock of all held accounts.

Company Complaining About: Comcast

Description

Comcast is a prepaid service which receives their monthly payment upfront. I understand they require verification such as leasing agreement or utility bill. However they will not provide service without first receiving my Social Security Number and running a credit check. They informed me that outside the State of Texas a deposit option instead of a credit check is possible. However in the State of Texas a credit check using my SSN MUST BE PROVIDED. I spoke with supervisor John Devivo on the service floor.

This is a obviously discriminatory to all residents of the fine state of Texas and must be addressed.

City/State/Zip: San Diego, California 92119

Company Complaining About: Cox

Description

These two terrorist have been using three EMP's on me day and night for years. They planted one in my yard and hooked it to my electricity and they use a repeater to connect to it Martin also has one in his house that he uses on me also. that is 3 EMP's on one person. James is using the EPM on the satellite on me but he is infecting everyone within a half mile radius with cancer. He leaves it on day and night for years. That is terrorism and everyone with in the half mile radius will get cancer and die because of the FBI. They use the EMF still on my family and me to cook us like a microwave and to use our electronics to listen to us. The FCC went to agent Martins house about 2 years ago because he was on my internet and my computer and they seen his EMP and they told him not to use it on me. But he does not listen. I will wait until tomorrow to see if anything changes and if not I will also send these emails I've sent to you to the DEA. Please give the help I need to end this situation. Thank you.

My name is (b) (6) until 2012 I was just nobody Today I'm still nobody but I'm less one child my mind is wrecked

My life, mind and financial status along with any dreams are destroyed the reason may be shared as a result of torture augmented behavior torture ran by some professors from USC and Berkley I did not signed up for this and it's not just virtual crimes its physical there are some things about me that these criminals justify doing this to me Writing is not one for sure

I caught a girlfriend spying but that was nothing she was communicating with professors there building feeling boxes of data collected on me but torture she was doing to get it also setting up cameras being really mean making things happen this isn't just her this is a group since I rebelled this very resourceful group threatened me even some professor who was financing her sending money to buy domains used later to torture me loading material subjecting me to very powerful mean cruel material they even threatened me telling me we have friends in big government and they do they even threatened to hurt my kids weather they meant it or not my child was killed they along with id commons creative commons also even offered money and more she even offered to get me a passport illegally I never took any bribes later they set up meetings and then beat me up want me to join them

Later even sent a guy to threaten me and he took my truck crashed it on purpose almost killing a kid and me

Her name I (b) (6) age about 37 Google says they had no warrants for the video text emails they stole even hacking into my device and taking screen shots of me naked creating accounts in my name connecting them to keek twitter aiming them at my fb page installing proxies uploading all my art work marketing ideas and then using my ideas on google everywhere

Please help the only reason I fought them is because I don't have that many girlfriends and I loved her why and how can these people be so cruel and get away with this I'm not the only one I fought back I bought phones computers and I have my time capsule which is very intestine communication nothing out of the ordinary until you turn on java the hidden super user appears all her emails which I have her instruction scripted from the beginning These people are evil and my kid is dead because of it even now asking me to sign a paper stating I voluntarily signed up to be a part of this research in California and pay me money I've been through a lot

Melinda even contacted me saying she was made more like paid and offered me an attorney one of theirs they've also contacted me some lady professor threatening me to take money or ells I'm not against getting help but not from these people nothing good will come from them

My name again is (b) (6) cell (b) (6)

I don't want to fight them anymore please help[p me I cannot defend myself against them I can pay

Thanks

I also am in contact with others same but not extreme like mine

I downloaded Windows 10, There was a pop-up-window with it that I clicked on. It was about analyzing the sites for safety that I visit. This then eliminated Kaspersky on my computer. I googled Kaspersky and the page came up I believe was a "fake" Kaspersky page. When I called, the man named John said he worked for Kaspersky. He indicated that My IPP address and my computer had been compromised and for 699\$ he could fix it. When I said I didn't have that kind of money he said he could fix it for 399\$. He asked for American Express. I told him I didn't have American Express. He said the only way he could fix it was if I sent him a copy of my check. So I sent him a copy of my check for 399\$. He asked for remote access to fix my computer through log me in. I gave it to him. He supposedly couldn't fix the Kaspersky problem and downloaded Microsoft Defender. I later checked and Microsoft Defender was disabled. John kept saying my ipp address and my computer was compromised. When I googled Kaspersky later - the web page had changed - it was a totally different page. The real Kaspersky then helped me to download the updated version to work with Windows 10. John keeps calling me saying that there is a security issue. I have his recordings on the phone. He states he is from Kaspersky and Best Tech 247 which is who he wanted the check made out to. The phone number he calls from is 855-704-1390. I googled Best Tech247 and asked for the phone number to contact John and they gave me the 855-704-1390. I have stopped payment on my check and cancelled all credit cards and accounts.

City/State/Zip: Piney Flats, Tennessee 37686

Company Complaining About: Jobseeq

Description

I have been receiving email from a job board called JOBSEEQ, based out of Beaverton, OR. I have been receiving 3-5 emails per day from them. I have used their "unsubscribe" link on multiple occasions to end this, but to no avail. This morning, I again "unsubscribed" from the site, and also sent them a message through their website contact page, explaining my complaint, and again asking to be unsubscribed from their site. Approximately 5 minutes after sending that message, I received an additional email from their job board. Can you please contact them and let them know that I do not wish to receive an further correspondence from them.

Company Complaining About: Groupon

Description

Groupon listed my company Old Town Massage Center without my knowledge. They made up verbiage stating we are a day spa and do beauty treatments. We do strictly medical and therapeutic massage and body work. They listed outdated pricing. They showed us at a former address on the map. I do not wish for my company to be associated in any way with Groupon and very specifically choose to to use them as a marketing tool.

This type of "advertising is confusing to potential clients, and does nothing to positively promote the business that it is advertising. I have requested that my company not be listed by groupon. They said they would take it down. URL is <https://www.groupon.com/biz/alexandria/old-town-massage-center>

Company Complaining About: Sprint

Description

Google contacted me a few days ago telling me that my Google account had Been accessed by I.p. address (b) (6) Linux operating system at 4:11 pm on July 31 3015.

This is a problem that has happened to me repeatedly. However this time Google told me about it and the hacker did not change my Google password this time.

I don't know how it's done but I know that all that is needed is my cell phone number and a hacker can listen to my calls, read my texts, go to any web site I go to , and use my phone as if it was a landline extenstion phone inside their house !

My elderly parents complain that they can never reach me. My children can never reach me. My husband has to call numerous times. Sometimes for hours before my phone will show a missed call. It's not every day but it happens several times a week.

They are using data I pay for. A cell phone I pay for. While preventing my phone from ringing!

Sprint says they have no authority.

Google says they have no authority.

So who does have authority to stop this?

Have our lawmakers allowed cyber sales to walk us face first into a brick wall?

Ticket: # 460489 - Provider sanctioned scam

Date: 8/11/2015 9:45:33 AM

City/State/Zip: Madison, Wisconsin 53705-1083

Company Complaining About: AT&T

Description

At approximately 20:50 CDT on 08/10/2015 I had an email bounce to two of three recipients (including myself) because "body message file too large" and I called tech support at ATT.com. They looked at my account and said that the file was within the limits of acceptable size and referred me to Yahoo at 1-855-966-6111. I spoke with "Louis" who, without asking for my name or Yahoo account verification, said he could find the problem if I opened a command prompt and typed in www.lmi1.com to permit him access to my PC. I complied and downloaded a remote access program and allowed him access. Without looking at my email - either on the Yahoo website or the Thunderbird client on my PC, he opened a command prompt and typed "netstat". A string of information unfolded - see attachment.

He informed me that my network was insecure and that was the reason my email was blocked, but that I should not worry. "Do you do online banking or shopping?" he asked. When I said yes, he said that was why I was being hacked. I asked him to explain how he knew it was insecure. "Do you see those IP addresses (b) (6) ? Those are hackers and they have penetrated your system!" I asked if I should change all my passwords. "No, do not worry." he said. He would assign a technician and they would make it "secure for life".

He then opened a notepad document and typed in "Name: Email Address: Phone Number:" and asked me to fill it in. Then he typed in "Network secure for life". I sensed he was going to try to sell me something and I challenged him. I asked him who he was and who he worked for. He said he was a Yahoo technician. I asked if he worked for Yahoo. He asked me to hold and I was put on with "Robert" who told me that he was a supervisor and that my network was not secure and they could make it secure for life. I asked what that would cost me. \$149.95 was the answer and it included a year of free tech support. I asked who he worked for. Again Yahoo was the answer. I pressed on - finally he told me Mayas Services, which I searched and found it to be a call center provider in India.

While talking to him I had terminated the remote access and told him that I was having trust problems and I would have to do some research before committing to a purchase. I hung up.

I did more research after the call, including discussing the situation and specific data with a retired network administrator for the U of Wisconsin. As it turns out, the 127.0.0.1 address is a localhost address that every computer has and the whole "not secure" diagnosis is a sham. All the other IP addresses and sockets turn out to be a part of my internal system. I am fairly computer smart but because this scam was presented by a "trusted" source, I nearly fell for it. How many ATT/Yahoo users fall victim to this scam?

I ask that you investigate the practices of this agent and their contractor which appears to be Yahoo. I would also ask that you enjoin ATT from referring customers to this vendor.

Description

I have received approximately 700 texts messages from someone that I use to be friends with. It first started on July 2, 2015 one text after an another and it lasted for hours. All the texts said the same thing "Your a winner/ Happy Birthday". I downloaded AVG and thought I had blocked the emails from coming into my phone. Then last night, August 10, 2015 I started to receive text messages from the same person that said "Chicken Dinner/ Winner Winner Chicken Dinner". I downloaded another program and that program blocked 210 of those messages. They are coming from a person (b) (6) (b) (6), phone number (b) (6). He is sending the emails from (b) (6). I have contacted my local police department about this matter and filed a report, contacted Metro PCS, my cell phone provider and both of them told me that there is nothing that can be done except to block his email address. Description

Please reference the below email where Verizon Wireless has violated my Privacy and Verizon's contractual terms. I have screen prints from May 1, 2015 verifying that I originally chose to not be solicited from Verizon Wireless or any of their third parties. Verizon is violating US Consumer Privacy Laws.

Please reference the subsequent emails below where the "unsubscribe" link for which the consumer is able to opt out (through a third party!) leads to a screen which reads in BOLD print: "You should be aware that to honor your request, your email address will be shared with all the companies with which we partner, not just the company from which you received the email that led you to this page."

Offering an opt out service followed by a mandatory distribution of personal email accounts by a third party is in direct violation of Federal Privacy Laws.

Verizon Wireless is grossly violating consumers on a national basis, by directly violating Federal Law and Verizon's Terms of Service.

The phone number listed was 1-888-723-1065. Unfortunately he fell for this and called the number. Before he realized it was a bad thing he had given them access to his computer. He didn't give them any personal information other than his name. He didn't give them any credit card or banking information. However, he has done online banking on his computer. Once he wouldn't give them money he hung up and called me. I went over and repaired his computer and informed him to contact his bank and to watch their accounts. The bank has closed their online banking and will give them a new logon and password to a new online account. I wanted to make you aware of this scam. Company Complaining About: Henry Schein Dental

Description

The corporation Henry Schein will not unsubscribe me from their email mailing list. I have been told that my email is no longer in their system, but the emails continue. I have been trying to get this done since May 21st, 2015 with no results. I have spoken to a couple of people at Henry Schein and let them know I would be filing a complaint with the FCC if the issue was not resolved. The last communication with them went unacknowledged.

Description

On numerous occasions I have attempted to unsubscribe from blucigs.com email list. I no longer have an account with them and they continually send me unsolicited emails. The unsubscribe link at the bottom of these marketing emails takes me too a login page. Then again, I no longer have an account and cannot login. I have emailed them directly and was told I would be removed. This was a few months ago and the unsolicited emails continue. I am at my wits end. Please help.

Company Complaining About: Harv's Carwash

Description

After asking a question (on the Harv's Carwash website) about a closed car wash, i received an unwanted solicitation to use their service. Most other companies would just send a confirmation stating that they had received my question and will respond shortly. They did not have prose like this in their email, just a coupon offer. Its like they saw this as an opportunity to collect email addresses. Their website did not have any warning that they would use my email address. The spam email also did not have any opt-out option.

Company Complaining About: AT&T

Description

AT&T continues to send texts to me after I have opted out. Admittedly I am their customer and have my cellular phone service with them. Nevertheless, the texts are extremely horrible since they wake me up very early in the morning. At that point, I cannot go back to sleep. What's shocking is that 1) their customer service people continue to claim they have opted me out and I will no longer receive texts and yet I continue to do (this has been like this for over a year with me calling 7 times. 2) Sometimes, they actually blame you guys, the FCC, claiming there are "mandates" that force them to text me. I know that's bullshit because obviously receipts are in no way mandated by the FCC! 3) They do NOT have a mechanism for stopping these texts and if you text "STOP" there is no way to do it. The only identification they give is a possible APP where I can sign up. However, get this -- I do not have a smartphone or iphone but only a simple cell phone and thus I cannot use that at all! 4) I have written to the legal department, the dispute resolution department, the CEO and their normal PO Box, all to no avail. I have texted them, called them 7 times, went on their website and got opted out but it doesn't work. 5) This morning a supervisor told me I CANNOT stop these text messages because that's just how AT&T works and there is nothing I can do. This is affecting my health, my career and my psychological state. Once I am woken up, I simply cannot go back to sleep! I googled this issue and a lot of people have the same exact complaint -- that there are glitches, that their system does not work, that they refuse to stop, etc. Please help me. Get them to stop and give them a TRUE taste of the law, since they clearly do not know and refuse to obey claiming the FCC actually forces them to text me, I kid you not! They call it "FCC-mandated" texts. Yeah right! "come in for a sale on new phones!" Is that FCC mandated??!?!?!?!?

City/State/Zip: New York, New York 10003

Company Complaining About: Ntsitcare

Description

During a private browsing session on Safari, I got a pop-up window claiming that NTS was an Apple-approved service to help when people get hacked, directing me to call a number for help and instructing me not to take down the pop-up window or restart my computer. I should have ignored it but I have been hacked once before and it was pretty awful. I called the number at which time Erik asked permission to access my computer so he could show me what the hacking activity was. I did so, he showed me some activity going on with my computer (I had no idea what it was, I am not a programmer) and he then offered me 2 payments plans, one for a 3-year warranty at \$369.99, and one for a 2-year warranty at \$269.99. I asked for a one-time service, he said it would cost \$169. I said I didn't have that. He put me on hold, came back, and told me it would cost \$69.00. I let him charge my debit card and he sent me a receipt by email. He then said he would assign a tech to deal with the hackers and that it would take 30 to 45 minutes and I should not touch my computer. The only thing I did after that was note down my Serial Number. I then called Apple Tech Support, they said this company has nothing to do with Apple, that if I did, in fact, have a hacking problem Apple could fix it for a \$35.00 tech support incident charge or possibly for nothing if my computer had an AppleCare plan. Apple suggested that I get rid of the people controlling and "working" in my computer, however, while they were working in my computer I saw what they were doing and while they installed some MalWare protection and AdBlocker protection, when they installed the MalWare program it sent a message saying "No malware detected on this computer", in other words, I had not been hacked and nothing else that the company did indicated that they were "fixing" a hacking problem with my computer. I disconnected them before they were through, I called them and told them that I would dispute the charge they took to which they replied that the charge had already been taken (it had not). I have an email confirmation from them for the charge and will take it to my bank and dispute it. In summary, NTSITCARE sold me a service for my computer that was completely unnecessary and under false pretenses. (b) (6)

Date: 8/13/2015 2:35:50 PM

City/State/Zip: Boston, Massachusetts 02109

Company Complaining About: Xo Group Inc. Including The Knot & Wedding Channel

Description

A friend of mine signed me up for The Knot as a joke. They sent me three emails from different brands. I clicked every unsubscribe link possible. The next day I received 6 consecutive emails from The Knot - I unsubscribed again. One of their emails (from "Wedding Channel") did not even include an unsubscribe option. I wrote them an email asking them to remove me from all emails including their subsidiaries, partners, and marketers they've sold my info to. They did not respond. I then received two more "offers" compliments of The Knot. I unsubscribed from both. Then I logged into my account and checked email preferences -- all of which were set to "off". I re-saved everything to make sure they are actually all turned off. Then I canceled my entire Knot account. Today I received another email offer from The Knot. I tried to log back in to make sure my account was successfully canceled and The Knot tells me I no longer have an account. Therefore I have no further course of action to take to make the emails stop.

The Knot is a plague on humanity.

Company Complaining About: Sprint

Description

Sprint associate, after returning my phone, due to upgrades made on my account, friend requested me via facebook. After one day proceeded to tell me through small talk, asking how my phones were, that he went through my phone and saw lingerie photos that were for my husband of me in my in camera setting and how he enjoyed them. Questioning how he did this and if he still had my phone i contacted sprint. My husband spoke for me as i was in tears and the associate eventually pushed us through to a supervisor who said he would relay the messages of this incident to a direct sales manager. He stated direct sales managers usually call no one back. That was not good enough for us...so he proceeded to say maybe we would have a resolution or a call back the following week as it was a weekend. We in return had no call. So we contacted the district attorney's office and they gave us a number to sprint security. Finally that afternoon, a regional director for sprint security and the corporate store that incident happened in contacted me and requested the messages be faxed or emailed to him and would help me in this matter. I do not understand why it is so easy for associates to maintain someone's phone long enough to go through all of someones personal information that is left on these payment plan phones. I am humiliated beyond words and need assistance, compensation and a peace of mind that something needs to be done to stop this. I cannot be the only one.

i have unsubscribed from facebook from my email (b) (6) a multitude of times now. I never use the facebook account, i have deleted it, but for some reason i am still receiving spam.

Facebook has outright refused to cease the spam. i even sent emails to multiple facebook legal department offices (and the emails were sent successfully and did not bounce) (most recently July 29th 2015) demanding they cease the spam and outlining my legal complaint under the CAN SPAM ACT and California spam law. They have refused to respond, and have continued to send me spam to this day.

Facebook is willfully violating the can spam act by refusing to honor the usubscription requests of users, facebook is willfully violating the CAN spam act by failing to honor unsubscription requests promptly. among multiple other state and federal communications and privacy violations regarding this matter.

i have attatched two emails to show they are still emailing me, even after a multitude of attempts to get them to stop. these emails are marketing and advertising emails trying to get you to come back to facebook, build a better profile, get more friends, and see more advertisements and build individual advertisement networks they use to advertise to people, which facebook profits from.

Company Complaining About: Comcast

Description

I'm in the process of trying to refinance my mortgage. I looked at my credit report in March 2015 to ensure everything was fine. There was a negative account on my report from Comcast. I called Comcast and after speaking with the supervisor she confirmed that this account wasn't mine. It was under someone else's social security number. I was told they were going to remove my information from the account. I looked at my credit report in July 2015 from a different credit company and the same account showed up. I called Comcast and they said it was the credit company's mistake. I called the Credit Company and did a three-way call with Comcast and the negative account was removed from my credit report. Yesterday I received a letter from SouthwestCredit a collection company regarding this same Comcast account. Comcast gave my current address to this agency and now they are sending me letters asking me to make a payment towards this account that isn't mine. I've contacted SouthwestCredit and explained that this account isn't mine, but they won't remove it until Comcast contacts SouthwestCredit to let them know that it's not my account. I've called Comcast again and requested to speak with a supervisor. A supervisor is supposedly going to contact me today. If there is anything you can do to assist please help me.

City/State/Zip: New York City, New York 10012

Company Complaining About: Time Warner

Description

On my TWC, we are concerned about intrusion and identity theft. My wifi in terms of my security has been affected. This has thrown off all of my devices and created room for a serious data breach.

We also had an issue with my Sprint wifi and all of my data was used and I responsible for the payment.

As it stands? We are concerned that thru TWC employees our private account info is breached and it has put us in security damages.

We are seniors and disabled. We feel we are being targeted for fraud and abuse. We need for our account to have an extra layer of security, as per identity theft victims and or domestic violence types of cases.

Our cameras are based in the wifi. We would like an entire forensic accounting of our security default parameters. We have had to get 3 modems. But we cannot control the SSID or password nor sign in.

We are also under a lot of stress to give up our home and are not comfortable with property owners controlling the TWC cable base account under our circumstances.

We feel it puts us at risk and it has.

What can be done to secure our accounts and devices?

We cannot afford to keep buying new phones, pc's and services.

We were told buy local law enforcement, that the burden of proof of intrusion and data breach evidence is on us as Seniors and the disabled.

Is there a service which can guarantee that it will not be tapped or breached and evidence of such issues? Who is responsible to pay for these tests and services, if not the computer crime squad?

All of our licences and family members are put at risk for our banking benefits and even our vehicals for hacking due to prior intel on our cars thru hacking. Which in turn we have gotten threats. We need evidence to help law enforcement to pressure the solution to vulnerabilities which the elderly and vulnerable face.

Please help us and refer us to secure accounts and trustworthy employees whom will not give out personal account info nor create scams with our billing or credit info.

Thank you in advance,

City/State/Zip: Marysville, Michigan 48040

Company Complaining About: Copart.com

Description

On March 31, 2015 Copart Inc did not protect its clients from a security breach. Sean Eldridge, Senior Vice President and Chief Operating Officer mailed a letter dated May 27, 2015 to James Edward Zimmer admitting the security failure. It was on a global scale and impacted Admiralty Developments Corp. Busha Motors.Com and Parts4less in a negative way.

Copart Inc admitted to unauthorized access to names, address, driver's license numbers, telephone numbers, e-mail addresses and the user name and password for Copart .com accounts. However, no financial compensation was offered for the damages suffered by these businesses.

Copart.com allowed the unauthorized person(s) to purchase not one but two automobiles. These businesses were charged for the automobiles, charged storage fees and charged relist fees for the automobiles. Copart.com is a global corporation. This security breach negatively impacted our credit and substantially damaged our stellar reputation.

Hello (b) (6)

We're sorry that you're getting emails from us that you don't want.

We've checked our database and we can't find a profile for the e-mail address you gave us.

We've gone ahead and added it to our e-mail suppression list anyway so that should fix the issue. We don't have anything to do with the e-mail distribution of promoters or others that bring events to us.

If you want to unsubscribe from their e-mails, you'll need to reach out to them directly. If you need anything else, just reply to this email or visit Help on Ticketmaster.com!

Sincerely,

Company Complaining About: Comcast

Description

I kept getting what appeared to be marketing e-mails from Comcast, at my private e-mail address, which Comcast flatly denied they even had in their computer systems. I was told that these "marketing e-mails" were actually PHISHING e-mails. OK, so I was instructed to send them to their "abuse@comcast.net" address. I did that...day in, day out, each day, forwarding these "phishing" e-mails. After about a week, the marketing e-mails stopped...and then I got an e-mail saying that these supposed phishing e-mails were, in fact, legitimate Comcast marketing e-mails after all!! What makes me really upset is that Comcast has fully denied they have (let alone use) my private e-mail address at all (clearly not true) AND I was told that IF the e-mail is sent by anything other than "Comcast.net" (the e-mails coming to me were all from "Comcast.com"), then they have to be phishing e-mails. THAT is NOT true: I have proof that Comcast sends out marketing and service e-mails under the Comcast.com address; contradicting specifically what I was told by 2 DIFFERENT Comcast employees (in their anti-phishing department). This is TERRIBLE customer service AND I have no reason to believe that I won't get future e-mails (this) private e-mail address I am writing to you from now. Honest mistakes are one thing: blatant lies and deceptive practices, like what I just experienced over the past 2 weeks, are absolutely unacceptable...and it definitely seems like a pervasive practice at their company, based on my experiences. I have copies of ALL of the e-mails I've received and sent re: this issue, if you want to have them, so I have proof of my claims. I sent at least 5 such "phishing" e-mails to Comcast. I have cut/pasted ONE of the e-mails I forwarded to Comcast AND a cut/paste of the e-mail from Comcast telling me that their e-mails aren't Phishing e-mails after all....OK...but that doesn't explain why they are abusing my private e-mail address after being expressly told NOT to AND it still continued for a week!!!!!!

Description

The company Qello.com has received, I believe illegally, an email address only used for correspondence with Apple and as my apple ID (b) (6) and is continuously sending spam to this address. I do not use Qello's services, have not provided them with my contact information nor authorised their continued abuse of it.

Attempts to unsubscribe to these mails are unsuccessful as the site rejects the email address it is sending the spam to.

As a tangential issue, I believe Apple is releasing consumer information contrary to legal protections.

Your newly listed address in Alabama is a private residence. I do not have a business listing. Company Complaining About: Nest

Description

In early March 2015- I canceled my account with DropCam after they were acquired by Nest (did not like how the transition was handled). When I called DropCam to ask how I could return my camera I was told, even though camera was only 2 months old, no refund. When I stated that I now owned two worthless cameras, I was assured -- cameras still fully functional and perhaps I should try to sell on E-Bay.

This week, since I had been advised the cameras would still function, I tried to connect it to an independent video app - Camio. You can imagine my surprise-- the DropCam camera not only still functions, when I plugged it in, it recorded activity in my home and sent to Nest. I started getting emails with photographs of me moving around my house in my pajamas.

Last year I went shopping at Neiman Marcus Last call, and opted to have a receipt emailed to my personal email. I started to receive spam emails from an employee. Multiple times if followed the directions to unsubscribe from the list with no effect. I called Neiman Marcus Last Call store and spoke with the manager to have myself removed. She removed my email from the list, and stopped receiving emails for 6 months. About 3 months ago, I started to receive marketing emails to my personal accountant. I followed the same steps as before and to unsubscribe with no effect.

I read about CANSPAM. I learned that Neiman Marcus Last Call is violated the act.

Ticket: # 593245 - dating services

Date: 10/15/2015 3:15:42 PM

City/State/Zip: La Porte, Texas 77571

Company Complaining About: Match.com

Description

I was online and all of a sudden a message popped up that my profile was being exported to Match.com. I did not sign up for this service. I immediately began receiving emails from them and their users. It's some sort of free trial. I received an email with my logon and password info. I found a consumer issue button and emailed them to remove my profile as I did not sign up. Their response was for me to go to the original email and find the Unsubscribe button. There wasn't one. I went to another email of theirs and found an Unsubscribe button and entered my email and it said it could not find it. I emailed them again and told them to remove any profile their system built for me immediately. I am still waiting for confirmation.

Ticket: # 593277 - harrasing emails from religious organization

Date: 10/15/2015 3:21:19 PM

City/State/Zip: Salem, Oregon 97301

Company Complaining About: Willamette University

Description

I have repeatedly received harassing emails from the "Bhakti Vedanta Institute of Spiritual Culture & Science" (20 Nassau St., #116, Princeton, NJ 08542, USA). I have repeatedly requested that author of these emails stop sending them. Instead, he has taken to carbon copying his messages to everyone in my department.

The messages began after I wrote a blog post criticizing religious tracts masquerading as scientific research. After reading the post, the author began broadcasting criticisms of me to dozens of people at my university. I sent a request to him directly asking him to stop, at first he ignored this request, but after a second demand to stop, the emails abated for some time. Now, however, the harassment has recently begun again. I have uploaded two of the messages as examples.

Company Complaining About: Verizon

Description

Dear FCC,

I've requested K Strategies of Dallas n several occations to remove me on their mailing list.

K Strategies Group

2626 Cole Avenue, Suite 501

Dallas, TX 75204

P: 214-599-9766

F: 214-520-3494

E: info@kstrategies.com

I've also send multiple emails to be remove on the mailing list and how important to follow request. Below you will find one of the email I sent to K Strategies.

Hi (b) (6) ,

I'm not sure how my email address was added to your email list but I'm not in the construction or own a DBE business.

Also, because you have (cc) a combination of both private and personal email address you have to follow the CAN-SPAM Act of 2003 using the "Sending behavior compliance". Sending mass email to 15+ private and public emails is a big NO NO. For each and every violation of the CAN-SPAM Act of 2003, a business or person engaging in commercial emailing's can be fined up to \$11,000.

Nevertheless, below you will find many great tools that can help you stay in compliance when sending mass-emails.

Constant Contact is the most popular and probably will provide the best results. Other great email marketing tools and services at reasonable price includes: iContact, GraphicMail and GetResponse.

Also, if you're looking for free email marketing tools and services. You should look into MailChimps or Benchmark. Both have free plans available.

Hope this information helps you keep your email distribution in compliance. In the meantime, please remove me from your list.

Thank you,

(b) (6)

Ticket: # 595603 - Verizon Improper Activities**Date:** 10/16/2015 1:13:54 PM**City/State/Zip:** Ashburn, Virginia 20148**Company Complaining About:** Verizon

Description

Verizon Security investigated how my individual account (FIOS) was permitted to be changed and closed without my permission, yet leaving me with the remaining bill. They claim their staff did nothing improper & that my EX modified with my personal info. They refuse to put those findings in writing without my Divorce att filing a Subpoena. As the contract was up, they agreed they would zero out the final bill. Two months later, I start receiving bills again AND they turned me over to Collections. The EX or her agents perpetrated a similar breach with my individual Sprint wireless account, which I am filing separately. I've been asking Divorce counsel to start delivering subpoenas, but I shouldn't have to pay for them to do what is legal and proper. I have also emailed North Shore Agency with directions to cease and desist this disputed account.

Ticket: # 596435 - internet/phone hacking

Date: 10/16/2015 5:13:19 PM

City/State/Zip: Oceanside, California 92057

Company Complaining About: Metropcs

Description

All of my personal phone contacts, Social Media sites, Apps, Messages, my camera, audio, settings, Pandora, Memos, Street View, Google Earth, Metro PCS apps, Drive, and major browsers including Google, Chrome have been hacked. How I finally got to the bottom of this was that I noticed my LIFETIME data usage was being used up at an extremely high rate considering I had the phone for less than a month. That's when I discovered all kinds of spyware applications had been added to my phone via a new account which they had added using another one of my emails, (b) (6). From there I figured out that they were using my emails, FB, Twitter, whatever they could get their hands on to post nasty comments about themselves that made it look like someone was trying to ruin their reputation, when in actuality they were making these nasty comments about ROBERSON at Macnica America West Coast Operations in Solana Beach, a international company worth 3.2 billion dollars about THEMSELVES! The main players being (b) (6). I believe set up (b) (6) to take the fall for all the postings making him the official Editorial Contact. This was another red flag as I know (b) (6) who suffers from mental illness but is also a genius when it comes to SEO internet stuff which he most likely thought that he was being hired for then got caught up in this evil web. Eventually due to all, sometimes up to 19 servers and God knows what else tracking my every move and using my emails with several additional emails added to my original such as (b) (6).comthem etc They did the same with (b) (6) others and especially (b) (6) which I think is the main one they have been using to set ME up. But now when I would go to write a message to a friend, etc, their emails starting coming thru. That's how I found out what they were up to including threats to me as (b) (6) bragged about how he is a very important person and knows people in NYC that have already murdered four people who tried to ruin someones reputation, they also talk about setting up a new operation in NY, laying low for about a year, staying ahead of the FEDS, buying a lot about an acre for operations. Also now their crew called the brainiacs have stumbled onto (b) (6) email and are panicking that their personal business may be linked to (b) (6) website which includes Sports Betting and the like. I could go on and on. I have records including them linking all my phone numbers to them, I have all the fake FB names, Gmails, some of their passwords and documents, lets just say I have enough information and documentation and evidence on my phone right now to persecute them over and over. Currently they are desperately trying crawling through all phone, email docs, etc. because they don't its me who is receiving all of this info, the very person they try to exploit in the first place. The only number you may be able to reach me at is on my Obama phone, (b) (6) but that line may go thru them first as the number they hacked does unless they are running for the woods as I write, (b) (6). My home address is (b) (6) Oceanside Ca 92057 which they know where I live and I am very nervous. They know I am on SSI for PTSD and figured I would be an easy mark as (b) (6) had all my vital info due to the fact that he was once my payee. This is the mini readers digest version. I need help. I am scared. And I need an attorney as I will be suing them for Intentional Emotional Distress among other things. Please get back to me any way you can. Don't believe a word they say I have ample evidence to prove they are criminals and will stop at nothing to

protect themselves at my expense. I can also be reached via my roomates phone, her name is (b) (6) BUT her line is linked to mine as well thanks to (b) (6) and his evil scams.

Ticket: # 598167 - I DO NOT AGREE!

Date: 10/18/2015 11:57:35 AM

City/State/Zip: Miami, Florida 33127

Company Complaining About: Comcast

Description

My home internet is NOT a cell phone, I do NOT agree to my personal usage being monitored nor capped! I DO NOT AGREE WITH THIS

Letter to FCC:

COMCAST'S recent decision to impose arbitrary bandwidth caps on it's customers flies in the face of the service they were hired to provide. The model for internet service in the United States is that the customer pays a reasonable, set monthly fee for unlimited internet service. Other countries have spent billions trying to obtain the same level of access--an achievement that they're now destroying in the United States of America.

Right now in many parts of the world, people can subscribe to unlimited Internet service with much faster speeds than are available in the United States for pennies on the dollar for blazing 1 gigabit per second transfer rates. However, Comcast is squandering billions in taxpayer's dollars given to them to build America's next-generation of broadband Internet access. Rather than improve their network, they have decided instead to penalize customers, by placing a meaningless and austere limit on their freedom to information.

Not only is this a step backwards in today's modern world of communications, it is also antithetical to the service they have been entrusted to provide. It is their job to provide Internet access so that American commerce and ingenuity can grow in these harsh times, not to stifle American competitiveness with their greed and apathy. As ISP providers, we expect them to improve our quality of service, not the opposite.

The internet is too critical in modern day infrastructure for American business, political activism, and creative expression, to suffer from their tyrannical greed. They MUST be required to immediately return to the model of a standard monthly fee for unlimited, unrestricted, high-quality Internet access.

Date: 10/19/2015 2:13:18 PM

City/State/Zip: Delray Beach, Florida 33445

Company Complaining About: AT&T

Description

I have ATT internet service as my provider and always have. In the last two days, I kept getting popups from Comcast as to enter my ID and password. I was able until today to just x it out, until this morning and it would not let me do anything. They had control of my computer and I could not get on AOL until I rebooted my computer, and even then and now I have to google AOL mail. I tried for over 45 minutes to contact someone to give me an answer to this and no one could. All were in a foreign country. The phone numbers they give you like 1-800-Comcast, and 1-800-Xfinity (which is given on their webpage) are not working numbers. Even a lady today tried to give me the 1-800-Comcast, she did not even know it was not a working number. I feel this monopoly is a loose cannon and trying to take away my security and intrusion into my home and computer. There is definitely something very suspicious going on here and I need help, which they cannot and will not provide. Since they are licensed by you to do business, please help me. (b) (6)

Description

I am a Verizon customer. I need copies of our call records. I have been advised that a court document is needed to access that. Verizon's customer service agents said this is an FCC regulation. Why is this the case? Where can I find this regulation? Verizon's customer service states they do not know which regulation mandates this but it is enforced by Verizon's head offices. I need a resolution.

Company Complaining About: Flightcar

Description

I recently used the service "FlightCar" to rent a car for 10 days. Over the course of the rental, I received emails multiple times a day for several days containing other people's information and embedded photos. I notified the company to let them know of the inconvenience/annoyance and privacy breach, yet it continued. I then started getting text messages that were not intended for me. I never requested or agreed to receive text messages at any point. I also informed the company about these inappropriate texts, yet they continued. Finally, I am now receiving emails from an entirely different company in regards to my "experience" with FlightCar, indicating they have shared my information with third parties. I am concerned and very upset about this.

Description

A local auto dealer, Lia Auto Group (www.liacars.com) has been emailing me incessantly despite numerous attempts to get them to stop. I gave my contact info to a salesperson yet did NOT consent to receive emails. I have contacted them by phone at the specific dealership (Lia Infiniti), called corporate marketing, left numerous unreturned messages, tried online chat and all to no avail. I literally get email from them daily and the biggest problem of all is that there is absolutely NO unsubscribe link in any of their emails. I used to work for Experian Marketing Services as a data management consultant and quite aware of (b) (6) obligation to first get opt-in (which I did not give) and to give a convenient way to opt-out. It seems there is no method of communicating with them that will get them to purge my data or run me on a do-not-mail suppress. This has been going on for over a month. When leaving a message with one person who emptily promised to have my email removed, she mentioned that she gets "lots of these types of complaints."

Thank you for your attention to their non-compliant communication practices.

(In completing the rest of this form, I do not understand why it is requiring my internet service provider as my issue is unrelated, however I have completed it. I was directed to this form from the page for complaints related to spam email).

Company Complaining About: Cricket

Description

Payday Loan company calls and texts multiple times a day from different numbers. I never gave them permission. 520-253-8517,205-217-7581,844-906-0568,419-434-9669,425-598-0120,480-725-6222,724-616-0231,862-219-7155,301-453-5925. Just a few of the many robo numbers that they use. Please do something about these companies infringing on my rights.

Ticket: # 604298 - endcitizensunited.com unsubscribe violation

Date: 10/21/2015 1:11:59 PM

City/State/Zip: Arlington, Massachusetts 02474

Company Complaining About: Verizon Wireless

Description

The unsubscribe link in the emails I receive from this organization says:

"Emails are a crucial way to stay in touch with our top supporters. If we're going to pass a Constitutional Amendment to overturn this decision, we need you with us every step of the way.

If you'd still like to unsubscribe from our emails, [click here.](#)"

However, the link goes to a page - <http://act.endcitizensunited.org/page/s/less-emails> - that at first glance is an unsubscribe page but in fact, when you fill it out, says they'll send you less email.

And, indeed, they keep emailing me.

Date: 10/22/2015 10:00:15 AM

City/State/Zip: Milwaukee, Wisconsin 53208

Company Complaining About: Boost Mobile

Description

Once you apply for a job as an Uber driver, they will SMS instructions for how to continue the application. I chose not to pursue that application, however I get SMS every day since June, sometimes twice a day. It is now October, so this means I have received hundreds of unsolicited messages. They are unsolicited messages because they do not include an opt out feature and their local offices don't provide a phone number where an employee can be reached. I tried to find the SMS complaint form but the website keeps directing me to this form, so please disregard any required fields related to "internet issues".

Ticket: # 606346 - Rain King - Centralized distribution point for SPAM

Date: 10/22/2015 11:18:07 AM

City/State/Zip: Lake Bluff, Illinois 60044

Company Complaining About: Raining

Description

Raining Online is an email marketing organization that somehow has scraped my email address, my job, and internal details from our company based on marketing "big data" research done against our company IP address and possibly attendance at trade shows. They subsequently sell the usage of my email address to a multitude of companies. I have unsubscribe email links with the word "Raining" in them as well as an email from someone who sent me a spam who explained to me that she got my email from Raining.

No matter how often I unsubscribe, I continue to get 10 - 20 unsolicited emails on a daily basis. If I don't unsubscribe, I continue to get 10 - 20 unsolicited emails per day, and the subject matter and senders gradually change over time as they give up and move on.

Raining is acting as a single, centralized spamming agency and is not respecting my requests to unsubscribe. I am willing to provide all of my captured spam emails, and provide as much technical analyses as required to assist in building a case against them. Further to this, the distribution by Raining of information pertaining to our internal operations and searching habits (that they glean from their ad networks and our trade show attendance) is tantamount to corporate espionage.

Date: 10/22/2015 12:28:45 PM

City/State/Zip: Darlington, South Carolina 29532

Company Complaining About: Time Warner

Description

A pop up through Safari on the Internet impersonated, it seemed, An Apple pop up on my Apple iPad mini. The pop up locked down my iPad and asked for me to call a number, which I did because I thought I would be dealing with Apple. The person on the end of the following telephone number 800-717-9850 requested remote control of my iPad through the my Mac mini. With remote control access, this impersonator showed me all the so-called malware on my iPad or Mac mini on the screen and printed out for me on my own printer. Either way, I was told to contact a business in Columbia, SC at 107 Westpark Blvd., Suite 135, with a telephone number of 803-561-0845, or to go online to a particular website, www.quicksolsupport.com to get my iPad and Mac mini cleared of these malware for \$340.00. That I refused, double checked this 800 number with the Apple 800 number. Called the Apple 800 number, reported the lock down through Safari on my iPad, and was provided technological service to unlock my iPad. The same was done for my Mac mini, which did not lock down until after remote control access of my Mac mini was given to the imposter and we completed the support call. I am unsure whether during the impersonator's remote control access to my iPad and Mac mini data on my both systems were compromised. I feel as if I was set up and should have known better than to provide this access, but I truly believed I was working with agents from Apple. I want your Commission to know that this has happened to me and is probably happening to many other. I believe the goal of this pop up coming through Safari is to get money and personal information. Please help us.

Subject: Announcing Brand New Features

New Do It Yourself Features

For those of you that love our do it yourself ordering - today we introduce some great new features. Of course, if you're not interested in DIY - we would definitely recommend our full-service offering where we take care of everything for you.

DIY Group Order Per Person Limits

We are excited to announce a much requested feature - the ability to set per person spending limits on group orders. Now you can create group orders and ensure your team doesn't go over your budget.

DIY Group Live Chat

We now also introduce the ability to discuss what you're eating while you order. This is a really cool way to communicate with your team & discuss why a steak burrito is superior to a chicken one or alternatively why a hot curry truly defeats a mild one.

Full Service

We are now catering companies from 10 to 300+ people. We offer full meal planning, organization, full-service setup and delivery from all your favorite local restaurants. This hassle free option makes it so easy to organize your team's lunch, dinner and even drinks from 100's of local restaurants.

Date: 10/22/2015 10:22:26 PM

City/State/Zip: Marietta, Georgia 30067-5777

Company Complaining About: AT&T

Description

I was changing my email address on my AT&T account online. I did not list other phone numbers in the account before. When I tried to save my new email address, I received an error that I HAD to put a Primary and Secondary phone number on my account. As I was adding a phone number, a small window came up that said: By adding a contact number, you authorize AT&T to call or text you with information about your AT&T services. *To opt out of receiving messages, call us at 800-288-2020.

My complaint is: I feel I was forced to add TWO phone numbers to my account when I did not want to add any. Now I have to call a separate number to stop AT&T from having people call me trying to sell me services. Why am I being forced to give a number when I do not want to authorize AT&T to call me? That is not fair at all! I should be able to check a box to say I do not authorize AT&T to call me rather than have to go through an automated menu and a call center to get off the list.

Please PLEASE have AT&T fix this tricky way to force unwanted calls on customers! Thank you SO MUCH!

PS - I have screen shots

Description

September 25, 2015, received notice of a Mac connecting to my google account:

(b) (6) around 7-8ish in the morning. I searched the non-encrypted IP Address to a location in Northridge: 9430 Claire, a big castle-like home behind a gate. Today, October 22, 2015, I ran into some problems in trying to set up a paypal account with email: (b) (6) and I called PayPal to discover that an account has already been set up with my actual (b) (6) Checking Account number at 8:21am on September 25, 2015. I am deeply concerned about my identity being stolen, and I know who would be motivated to do this, and I know what they may be trying to accomplish in doing this as well. I wish someone would just give me the benefit of doubt, and look into this for me. Otherwise, I do not feel safe and secure. Thank you for your consideration. P.S. Here are the names of suspects involved:

(b) (6)

(b) (6)

(b) (6)

Also, a friend came by my house recently, and he happened to have been borrowing a cell phone from a friend of his, that once belonged to (b) (6). He gave me permission to upload the photo gallery of that phone onto my Mac Book Pro. I have that information to pass along to any investigators of this matter. I haven't looked through it all, but what I have seen are pictures of computer screens with commands and coding info, audio/video recordings of schemes involving other people who I do not know, and who know what else of relevance. I am happy to pass this information along to the authorities at any time. Thanks.

Description

My full home address appears here on the FCC website:

<http://apps.fcc.gov/ecfs/comment/view?id=6017663746>

I am not disputing the comment, but I'm wondering if there's any way to unpublish the address portion of the comment (or even cut it to simply the city or state). I don't really mind the FCC having my address, but I think the listing is providing my information to web spiders and other data brokers. It's one of the only publicly-available instances of my full address I can find. Please advise.

We are providing a chance to solve this case. You make a payment to the above mentioned btc address. The time ends in the next 24 hours. We will not publish your data and we will not inform your contacts.

You can get bitcoins at an exchange like (b) (6) (b) (6)

If you pay within 24 hours of receipt then we will delete your record. No payment? Then you will see what happen after this period. Once this period has expired, we can't do anything more for you. Our website is launching soon. We will surprise your family, friends and colleague with it. We will give you this one last chance.

You may be wondering why should you and what will prevent other people from doing the same, in short you now know to change your privacy settings in Facebook so no one can view your friends/family list. So go ahead and update that now (I have a copy if you dont pay).

Consider how expensive a divorce lawyer is. If you are no longer in a committed relationship then think about how this will affect your social standing amongst family and friends. What will your friends and family think about you?

Ticket: # 610661 - On Time Ads and CAPTCHA**Date:** 10/24/2015 10:54:40 AM**City/State/Zip:** Hockessin, Delaware 19707**Company Complaining About:** On Time Ad

Description

I get numerous unwanted email messages from vendors, often sent by a firm called "On Time Ads." These email messages have an unsubscribe link from both the firm offering the product and service, as well as On Time Ads. I always unsubscribe, but 100% of the time I cannot use the On Time Ad "manual unsubscription" page because they include a 4-digit CAPTCHA (is that legal under the CAN-SPAM Act?) which does not recognize the code when entered. I am not entering the wrong code and in fact, the page says "the letters are not case-sensitive," so with only four letters that are not case-sensitive, it's practically impossible not to key the right code - at least the number of times that I've done it, all without success.

Here is a link to the latest On Time Ad unsubscribe page I received today:

<http://cadaverously.com/index.php/site/unsubscribe?u=NWFIMywxZTM0ZSw0MjAxMw%3D%3D>

I feel that On Time Ads has deliberately set up a page to give the impression they are complying with the CAN-SPAM Act, but in fact, are not adhering to the law. I have noticed this for at least the last six months, if not a year, so it's not a fluke... it's on purpose.

Please do everything in your power to shut On Time Ads down, or at least make them cease this fraudulent, illegal and annoying practice.

Company Complaining About: Verizon Wireless

Description

While trying to Unsubscribe my deceased mother-in-law from (b) (6) List mailings, I was FORCED to sign up for their mailings myself. By forced I mean that I used their "contact us" site, wrote a quick email asking for my mother -in-law to be removed, and tried to hit send (a process I have done numerous times on other websites). The website kept saying that I was missing required fields. To finally get the email to send, I had to give them my email address. That resulted in an email to me thanking me for joining them. Now I am getting their emails. I was afraid that would happen, but planned on Unsubscribing as soon as possible. I have tried to unsubscribe from their website, but when you hit "unsubscribe" it just takes you to their website. You are NOT directed to a regular unsubscribe site. I believe this violates the CAN SPAN ACT of 2003. And its EXTREMELY frustrating.

Thank you for looking into this.

Description

For the last 3 or 4 weeks I keep receiveing emails from Airbnb in regards of a reservation for another person. I don't have an account with Airbnb, neither they are supposed to have my email address. The emails I receive are from person whose name is (b) (6). I replied to one of those emails explaining that I don't have a reservation, neither account and that I no longar wish to receive emails from them. Instead I kept receiving emails from Airbnb. I found on one of the emails option to unsubscribe, I clicked there and was supposed to be out of the system, but I continued to receive emails. A week from today I called Airbnb customer service and spoke with representitive explaining the issue, he assured me that will take care of the problem, but refused to give me a complaint or case number because I did not have an account with Airbnb. Yet a 3-4days later I recieved emails again from them n regards of a reservation for another person. My concerns are how my email ended up there, and is someone actually trying to make reservations on my behalf? Today 10.24.2015 I received 2 emails again from Airbnb in regards of a trip for some person named (b) (6) and after my complaint Airbnb still fails to resolve this issue.

Thank you, and I hope you can help me resolve that problem!

Company Complaining About: Comcast

Description

I never signed up to receive email notifications from <http://competitor4life.com/>. I have received numerous promotional emails from this company. I've unsubscribed from their list 4 times, but they continue to solicit me.

Since their unsubscribe link does not remove me, I sent an email to competitor4life@gmail.com. I asked them to remove me from the list.

Can you please help me?

Company Complaining About: 365 Local Car Insurance

Description

I have received emails with headlines "(b) (6)" - re. your RANGE ROVER RANGE ROVER" for over a year now, and have made multiple requests through the links on the email to unsubscribe from their mailing lists. This particular email came from "Car Advisor <Kaylee@365localcarinsurance.org>", but I believe there have been multiple companies using similar spam emails so that when I ask for one to stop another keeps emailing.

Description

I have been contacting instant checkmate for more than a year and filling out their required online forms requesting that they remove all of my information from their website. However, they refuse to do so. By publishing my private information they are continuing to place me at risk for abuse as well as identity theft. I am at a loss now for making this company comply with my request although I continuously follow their rules. I am highly concerned because I have recently relocated to another State in order to get away from a highly abusive situation. I need someone to help me. I am listing my previous address below

Company Complaining About: Gospelhousemusic.net

Description

I am receiving unwanted emails from an organization called Gospel House Music. I've attempted to unsubscribe multiple times and have also tried contacting them directly through a contact email on their website. Despite multiple attempts, they are still sending unwanted emails. Tonight I sent another email to their listed contact address (gospelhousemusic@gospelhousemusic.net) and received a sarcastic reply telling me to "Go Away."

Every email they send has no unsubscribe option or link.
The unsubscribe link on their website does not work.
That's why I resorted to contacting them directly.

Is there something you can do to penalize them in some way?
This has been going on for approximately 6-8 months.

Thank you very much for your help.

Description

I recently signed up for a food delivery service, Doordash. After been bombarded with unwanted emails from them, I tried to find a way to unsubscribe or opt-out of future Doordash marketing emails. I couldn't find a way to opt-out, so I emailed them asking for assistance. They replied saying the only way to opt-out would be to opt-out of all marketing emails from all companies via the FTC's website. This seems like it is pretty clearly in violation of the CAN-SPAM Act, as I do not want to opt-out of all emails, but rather Doordash emails specifically, and they have refused to provide me with any way to do so.

Description

I have a situation where an individual that I bought a \$109 craigslist posting service is extorting and defaming my company and me personally. About a month ago I made the mistake of ordering a service off the internet from a company that had no name, address or phone number. I paid \$109 via PayPal for a series of real estate related craigslist ad postings. After a month of no response from the company and their lack of delivering the craigslist ads, I disputed the charges via PayPal. Since I did this, the company has sent me over 30 emails with threats stating that they will post negative comments about me all over the internet for cancelling their service. This appears to be part of their extortion scheme. I was hoping that these were just empty threats, but it has just come to my attention that they have sent out emails to numerous clients stating some negative and untrue comments about me. In addition to contacting my clients, this person has put up numerous websites with lies and defamation of me, including pictures and statements that I stole \$30,000 from him. I have filed reports with FBI, Arizona Attorney General, FTC, and police. Although Paypal did refund my money on the \$109 dispute, this person continues to put in countless hours to hurt me personally. I really need help.

Ticket: # 616885 - Cell Phones Verizon Wireless**Date:** 10/27/2015 9:06:05 PM**City/State/Zip:** Lake Como, Pennsylvania 18437**Company Complaining About:** Verizon Wireless

Description

My name is (b) (6) Address is (b) (6), Lake Como, PA 18437. On October 22, 2015 we called Verizon wireless to have my daughter (b) (6) and her husband cell phones and Edge Agreements onto their own plan and off of mine my acct #(b) (6). We had tried to get this done in July (on or around the 20th) and was informed we had to wait 2 months for them to take the Edge agreements with them. They said for those 2 months they would put her under a sub account. That number is (b) (6). I actually have been fighting with them and the Verizon Wireless store in Honesdale, Pennsylvania for almost if not a year now, as i did not authorize the transactions of the Edge agreements. I had given my daughter permission to be an account manager to get a replacement for a damaged phone and actually called the store and informed them there were to be NO CHANGES to my bill or account, which was done even after they called for the password and I was reassured that nothing would be done except to try and fix the damaged phone. When we called in July I was actually hung up on twice because I informed them that they better figure out a way to get this all switched over. I asked to speak to a manager and was put on hold and then was told that the manager said that there was nothing they could do. I then told them to put the manager on the phone and the manager refused to get on the line. In July is when the contracts were up on the two phones (b) (6). So when we called on October 22,2015 all that was suppose to happen was everything was to get switched over. That is not what happened and was informed that I would be stuck with the Edge Agreements unless they did a buy out which would be about \$731.00. That we were never told that everything would be switched over. i then requested to speak to a manager and the manager got on the phone and I fought with them again. I informed them I was notifying the FCC and was told I would probably exaggerate everything. I told him no I am going to tell you people just what transpired. All I want is for the 2 phones above and the Verizon Edge agreements to go on their own plan like we were told would happen if we waited the 2 months, which is not happening. i f this is the way their store and rest of them do business I think they need some ethics. I was also informe the the FCC regulates who Verizon Wireless can give their own plans too and that my daughter was a 3 not a 2 and when I asked what score was I three (my daughter was also on the line and gave permission for them to say) I was informed there was no score to give us . Like I said earlier all i want is for the Edge Agreements and The 2 phones to be put on their own plan under my daughter. as you can see I did not sign these agreements. this is not a Internet issue.

Ticket: # 616977 - Prison Telephone Service**Date:** 10/27/2015 10:13:50 PM**City/State/Zip:** St. Louis, Missouri 63136**Company Complaining About:** Correct Solutions Group

Description

On October 15, 2015 I made three deposits, (\$20 for 314-565-9476 two payments of \$20 for (314) 399-0638) for prison telephone service via a Kiosk machine, in regards to Correct Solutions Group, 182 Bastille Lane, Ruston, LA 71270, in which the Kiosk was located in the lobby of the City of St. Louis Justice Center, (b) (6), St. Louis, MO 63102. That same evening my relative who was detained at that facility tried unsuccessfully to call my phone many times. I in turn decided since I was receiving the message an inmate was attempting to call my phone but I had to establish a pre-paid account before I could accept the call. I contacted Correct Solutions at their customer service number of (b) (6) and reported the problem. The representative took my complaint for both of my telephone numbers and told me the complaint department will handle my situation within the next 48 hours. My relative was released from that facility on Monday October 19, 2015. I called Correct Solutions on that same day, to request a refund, but was told my complaint had to be worked before they could make any refund.

On Monday October 26, 2015, I received a call on my phone number of (b) (6) from Correct Solutions who informed me that a \$17 deposit was posted to my account for utilization from an inmate at that facility. I called Correct Solutions on Tuesday October 27, 2015 to request a refund on my two accounts, as well as, the \$3.00 each processing fee on each deposit I made. I was told by two supervisors, the \$3.00 processing fee was non-refundable. I explained fully to both Correct Solutions Supervisors/Team Leads, that I was not able to utilize their services, so I should be able to have my processing fees refunded to me. That it was no mistake on my part, that I could not utilize their services after I made the necessary deposits and paid the required processing fees. The mistake was on their part, by not processing my deposits in a timely manner. I look at this as being abusive and predatory practices being conducted by Correct Solution Group in order to increase their profits. Why should I or others be penalized by the malfunctions of Correct Solution operations?

Ticket: # 616994 - Facebook Lottery Scam**Date:** 10/27/2015 10:25:42 PM**City/State/Zip:** Houston, Texas 77091**Company Complaining About:** Comcast

Description

I was contacted via Facebook messaging on Sunday, 10/25/2015 by someone I thought was a Facebook Friend. He told me I had won a random Lottery offered by Facebook for \$50,000. He said he had won and for me not to be afraid it was legitimate. I engaged the conversation and was asked to fill out a form so that UPS could deliver my winnings, I was then asked to pay a \$500.00 fee for Case File and delivery. I was instructed to send the money Western Union, Which I (unfortunately) did.. I have the message conversation from World Claiming Agent Patrick and I requested a refund when asked for more money, an additional \$2,000.00. The so called Friends account and messaging is not unavailable and my conversation with the friend is gone from Facebook. I have the claiming Agents name. and Western Union receipt.. Please help me get my money back and prosecute the scammers.. Or direct me to who can help me with this issue. I am unable to contact anyone from Facebook. I have attached the conversation from Facebook messaging.

City/State/Zip: Spokane, Washington 99201

Company Complaining About: Comcast

Description

I have unsubscribed several times from Consumer Reports email list. I once subscribed, now I don't want their messages. They are repeatedly (several time a week) sending me "You are invited to Re-Subscribe" messages, despite my Un-Subscribe requests. Their emails have an unsubscribe link, but if you read the fine print, it says they will still send you promotional emails. If you go to consumerreports.org, there's no way to contact them via email. If you click the "Tell Us What You Think" tab, you're routed to a numerous question survey, but there's still no way to contact them specifically, either via email or to unsubscribe. Please Make it STOP!!! Is this legal??? ... to RE-SUBSCRIBE someone to a list from an UNSUBSCRIBE request, then repeatedly spam them?

Then it seemed to start working and received a screen that said I was unsubscribed. However, I am still seeing these emails weeks later. I have also replied to their emails (which are probably unmonitored no-reply accounts) requesting to be taken off of their mailing lists. This is incredibly frustrating!

Description

This morning our two Comcast email accounts indicated we had to "reset" our passwords. After redirection to the proper page the password reset did not work for either account. I DID verify this was Comcast's website. I called for assistance and was cut off after explaining my issue and waiting on hold for 30 minutes. I called a 2nd time and was told the "security assurance team" needed to speak with me and I was put on hold for over an hour with no response. Called a 3rd time and went through the same information with the new agent and was again put on hold waiting for this "security assurance team". This is unacceptable for a vendor to treat customers this way. I should have received a phone call from their team if they had a question; instead I have sat on hold in my house for over two hours through no fault of my own.

City/State/Zip: Los Angeles, California 90027

Company Complaining About: Time Warner

Description

I was looking for a moving company, I entered my information to get quotes from websites that claimed to be companies- NOT directories. At no point did I ever knowingly enter my information into a directory. I was tricked into giving my information to a site which went on to sell it to other companies. I have received phone calls from:

Tom at Delta Force Movers 760-748-0222

Steve at Out of the Box Solutions 323-874-2086

Eden at Ben Hur Moving 818-780-3300

Gili at My American Movers 818-781-9957 (plus a text message from 818-919-4343)

I spoke to Tom, who was rude and patronizing, and he told me that he got the information from "iRelocate" a website that I never entered my information from (nor originally went to), but did receive a spam message from. I also spoke to Steve, who refused to give me the name of a real website. The only websites I entered my information into were ones that were moving companies; not a directory. At no point did I ever knowingly enter my information into a directory. I am not 100% sure what website it was; I believe it was either <http://www.puremovers.com/faq/#content> or <http://www.xpressmovers.com/about.htm> because I never heard from them. Unfortunately, the only way to know if finding out from the moving companies what list they pay. Because however they got my information is deceitful and unethical.

I am writing with complaint with hops that other people do not have to deal with the trouble and problems that I have dealt with with comcast.

1) I was to have internet installed in my home on 10-28 never happened

I was told I would have a tech. text me one hr before he was there at 5:30 pm I called comcast to find out what was going on . Not only did I get a lady that was very hard to understand but very rude as well and told me they had until 10pm . then at 6:30 pm I called back talked to a man that told me service would be done by 8:00 pm at 8:30 I called once again and talked to a supervisor by the name on Gina she informed me that service would be complete by 11:00 pm . once again this didn't happen. On 10-29 at 7:30 am I started calling again I spoke with a man name Jerry in customer service he informed me that they bumped my service to today between 8am and 8pm I told him i was very disappointed with the service I have received . He then transferred me at a guy named Daniel . I told him that I would like to speak with a supervisor he told me that they were all busy and would call me back in 2 hrs . now its 11:30 and once again to call no internet . I hope other people don't have to deal with the same issue

Company Complaining About: Gfi

Description

Number has contacted me twice. Once on FaceTime and once on my phone. I was told they were contacting me because of a purchase I'd made involving one of their sister companies. I cut the telemarketer off and said, "Hold on. Exactly WHAT sister company and what urchase?" The man responded by stuttering for a brief moment and then replied, "You purchased a septic system from one of our sister companies..." I cut him off again and told him that I have never purchased a septic system, I am not a home owner and that I am listed in the federal do nit call, do not solicit list and that their number would promptly be reported. My caller ID shows the number 1-321-396-7331. From Apopka, FL. I reside in Maine. I have never shopped for any such purchase either, nor explored that type of purchase online. Thank you for you per time.

Company Complaining About: T Mobile

Description

On Tues, Oct 20, 2015, I received an unsolicited spam text message from the following phone number trying to get me to do something with my car: 1-305-766-9756

I received another spam text from the same number the following day on Oct 21.

I replied with the "STOP" on Oct 21.

I received another spam text from the same number a week later, on Weds Oct 28. I replied again, telling them this is spam and to take me off the list.

Since then I received another unsolicited text from the same number today, Oct 30.

They are not stopping after repeated requests. Additionally, I never opted in to anything from this company in the first place.

I can provide documentation and screenshots of these text messages if needed. Please make them stop.

Ticket: # 623215 - Unwanted spam text by an unknown dentist using my real information

Date: 10/30/2015 2:00:27 PM

City/State/Zip: San Francisco, California 94132

Company Complaining About: N/a

Description

Today, 10/30/15 at around 9:08am PST I received a text message on my mobile phone from number "+39858" with the following:

"From Minoo Makassebi DDS: Hi (b) (6)! We're updating our records to better serve you - please text us your preferred email address. Thank you!"

This appears to be a message from a legitimate dentist in San Francisco, California, but I have never interacted with this dentist in any way. In fact, I've been my same dentist for more than 10 years.

I was immediately concerned by this spam text because they address me using my actual name (b) (6) and they are pretending they are "updating" an existing record... so I am not sure how this dentist has my personal information, if they are just spamming using a paid-for contact list, if it's some potential phishing or identity fraud, or maybe it's a former employee of my actual dentist trying to steal clients.

Thanks,

(b) (6)

Company Complaining About: Samsung Us

Description

I was added to the Samsung marketing email distribution list after contacting Samsung about a repair on my Samsung dryer. I was never asked for permission and in no way did I accept an opt-in agreement. The only contact I had with Samsung was emailing "office of the president" directly and I calling the call center, who told me that an email address was required to process my claim request. The marketing email was sent a few days after this contact.

Months ago, I received an email solicitation re. the HARP mortgage refinance program. I foolishly thought it was related to the federal TARP program so I may have made a preliminary inquiry. But soon after, I was inundated with SPAM re. refinancing, auto loans, home repairs, you name it. Every time I opt-out, I get a confirmation screen that looks similar so I believe these solicitations are all related. And the opt-outs do not stop the steady flow of emails. QuickenLoans seems to be affiliated in some way so I have sent email complaints to Quicken Loans. I have received two confirmations that my email address has been removed from their list, both of which were followed by a few days without receipt of emails. But invariably, they start up again. I am at my wits end. Can you help?

A few months ago I was trying to login into my gmail accounts along with my yahoo account and was unsuccessful at doing so. I then received a phone call from someone claiming to be calling from google that they could help me unlock my account he asked me my pass word along with other various questions and was able to unlock my account. I was then able to access my accounts however a few weeks went by after receiving this phone call when the same issue occurred not only was I not able to get into my gmail, and yahoo account but I was also unable to get into my California Lottery account and my Facebook account my passwords had been changed to everything and even though I would select forgot password on all of my accounts I was still unable to login into any of them. I then found the number for google to try and get maybe a solution to unlocking my account and they said that google employees are not allowed to have access to customer personal info or would they never call to unlock accounts. He then let me know that the person who called me the first time was not a google employee and that I should file a report.

Company Complaining About: Time Warner

Description

Time Warner Cable/Road Runner is allowing the illegal access of internet usage and email account information, in order to commit crimes, harass, threaten and intimidate. I have sent emails complaining to the FBI on a separate matter, and I received an immediate response within 2 minutes. At 3 a.m. on a Saturday? FBI is closed. This is in relation to Privacy and INTERFERENCE. Should I submit a separate complaint for the illegal wiretapping?

Date: 11/2/2015 1:22:30 PM

City/State/Zip: Peachtree Corners, Georgia 30092-1374

Company Complaining About: Verizon Wireless

Description

Every day I receive over 10 text messages with the following:

DISABILITY ALERT:

Please contact 2036333996 about your SSD application!

Each text provides a different contact number with the same content. I've never filed a disability claim. This has been going on for months. One time I called one of the numbers from my home phone. Someone answered saying they would put my number on the DNC list and quickly hung up. They never asked for the phone number! I called them from my home number and not my cell - how would they know what number to put on the DNC list? I tried blocking the texts but there is no phone number associated with the text other than the one to call. I tried blocking those phone numbers but my provider (Verizon) only allows 10 numbers to be blocked. I get at least 10 texts with different phone numbers a day! Verizon tells me they are unable to prevent these texts. It is, as you must understand, driving me nuts. There is no telephone number associated with the text other than the one they tell me to call in the text. How do I make this stop? Will you please help me?

Since August I have had issues with my internet. I work from home remotely and have had issues with slow internet, internet dropping. I have had issues where my internet was slow I was having difficulty doing my job. My job said they have not had problems. I thought it was my computer so I purchased a new computer but was still having the problem I also have had people call me but not announce themselves telling me they were trying to remotely connect to my computer but had not been able too. I never gave them permission to connect remotely to my internet and I feel this is against the law.

Ticket: # 627808 - Spam with no easy opt out

Date: 11/2/2015 2:05:11 PM

City/State/Zip: Port St Joe, Florida 32456

Company Complaining About: Fairpoint

Description

Received an email from this site offering Medicare insurance for less than \$30.00 per month:
info@medicare-providers.net

When I went to the bottom of the page to opt out from receiving further spam messages, this is what I found:

"You may unsubscribe at any time, just site to us"

This violates your policy of an "easy" opt out by forcing someone to physically write a letter, put it in an envelope and paying postage to send it. Further, there was no address provided to send the letter and no opt out link for an email option.

Description

I have been contacted via text multiple times by BOSSRev, a company that apparently specializes in international calling. I have never signed up for any of their services, I've asked to be removed multiple times from their lists (and they've assured me multiple times that has happened), and yet I still receive unwanted text messages. I have several email exchanges requesting that they stop, and have spoken to them on the phone as well. It's getting ridiculous at this point. The second and third waves of these texts came right after updating my iPhone, not sure if that is a coincidence or not.

City/State/Zip: Hanover, Maine 21076

Company Complaining About: Comcast

Description

Oct 4th 2015 I came out before wrk to see Comcast digging in my yard. They were digging a trench, not a small slit for a cable for my neighbors yard. We called comast and they said they would not dig a gain without asking us.

Oct 5, 2015, they were there again, I called comcast and they said they would not dig again without my permission

Oct 28, 2015 I came home after lunch and they had dug yet another trench and they said they would not do it again without our permission

Nov 3, they knocked so softly that I almost did not check to see if it was acrtuall a knock and they were digging another trench.

How do I stop this continual digging up, we will have a muddy mess all winter.

Description

I have already been scammed by one merchant who inserted their online ad (unsolicited) to make a sales pitch using deceptive tactics to acquire a monthly obligation for wristwatches which proved to be grossly "overpriced" by comparison in the normal market.

A disguised and lengthy "contract" allows the marketeer to garner a "monthly" fee from a furnished credit card entry (with NO included statement with a shipment of a watch sent monthly) then only "agrees" to a partial refund when customer issues a complaint. Furthermore, the "company" will deny any cancellation and refunds in the event of a formal complaint against them!

Date: 11/4/2015 3:45:47 PM

City/State/Zip: Helena, Montana 59601

Company Complaining About: Tracfone

Description

I signed a petition in October on Hillary's website, but specifically elected not to receive emails, texts, or any other communication. On 10/24/15 I received an email from a volunteer with Hillary's Campaign- Dave Plouffe- which I had not agreed to receiving. There was an option to unsubscribe, so I clicked that. It took me to hillaryclinton.com. A menu opened up over the webpage, and it wouldn't close. The menu blocked the area where I could put my email address to be taken off the list. So, I replied on 11/01/15 directly to Dave Plouffe's email, and it was routed to info@hillaryclinton.com. I stated 'never email me again.' On 11/01/15 or 11/02/15, the campaign again spammed me with advertising and titled it 'Go vote!' I again tried to unsubscribe through the website, and couldn't get past the menu blocking the page. I replied directly to the email saying 'stop emailing me immediately.' The next day I was spammed again, with campaign advertising and a request to join Hillary for 'dinner.' I again tried to unsubscribe via the link they provided, to no avail. I replied directly to the email again, stating I'm tired of getting spammed and this has become harassment. This morning I got yet another email in response to the one I sent telling them to stop emailing me, with more campaign advertising and a request to volunteer or donate. I don't think anyone even read my replies telling them to stop. I can't access the unsubscribe page due to the website's blocking me with their menu. I have some documentation of these emails and my replies.

City/State/Zip: San Jose, California 95127

Company Complaining About: Microsoft

Description

I recently upgraded to Windows 10 and I don't think I orally or in writing agreed to receive emails from windows@communication.microsoft.com but it's probably hidden in some lengthy document I okayed through.

Their emails do not have an option to opt out. I have looked for a link or instructions in the email and tried replying back to "opt out", but I keep getting the messages.

The message has a part that says "If you've opted out of receiving email, this is the last one you'll get", but I don't know how to opt out!

The subject of the email is "Multitask like a pro with Windows 10"

Please get them to stop. Microsoft should be under more of a microscope, more expected to follow the rules, more liable for breaking them.

P.S this form makes me choose an "internet issues" yet none of them correspond to spam. It is confusing.

I had a visitor over at my house the other month. This visitor decided to download a song online. I do not know the method which he used to download said song. However, about a month later I was contacted by a third party on the behalf of Comcast, threatening to turn off my internet access because someone on our internet service illegally downloaded a shitty country song.... I am very upset that Comcast is sharing my activity on the internet with a third party. I did not agree to this. And I can't get a straight answer out of comcast as to how this information is legally shared.

Ticket: # 635361 - Comcast running their hotspot services out of peoples homes

Date: 11/4/2015 6:55:11 PM

City/State/Zip: Albany, Oregon 97321

Company Complaining About: Comcast

Description

The Comcast company is deploying new network router boxes that provide a hotspot xfinity wireless network access to anyone. This means, the antenna on the box in a persons home is drawing power from this home owner to power the hotspot service of Comcast. Additionally, this poses a severe security risk to all customers. With millions of people having various equipment and various versions and various setting it makes hacking into a individual persons home network not very worth the possible gain. Once EVERY home is running the same machines with the same settings, one hack and a person can go to any area and jump onto a persons home network, access their personal and private files. I've contacted Comcast, I asked to speak with one of their people and they are refusing to address the issue.

(b) (6)

Arvada, Co 80403

Received a telephone call from: 202-864-1234 Wednesday Nov 4th stating I owe IRS \$3,985.00 for miscalculations from 2008-2012. Must pay immediately. He said he was an agent for the IRS. I asked for ID badge number. He gave me this information:

(b) (6)

I could not understand his English. So I asked for his supervisor. Supervisor said I had no right to ask for his name or ID number. The supervisor said he could not give me his info just his extension which was EXT 2917. He threatened me by stating if I did not adhere to paying the \$3,985 that he was going to put my case back "in the system" and I could have someone knocking at my front door to arrest me within an hour or two and I could be in jail for 24-48 hours or until this matter was resolved. He repeated this 3 or more times with a more stronger angrier tone each time he said this. I refused to provide any monies but the supervisor was fierce. I have had calls from this number 6-10 times per day for months. At present we, my husband and I, are in an OIC with the IRS and our CPA has power of attorney. Please help me. I truly was scared yesterday from this conversation. I do fear they would be so bold to knock on my front door in the future. Please advise me. Thank you.

Description

I received an email on 10/30/15 from skype stating that my password had been changed. I didn't change the password and haven't used the account for years. I followed the link to recover the account. I was then informed that I had failed verification and could not have access to the account. The verification were questions that would be almost impossible to answer unless you had access to the account. I tried to reason with customer service, but was told that I had to fill out the form again and that was the only course of action. Now someone has my name and birthdate. Skype is failing to do anything about it other than continuing to send the same form over and over. I have tried using the form multiple times. Skype has been informed that the account is suspicious and they refuse to even look into the issue. As a resolution, I simply wanted the account deleted so that some unknown person no longer has access to my personal information. They refuse stating the verification is for my safety. Unfortunately the person who is currently using the account can change some of the information required for verification. I simply want the account deleted so my personal information isn't constantly available. It has already been compromised, but I would like to eliminate the issue.

Description

I paused my account because it was being used for criminal activity by my husband's drug addict criminal adult son, and Time Warner Cable associates on numerous occasions allowed it to be turned back on by (b) (6) repeatedly and used for further crime against myself and others after having been warned that it was being misused for criminal purposes. I was billed each time that the account was turned on without my permission and after I asked them not to. Also, the police sent a subpoena to Time Warner for information related to the crimes against me, and they told me Time Warner never responded despite repeated follow up. They are probably refusing to respond on purpose because Time Warner's negligence in letting a MAN turn on my account after I begged them many time to not allow anyone to make changes to it but me allowed him to commit crimes against me and my tenant and other women.

I am a victim of identity theft and other crimes. In accordance with section 609(e) of the Fair Credit Reporting Act, 15 U.S.C. § 1681g(e), I requested that they provide me copies of business records relating to the fraudulent action. This includes all audio recordings of phone calls about my account not made by me. Businesses that have provided services to or otherwise entered into a transaction with someone who is believed to have fraudulently used another person's identification are obligated to provide such documents (free of charge, within 30 days) under section 609(e). They have refused to provide the records to me. They did an investigation and admitted they have multiple tapes of (b) (6) impersonating people and making changes to my account. This is also in their record keeping system, as is my attempts to get this stopped. They even allowed (b) (6) to change the contact info on my account to his own after I warned them, and their investigator called his phone and he pretended it was a home phone and said I was out. (b) (6) has committed identity theft against me over and over again and has been arrested for it in other instances. These records are important for me to have to prove that he is doing it, because he does and says similar things every time.

Time Warner also gave (b) (6) information about my account over the phone, when I request they do not. This put me in danger and I was harassed because of it.

I want (b) (6) arrested for the criminal activity involving the internet and for identity thefts against me. Time Warner needs to stop covering up their negligence and turn over the evidence.

Please make them immediately release any and all information previously requested by law enforcement and/or subpoenas, as it is my account and I am insisting this information be disclosed immediately and without further delay.

Please also do something about them violating my privacy by giving out information about my account and letting 3rd parties make changes to my account when I begged them not to multiple times, resulting in further crimes against me and other people.

Company Complaining About: Comcast

Description

I've lost valuable time trying to unsubscribe from the many mass-mailing service providers they seem to use. They are using different domain names to avoid being caught by the spam filter. I have traced Multidollarduplicator.com to <http://onebinaryoptions.com/>.

In their email, they have a skype name "binary.masters", in which the person "Mark Snowden" did not want to release his company's name, he indicated that all I had to do was unsubscribe. Which I did. About 20 times.

I've been reporting abuse to domain service providers as well as their mass-mailing providers. If possible, I will also be making a complaint to Canada's equivalent to the FCC (if they have one...)

Ticket: # 642465 - Privacy and Billing Issues**Date:** 11/6/2015 9:55:53 PM**City/State/Zip:** West Palm Beach, Florida 33409**Company Complaining About:** Comcast

Description

I'm writing to report very serious issues with my Comcast service within the last month or two. I moved into an apartment at (b) (6), West Palm Beach, FL 33409 around October of 2014. When my lease expired after one year, I moved to the apartment directly across the hall from my old apartment. When I moved around October 5, 2015, I contacted Comcast to inform them of my move and to update my service address so that they were aware that I was now at (b) (6) West Palm Beach, FL 33409 (Please note the difference in apartment number - I moved from 106 to 108). Apparently I did not use the correct words when I said that I had moved, because the Comcast representative only updated my mailing address instead of changing my service address.

On or around October 22, 2015, my roommate (b) (6) contacted a Comcast customer service representative via online chat. The purpose of this contact was to activate a new Motorola Arris SB6141 modem that was purchased by my roommate. I was not at home when my roommate contacted Comcast via online chat, nor did I authorize my roommate to speak with Comcast regarding my internet account. Additionally, my roommate does not have the last four digits of my social security number or any personal information other than my cell phone number and the address that we share. My roommate unfortunately did not save a copy of this online chat, but informs me that the customer service rep attempted to offer upgraded packages to which (b) (6) declined, advising the representative that he is not authorized to make changes on the account.

On October 26, 2015, my roommate (b) (6) contacted Comcast customer service again to activate a different modem (I have attached his online chat record for one of his many contact attempts made this day by him). He had returned the previously purchased Motorola Arris SB6141 modem and instead purchased a Zoom 5345 modem. The Zoom 5345 modem was activated after repeated phone calls to Comcast by my roommate Nick. These two conversations and modem activation occurred without my permission, authorization, or consent.

Furious at the fact that my roommate was able to activate two modems without my authorization, I called Comcast on October 26, 2015 to complain about the lack of security on my account and the fact that they would speak with someone else about my account who was not authorized. I was informed that someone added an authorized user by the name of "(b) (6)" (no last name was given) to my account. I was additionally advised that someone upgraded my internet tier, but that I was credited the difference back as this was clearly done without my permission. I informed Comcast that I did not authorize (b) (6) to be added as a user to my account and to immediately remove him. I also set up additional security measures and add a pin/password to my account, so that no changes could be made without that pin/password.

Later that night, I received an e-mail from UPS advising that a package was being shipped to my apartment from "Comcast Contec". I have alerts set up with UPS so that I am notified whenever a package is shipped to me (Please see attached e-mail from UPS confirming the shipment). I found

this odd, as I had never requested anything from Comcast. I also noticed that they were shipping this to my old address of (b) (6), West Palm Beach, FL 33409. I do not live at that address and cannot receive mail or packages at that address.

Two days later, on October 28, 2015, I received a phone call from Comcast advising that someone was trying to active service at my old address of (b) (6) West Palm Beach, FL 33409 (Is it possible that the person moving into my old address ordered something from Comcast and it was shipped erroneously under my name and my account instead of theirs?). I informed the person calling me that I had already advised Comcast of my move to my new address and the representative asked if she could transfer my service for me as it was not correctly done previously. I informed her that I was at work and could not discuss this but she could call me back later when I left work and informed her not to make any changes to my account in the meantime.

After I left work on the 28th of October, I called Comcast myself to transfer my service to my correct address of (b) (6), West Palm Beach, FL 33409, instead of waiting. I spoke with someone who gave me her direct phone number of (b) (6). The person I spoke with transferred my service to the correct address of (b) (6) West Palm Beach, FL 33409, and ensured my that my bill would not change. I was informed that I would be paying my normal rate of \$29.99 per month for performance internet and a \$10.00 per month charge for the modem that I had been using all along. I informed her that UPS alerted me about a package being shipped to me from Comcast and that I never received it. She advised that if I never received it, that I didn't need to take any additional action as it would automatically be sent back to Comcast. She informed me that she saw no additional charge on my account for whatever was shipped to me anyway, so the problem would just "work itself out".

On October 30, 2015, I returned the Comcast modem that I had been renting for the last year or so, as I felt no need to rent Comcast's modem for \$10.00 a month. Attached is the receipt that I received when the modem was returned. Just to reiterate, the modem I returned on 10/30/15 was the same modem I had been leasing for at least the last year and I still had never received whatever package was shipped to my old address of (b) (6), West Palm Beach, FL 33409.

Today I reviewed my bill showing due for 11/10/2015 (issued on 10/21/2015) for my old address of (b) (6), West Palm Beach, FL 33409. A copy of the bill is attached for reference. This bill reflects that I owe \$55.59. I have been paying \$40.59 (\$29.99 for internet, \$10.00 for the modem, and taxes/fees) for almost the last year (which I've provided a screenshot of for additional proof). The bill I just received for \$55.59 is incorrect and I'm extremely upset by what it reflects. It indicates that I'm paying \$44.59 a month for the next tier up of internet speed. I NEVER agreed to make any changes to the speed or tier of my account. I was previously advised when I transferred my account on 10/28/15 that I would be paying the exact same amount of \$29.99.

I've just contacted Comcast again regarding my incorrect billing, and was advised that I have multiple credits to my account for the hassle they have caused me, but that I also have a \$40.00 equipment charge on my account for the modem that was shipped to me that I never received (and was told not to worry about). I'm completely disgusted at the fact that Comcast can make changes to my account without any authorization from me and that they can also ship me equipment without me asking for it. The tier of my internet and the amount I'm billed was changed without ever speaking to me or receiving my personal authorization. What if my roommate was instead an underage child or son that had contacted Comcast via online chat? Would Comcast allow an unauthorized child to change the

internet tier and add them as a user without ever speaking to the account holder? How is Comcast protecting my security and the very private information (social security number, etc.) that I provide to them?

I also have another bill for my other account at address (b) (6), West Palm Beach, FL 33409. This bill charges me the full month's internet at \$29.99 and includes random credits that I do not understand. I want you to review both bills on both accounts to ensure that I am not be double billed or overcharged. I only just correctly transferred my se

Description

It has come to my attention that the FCC has recently rejected a petition requesting that "edge" providers (Google, Facebook, etc...) honor the header attachment sent in all online traffic regarding "DO NOT TRACK".

I find this abhorrent and utterly lacking in every regard for the privacy of individual citizens constitutional liberties.

The intent of this complaint is to further insist that this issue of privacy be addressed by the proper authorities and to implore a federal agency, or regulator to make itself publicly known if it is better suited to address these concerns.

I cannot trust the phone representatives to do something as simple as change my address! I had to spend 38 minutes on the phone with Comcast to get them to keep my service on- which they said was to turn my service back on. Unacceptable. I have been a customer since Aug 2014 at this address and have never missed a payment. I am upset that someone else was able to get my service disconnected and I get an email saying that I am requesting this, absolutely not. I am back connected but unhappy with how much time and frustration it has taken to get this corrected!

City/State/Zip: Milford, Connecticut 06460

Company Complaining About: Frontier Communications

Description

When I first moved into this house (b) (6) Milford, CT 06460) in 2012, I always felt that there is a strong magnetic field. I reported to the Milford Government, State Health Department, but they said that they couldn't do anything. I was wondering whether someone could come to my house and measure the magnetic field. Also, I want someone to check whether the communication tower is from a safe distance from my house, because in my opinion, the communications tower is at an illegal and unsafe distance (it is too close to my house).

Description

To Whom It May Concern:

I opted in to receive e-mails from Weiss Watchdog, an independent financial companies watchdog, several years ago. I decided to opt out in the summer. Their e-mails provide an "unsubscribe option," but after multiple attempts to unsubscribe, I continue to receive e-mails. My most recent attempt was a week ago, and I received an e-mail again yesterday. Once again, I have been consistently trying unsubscribe since the summer. Their website provides no way to get in contact with them.

Thank you for your time an investigation into this matter.

Description

I, at one time (back in 2008), subscribed to receive email from the DNC. I have since attempted to opt-out of their emailings about 5 different times. Each time the STREAM of emails pauses for a few months before I'm receiving them AGAIN. This is illegal under CAN-SPAM for commercial organizations and should be illegal for political parties as well. I am not the only individual that is a victim of this SPAMMY behavior. There are blog posts and forum posts all over the Internet where people complain that they just CANNOT unsubscribe from this email list. The first couple of times I unsubscribed, the link led me to a website that required me to click links to different pages and required an opt-out confirmation code. This is also normally illegal. An opt-out link should lead to a landing page that has a simple mechanism for me to either enter the email I want to opt-out or with a submit button that does this automatically. They have since corrected this but I am still receiving email from this organization despite having opted-out.

I work for an ESP. We provide email marketers with a platform that allows them to build marketing emails. We DO NOT ALLOW a single client to send email that does not adhere to CAN-SPAM law. The DNC is not above the law. If I do not wish to receive email from this organization, I should not have to. I IMPLORE that someone at the FCC take responsibility for this. The FTC is charged with enforcing CAN-SPAM and I have already filed a complaint there too. As I access my email from both my computer and my mobile device, and because I think this is a hugely unfair loophole, I felt the need to file a complaint with both commissions.

Thank you for your time and attention,

Ticket: # 646713 - Compliance with CIPA for assistive technology provided by school district

Date: 11/9/2015 7:35:24 PM

City/State/Zip: Sugar Land, Texas 77479

Company Complaining About: Fort Bend Isd

Description

My son is a special needs student who has a laptop and an IPAD provided by his school district as part of his IEP (Individual Education Plan). He needs these devices to complete school and homework (including saving to school-directed google drive, accessing homework instructions on the Internet, class projects, group work, researching, etc). As his parents, we are concerned about his safety on the Internet, and have installed child protection software on our home devices to provide this. We have requested that the school district do the same on the district-owned/provided/maintained devices that our son has to use as part of his IEP. We do not want him exposed to inappropriate content because no filters/protections are in place on the district's devices (we do not have control of what is installed on them). When we had asked multiple times about providing protection/filters/tracking, they finally installed Mobicip app on the iPad (nothing on the laptop), though they refused to activate an account to enable tracking of the sites our son visits. They also have chrome and safari installed (needed to access school-related sites and online textbooks) so if he uses either of these, Mobicip browser is no protection, anyway. When we asked them to activate an account to at least track his sites, and to install protection on the laptop, their response was, "The district is in compliance with CIPA. There are filters in place at the district level to ensure protection of the students while on campus". Is it true that districts have no responsibility to provide filters/protection on district-provided/owned/maintained devices as part of a special needs child's Individual Education Plan (IEP)? Is this in compliance with CIPA, considering special education students' needs as well?

This is a direct violation of the law and a violation of my personal identifying privacy. They should not only be fined but forced to cease and desist this action once and for all. I am saving the evidence should more info be required. Using the GMail address i provided is fine as long as there is no personal information. Thank you.

Company Complaining About: Vandergriff Auto

Description

I engaged in an online chat with a sales rep from Vandergriff auto and to proceed with the process she requested my email address. I made it very clear that this was to be for this interaction only and to NOT use this email after this engagement. I have sense, on two different occasions, received promotion/sales emails. I DID NOT subscribe or consent to receiving these emails and made it absolutely crystal clear to NOT use this email address. After the first unsolicited email, I responded and very clearly communicated to REMOVE my email address including the background. I have just received the second unsolicited email, hence the complaint. I have blocked the emails, however, Vandergriff uses many email addresses so I have to continue to block each email address. I'm angry as I was considering purchasing a car from them, but if a company won't oblige a simple request like this even after an additional request, then the integrity of the entire Vandergriff organization is suspect. Oh, and I wanted to mention, they have not reached out to me via any other contact channel to offer any kind of apology or to ensure the concern has been addressed.

Ticket: # 649211 - Comcast failed to alert consumers of security/privacy risk

Date: 11/10/2015 7:28:03 PM

City/State/Zip: Redmond, Washington 98052-2946

Company Complaining About: Comcast

Description

In February 2014 Comcast e-mail accounts were hacked jeopardizing subscribers' usernames and passwords and putting their security and privacy at risk. Comcast subscribers were never informed of this security breach nor were they contacted and instructed to change their usernames and passwords ASAP. I found out about this security concern three months later on the local news which ended its report by recommending Comcast subscribers change their e-mail usernames and passwords immediately. In several conversations with Comcast, they have been unable or unwilling to tell me why customers were left at risk rather than being informed by Comcast - the responsible and professional thing to do.

When I told Comcast that information on this breach is widely available when searching the Internet, Comcast dismissed the information saying that just because it's on the Internet doesn't make it true. Here is a sampling of the links related to this story. Do they look like the types of links that would contain rumored information rather than factual?

<http://www.zdnet.com/article/change-your-passwords-comcast-hushes-minimizes-serious-hack/>
<http://www.pcworld.com/article/2095445/comcast-gets-hacked-downplays-potential-dangers.html>

http://www.slate.com/blogs/future_tense/2014/02/10/comcast_email_addresses_hack_means_you_should_change_your_password.html

Isn't Comcast required by law to inform subscribers when there is a security risk?

I've noticed that business solicitation e-mails from Comcast don't contain an unsubscribe link. Isn't providing such a link required by law?

My 12 year old has been informed by friends that someone has created an account in her name and has been trying to get the friends to grant access to their Instagram accounts. My daughter has never opened an Instagram account, however the profile has things that lead the other minors to believe it is her. Our concern is that this could be either a dangerous person trying to lure other children by pretending to be our child. We are extremely concerned and are filing a report with the local authorities as well.

I have contacted this website and requested my Personal information be removed from their website - they pretty much have a bio on me wrote up that ANYONE can find - and they've told me that the information they have collected there is Public - which it is not - and that they have a right to use it. They suggested I pay them to keep it private from everyone - do for a few I can have it hidden away - OR for a fee someone can buy it!!!! That is my information and my cell phone nor my home address is public!!! But they have it on their site.

I am a guardian ad litem and have dealt in cases with parents who would cause me problems if they knew where I lived!!!

I want this site taken down and I most definitely want my information off of it...someone charging me to remove my personal information from their website is ludicrous!!!

All the other sites I contacted gave me instruction on how to remove my information from their sites! Not mylife.com.

Description

Hello and thanks for reading.

I regularly receive email advertisements from Time Warner Cable after having many times unsubscribed. They seem to have completely ignored my request. I have forwarded their emails to spam@uce.gov as well as responded to them with my complaint.

Being an Internet Service Provider, I would expect them of all companies to understand the law regarding this practice, and would like very much for them to comply with it.

Anything you can do to assist is greatly appreciated.

Date: 11/11/2015 2:02:07 AM

City/State/Zip: Castaic, California 91384

Company Complaining About: First Class Web Hosting

Description

The company that operates this website: <https://www.000webhost.com/faq.php?ID=3> is intentionally misleading users. They recently suffered a massive breach due to abhorrent security practices (using an outdated and insecure version of PHP, which was broken into and user information stolen.) I decided to delete my account completely in order to avoid any further issues with such a lax company, but they do not actually tell users how to do so. Their FAQ includes instructions for deleting domain accounts, but not the master account. In their forums, employees direct users to submit help tickets. On their website, "Get help" is merely a link to their Facebook page. The only way, as it turned out, was to click on my full name within their "Members area" which is for some reason the link to delete your information from their servers. They are clearly disseminating false information about this. Additionally, they admit in the following copied email that they were knowingly using an outdated version of PHP. I do not know if they have violated any laws or regulations, but it is my firm belief that they knowingly put user privacy at risk for the convenience of backwards compatibility.

The email I received is as follows:

What happened?

A hacker used an exploit in an old PHP version, that we were using on our website, in order to gain access to our systems. Data that has been stolen includes usernames, passwords, email addresses, IP addresses and names.

Although the whole database has been compromised, we are mostly concerned about the leaked client information.

What did we do about it?

We have been aware of this issue since 27th of October and our team started to troubleshoot and resolve this issue the same day, immediately after becoming aware of this issue.

In an effort to protect our users we have temporarily blocked access to systems affected by this security flaw. We will re-enable access to the affected systems after an investigation and once all security issues have been resolved. Affected systems include our website and our members area. Additionally we have temporarily blocked FTP access, as FTP passwords have been stolen as well. We reseted all users passwords in our systems and increased the level of encryption to prevent such issues in the future.

We are still working around the clock to identify and eliminate all security flaws. We will get back to providing the free service soon. We are also updating and patching our systems.

What do you need to do?

As all the passwords have been changed to random values, you now need to reset them when the service goes live again.

DO NOT USE YOUR PREVIOUS PASSWORD.

PLEASE ALSO CHANGE YOUR PASSWORDS IF YOU USED THE SAME PASSWORD FOR OTHER SERVICES.

We also recommend that you use Two Factor Authentication (TFA) and a different password for every service whenever possible. We can recommend the Authy authenticator app and the LastPass password manager.

We are sorry

At 000webhost we are committed to protect user information and our systems. We are sorry and sincerely apologize we didn't manage to live up to that.

At 000webhost our top priority remains the same - to provide free quality web hosting for everyone. The 000webhost community is a big family, exploring and using the possibilities of the internet together.

Our leadership team will closely monitor this issue and will do everything possible to earn your trust every day.

Sincerely,

(b) (6)

Furthermore, their copyright (which is the source of the Company Name I provide below) is out of regulations, and they provide no information as to their actual corporate identity. I suspect they may be doing this to intentionally obfuscate details about who they are to avoid scrutiny of their questionable business practices (they charge for premium accounts, but are clearly not doing all that they can to protect even those users.)

City/State/Zip: Battle Creek, Michigan 49014

Company Complaining About: Verizon Wireless

Description

This is my second complaint about this issue because Verizon closed out my complaint because they never addressed my issue. I want my complaint fully satisfied. Because my privacy is being taken advantage of. I'm starting to feel like Verizon don't care about my privacy at all. But someone is remotely sending random numbers a text message promoting Verizon wireless. The gentleman I talked with NEVER ADDRESSED THIS ISSUE AND CLOSED OUT MY CASE WITHOUT DOING ANYTHING FOR ME. I'm requesting that my contract be eliminated so I do not accrue any extra cost and fees. Because they can't address my issues I'm requesting this to satisfy this issue.

He tells me to "pay the f*&^ attention", he is giving me clues as to who he is.

He said his name is Anthony who is in insurance services. He said he is not Asian but half black half white. He is SERIOUSLY sick. In one sentence he says, "where are you, I want you now" then tells me to "f*&^ off", then next text is "so where are you, I'll pick you up"

Please help! This is scary.

City/State/Zip: Salina, Kansas 67401

Company Complaining About: Cox

Description

Sender is using text now.com to send text messages to care.com subscribers from multiple phone numbers and is using multiple gmail accounts. I have been contacted by the same person/persons twice in two days. The text numbers and aliases used are 847-379-5319 , Alias: Estelle.

Estelle writes to me in text message instead of using care.com website. "hello my name is Estelle, I'm presently in Illinois but in process of moving to your area, I read your profile on care and will like to have you as my son's nanny starting November 21st, 9am-4pm Saturdays and Sundays only. Some weekdays are also flexible if you are available but we may need to discuss that in person. I'm willing to pay 30/hour. Kindly email me your resume/references to (b) (6) for more details about this position. "

I emailed "Estelle" after I received the first text message thinking it was a legitimate job and got the following response:

Thanks for your response, I am glad to read from you. I am a single Mother of one lovely kid,

(b) (6) I attended Illinois School for the Deaf where i achieved my highest qualification. I

have my own business (Self Employed). I attend the catholic. I am 42 and i am hard of hearing. I work based on the development and counseling of

the deaf people in the community, i am moving to your area in few weeks and i really need a honest and responsible care for (b) (6)

More importantly, (b) (6) is currently placed on a wheelchair due to an accident he had some months ago. He can walk a few distance though but the specialist advised he uses the chair for a while and i am planning on getting him a powered wheelchair and have contacted a seller. You will care for him starting 21st of November. I will appreciate if you can tell me a few things about yourself and maybe attach one or two pictures of you, below are your duties:

(b) (6)

This could be a temporary/permanent job. It depends on what your schedule looks like but i do like

to be sure if you are available the first month. the last couple of months hasn't been good and i wouldn't want to get stocked with my Son on arrival so i`m willing to make a deposit to you ahead of time to ensure a secured appointment to avoid disappointment. The total cost of your pay per weekend is \$420(\$30/hour x 7hours/day = \$210/day x 2days). I want to inform you that i have a seminar i will be attending to as soon as i arrive and will be having an interview section with you immediately i arrive with (b) (6). Also i will like to include your pay to our payroll for the period. I will be needing the following information below to issue out the check to you and i need your direct mobile number so i can text you in case i need to pass an urgent information:

Name:
Address:
City:
State:
Zip Code:
Phone #:

I have made some arrangements with the wheelchair seller, so as soon as you get the payment, you will deduct \$420 for your first week and have the rest sent to the wheelchair seller for delivery as soon as the check clears, i hope (b) (6) will have the best of time while he is in your care and i hope you will treat him right just like yours. Get back to me as i have a lot of stuffs to put in place prior to your arrival. I look forward to hearing back from you.

Thank you and God bless

Similarly, I got a text message from (b) (6) shortly after from number (b) (6) writing something similar. "Hi, I'm Kehla, currently in Delaware but in process of moving to your area, I read your profile on care will like to have you as my sons care starting from ending of this month at your availability, 9am- 12pm Mon-Fri they are 5&2+ years respectively, Email me your resume/references to (b) (6)

Company Complaining About: Priceline

Description

I recently purchased an airline ticket with Priceline. After the trip was over, I received a promotional email without an opt out line and without my consent. To make sure I didn't create a Priceline account and agree to receive emails, I tried to log in - but I did not create an account. I am also sure that I never agreed to receive promotional emails when buying the ticket - but either way, there's no way to opt out of these promotional emails.

None of the links in the email offer an opt out option and replying to the email resulted in a bounce. The email also states that it is a "promotional email" and it is not related to the service of supplying an airline ticket - which has already been used.

In my opinion, this email is a violation of the CAN-SPAM Act.

Description

I am an unwilling Comcast customer- there are no other options in my area. I have over the course of about a month called twice to their customer service in order to stop the promotional phone calls from Comcast which I have no interest in. I get phone calls anywhere from once a week to twice a day. The first time I called, the representative said my account had no record of anyone calling, even though I provided him with the phone numbers from my caller ID. He made a ticket anyway for me, and he said I would stop getting calls. I also re-added my phone number to the national do not call registry. I still get calls. Sometimes the voicemail is pre-recorded and sometimes it is a person. Tonight I decided to actually answer one instead of letting it go to voicemail and I spoke to a woman who gave me her name- (b) (6). Before I hung up on her she tried to suggest that it would take a full 30 days after my request to stop receiving promotional phone calls would take effect- there' so reason it should take that long to protect a customer's privacy. I hung up and promptly called customer service again with my information. The representative stated that there was now suddenly a record of a few phone calls being made on my account over the past week. He created another ticket and also "escalated" my call, which meant that another customer service rep, presumably someone "higher up" would contact me after I hung up. They did contact me. I had to explain everything to them, after which time they put me on hold and then transferred me to another customer service specialist. This person took my information again, I had to explain again what was happening, and he decided he had to transfer me to someone else. I was put on hold again for about a half hour and then the man who answered initially stated that there was nothing he could do, and then he told me he was putting his supervisor on the line because his supervisor had the ability to make sure that my phone number was actually on the "comcast do not call list" and I said "ok" after which point he hung up on me.

I am filing a complaint here and also with the federal do not call registry. This is just one event of a history of comcast (and, for the record, Time Warner) shortcomings and failures, but since I use the internet at home for work related needs, and since there are never any other choices out there, I don't think I can cancel it.

I really wish our government would break up what seems to be a monopoly, even if it isn't a traditional monopoly. Comcast is horribly overpriced for internet that half the time doesn't work- I seem to have NO internet at least once a week, for several minutes up to a few hours.

Time Warner is no better.

I am writing to you because I am upset with Microsoft's new practice of shoving entire operating system updates on their users without their consent. Additionally, they have stated that after the first of the year, they will begin actually installing the Windows 10 operating system on people's computers whether they want it or not. This is extremely egregious behavior and must be stopped. Furthermore, it has already been demonstrated that there are a number of bugs in their process which will interrupt and interfere, and even stop people's computers from working at all. And there are a number of new provisions in their EULA to prevent people from taking them to court to seek redress. I am extremely concerned and I would like your office to take action on behalf of your constituents.

I AM NOT, I REPEAT I AM NOT BACKING DOWN FROM THIS. THIS IS UNACCEPTABLE WHAT THEY DID BROKE about 8 laws that i can think of FCC regulations The Fair Credit Reporting Act, 15 U.S.C. § 1681 ("FCRA") along with spoofing there number, misrepresented themselves and said that i signed up and they that ther charges on my account are valid. screw that, i am not paying anything to anyone. I WANT TO PRESS CHARGES. ILL SPEND EVERY DOLLAR I GOT TO FIGHT THIS AND TAKE THEM COURT. please help

Key Concept 6 Misrepresentation and Fraud 1

- A misrepresentation is an assertion that is not in accord with the truth. When a person enters a contract because of his justifiable reliance on a misrepresentation about some important fact, the contract is voidable.
- Misrepresentations can be either:
 1. "innocent" (not intentionally deceptive) or
 2. "fraudulent (made with the knowledge of falsity and intent to deceive).
- Contracts induced by misrepresentation or fraud are generally considered voidable. This means that the person whose consent was not real has the power to rescind (cancel) the contract.
- The elements of misrepresentation and fraud are as follows - notice the similarities. (author's addition)

Innocent misrepresentation Fraud

1. Untrue assertion of fact (or equivalent)
2. Assertion relates to material fact
3. Actual reliance
4. Justifiable reliance

1. Untrue assertion of fact (or equivalent)
2. Assertion made with knowledge of falsity and intent to deceive
3. Actual reliance
4. Justifiable reliance

5. Economic loss (in a tort action for damages)

1. Untrue Assertion of Fact or Equivalent (author's addition)

To have misrepresentation, one of the parties must have made:

1. an untrue assertion of fact or
2. engaged in conduct that is equivalent to an untrue assertion of fact.
 - The fact must be a past or existing fact, as distinguished from:
 1. an opinion or
 2. a promise or prediction about some future happening.
 - The concealment of a fact through some active conduct intended to prevent the other party from discovering the fact is considered the equivalent of an assertion. For example, if Summers is offering his house for sale and paints the ceilings to conceal the fact that the roof leaks, his active concealment constitutes an assertion of fact.
 - Nondisclosure can also be the equivalent of an assertion of fact. Nondisclosure is the failure to volunteer information. Disclosure of a fact is required when:
 1. the person has already offered some information but further information is needed to give the other party an accurate picture or
 2. there is a relationship of trust and confidence between the parties or

(McGraw Hill/Irwin, 11th Edition, 2001). Bold print, bullets, and numbers have been added to the Mallor

text to indicate particular emphasis.

3. a party has access to information that is not readily available to the other party.

Transactions involving the sale of real estate are among the most common situations in which the duty to disclose arises. Most states hold that a seller who knows about a latent (hidden) defect that materially affects the value of the property has the obligation to speak up about the defect. For example, in a recent case a buyer contracted to purchase a house that was reputed, according to the sellers, to be possessed with ghosts. The sellers did not tell the buyer this fact. When the buyer learned of the house's reputation, he was granted the right to sue for rescission. (author's addition)

2. Materiality

Innocent misrepresentation

- If the misrepresentation was innocent, the person seeking to rescind the contract must establish that the fact asserted was material.
- A fact will be considered material if it is:
 1. likely to play a significant role in inducing a reasonable person to enter the contract or
 2. if the person asserting the fact knows that the other person is likely to rely on the fact.

For example, Roger, who is trying to sell his car to Ferguson and knows that Ferguson idolizes professional bowlers, tells Ferguson that a professional bowler once rode in the car. Relying on that representation, Ferguson buys the car. Although the fact Rogers asserted might not be important to most people, it would be material here.

Fraud

- Even if the fact is not material, the contract may be rescinded if the misrepresentation was fraudulent. Fraud is the type of misrepresentation that is committed knowingly, with the intent to deceive. The rationale for this rule is

that a person who fraudulently misrepresents a fact should not be able to profit from his intentionally deceptive conduct.

- A person making a misrepresentation would be considered to do so “knowingly” if she:

1. knew her statement was false or
2. knew that she did not have a basis for making the statement or
3. made the statement without being confident that it was true.

- The intent to deceive can be inferred from the fact that the defendant knowingly made a misstatement of fact to a person who was likely to rely on it.

3. Actual Reliance

- Reliance means that a person pursues some course of action because of his faith in the assertion made to him.

- There must have been a causal connection between the assertion and the complaining party’s decision to enter the contract.

- If the complaining party (1) knew that the assertion was false or (2) was not aware that an assertion had been made, there is no reliance.

4. Justifiable Reliance

- Courts also scrutinize the reasonableness of the behavior of the complaining party by requiring that his reliance be justifiable.

- A person does not act justifiably if he relies on an assertion that is:

1. obviously false or
2. not to be taken seriously.

- One problem involving the justifiable reliance element is determining the extent to which the relying party is responsible for investigating the accuracy of the statement on which he relies.

- o Classical contract law held that a person who did not attempt to discover readily discoverable facts (e.g. public records - author’s addition) generally was not justified in relying on the other party’s statements about them.

- o The extent of the responsibility placed on a relying party to conduct an independent investigation has declined in modern contract law. Today’s courts tend to place a greater degree of accountability on the person who makes the assertion rather than the person who relies.

5. Economic loss

In tort actions in which the plaintiff is seeking to recover damages for fraud, the plaintiff would have to establish a fifth element: injury. He would have to prove that he had suffered actual economic injury because of his reliance on the fraudulent assertion. In cases in which the injured person seeks only rescission of the contract, however, proof of economic injury usually is not required.

Remedies

Rescission

- As is true for innocent misrepresentation, the contract remedy for fraudulent misrepresentation is rescission. A person who rescinds a contract is entitled to the return of anything he gave the other party. He must offer to return anything he has rec

Description

Hello,

I have been receiving a number of unsolicited SPAM texts from a company called "Staff Care" at 1-316-687-2162 (This appears to be their website: <http://www.staffcare.com/>) offering open positions for physicians that seem to be in violation of the TCPA/CAN-SPAM. I've notified the company twice in writing that I'm ineligible for such positions seeing as I'm not a physician, and to request they stop contacting me. This has not worked. My requests have gone unanswered, and I still regularly receive texts from them. I've been contacted by two employees named Darrys and Gabe. Their generic nature "Hi Doctor" means they must be SPAMmed out rather than targeted.

Some examples of the texts:

"Hi (b) (6) @ (b) (6), I have a full time locums position in Williston, ND. We will license, any interest or referrals?"

"Hi (b) (6) @ (b) (6), I have a full time locum's position"
"available in Marinette WI...Starting in Dec, we will license. Any"
"interest or referrals?"

"Hi Dr, this is (b) (6) with (b) (6), I have a full time need in Clovis, NM for Orthopedic Surgery coverage from March thru May (2016) Any interest?"

Thank you,

Description

Comcast has recently begun rigging systems to display a pop-up to tell me that I am approaching or have exceeded the arbitrary data cap they are testing. If comcast wishes to continue to abuse it's customers with a data cap that is their prerogative, but it is obscene that they are being allowed to hijack my browser while I'm using my computer in order to display one annoying pop up after another repeating the same message. Will somebody please finally hold comcast accountable for bad business practices and stop this!!!

I am perfectly willing to pay data charges depending on their plans, but I am absolutely unwilling to accept this harassment. Just send an email!!!

Company Complaining About: AT&T

Description

I was searching the internet. A warning popped up saying my computer had been blocked and that I needed to call a number to remove the virus. Here is the number along with part of the message:

"To fix, please call system support at 1-877-525-5644 immediately. Please ensure you do not restart your computer to prevent data loss."

I could not close the windows, so I called the number. As I was calling, I received another call from Norfolk, NE.

I answered. The man on the phone line told me he could help me solve the problem by having access to my computer and my files.

I hung up. And then, I was able to close the warnings and browser.

City/State/Zip: Fayetteville, Arkansas 72701

Company Complaining About: AT&T

Description

Was scammed by the above last spring. They called, introduced themselves as Americans and wanted to fix my computer. They installed programs which have been killing my laptop since, and they have perpetrated several instances of fraud. For this service, they wanted a check for 3,000.00 and harassed me constantly via phone, several times a day at first and then reduced it to two or three times a week. They tried a fraudulent "collection agency" called ERT. My Amazon Visa was hacked and we caught that fairly quickly. The latest issue is with my Dillard's Am Ex, several charges made by a company called FIF1.com nothing I have ever heard of. The BIG ISSUE with those charges is that they were made on a card which had NOT BEEN ACTIVATED... I received calls from people claiming to be Dillard's and wanted payment over the phone. I told her the card was inactive and under investigation for fraud. One caller flunked her "phone call recorded for quality and service" test when she told me I was not listening, she was trying to "help" me. I then received a letter from Wells Fargo stating that all purchases were consistent, so they decided against fraud. I called again today and cancelled the card. They said my next dispute must be in writing, but they did cancel the card. I do not know whom to trust at all. NO ONE, I guess. I had filed a complaint earlier with the BBB, #10565115 to cindy@upstatesc.bbb.org and she suggested I file with the FCC. Please, I am desperate!! I am in the process of moving and starting over with a new network, as I believe this network to be completely corrupted.

I don't want to make an account on this terrible site. I want them to stop forcing people to use their terrible service just to get unlisted when they shouldn't even be listed in the first place.

This is hardly the only site, there are other (equally terrible) sites that insist on building "social network profiles" using data they grab from a web search. They then also demand you make an account to get rid of it.

I'm tired of it!

Ticket: # 661078 - Privacy of high speed Internet**Date:** 11/17/2015 4:09:25 PM**City/State/Zip:** Pembroke Pines, Florida 33024**Company Complaining About:** AT&T

Description

I searched my phone number in the AT&T website for U-verse service and my residence now appears to have high speed gigabit Internet available. However, I'm very concerned that to use the 300mbps and gigabit service AT&T will violate my privacy and analyze all my Internet traffic and then use that information to solicit me via my web browser, tv service, and physical mail. Will they also be inspecting/listening to my VoIP calls or my video chats?

AT&T has a very difficult to find option in the ordering process to opt out and keep my privacy via a monthly increase that accounts to over 35% plus added installation costs, and HD service fees if adding TV service. The ISP is the courier of my data. I do not pay FedEx more money to deliver an envelope if they don't open it, it is excepted they do not open my envelopes. I did not have to pay my phone company extra every month to place my number on the do not call list, not listen to my phone calls (maintain my privacy), or to not solicit me based on tracking every phone number I call. It is Orwellian to charge customers to opt of solicitation via monitoring, and by default soliciting them based on inspecting all their Internet traffic (which is equal to opening all of my envelopes and listening to my phone calls).

Description

This past Sunday I watched Calvary Community Church online at calvaryphx.com. He has in the past openly admitted that we can talk through the computer screen. I was wearing a USA National Team t-shirt. He told me take off my shirt. I was video taping it with my phone. I wanted to catch him admitting to the two way communication and I tried to get him to do something to affect the vote again, so I took my shirt off. His message was so evil that I can't watch it again. He laughed at Jesus and did not follow any semblance of a verse by verse method, that (b) (6) claim to adore. (b) (6) also claims to be converted from Seventh Day Adventist, but he still brings lots of that teaching in. When I watched a Republican National Debate on YouTube. Someone in the audience called out Mormon when (b) (6) started speaking. How are you going to solve these Mormon problems if you don't know how they work? I tried to submit these videos but the Submit button was never successful. I tried to steal power by unplugging my M-Power SRP box. When I was reporting something to the Social Security Administration my power was shut off and my wired smoke detector was turned on. I'd just told my parents I wasn't speaking to them, the office was closed and I panicked so I drove to Washington D. C.

I had purchased 4 basketball tickets from this online retailer. After the purchase I received 2 emails afterwards, 1) order summer/transnational email and 2) my 4 tickets in a PDF format to print off. These 2 emails I expected to receive. However, I've received promotional emails from the company every single day for this current week (Nov. 16, 17, & 18). I tried to unsubscribe from the email however there was no link at the bottom of the email to unsubscribe from. I have attached the email to this complaint. I reached out to the company directly to unsubscribe by replying to the promotional email on the 17th with "unsubscribe". I received an email from a support staff and stated that I should be able to by clicking on the unsubscribe link at the bottom of the email. I responded stating there was no link in which they said they would forward to their Marketing department to review but in the mean time would also remove me from the list. However, today I received another email with the same context. I would like to stop receiving this messages.

Description

My computer has been hacked. I have to struggle to keep data safe. I put things on a Thumb Drive a Data Traveler 2.0 by Kingston. There are folders on that drive that I did not create. I have not stopped working, but I am expecting that there is someone else here in Arizona watching the same TV I watch. There is no way that I can report on all the channels on TV. Did Russia actually try to invade the Ukraine? Is it true that the United Kingdom is keeping Jewish (there word) immigrants out? Is it true that two Air France flights were diverted last night one to Halifax Nova Scotia and the other to Utah? Is it true that President Obama cut his visit to Utah short because he was afraid that he would get assassinated? CBS 5 Phoenix reported that last one. The anchor then was (b) (6) [REDACTED]. One night the guy that is on that show now told me that something I was looking for in my living room was behind me. When I found it, I discovered that he was right. I saw that on MSNBC. MSNBC talked about the Super Bowl. I'll get into it later. I mean it should be obvious to anyone who watched the same version I did that their was fraud. Like it supported Organized Crime. The Mormon religion is organized crime. Smiths is an ugly phrase. I don't think (b) (6) [REDACTED] is Mormon. I doubt that (b) (6) [REDACTED] is too. They are all Mormons because they worship a demon named Moroni. Now some how France, the NFL, MSNBC, FOX News, CNN are tied into diverting our attention to terrorism overseas. France might simply be a victim, but there is no truth on my TV. I have to watch live broadcasts only. I don't trust in stories any more. I'm getting tired of doing this alone.

What is wrong with your reader on this site? This is the Consumer Help Center, not the Consumer Health Center. I'm getting annoyed. (b) (6) wants me to stop smoking and I love that you support her on this, but at the same time you do have to respect my right to privacy. It seems to me that we all could be spending more time taking down this Treason that exists in the United States of America and that Administration after Administration has simply ignored. President Eisenhower got duped. There are communists in Hollywood now, but I think (b) (6) was a distraction to get us to ignore whatever was really going on in Arizona at the time. There was a video with (b) (6) and Kirsten Bell <https://youtu.be/jzriWEHlmXs> disgracing the Chief Justice of the United States Supreme court and using sex to do it. I had expressed in my home that I dreamed of being on the U.S. Supreme Court and I'd met (b) (6). I thought they were attacking me. As it is, what have you been doing? YouTube has been around for over a decade, at least. What has the FCC been doing? Now I'm still on this project and with you on the team, but I'd like to be able to watch TV and believe that someone else is watching it too, so I don't have to spend 24 hours a day working. When Arizona became a State in the Union they agreed to abide by the Constitution of the United States of America. The same for Maryland, Wisconsin, Ohio, Indiana, Utah, California and all the other States. Delaware does not get an exception because they ratified the Constitution. I heard that on TV recently. Is that true?

On or about 10/31, I could no longer access her wifi on any of my four (4) devices: iPhone 6, iPad Air, MacBook Pro, & my HP Envy laptop. AT&T has come out numerous times, were unable to get on, got on, got kicked off, replaced router box, got on, got my devices on and six (6) days later the problem recurred. AT&T came out again (numerous times), switched the box, changed the Network SSID name, passcode, and made the SSID invisible. I troubleshooted with Apple all the way up to the highest level. I can sporadically use the internet but cannot secure the system. I am a licensed attorney and have sensitive and confidential material on my devices.

(b) (6) is 77 years old, retired, on a fixed income and has perfect credit. I contacted the local police department who declined to take a report and referred me to the FBI. I filed a complaint with the FBI and followed up with a phone call to our local field office. They referred me to the FCC.

Description

I play games on the msn.com/games website and have used it for several years. Today I was playing "Just Words" and it has commercial ads during play. A commercial came on with a man walking in the front door and squatted down, greeted his dog and the next scene was him meeting another man in the foyer and they kissed. I immediately got off the website and could not believe that a commercial ad like that came on without any warning. This agenda that has flooded our society regarding homosexuals is totally against my religion and I was very offended and grieved that my eyes fell upon that filth. This stuff needs to be filtered and available only in a separate category like pornography is. Homosexuals may be "legally married" now with the Supreme Court ruling (which I feel they constitutionally do not have the right to do) but it is offensive to bring this into a family setting. Apparently Pornography is legal too but at least there is a "mature" setting on shows and movies that can let the consumer choose. These ads do not need to be uncategorized but should be deemed porn and not shown in otherwise family friendly game sites.

Description

I am not Mormon, never have, never will be. I am a follower of the Lord Jesus Christ, son of the Almighty. There is a Holy Spirit. Satan impersonates God. So Mormons think they have a Holy Spirit, but it is demonic. They say that they can never get caught, and I have videos that I risked getting arrested or sent to a mental health facility for, but you won't let me upload them. They give up too. I'm may have to try to register. Here is the thing. This Mormonism problem is the largest problem facing the United States of America. Someone how they are involved in World Terroism and that is being used to distract from this problem. So what if this isn't the right place to send those videos. The SSA does allow file attachments, nor does the Department of Education, where i Reported how my voice mail messages on my MetroPCS LG Leon Android changed after they had been left on my service. I used visual voice mail. The news said before hand "they are not voice mails." They don't have prophecy. As (b) (6) says in one of her Moonland songs "Life cannot be foretold." The Mormons create situations and have set up a governmental system that allows those situations to take place, so then the Mormons can go back and say see "We Prophesized that." How do i know this? Because Jesus keeps revealing the truth to me. The New International Version that I have from Central Christian Church of the East Valley is different than the NIV I read in Indiana when I came to know Jesus personal and accepted him as my personal Lord and Savior. That version was 1984. Now this version says there is a baptism of the Holy Spirit in the first chapter of acts. Calvary Community Church at (b) (6) taught about 6 weeks ago that there is a baptism of the Holy Spirit. The Gideon's Bible I got from Desert Vista Behaviorial Health at (b) (6) Mesa, AZ matches the NIV that I got from Central. They did not give me a Christian Bible. The NIV in Mason City, IA at the Mercy Hospital where I also had a behavioral health stay had the Baptism of the Holy Spirit in the first chapter of Acts. Why if the Bible is perfect as (b) (6) of Calvary and Evangelicals say, do they need to make new translations? Simple, sell Bibles. But in a correct version I read that Jesus said "You can't love God and Money, You'll end up loving one and hating the other." Mormons hate God, but love money. Calvary's version of the Bible is also different from the NIV. Ephesians 4:29 is changed from "Don't let any unwholesome talk come out of your mouths, but use your mouth to build people up" To "Don't let any unwholesome talk come out of your mouths, but give them grace." (English Standard Version) Examples of companies that love Money over God: Google, Inc., Apple, Inc. Microsoft, Inc. These are serious evil entities. Yes I'm sure General Motors and Ford and Chrysler-Fiat love money too. I had a car alarm in my Ford Focus that was installed before I owned it. The car fax said that it was purchased here and taken to Oregon and brought back where it was sold. When I was in Washington D. C. I'd hear digital birds chirping in the trees and my car alarm would get set without me pushing the button to set it. What caused this? Was it the Patriot Act? I heard birds Chirping in Amarillo, TX. The Rock Station said "Can't you tell this song is evil?" In Lexington, VA I heard this in emphasis sort of way. "Surrender but don't give yourself away." I like the south and instead of hating them maybe after 155 years of reconstruction we might want to forgive those people. None of them living today had Slaves. There are problems, serious ones. There is a bizarre stop light in Tennessee or Arkansas. Racing has gotten gross. NBCSN reported that fans have been injured. Austin Dillon hit the catch fence at 190 mph, it is likely that someone got hurt, or if not it likely that someone will. Several Years ago TV reported that fans got killed in IndyCar

Racing. What has our FCC been doing? I recorded my car radio responding to me this morning, but the file might be too large for your servers to handle it. Why is that? Are you wasting our money? How do I know all this? Jesus said "Anything hidden will be made known." Jesus is not a liar. The Mormons don't teach Jesus, they simply put his name on stuff so they can hide behind Freedom of Religion in the First Amendment. Jesus and God Almighty sent me to Arizona to help us fix this problem. If you are a Christian who doesn't like cursing and I do it, you can tell me and I might stop. I don't think Ephesians 4:29 has anything to do with cursing. It's talking about unwholesome talk. If someone does an outstanding job, but I tell them Damm Man you did wonderful I am not sinning for using the word Damm. When I was stranded outside Boone, NC I heard something. I was hidden in my car and I heard something evil outside. Earlier in the day I had been sitting in my car at a McDonald's in Hickory, NC because I couldn't afford a Hotel. The radio spoke to me about my anointing. I talked to the radio about executing the Mormon Prophet (is there one?) for Treason. Birds chirped in the trees in across from me. Two men showed up a bit later. I heard them say "with those license plates." I had my windows partially down. I got scared, seat belted in Max's carrier, and took off. Then I heard a whisper that kept telling me that I wasn't safe. I was told where to turn and I found my way to highway north out of Hickory, NC. Why don't I have the right to talk out loud in my car? I believe in levels of sin. I might get frustrated and use Jesus Christ in disgust, but Mormons put his name on their churches. They are taking the Lord's name in vain. When we Christians make that simple mistake, Jesus just ignores it or doesn't even hear it. Can we Christians try to give each other a break once in awhile, please? Mormons are not Christians. It's a lie. Jesus is the King of the Jews. Mormons think they are a master race and support teachings of Adolf Hitler. I wouldn't be surprised if some Nazi's from World War II escaped to Mormon areas of the Country, like Maryland, Utah, Arizona, Colorado, Iowa, Minnesota, California, Washington D. C. and State, Oregon, they are everywhere thinking they can't get caught. I need to get a job so I can get save money to move to Estonia. They want help to learn how to experience Freedom of Speech on this scale and all the other rights we hold dear as people who live in the United States of America. There are surveillance devices in my home. I'm on Cox and this will go to a suspicious email account. I have been discriminated by these people for over 9 years. What is the likelihood that I will be able to get a job to save money to visit Washington D. C. one more time and fly to Estonia? It isn't easy getting Max in. I have to contact the USDA and find a veterinarian who will fill out some paperwork and state that the chip he has will let him get in or give him a chip that will. I do not trust Mormon Veterinarians, so how do I solve that problem? I don't want to get to the airport in Tallin, Estonia and find out that the vet I used did something wrong. Iron Maiden songs played a significant role in me getting saved. We'd have to sit down and listen to the songs so I could show you why. The Number of the Beast exposes Satan/the Devil. (Duke Blue Devils, ASU Sun Devils) This past February I was listening to The Number of the Beast and I started Reckoning it. Then I started walking around Mesa and I saw the number 6 on addresses. Mormons are facinated with 6's 9's (its a 6 upside down) and the number 13. They may think Native Americans are the 13th tribe of Israel. I've heard something about this. They are fascinated with technology, maybe they are like the Cylons on Battlestar Galactica. I tried to use Adama's method and use a VHS to get privacy, but that didn't work. Now that Iron Maiden songs can be manipul

1. Comcast Technician without Proof of ID

I scheduled a main-line maintenance appointment with Comcast on September 15, 2015. A technician came to my home and behaved suspiciously, so I asked him for proof that he is a technician from Comcast. He did not have proof of ID. He did not complete any maintenance work but he repeatedly berated me about calling him for maintenance on the main-line.

2. Unknown Person Cancelled Appointment

Problems with my Internet persisted, so I called Comcast to schedule another appointment. However, a technician did not come at the scheduled time, so I called Comcast. They informed me that an unknown person called Comcast and cancelled the appointment.

3. Interruptions in Phone Calls

When I called Comcast about the problems in 1. and 2. and to reschedule the appointment, the call was interrupted by another call from someone claiming to be from Comcast calling to inform me that my Internet is fine and an appointment is unnecessary. This occurred at least ten times over the course of this period.

4. Rescheduled Appointment

A technician came to my house. He didn't complete any maintenance work but he advised me to replace all my Internet equipment even though the current equipment was newly purchased from Comcast.

5. Communication about Persisting Issues

I continued to call and email Comcast about the persisting Internet issues and, now, a barrage of disrupting phone calls from Comcast daily. They emailed me that a supervisor would visit my house about the issues.

6. Visit from Supervisor

On Sunday, September 27, 2015, a supervisor came to my house and changed the outdoor wiring. With this change, the Internet quality greatly improved.

HOWEVER, Comcast caused me immense damages with their indifference to my complaints about my Internet quality, suspicious behavior, and daily interruptions. Despite the numerous calls and emails to Comcast, they never responded back.

Company Complaining About: This Complaint Is With An Online Service Provider, Not With My Internet Provider.

Description

Please note: this complaint involves an online service provided by Yahoo, not my Internet access company.

I am unable to access my Yahoo email account. I changed my password proactively and since the change, I've been unable to access the account. I've gone through MULTIPLE TIMES Yahoo's online help system to no avail (their help system is circular, i.e., it just keeps taking you back to where you started). On my final online help attempt I requested that Yahoo telephone me so we could get the problem resolved since they have absolutely no method available to consumers to contact them other than the circular online help system. I've received no response to date.

Of interest, my recovery questions didn't match the answers I would have provided which leads me to be concerned that my email account was somehow inadvertently compromised. Not being able to effectively contact Yahoo is not only frustrating, but very concerning, especially when one is concerned about one's account being compromised.

I simply need Yahoo to further assist me with this issue, whether it be via EFFECTIVELY online or the old fashioned way: via telephone (559)960-5524. Unfortunately, there is NO method of other contact with Yahoo other than their circular help system.

Thank you for your assistance.

Company Complaining About: Time Warner

Description

I recently got some text message from 970-5 which says "do-not-reply@textr.us / AutoSMS / The technical term for hairball is bezoar. To unsubscribe, tweet @Snowden "Moew, I <3 catfacts". "

This is so annoying because I get this kind of message 4 times a day. I tried to block one number, then I still keep receiving this with similar number but with different last digit.

Please help me to avoid this annoying message.

Thank you so much.

Company Complaining About: Lasik Vision Institute

Description

I received an unsolicited email from Lasik Vision Institute using the following email address LASIKVisionInstitute@tve-click-thru19.xyz and directing me to the link below:

<http://www.trylvi2.com/?venid=BAA21&subid=160464&DID=0ARSW2>

I did not agree to receive any information from the company who sent the email nor from the company running the promotion.

Attached is the original email message as an Outlook .msg file, as well as a printout of the who.is lookup of the domain from which the email originated. I tried calling both and was not able to get through to anyone who was able to file my complaint internally with the company, therefore I am contacting the FCC.

Description

As we approach the holiday season please, please beware of scammers. I just rec'd a call from Washington, DC asking for Ethel Tucker. I say, "Ethel?" The lady said yes Ethel. I said to her, "she is deceased." The lady says, " when did this happen?" I say, "19 years ago." She says, "19 years ago?" I said yes. She then asked if she has a spouse. I said, "yes she did, he is deceased." So then she wants to know who I am. I said her daughter. I ask, "What is this call regarding?" This lady tells me that she can't tell me what the call is about because I am not authorized for her to discuss this matter. So, I tell the lady that I'm not authorized for you to discuss anything with me. But, you just called my phone for someone who has been expired for over 19 years. If I am not authorized, how did you get my number? She said, your number is listed as her contact. I said that's because I am the power of attorney. So what do you need. The lady then says, "can you fax us somethings stating that you are the power of attorney?" I tell the lady, "what I can do is hang my phone up. What do I look like sending you my personal info and you can't tell me who you are or what this call is relating too." After that, I heard complete silence. Then she heard Dial Tone!!! I ain't the one!!! I then checked the number on line via reverse phone look up. It states that it is scammers calling to collect debts do not exist.

ATT disclosed account information and status to an unauthorized user who made it clear that they were not on the account and could not produce any passwords about the status of the account.

We have been dealing with issues with ATT for months with service shut down (because they were sending the physical address not the billing address listed on the account and could not correct their own system issue) and refused to then offer any credit for the shut down of service or hours I spent dealing with them.

I would like action on the privacy breach in the form of an apology and a real credit to our account and hopefully that this regulatory agency will do something about ATT. Their poor service delivery is really unacceptable.

Here is the case info where ATT's own notes verify the breach by documenting that FINANCIAL STATUS (ie Suspended) of the account was disclosed :

Description

Consumer suspects neighbor (b) (6) on (b) (6) has been hacking his computer. He noticed back in Aug. when he turned internet on and off there was a sound. When he would shut off it was a couple second then turned into minutes. Also he has lost electric keyboard use. All this came to a hit Monday when he was having problem getting on, it was being slow like bandwidth was being taken up. On Tuesday it was really slow on Wednesday couldn't get in there it was hit and miss. The inter connection was coming in but it would not go out. This neighbor has same modem because he has same carrier. He exchanged modem and it was still the same, no change. Also did mark off different way he's getting in had tv phone through wireless connection he took it all out and now the Bluetooth keeps popping up. He must have taken a copy all setting are changed. There is an installation on his hard drive. He was able to put update s on his computer by shutting in it down. There is exclamation point by computer icon. He has disabled many programs but he can seen what was done. They kept being installed. When he reboots the things that he does put come right back up. There are 8 he can't disable. When he disconnects still comes up. A box from pro pc cleaner to make changed to hard drive when it never did. He has it set up to run only manually. If more information is needed he can be contact. City/State/Zip: Williamstown, Massachusetts 01267

Company Complaining About: Republic Wireless

Description

I have been receiving many unwanted texts in the past month. They appear to be from commercial sources (i.e. offer of loans) but don't have real phone numbers (i. (b) (6) ██████████). When I respond STOP, that particular string will end, but I am still receiving others. I have not signed up for anything recently giving consent to be sent "deals." However, I was getting calls from multiple people with the wrong number, looking for someone else, so it is possible, this person signed up for something and wrote down the incorrect number, giving them mine. How can these messages be stopped? My cell phone number is (b) (6) ██████████.

Ticket: # 673910 - Personal Information at the Web Site of OneWire

Date: 11/23/2015 11:55:34 PM

City/State/Zip: Stanford, California 94309

Company Complaining About: Onewire, (b) (6) New York, Ny 10016, (1-855-346-5627)

Description

In an electronic job board at my university, I located an advertisement for the following job.

Investor Relations Associate - Entry Level at Fisher Investments

The advertisement directed me to the following Web link to apply for this job.

https://www.onewire.com/p-51704-Investor-Relations-Associate-Entry-Level-2015-2276-.aspx?utm_source=FisherInvestments&utm_medium=University&utm_campaign=University

OneWire is an intermediary between me and Fisher Investments. In the attached file is a screenshot of the screen presented by OneWire. The screen states nothing about permanently keeping the resume and the cover letter.

So, I uploaded my resume and my cover letter. I then clicked the button titled "Apply on Company Website". I discovered that uploading my resume and my cover letter to the Web site of OneWire was unnecessary since I could and did upload my resume and my cover letter directly to the Web site of Fisher Investment.

I returned to the Web site of OneWire. From it, I deleted my resume. It is no longer visible at the Web site of OneWire. I attempted to delete my cover letter, but the Web site of OneWire does not provide a means to delete the cover letter.

I later spoke with (b) (6), a representative for OneWire. She (1) refused to delete my cover letter and (2) indicated that OneWire does not have the ability to delete the cover letter. The cover letter remains visible at the Web site of OneWire.

The cover letter contains my personal information. If I had known that OneWire would refuse to allow me to remove my own personal information or that OneWire would refuse to remove my personal information at my request, I would never have uploaded my cover letter into the Web site for OneWire. OneWire was deceptive in creating the impression that providing personal information directly to OneWire is necessary to apply for a job at Fisher Investments. In fact, there is not such a necessity. I applied for the job directly at the Web site for Fisher Investments.

An amicable resolution for this matter is that OneWire permanently deletes my cover letter. OneWire is capable of doing so. Other electronic job boards provide the facility for users to delete their cover letters. So, OneWire certainly has the ability to do so. In fact, a cover letter is not even required by OneWire: OneWire displayed the label, "(optional)", next to the field for uploading the cover letter.

Below is the contact information for OneWire.

Date: 11/24/2015 12:46:19 PM

City/State/Zip: Redmond, Washington 98052

Company Complaining About: Comcast

Description

My Xfinity Account where my home address is present and Modem/router is added is compromised.

On First instance two weeks ago I lost my Internet and TV Service. When I called they told me I have no service at my address. Stangely they some other unknown address on my account and said service is activated there. I told I have place no such request. Then after transferring my call to multiple departments and wasting hours of my time on call, they ask me to go to nearest comcast store with address proof. I went to store and presented my rental agreement. Then they said all is fixed and will never happen again. But next day again I saw my TV service is not working. When I called they said again some other home address. I told then the story and again they said we fixed it and will never happen again.

Now after to weeks same story repeats. I lost all my service and when called Customer Care said you dont have any service on my address (b) (6) address. Customer care executive, (b) (6), (b) (6) was not at all cooperative. Her manager, (b) (6) never came to listen to my complaint. She disconnected the call saying she cant help as this service does not exist and need to go to some other department which is closed.

So here I am with no Internet Service and have to miss all my important business meetings in evening. Rush to office for early morning meetings. This is causing me unnecessary stress and discomfort.

I do not understand that how my privacy is protected here. Where xfinity system keep playing with my account and transfer my owned modem to other address and keep removing service where I pay them \$60 per month.

Ticket: # 675184 - Quote Whiz opt-in an selling of cell phone numbers

Date: 11/24/2015 3:56:19 PM

City/State/Zip: Oceanside, California 92057

Company Complaining About: Verizon Wireless

Description

On October 26 I filled out a request for an auto insurance quote. That information went to Quote Whiz (www.quotewhiz.com), and they call me from 866-210-5206. They then gave my information to Answer Financial. Since that time I have received multiple phone calls and text messages to my cell phone. I traced the information back to the data I gave Quote Whiz.

The second page of their quote (see attached file for example) has a disclaimer in very small text that submitting the request for quote is consent to receive calls from an autodialer and text messages. I think this is a deceptive way to automatically "opt-in" a consumer who is just looking for a single insurance quote. My cell phone is now barraged by telephone and text solicitation from insurance company after insurance company. Quote Whiz claims they did not sell my information, but either they did or Answer Financial did.

Description

I conducted business with this company "eFax" from 12-11-2013 through 06-05-2014. I have received numerous phishing attempts and/or spam/scam emails from imposters posing as this company. I have contacted eFax to alert them of this problem and to notify them they provide nothing on their website nor their telephone support to eradicate this problem. Basically, my private account information has been compromised by their systems being hacked and eFax is offering no support to investigate phony emails and phishing attempts. (b) (6) a Level 2 Support Representative from eFax explained to me on 11-24-2015 that although they have 'heard reports before of email attempts, their staff had made efforts to identify who the imposter(s) may be but have failed due to the imposter changing email addresses frequently. I am not at all satisfied that this company is somehow exempt from provisions to protect and secure their customers private company information and seem to care nothing about resolving any investigative efforts moving forward. How is that acceptable in the regulatory guidelines from which Internet companies must interact with transactional information they retain in their databases?

Company Complaining About: Cox

Description

Hello, a cox customer service representative leaked my personal information. They provided an unauthorized person with my name, and address. I complained about this issue multiple times. I have heard all kinds of different stories from them. They have told me they recorded the call, they told me they identified the representative. Then they told me they had no record of this information. They told me a supervisor would review this information. Then they told me a supervisor wouldn't spend the five minutes to review the call because they couldn't be sure it was the right call. I have called about this issue over and over. They never take it seriously, and they always give me a different story. To this day, I have NEVER received a call from anyone regarding this issue. I have even placed a complaint against the supervisor of the agent they identified as leaking the information, regarding the fact they weren't investigating it, and I requested a call about that, and of course there was no response. The customer service has been terrible, leaking private information is a serious issue and they simply have never followed up with me.

He was communicating to someone, claiming to be Larry Paige, the CEO of Google, through YouTube and other social media sites. This Larry Paige initially claimed to be Atheist but seemed to change his tone many times. He believes this person hacked his accounts and mocked him when he reported it. After two years of this, his internet service would go out intermittently. He believes it was this person doing this. Since shutting down his last social media site, his internet was shut down, for the past four months now. This person is now threatening his life. This person is either Google's CEO or working for the FBI. He believes someone put in a request to have his Dial In Free service disconnected. (b) (6)

Description

I have been receiving 5-10 spam calls per day from a block of phone numbers (see below) claiming to be the United States Financial Department in some cases they pretend to be offering financial aid. They are attempting to trick me into providing them personal information. The first time they called I informed them my number was a cell phone number and they should not call it. The second time I again demanded they stop calling and the caller said. "I can call you if I want and I am going to call you 10 times tomorrow"

The phone numbers are coming up as

Description

Hello:

A team member at USA.Gov had suggested I submit a complaint with the FCC as an alternative agency that might be able to assist with a complaint I have against a website. Therefore, I am not sure if anyone can help or not, but my complaint reads as follow:

There has been many complaints against the website datingpsychos.com, which have people, like me, struggling to find good paying jobs to due falsified information that has been placed on this website.

Well, over the years, this site has been known for extorting money from people to remove the content listed on the site. Eventually, they hid their agenda and now utilize a third-party company, "Reputation Resolution", to remove the content within.

Ironically, I was snooping around the web the other day and have discovered some things that led me to suspect that the previous owner of a website called Don't Date Him Girl, owned by (b) (6) [REDACTED] of Miami, FL, may have her hands involved with this.

I say the above because when I was looking at the historical events that have emerged over the years between these two sites, as well as physical addresses being relatively close to one another, I began thinking that there might be more going on than what the normal eye can see.

As I am sure your department has received many complaints similar to mine, I hope that this email may open the window a little more so that an investigative team can research this more than before. I think, which I could be wrong, that Tasha Cunningham may still be connected with this operation and their may be legal enforcement against her for extortion and money laundering, and any other crimes you can place against the operation.

So again, although these websites have stopped me from securing good paying jobs over the years, which cost me a lot of money and defamation, I think my thoughts may help the hundreds (or thousands) of complaints that have been filed to date.

With the above-mentioned, if someone could PLEASE look into this, I would greatly appreciate it.

Thank you very much!

Ticket: # 680908 - ATT Home Internet Setup as Public Network**Date:** 11/29/2015 1:44:07 PM**City/State/Zip:** Miami, Florida 33186**Company Complaining About:** AT&T

Description

I have cancelled my ATT internet access, effective December 16, 2015, but wanted to file a complaint regarding my reasons why. My biggest concern is that I was forced to change to a new network access system which is identified as a Public Network when I view information about the access point. In October of this year, my DSL internet access stopped one afternoon. After 2-3 hours of non-access I contacted ATT. The representative looked into the problem and said everything looked fine. She then paused to look again and came back on the line, stating that I needed to switch to their new lines. In discussing costs I was told the new access would be "cheaper and work faster," neither of turned out to be true. She stated she didn't know if I would be able to access the internet without making the change so I was forced to agree. The next morning, my DSL was working again. A week later an installer came, did something outside (I don't know what) and installed a new modem and cables inside. Shortly after using the new access, I started receiving warnings from my computer's Kaspersky security program that the network was insecure and information from my computer could be read by others. When I opened the internet information I discovered the new access was a public network. I changed all my computer settings to private and non-sharing of files and hoped that would take care of it. For the last month, I still had intermittent warnings. Friday, November 27th, I called ATT and reported this. The tech did nothing more than I did and the warnings returned the next day. If I have been paying for what appears to be a Public Wifi "hotspot" I want to know why and I want to be compensated for it, for the slowness of the service that additional users on MY modem would cause and for the danger posed to MY computer and files. It was clear my computer IS in danger when this morning I tried to go online and as often happens, could not. Instead, I received a warning that an attack was underway on my computer. I now have to work in "spurts" to get anything done online, including writing this complaint, as it is clear this network poses a danger.

Yesterday, I called ATT back to inquire about the bill which was a mess of information and no lower in price. After two hours, there was no resolution regarding the bill (ATT new bill for the U-verse internet they put me on states a billing cycle from 10/17 - 11/16 and month charges from 11/17 through 12/16. The rep could not make it clear what time period I was actually paying for. He could not add any information about the Public Network issue and the fact that a warning had again appeared after the tech's work the day before. He stated that if I cancelled I would still receive a final bill, even though it appears that with this current bill, I would be paying for the time period up to Dec. 16, which is the date that I requested the cancellation of services take place.

I have no confidence in ATT, their products or their service. I am glad I cancelled and wanted my reasons to be known to the FCC as others may find themselves in a similar situation. Please find enclosed a copy of the bill in question as I really to find it ridiculously formatted.

The modern production software challenge.

Hey (b) (6)

Modern software applications and services have evolved to become more sophisticated. Their architectures are highly distributed, service-oriented, polyglot and scale across public and private clouds. By their very nature, they have become increasingly complex to manage and monitor. The business now requires IT operations, software development, and business stakeholders to be fully integrated. Cross-functional teams must be agile and be able to easily share information — they must communicate and collaborate using a common platform. New Relic was built to help cross functional teams tackle the challenge of monitoring complex production software.

Effective teams use New Relic to:

Deliver fast, stable and secure production software

Get integrated visibility into software and business performance

Pro-actively pinpoint root cause production problems anywhere in the stack

Trace problems down to the line of code

Moving to the cloud is complicated. Do it right and you can get the infrastructure out of the way , increase agility and speed innovation.

Here is why companies like yours chooses New Relic to migrate wisely:

Migrate safely and securely, with 100% visibility for your entire stack.

Set benchmarks for current performance, app health, and usage

Keep initial investments small, then scale tactically.

Real-time visibility into what's working and what's not in a cloud infrastructure service.

Measure performance, refine, and prove migration success.

Scale up quickly and easily, based on the success of your apps.

Optimize, iterate, and develop new apps to drive your business.

Hi (b) (6)

Front-end developers and support teams need to know the environmental attributes of their customers to make sure they have a product that works on the right systems for their paying customers. Furthermore, support needs to know what a user was on and what they were doing when Enterprise_Customer_16 filed a support ticket. Using New Relic Insights and Browser, pinpoint the specifics and have better customer intelligence as your troubleshoot and fix the issues.

I assumed you were the correct contact to speak about New Relic at Compliance Science, Inc.. If not, could you please let me know whom I should connect with?

Description

The following complaint makes it obvious to me that I could never live in Estonia. (b) (6) wants out of Estonia, is there a way to help her and her family and bring them over the United States? At <https://www.facebook.com/lennakuurmaafannileht/> Lenna Kuurmaa and 2 men have been forced to spread misinformation to the Estonian people. A scene from the movie Moulin Rouge is reenacted. Estonian Television ETV 3 (channel 3 I believe) tells the audience that Lenna Kuurmaa is playing Nicole Kidman. ETV 3 shows a graphic the song is from Nicole Kidman, instead of her character Satine. The graphic includes the title of the song and I believe it is incorrect. I researched this movie and tried to watch it on Cox On-Demand, but that told me that I had to subscribe to something and I couldn't figure what premium channel Cox wanted me to subscribe to. Did Estonian TV even get the name of the song right? Estonian TV is doing something terrible with this video. (b) (6) and 2 guys to do this. (b) (6) is a gold cage. (b) (6) sings the song "I'll fly away." At the line "when will I begin, to live again" I thought ETV 3 made it sound like it could be "when will I begin, to live bargain." On other listenings I got it clear that it was "again." It might be explained (b) (6) accent, but it did seem odd. She wouldn't have said "bargain" unless they gave her no other choice. A screen comes up behind (b) (6) to her left, and a silhouette of a man is shown and he sings the line "How wonderful life is no that you are in world." (oh by the way the writer of this song for the movie ripped somebody else off) A screen comes up behind (b) (6) to her right, and another silhouette of a man is shown. This second man makes a terrible mocking gesture with his arms and displays a hand gesture shooting the first man. Lenna sings out the rest of the song, however it ends on "why live life from dream to dream and dread the day dreamin ends." The part where Satine sings the hopeful part "One day I'll fly away Fly, Fly away..." is not part of the presentation. Here is how I interpret the message Estonia is trying to send to its people: The United States of America is stupid [they are mocking this movie]. Prostitution is a cage. Falling in love with a prostitute is foolish and will always end in heartbreak. Being a prostitute will always lead to heartbreak. Love is a terrible thing. Hope is a terrible thing. (b) (6) is a lovely woman. It is obvious to me that her heart is not in the presentation and that she feels terrible about having to do it. She has children too and her government is giving no respect to how they feel and think about their mother. They are using (b) (6) to teach her children, that they too are powerless and hopeless. (b) (6) had to do an interview, that I think was faked by her government, where she says that one of her favorite music groups is Queen. I haven't been able to figure out why she didn't like Queen when I talked about it. I have re-watched this interview several times and It looks to me that she memorized what groups inspired her music. I like her Moonland album, but it doesn't sound like Queen.] Is the Estonian government this cunning? Two silhouettes are used in this Moulin Rouge presentation. In Queen's Bohemian Rhapsody (b) (6) sings "I see a little silhouette of a man..." The Estonian Government appears to me to be insulting Lenna, her family, and fans of the Moonland CD. It's subtle but is the Estonian Government also putting down the group Queen, making fun of people with HIV, insulting Gay people, and putting down the lifestyle the (b) (6) chose to live?

I have spoken in detail with my service provider and they say they they do not have the means to interfere with service in these ways. I have reason to believe that it is coming from some people within the NSA, possibly using the stingray towers. It is also my belief that they are using these intrusions to manipulate the circumstances in my life using the COINTELPRO program of which I am NOT a member. I am also not a target and whoever is doing this knows all too well by now. Whoever is doing this is undoubtedly using me with the program, as evidenced by the intense pain and pressure in my belly that follows the suspect incoming frequencies to my cell as well as the downward spiral of events in my life that always seem to follow the strange occurrences of "hacking" on my cell and within my emails.

Ticket: # 684279 - Indecent Advertising aimed at Toddlers

Date: 12/1/2015 1:00:10 PM

City/State/Zip: Sacramento, California 95814

Company Complaining About: Comcast

Description

First of all, I understand the FCC may not have legislative jurisdiction over what I am about to complain about, but I don't know where else to start, so I am starting with the one Government Organisation I feel may have some clout and/or may be connected to people who can make a difference.

I wish to complain about an incident that occurred yesterday morning (November 30th, around 6.30am) involving advertising content YouTube (Google) planted next to a toddler video for the nursery rhyme "Wheels on the Bus". I was sitting with my 3 year old and he saw my iPhone and asked to watch a video of "Wheels on the Bus", his favourite song. We don't watch TV and rarely use computers in front of our children, but I searched YouTube and amongst a myriad of animated and live action versions of the song, chose a version we knew and loved. We watch the video and while it was playing I stepped aside to turn off a whistling kettle in the kitchen, only moments later to hear my 3 year old emit sounds of fear, horror and distress. I ran back to find a commercial advertisement playing for a Horrific Video Game. I do not know the name of the game, but it was animation and showed humans and Terminator style robots shooting guns at the screen, cars crashing, explosions and people screaming in pain. When I arrived the Terminator character had a huge gun pointed at the screen and fired a explosive bullet at the viewer, with a massive accompanying explosion. Images of people hurt, cars crashing, guns firing ensued. I turned it off as quickly as I could but was horrified that YouTube would plant such a video amongst toddler videos. I have now had to spend the last 24 hours trying to explain to my toddler what it was he saw, that no one was hurt, the meaning of bad guys, things no 3 year old should have to have explained to them. I'm disgusted with YouTube. For the sake of a quick advertising buck, they can't be bothered to filter out graphic 18+ content away from toddler videos.

I tried to complain to YouTube but they have no apparent communication forum apart from complaining about Copyright issues. Could you please advise and help.

sincerely

Date: 12/1/2015 3:12:29 PM

City/State/Zip: Ridgefield, Connecticut 06877

Company Complaining About: AT&T

Description

Tried to log into my email account and not a password I am positive I did last use is allowing me to open my email and then proceed to "FORGOT PASSWORD" to reset and get a new one and says my account doesn't exist and to start a chat to speak with a representative to help get a new password in which I proceed to yesterday on November 30, 2015. After giving all my information to 2 representatives already, I am told a supervisor will have to call me to better help that situation and a (b) (6) " calls my home number and give (b) (6) every piece of my personal history information and it actually felt like I was giving them my information for the first time since they had nothing on my account and (b) (6) also asked for the serial number to my modem and being on the phone over an hour that I am told by a (b) (6) that since I don't have UVERSE anymore, that account was deleted and the only way is to remember my first name and last name of what I had used when I first opened up this email account that was free then with "(b) (6) which doesn't exist any longer and then been bought out by ATT at one time? (b) (6) also added that it's from Corporate who made these new changes and there is no way to retrieve my email if I don't have the original first name and last name of when this free email account was opened.

This is the first time I ever was asked to do that and if that was the case, I have changed my password a few times before but never went thru anything they put me thru yesterday. This email is over 10 years old? I can't even recall.....I have important medical and life and death information stored in that email account which I am afraid that they are holding hostage and for what reason....I am willing to give them all proof needed to back track this account since ATT has been there with it since the beginning of (b) (6)

Unfortunately, we just had another malicious incident occur this past Friday at our home, November 27th, 2015 in which an official complaint was filed with our Police department of an unfortunate criminal act on our property and this is why it's urgently important that I get into this email. I also am asking how do we not know if someone has taken over my email and I am the true owner of it and they are denying the right person. This is my second time writing regarding a phone company's practice and not sure if it is somewhat related to my first complaint. Please be aware (b) (6) is my phone company I have phone and internet with now and AT&T was bought out from them in 2014 in the state of Connecticut in which lies the problem.....who is handling my email address? AT&T is email. Need to figure that out. Also, to verify am I a DSL customer is what I was told and changed back to as of last year or am I still UVERSE? (b) (6) couldn't verify that with me yesterday and I repeatedly asked him a few times and never got a straight answer. I asked to please speak with a Supervisor so I could have this made an official complaint to have a record of what was going on to try and further a true resolution they are trying not to resolve....after trying to find a Supervisor, (b) (6) put a (b) (6) on the phone and he recites that it's from Corporate that this is the new policy....and said they can't help me but to go back into the email and try to answer your security questions...and I responded but how can I do that if it tells me I don't have an account associated with this email?? but yet I am getting billed for it in my name at my current address and being paid through my banking accounts and yet to believe I do still have most of my previous years of billing statements that I was with AT&T in which internet was associated with. Again, to be left scratching your head with...I am exhausted.

Description

I closed on my new home yesterday(November 30th)...and as I knew I would need new service, I called Comcast back on the 18th of November to set up a time for installation of Cable/Internet/Home Phone. I requested the 30th, but, as it was not available at the time, I accepted the today(Dec 1st). There was some back and forth about moving it up, but I understood that was only if something became available. At this point, the timeframe was 8-10 AM for December 1st.

I received a call mid move yesterday(November 30th) which turned out to be a group call from my girlfriend and comcast; she was in the process of cancelling her current service as she is moving into the new home with me. Somehow, she was given access to my account information(I had NEVER added her to it) with the customer service rep and found out that our new plan was not the same as her current plan that was ending so the rep wanted to upsell the difference.

I spent a total of 26 minutes on the phone going over the various options and about half of that was the representative assuring us and triple checking that the installation time and date WOULD NOT CHANGE. This was obviously very important and easily doubled the length of the call just to be 100% sure that there would be no issue with the upgraded package(which was simply more channels and better internet...there was no downgrade). At the end of the call, the representative AGAIN assured us that we were set for December 1st from 8-10am. I reiterated multiple times that if this put the timeframe in jeopardy at all that we did not want it, and was assured over and over again it wouldnt.

Today, my girlfriend stayed home from work as I am out of vacation days due to the move. She texted me at 10AM and let me know there was no comcast yet. at 10:05 I called up and the automated service asked me if I was calling about my 8-10 appointment. The representative that I spoke to let me know that because I changed my package...the installation window was cancelled and I would have to reschedule. Not only that, but that both the original package and the new package were on my account currently so it would all have to be redone.(Original was not contracted, I relented and went with a contracted for the newest)

I asked if they would still be able to get out today and he told me no...I was extremely upset at this point and asked to speak to a supervisor who told me the same thing after spending a good amount of time just fixing the account to not show a mess of installation/services. The earliest they could come out is Friday from 8-9 AM which I again said was not acceptable as I cannot take anymore work off, but she was unable to offer me anything other than sympathy and agreed that there was nothing more I could have done to avoid this. I even asked if there was any way to have someone come after 5 so I could avoid missing a day, but the earliest time would be 1pm and that wouldn't be til next week.

So as it stands now, I will be going an additional 4 days without service, I will have to take at least a half day of unpaid leave from my work which comes to around ~\$165 pretax lost in wages (can provide a paystub if this seems incredulous), and there's always the chance that once again...it will be rescheduled/cancelled.

Eventually, I had to cancel the order and my girlfriend spent another few hours undoing the cancellation of her account and we self-installed her old equipment and now wait for the rest of it to come in the mail.

All in all, my major concerns were:

The representative giving unauthorized access to my new account in order to get a sale.

The same representative repeatedly telling both myself and my girlfriend over the length of a 26 minute call that our timeframe would not change.

Having absolutely no recourse if I wanted to get connected despite every account representative and supervisor admitting there was nothing I could have done to avoid this...thereby putting the onus on me to miss more work.

City/State/Zip: Loveland, Ohio 45140

Company Complaining About: Global Communications

Description

On approximately October 30 my business phone number at (b) (6) Insurance Agency, LLC (b) (6) suddenly stopped ringing inbound phone calls. I found out that someone forwarded my business phone number to (b) (6). This phone number also was displayed on the internet along with pictures of a blonde lady with a string bathing suit on trying to make it look like the picture was of me. Cincinnati Bell was unable to put a block on (b) (6). This work order was sent to engineering at (b) (6) and was determined they could not block this phone number. I filed a police report in Miami Township Clermont County OH and the phone number (b) (6) is a land line inside of a home in Butler County. Another police office went to this home and the residents stated that they get hang up phone calls on this line into their home. We first thought it was from Global Communications however it could be Verizon. I have had to disconnect my business line as someone changed it on the internet. After I disconnected (b) (6), I noticed that (b) (6) now had my voice mail on this phone. My husband called the number and left a message. Nobody called him back and suddenly the phone number of (b) (6) was disconnected. Someone has done this to me deliberty. I also reported this to the Department of Insurance in Ohio. My cell phone is (b) (6) you need to call me. Thank you for your help.

Company Complaining About: Cox

Description

I have sent in videos and pictures that are upside down. There is some type of communication going on with my phone when I record video or take photos. This is how they have ended up upside down. Are we simply being hassled when this happens or are these videos more especially damaging evidence? If it is especially damaging evidence and you get to looking at them and think that maybe it isn't very damaging, also then consider that I might have had the camera upside down myself. That does happen, but I make a strong effort not to let it occur, so that shouldn't be their excuse.

Date: 12/3/2015 10:10:14 PM

City/State/Zip: New Brunswick, New Jersey 08901

Company Complaining About: Nj.com / Nj Advance Media/ Star - Ledger

Description

Please forward to the appropriate department for Newspaper paper/digital indecency.

I am attaching correspondence with the editor of the Star-Ledger. He is denying any manipulation of a weather map and has no remorse or courtesy.

On August 11, 2015, they published a weather map, that has very likely been modified to display a phallic image. They then reposted it strictly for comments and humor. I wrote to them regarding this act of indecency from a statewide reputable newspaper publication and I am attaching the correspondence. There is an apparent agenda where male sexual exploitation is acceptable to an extent while female sexual exploitation is completely dismissed. I am sure this would never have happened if it was the case for female sexual anatomy.

Here are some of their postings:

I am being direct with you and I am not sure why you are not directly responding to my inquiry. I couldn't find any proper rationale for a deliberate reposting clearly stating for the humor. Clearly there is no remorse. I am not sure what to make of a such a news source that is supposed to report news with some sort of professionalism.

I opted out of ALL Honda marketing communications on Jul 19, 2015, again on Sep 9, 2015 and again today Dec 4 2015. I continue to receive emails in violation of regulations. I am attaching a PDF compilation of the marketing emails and associated opt out confirmations from July 2015 through present. I have even called the dealership directly and asked them to remove my name, due to the unwanted emails and phone calls.

Description

I would like to issue a formal complaint against kamalwebhasan.com who is sending unsolicited advertising for Vonage and other advertisers to me. When I try to go to the sender's website, it asks for a special code, but every time I type it in it's rejected. This allows them to keep sending me all kinds of unwanted junk emails.

I believe this must be a scam website that keeps people who receive their advertisements from unsubscribing.

Thank you for any help you can be in this matter.

Description

I fret of small details. That is how I catch things and the employers I've worked for have chastised me for being too picky. I've either quit or gotten fired from those jobs. FYI: I was looking for legal porn on the Internet. I do think that it should be taken down, because there is no way that a website can prove that a child did not access it. We have to prove their guilty, they are innocent until proven guilty, but shouldn't it be an open and shut case? It is on the onus of the website to follow the law that requires that children in the United States of America have to be over 18 to be shown on a Porn website. A picture of a child in clothing isn't allowed to be on a Porn website. It is on the onus of the website to follow the law that requires that viewers of Porn be over 18. Do we have to wait until a child accesses Porn, say pornhub.com, to be able to take down the website? We can also look at like we are protecting the people that own and work for the website from doing something illegal. Mesa Police might try to use the excuse that they stop me from taking pictures at a school keeps me from molesting a child. That's a gigantic jump a assumption that is not based in fact. Pornhub violates the law. So does the Mesa Police Department. Is there a State in the Union that allows people under 18 to view pornography? Yes I have Pornography on HBO. I tried to send it in, but it might not have made it. Tonight I worked for 4 hours and I think I have found a solution, and I can get that into you. You need to see it. A woman, doing an illegal sex job is in that HBO show I tried to send it. I saw her doing Pornography on Pornhub.com . HBO and Cox says that it is up to me the parent to stop my kids from watching it. I don't have kids, but other people do. Pornhub is still up, I've over 18, and I'm trusting you that there are not any people in the videos that are under 18. If I had 12 dollars I go buy a magazine, but breakups are hard.

Dear (b) (6)

Thank you for contacting The Green Bay Press-Gazette - We write the words that speak to you.

We appreciate the time you took to write to us and apologize for any trouble you have experienced receiving your daily e-mails. Please know that while the daily e-mail is a convenient way to reach the E-Newspaper, it is not the only method available to you.

There are a few steps to take to ensure that you stop receiving your daily e-mail.

To do this, please go to <http://www.greenbaypressgazette.com/>. You will be prompted to log in if you have not already done so and then the site will redirect you to the Account Management page. From there, complete the following steps:

1. Locate the "Newsletter Settings" option. This option is along the right-hand side of the page.
2. Make sure that the "Subscriber Exclusive" Top 5 daily option is not checked. You may also wish to check or uncheck our other additional newsletters while you are on this page should any of them strike your interest.
3. Scroll down to the very bottom of the page and click "Save my settings."

Once these steps are completed you will stop receiving the daily e-mail the next day along with any other newsletters you chose to receive.

We thank you for your readership, and once again apologize for any inconvenience which you experienced. We will remain available via e-mail, chat, or phone to assist with any additional questions or concerns you may have using the contact information listed below.

Sincerely,

(b) (6)

Account Specialist

P.S. Our customer service agents can assist you via telephone at (b) (6) from 8:00 AM - 7:00 PM Monday through Friday and Sunday from 7:00 AM - 11:00 AM. We are also available by e-mail and Live Chat via our website.

On Sat, Dec 05, 2015 at 1:27 PM, (b) (6)

I emailed two weeks ago to unsubscribe from the daily email I am receiving from the (b) (6). I received an email back, that is shown below acknowledging receipt of my request. Two weeks later I am still receiving the daily email. Please unsubscribe me from this email. If this does not happen, my next email will be to the FCC to report your lack of compliance with the law. Thank you for your prompt attention. I value my press gazette paper as well as the app I use when I want to read the news. I would hate to see you fined.

Date: 12/8/2015 4:03:20 PM

City/State/Zip: Boynton Beach, Florida 33473

Company Complaining About: See Listing Below And There Are Many More

Description

Over the past month, I have been received thousands of unwanted, unsolicited email messages from a number of companies that sent out such messages for companies advertising their products/services multiple times each day. I have sent letters to some of the companies whose products or services are involved as well as to one of the companies that sends these unwanted messages; all to no avail. Many, but not all, messages provide an opt-out or unsubscribe option which I have used hundreds of times in connection with attempting to stop receiving these messages, but that has not stopped the messages from being received. If anything, there are more messages being received each day.

There are many different companies forwarding the messages with none showing their name, only an address that in many instances, after doing some research, is merely a post office box at a UPS Store. It is nearly impossible to determine the name of these companies in spite of FCC requirements for these spam messages.

Attached are copies of the letters I have sent to the companies whose products/services are advertised and the one company that forwards these email messages that I was able to locate in Wisconsin. There are many more companies forward the same email messages in other locations. Here are some addresses of other companies forwarding these emails with no company name:

(b) (6) [Redacted]
[Redacted]
[Redacted]

New York, NY 10007

I would estimate I am now receiving over 200 such messages daily, sometimes the same advertising message 5 or 6 email messages in a row.

This email address is used as a business address, and these unwanted messages are extremely annoying and need to stop being received.

Please advise what action the FCC will take to end this problem as it's very difficult to change the email address in that it is used for business purposes and there are many legitimate customers that use this address to contact me.

Description

I got a Friend request on facebook from an old friend, I clicked accept and almost immediately I got a message from the friend asking how I was, and he wanted to know if I had heard about the money he had won, I told him congratulations and asked how much, he told me \$100 thousand cash, he asked if I had gotten mine since my name was on the winners list. I told him no and he told me to text a man by the name of (b) ? his number is (b) (6) I sent the text and got a reply instantly telling me I was on the list and he needed my Name, address, yearly income, etc... I then checked my friends list and I had 2 with the name of my friend, I looked at both of them and the one I was talking to via messages had nothing on his page, I then realized it was a scam, I mssg. the fake friend and said I had reported them as a scam he replied that he was my friend but when I mssg. him and told him I had called that friend and he didn't know anything about it, he stopped the conversation. I then started getting text from the guy named (b) and I told him I had reported him as a scam and he texted me and told me he was part of the Federal Govt and that it wasn't a scam but a real program of the Fed. Govt. to help people.

Description

Each day I'm bombarded with countless emails from people and companies of which I have no dealings. Often they are even names I've never heard of. I unsubscribe to them but they keep coming. Many times there's no option for unsubscribe get or the link is bogus. When I'm able to successfully opt out, after a month or two the ads start again. In the interest, they pass my info off to several other organizations.

If I utilize a company I always check all boxes indicating I don't want further contact but it doesn't help.

This is redicoulous! Can you please initiate a "Do Not Email" list for the millions of us who are plagued by this intrusion? Sometimes I get the same email multiple times.

With the threat of cyber fraud it would help to limit unwanted access to consumers info. I understand advertising but this is blatant harassment!!! Make it stop....PLEASE!

Company Complaining About: Charter

Description

In short, Foster and Smith (<http://www.drsfostersmith.com/>) does not have a clear and conspicuous mechanism of allowing me to completely opt out of their email system. I have contacted their customer support department and was told that I was removed from an email list, but that there were two "special" lists (i.e. "Remember Me" and "Express Customer") from which I needed to manually opt. Despite the customer service representative indicating she had unsubscribed me, I continue to receive advertising material. I was unable to locate instructions on how to opt out of those special lists. I have since requested further assistance from the customer service department, yet my contact has been ignored to this point.

Ticket: # 701529 - CAN-SPAM violation from IDC Technologies

Date: 12/10/2015 1:36:59 PM

City/State/Zip: Tempe, Arizona 85282

Company Complaining About: Cox

Description

I previously submitted a complaint about this organization, IDC Technologies, on December 4. The same worker at the same company sent me another E-Mail today, after I asked him to remove me from his list twice (and asked others at his company to remove me from the list multiple times as well). I have attached several of the E-Mails, including my latest removal requests and the latest spam I received from IDC, to this submission; full headers are included.

Company Complaining About: Do Not Know

Description

i live here in s.e. georgia with father. i am 39 yrs old. i have had problems finding work and satisfaction for life. so i had decided to find what parents and old areas could do for me instead of going out for new things. i had trouble with internet and my pc and cell phone a couple weeks ago. it seemed that the devices became slow and unusable for me. these are at&t accounts which my father owns and pays for. i have a checkerd history with these family members. i can remember being happy and eventually family coming to me and condemning me for such satisfaction while having no job or other people except them and making them pay all my bills. they said they could help. eventually several years later i found that i had the rodshaped elements in head and neck and also eventually found this problem with electroradiation as the only other option than the scenario formentioned. so in the last year or so i noticed a major problem and the reason i am writing this note. the electroconductive elements problem is that their usefullness as a way to get helpful radiation is completely overshadowed by their being used simply to touch and move around. the practice of finding a way to modulate a waveform and maintain connection while delivering said energy is not at all being done. all that these electroelements are being used for is simply locking on and making noises in the human ear hearing range causing vibrations and movement of the rods themselves. this is a grave abuse of these energy transfer medium i have grown, glued, or cemented near scullbase and jawbone. i do not know what technology firms or networks specifically are implicated in causing the above abuse scenario. but i know that my main message is that harm causing activity is involved. especially when this state of affairs is not caused by foundations of positions meant to make themselves able to use the rods. but that the way they are being used is the only way they are likely to ever be used. it is not good when you know that touching and moving and electrical charge sensations were meant by the induction source to be hurtful and obnoxious.

Ticket: # 702585 - Internet Theft / Fraud of the selling of stolen private inventions to big businesses and high profile people

Date: 12/10/2015 8:05:06 PM

City/State/Zip: Alliance, Nebraska 69301

Company Complaining About: Viaero

Description

I am the victim of Internet Identity theft/fraud that also includes the sale of my personal private stolen inventions dating back to 1994 to present that have been sold to big businesses and high profile people with correspondence to them by the internet as well. That includes Government employee's, that is now in one of the biggest cover ups one has seen. And since some of my inventions were stolen and sold to Politicians there seems to be a case of them in their presidential campaigning years that are libel and slandering me as well in the cover up. It now also involves the FBI and DEA out of CO that got involved with my FBI sting operation inventions and FBI NEW report #'s I came up with. As well as 2 or more of them that are now saying they are related to me thru Fertility Clinics thru illegal Harvesting and selling that led to using them. I want you to know that in case you find quite a bit in my case. They are said to be Fort Collins DEA who maybe originated out of MT , and Denver, CO FBI and maybe in other areas where I used to live. IT will show who the local residents are that in internet connections are with in all of these people and businesses that are involved in the situation and the scam against me. Some they have been also been selling my families private stolen personal property by the internet as well as Social Security and birth certificate information in the US and abroad by the same locals for extra income as the rest of the stuff. Also are involved is the sell of my stolen frozen embryos in their underground way of making money. They are also selling my private credentials over the internet. They are also what I have been found opening fictitious internet names and sites in all of my legal names I have carried, all mainly out of FL, NE, CO and NE what I have found to date.. I do have names and suspects that I have given over to IC3 with no resolution to date. Or my mail was stolen on their response for more information the parties did business by answering my mail illegally as they have done to the USPTO and other Identity Theft offices I have had to work with for 7 and half years now. I also now have SEVER libel and slander to my names all over the internet and in some private sites and now in public places and private circles. Some I am told are very graphic that body and face match doubles were used. I have not have time to research these sites. I am glad to give you more details if you would like to contact me. It has reached sites abroad. Some may have acquired some of the information by the big time individual's involved that illegally had put in and paid for themselves, that my family did not buy in a home security system to their pre manufactured homes. This may be also a major CABLE TV problem as well from those types of stations that the systems were sold to that is also under investigation by the State Department and Homeland Security. Besides the local people that are under investigation themselves with The BNSF Railroad Company locally and as a whole company, The City Of Alliance, a California Utility Company, and major broadcasting and movie making companies that that ARE involved with the whole situation and scam that paid for the illegal systems.. A lot of Privacy issues are and have been completely broken in this case. All these people had found out who I am related to abroad and that I was inventing major money making items. Besides the MAJOR Fertility Fraud/ Theft that has happened to me and my 2 other siblings. This all has been turned into Homeland Security since some of my inventions are with Defense System inventions. Some of these people have stalked me from abroad as well as the US that are said to be suspects. That has also all been turned in. They

would have got my whole families computer information this way as well as the rest of the situation and our credentials. My computer was also gotten into by Germany, Denver and Alliance, NE as well as others on October 12th 2015 that has also been turned in. It may have been gotten into sooner than that but I did not catch it. Since they got my last computer as well from the Chicago, IL area when I lived in Galesburg, IL some 7 and half years ago. Email name there was 2130@comcast.net. Hope you can help. A second phone (b) (6) the Viaero account # is under.

I have been receiving emails for job opportunities from a company that has yet to open in my state. I called And asked to be removed for there emails and asked how the obtained my email. They stated they obtained my email from the state of RI beauty licensing web site of people who hold a valid cosmetics license. There was not an opt out section on the spam email. So when I called to ask to be removed Alex Spencer who was the contact person informed me that the state of RI has such a bad economy that they asked him to contact all licenced nail and cosmetology professionals. Is this legal? Can you just go on some web site and obtain all the emails and blindly email all to ask if they want to work for them and to come for an interview..? Aren't there laws in place against email soliciting? They could be potentially putting other businesses at risk by taking employees from them. I did not ask to be added to their email list I have never done business with them, and further more they do not offer an opt out of the email!

Description

Since the beginning of 2015, I've decided to proactively get rid of "email offers" from the New York Times by diligently unsubscribing to every email I get from them, and making sure that the settings of my account email preferences are set to "no emails." Yet 12 months later, I continue to receive unwanted SPAM from them. It is obvious to me that they do not honor the "unsubscribe" requests I've put it, and do not care about my email preference settings. While I have great respect for NYT's reporting and editorial standards, that does not give their marketing department license to SPAM people with unwanted offers. Their system for honoring unsubscribe opt-outs is clearly not working on a systemic level, and this needs to be addressed.

Company Complaining About: Unsure The Intent Of Question. Home Internet Is At&t, This Occurred On Virgin Mobile/assurance Wireless, But They Aren't The Issue Are They? I Got Here From A Link To Report Spam Texts

Description

I was sent a text on my Obama phone today. It was from promo56@marklotto.com

It said: Subject:hurray You are officially a millionaire courtesy of Mark6, text us your email for more info

I have only given that number to a select few, and haven't entered said lottery so knew it was a scam. Plus it's inconceivable that I would become a millionaire, especially via random text. So I googled it, and while I found no mention of anyone else receiving this text, I did find mention of an email scam from this same email address. Plus I looked Mark 6 lottery. It's like a powerball in China. I have never picked numbers to that sort of lottery and never purchased that sort of ticket, and their web address is completely different. I tried to forward to 7726. They replied that they couldn't trace the sender and to report to abuse, but I don't know what that means, so I am reporting it here. Apparently in 2013 somebody was doing people harm from this email address and now they have moved on to text messaging. I'm trusting you to notify the correct people to attempt to prevent them from scamming some elderly/gullible people

I have had a problem with my email address. I do not know how it all works but it seems that if I use my email address when I do any internet shopping that there is some way that somebody has information about what I bought when I check my email there is usually a delivery confirmation email from the customer service that is sent after ordering and I have shopped at different web sites for different things. There is another issue about spam. I have had IRS audit notes in my spam box they even say .gov and seemed very real and I have also had collection agencies saying that I owed them money through the spam box in my email I know it is not true but they say all the things that they will collect and destroy my credit and they have even called my cell phone # acting like collection agents. Company Complaining About: Encore Ad Group

Description

I have been receiving multiple emails as spam from various companies, and when I select the unsubscribe button they are linking back to the same looking website but with different domain names. And the unsubscribe is not being adhered to. The companies that the marketing is for have different addresses but all unsubscribe link back to similar pages.

The owner of the domain per the DNS report is a company called Encore Ad Group. They are hosting 28 domains through Enom, Inc. Their mailing address is not a legitimate address as it is a traveling mailbox located at 500 Westover drive in NC and registered with travelingmailboxes.com.

This company is directly violating the anti-spam laws and is intentionally hiding themselves to avoid being held accountable.

One of the 28 domains I've located is plansinyourarea.com.

Dear Federal Trade Commissions:

My name is (b) (6). I live in Los Angeles. A few days ago I was contacted by an individual who said they knew me from Chat-Avenue.com, specifically, a Flash Chat internet room called College Chat. The user often goes by the name of "Bee" or "B" in this room. The Skype name is "(b) (6)" - The koncept might break you" I believe this person is impersonating and has stolen details from a female who may or may not live in Winnipeg, Canada where the transmissions are being routed. I want to allow you to view any conversation since two days ago with (b) (6)" Some of it is about a friend of mine, sexual in nature, and at one point I do write, "I will kill you you know." Techincally this is a threat, but it was intended as dark humor. At the time, I was not even sure if this person was male or not, and I've been pretty pissed off about men using women's Facebook pics. I don't do that. I am bi-polar. And I say dumb things when I get pist. Read it all, all the same. They contacted from MB R2C 0A1 in Winnipeg, Manitoba, Canada

Description

I had a news editor from (b) (6) local paper start an internet hate campaign against me, a private citizen, to attempt to threaten and intimidate me to not use my right of free speech in speaking my opinion about local public figures. It was so horrible, she even attacked my 80 year old parents, publishing their names, ages, their address and she and her friend, a city councilman's wife who didn't like my criticism of her husband were ridiculing me on the page the Gatehouse editor created for weeks before the police could stop them. I reported it to law enforcement, and they went out to interview the (b) (6) and his wife, and they turned the Gatehouse editor in, stating they knew she was the one committing the criminal act and intimidation and threats to infringe on my civil liberties. Since this Editor (b) (6), did these things on business hours at her Gatehouse media job, from a Gatehouse media computer and threats and intimidation is involved, would that be under your agency's jurisdiction to handle? Gatehouse is print media but they also do live streaming of news, so that does qualify as broadcast news, correct? And Gatehouse is owned (now) by New Media Investment Group, which also does some live broadcast streaming in several of their venues as well. I made a complaint to the company back in January and finally went up the chain of command to (b) (6). I got a call back from a local publisher who told me that a full investigation took place at the time of my complaint and that the editor that stalked and intimidated myself and my family was "severely disciplined" but I find that VERY hard to believe, being that she didn't lose her job, she didn't get demoted and in fact, got PROMOTED right after that investigation was done internally. Since she committed a digital crime from the newsroom maybe, does that give you jurisdiction to investigate? It was HORRIBLE what that woman did to me. The local publisher said it was out of character for her to commit the crime, and he said she apologized profusely to those in the company who investigated, but it's been SIX MONTHS and that woman never once attempted to contact me to apologize, even though she had my address, it was among the information that she used to intimidate me to shut up about her local political friends. The officer who investigated the matter from (b) (6) said (b) (6) apologized to HIM as well for her crime, but again, she never once attempted to contact me to apologize or let me know my family was safe, as my police complaint plainly noted that I was terrified for their safety, being that she put their names, ages and addresses online and she and her friends made comments about getting me to shut up about their political and public information. I don't know, I'm just hoping there's some agency that oversees such horrible things done to private individuals by huge national corporations like this. I see that by the excuses given for this woman's behavior, (again, a CRIME and intimidation done expressly to stop me from utilizing my first amendment rights, and she investigated me for months before she committed this crime!) that Gatehouse simply thinks this wasn't a serious transgression by their news editor. I beg to differ. It was mafia like behavior! I'm just shocked that little or probably nothing was done to assure a criminal isn't running local media outlet. Please, anything you can do to either investigate, or refer the matter to any government oversight agency would be so appreciated! Thank you in advance for any assistance you can be.

Since she committed a digital crime from the newsroom maybe, does that give you jurisdiction to investigate? It was HORRIBLE what that woman did to me. The local publisher said it was out of character for her to commit the crime, and he said she apologized profusely to those in the company who investigated, but it's been SIX MONTHS and that woman never once attempted to contact me to apologize, even though she had my address, it was among the information that she used to intimidate me to shut up about her local political friends. The officer who investigated the matter from (b) (6) also apologized to HIM as well for her crime, but again, she never once attempted to contact me to apologize or let me know my family was safe, as my police complaint plainly noted that I was terrified for their safety, being that she put their names, ages and addresses online and she and her friends made comments about getting me to shut up about their political and public information. I don't know, I'm just hoping there's some agency that oversees such horrible things done to private individuals by huge national corporations like this. I see that by the excuses given for this woman's behavior, (again, a CRIME and intimidation done expressly to stop me from utilizing my first amendment rights, and she investigated me for months before she committed this crime!) that G (b) (6) simply thinks this wasn't a serious transgression by their news editor. I beg to differ. It was mafia like behavior! I'm just shocked that little or probably nothing was done to assure a criminal isn't running local media outlet. Please, anything you can do to either

investigate, or refer the matter to any government oversight agency would be so appreciated! Thank you in advance for any assistance you can be.

I think the title of my subject basically says it all. FB is allowing pics of people having sex with everything showing. One gal has a page where there are hundreds of pics of her sucking on guys and the rest. Underage kids can easily see this. Some pics are removed by FB but most are still on there. It is sad to see that these things are allowed for all to see...especially kids. I reported this to FB so much and they don't care. The pics they remove are put right back up the next day by the admin. for the page. The comments by everyone are allowed. I think FB should be fined ...and worse...if they don't clean it up.

Description

The caller stated that they were from Charter Cable fraud and that my e-mail address was used in over 4,000 e-mail scams with pornography and they are getting hundreds of complains about the unwonted e-mails from my account. He wanted me to give him control of my computer to fix the serious problem.

I disconnected the internet, hung-up the phone, which he called back. The caller did not want me to contact Charter, because he was Charter and if I did not help him I would be black listed and would not be able to use the internet or my e-mail for two months. He stated that his name was James Copper, employee number E-402 from Charter Fraud Dept. at 888-604-7804. These calls to my home were about 7:00pm on 7/23/16. My caller "ID" had the calls from the following NPC Pharr La CB 213-640-3013 I did call Charter Cable from the number on my bill, and talked to the fraud dept. and they stated that they did not make the call to me, that I do not have issues with my e-mail address, and there are not complains against me.

Ticket: # 1100663 - Progressive Tech agents lies and misconduct**Date:** 7/23/2016 9:53:32 PM**City/State/Zip:** Carlyle, Illinois 62231**Company Complaining About:** AT&T

Description

ATT and their unscrupulous lies with tactics to bait customers. I was a victim of an unresolved computer remote session that was initiated by ATT in August of 2014. I was left violated by an impostor to my system without notice of intent to upload programs to my computer. I suffered and Att blamed me when n Agent introduced me to the unknown impostor who was addressed as Microsoft. After that I have had problems that continued including unsolicited calls from scams claiming to be microsoft. In a tech session with Att in 2015 the agent lied about doing an online troubleshooting session, my lefts never changed. the agent continued to state my modem needs replaced and continued to verify it was free to me as a replacement to my modem I purchased from ATT. after a week to which the modem was sent and I installed I received a bill. I called ATT and the rep stated we rent modems now and customers can not use the originals from ATT. I proceeded to state the agent stated that mine was a free replacement. I then called att back after I re- installed my original modem. I was told that I would have to pay for the other. I said I would mail it back. I mailed it to the Texas address and had the confirmation number given to ATT they claimed it was never received. After more months of arguing about the modem return as I provided proof as well from my USPS and complaining to the ATT president they stopped harassing me. I have had to call monthly about the billing issues as they promise a rate in a contract and then the online billing is not reflecting the rate for internet service. many times this has happened with the U verse service that I have. The most recent is the fact my cell/mobile bill, containing three lines that two consist to my adult daughters was conjoined to my internet uverse bill. In may 2016 the bill of 238 was paid. I spoke with an agent about changing the bill due date in June to where I could pay it when I collected from the two daughters and my funds are budgeted better as well. The agent stated that could be done. My June bill stated 512. dollars, I called and asked. the response was that it was prorated and you will loose your discount promised by an agent named Mark(MC99OH) 4/24/2016 which had promised \$15. per month off my wireless cell phone plan for one year and that is why this bill is so high. %/1/2016 Agent david stated that my billing date can be put back if it is too much to handle. he stated he was going to change my bill due date back. He stated it would take 2-3 or 3-4 months for the billing cycle to revert. On the date I set my online payment up the bill stated 122. past due. And a balance of 381.64 I called att 6/14/2016. I called Att spoke with Agents Shakira and Joshua in billing. They assured the old billing would be resolved. I stated I do not have a past due balance since my may bill was paid in full and they were to resolve and revert the junes prorate issue that was wrong. My june bill should have been 238. as promised by Agent Mark. They assured me they would get this handled and sent to escalation for review. I went back online and june 15 the amount stated due was \$112. that was paid and I have the confirmation number. The balance for june should only be 127. there were no late fees and additional charges. Att online state 519, dollars due for the account on july 3, 2016. that is obscene and wrong.. I called again and was told that the billing datechange was not properly placed in the system. I continued to ask what is the problem. I scheduled a payment for 7/25/2016 for 165. as I wait to have the proper billing completed and the late fees removed as it was not late, I was assured there was no problem. I was out of town and returned. my red modem service light came on when I turned on my computer. But it was only after an advertisement that I declined to Windows 10. I called Att. And I was told over a troubleshooting series that it was an

outside issue. My modem was fine. An agent sat outside and did not come to my home door until I walked outside and returned a ball to my neighbors yard. The tech carried a box and I stated what's that for. he said I needed a modem I said that's not what troubleshooting stated. I called att again and they assured me the problem was on the outside. A tech came again and ran a new line from my house to my alley. My light was red he contacted att and his response to me was that the modem is green when they adjust and mess with it. the modem was left here and I disagreed and called att due to the fact they want you to rent from them and they use tactics to bait n switch I do not agree that the issue is modem as I called att and they stated that the service was disrupted or suspended I asked why since I had my case escalated and was lied to with proof and meritorious complaints and calls about the improper excessive billing that I was assured need to be reverted. it is July 23 and I have had 5 tech agents come here and consistently lied told about false promises about my account, During this false lies and visits an agent took it upon himself to lower my internet speed, violating my contract, privacy and att terms to contract that I was granted and paid on since 12/1/2015 that is to extend for one year. degraded my contract failed to alert me aTt failed to alert me and are violating att terms and my contract that I was promised. Plus the fact my 12 kb plan that I have as a contract is not the BULK OR GIST of the dispute in my bill that ATT prorated and promised to return to its billing date. I am a disabled woman who lives on a budget. these people took deliberate advantage of a situation without permission or authority and failed to notify me nor did ATT or the techs state this and the legal terms with Att state they must notify you if services are to be changed or suspended. I did not receive notice nor did I have computer internet. I do not use data on my phone as I can not afford it. My contract clearly stated 12 kbs for 25 per month. att lied constantly to me and had an opportunity to alert me. the point being is my account is not in collections nor is it threatened. there was a mutual agreement between me and att about the escalation to the excessive bill that was wrongly generated in July. thirty days have not passed and I have been lied to. My bill is not in arrears and att promised resolution to my 12 kb that was improperly and unscrupulously altered by att. att claims lied and disclaimed that they do not offer 12 anymore which is a 100% lie. please assist I have been violated and it is like being raped when a man can make a change to your property without permission , notice or the procedure

Company Complaining About: Cox

Description

This complaint is a follow up of a previous complaint regarding Cox Communications Internet Service that I subscribe to. My cable gateway Wi-Fi constantly shows Wi-Fi activity when I am certain that there are no devices connected to the Wi-Fi signal. That is a security breach!!! Also a lady from Cox Communications contacted me after I filed a complaint to the F.C.C.. One issue was worked out regarding the overbilling matter. No other issues have been resolved. If I remember correctly, her first name is Jenny or Jennifer. She gave no last name. I last spoke to her on the 14th. of this month. She said she would call me later that day or the following Tuesday as she was taking some time off from work. If I recall correctly, she did not call but, sent what looked like a fake email message failing to address my issues on the following Sunday. She said she would contact me by my cell phone number which is (b) (6). I am somewhat confused how she acquired my cell phone number initially when she called me the first time! I am so deeply sorrowed by this experience regarding the security of my Home Internet Network. I can't even disable my Wi-Fi signal through the Gateway interface online. The option to disable is greyed out. There are many more settings that I can not change. Settings that I believe I have the right to change at my discretion. I realize some options aren't available unless the user is advanced and familiar with the technology associated with those settings. I have a serious Brain-Disease and I cope by computing everyday. To have a paid subscription to an unsecure Home Network is causing me great anxiety that I must suffer with! My computers practically function on their own. This may sound bizarrebut, that's exactly what it is. Please help me acquire a secure internet connection that is IPv6 active without all of the unauthorized monitoring or hacking that is occurring! I performs anti-virus scans regularly as well as Malwarebytes scans and I also use hacking detection live software from Rook Securities. I believe there are Rootkits installed on my computers along with keylogging software that was installed by unknown means through my Wi-Fi signal which I can not disable. I will keep up faith that the F.C.C. will help me resolve my internet and computer problems. Thank you F.C.C., (b) (6).

I signed up to Rosegal (h(b) (6)) back in late May/early June to order a present. In order to place the order i had to sign up to their emailing list. The order was a total let down and scam so i immediately demanded my money back which thankfully they gave me back (very long story).

Due to this issue I tried to unsubscribe using the correct button method at the bottom of the email sent from them but i am still getting their newsletters. I have tried to unsubscribe over 10 times now and they still send me newsletters. I cant stress enough how much of a scam company they are and they anger me that they still continue to send me emails when i have completed their unsubscribe link etc.

When i got in touch with them they keep giving me the same link to unsubscribe which does not work - they are not helping at all.

I have managed to put a block through my work (as its a work email address) which they said was successful their end but they are still sending me emails. I don't know how they are doing it????

This issue has been taken place in the UK, Channel Islands but the company is based in the US.

Is there anything you can do to help?

Description

Hello,

On the night of Friday 7/22/16 around 11PM i refreshed my business Email Address (b) (6) from my apple mail app on my Iphone 6 (all was normal. The Following Morning Saturday 7/23/16 I wake up and refresh my email around 6:00-6:15 AM i believe. Missing from my email was the 5-6 Saved Inbox emails which was what immediately caught my attention. Upon looking for other items, i realized my entire sent folder was still in-tact, and the trash folder was wiped clear.

I did Call Comcast (my email service provider) the morning of 7/23/16 around 7:30 AM to discuss what has happened. This is where i learned the Difference between POP and IMAP for the first time, and also realized i would not have the capacity to change between the two without rigorous instruction. I spoke with the techs there for over 2 HRS and i was assured that Changing POP to IMAP can only be done from my handheld device. Needless to say, I did not receive much help from them. However, they did assure Myself that they have never seen this happen.

My Reference # with Comcast's "CSA" Dept. is as Followed:
NA218767310

The Phone # to that Dept. was 888-565-4329.

Following this Call, i spoke with Apple Tech Support (Cell Phone Model= Iphone 6) and was sent right up the chain. I was on the phone for over 2 hours trouble shooting and following all instructions. We did not come to any answers as to why this has happened to me. They did also seem very skeptical, as much as i do. They had never heard of this just happening.

I believe my Reference # with them is as Followed:
2919547

With all this being said, I am very worried as to where my customers' information has ended up.

I look forward to hearing from your service.

Thank You

Company Complaining About: Verizon

Description

I recently noticed after a period google search of myself that some information of my past was showing up in a prominent location on my google search when it wasn't there at first. The specific link for that listing is here:

(b) (6)

A large section of the document is redacted with black bars. The redaction covers approximately five lines of text, starting from the first line below the description and ending just above the paragraph starting with 'Upon further investigation'.

Upon further investigation, I see this company is one of many that attempts to extort money from individuals from posting "public records" about people past and then charging either through their own company or a sister company linked on the site to remove the listing. This specific entry is alarming to me because it prominently lists me as a inmate in the North Carolina Prison System. Though I did get charged with a crime in NC, that is a misrepresentation of what actually happened, as I was placed on probation when going through the court system. Though the records are public, for the normal person to find them, they must do some digging, and the court system provides accurate information as to what happened in the case. The court system also does not provide contact and current location and doesn't list me as an inmate in the prison system, which is not true. In an attempt to make money off of people's embarrassment, these companies have been allowed to prosper. I think the FCC needs to look into these types of sites or at least regulate how they are allowed to list information and where that information can show up in searches. Once doing research on this issue, I was able to locate two other such places that operate on the same principle. Though my listing is not as evident with them, I also wanted to report those places as I think something needs to be done, especially when personal information is meant to be used against someone, especially in an attempt to make money.

Here are the other two sites:

I also have service from Cox, and I received an email from them last week with my neighbor's name, phone number, and last 4 of his billing account number letting me know when the professional installation would be. I contacted my neighbor letting him know this happened but, when I contacted Cox, they first told me it was a spam email and to get a new email address. After I explained it to them several times that their company must have accessed my account to game my email address, they refused to verify if my billing information had been carried over and finally offered to file an internal report.

Date: 7/25/2016 5:03:30 PM

City/State/Zip: Burien, Washington 98146

Company Complaining About: Complaint Is Against Lower My Bills Ads Attached To My Aol Mail Account

Description

The company is called Lower My Bills dot com. Their financial ads target older people. They display seniors, particularly women, as having ridiculous expressions and gestures. The impressions their ads give suggests that older people are vulnerable, impressionable, given to believing anything they are told, and a profitable target. Their ads particularly display older women as cartoon-ish and scolding. I am 70+ years old. I PAY for my AOL email account. I have sent hundreds of requests to "Lower My Bills" to stop attaching these offensive, insulting ads to my AOL email list and individual email windows. I have recently sent a more scathing email request to both the company and to AOL's privacy department to stop attaching these disgusting ads.

I clicked on an advertisement on Facebook and a flashing screen came up that said that my Internet provider (Charter Communications) has detected an attempted phishing attempt and to call 877-252-2425 to resolve the issue. I called the number and didn't feel comfortable that it was legitimate so I hung up. I then called Charter who informed me that it definitely was a scam looking to infect my computer had I allowed them to access it. They said to call the FCC to make sure the number above is included in your list of harmful telephone numbers. This is not a complaint against Charter who informed me of the problem correctly.

I got through the entire process, including entering my SSN, and was then prompted that my order could not be completed online. Yet, AT&T ran my credit. They never provided me a temporary account number. While I did check a box allowing AT&T to run my credit, it was in anticipation of opening an account which they were unable to do. They should not have run the credit for someone to whom they were not able to issue services.

Description

I recently opted in to receive email from the office of the Texas governor. I live in Texas and have a vested interest in the state as a Dallas homeowner. I'm also an email marketer and know when emails are potentially non-compliant with Can-Spam regulations. Today, I received an email from someone named, "Hutch Hutchings" forwarding an email from "Texans for Greg Abbott" and noticed that the reply to address said "info@gregabbott.com" and not Hutch Huthings email address. I do not know who this person is and did not sign up to receive email from him.

The subject line is also a bit deceptive saying, "Enforce immigration law" but is actually just soliciting political donations and has nothing to do with enforcing immigration laws. The content of the email states that I should make a donation so that conservatives can be elected and pass anti-sanctuary city legislation. Not sure how this enforces immigration laws, as that the role of Homeland Security (not state representatives in Austin), and does not comply with the subject line of this message.

Ticket: # 1105073 - AT&T Gigapower and Effective Mandatory Opt-in to Monitoring of Internet Traffic

Date: 7/26/2016 4:51:36 PM

City/State/Zip: Bakersfield, California 93313

Company Complaining About: AT&T

Description

I recently ordered AT&T Gigapower service. AT&T has two tiers of pricing for the service, depending on whether you opt into what they term "Internet Preferences", which essentially allows AT&T to monitor your traffic and browsing to provide targeted ads and spam emails to your account.

If you opt-out of the "Internet Preferences" program, AT&T charges you an additional \$29. Since the price of the service when opted-in is \$80/mo in my area (with a 12 month commitment, no less), the opt-out price of \$109/mo is plainly not competitive with the pricing of similar fiber services in other areas from other providers. Unfortunately, there are no competitive fiber services in my area. Further, if you are opted-out you do not qualify for any promotional offers or other discounts, so the price to opt-out can actually be even more than the additional \$29/mo.

AT&T is effectively requiring that customers like myself give up their privacy and become additional revenue centers through providing advertising data above and beyond the already significant monthly bill we pay to AT&T. The additional charge and ineligibility for promotions and discounts when opted-out are an effective tax on those who value their privacy. It can hardly be considered a "discount" to opt-in when the opt-in discount merely puts the pricing in line with similar fiber services that don't require such invasive privacy-killing agreements.

Company Complaining About: Comcast

Description

On 0727/2016, I received an email from someone alleging to be from (b) (6) stating that I had applied for a position with their company. They advised me to conduct an interview via Google Hangouts chat with "(b) (6)". During the "interview", she asked a series of interview questions, claimed to have passed my information over to Head Manager to see if I was going to be considered for the position. After about 8 mins she then responded that I was qualified for the position and as a Clerical Administration Assistant and proceeded to provide me with the job duties. She then asked me to verify my name address and phone number so that I could be fully registered, which I did. Before disconnecting with her, she told me that her office would be sending out a check to me in the mail for a laptop that I will be using and the software that I will need to do my job. After reading that, I began to get suspicious. I had already been to the company's website and everything looked great, but after she mentioned sending me a check, I began to feel very afraid that I had just given this person my family's address. When our conversation ended, I called the BNY Mellon number that was listed on their actual website and spoke with the receptionist that told me that (b) (6) " is fraudulent. She advised me to not give them any information about me and that they are sending out fraudulent checks and committing crimes with western union. I am terrified of what I just went through! The receptionist submitted an incident report to her legal department and stated that someone will be in touch with me soon. The last thing (b) (6) " said before ending our conversation was for me to report back to Google Hangouts at 9:00 am sharp! for further tracking details for the check. Please help...

Ticket: # 1107462 - Inoperable unsubscribe mechanism on marketing email

Company Complaining About: Charter

Description

It appears that my new ISP, Charter communications, is monitoring traffic directly at my network level possibly trying to insert code into websites they do not own or to snoop on my internet usage. I can definitely tell whatever it is it is impacting my speed and causing wild fluctuation. Watching video on Amazon video gets grainy which should not happen with their proclaimed 60mbps download speed. I ran a few tests and saw it as low as 27mbps. I'm not sure if any of this is violation of the rules laid out by the FCC, but if it is I am sure I am not the only one affected.

Date: 7/28/2016 2:00:51 AM

City/State/Zip: San Diego, California 92131

Company Complaining About: Time Warner

Description

To Whom It May Concern at the FCC:

I am disgusted, frustrated, angry and nearly physically ill by the explicit nature of the numerous and unsolicited email messages that I have been receiving in my Hotmail junk mail inbox. It seems that over the past five or six weeks that for some reason my email address is getting inundated by disgusting offers for sex, affairs, sexual experiences, erectile dysfunction, etc. etc. I would just completely ignore my junk mail inbox, but from time to time important email messages do come to my junk mail box. I have had this same Hotmail email account since Summer 1999 (17 years) and have become increasingly frustrated by the amount of unsolicited emails that I receive. But I find it COMPLETELY UNACCEPTABLE and DISGUSTING to receive so many sexually explicit and unsolicited messages.

I am concerned not only for my own peace of mind but because I have young children who I am trying to protect by such awful content. I am VERY concerned that they may inadvertently view one or more of these very inappropriate messages while they are using our family computer and just happen to glance at my Hotmail inbox before I have a chance to purge any nasty messages.

Please let me know if there is something you can do to help this immoral business practice.

Most sincerely,

(b) (6)

Description

I have unsubscribed from American Stationary, as they admit in their "Customer Service Announcement" email they sent me, ("gregbosch@me.com is NOT subscribed for promotional emails. If you wish to subscribe to the weekly emails, visit www.americanstationery.com and sign up or if you are registered at the website, log into "my account" and change your status.")

American Stationary's "Customer Service Announcement" emails are promotional in nature, ("American Stationary is pleased to announce our Fall 2016 collection!" and "DailyDEAL" is written in the largest font of any in the email). See attachment.

This type of "if we call it something other than a promotional email, then we can send it to people on our unsubscribe list" is laughable. Punish them!

I have Win 10. I went to settings to opt out of behavior tracking for "relevant ads." Everyone let me opt out except some company called gumgum. Is that legal? Can they FORCE you to let them follow you? Here's the email I received from gumgum.com in response to my request to delete my account - which was an option button on their site!

Thank you for contacting GumGum. We apologize if you found our ads annoying or they caused you any inconvenience. We aim for our ads to be as relevant as possible to the content of the page and your interests based on anonymous web browsing behavior.

Our publisher partners make the decision to run GumGum ads on their sites, which helps keep Internet content free. Unfortunately, there is no way to opt out of receiving GumGum's advertising, however you always have the option to close each ad individually. GumGum use something called behavioral targeting, which allows us to serve ads that are relevant to you based on your anonymous web browsing history. By choosing to "opt out", you are opting out of the behavioral targeting. This means you will still receive ads, they will just not be specifically targeted to you/your interests.

Please let us know if we can answer any further questions about GumGum or our in-image and in-screen advertising format.

Sincerely,

The GumGum Team

Description

I understand now that basically you sign your rights away when using Facebook or Instagram. In this incident one of my friends had started a petition on Change.org. A total of 16 people signed it, me being one to support my friend. It was about FB violating your civil rights basically. In signing this via a link in Instagram, Change.org automatically took my picture from Instagram or FB, linked it up with the gov't information as far as my name, address, etc, and automatically created an account. I figured this out because on Facebook, I went to another Change.org petition and mysteriously all my contact info plus photo was already filled in and attached asking if it was me. Shocked, I contacted them and asked them to delete everything. In this exchange in the last email, I said that I felt dirty and violated and that I didn't want to be contacted again. This was pretty articulate as far as what my instructions were. They dared emailed me again. Enough is enough. These people think my personal information and civil liberties are some kind of game. They have ruined my trust in everything online.

Company Complaining About: New York Post

Description

I do not think the New York Post should be posting pornographic photos on their website for all to see including little children. If they're going to post pornographic images they should put at the very least post a link with a Warning Notice off the main web page. If you happen to go there you don't have the time or any type of warning of what you're about to see so you can choose whether or not to see it. Boom! It's right there front and center for all the World to see. The images I'm referring to are very offensive* to me and can be found at URL: (b) (6)

(b) (6) *(I have also attached a screenshot.) NOTE also! I chose Privacy as the Subject of this complaint in the drop-down menu below because there was no appropriate choice in the menu.

Thank you for contacting the Federal Communications Commission (FCC). This e-mail address is not accepting messages, and anything sent to FCCINFO will not be acted upon, For your comment, inquiry, or complaint, we direct your attention to the options below. By following the steps below for comments, complaints, or inquiries, we will begin to act on your communication right away:

If you would like to file a COMMENT in a PROCEEDING, please visit our Electronic Comment Filing System (ECFS) at (b) (6). On ECFS, you can file a comment in any open proceeding by clicking on "Submit a Filing" in the upper left hand corner of your screen. If you are not sure how to find a docket, try the "Submit a Filing (Express)" link, also in the upper left hand corner—this will take you to a list of the most active open proceedings, and you can file your comment directly from this page.

If you would like to file a COMPLAINT about a telecommunications related service, please visit our Consumer Help Center at: <https://consumercomplaints.fcc.gov>. From this page, you will directed to a complaint intake, which you can fill out and submit to the FCC. Submitting your complaint through the Consumer Help Center ensures that we have all the information we need to process your complaint, and that the service provider will respond to you directly, where appropriate. If you would prefer, you can also submit your complaint over the telephone by calling our consumer call center at 1-888-CALL-FCC (1-888-225-5322) or 1-888-TELL-FCC (1-888-835-5322).

If you would like to make an INQUIRY about an FCC policy, or have general questions that the FCC might be able to answer, please call our consumer call center directly at 1-888-CALL-FCC (1-888-225-5322) or 1-888-TELL-FCC (1-888-835-5322). I have contacted the company and they have refused to comply with any information about their practices and hacking into my system. I am tired of the attacks after becoming involved in many a complaint process and the fact that nothing is done about corruption and "felonious" practices of many a state official and business men and women, in the New England Region.

Company Complaining About: Google

Description

My Google account has been compromised. A phone on my Google account Motorola Razor is not mine. Google has no real contact info. It only shows on the website how to do a two step when your account has been compromise. But it does not tell you how to delete the extra phone showing on your account that is not yours. ex of what is happening to me. A criminal can buy a Samsung, Motorola or other phone and put your google password on their phone. As their phone is registered under google using your account. Whatever your phone saves on cloud and whenever you sync. Your information goes to their phone along with yours at the same time. When you text, your text and the reply text will go to their phone as well as yours. When you save anything on cloud it goes to their phone also.

it should be a law for these companies to have a physical person or chat person you can talk to at google if situations like this happens. They can delete that phone showing on your account and freeze it so your account can no longer be on that criminals phone. I tried the google help phone line and spoke to two people from Manila Philippines Google support. The first one told me to call Motorola because they cant do anything.('What the hell am I suppose to tell Motorola?' One of their million phones has my Google account on it?). He refused to give me a supervisor. I called again, another rep from Manila Phiilipines. He refused to give me a supervisor and actually hung up on me, when I asked if he was denying me the right to speak to a supervisor. We in the US should not have to live like this at the hands of billion dollar companies. It should be a law that we have access to someone from Google when serious matters like this happen. This is not just for me. This is for senior citizens, disabled people, and the American people who deal with identity theft in America. It could be someone from ISIS using my Google account as we speak. We cannot say different. Google should be mandated to either have customers access to delete phones using our account on their website, or have their people with access to do it. Manila Phiilipines is breaking the law, when they will not give you access to a supervisor or any phone number to help us out.

My initial complaint was and still is, that I'm receiving DDoS attacks to my IP address . My ISP refuses to change my IP to prevent further attacks or try to trace the IP from the attackers and notify the proper authority.

I know who the attacker is and can provide information on their name and address upon request. I attached a script of proof that show's the DDoS attacks to my port 443, each one of the attacks has been highlighted so it's easier to read.

Description

Hello,

Please consider this complaint as breaking customer privacy and reserving all rights for business owner to protect itself for any upcoming issues.

The Problem with Time Warner Cable has started from the point that I realized having issue with my internet. I requested TWC to send technician to troubleshoot the home internet, meanwhile I was working with Netgear " Netgear Modem owned by myself " because I lost connection to modem Admin through my browser, luckily I had warranty on Netgear modem and eventually Netgear sent me RMA modem however TWC 's technician didn't show up for scheduled appointment, they tried to reschedule it but I decided to have the new modem tested out first. Once I received the new modem I figured out that new firmware version was pushed down to my old device, I spent hours and hours talking to Netgear and TWC to make it clear who had updated firmware on my owned previous modem. Several remedy cases have opened with TWC and they were resolved with same resolution that TWC does not upgrading customers modem due to liability and good chance of breaking customer device during upgrade, etc also all managers stated and ensured me that TWC is not in charge of this upgrade, however Netgear provided a public article " I can provide it in private email " to me that makes it clear that firmware upgrades are pushed down by the ISPs, they exactly pointed my device model and TWC as an ISP in their website. After couple days back and forth I had a chance to talk to a manager over other call center managers, from the beginning the manager "JR" stated that TWC does not make any changes to modem which owns by customer, he actually kept me on hold and walked in to his engineers and technicians room" per what he stated over the phone to me" and he confirmed that TWC does not upgrade customer's modem due to liability and all other breaking and damage to customer's device. He requested more times to do more investigate according to Netgear article that I had provided to him " JR was also surprised if Netgear blaming on TWC for something that not committed by TWC" . I had to call TWC in couple days later again to escalate the case to higher management because he never called me back with his finding, JR called me back after escalating the case again and all of sudden everything changed , he confirmed that TWC DOES upgrade customer's modem regardless of owning device by customer or renting device from TWC!!! I asked him to open a case with networking team to exclude my device MAC address from that firmware upgrade, he promised to open a case and update me with his finding in couple days, he never called me with his update and I had to open a case with TWC office of president, that brought up too many new things to my attention that's why I am making this complaint now..

Opened the case with office of president on July 19th, Internet stopped working on Fri Jul 22nd, I had to call TWC for technician to come to my home. " again too many calls just to have technician at my home in time, frustrating service!!", Worked personally with technician, we figured out the second modem does not work anymore " what happened to this modem ?? ", whole things start from beginning, I had to ask Netgear to send me the second RMA modem and borrowing TWC modem to use internet temporary without any fee. I received a call from office of president later, she obtained all information again along with all phone numbers and managers name. She called me back in a day and provide me with the agreement link that gives TWC all rights to do whatever they want to do without being questioned or being in charged !!! that turned the whole story to other side of coin, my

main privacy concerns and worries started by reviewing the customer agreement link provided by case worker, basically TWC cable reserves all rights for itself “regardless of being wrong or correct, protecting TWC without respecting customer’s privacy and rights” they can break customer’s privacy, break customer device ,data lost, etc and not be in charge of any of these damages. This agreement never presented to me at the time of starting this service by representative, this customer agreement does not make any human sense to reserve all these rights only for business owner by NOT considering customer’s right, this could be against liability, irresponsibility and breaking customer privacy !!

Other new thing that just happened is , Netgear sent me an email immediately after activating last RMA ed modem, it seems that they have been monitoring my device and MAC address too, I received the first email that pointed your device is not connected anymore ”I was using TWC modem at this time” then I received second email with instruction how to find the MAC address and also mentioned in email that Netgear provided the MAC address to TWC at the same time for activation !!! They have never done this before for all other 2 RMA modems, it’s so interesting that after all back and forth that I have had now TWC and Netgear making this communication to share customer’s modem MAC address. Now the question is , what other information is sharing between these providers and manufactures.

*New firmware version comes with allocated IP for the feature calls “Ready Share” that lets customers to have NAS on their network, this IP is conflicting with the IP that I had been using for all my school lab devices, That will give me really hard time to change that IP and protocols for all my devices. I have told TWC, this is my internal network to prepare for my exams with connecting my personal laptop with personal data and needs to be taking care asap however they never paid attention to my request.

So my questions are:

How does it possible that TWC reserves this right for itself to have access to customer’s device along not caring and responsible for customer data and privacy, monitoring network and compliance “section 5,a” by their tools under customer agreement !!! This agreement never presented to customer at the beginning of the contract!!!

In section 8,a; “We may change our Customer Agreements by amending the online version of the relevant document”, how do I know that customer agreement has been amended and how do I know if this is the exact same customer agreement that TWC had at the time of starting service ?

How does it possible that all my TWC Remedy cases were resolved by tire2,3 engineers by stating that TWC does not making any changes on customer modem due responsibility and high chance of breaking customer’s device, lost data and liabilities and all of sudden everything has changed to something opposite under customer agreement!! ? How many people fought like me to discover the fact?, and how many people got screw up by listening to customer service representative and their managers in section 3,g of this agreement , TWC cables reserve this right to get rid of all evidence, they could have done that so far on my account

Section 10,d; why TWC reserves this right to make changes on customer owned device and not taking responsibility of any data lost or breaking customer compliance ? I have been working for big IT/Networking company for years and it’s certainly customer’s responsibility to upgrade appliance firmware even facing with security penetration or necessary upgrade required by manufacture. why Netgear has released the device in market that does not let customer to have the control over upgrading or downgrading firmware for owned device? There is certainly understanding between all providers and manufactures to certified devices before releasing to market according to services, so it does not leave any question for TWC that my device does not work with their service and they have to upgrade the device firmware. My original modem was working with TWC in the best compatibility and highest speed even after TWC had upgraded internet services and speed in my neighborhood.

With all being said, where is the c

Been paying for the same internet service for years and now there are suddenly fines and penalties for using it too much. Not good for the customer! There have never been bottlenecks before, so rationing the bandwidth is not necessary here. Additionally, they will be letting us know how close to the cap we are by injecting a notice into my browser, which violates my privacy! This seems illegal and is in no way good for the customer. If I had bottlenecking issues before I would understand, but this feels like them trying to get more money out of me after years of being a good customer. There are no alternatives at my current residence, so this feels like a controlling monopoly to me.

Description

The attached email appears to violate the Opt-Out provisions of the CAN-SPAM act. The act is outlined here:

<https://consumercomplaints.fcc.gov/hc/en-us/articles/203332190-Spam-Unwanted-Email-and-Text-Messages>

The specific wording of the FCC's provision is:

"Opt-Out – The email must provide easily-accessible, legitimate and free ways for you to reject future messages from that sender."

While the mail from Microsoft cites, "If you've opted out of receiving email, you'll only get one more in this series." there is no clear method to actually opt-out. There is no method in the header, footer, nor anywhere in the body. Even if Microsoft expects these types of email communications to be managed through a person's own Microsoft account, this is not made readily apparent, nor is this in accordance with the CAN-SPAM act.

I have attached two files:

1. A "print to PDF" of the email in question
2. The raw text of the email, including header information.

I believe I have selected the most appropriate "Internet Issues" but please let me know if there is a more appropriate category, and if I need to resubmit.

Thank you,

Description

I received the attached unsolicited email today (twice in fact). I've never visited the website so do not even know how he got my government email address. The sender does not state that he has no affiliation with the federal Thrift Savings Plan, and he does not include a link to unsubscribe or opt-out of received further emails. I own a similar website myself (tsptiming.com) and would never ever send out such bulk emails. I'd like this violation to be pursued by the FTC. It is a violation of the CAN-SPAM Act and subject to a penalty of up to \$16,000 per email sent out. He may have sent out thousands of these emails, I don't know.

Description

My OS is Windows 8.1

I don't know the account number, but when I tried to write to them on their page, I got a message saying they couldn't help, but I am about to send them logs they are looking for.

I contacted our local Internet provider, but they can't help me. I've also contacted others who *might* be able to help, but this matter is urgent, at least to me. Even if all you can provide are suggestions, I'd like to document that I contacted you out of desperation. There are three computers in the home, and another one from a remote user that I don't know, but owns a computer-remote-access business somewhere.

I am 100% disabled, and moved to the address in May 2015. It has been a tumultuous relationship at best, and on July 5, I was given a 30-day order to vacate (by the person on the lease who also works for the Internet Provider).

On June 17, the person (leaseholder) arrived home from a visit with the 4th person (who lives far away) and shortly after she came home, I tried to access some files on my hard drive -- I believe they were rental applications.

I found I couldn't open them, and when I tried to do some diagnostics, I realized that all my Administrator settings and permissions had been over-ridden somehow.

At the time, my immediate concern is that someone had access to all my information, including financial, ssn, bank, children, etc. ... I started to panic, and then I remembered the "fourth" person, who connects to one of the other computers in the house remotely.

I did a great deal of diagnostics myself, including about 20 hours in Safe Mode, trying to change and/or update settings and sharing.

I have no access to UA Settings, and I can't change the privacy. I deleted "Cloud" yesterday (in Safe Mode) it was installed again later.

I've included a few files, but I don't know how many you need, but it appears (to me) that everything started on 7/17/2016 (see Windows update log) with IE and Immersion settings. I don't use IE and usually uninstall it on my computer.

From what I can ascertain, Google Cloud was downloaded on to my computer on 5/20/2016, and whomever is involved in this harassment, is doing this intentionally. I have tried signing on at a different location, thinking that maybe it was just the network, but that didn't work.

I can access ANY program -- I can't change ANY setting -- and I have been "blamed" for things I've never said to anyone. Now, I understand that they were possibly "reading" everything on my account, and reacting to it, by being psychologically and emotionally abusive, especially as my level of anxiety was increasing over the past year.

I feel I am certain about what is going on, because I spent all day yesterday copying and deleting programs and files, including whether or not my computer could be accessed remotely, through "Cloud."

Even though I removed the program yesterday, it was back today. I feel as if they have access to everything about me -- none of which is meant to be shared, and this is a definite attempt at harrassment and possible ID Theft.

I've changed passwords on some sites, and on others I get messages like "too many attempts to log in failed." I can't even change the password on my own computer, because someone on the network is over-riding me.

I tried to archive the evidence (I have several copies of everything from screen shots and documents) that I have archived, and then I find I don't have access to retrieve them.

I can't run virus scan, I keep keep anyone out, and especially since this happened two weeks before I was supposed to vacate (which, in itself, turned out to be illegal and now they are mad), I couldn't read or download anything.

All I have access to is my "local" folder, and even that is set at "Read And Write" only. I'm not even able to rename files.

Please tell me what I can do. The police were less than sympathetic, telling me they don't know what I'm talking about because none of them know about computers, but I even have an article -- aimed at hackers -- which tells someone exactly what to do and how to do this.

I thought it happened in July, but apparently none of the settings were locked until July 17 (or I didn't need to use the ones that were).

I have screen shots if you need them. I can't access the C: prompt or the directory, because they are "storing" the drive on someone else's computer. I was able to verify that the program was downloaded on 5/20/2016, either by me or someone else (or an automatic update, which I tried to stop, but can't).

When I spoke to the Internet provider security department, they were sympathetic, but said they just provide the service, they don't regulate it.

I am ready to sue for harrassment, ID Theft, and intentional infliction of emotional distress if I have to, but right now, I want to know how to get my hard drive and data back.

Also, they have created a second "homegroup" on the network. I'm alone on one, and the other two (or three) are on another one, which is password protected.

So, they have access to everything I do, have permission to change (or destroy) my computer, and I have no recourse than to notify anyone I can think of in order to help.

Even a letter on official letterhead might work (but I doubt it). This is sheer maliciousness that far exceeds anything going to small claims court for a landlord/tenant issue. I believe this rises to the extent of criminal behavior.

I have my bank and PayPal on notice that my accounts have been compromised, but I don't know if the person with the "Special Privileges" can change those passwords and pretend to be me.

I've collected logs and data, and the Windows Update log is "different" on 7/17/2016 with Internet Explorer and Immersion Control settings. I didn't have Internet Explorer on my computer, and I don't know how many images you need.

With everything disabled, I can't run a virus scan or bring up any directories. There is activity on some logs as far back as 5/20/2016. Most of the changes appear to have been 7/17/2016, and I deleted the Cloud program on 7/31/2016 and it was reinstalled on 8/2/2016.

I have more if needed.

Description

Since Monday 8/1/16 at around 1p.m. I have been receiving literally thousands of unwanted subscription emails a day - about 200 per hour. Some are foreign languages: Russian, Arabic, Asian, German, Hebrew, and Spanish. Others are American companies. Some have weird letters and numbers in the introduction, but not always in the subject header. Most do not offer opt-out they say "thank you", "welcome, or "please confirm your subscription". I saw an opt out on a few, but I am afraid it will take me further into the scam, so I do not want to risk it. I have had this e-mail address for 15 years and do not want to change it. It is difficult to find my real e-mails. Some of the e-mails even look like they are from a legitimate business. This is an unacceptable scam and invasion of privacy.

Ticket: # 1119806 - AT&T GigaPower - Deceptive Sales - Price vs Privacy

Date: 8/3/2016 7:06:13 PM

City/State/Zip: Plano, Texas 75025

Company Complaining About: AT&T

Description

AT&T Sales Rep came to my house and went over the GigaPower plan. We agreed and he started the ordering process. He said \$155/mo for the deal with no mention of having to sign a waiver to allow AT&T to track my usage by putting my traffic through per AT&T's help article "your Internet traffic is routed to AT&T's Internet Preferences web browsing and analytics platform" (<https://www.att.com/esupport/article.html#!/u-verse-high-speed-internet/KM1011211>).

When he got on the phone, the sale rep said their system does not show GigaPower available and he showed me on his sheet that it did. They said they would have to confirm with SmartChat which has closed for the day. As with any "sales" offer is good today and he said we could go with Uvers 45/45 and on install day have them switch to 1Gbit/1Gbit and it would honor the \$155/month price.

So tech came to install on 8/3, and we were available. We then learn of the Privacy opt-in or pay \$100 install fee (our sales sheet states free install). We were going to decline and working with billing on the fee later, but then they said since we decline the price of \$155/month would no longer be honored and it would be ~\$198/month.

This is deceptive billing and forcing me to choose for price vs privacy. This is not what was communicated by the Sales Rep (who also gave me a number that goes to "Not Accepting Calls").

I would like the offer to me of \$155/month with no Privacy Opt-In honored or be allowed to cancel service and paying for any re-install of my current provider as that was disconnected for this service.

Description

I am a Comcast customer, unfortunately. There are not many offerings in the neighborhood I live, and so I am obliged to pay Comcast. Their service is not bad, I will grudgingly admit. I get consistent speeds, and their customer service is acceptable. However, their recent filing with the FCC about customers having to pay MORE for privacy is egregious. Privacy is a basic human right, and I shouldn't have to pay Comcast an additional fee just to have them respect that right. My complaint is that ISPs should not be allowed to charge extra for protecting my privacy. I should not have to use a VPN constantly just to protect my privacy on the Internet. I plead with you, FCC, to put restrictions in place that help keep the Internet open and free, and above all, private.

I have an account with Comcast (only Internet), on August 2, 2016 I tried to access my internet account to complete my monthly payment, but, I couldn't. I chatted with a representative and she told me that my account was cancelled, then, I called them and another representative told me that someone called in my behalf and cancelled my account, after 51 minutes I got my service reconnected (for the records, I have internet all the time, and the modem that I have at home was working as normal). Finally, I got my access back to my internet account, I checked the inbox of my Comcast account and I realized that It was an email that informed me that a telephone modem had been returned on July 20, which was obnoxious, since I was on vacation in another city. I called again to understand what is going on with my account and more than that what is going on with my personal information, again, I did explain everything and they denied that someone called , he said that they didn't know what happened, when I asked him about the telephone modem that was return, he couldn't explain any detail such as what location received it, or where the equipment was installed. Then, I provided him the serial number of the modem that is currently on my place and he told me that he had another serial number. Immediately, I thought that they don't even know what modem I have and the worst thing is that someone else is using my information, probably Comcast is cloning equipments (how is possible that there are three equipments on my name and I just have one and Comcast doesn't have any record) at the end all my personal information is compromised. Obviously, I can't trust anymore in Comcast.

Description

Recently, Microsoft and Yahoo have all begun to require personally-identifiable information to sign in to my accounts.

My employer requires a Microsoft-owned live.com email address to access their Office 365 Sharepoint site. Microsoft requires a personal mobile-phone number to activate the account due to "suspicious activity" such as sending spam - though the account has been secure and not used since I opened it.

I have had a Yahoo mail account for over 17 years. I know the password, but Yahoo is preventing me from logging in because I don't have access to the backup email address I used to create the account 17 years ago. Just like Microsoft, they say they require verification because there has been "suspicious activity". They have no email, live chat, or phone support, and suggest that I create a new account (abandoning nearly two decades of important emails) as a result.

While I understand the need to keep accounts and services secure, these companies are using the excuse of security to require people to divulge personal information.

I believe these practices to be misleading and predatory. The United States has a long track record (including the Do-Not-Call registry; the ability to opt out of advertising and personal information collection; the Magnuson-Moss Warranty Act; and others) of placing limits on the ability of companies to require the divestment of personal information to receive services.

Thank you for your help. I look forward to hearing from you.

Ticket: # 1122334 - Century Link Techs-Harassment / Customer Service- Lack of Professionalism

Date: 8/4/2016 9:50:45 PM

City/State/Zip: Salt Lake City, Utah 84102

Company Complaining About: Centurylink

Description

On Aug. 2, 2016 two Century Link techs showed up at my door unannounced and said they needed to come inside because I have the fiber optics box in my apt. # 6 to install service to # 4 regarding some kind of chip. I said, " I have no knowledge of this and what happened to contacting a customer prior to any kind of work that needs to be done?" The tech said, " well you have the box in your apt. and we need to get to it today to install service to apt. # 4." I said, " This very unprofessional showing up without an appointment and I really do not understand what you want with the box in my apt. I am not responsible for other tenets service, and I would really like for you to leave." They said, " if that's the way you want to be" and they left.

Aug. 3, 2016- They came back without an appointment, again. I was not home, my neighbor told me they were knocking on my door.

Aug. 4, 2016- Was awoken to a loud aggressive banging on my door, and it was the techs again showing up unannounced. I had to get dressed to answer the door and by that time they were not there. My boyfriend went downstairs to the porch and the techs were standing out there and asked my boyfriend if they knew who lived in apt. #6, he said, " my girlfriend and I do, what is this about?" They said, "it was important to get into our apt. as soon as possible." He said, " no one has contacted us from the company and at this point in time we feel we are being harassed, and there is no way you are coming in today." They said, "by law you have to let us in, we will contact your landlord and he will make you let us in!" My boyfriend, said, " you are wrong to talk to me in such a rude way, and how dare you threaten me, this is unlawful and Stephanie and I are taking this as harassment and will we be in contact with Century Link."

Later on in the day, two Century Link trucks park in our parking lot and two of the techs stood under our windows and was staring up into our apt. I was on the phone with a Century Link elevated employee-Sandra-SDH105523 at that moment telling them what was going on, and was put on hold. There is a knock on the door, once again, it's a tech wanting to come into the apt. I said, absolutely not, this is the most unprofessional thing I have ever experienced, and they needed to leave, this is harassment!" The tech. said, "Your fiber optics box was installed inside your apt. when it was actually supposed to be installed on the outside of the house." Well is there a good time to come back?" I said, " it's a bit too late for that, I am on hold with Century Link right now." I shut the door. I heard my neighbor in # 4 getting upset with the techs, and she slammed her door. I thought, is this going to cause a conflict between my neighbor and myself, with all that is good I hope not. The rep. on the phone finally got back on the phone, and proceeded to tell me, " that by law I would have to let them in, since I did not own the residence the landlord could force me to comply, but how the techs were going about it was inappropriate." I was very upset and shaken up and did not want to hear, By law I would have to let them in by force by my landlord. I let her know that this was a matter of being harassed by Century Link employees, no one contacted me from their company to let me know anything about this, no appointment was ever made. She then transferred me to their security dept. which gave me no options to this issue, it was for being harassed by phone calls. So all the while the

Century Link trucks were still parked in the parking lot and the techs were still outside conversing. I would say they were here for over an hour, looking in my windows.

I called back to the company and was feeling even more up-set and on the verge of tears-very emotional. The rep. I got was quite the professional he listened to me, and had a calming effect and related to what I was going through and stated he was getting angry for me. I thanked him for letting me vent and he said anytime and sorry for what you are going through. He transferred me to an elevated employee-Maria, she was informed as to what was going on, she said she needed to contact the Area Supervisor, and stated there was not an order put in for my address and did not know why they were even there. She put me on hold for about 15 min. When she got back on the phone she asked me what was a good time for the Area Supervisor to contact me. I said, as early as tomorrow after 1 pm. She took my info and said, he would be contacting me. This would be my 2nd complaint to the FCC within the past 2 months. It had to do with being lied to about a Prism TV package, which lead to this fiber optics box being installed in my apt. and am still going through hell with all of this deception. The case was closed, and was told it was resolved. I got a letter in the mail from Century Link. My bill is still wrong, and am being charged 60.61 for only internet service, when I told and agreed to 29.95 a month. I also do not understand why I am billed a month ahead of time which accrue late fees. Century Link does what it wants without consequence, when you are a huge company nowadays corruption seems to be the "norm", and they hide behind their money and power, trying to advantage of their customers in so many ways.

Ticket: # 1122370 - Consumer rights when hacked via Cablevision technician

Date: 8/4/2016 10:31:30 PM

City/State/Zip: Old Greenwich, Connecticut 06870

Company Complaining About: Altice/cablevision

Description

Installing my internet, a Cablevision (Altice) technician used my laptop because he stated that his company issued one was broken. In the process, he made a grievous error by accepting a pop-up message from a hacker which resulted in my computer and personal files being compromised. The surprising thing was that the pop-up program indicated the message was from Optimum Technical Service, prompting the technician to accept and call a provided phone number. The fact that the technicians who were there to install the internet a) did not know what they were doing, b) were not trained properly on these type of situations and c) did not have functional equipment on a service visit was very disturbing.

My computer was damaged with all my personal and financial data compromised. I have had to put credit freezes at the credit bureaus, shut down bank accounts and effectively establish a new "identity". I asked the company to compensate me for my broken computer, fix my internet and credit me for all the trouble I had to go through to reestablish my credit. The company has not been that cooperative.

Wanted to know what my rights were in this type of situation as cable consumer. Cable companies are supposed protect consumers, not be the cause of problems and then make little amends to compensate them after all the trouble they caused.

Ticket: # 1122484 - ||||| INTERFERENCE IN INTERNET and GOOGLE PHONE service (perhaps other TAPI application)

Date: 8/5/2016 2:53:53 AM

City/State/Zip: Venice, California 90291

Company Complaining About: Time Warner

Description

Interference in our Internet in a way that materially affects our lives and livelihood. The interference affects our communications with friends and relatives in the 'old' country (Iran) where I was borne. HORRIFIC interference: --- example contacting my sick old mother and our harassers interfere with the line. The interfere in our conversations (by recording and playing back the conversation we just had). They interfere in direct dialing - example meaningless ringing, which, as we later discover, never rang in the destination number.

THE PARTICULAR group responsible for these horrors works with LAPD as informants. (example (b) (6)). Complaints have been made to Ic3. But issues continue. We live in Venice 90291.

FCC HAS SO FAR BEEN IN-EFFECTIVE IN SOLVING OUR PROBLEMS.

Ticket: # 1123866 - Advertising Fraud

Date: 8/5/2016 5:29:27 PM

City/State/Zip: Phoenix, Arizona 85048

Company Complaining About: AT&T

Description

Hi,

I have been working for YouTube for over 4 years and I have noticed a great deal of advertising fraud on the site for the past few years. However, recently the fraud has escalated to the point that I think the federal government FCC and possibly the FBI need to get involved. Basically, YouTube channels are setting up fake accounts and using robot views on YouTube to earn advertising dollars. Right now, just one channel alone called "Toy Freaks" is taking about 3 Million dollars a month in fraud revenue and YouTube is making another 5 Million off that channel in fraud revenue. That is a total of \$5 Million dollars being taken from advertisers like (b) (6) and so on. That is just one channel. There are even more than that, my estimate is that there is about \$50 million dollars in fraud a month. I have tried to contact YouTube on this matter, but since they are also making so much money off the fake views, they are turning a blind eye. Currently, no one is monitoring and auditing YouTube's views. Advertisers believe that they are paying anywhere from \$0.10 to a \$1.00 per ad to a real human. But they are just paying for fake robot views. I have some proof on how these channels do this as well. Please contact me for more information. Millions of dollars are being passed illegally each month.

Thank you.

Ticket: # 1124130 - Computer Hackers/Scammers**Date:** 8/5/2016 8:03:33 PM**City/State/Zip:** Austin, Texas 78726**Company Complaining About:** Digi Support Pros

Description

I was recently hacked and scammed by people calling themselves a 3rd party to Microsoft. It's a long story but the information they (the scammers, possible hackers) provided me under the guise of fixing my computer is the following:

Name of company for Tech Support: DIGI SUPPORT PROS

Customer ID: 010807163400

Plan Purchased: AVG Anti-virus & Anti-Malware \$200.00

Plan Start Date: July 8, 2016

Plan end date: July 8, 2017

Number of PC's supported: 1

Toll Free Number for Tech Support: 1-855-370-3449

Toll Free Number for Customer Service: 1-866-318-7115

Working Hours: Open 24 x 7 x 365

The person I spoke with was named Vishal Raj; the remote fixer was Arman Ali

When I opened up an email from a friend (who I first verified that it was indeed his email and not someone "phishing" or whatever you call it, it was my friend's email. However, when I opened it and thought he was sending me photos, a big flashing sign popped up and a voice came up on my computer loudly saying a virus just invaded my computer and to call the number on the screen and give the code that was also on the screen. That information is: 877-541-4672 and the code was: 268D3. I tried calling immediately as I panicked and couldn't get through. I tried numerous times and it was a busy signal. I then went to my Norton Anti-virus and ran it and then shut it down. Once I got through to that number (which turned out to be Digi Support Pros) they sold me a bill of goods and they supposedly remotely fixed my computer. It turned out they didn't but end result was that I had to close my credit card, my debit card, go to my bank and put an alert on my accounts for fear of having my money disappear, etc. The credit card company was alerted to this and so was Microsoft. Microsoft ended up "cleaning up" my computer and running all kinds of malware to scrub it. Needless to say I was extremely upset. I am still getting emails very similar to the first one I opened with the legitimate emails of friends and family somehow being used for this nefarious undertaking of getting scammed. I immediately have recognized these emails and delete them right away. I don't know how these people are still doing this but I'm reporting it to you now. I just got my computer back in shape yet it's continuing. I'm in the process of taking everything off my computer, have changed passwords to everything and even user ids where possible. Thanks for attention to this matter and feel free to contact me for future information. I've retained all my notes on this matter.

Ticket: # 1124241 - Windstream's lack of Communications

Date: 8/5/2016 10:14:13 PM

City/State/Zip: Broken Arrow, Oklahoma 74011

Company Complaining About: Windstream Communications

Description

I have tried to resolve this issue with Windstream for over an hour now, but despite all of their promises, every way I try to get ahold of them is either thwarted or seriously delayed. Wasn't the idea of breaking up (the original) AT&T to make communications companies less monopolistic and more responsive to its customer base? Not so with this company, which doesn't even have a location in my state (OK) in spite of all the territory they've been granted.

Nevertheless, all I've been trying to do is change a password to access my account since they've prevented me from doing so. Shouldn't this be an easy process without having to actually contact a living, breathing person?

But I finally got ahold of such an individual and he wasn't able to help me, stating I'd have to get ahold of customer care that doesn't open until 8:30AM EDT. So much for resolution of a problem with this awful, uncaring entity.

Ticket: # 1124328 - Harassment and extortion by text and email

Date: 8/6/2016 1:52:48 AM

City/State/Zip: Walnut Creek, California 94597

Company Complaining About: AT&T

Description

I am pleading with you to help me address a problem that I am having with the following company:

OpticsFast Inc

(b) (6)

<http://www.OpticsFast.com>

Toll Free (866) 216-3478 named Opticsfast

I requested a quote from them in order to repair a pair of sunglasses, via their website.

<http://www.opticsfast.com/>

The website requires the consumer to provide a phone number and carrier in order to complete the request for the quote. They then sent me a mailing label in order to mail the glasses to them, something I was not obligated to do, and after all I was just seeking a quote.

I decided not to have the glasses repaired and notified OpticsFast of my decision. Yet, despite my repeated pleas to the company, they have continue to send me emails and texts. (Note: every time I get a text, the number changes, ie, (b) (6) . I then tried to call the company, where I spoke to a rep, who refused to give me her name. She was rude, offensive and used obscene language insisting that I reimburse the company for the shipping label. If you look at the attached emails, it is evident that unless I pay them the 5.49 for that shipping label, they simply intend to continue harassing me and attempting to extort me for the \$5.49. Attached are the most recent emails and texts I have received.

I called ATT, who offered to have my phone number changed, but that is not an option because I have had my phone number for over 30 years. While my phone is on the "National Do Not Call List", and while I provided my phone number to OpticsFast intending to do business with them, I never imagined that they would use the tactics that are quite evident. Harassing anyone and attempting to extort anyone for ANY amount is not right! Please help me with this!!

Thank you in advance.

On 08-07-16 my account password was changed. I called Comcast customer service one person told me that someone called in and changed the password and another person in internet security advised me that my account was locked because the wrong password was put in too many times and then the account locked. I believe someone did change call in and change the password because when I finally unlocked my account I checked the emails and it shows password was successfully changed on Sunday August 7th. I want a straight and thorough answer from Comcast, not conflicting reports given minutes apart with an email confirming what the first person told in customer service versus what the internet security told me.

I am a woman.

I am not interested in this stuff.

They explicit with pictures of young nude women in obscene positions.

I have never soliticed or looked this type of material up and have no idea why I am getting them.

They are extremely offensive.

Most ate going into my SPAM email, but I don't want them anywhere!

I have attempted to email these people back and ask them to not send this stuff to me, but it takes you to more pictures, instead of being able to communicate with them.

I've no idea why this is happening.

I do not want to change my email address as I have had it for several years and it's my professional email.

What can be done, if anything?

Company Complaining About: Not Applicable

Description

Hello,

Currently it almost impossible to unsubscribe from Ancestry.com's mailing list. You can edit your preferences but then they require you to call a 1-800 number to fully unsubscribe. I called the line and was put on hold for over 30 minutes. I am certain this violates the CAN-SPAM Act of 2003 (16 C.F.R. § 316.5.) "Neither a sender nor any person acting on behalf of a sender may require that any recipient pay any fee, provide any information other than the recipient's electronic mail address and opt-out preferences, or take any other steps except sending a reply electronic mail message or visiting a single Internet Web page"

I believe this violation amounts to \$16,000 per email.

Regards,

Company Complaining About: Comcast

Description

Dating back to 2005, I have made more than a dozen requests for a hard copy of my COMCAST account history.

As recently as 01 Aug 2016, in emails to Daniel Biederman, I specifically asked him to look into when I could be provided a hard copy of my account history. Mr. Biederman has yet to respond to or comment on my request.

In fact, not a single person from COMCAST has ever addressed this topic.

Does this require a court order? It shouldn't. The information contained within my account history would further validate my complaints against COMCAST regarding multiple contract breaches and account tampering.

These are serious violations that COMCAST must be held accountable, responsible and libel for.

If necessary, I will provide the FCC with the email correspondence with Mr. Biederman regarding this issue.

Ticket: # 1130507 - Possible CAN-SPAM Violation

Date: 8/10/2016 10:08:56 AM

City/State/Zip: Rockville, Maryland 20850

Company Complaining About: Our Issue Is Not With Our Internet, But With Can Spam

Description

We would like to file a complaint of a possible CAN-SPAM violation on behalf of the members of the Association of Water Technologies (AWT) by the Culinary Workers Union Local 226.

The Culinary Workers Union Local 226 obtained the email (and phone) contact list of our members. It is unclear how they obtained this information (possibly from the Find a Water Treater page on our website).

The CWU Local 226 has been repeatedly calling and emailing our members for several months now.

Their recent email (copy attached) appears to violate the CAN-SPAM Act in the following ways:

1. Using a false and misleading "From" address, namely bcombs@culinaryunion226.org that is confusingly similar to the email address of AWT's president, namely bcombs@industrialwater.net;
2. Using a deceptive subject line, namely including AWT's name, Association of Water Technologies, in the subject line;
3. Not including a valid physical postal address for their organization in the email; and
4. Not providing a method for recipients to opt-out of future emails from their organization.

We have reached out to the CWU Local 226 and requested that they immediately stop sending emails to AWT's members.

Date: 8/10/2016 12:01:30 PM

City/State/Zip: Turpin, Oklahoma 73950

Company Complaining About: Verizon Wireless

Description

I just spoke to, Gwen at the FCC and she told me to file a rebuttal against Verizon Wireless - so this is the rebuttal - seen new details below.

My original complaint was filed on 07-14-2016 and was assigned ticket number 1085357. I received an email from the FCC on 07-28-16 stating that you had a response from Verizon and were closing this case. I NEVER received any response from Verizon and the issue is not resolved. I have been in contact with Melanie with the Verizon executive team - her number is 1-888-844-0375 extension 2221655 - I talked to her the last time on 08-01-2016 - since then I have left her 2 voice mails - one on 08-01-2016 and 08-03-2016 and she has NOT returned my call.

This issue has not been resolved. I again received another email just like the one I am concerned about in ticket #1085357 on August 7, 2016 at 1205 pm. This is still a privacy issue by Verizon and has NOT been resolved.

Thank you in advance for addressing my rebuttal of ticket #1085357. I will be in anticipation of your timely response and hopefully getting this issue resolved.

Description

I, (b) (6), want to file a complaint against Microsoft Corporation.

This company requested me to install the regular windows update in order for my computer to work properly. I just did that with my computer which I had just bought for my office. After I installed the Java software my computer developed a problem. When I type to make a document the letter that I am typing keeps jumping to another location. This seem to cause me a heavy headache and affect my health. I am a medical provider, I work from this computer, and I can not compete my work efficiently. Not long ago I did a report to the FCC regarding the Microsoft window update affecting my computer, so please send a case number after you review this matter. I will start to file a lawsuit. My contact email is (b) (6), my phone is (b) (6), my work address is (b) (6) Las Vegas, NV 89117. I am sincerely looking forward to your help. Thank you very much.

Ticket: # 1132543 - Microsoft Email malfunction obscuring action of RAT virus hacker

Date: 8/11/2016 12:42:36 AM

City/State/Zip: Baltimore, Maryland 21212

Company Complaining About: Microsoft Hotmail (outlook) Email Accounts

Description

I am writing this in complaint because a longstanding “malfunction” in my paid Microsoft Hotmail (Outlook) email account enabled a hacker to more easily covertly operate through a R.A.T. (known as a Remote Access Tool or Remote Administration Tool or Remote Access Trojan) virus to troll through my email account and delete some emails – and possibly do much worse. The Microsoft “malfunction” is that at one point Microsoft stopped showing the number of “Sent Items” next to my “Sent” email folder. Actually, after the problem started, the sent folder showed only “1” email, although now no number at all is listed. To illustrate, below is a screen snapshot of my current “Sent” email folder for my Hotmail account, lhoneywillwriter@hotmail.com.

How exactly did the “malfunction” prevent me from detecting the RAT hacker’s interference in my Hotmail email account? Because I don’t send that many emails in comparison to those that I receive, and I would have noticed the change in the number of sent emails if Microsoft had properly listed them next to my “Sent” folder. Every time I send an email, I also click the “Sent” folder to look inside to see if my Sent email had showed up. At one point, sent emails had been taking a while to show up in my “Sent” folder when I looked inside. Also at that time, the number of “Sent Items” had changed from the actual number sent to just “1.” Then that number completely disappeared after I contacted Microsoft service feedback, to the way it is above, with no number listed next to the “Sent” email folder, although I have MANY sent emails in my account. I will paste the correspondence email below:

To provide some insight to my problems with attacking viruses, I had to reset my computer to out-of-box state two months in a row – the past June and July (2016). I only discovered the problem of deleted emails when I discovered an old email in my delete-recovery folder that the hacker made a misstep by not completing deleting (the RATs also interfered with my computer in other ways). And prior to that, on April 10, 2016, I found a key-logger virus on my computer when I scanned with Microsoft Security Essentials. It’s obvious that I am under serious attack for these viruses to have penetrated my computer even though I have a paid subscription to a very well-known, highly reputed and popular virus-protection service. I also avoid online risks.

It’s very frightening to have my emails trolled through to such an extent – the initial email that I discovered had been deleted occurred in 2009! That email contained an emailed conversation that included my sent emails, so if my Microsoft “Sent Items” folder had been functioning correctly, I would have easily and quickly noticed a change in my listed sent emails. (By the way, my email account is so old that the oldest email in my inbox is dated 7/19/2002. However, many of my “sent” emails have disappeared – the oldest readable sent email is dated 11/14/2007. There are actually many more “sent” emails in my sent folder previous to that one, but they are all blank with the recipient listed as “unknown,” with “no subject” and “no message or text.” I certainly would like Microsoft to recover the complete copy of these emails, but I am more concerned about the RAT hacker’s deletion of my emails and deletion of possible emails sent from my account posing as me.)

I want Microsoft to retrieve all the “permanently deleted” emails from my account so I may review them. I AM PARTICULARLY CONCERNED THAT THE RAT HACKER MAY HAVE BEEN SENDING EMAILS FROM MY ACCOUNT AND THEN PERMANENTLY DELETING THEM AND ANY REPLIES. This is so frightening! I’m sure that Microsoft IS capable of retrieving “permanently” deleted emails for law enforcement, so they should be willing to do it for me, a victim of a crime that was enabled by their email system becoming faulty in my individual email account.

In addition, I have recently contacted Microsoft about this matter, twice. During the second chat session, I was told Microsoft could not help me with this matter by retrieving my deleted emails. And as I stated already, I am also very concerned that the RAT may have sent emails using my computer and my email address, and then deleting them so I can’t see them. I need to find out if this has occurred! This second chat conversation is pasted below:

Since this “malfunction,” if it can be called that, of the number of my “sent” emails not being displayed next to the “Sent” folder enabled the RAT hacker to evade my detection (of the deletion of my emails) from my paid-subscription Microsoft Hotmail (Outlook) account, and since I had already alerted Microsoft to a problem with emails not being shown (indicated) in my sent folder and was told the engineering department was specifically working on the matter of problems with my Sent email folder, yet the problem worsened, I think this problem is serious enough to report to the Federal Communications Commission.

The best resolution of the problem for me would be for Microsoft to: 1). Correct the malfunction so that the correct number of sent emails is displayed next to my Sent email folder. 2). Retrieve all my “permanently” deleted emails for the past several months so that I can determine if the RAT hacker has been appropriating my identity (identity theft) by sending emails with my account and so I can retrieve some of my actual important emails that the RAT hacker deleted from my account.

Du Apps is constantly tracking my phone everyday they only have a email to contact them they don't have a phone number. This is very annoying on how they track my phone everyday something needs to be done about it tight now. I went to a sprint store and they in order for it stop they would have to reset my phone and if I don't do that I will lose everything I have. When I try to call someone or try to use my phone DU APPS would freeze my phone and redirect me to their website..I'm sick of this everyday I have to deal with this.

Description

We are getting emails from a company called Tech Service Today. (b) (6)

They bombard our company emails with 1-4 emails a day for service requests. There is NO WAY to unsubscribe or remove yourself. Our IT department can't even figure out how to block these guys.

I would like action taken as this company is doing this across North America. If you google them, you will see they are a scam site that never pays any tech for going on a call. Multiple lawsuits in many areas of the US.

Ticket: # 1132914 - Two different passwords for same "joint" at&t/yahoo email account!

Date: 8/11/2016 10:48:24 AM

City/State/Zip: Palm Coast, Florida 32137

Company Complaining About: AT&T

Description

I have a joint at&t/yahoo email account. I have been notified from contacts in my address book that fraudulent emails are being sent from this email account, which indicates that the account has been compromised or hacked. Every time I change my account password, it is only being changed on the joint at&t/yahoo domain and NOT on the "yahoo only" domain, so the parties who have gained access to my email account can continue to gain access because this password cannot be changed. So far, at&t has referred me to yahoo, and yahoo is completely unhelpful and apparently doesn't even have "live" customer service representatives. As an aside, yahoo should be prohibited from being in the Internet business for many reasons, not only this one. This complaint is against both companies. A company with the stature of at&t should have understood the consequences of associating themselves with a company that is disreputable and unreliable as yahoo when it entered into an agreement with it. When I recently moved, I had to terminate the at&t account below because at&t is not available for Internet in my new area, but I am left with the at&t/yahoo email account. It is an extreme hardship to change my email address, but I will do it if absolutely necessary.

Company Complaining About: Verizon

Description

At one point in time I was in the market for a new job, but since obtaining a new role over a year ago duly informed several agents from The Judge Group that I was no longer in the market for new roles and asked to be removed from contact. I continued to receive messages and proceeded to request time and time again for them to stop contacting me. Their email format changed and an unsubscribe option showed up, so I did as I've done for other recruitment firms and clicked on their unsubscribe link. It told me I was unsubscribed, but yet an Alexander Croft contacted me again today from The Judge Group once again. I proceeded to inform him that I've requested I not be contacted to several people from the firm as I am not looking for new roles. I received a very unprofessional reply, informed him that I wasn't initially going to file a complaint against them but his incredibly patronizing, dismissive reply made me think otherwise as I'm tired of being spammed with unwanted emails of which I've attempted to opt out of numerous times. I informed him of how incredibly unprofessional the message was and got another patronizing reply in return. They have made it clear they do not respect cease and desist requests even though legally if someone requests to not be contacted, they should not be contacting them.

I have many, many times used their "unsubscribe" feature, which never works. I've complained many, many times, and they always say they're taking me off the list. Yet somehow, I always end up magically back on - days, weeks, months, or in this case even years later. Now I'm apparently on their "latino" list. The "unsubscribe" link helpfully takes me to a page... that shows that I'm not subscribed to anything :P

They clearly have no interest in being compliant with the CAN-SPAM act.

Hello (b) (6)

Thank you for reaching out to us regarding having your information removed from Jet's system and unsubscribing from the emails.

Your Jet account has already been deactivated in our system since October 2015. Also, when unsubscribing to the emails, removal can take up to 60 days to complete depending on current marketing programs.

An email to update our Terms of Use is a transaction email that is required to be sent to all customers-whether or not they have opted out of marketing communications. Rest assured, we are not re-enlisting you or otherwise sending you marketing emails, we are just meeting our legal requirements and sending you the update to Jet terms. We apologize for the inconvenience and strive to keep transaction emails to a minimum.

Thank you. If you have any other questions or concerns, please do not hesitate to send us an email or give us a call. We are happy to help and are here 24/7 to assist our members.

Ticket: # 1135438 - Tmobile Complaint**Date:** 8/12/2016 11:51:14 AM**City/State/Zip:** Dallas, Texas 75217**Company Complaining About:** T Mobile

Description

I am the owner of my tmobile account with three other users. In December of 2015 I requested temporary authorization for (b) (6) (user of account) to become an authorized user to change her phone. However, the request followed up with her status to return to user only. Tmobile failed to return her status and (b) (6) began adding misc items to the account. On August 2, 2016, (b) (6) went to tmobile and added a tablet, hotspot, and fitbit. Two that required authorization from account holder to add two extra lines. No contact was made to me and tmobile allowed Elizabeth Amaya to add an additional two lines and approximately 445.00 worth of merchandise. I immediately contacted her and requested that all items be returned. My concern is that basically anyone can go into tmobile and give my number and add merchandise and lines to my account. This concerns me because my social security number is vulnerable and can be accessed to purchase items. I nonly longer feel that tmobile provides protection to my identity and I feel that this was a former of identity theft from both (b) (6) and tmobile.

Date: 8/12/2016 12:47:53 PM

City/State/Zip: Raymond, New Hampshire 03077

Company Complaining About: Comcast

Description

My name is (b) (6) and I am a client of (b) (6) for work as a voice-over professional. I received a communication from that site yesterday and contacted a potential client. After some back and forth communication that was obviously someone who didn't know the in's and outs of the VO industry it became clear that this was a hacker trying to obtain payment information from me. In trying to contact voice123.com about this issue I learned that they are basically cutoff from outside contact and now have left questions as to whether they are the source of the hack or not. Upon immediate realization of this possibility I am in contact with every agency and industry leader possible as the information of almost every voice-over actor in the world (and the projects that they work on) is now at risk.

City/State/Zip: Coatesville, Pennsylvania 19320

Company Complaining About: Instagram

Description

My Instagram was compromised on August 2, 2016 and I tried multiple times to get in contact with someone from Instagram over this matter. Finally a few days later after I got a message back that said I needed to prove with a picture of me holding a code with my user name and email on to prove who I was. I did as told and sent it back... Then nothing once again. Today I checked my email today and they said that my account was reactivated but not for my use but for the hacker, they failed to reset my email and password so I had access to it instead of the hacker. I have personal pictures & many memories on my Instagram and I have no way to get it back plus I would really hate to lose them over this with no help from Instagram. For being world wide web site there is a big lack of support and help for theses sort of matters. I didn't know where else to turn to about this matter. I really hope you can help me please.

Date: 8/12/2016 5:01:28 PM

City/State/Zip: San Jose, California 95132

Company Complaining About: Comcast

Description

I got an e-mail from my congressman after having not received any in recent memory. I thought maybe I had subscribed by accident, so I promptly unsubscribed. Got another a few days later on my other e-mail so I unsubscribed again. Just a few days ago I got another e-mail from him. I unsubscribed. Both times I got a confirmation e-mail that I was removed from his list.

Just today I got another e-mail from him despite having removed myself from his list twice. While searching my mail I noticed I unsubscribed from him last year and he seems to have respected it then.

Attached is a screen shot of the three "Unsubscribe" e-mails with their dates and the other e-mails I have received afterwards. Other information includes the e-mail/account associated with each received e-mail.

Your "Spam E-mail" page sent me here to file a complaint but there didn't seem to be an appropriate issue to select. My apologies if "privacy" is not adequate, I figured it was the closest and most relevant out of the selection.

City/State/Zip: Washington, District Of Columbia 20016

Company Complaining About: Loan Matching Center

Description

I have been receiving unwanted text messages for over a month (several a week, sometimes several per day) from "loanmatchingcenter." they say something like "Henry if you need cash, now is the time to apply" and provides a link or "apply for \$1000 in credit" or "Do not let washington take away your access to credit! sign a petition..." they say you can text stop, but if I try, some weird message rates applies pops up. I called Verizon (my provider) to see if i could block, but they do not come from a phone number. Verizon gave me an email address, I sent an email telling them I am not henry and to stop texting me and have not received a response, and still keep getting messages. They come from 89810.

Hello,

I hope that this message finds you well.

This message may be coming to you as a surprise but I need your help. Few days back I made an unannounced vacation, I came down to (Manila) Philippines, for a short vacation and got mugged at gun point last night at the park of the hotel where i lodged. All cash,credit cards and cell were stolen off me. I've been to the embassy and the Police here but they're not helping issues at all,my flight leaves today and I'm having problems settling the hotel bills. Right now am stuck with nothing on me and the hotel manager won't let me leave until i settle the hotel bills.I am sorry if i am inconveniencing you,but i have only very few people to run to now. i need you to loan me \$1,550 to sort the bills and get back home. I promise to pay back as soon as i get back home. Kindly get back to me so that i can get you the information you need and how you can get it to me asap.

Thanks

I received this fraudulent email using the name of a friend of mine. I find this alarming.

Thank you!!

This is contrary to my understanding of "best practices" and it means that my only recourse is to continue asking them to delete the account everytime whoever is doing this signs up for it. The email and the account are not wanted, but technically not "unsolicited," because someone is requesting the contacts in my name.

Company Complaining About: Virgin Media

Description

Hi, I would like to make a complaint in regards to fresh.com

They have sent me spam emails on numerous occasions. Prior to receiving the emails from them I have NEVER visited their website or signed up to a newsletter. I have emailed, simply requesting why they have been emailing me and where they got my private email addresss from and they have lied stating that I must have signed up to a newsletter on their website. This email address is highly private and takes steps to avoid these types of emails. I have requested a response from the company hoping for a truthful answer and I am yet to receive one.

Ticket: # 1138656 - Possible BEC, spoofed called, employment scam,

Date: 8/15/2016 10:52:04 AM

City/State/Zip: Minneapolis, Minnesota 55410

Company Complaining About: I Use Att With Google Voice

Description

I am not sure how to articulate this scam but I think some one continues to spoof my number (b) [REDACTED] [REDACTED] I have a new cell phone number but ported (b) (6) [REDACTED] to Google Voice. This came appears to involve BEC, spoofing and computer compromise. I have filed an ic3.gov report in addition to this complaint. I sent an email with further details below. See my email below:

Toshibatabsjobs.com/Brenda,

I wanted to follow up with you and recap suspicious activity.

1. Sometime between 8/1/16 & 8/4/16 I applied for a job with Toshiba thru "the ladders" which then linked to an external site. I used my personal email ending in odinfox.com (alias@odinfox.com or career@odinfox.com)
2. I received a call at 11:27am CST with caller ID 617-603-0773 identifying herself as Brenda claiming to be from Toshiba. She asked me to sign a document she was going to send and scheduled a call at 2pm.(2min 48 sec. Call)
3. A document was sent via email which I did not sign.
4. At 2pm the same individual called, I informed her I would not sign the document. She informed me that the application would not proceed unless I signed. I informed her I would review the document over the weekend.
5. At 9am on 8/8/16 I received a call again from an individual claiming to be an employee of Toshiba from 617-603-0773 at which time I informed the caller I would not sign the document and would not proceed with moving forward. I thanked her for the follow up.

What's strange is I received 2 emails later that week on 8/11/16 to my company email(sean@izuluinc.com) which I never used for my application? The email states:

- I) "My name is Brenda and I'm reaching out to you on behalf of the Toshiba American Business Solutions Talent Acquisition team"
- II) "Thank you for taking the time to speak with me today(8/11/16)"

I just wanted to give you a heads up that:

- a) I did not speak to anybody after 8/8/16.
- b) I never used my company email sean@izuluinc.com to apply for this position

I am not sure if I, your organization or both of us are being "spoofed" but wanted you to be aware of this. Your email might also be compromised(Take note of FBI warning concerning BEC scams)

I know this is strange, nor is this a good experience for a job applicant as I am still looking to get a job but felt it necessary to communicate this. I think this is a "confidence scam" of sorts for me to reveal confidential information...

I have filed a ic3.gov report, an FCC complaint and copied phishing-report@us-certain.gov. I would encourage you to do the same...

Thanks again,

S(b)

Email I received on 8/11/16 with header information.

Hi (b) (6)

My name is Brenda and I'm reaching out to you on behalf of the Toshiba American Business Solutions Talent Acquisition team. After reviewing your skills and experience, I thought you may be interested in the Major Account Executive opportunity we have in your area. I'd like to set up 5-10 minutes to discuss the position and your professional background in further detail.

Please take a moment to review the job description we think would be a great match for your background. You can also see more information about our company [1] here. We're in the business of helping businesses communicate smarter. And it's a big production. We make it all work effortlessly, with a beautiful master plan that provides guidance on everything from paper documents to digital signage.

Please email or call me at your earliest convenience so we can take the next step in the process.

I look forward to staying connected with you, Sean!

Thanks,

Brenda Ariyanto

Description

Mollom, a spam/phishing identification service, collects and stores personal data (including email, IP, name, etc.) when submitting webforms on their clients' websites. They state that they use this information to improve and perpetuate their service provided to the clients.

Their privacy policy states a right to have this information deleted, and provides a link to contact them about the request:

"Your rights – You have the right to gain access to, correct and/or remove all personal data we store about you on our servers. All this is provided to you free of charge. In order to exercise your rights, please contact us [url]."

This url leads to a website devoted to selling their service or providing client support only. There are no ways to contact Mollom on this page for the purpose that led me there (requesting deletion of my personal data). Only ways to contact sales, or understand more about their product and its pricing.

To add stupidity on top of invasion of my space, Time Warner does not even provide a method for me to respond to their survey, even if I were inclined to do so.

I never gave permission for Time Warner to broadcast voice messages through my computer speakers , and I believe this is occurring on a large scale. When I called TW customer service to complain, they confirmed that this was a common practice. This is an invasion of privacy and grounds for a class action lawsuit.

[Ticket: # 1141840 - Emails from cnn.com](#)

Date: 8/16/2016 3:46:50 PM

City/State/Zip: Rutherford, New Jersey 07070

Company Complaining About: Cnn

Description

A couple of months ago I began receiving emails from cnn.com. I have not subscribed to their email newsletters. I tried repeatedly to unsubscribe using the link they provide without success. I also tried sending them emails. Finally after complaining to the BBB they stopped. Yesterday again they began sending me unsolicited emails. Again I have been trying to unsubscribe. They are using my email address without my permission. I would like my email permanently deleted from their system & using my email. At this point it's harassment.

Date: 8/16/2016 8:49:11 PM

City/State/Zip: Santa Clarita, California 91350

Company Complaining About: Time Warner

Description

Have been sending notices to Time Warner about ads sent by mail. Requested to have our address removed on their list. Was confirmed by them on 04/17/16 it will be remove effective 90 days of 07/16/16. We are still receiving the Time Warner ads and we don't have any services or products with them at all. My husband's dad recently had his mailing address moved to us, but again...we don't have any services and products with them and so did his dad who stopped their services earlier this year. We don't have any products or services from them so they don't need to send us their ads and we did request the removal. Please see attached email communication pdf. Thank you! Please forwards to correct department if need be.

Company Complaining About: Mediacom

Description

Replenish Garcinia Cambogia infomercial using Melissa McCarthy's weight loss results which she specifically states does not endorse products. Purifying Mango Cleanse and Replenish Garcinia Cambogia trial size for \$4.95 ea. Order process for trial size has third product "purifying mango cleanse" for \$34.99 and box to exempt this product is way down bottom of page. After ordered decided to cancel order in process but talked me using product and "extending" trial date. No mention of "processing fee" if cancelled order before 15th. However, when attempted to cancel insisted I agreed to processing fee. These scammers will continue to charge individuals accounts for more products. No mention of email address or company name, only customer service phone. Indian accent. Each product has it's own order # which seems fishy. Customer support 1-877-446-3357, 1-877-460-0661, 1-888-492-9234 and 1-888-710-1206.

I blocked my credit card before they were able to add more charges since they refused to come to terms.

Date: 8/17/2016 7:08:48 AM

City/State/Zip: Tucson, Arizona 85733

Company Complaining About: Cox

Description

No Opt-Out – the email contains no unsubscribe/opt-out links or options whatsoever.

Return Address – the email sender's return address is coded and is from a generic Gmail account:

(b) (6)

Also no website address/domain or postal address. The only identifiers provided are as follows:

Sender's name: (b) (6)

Sender's Skype ID: tech.formedia

Note: Prior to receiving his email, this same sender also called my mobile phone (from a New York number) and I advised him of my # being on the do-not-call registry (I am filing a separate complaint for phone solicitation), my wish for no further contact, and that I did not need or desire his services (web design).

His contact was obviously the result of my recent domain registration with GoDaddy, so clearly the buyer information is being bought and/or sold by individuals and entities that are violating both telemarketing and internet marketing privacy regulations, as I did not give permission to those contacting me. I also should not have to pay substantially just for my domain owner details not to be published, only to have them phished and then be bombarded by unsolicited marketing. It's not right that companies like GoDaddy be allowed to capitalize off of a customer's inherent right to privacy by law.

City/State/Zip: Darlington, Wisconsin 53530

Company Complaining About: Dish Network

Description

We own and operate a dairy goat farm and have 4 young children. We have been informed that the Bug tussle company is in the process of trying to put a cellphone tower up not to far from our farm and right across the road from land we own and operate! We have many concerns about this and are strongly against it! We have done alot of research on these towers and have found that they are not something you want to close to your home! We found that they came cause many sicknesses, which leaves us concerned not only for ourselves but more importantly our 4 young children! We have also found that they can cause stray voltage in the ground which has been known to kill livestock and cause other electrical issues with your home and farm! We have also found that it can lower property value! Where they are trying to put the tower is right in the center of 5 homes! Not an ideal spot at all!

Date: 8/17/2016 1:56:55 PM

City/State/Zip: Clive, Iowa 50325

Company Complaining About: Mediacom

Description

On August 15, 2016, I called Choice Hotels to set up a reservation for one night in Madison Wisconsin at the Cambria Hotel for September 11, 2016 under reservation # 41183087. During this telephone conversation, the reservation representative told me he would set me up with the Choice Hotel Privilege Program for points and free nights under their account. I told him clearly 'NO' and I didn't want this as I would not be returning to their hotels and I didn't want my e-mail addresses on their systems to be sold. He acknowledged that he heard me. On August 17th, I received a welcome e-mail from Choice Hotels that I had been set up for the Privileges Program. In the time it took to make two calls to 2 departments with Choice Hotel to complain and have them cancel this account, I have received multiple SPAM e-mails from several other hotel chains. It is clear that Choice Hotel has already sold my e-mail address. This does not seem legal in that I never agreed to their terms, never gave permission, and now am paying the price for all the SPAM I am receiving. Can you please help stop this type of unlawful practice? This is not the first time these reservation companies have done this, come to find out from my friends.

Date: 8/17/2016 3:10:00 PM

City/State/Zip: Newtown Square, Pennsylvania 19073

Company Complaining About: Comcast

Description

I called 1 1/2 weeks ago to ask about changes and adjustments to my account. I said that I will call back later with my decision.

When I called back, I was told that my last 4 SS# is incorrect on my account, and therefore I am locked out.

I was told that Comcast changed their database system. According to the CSR, the only way to access my account is with the last 4 digits of my SS#. I gave the CSR 1 1/2 weeks ago, the exact same information and there was no problem.

It appears that someone's else SS# is connected to my account. I requested to speak with a manager and was denied. I asked for the telephone number to corporate and was told that they only had the address.

Resolution:

I need for this problem to be resolved as quickly as possible.

I need for ths problem to be escalated to someone because I previously had my identity stolen.

Why is it only your last 4 digits of your SS# can verify your identity?

I can also be reached on my landline number (b) (6)

Description

ok seam to be experiencing a lot of electrical noise around and in my residence, (b) (6) bozeman mt. I have checked the electrical lines with a am radio/with no power on, and get a lot of noise in a few spots outside of my trailer, one seams to hover in midair, i determined this using a magnetometer device on my phone, when i look up from this spot I see a direct tv dish, that a peers to have the coax cable cut. I spoke to the fcc agent of my experience with this, in what seemed to be miss installed equipment. At first it was installed aimed directly at my front door. So as for the electrical noise, this began following a break up i had, I lived in the residence with my girl friend and her kid, prior for several years with no such experience. Now i seam to be waken up daily by extremely loud signal type infrasonic sound. I experience Doppler, skin effect, and strange muscle switching, major like spasms contractions, but it comes and goes so irregularly and never following any activity. I do get the sensation that im being observed in my home, as odd things happen in relation to my actions. I can actually feel the noise too, by putting my finger tips together, I will get a vibration that seams to come and go. At one point a few years ago my tv turned off, the phone rang, and something else happened all at the same time, I was like wow, that was weird!? I have researched this extensively, as it seams to distract me. I dont want to learn about human physiology in relation to electronic equipment surrounding me, radio frequencies, infrasonic weapons, hams. I want to make art and seams some b.s. is preventing me from doing this. thanks so much who knows what im experiencing? recently have observed the much of the power lines surrounding my residence are above ground, and i have noticed electrical like sensations and noise in relation to entering and exiting these grids or fields. My gps is way on on my phone at my residence, I have complained to bluetooth that someone maybe harasing me with there devises! And that is what i believe I may be experiencing is phenomenon associated to magnetic fields. Also my mom is not real happy with me, she stated to me my my thyroid would go out, and that interesting one to google, so dont know why she is telling me that? Adversion therapy is what i mentioned to the agent, but I did not agree to such tactics, as i am not aware asking for such therapy! thanks grant petrelli

Space Port Pros will not remove me from their list after several requests. I have clicked unsubscribe, sent several email requests, and used the contact us on their website, but this company will not stop sending me their marketing emails. I never signed up for their list in the first place - they got my business card at a marketing function and unknowingly added me. I have to take CE classes regarding email marketing and the CAN SPAM act and this company is in violation of it. It's really frustrating. The unsubscribe button on their emails doesn't even work - just leads you to a blank page (see image). I have reached out to the company to remove me from their list and never heard back. This is going on 3 months.

Description

Lissy Kay Well, I have spent all morning trying to get Microsoft to disable my Hotmail account immediately. My account has been hacked and they are sending emails back to me from me. It will be deactivated in 60 days, BUT they can continue to bypass passwords and security codes so THEY can continue to keep the account open. CATCH 22. There doesn't seem to be anything I can do because MICROSOFT customer support (in INDIA I assume) says contact customer support and they say it will be 60 days and give me links to report. It is a big run around and it must be done from the inside because I have reset passcodes and security codes many times and open the account and there they are. Microsoft sucks at this point. I have always said they created this shit to get our info and then THEY will be in control of it and low and behold this is what is happening. All over the world. What happens when they take total control of the net and no one can get money from banks. They created it and I have always believed they are putting in a back door and will return to overthrow it all. Most tech guru's are foreign and not much to speak of in the US as for technical advancement. Case in point IBM in Columbia MO taking subsidies and then importing workers and outsourcing to other countries. I am ready to delete it all. Now with windows 10 wanting to tie all of your information together with preset settings that allow automatic access. No such thing as an American tech company, it is all outsourced to India and other foreign places. Is it any wonder they are gaining access to our information when they are controlling it.

Greetings,

I am moving into a new apartment. Before signing my lease, I was informed that AT&T was currently the only ISP for the apartment complex. They claimed that other providers would be added later. Today I learned that AT&T has an exclusive deal with the complex, and residents are forced to use their service.

AT&T has several bad policies. I recently contacted the FCC about concerns about data-limits. Since then I have learned about the policies they hide until you actually go to pay for their services.

AT&T advertises a gigabit connection for \$70 a month. They say the installation fee and monthly router rent is waived. It isn't until you got to "checkout" that the reason for this discount is revealed. As I didn't get to this step in the process until after I signed a lease for my apartment, I am stuck with AT&T.

AT&T charges customers an extra \$29 a month to "opt out" of a preference to have all internet usage recorded and sold to advertisers. They also charge these customers \$99 for installation and a monthly fee for the router. This is blatant false advertising and deceiving.

In addition to the extra 64% a month (based on the fees for a 12 month period), AT&T makes no promises that your internet usage is not recorded. They claim that the data will not be sold to advertisers, yet the security risk is still very much applicable.

Since AT&T is my only option for internet service, I implore the FCC to make regulations on these data mining practices. They are tricking uninformed consumers into selling out all their personal data to advertisers. The only reason I know to avoid this is my degree in Computer Science where I took data mining courses.

AT&T contacted me based on my latest complaint and "resolved" the complaint by saying I would not pay for their service. I do not consider this "resolved", as I have no other options but AT&T.

Description

Attention Beneficiary,

I am Diplomat Mark Dennis; I have been trying to reach you on your telephone about an hour now just to inform you about my successful arrival in Midland International Airport (TEXAS) with your two boxes of consignment worth \$3.5 Million United State Dollars which I have been instructed by President of Federal Republic of Nigeria to be delivered to you.

The Airport authority demanded for all the legal back up papers to prove to them that the fund is no way related with neither drug nor fraud money, I have presented the papers to them and they are very much pleased with the papers Please try and reach me with my number (210) 460-0962 as I can not afford to spend more time here due to other delivery I have to take care of in Bangkok.

I want you to know that you have 24 hours to call me on phone (210) 460-0962 As you may know I do not want the security company to know where your consignment is lodged to start raising an eye brow because of the content and accumulate demmorage charges.

However, before the delivery is effected, I need you to reconfirm the following informations so that the funds will not be delivered to someone else.

1. Full Name:
2. Residential Address:
3. Cell Phone Number:

After verification of the information with what I have on file, I shall contact you so that we can make arrangements on the exact time I will be bringing your package to your residential address.

Send the requested information.

Regard.

Mark Dennis.

City/State/Zip: Nashville, Tennessee 37215

Company Complaining About: Netzero

Description

The number for cancellation on Netzero's website is (800) 851-7908. This number has an automated voice directing cancellation requests to (866) 841-1442. They say they cannot cancel service at this number; that I have to call the first number to cancel (which of course directs me to their number. When I escalated this 48 hours ago to their supervisor, they said they had cancelled it. Today, it is not cancelled, and now that want me to write an email to Spamabuse@netzero.net. They have told me in one phone call that they have sent an email (which I have never received), that it is closed (even though I can still get on), and that they will call me in 24 to 48 hours to let me know if it has been terminated (and I have already waited 48 hours). I just want to cancel the account, and have spent over 2 hours on the telephone with them to no avail. Please help.

Ticket: # 1147038 - Credit checks on false offers and failure to make required FCC disclosures

Date: 8/18/2016 5:47:07 PM

City/State/Zip: Austin, Texas 78758

Company Complaining About: Time Warner

Description

This is a complaint against Time Warner Cable. I called to sign up for a tv+internet offer. The representative I spoke to would not honor the offer I referenced online, and she told me that offer was posted online erroneously. She offered me a different honor, which I accepted. She then ran my credit and told me my installation date was scheduled for Saturday, August 13th. No one from Time Warner showed up for the installation. When I called, another representative told me that my isntallatoin was scheduled for the following Wednesday unbeknownst to me. The second rep also told me the first rep added a bunch of unauthorized enhancements and upgrades on my account, which I was not informed about. I would like this investigated. I should not have had my credit run for offers I did not accept. Also, Time Warner failed to make required FCC disclosures to me about broadcast fees at the time of signing up for a package. I want this investigated as well. I should have been informed in full of all the terms of my offer, including required disclosures. Instead I was presented with false offers and authorized additions were added to my account without my authorization and without disclosure.

Ticket: # 1149927 - Please investigate the connection between Google AdWords and Mspy hacking software

Date: 8/20/2016 7:52:40 AM

City/State/Zip: N/a, Alabama 90210

Company Complaining About: Google

Description

Hello.

Can you possibly look into how the so-called policies of AdWords are a complete fraud? For example, AdWords has a policy that is supposed to prohibit sites using the service if they offer hacking services or promote dishonest behaviour.

(b) (6)

If that is the case why do they allow Mspy (<http://www.mspy.com>) to not only advertise their phone and PC spying software on AdWords but also allow them to advertise how to install said spying software through their own official YouTube channel as well?

<https://www.youtube.com/user/mSpycom>

Is Google really only concerned with just the money AdWords brings for them at the cost of our overall privacy by allowing software such as this on their network?

I really would like a genuine answer to this because, when you start to really think about it, it honestly doesn't quite add up and Mspy should be banned from both YouTube and AdWords for the software and services that they provide which clearly goes against Google's policies..

Thanks for your time.

City/State/Zip: Austin, Texas 78704

Company Complaining About: AT&T

Description

Hello:

This is not a crazy inquiry or complaint I know communications well. Four years ago I signed with Uverse in central Austin their new fiber service. They sent an independent crew with a 4' diameter auger, diesel powered trencher to trench from our basement window to the pole in our service alley around 100 to 120 feet. They used Schedule 80 conduit. Last March I cancelled service and switched to Google Fiber because of better rates and channels. I SHIPPED, all TV and network boxes back to ATT. The Google installers came March 10, 2016 and installed their service, this time hand dug with a spade accross my lawn. We have a historic home everything has to be dug as far as utilities go. Ever since the four years ago I have noticed another fiber cable on the ground running to the pole. Ken Decker of Mastec, independent contractor for Google came out last week and took pics. There is no reason for this extra ATT fiber line i have cut it several times and it keeps coming back. I lost a considerable amount of money from ID theft at my business this past five years (over \$1 million) and I know this may have something to do with this problem. Also I have two small girls. I need an FCC tech or your third party person I will pay to come look at this . Mr. Decker was not amused. He saw no need for this and I keep calling to report it. Nothing is done.

Description

I only have a government phone where I only get 250 minutes a month. I am in bad health and have no way to call any one and my AT&T email still does not work so I cannot email them. So I cannot get my email fixed as they wasted all my minutes now I am unable to email or call my family. I got disconnected when I called twice. The so called customer service is terrible just look at what othes say! I will not pay my bill and they are welcome to cut it off and I will get a good ISP. This is FAR from the fist time I have had problems. I have been a customer since bell south and since the took over it has gotten MUCH worse! Like I sad just do a search on AT&T customer reviews and see. Even on their facebook page nothing but complaints and many are doing like I am going to do and switch! I DO NOT HAVE ANY MINUTES THANKS TO AT&T SO THEY CAN NOT CALL ME TILL NEXT MONTH. I WILL NOT PAY MY BILL!

Description

On Aug 19 2016, my ATT Uverse service was turned off at my current address by mistake. I had called the day before to request to move the service to a new address on Sep 3. Somehow, ATT turned off service at my current address. After hours on the phone with different agents, I was told that their system required a new temporary account to be created to resolve the issue. An issue that ATT created. And thus, a credit check was required. Explicitly, I refused as the problem was created by ATT's oversight. I had been a long standing customer with ATT. The Technical Support agent by the name of Christie promised to call me back with a solution. Later, I receive an email stating that an account was created. After much trouble getting to Christie (Employee ID CP528H), she acknowledged and apologized that there was a miscommunication between she and the Channel Support personnel and confirmed that a credit check was indeed run. This was a clear violation of my right as a consumer. I expressed my wish to escalate the matter to higher ATT personnel. However, I was not redirected and no email, address or phone number was provided. When asked, I was told that the case number is J35244650. How may I escalate to draw attention to the violation?

City/State/Zip: Huntsville, Alabama 35802

Company Complaining About: N/a

Description

I've selected "Privacy" below, only because "Security" is not an option.

After years of having an account with facebook (my username was "Just XYZ" where X, Y and Z are my initials (as approved to be an acceptable alias by the security officer at my agency), suddenly, facebook has locked me out of my account until and unless I send them a photo or a scan of a government-issued picture ID. Other options provided will not meet their standard of proof. Even if they would, they should NEVER request someone transmit a copy of a government ID as an option.

This is a security issue. I am willing to change my user name, but I am unwilling to send a copy of an official ID to an unknown person or persons for trivial reasons, because (first of all) they don't have a need to know. Also, I don't know whether my information will be properly secured. Not even my bank requires this sort of identity verification, because it presents a security risk. Further, I would point out that, to my knowledge, new facebook account applicants are not required to provide such information. If this practice is NOT against FCC regulations, please, advise. If it's "within their rights" to randomly demand that I provide personal information in a format which makes me more vulnerable to identity theft or some other form of security violation, I will accept the FCC ruling and will simply no longer maintain an account with facebook.

Thank you for your attention to this issue.

City/State/Zip: Jefferson, Georgia 30549

Company Complaining About: Computer-tech-help.com

Description

Received notice on computer of virus infection. Alert notice stated was problem with our Windstream carrier and referenced a phone number to call to correct. We contacted the number (Computer-Tech-Help.com) and thought problem was corrected and added protection per their advice for \$400. Last week received a phone call that we had been hacked by China and Russia and needed more protection. We were told our credit card was compromised and we would need to go get an iPhone card for payment. Were given conflicting instructions every time we came with an iPhone card causing us to get more with the reassurance we would be reimbursed once we gave them the correct numbers. Cards totaled over \$1000.00. Heard on TV about iPhone/IRS scam and realized were probably a victim of similar scam. Called AVG and they ran scans and told us programs were dummy programs and there had been no hacking to begin with. CTH.com was also very belligerent in the end when they realized we had caught on to the scam. We realize we are out some money due to our trust that they were connected with Windstream. We have talked to AVG, Windstream (who made it clear this company is not connected to them), credit card company and bank to ensure safety of personal info.

Company Complaining About: Best Computer Repair Solution

Description

I received a call from "Dell" this morning, but I was driving and told them I couldn't talk. They called back two hours later, as I requested, but I was still traveling and they said they needed me to be with my computer. They called back at the time I asked and they indicated I had been hacked and that I needed a Secure Socket Layer, which I could buy at Walmart or Staples, but they could sell it to me and install it. They took over my computer remotely and showed all kinds of errors indicating a problem. I asked repeatedly if they were Dell, and he replied yes. When he tried to sell me something, I told him to call me back. I called Dell tech support and they told me I had been scammed. The hacker (supposedly (b) (6) ██████████) called me back and I told him I knew it was a scam. He hung up on me then. He left his name and phone number and a company name and its website. www.bestcomputerrepairsolution.com I tried to call the number, and someone answered but I could barely hear them, so it is a working number.

Description

I've received a number of emails from a number of different organizations that include a one-click unsubscribe link in their emails. This seems to work, since that company doesn't send any more emails. However, the "unsubscribe" link is immediately followed by the statement "By clicking a link in this newsletter, you agree to the xxx.com privacy policy". When you look at the privacy policy, it says that they rent out their list of emails to other companies. After clicking the "unsubscribe" link, you start getting mail from other tangentially related companies (presumably because, by either unsubscribing or simply viewing their privacy policy, you inadvertently gave them permission to sell your email address). There is no mechanism to find out what their privacy policy is without agreeing to it. Description

I tried three or four times to call Comcast this morning to clear up a billing error (of which there have been several for past few months). They only list 1-800-xfinity (936-6489) for support. When I call, they FORCE the caller to listen to adds or promotions before offering any access to their billing dept. Truly outrageous. They force you to answer personal questions (age of household members). Why should I have to answer these questions just to dispute a bill? I tried their online chat, explained the problem, and asked for a direct billing dept. phone number. THEY DON'T HAVE ONE to give out-- only the same 1-800-xfinity. This is totally unacceptable. I feel like a prisoner. T-mobile offer, medical alert offer. If I got these as robo-calls, they would be illegal under TCPA. Why does Comcast get to pull a revers-TCPA violation by holding their customers hostage? Also, they are effectively FORCING me to pay inflated bills because I cannot dispute them! PLEASE DO SOMETHING! Thank you.

This IP address is in the private IP address space, as defined in RFC 1918. We have no devices configured with this IP address, we don't even use this subnet. Any attempt to reach this IP should be impossible. Yet, this IP is pingable. A tracert shows that it is routing through the Charter Circuit. Charter should NOT be routing any IPs in the RFC 1918 address space to me, or any other customer.

Charter has admitted this is an issue on their end, but will not do anything.

Company Complaining About: Why Are You Asking - This Is About Lending Tree

Description

I was browsing today and lending tree had an add about the HARP act for lowering your interest rate - its link said "Instantly find out if you are eligible" I clicked the link and filled out a survey but there was no instant notification - Instead I find out I have applied for a loan I did not want to apply for and now I am getting phone calls and email fro the loan I did not want - and still don't know if I qualify for HARP.

This seems to be quite Fraudulent to me. Bait and Switch.

I clicked to link for promised information - did not get the info but now I am being pestered by credit providers.

Description

My friend signed me up to receive emails from Trump's campaign as a joke. We had a laugh and unsubscribed. But ever since I've still been receiving emails from his campaign. I've just today unsubscribed again for the sixth time! The emails have the option to get off the list and I follow the link to his site each time and properly submit my email to be unsubscribed but I continue to receive them. I've unsubscribed from hundreds of different email updates from various companies and they always work, but with Trump's email, my attempts have been unsuccessful even when done correctly. Please help! Thanks!

Description

For the second year in a row, I have caught Verizon changing information on my account without prior contact. The change sets my primary email address to the one I had before I got Verizon FiOS. It is not my business to go around checking up on Verizon to make sure their computers haven't barfed, but what really bothers me is that it suggests a legacy system from before 2012 (when I changed providers) and a system that old not only can't be reliably maintained any more, it also has SECURITY VULNERABILITIES. I will be checking up on them in January 2017 and later and sending FTC another complaint if the problem comes back. This is so unprofessional, if I caught an employee of mine doing it I would fire them. However mergers have made that next to impossible because other providers have other problems.

Description

I have received 11 sms texts messages from mobile number 32665. This mobile number is used by Facebook to notify me of a account I have on Facebook. I believe it has been hacked into on Monday, August 22. These text messages are concerning Facebooks confirmation codes and #fb. One mentions the name Lonnie and there is no one here with that name. I have not responded to anyone of them. I have also gotten 2 of them from phone number 5(b) (6) All hours of the day and night. My Facebook notification settings are only during the day not at night. Please stop these people. My phone number is on the Do Not Call Registry list. Is there a Do Not Text Registry list as well. Concerned about sky rocketing data bills and the rise of companies using phone numbers for identity confirmation purpose proliferating identity theft.

Description

I was recently contacted by what I believed to be "Google" regarding my Gmail account. The email was Google@renewal_Notice.com. The message read "If you have been experiencing several irregularities on your mailbox, it is due for modification to better serve you. Your email credentials are outdated and require you to rectify this. Your mail access will be disabled and your attachments will be deleted due to this process." You are requested to follow the instructions above to avoid discontinuation of several documents."

This morning I was notified by several of my contacts that they received an email from my Gmail account with the subject heading "Urgent Please" and read "

I am sorry I could not inform you about my trip before, at the moment I'm in Limassol, Cyprus, I'm here for an international program. I just had my bag stolen from me with my cell phone and personal effects. I have been trying to sort things out with the necessary authorities, at this point I need some financial assistance from you.

Let me know if you can be of any help.

Thanks

Christina"

This happened at approximately 5:00 PM EST on 08/23/2016

All of my personal information was completely deleted and I am being advised that there is nothing that can be done to recover any lost data. Google did absolutely nothing to offer support in terms of reporting or restoring any of my lost files. They advised I only had a 1-2 hour window to report the incident to recover any deleted files. This has to be untrue as people who stand trial can have deleted items from months and years restored in order to be used in court cases. I would really love for someone to please contact me with how to correct this situation. It is a complete invasion of my personal information and I feel completely violated.

When I logged into my Gmail Account this morning it listed a Windows device in China as accessing my account information. There was also an email added to my account cdejesus03@MAIL.COM I am not familiar with that address and feel as though that is where all of my personal information was sent before they deleted it off of my Gmail. Please help.

Date: 8/24/2016 11:54:20 PM

City/State/Zip: Steelville, Missouri 65565

Company Complaining About: Hughes Net

Description

Unlike Transunion and Equifax, Experian neither encrypts data sent to them, have a security certificate, nor utilizes SSL technology. Experian commonly deals with sensitive customer personal information like social security numbers and date of birth.

I have already contacted Experian by phone on August 23rd, 2016, to inform them of the omission. However, since I doubt anything will come of it, I'm contacting multiple organizations to spread knowledge of their negligence.

With such security vulnerabilities, the risk of hacking and identity theft is much higher and compromises an individual's most sensitive of personal information. An organization that has access to such information should be held to a higher standard.

As large as a company as it is, neither ignorance nor insufficient funds should be an excuse. Choosing to be negligible with such highly sensitive information is the same as choosing to be negligible with the privilege of the handling of such.

Complaint Detail / Problem

Complaint Type: Customer Service Issues

Problem:

Extremely rude customer services and worse Internet service providers, doing harassment, abusing and sarcastic verbage, worse tone and verbage purposely to taunt/irritate me. So, that I call them and listen to their voices. I don' t like calling Comcast. They are getting, hacking in my electronic devices and on top of it unnecessary change my wifi network password and gateway password without my permission. I never gave permission to Comcast to get in my privacy. They are voilating my privacy and disturbing me to disturb me. I called the helpline at 08/26/2016 @ 7:30am. The representative was rude. She transferred the call to a person who was trying his level best to pass sarcastic comments and were extremely rude. Generated a complain CR624586356 his name was erin ... he was the second person on comcast today. He was extremely rude when I told him to transfer the call to his supervisor he hungup the phone call by saying that he is transferring the phone call to his supervisor. They are doing this because I have paid the bill in advance for this month billing cycle ranging from 23 august to 23/24 September 2016. I have 29/ month package . They were unnecessary hanging/prolonging my phone call over the helpline to keep me over the helpline. I will discontinue the Comcast services at the end of this month because of worse customer services of comcast. The representative to whom i talked at around 8: 30am she even removed/changed the comcast wifi username on my account without my permission. I didn't gave the permission to comcast to do that. Please i want my refund money back for this month or from today's date that is 08/26/2016

as i don't need comcast internet or any kind of services because of their worse and fraudulent activities on my account.

Desired Resolution / Outcome

Desired Resolution:

Other (requires explanation)

Desired Outcome:

Take a serious action against Comcast and penalize / charge them for extremely worse customer serviceskills. They even have been trying to do sexual harassment... many a times when I called before. Even are voilating my privacy act/ law. I never gave them the permission to get in any of my electronic devices or in my life and disturb my mental peace. Comcast employees don't respect bbb or fcc or ftc laws. I have done many complaints

Message to BBB

Please take an action against the company and investigate the issue and take necessary actions as per law.

Company Complaining About: AT&T

Description

my name is james terry. i live at (b) (6) new orleans, LA. i work at (b) (6) also in new orleans. i am contacting you because i believe someone is using what some call v2k in the city where i live, but especially around where i live ande where i work. i think i also know how this is done. first someone has to hack into the network of a computer in the target area. there are multiple ways this can be done. once in they can access cameras, microphones, and the speakers through the administrator which would allow access at a later time when needed, then on to the next house or business. while in the network, they make note of any ip address that belongs to an iphone and make note of it for tracking later. once they have the ip address, they can access any computer hacked before to send a signal through the speakers of that area where the targets iphone is while observing them on camera for reactions to what is said. now, i am not sure how a signal for an individual person to hear can be figured out. i hoped the nsa has more information on the subject than i do. there are only 2 repeaters in the downtown new orleans area for radio broadcasts. this includes digital ham radio. i think they must be using the repeaters to cover such a large area, or they have their own personal transmitter that is mobile. i have been harassed by these people for more than a year and a half now, and have filed an IC3 report with the FBI as well as a police report with the NOPD. i do not have a computer in my house and am sure that my network is monitored daily. i have made a copy of my routers history. as i said, this has been going on for so long and i really need help. there is not much i can do on my own. the constant threats to myself and everyone i know are starting to make me unstable. i become more and more paranoid as the threats become more and more violent. if someone could help with this investigation, i would appreciate it greatly. i would gladly allow my network to be observed. i would submit all of my journals from the past year for a better understanding of the threats and my own observations. also i have lists of all the other networks and iphones in the area that i believe have been hacked in the manner i wrote about before. i also believe that the 2 repeaters in the downtown new orleans area keep a log of what is transmitted digitally. PLEASE HELP. i would prefer it if i were contacted in person, as my i phone and network have become compromised. my phone number is (b) (6) if this is not possible. every day is torture, and i do not know how many other people this is being done to. the others may not be so fortunate to have the little understanding that i think i have. thank you for your time and consideration. my name is james terry.

Company Complaining About: Verizon

Description

I received a text message saying it was an account notice with a link containing the words Wells Fargo and security and other than the link it asked to review it as if it was a "case", I do not have an account of any sort with Wells Fargo Bank and the sender address is obviously fake and it didn't give an option to opt out of the text messages. I will attach screen shots of the text message and contact details.

Ticket: # 1163058 - Google One Account

Date: 8/26/2016 7:29:18 PM

City/State/Zip: Palm Springs, California 92262

Company Complaining About: Google

Description

MISSION: Permanently remove Google One Account from my google account.

I have an establish google account which would cause angst to change now. I had classic google--no chrome, no google one account. I acquired chrome and google one account probably through the osmosis of an upgrade. I hate chrome. I hate google one account. I uninstalled chrome, but cannot get rid of google one account. I have spent months trying to get rid of it. The google community was ineffective. I received a response that I would pay a fee to get technical help for something I never wanted. If the FCC still owns the internet, I would like the FCC to contact google for me. I want FREE technical service to get rid of an application I never intentionally download. I want google investigated for taking away my freedom to chose the 'classic' google. Its website ease of understanding how to move about the site is an insult.

Could not find an appropriate issue category so I a listing this under privacy, because google has stolen my privacy.

Ticket: # 1164347 - Fraud committed from Craigslist**Date:** 8/28/2016 8:55:04 AM**City/State/Zip:** Dallas, Texas 75228**Company Complaining About:** Craigslist

Description

We attempted to purchase a motorhome listed on Craigslist, after several email exchanges and receipt of contract we agreed to wire \$14,000 to an escrow account set by eBay, as recommended by Norma Wright the seller. The contract stated that seller paid for delivery and that we had 5 days after delivery to accept or return the motorhome. The motorhome was to arrive to our home on Friday Aug 25, between 3:30 and 6:30 pm, the delivery truck was to call a day ahead and 2 hours ahead of the time. There were no calls, there was no delivery. We tried to contact the owner at her email and phone

(b) (6), also called the eBay contact number 1-888-980-9641 and wrote them at the email account they used to send us the instructions and contract; eBay@cgi-purchase-protection.com. No one answered. Saturday morning we searched for a weekend/after hours eBay number to see if they could track our delivery, they didn't find our order by order number, name, or phone number. We were told at this time this was fraud, we have been victims of a scam and to report it to the Internet Crime Complaint Center and any other agencies. We reported it to ICCC, to our bank and are filling a police report.

As of today, Sunday August 28, 2016 the same motorhome we "purchase" and was never deliver continues to be listed on Craigslist. Others may fall for the scam again. Any help to stop this from happening to others is appreciated, we may never recovered the hard earned \$14,000, our retirement gift after 46 years of work in the electrical field and my wife's 40 years in the public library field.

Date: 8/28/2016 9:42:21 AM

City/State/Zip: Gulfport, Mississippi 39503

Company Complaining About: Centerpoint Energy (gas Company)

Description

If this is not the correct place to file this complaint, please let me know the right department. Thank you.

My online Centerpoint Energy account requires acceptance of their new privacy policy in order to pay my bill online. The new privacy policy requires that I give access to my mailing address to at least 65 online companies. I must opt out of each individual company in order to keep from getting targeted ads. Even then, Centerpoint Energy states that, "We are not responsible for effectiveness of, or compliance with, any third-parties' opt-out options or programs or the accuracy of their statements regarding their programs." I will not accept the new privacy policy, but now I will no longer be able to pay my bill online.

Additionally, the new privacy policy is presented in a small drop-down box with a scroll button on the side. I did not see a link to view the entire policy on a page; I had to copy and paste it into a document in order to read it. I doubt that many older people know how to read the entire privacy policy and most younger people won't have the patience to read it, especially if they are using a cell phone.

Description

Three times now I have received emails from TWC confirming another person's cable appt. They have another TWC customer's personal information in them - name, address, phone numbers, account number, order number, day and time of the cable appt, etc. I ignored the first email - assuming it was a mistake. After the second email, I called TWC and talked to a person in billing and explained that I was getting these emails and felt it was a privacy breach. She told me she couldn't tell why I would get the email since my email address and the email address on the other person's account were different. She assured me she would "pass this along" to the appropriate security/privacy people. Then I got a third email with the same individual's information in it. I again called TWC. This time the representative told me the reason I was getting this other person's emails is because my email is on their account. He said that when the work order for a cable appt is generated, the customer is the one who provides the email address. He said the only way I could be getting this other person's email is if the other person gave my email address when they were asked for an email address while setting up their cable appt. I told him that didn't make sense - why would someone give a false email address knowing it would mean their personal info would get emailed to someone else?? He told me I should change my email password. It seems ludicrous that someone would give someone else's email address as confirmation for a cable appt. It seems more likely that TWC has a computer problem and their computer somehow linked my email address with this other person's account, thus sending me their personal information. My concern is that if it can do that with these two accounts - how do we know it hasn't done this with many more accounts? Who are they emailing MY personal information to? The representative told me he was sure that wasn't the case, and that he would let his supervisor know of my concern. I wasn't satisfied that he was taking my concern seriously, so I thought I should report it to you.

Ticket: # 1164768 - Harassing texts from an Amazon Marketplace seller

Date: 8/28/2016 8:18:11 PM

City/State/Zip: Sacramento, California 95818

Company Complaining About: Virgin Mobile

Description

I ordered an item through Amazon using one of their Marketplace sellers. According to Amazon, the item should have arrived one week before the baby shower (2 weeks after I'd placed the order). Once the item was overdue, I contacted the seller via Amazon. We exchanged emails. I told them that based on the negative customer service, I was inclined to leave a negative review of their product. I was polite. Their emails were rude and condescending. I have shared those emails with Amazon today.

When an Amazon email reminded me yesterday to give feedback, I did. It was a simple review saying the item never arrived and their customer service was rude. Within a few minutes, I received a call from a number I did not recognize. I let it to go voicemail; it was a voice message from the Amazon Marketplace seller. Then this morning, I received a text from the seller. Our exchange ended with them saying "Fuck u" and called me a "dumb cunt." I did not respond to this message (or any since my last one to them at 12:10 pm) and contacted Amazon. Since that time, I have been contacted twice more by the seller and again called a cunt.

I have attached images of our entire text string. I asked them twice to stop contacting me before their messages calling me a cunt.

Ticket: # 1165404 - Spam from Hotels.com

Date: 8/29/2016 11:58:27 AM

City/State/Zip: Brooklyn, New York 11235

Company Complaining About: Outside Of The Usa

Description

Hotels.com sends spam.

I'm a member; I book hotels through hotels.com regularly. However, from time to time I use email address different from my membership address because that's my preference.

On the booking page I have an option, once logged in, to use my profile email or enter a new email address. It used to be that right under the email field there was an opt-in box. However, at some point the opt-in became an opt-out, meaning I had to check the box to opt-out from any future promotional messages from hotels.com

Recently, there was another change - the optin/optout box is gone. What does it mean for me? Well, despite my account preferences (no emails), as soon as I have used a different email address to receive my booking confirmation, I began to receive hotels.com promotional newsletter at that address.

I am sick and tired of this company bombarding me with their promotional emails and I'm sick and tired of unsubscribing from them. Their promotional emails are not solicited. They constantly try to trick me into receiving their newsletters.

Please, I implore you, send them a warning so that they curb their unsolicited emails and stick to sending promotional messages only to those who have actively opted in.

Thanks.

Description

Last night I received the attached spam text message from (b) (6). I thought it was a legitimate message saying that one of my friends was sharing a photo album with me. I downloaded the app on my phone and signed onto the service to view the album, then after a few button clicks, none of which made it clear that my friends would be spammed, I saw a message that thanked me for inviting my friends to use everalbum. What? I never requested that my friends be spammed like this. Since then I've been getting tons of questions from my friends, asking me what everalbum is and why I'm recommending it to them, which I never (at least knowingly) did. I checked on line and saw messages posted on various message boards complaining about the same unscrupulous tactics from everalbum. I have sent an email to the company complaining about this practice and letting them know that I was filing a complaint with the FCC. Please stop these unscrupulous practices from (b) (6). Thank you.

Description

Last night I received the attached spam text message from e(b) (6). I thought it was a legitimate message saying that one of my friends was sharing a photo album with me. I downloaded the app on my phone and signed onto the service to view the album, then after a few button clicks, none of which made it clear that my friends would be spammed, I saw a message that thanked me for inviting my friends to use everalbum. What? I never requested that my friends be spammed like this. Since then I've been getting tons of questions from my friends, asking me what everalbum is and why I'm recommending it to them, which I never (at least knowingly) did. I checked on line and saw messages posted on various message boards complaining about the same unscrupulous tactics from everalbum. I have sent an email to the company complaining about this practice and letting them know that I was filing a complaint with the FCC. Please stop these unscrupulous practices from w(b) (6) Thank you.

Description

Several weeks ago my next door neighbor added Comcast internet service. Comcast ran the line from a box located in their front yard, around through our side yard (60 yards on top of our grass), and then back into the neighbor's yard, connecting to back of our neighbors house. No one asked for our permission and none was given. Besides being unsightly, we have concerns of the line getting caught in our lawn mower or someone tripping and falling from the open line. Neither us or our neighbor wants the line running through our yard.

Company Complaining About: Everalbum

Description

I was contacted by Everalbum in a text message from (b) (6) on 8/29/16 saying that a friend of mine "just recommended you check out your photos on Everalbum. Link expires to tomorrow. <http://app.ever.pics/Uldk/sUyo1QUPew>"

This is someone who I thought had pictures posted of us that he had taken so I clicked on the link. You have to download their app, which I stupidly did. Now Everalbum has sent text messages to my personal friends & business clients, which they did not have permission to do.

After contacting my friend, who the original text was supposedly endorsed by, he said he did not use the service nor endorse it.

I searched for Everalbum on the internet and noticed several complaints about the company. This company now has access to ALL of my photos from my phone & Facebook. If I delete my account I'm not sure what will happen to my photos.

I also need to know who got a text saying I endorsed their app.

Please help!

City/State/Zip: Lafayette, Louisiana 70508

Company Complaining About: Katc News Station

Description

To whom it may concern,

I am contacting you in regards to KATC in Lafayette, Louisiana displaying incorrect and false information about my person. My name is attached to a publication reporting that I was arrested on 9/12/15 which is false information. I was booked into the Lafayette Parish Correctional facility on 9/11/15 to complete a mandatory 10 day sentence due to a plea agreement. The actual arrest date for this plea agreement was on 9/7/14. There was no arrest nor was there a new charge at any point in 2015. I walked into the facility on my own accord therefore there could not have been an arrest. This publication states that I was in fact arrested in 2015 which as I stated is false information. I have repeatedly asked the GM of the station to remove this false information and will not agreed to do so. I have provided the link to the publication and have also attached a signed document from the Lieutenant of the facility stating the fact that I did in fact walk into the facility on my own accord, which proves that was no actual arrest, and makes there publication false. All I am asking is that the false information be removed with my name attached to it. Tank you for your prompt action to resolve this matter.

Sincerely,

When I asked them to disable it, they informed me that they can do it only for equipment owned by them (but rented to me). I see at least two issues/concerns and I need FCC to look into it.

(1) Potential compromise to my privacy and safety through a feature that can be turned off by them (they have that feature in the same model of XFINITY branded equipment owned by them)

(2) Providing me with a service that I don't want, a feature that was deceptively placed without informing me upfront and that too for an equipment I own

This is my second complaint as AT&T still has not fixed my problem. I filed a complaint about a week ago and received an email from the FCC saying AT&T they were going to take care of the problem well it has been all lies!

I am on a very low fixed income and only have a government phone and thanks to AT&T they have wasted over 2 hours of my minutes on my phone and still cannot get into my email. Now for the 4th time I jumped throw the same hopes I have been all the other times and problem still not fixed!

I even left a message yesterday for Cassandra at the AT&T CEO office and she has not even given me the curtesy of a reply like she said she would. They did have a so called tech guy call me and all he did is the same things the others did so now AT&T has wasted over 2 hours of my minutes and time and still unable to get into my email account and other then losing my time and minutes I am not any closer. All AT&T does is down outright lie!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

I would like to know when my tax dollars are going to make sure this problem is taken care of??? I will not pay my bill as I am not getting what I am paying for!!!!!!!!!!!!!!!!!!!! THANKS to AT&T POOR SERVICE I DO NOT HAVE ANY MINUTES ON MY PHONE TILL NEXT MONTH!!!!!!!!!!!!!!!!!!!!!!!!!!!!

I contacted letgo after receiving a notice that my pellet gun I listed for sale was removed. They assured me that gun and gun like items were not allowed to be sold and offered me the hyperlink to their terms and conditions. I read the terms and conditions of items allowed/not allowed and thank them as well as ask them when they would be removing the rest of the items that fall under the category of not allowed. I then received an email stating to repost my pellet gun for sale that they allow pallet and BB guns and airsoft to be sold as well as clean unused bongs. I rechecked the terms and conditions after reposting my pellet gun for sale and it was allowed to be posted but the terms and conditions still stated that it should not be allowed. This is very scary for myself as a consumer because it leaves me worried that I am buying illegal or stolen property or being set up in an entrapment type deal. Until they make it very clear and follow their own guidelines I don't believe this website site should be allowed to operate. I am hoping that I sent you the correct pictures as I'm not able to view the exact ones that were attached. I sent a message to let go to remove my profile and have deleted the app from my phone. Description

On 8/30/16 I received a voicemail from "Zippo Technolog" 8 (b) (6) The message said that they had received error notifications from my computer and that it needed check up and updates. This was extremely upsetting to me since I use my computer on a daily basis. I was at work and could do nothing about it, causing me tension until I got home.

When I walked in the door I dialed the number and got "Tech Team". I was told that I was a customer of theirs. I insisted that I was not.

They told me that on 2/28/2012 they fixed my computer. I do remember over 4 years ago when I got my laptop, my communication was interrupted telling me I had a horrible virus and was in danger of losing my computer. I did let them get into my computer to "fix the problem" I have since found out through The Geek Squad that this is a hoax.

When I was on the phone with this man, I questioned him. He gave me the 2/28/12 date and still insisted that I was a customer. I asked him how my computer was giving him error signals. I told him I had 3 computers and asked him which one it was. He said it was in all 3 computers since I had Windows 10 on all and he could fix them all because they all have the same IP # which he also gave me as 192.168.1.1 He also wanted to verify my e-mail address which he gave me as joyceis@twcny.rr.com, which is true. He told me that my ID # with them is C3726.

I told him to take me out of his system. He insisted that he could not. Then I asked him for the name and address of his company: "Techopanda, (b) (6), Sterling, VA 20166. I then told him I already have internet protection. He told me he would update my file. I then told him I was going to report him to the FCC.

Thank you.

City/State/Zip: Sunnyside, New York 11104

Company Complaining About: Time Warner

Description

(b) (6) company is sending me spam. I never shared my email address with them (you can see that my email address is tagged with eBay, meaning I shared my address with eBay, and not (b) (6)). I also never gave (b) (6) permission to send me unsolicited emails.

When I try to unsubscribe from their mailing list using the unsubscribe link provided at the bottom of the email, it does not allow me to complete the unsubscribe process. Clicking on the link only gives me an error. I never get a confirmation/acknowledgement that my unsubscribe request has been received.

Company Complaining About: Comcast

Description

I recently came across a webpage that claimed to allow you to opt out of behavioral advertising. I don't know if this is a legitimate service or not, but it said that after opting out, you could opt back in by deleting your browser cookies. Deleting cookies is something that people routinely do to avoid being tracked this way in the first place, so it doesn't seem realistic to set things up this way. After deleting cookies you will automatically be opted back in. I've attached a screenshot and this is the webpage address:

Ticket: # 1172892 - No Divorce for AT&T email customers

Date: 9/1/2016 3:16:21 PM

City/State/Zip: La Crescenta, California 91214

Company Complaining About: AT&T

Description

Married AT&T email customers cannot, upon divorcing, extricate each other's email accounts and email addresses. This results in data loss, and for those who use their email addresses for business purposes, income loss, loss of business contacts, and other liabilities.

AT&T maintains that it is impossible to unlink a subaccount. If the party once named on the account dissociates themselves from the account and opens a new one, they still can maintain their email address, but it is still linked to the email address of the ex-spouse. Clearing that ex-spouse's address is possible through deletion, but even though the subaccount is cleared (deleted), the ex-spouse's email address is still (invisibly) linked to the address of the former named account holder. Neither AT&T, nor the named account holder, can fully unlink the ex-spouse's email and transfer it to their account, along with their emails and contacts.

Ticket: # 1174707 - Hacking of her computer and her cell phone.

Date: 9/2/2016 2:20:30 PM

City/State/Zip: Spokane, Washington 99203

Company Complaining About: Comcast

Description

The consumer has both cable and cell phone issues with someone interfering with the way that they function. She has Comcast for bundled services. On Monday, August 22nd, her computer began having some issues where it would not let her retrieve her e-mail, but she was able to get on-line. She was able to use the computer by doing a work-around, from the 22nd till the 1st. On 9/1/16 her computer shut down completely. She took the computer to be repaired/cleaned. That technician made the statement that there was someone who had gotten access to her computer. He stated that the person would have needed to be within 300 feet of her computer.

Today, September 2nd, the consumer found that she is not able to retrieve old voicemail messages from her cell phone. The option that is usually there for that purpose, was not even offered to her today. The consumer has spoken to Verizon Wireless. While on the call, the specific concern was not able to be re-created.

The consumer has contacted the FBI on this situation. The FBI referred the consumer to the FCC to file a complaint. The consumer feels that these issues may have been caused by a neighbor.

The consumer would like for her service providers to prevent this type of thing from happening in the future. Thank you. (phone - CAMS 29)

Description

My 10-year-old created a Musical.ly account without our consent and now her full name, along with other children's full names, and other very inappropriate content is available publicly on the Internet. Their website and user agreement rules state users must be over 13. There is even an email address for privacy issues related to minors. However, I have emailed multiple times and have not gotten a response. This is a serious safety concern because the accounts cannot be deleted by users. I filed a complaint previously, but the FCC asked Sprint to address the concern, and they are not the appropriate company to respond. Musical.ly is an app and website and they are the ones who need to delete the account.

Ticket: # 1176322 - Facebook discriminatory "Authentic Name Policy"

Date: 9/3/2016 10:29:58 PM

City/State/Zip: Blountstown, Florida 32424

Company Complaining About: Fairpoint

Description

My account has been shut down since March of this year for allegedly violating Facebook's "Authentic Name Policy". I use the first letter of my last name in my profile and account instead of using my full name. The reason for this is because I am in law enforcement and deal with many people that have no problem searching for information about me and my family. This prevents them from locating me or my family easily, and my friends and family know its me by my profile picture and status updates. I discovered that Facebook has disabled Homosexuals that have pseudonyms for the same reason, as well as Native American individuals with unique names that Facebook deems fake, as well as domestic violence victims and others trying to remain private on Facebook for fear of being located. This policy is outright discriminatory and needs to be dealt with. They ask for government documents to verify your name, but if you are using a pseudonym that is pointless. If you present the documents, they change your name to what is on the documents. In my case, its putting me and my family in danger. Please do something about this. I am not the only one affected, many people have the same issue.

Description

Several web sites have my name, location, age and personal information that I did not ever permit. I realize upon emailing one, I'm giving my personal email too. The sites are 411.com, whitepages.com, freepeopledirectory.com, familysearch.org, onerep.com, radaris.com, switchboard.com, peoplebyname.com, etc.

A year or two ago, my name and previous addresses, age were not out there. I saw one page that had my name so I asked them to take it down. I feel like they possibly did but then informed all these other sites.

I'm pretty sure many other people would not like their info out there. These sites should be informed to take all info down unless they have written with signature proof that it's ok by people who do not mind.

The infection detected indicated some recent downloads on the computer which in turn has created problems on the computer. Call Technical Support +1-844-811-0601 and share this code B2957E to the Agent to Fix this. Don't restart your computer." This is verbatim from the screen of my monitor. I called the number and shared the code with a male answering and he immediately began a sales pitch to have me "hire" his service to fix my computer. He asked for my e-mail address and my birthdate. I balked at this and asked what my birthdate had to do with the problem. He called me an a--h--- and said he needed information to bill me for the repair service. I advised him that I did not want his service and he called an a--h--- again. I repeated three times that I did not want his service nor would I pay him for anything. He responded by calling me an a--h--- three more times and then changed by calling me a f(f bomb) at least twice and I guess he was not too happy when I began laughing at him. He exploded and I disconnected from him. I sent a complaint e-mail to Windows and they advised me to contact your office. Hence my e-mail today.

Ticket: # 1179502 - Unauthorized deletion of emails by Optimum from my Optimum email account

Date: 9/6/2016 10:38:32 PM

City/State/Zip: Port Washington, New York 11050

Company Complaining About: Optimum

Description

I am writing to the FCC to request assistance with personal emails that were permanently deleted by my internet and email provider, Optimum.

The company publishes a schedule of retention time for messages, which states that messages in Personal Folders are retained indefinitely. Accordingly, I set up nine Personal Folders to retain messages that I needed to keep.

On the morning of August 26th, I checked my Optimum email page via my PC, and all nine folders were there. Later that afternoon, I again logged into my email page via my PC, and two of the folders, one entitled "Follow-up" and one entitled "Condo" were missing.

I immediately called Optimum and my call was routed to a representative. I explained the problem, and after being put on hold for a few minutes, the representative returned to the line and told me that these folders had been POP'd from my account. When I asked what this meant, he told me that Optimum had received a request to delete the folders. When I then asked who had made this request, he told me that he could not release that information due to privacy concerns. I stated that I could not understand this statement, since it is my account that was affected, and that I felt I had a right to this information. The representative told me not to get upset, as he was reasonably confident that they would be able to retrieve the folders, and he said that someone would call me back within 72 hours.

On the evening of August 28th, I received a call from a different Optimum representative. He told me that the missing folders could not be retrieved. When I explained what the previous representative told me and again asked who directed that the folders be POP'd, he said that he did not understand why the previous representative would have said that, because there was only "code" that directed the deletion, and that there was no way to tell who was involved. I said that I was not satisfied with this explanation, and that I was entitled to know who or what had caused the deletion. He said that "this happens all the time" and that it is caused by an action through another device such as a smart phone or tablet giving the command. I told him that the only other device I owned was a Barnes and Noble Nook, and the only thing I can do on the Nook is read the emails that are in my Optimum inbox. I cannot see my Personal Folders on the Nook, and I cannot delete emails from the Optimum server on my Nook. Additionally, emails that I send from my Nook do not appear in my Optimum Sent Folder.

This is consistent with how Barnes and Noble explains on its Nook information website how the Nook handles email:

“Your NOOK Tablet or NOOK Color lets you send and receive email from one or more of your email accounts, such as your Gmail account, your Yahoo! account, or your email account for work.... Your NOOK Email Inbox retrieves the 25 most recent messages from each email account linked to your NOOK....POP is an older (outdated in many people's opinion) method of accessing your e-mail. When you use POP you are basically just downloading your e-mail off the server and directly to the device. With POP you can only access your Inbox folder....POP works much like an old point to point phone connection in that you ask for mail to be delivered to you from a server and the server sends it to you. Generally speaking, a copy of that mail remains on the server until you sign on and delete it from your PC.”

The representative then told me that perhaps the first representative I spoke to did not understand the nature of the problem. He said that if I had inadvertently deleted the Personal Folders, they would remain on the Optimum server for two weeks. He said he would escalate the issue and get back to me.

On the morning of August 29th, I received a call from still another Optimum representative, who told me that the missing Personal Folders could not be found. We rehashed what was discussed in the previous two conversations, and I told this representative that I wanted to file a complaint, and asked for the name of the company's Federal regulator. He replied that he would first like to re-escalate the issue to a more senior level, and that someone would get back to me shortly.

On the afternoon of August 31st, I received a call from yet another Optimum representative, who told me that the missing Personal Folders definitely could not be recovered. I asked again who was responsible for directing the deletion, he repeated that he only had “code” to look at which did not identify the party, and he again blamed it by saying that the emails had been POP'd from another one of my devices. I then went through the Nook issue all over again, and how it could not have been done by the Nook due to the way the Nook interfaces with the Optimum server. He then blamed it on my Outlook email account. I then explained to him that I do not use Outlook for email. There was no response to this, and I terminated the call.

I relied upon Optimum's stated policy that emails in my Personal Folders would be retained indefinitely, or at least until I directly deleted them from the Optimum server via my PC, and I believe that Optimum has an obligation to employ reasonable diligence to see to it that this is actually the case. I also believe that Optimum should be required to give me a reasonable explanation as to who or what caused the Personal folders to be deleted. Since I cannot get this explanation from Optimum, I am requesting the assistance of the FCC.

Thank you.

There have been 4 police reports, 3 computer specialists, 2 new computer systems and 4 cell phones purchased in attempt to resolve my compromised AT&T u-verse and mobile account. Hackers have been streaming off of my system and placed double splitters in my attic. AT&T phone lines (from the box on side of my house) were connected to the computer/tv systems. These systems have been recording me in my own home for months. I just became aware of this July 26, 2016. Comcast has since removed the splitters and verified AT&T lines were not able to provide me additional service, with my 1 cable line and no land phones. Movies, games and music has been purchased on these devices. Identity theft has occurred due to no security on my computer systems or in my own home. Federal aid has been fraudulently accessed and used through the use of my personal information obtained from my compromised computer system and phone lines (which I never had put in nor used with AT&T in the past 6 years I've lived in my home). Bank accounts, University of Mississippi Medical Center account, Credit Card accounts, email accounts, Federal Aid accounts and US Postal Accounts have all been hacked and compromised. I would greatly appreciate your assistance in resolving this matter. AT & T has refused to resolve or acknowledge, despite unauthorized in-store and customer service line changes to my account on multiple occasions and interfering with the return of AT&T modems in UPS. I have receipts with the names of 2 AT&T employees who made these changes (from the receipts I obtained yesterday) and can provide to you. I greatly appreciate your assistance in resolving this matter. It has gone on for 6 weeks straight with no resolution from AT&T.

Thank You,

Company Complaining About: Verizon

Description

I have been receiving vulgar emails and desire to delete the Hotmail account which dumps numerous vulgar emails into my box daily. I attempted to remove the account following instructions from the internet but the Hotmail account can not be deleted. I asked to have it deleted and have been told after waiting 30 days it shall cost me \$98.00 to remove this free email account. I do not use this account due to the vulgar emails I receive daily.

I desired to have the account removed and was told 30 days ago no problem and now am being charged to do so why. It was a free email account I do not desire to pay for something that was not informed of until I now desire to delete.

Please add this email address to your list of spam as it is apparently an unmonitored account that is out of control without a human overseeing it. It sends me unwanted, irrelevant mail as much as several times per day. I have replied to the email asking to be removed, and gone to their web site and filled in their contact form requesting removal. Nothing I have done over the past 6 months has gotten the spam to stop, I haven't even gotten a reply. This may be a government address but it is clearly automated and not being monitored by a human, and has no way to unsubscribe. Please make this spam stop!

Company Complaining About: Comcast

Description

I am registering a complaint with your agency because I was hacked by a Dallas Texas peace officer that apparently have accessed either the Nationwide DPS tracking system and/or the Police highlighter system or possibly have illegal software in his possession that is allowing him the capability to harass, stalk, spoof and caller id, etc. The officer's name is (b) (6) I refused to marry this guy on several occasions between 2005 and 2007. He asked me to marry him again a month prior to hacking my laptop. In addition, I saw this individual on his webcam two times during me accessing my social media accounts. On the day of hacking (6/17/2016) he and I spoke over the phone and it was like he had an adrenalin rush or junkie fix. He was excited about what he had done and kept stating that "I am a man... I'M A MAN!... I'm your man... I bet you didn't know that your man could do this." Equally so, it is my understanding that Mr. Richardson have experienced a few of life's storms within the past year and a half and he has taken a vengeance toward the hand (myself) that has hoped him and his family, bought groceries for them and fed him when he was hungry. Needless to say, I had no idea that this guy was willing to risk his educational degrees acquired, license and future behind obsession and lust. Equally so, I was totally unaware that he had been reading my emails, revising my resumes, activating my camera and webcams on both my phone and computer. He also has been intercepting my employment opportunities in order to force me to move to Dallas. In his sick mind, he felt that he could force me to move there and that I would live in his house with him in sin... Not happening! Furthermore, the last place I would move to appease his ego would be in Dallas. He really does not get it... I REFUSE TO MARRY HIM. I must admit that I DO NOT feel safe at all. My family and I are highly concerned and as a result I have not returned back to the place in which I reside because I don't want to put others lives in danger with this sick minded individual on the loose. After all he is licensed and crazy and besides this I am not going to let him kill me due to his obsession. He stalks(cyber) me constantly and knows every place, location, time frame, etc. in which I will be there. He have deleted some of my social media friends and accounts. His seizure through my Microsoft Operating System software has allowed him to fully compromise me in every regards. He knows my social security number, D.O.B., etc. Richardson refuses to allow me to use my own computer. Now he's working on trying to hack into my IPAD. He will NOT STOP! Also, this individual is constantly manipulating websites, pages, and databases. He refuses to stop breaking the law in every regard. Sadly, he's also a pastor of a church named Abundant Life Cathedral of Praise Church- PCG organization within the Dallas, TX area. Equally so, he is quiet unstable in every regard. He also has a dark side and his passion is geared towards pornography- other reasons why I declined his proposals. More so, he's considered to be an "opportunist" awaiting "opportunities" to take advantage of others. It is also my belief that he maybe linked to the Chase Bank breach because Allen is a professional hacker and was registered with the Dallas Professional Hackers Association- Account now showing deleted. Furthermore, Richardson's son (eldest) was arrested and charged through the Federal Court systems for impersonating a lawyer and the son admitted during the judges questioning that he taught his dad how to professionally hack accounts. Needless to say his son is serving time today for his criminal actions- see The Dallas Morning News article dated 10/27/2016. Richardson lies often and does not like to work because of his child support concerns. Allen father's several sets of illegitimate children-

-another reason I declined his proposal. Although he is highly educated, he lacks maturity. To him this may have been a joke, but to me it is highly degrading, totally disrespectful, and his actions are of a criminally sick minded individual. Know that I am at your mercy and in need of your assistance with your services as it relates to his criminal behaviors.

Also, note that Richardson has been using a headset to access and hack my accounts and listen to my phone conversations. He is using a cable network for firing and aiding his access to my electronic devices. Prior his email account was Bishop.adr@comcast.com and has had account fired by Xfinity... Bishop.adr@xfinity.com. Know that due to his constant interception and interferences with my uploading of documents, I have texts, photo shots of evidence, and other supporting documentation to further support this claim.

Should you develop any concerns, please feel free to communicate them either via email at (b) (6) or via phones at (b) (6) or perhaps via mail at (b) (6), Houston, TX 77030.

Thanks for your assistance with this matter. Have a wonderful day!

Description

I have received several calls from a phone number is Austin, Texas ((b) (6)). They claimed to be Tech World America and they had received error reports from my computer and that I was being hacked by foreign IP Addresses. When I questioned the gentlemen about who they were they said they were contracted by Apple and Windows to fix th errors in my computer and asked me to go to my computer and he gave me several commands so I could view the errors. Then he said I needed to give him access to my computer I told him NO. At this point he became very belligerent and asked what he had to do to make me believe him. I told him that I would call Tech support America myself and he began screaming at me that I was an up trustingly person and he was going to hack my computer. I told him that I was trusting but not stupid and I did not want to continue the conversation and he proceeded to scream into the phone that he would hack my computer and then he would come to my house and kill me. Then he kept screaming (by the way In Indian dialect) that he would find me and kill me. I told him to never call back and blocked the number on my phone. This gentlemen was very unprofessional but ver convincing that my computer was at risk and they were the only one that could fix it. This was extremely disturbing to me and I would appreciate you investigating this company for me. I am not sure what other action to take please advise. During the whole conversation he kept telling me that I was protected by FCC regulations.

Description

Local Ohio Valley news station WTRF, reposted pictures from the City of East Liverpool Facebook page of a 4year old boy who was found by police in a car with his parents who had overdosed. The child's face was not blurred and easily recognizable. The pictures came from the police report at the scene of the crime. The images were reposted by embedded in the news article on WTRF's Facebook page around 7:00 pm on 9/8/16. Within an hour there were over 400 comments on the article. Upon seeing this I immediately sent a message to WTRF's Facebook page asking them to remove the images or blur the child's face. They responded that they had only reposted them from the city's website.

Ticket: # 1184462 - deceptive marketing and illegal use of SSN

Date: 9/9/2016 12:05:40 AM

City/State/Zip: Austin, Texas 78717

Company Complaining About: AT&T

Description

In order to ask about technical issue, I had phone call with AT&T representative on Aug. 27. After AT&T customer representative checked on a call that I have DSL internet service with AT&T, she transferred me to somewhere. So I asked why and where I am transferred to, she looked up my account and said that she was in sales and that DSL was going to discontinue. She told me to move to Uverse. Then I asked her when DSL was going to discontinue multiple times but she never answered. Instead, she told me to apply for Uverse before my DSL was discontinued because it would require all new setup and installation with fee if I moves to Uverse after my DSL is discontinued.

I asked service fee of Uverse and found DSL is more expensive than the fee I pay for DSL. Because Uverse is more expensive, I didn't want to stop DSL and move to Uverse. Because she said it would cost more if I move to Uverse after DSL discontinues, I let her start applying for uverse but made sure I don't complete applying and start the service until I make decision in Oct.

Later I called AT&T to ask when DSL was going to discontinue. The representative said she cannot tell. It's weird why the representative couldn't say when it would discontinue if the discontinue is determined.

Without the determination, the previous representative in sales lied to me and I was forced to move to Uverse. This is deceptive marketing.

A few weeks later(Sep. 3rd) I received a letter AT&T pulled my credit score as of Aug. 27th. I never have authorized AT&T to pull my credit score for Uverse. I never provided my SSN over the phone. I was never asked if AT&T can pull my credit score for uverse.

This is illegal use of customer's private information. The their illegal use/inquiry derogate my credit score.

At this point I am at a loss. I have received 3 offers in the mail after asking them to stop. I am not going to call this company. The last time I talked to them I got the run around. I will be filing an Attorney General complaint and have discussed getting records from the company with an attorney. I don't know the laws but I'm sure offering a product to a customer and saying it was never said is a crime. I'm sure their calls are recorded. I am also certain they are not allowed to send mail when asked not to...but they probably do not have those records either. Stop sending me mail. Maybe you will do it when the Attorney General comes knocking.

Description

I filed a complaint about my cable internet provider turning off my service and then using the pretext of an outage to gain access to my home. The matter was not addressed and I have to assume that it is being blown off as a my word against the techs of TWC. Knowing that might be the possibility I informed them that I was going to record our interaction. So unless your response to me is that you don't really address your issue then I would like a response. If this is not addressed then those involved can be assured they can do it over and over without consequence.

Description

My macbook got hacked and locked by site that replicated google. I immediately called number on site (6pm on 9-9-16). Foreign sounding person connected me with a "Level 5 technician" who told me my digital dress was taken and then who I allowed access to my computer and then my iMac as well (my stupidity), Got on supposedly cleaned all unknown - addresses - told me my firewall expired (found they unlocked it on both machines). The charge for a two year contract with monthly service \$499.99 - would not take a credit card (should have known). Did docuSign a document that gave last 4 digits of my bank account for \$499 (contacted my bank next morning and made them aware). Tried to access their website and found a domain on godly which was set up a few months ago. I feel you should be aware of this (I am a retired senior) and I believe they will be doing this to others - they go under the name AVGNetworkSolutions, - telephone number 888-551-0075 - address they wanted check sent to (did not send) is AVG Network Solutions, (b) (6), Dallas, TX 75240. Did a reverse address lookup - satellite shows apt complex and no name attached to it. Looked up tele number and no name shows... no company. Still frightened about this attack and my stupidity. Changed passwords - thinking of doing it again.

I think it upset the criminals doing this. Now I'm getting tons of these similar emails. typical "Sent From" addresses are like the following (which are accurate). I think if just one of these was traced, it would stop all of them. There isn't an option to unsubscribe...these are very maliciously sent and are clearly an attack on my privacy.

Company Complaining About: Frontier Communications

Description

Misleading information on internet speed/technical aspects of installation, lack of records/documentation, disrespect for client/customer, safety to family and neighbors.

First, they did not install on the agreed date. Then they install but left a line going through the back of my house as well as through the property of two neighbors. I have called 6 times, of which on 4 occasions I have been told that they will bury this line. This started on July 28 and we are on September 10. There is a least a ~2 year old kid that plays in one of these houses. In addition, there is inconvenience to my neighbors when moving/cleaning their backyards. Frontiers acts like no big deal. Every time I call ask for documentation of my calls - they say it is being documented to the next time being told that there is no record of you sir calling Frontier. That could be documented through my phone records.

The other issue is that they told me that Time Warner speed was not as fast as disclosed that that theirs (the one they offered me) was similar - was provided an explanation that TW splits the speed with the neighbors but Frontier is good. I kept TW for a few days and match both companies - TW is 5-10 faster (a little more expensive too) - they lied to me.

It is beyond me that Frontier Communications can get away with this

Company Complaining About: Google Fiber

Description

Hello Sir/Madam:

Four weeks ago Mr. (b) (6) from Mastec, Google Fiber's subcontractor for fiber drops came to my home to inspect Google's fiber drop his firm installed. I complained my emails, all devices and texts were being hacked via hard line, Wi-fi or other in real time. An ATT fiber cable had being laying on our lawn for 4 years now. (b) highly knowledgeable said their original line was over 2 feet deep in conduit. I concurred saying I was here when it was laid using heavy trenching machine w/4 foot diameter signing blade. I switched to Google early 3/2016 canceling and mailing ATT boxes back via UPS. He showed me Google's fiber line w/3 tracer wires bundled together entering my basement. My business ID, EIN # and my SS has been stolen more than five years ago. Well over \$1million stolen from my biz bank account from a former manager I fired 2/13/15. I have intensely investigated this matter for over 100 days. The alleged criminals are using illegal means to delete emails and keystroke hack my written words. I have changed phone numbers four times this year, SIM cards and wiped hard drives clean it persists. You must act. I wish I was making this up . Called Google fiber this evening for the 10th time. Tech will arrive 13th. I want a local FCC person here to see first hand. I want the easedropped tracked and caught. I have a 9 and 10 year old daughters and my wife is a 7th grade teacher . Sensitive data is being sent to parents. I have data sent to employers my business is closed and my resume/bio is not reaching employers. We are late on all bills and have no help other than parents. The IRS has helped tremendously however. I have told them in person ho much they are owed from the thieves from back taxes. Also Comptroller of Texas is very interested in back taxes owed. I have pleaded with them for over 5 years

Ticket: # 1189156 - Internet preventing from usage of services**Date:** 9/11/2016 10:46:37 AM**City/State/Zip:** Miami, Florida 33150**Company Complaining About:** MetroPCS

Description

This morning I uploaded the App of Uber on my android Samsung phone. I legitimately enter the required information that was needed to have this services accessible to me. I observed that they were two driver's on the GPS map ready to arrived on the residential location I input. The duration time display less than four minutes. As I kept monitoring when the driver would arrived , I notice under two minutes both vehicle turn away. I also review a black bar flashing stating, that my debit card wasn't valid. First of all, I then went to verified my debit card and of course it stated a positive balance. This is insulting to my character, I'm not my sister's . I'm tired of being set up like a hooker, a theft of petty cash, or a book thief. I don't steal and I have never been a hooker. I'm a devout catholic and was married at (b) (6) School, the parochial school I attended for over 8 years of my life. it is the church I received all my sacraments. Regardless, no government entity has the rights to stop the transportation that I choose. I work hard for my minimum wages legal paycheck. I'm not snowden, and that is insulting to my character. I'm fed up with having my character vilify. I'm sick of this " madmen" monitoring my every move. this " madmen" is afraid of me living on my own or owning a car. I'm fed up with being stalk . I'm legally separated, and I have the rights like Beyoncé or Katie Perry, or tennis sister's Venus to choose a driver that I desire. I have proof and evidence that will show that my card is valid. I also have proof that the technology of UBER display two SUV's were within the vicinity of (b) (6). I will continue to use the services of UBER because it is my liberties choices. I'm tired of having the privacy of my life invaded. Also when I conducted the reports to IC3, I notice that my words were being mixed up intently. It was like a hacker was prevented me to show that I have great clarity. So, I'm typing the alphabets on the keyboard different letters froming words, I intereferring with what I'm attempting to report. Then it's consider a nuisances tactic, and synchronize with preventing to get UBER services. I was forced to be late for work, even though I uploaded the APP of UBER 45 minutes before 9 am. I'm a dark skin woman who has been illegally stalk by DCF who made some false allegations to remove my children. I file for a restraining order against (b) (6) on October 23, in a family court. Under 24 hours a shady woman African American of (b) (6) took my kids away from me. I never had problems with substance abuses or drugs. For over 18 months, I have been face with death threats, and MetroPc blocking me from attending Gov't webinar's or conferences. I believed a few individuals are afraid of me establishing , factual evidence that I don't do drugs, or get drunk. I'm afraid for my life that a specific hoodlum keeps finding a way to hack into my METROPC phone. He tries to start up a conversation like I know him and I don't. he keeps monitoring my exit and entrance of 410 NW 81 street. every time my phone is on this thug is monitoring me. I was forced to take a cab and guess who pops up monitoring the cab number that I'm in. I don't want a cab driver, I preferred an UBER driver. I don't trust a few of these cab driver's, one of them confuse me with a real hooker who lives on the other side of the block. I'm not that person. I have been working in the same job right after high-school. I grew up in a home with both Caribbean parent's who provided me with strict discipline. it's insulting to my family and elder's who have witnessed me being raise into a proper young woman.

Date: 9/11/2016 12:36:28 PM

City/State/Zip: Fleming Island, Florida 32203

Company Complaining About: Magicjack (voice Over Ip Phone)

Description

Our account has been setup under someone else's account without that person's knowledge or our permission.

Aug. 22, 2016 - Call was made to activate a MagicJack device given to us by a family acquaintance. Customer service rep said that they cannot transfer that to our own account because it was registered under someone else. but for additional \$10, they will send us the latest model (with a free Power bank) and that we will also have our own personal account when we activate the device. So instead of paying \$37.73 we will pay \$48.46. So I decided to take the deal. In order to take advantage of the promo we will have to give them our credit card but use our acquaintance's account for the transaction. They did not ask our acquaintance for permission to do this. I repeatedly asked the question if our credit card will not be tied to his account and they said after the transaction they will remove it as long as I give them permission to which I did. I also repeatedly checked that we will be getting our own personal account if we decided to go ahead with the purchase. The customer rep said that as long as we use our own email account to activate it . I was not able to take the customer rep's name but I was given the following transaction id

Aug. 27, 2016 - I received the new devices. I activated the device following the instructions online. I used my own personal email to register. I got an error saying it was already setup. So I requested the password and I got a password sent to me via email. After I logged on, my device was successfully activated but when I checked my account. I noticed that we were set up under our acquaintance's account. I also noticed that my credit card was still registered in the account which meant that he could have logged on and ordered services using our credit card! I tried to call customer service # given to me but it was already outside office hours). Aug. 30, 2016 - I was able to reach a customer service rep and told him about our issue. He said that they cannot resolve the issue because I should have registered with a different email address. I informed him that I used our own personal email because we do not know our acquaintance's email address. He said we should have used a different email. I asked them again how come our email address was registered without our permission and also our credit card was still under his account. I told him to immediately removed it. He told me that they cannot do that as well because they are not authorized to do that and I will have to do that myself. I repeatedly asked for a supervisor or manager but he told me that they do not have one during those office hours. He was also not able to explain to me why our email address was registered under someone else. He said they do not have the capability of setting us our own account. I told him to transfer me to someone else but he said he cannot do that also. I will have to drop the call and dial again. After I expressed my frustration about how to remove my credit card, he then walked me thru on how to do it and I was able to remove the credit card on file.

Aug. 31, 2016 - I called again and a customer rep answered. I told her about our situation and she said that it's not possible for us to have our own personal account. I also informed her about our credit card being registered there and she told me that she can remove it for me. I told her that how come the previous customer rep told me that I had to do that myself? She was not able to answer. However, she told me that the person who sold me my MagicJack device must have pre-registered

my email under our acquaintance's without me being aware of it. She gave me an email to contact customerservicemgr@magicjack.com and instructed me to give them the details and also how I was promised that we will have our own account if we purchased.

Sent email inquiry. Sep. 11, 2016 - Still no response from customerservicemgr. Sent a 2nd email still no response.

2: 2 VEs signed the answer paper and watched in VE room.

WA2O/JF7ELG Mr. Kowata

AH6MC/7N1QMC Mr. Oishi (he took examination paper into VE room on the day)

3: This VE told a lie for observing in VE room and he signed. He threated Mr. Shinozaki.

NY8A/JG1ITH Mr. Kanoh (He works for Japanese ham radio teacher company.)

4: This VE had been less likely to participate for cheating.

AD5RW/JA1WTO Mr. Yoshihara (He stayed in a booth as "a radio program director.")

5: This person was threated by Mr. Kanoh.

JM1CZS Mr. Shinozaki who was in charge of Ibaraki Net Booth. (should be more persons)

6: Time line of the day

(1) Actions such as each VE with the examination cancellation

Cancellation announced due to no examinee including walk in on the morning of 06/21/15.

The VE team dismissed by this reason.

- VE Mr. Ebisawa went to Lunch

- VE Mr. Kobayashi went the concert

- VE Mr. Sone went to the concert

- Mr. Shinozaki went the concert

4 VE team left the booth of VE to the concert.

The concert was "a mini-live of Miss Maiko Watanabe (JJ0SDQ)",

The VE test started 13:00 and the same time for the concert door opened. (cf. attached file)

What was more likely to stay in the room which should become the examination room in this conditions

AH6KY/JA1MFR Mr. Shimizu

AH6MC/7N1QMC Mr. Oishi (I carry examination questions to the meeting place on the day)

NY8A /JG1ITH Mr. Kanoh

WA2O/JF7ELG Kowata

4 VEs cheated on examination with the examinee.

(2) Action of the associated group

One VE left the booth without Mr. Shinozaki's permission.

The possibility that one person participated illegally was very likely to be Mr. Kowata.

If Mr. Oishi was based on being "examination questions carrier", as examination enforcement.

If the responsibility was based on it being natural that Mr. Oishi took in charge.

It was the most natural to think, "Mr. Kowata left the booth without permission".

The unnaturalness that Mr. Shimizu of the question creator did not make the storage until the paper transportation and an examination start remains.

(3) Relationship between Ibaraki-net and the examinee.

JN1LIB Mr. Atsushi Saito of the examinee was a member of this net".

Naturally he knew Mr. Shinozaki, Mr. Shimizu well.

So that Mr. Shinozaki said

"The possibility that Mr. Shimizu leaked out the VE test that making himself to Mr. Saito on the previous night party".

(for testimony of Shinozaki, "the eve absence of Shimizu" was not specified.

Absence of Mr. Saito was a guess from what was written.)

7: It was the imagination of the trick for the cause in the fact that I knew.

While Mr. Ebisawa, Mr. Kobayashi, Mr. Sone, Mr. Shinozaki were absent, Mr. Shimizu invited Mr. Saito to the examination room,

He started an examination in secret.

Shimizu sounded out Mr. Kowata, Mr. Oishi, Mr. Kanoh and secured more than 3VEs name necessary for examination enforcement.

As a result, because there were 4 VEs, the examination was established at the point of "more than 3 VEs attendance was necessary".

The trick tampers with an answer sheet (it is unlikely if based on being found out by handwriting analysis),

Or it was either leak (Mr. Shimizu went) by the issue of questions of the day on the previous night.

8: The record of the FCC web site

ex.AH2ED Mr. Atsushi Saito (6/29/2015 issued and 8/27/2015 erased)

NY8A JG1ITH Mr. Kanoh performed this procedure by Web page.

When this record remains in the FCC, will be easy to do correspondence if it has kept.

<http://wireless2.fcc.gov/UIsApp/UIsSearch/licenseAdminSum.jsp?licKey=3714405>

AH2ED became invalid for the FCC call. (I attached an image)

If the person in charge of the FCC sees it with a manager mode, It should know who crossed it.

If who registers and understands who deleted it, FCC should ask an expurgator about "a reason of the deletion".

When the FCC at the time of the unjust VE examination in past Puerto Rico,

"It stops all Japanese VE qualifications unless they clarify" "why did you cancel it?"

The FCC may conduct action of penalties for them. Then it is very fine.

After having been clarified, It is eliminated the person concerned strictly (as for the life deprivation of the VE qualification of VE concerned with illegally.

A reaccessions impossibility makes it ideal with FCC license deprivation throughout the life,

Other Good VE should reopen a qualification in Japan.

It has come to my attention that Comcast (and other ISPs) are tracking their customer's Web history, search activity and other valuable behavioral data that can be used for advertising purposes.

Since broadband is now classified as a utility I feel that ISPs behavior is unacceptable.

Phone companies aren't allowed to listen to their customers phone conversations in order to sell data obtained from private phone conversations so why are ISPs being allowed to do this with our internet usage.

It is my belief that as a broadband customer I am paying for this service and should not be subject my ISP spying on me.

Description

Hi, my name's (b) (6) and I'm from the UK.

For... a year or more I have been receiving emails from Verizon regarding one of their customers, their bills details, warnings of overage fees to be incurred, etc.

I have contacted Verizon and informed them of this and also informed them that as they do not use a confirmation email system that anyone can link any email address to any account without any verification that the email indeed belongs to the person in question and that a mistake has not been made.

They deregistered the email... and then let the customer reregister my address (Which they know is the incorrect address, it's obviously their customer's mistake).

This means that not only do I receive information about their customers data plan but that when the customer in question is warned about overage charges that are about to be incurred that I, not them, get the warning, so their customer gets charged.

I would like you to intervene on my behalf and the customers as they are getting screwed on overage charges without warning and Verizon keep spamming me with details about their customers account even though I have explicitly told them that I am not their customer and that they are sending me someone's private bills.

They don't wish to deal with the issue so it seems you are my last resort.
Also I'm in the UK so they are sending private info (knowingly) out of the country.

I have records of communications with Verizon if required.

My real phone number is +(b) (6), I had to put a dummy number in, in order to file the complaint.

Description

Hi, I just found out last night my Gmail account was illegally hacked into and the individual broke into my Gmail account, stole by password via a password encryption program I saw the individual had downloaded illegally to my computer called EFS. The individual without my authorization, changed my settings to Enable IMAP and sent themselves a copy of all my emails since 2010 when I opened my Gmail Account. The Forwarding and POP/IMAP was chosen it appears and then enabled. This is a complete invasion of privacy. This is fraud. This is a federal crime. This individual then proceeded to continue and violate my privacy by "syncing" my email account. As per my Gmail Account, it states my account was "last synced" Monday at 5:10am via Windows and it appears the hacker used Internet Explorer 11. It appears this hacked logged on at the same time as me from a remote location and used a Blue tooth device illegally to sync my account as it was explained to me. They again "synced" my account on September 9, 2016 at 10:51 PM again via Windows. Then yet again my account was synced on September 3, 2016 at 2:54 PM via Windows. This is as per my Gmail Account- "allisonymca@gmail.com" and it shows this is the "devices that have been active on my account in the last 28 days."-However again I DID NOT AUTHORIZE THIS INDIVIDUAL TO UNLAWFULLY ILLEGALLY BREAK INTO MY ACCOUNT, STEAL MY PASSWORD, STEAL MY HEALTH INFORMATION, MY BANKING INFORMATION, MY DISABILITY MEDICATION, MY FAMILY'S INFORMATION, MY LEGAL SUPREME COURT CASE INFORMATION, MY PERSONAL INFORMATION. THIS IS A FEDERAL OFFENSE, A FEDERAL CRIME AND I NEED THIS RESOLVED PLEASE. PLEASE CAN YOU ASSIST ME WITH TRACING THE LOCATION AND INDIVIDUAL WHO DID THIS TO ME. I AM BEYOND DISTRAUGHT, BEYOND TERRIFIED FOR MY LIFE BECAUSE THIS PERSON WILL NOT STOP. THEY HAVE DONE THIS FOR WEEKS, THEY HAVE INSTALLED ILLEGALLY NUMEROUS ILLEGAL PROGRAMS THAT I NEVER AUTHORIZED ON MY HOME PERSONAL COMPUTER. THEY CONSTANTLY INSTALL A WEBCAM ON MY PERSONAL HOME COMPUTER-I UNINSTALL AND DISABLE IT AND THEY IMMEDIATELY OR SHORTLY AFTER ENABLE AND INSTALL IT AGAIN. WHAT KIND OF SICK PERVERT IS DOING THIS-MY LIFE IS IN DANGER. THE INDIVIDUAL WHO IS DOING THIS-ALSO HAS SOMEONE FOLLOWING ME VIA VEHICLE, I AM TERRIFIED. I CAN'T SLEEP FOR DAYS. I NEED YOUR HELP. THIS INDIVIDUAL ALSO HAS HACKED MY CELL PHONE. I HAD TO GET POLICE REPORTS REGARDING BOTH. THIS INDIVIDUAL WILL NOT STOP. PLEASE HELP ME BEFORE THIS INDIVIDUAL HURTS ME. I AM SCARED FOR MY LIFE.

Within an hour of having downloaded Hotspot Shield Free VPN Proxy app from Google Playstore the app crashed several times. Then I received three individual, alternating and intimate photos, indicated by a blue ad icon in the corner, of the actress Scarlett Johansson. I reported this to Google via their Feedback page but could not figure out how to ad screenshots I took of two of the photos. It is supported by developer ads, and I have no idea why he thinks I have even the slightest interest in this type of this type of advertising. Immediately prior to receiving the ads I had logged out of my Yahoo! e-mail account. Also, I previously subscribed to Hotspot Shield for two years for antivirus on computer and had the cell phone number I currently have on the device I am using to submit this complaint.

Company Complaining About: Sprint

Description

I had purchased one month subscription to NordVPN via paypal to try the service. During this time the service would often default to a Romanian server and/or captcha screen regardless of which country server I selected. I had contacted NordVPN who requested a screenshot. At this time I received paypal notification that another month had been deducted from my account. I have tried to delete the NordVPN from my computer, but am unable to. It does not show up in either my windows remove/install function or another uninstall program- IObit Uninstaller 4, so I don't know how to remove it from my computer.

This is a case of fraud and theft in my opinion. It may also qualify as ransom ware, but I am unsure of the definition.

Description

I received an email from AT&T that just by the wording of the personal message at the bottom of the email that read " Debra, Log in to myAT&T to see account details for your mobile number ending in 4019." , suggests that I have a account and a phone with them. I do not have an AT&T account so the email lead me to believe that someone had stolen my identity and opened an account in my name. So I called them. The representative said that it was a marketing strategy! That type of marketing strategy should be illegal. I saw the email in the evening so was unable to call until the following afternoon due to work, so I worried all day about what kind of things were being done in my name. I talked to another representative after the first who hadn't been aware of a marketing strategy of that kind, but searched my name and the last 4 of the account number that they provided and did not find an account in my name, however I still am not totally convinced that that I have nothing to worry about. Its a very poor way to market new products! This is the age of computer hacks and identity theft! Like I said before this should be illegal! If you world like to provide me with an email address I would love to forward the email to you.

Date: 9/15/2016 10:25:41 PM

City/State/Zip: Fredericksburg, Virginia 22408-0285

Company Complaining About: Verizon

Description

I am a retired Federal Government employee who had his OPM personnel file stolen by the Russians or the Chinese. My email (I use Verizon Webmail) was restored Tuesday (9/13/2016) after being out for 3.5 or 2.5 weeks. And, when I checked my emails (996 of them), I discovered I had received four (4) or five (5) (I don't remember exactly, because when I saw them, I deleted them right away) emails with the headers written in Chinese. This was very upsetting to see this because OPM gave me access to two security companies that keep tabs on my credit history and other personal information, that I check with every month (by email) to make sure no one has gotten into my personal information.

I do not know if you have received other notifications of this happening to other former U.S. Government employees or their families, but I wanted to let you know what has happened. In my former job I did hold a Secret Clearance and if I receive anymore Chinese or even Russian emails, I will let you know. I have never gone to any websites in China, Asia, or in Russia and this is a little upsetting and I will contact the Federal Communications Commission and let them know about this too! Thank you for your time concerning this matter.

*The above complaint was also sent to the FBI on there tip Internet website for their investigation. The incident has been upsetting and if it happens again, I will let you know. Thank you!

She text me "5 (b) (6)".

Then I text this number & find out. Immediately I got reply from "agent Angelina Wood" starts texting me all about Facebook New Month Promotion Department price thing. Said I am on the screen & I won the \$150,000.00. At the end, she asked to pay "Clearance fee" at \$1,500.00 before they send me the fund. They want me to send this fee by "Money Gram, Wal-Mart or Western Union" to "Facebook, Inc. Attention: Department 415. (b) (6), Palo Alto, CA 94301.

Eventually I called my Facebook contact person (b) (6). She said her Facebook account got hacked & said sorry to me.

So I started ignore the text message from (b) (6). This morning, she starts texting me. Since I am not responding, the Facebook (b) (6) text message & try hello to me. I ignore the facebook message as well. But, before I realize, I did text reply (b) (6) my name, tel phone no. age, gender, full address information when she asked me to provide information to claim the price.

Can this be investigated? Can someone help to file this kind of crime?

A new email from Verizon offering the iPhone7 has as its small print a font that is very light gray that is barely readable on large format monitors. Most of the print Verizon wants you to see is in bold black, but the print that gives the exceptions and details are faint gray. This is a formatting problem found frequently. Even your website, which has bold black lettering changes the color font for details to a fainter gray. The FCC should review how advertisers are using faint fonts to hide critical details. I have attached the text of a copy of the email.

Company Complaining About: American Home Shield Email

Description

On August 1, 2016 I contacted American Home Shield by both phone and internet regarding a Sellers Policy on my home that was placed by the Buyers Agent. I wanted to understand what the policy entailed and why it was considerably more costly than I expected. Since that time, they have continued to send me email after email trying to sell me a policy despite the fact that I have opted out over 18 times. Additionally, I sent an email to the email address at the bottom of the opt out confirmation regarding any further concerns regarding unsubscribe. I also found an email in their privacy statement customercare@ahslink.com and sent them an Unsubscribe request. As of today I am STILL receiving emails from them. Most recent ones include Sept 7, Sept 12, Sept 15 three separate emails, and today Sept 16. I need them to stop contacting me immediately!

Ticket: # 1203839 - Frontier won't let me unsubscribe from advertising

Date: 9/18/2016 2:05:16 PM

City/State/Zip: Plano, Texas 75074

Company Complaining About: Frontier Communications

Description

When I was first forcibly transferred to Frontier from Verizon, as part of the sign up process, I was required to accept being added to their marketing list. The option to remain off the list rendered the website nonfunctional. I filed a complaint. Frontier said they would take me off the list but it would take 6 months. 6 months!!!! They are distributing information about me to other companies, violating my privacy by distributing my information, despite my explicit instructions against it.

Anyway, I'm still receiving marketing emails from Frontier. So I click on the unsubscribe link. The website directs me to click a checkbox next to the lists I want to be removed from, however there are no checkboxes.

Once again Frontier is forcing me to accept marketing information and is using technical means to ensure that I can not opt out. I've attached a screenshot of the unsubscribe page, and the page indicating that my request to be removed is not successful.

I should not be forced to accept advertising from a company, especially one I didn't even choose. Frontier should not be allowed to profit from forcing advertising upon me.

City/State/Zip: London, Washington 20850

Company Complaining About: Sky Broadband

Description

I have lost 2 years of my life and systematically have had work, 4 careers, my degree studies, reputation, finding a home, health completely ruined as a consequence to this online site and Facebook. I closed my accounts down just to be stalked EVERYWHERE, they were harassing me at my families home, stalking me at my doctors, in shops people were insulting me, I got withdrawn from my degree course after making a formal complaint about students and teachers participating in this collective cruel harassment, when I wanted to report this to the police I was discriminated by because I mentioned two celebrities who participated in this. My life was ruined after that and found out a media production had used what happened to me. Im still getting slandered online in the UK, I have had remove everything about me. I am struggling to fix my life after the mess this caused me and every law firm agreed it wasn't my fault.

SKY Broadband have been just as guilty but haven't been willing to rectify anything and my computer has been continuously hacked into and since trying to complain about numerous individuals to Twitter they or somebody informed the local authorities to monitor my computer, with out a court order for 11 months! Jack Dorsey's way of "controlling the damage" this whole situation has turned into a collective hate campaign towards me and my family, which have been effected by this as well.

I have several organization cyberharassing me. Its been confusing but the NSA, SKY networks, local police and ambulance, Apple, Google, Adobe, Android, IBM and local crooks remotly hacking and viewing my entire online and offline activity. You would think I was doing something incriminating or illegal. It's actually been the opposite, a lawyer has described this as Organised harassment, stalking and intimidating me for 24 months. My apple laptop has been completely hijacked, last year all my email accounts were blocked, my credit cards pins blocked, my offline files stolen. Since this started I have had everything in my life ruined. I have followed all the security steps I can but even had VPN organisation data mining my details. It's been a nightmare to try to regain my privacy, any emails, browsers I use seem to be tampered with cyberharassing results. People in the area where I live know all my personal business and don't know how they are doing this either through our network traffic or the remote hacking. I don't know how to stop them and Apple haven't clarified anything.

Date: 9/19/2016 11:56:09 AM

City/State/Zip: New Orleans, Louisiana 70112

Company Complaining About: Cox

Description

Last Tuesday night I decided on a whim to search for backpacks for my 11" chromebook. I spent a few hours checking a number of sites, I have provided screenshots of my internet history of the time. At some point, among the number of sites I looked at that night, I visited ebags.com, a company I have never purchased from nor ever signed up as someone interested in receiving anything. However I learned the next morning that around an hour after I had visited their site I received an e-mail directly to my private address with a specific ebags offer on the exact backpacks I had looked at.

I am not talking about a targeted AdSense ad or seeing ebags on my Gmail. This isn't about a site reading cookies. I received in my private inbox a specifically targeted email based exactly on the products I had viewed on the ebags store.

I had been sure that I had never signed up for ebags, but I clicked a link on the email that just supposed I was a member. Of course I didn't have an actual login and password as I had never created an account there. When I landed on the ebags page I actually tried the option that said I didn't have my login and password information. Still sure I hadn't ever set up an account with ebags I clicked on the option that I had lost or forgotten my information. Now I understand not all systems are the same, however many (most) do let you know when you ask for a password reset that you don't actually have an account with them. In this case, I immediately received the password change link and clicked it. Upon landing again on ebags I put in a password and that was accepted. Once again, I had never at that point on my own initiative signed up for in any way with ebags.

At that point I reached out to ebags and asked them one question, "When was my account created?" The answer (as you can read from the transcripts provided) was that I had just created the account that day, the morning after my visit to their site, when I had "reset" my password.

I understand that personal emails and other private information are part of a large advertising market and that many companies get email addresses and even match them to IP addresses based on whatever 3rd party information they may have purchased. However I did not ever consent to anyone ever giving my personal email address to ebags nor did I consent to any other party giving or selling that information or my IP address to ebags.

I have asked ebags to explain to me the situation. According to them they have tracking software that received my email information from the email account associated with the device I was using, my Samsung tablet. But what percentage of devices don't have an email address attached? Is it legal to take the email address associated with any device that visits them? Would it be all right for them to get the email address off of any mobile device that connected to ebags?

I asked for the explanation of how they specifically got my address in writing. They refuse and wish to only do so by phone.

As I have disagreed with that, I believe that I deserve at least a full explanation in writing, I am filing this complaint. I have attached screenshots of my browsing history plus pdf versions of all email communication and the transcripts of our two chat discussions.

I know that this aggression is tiny, has caused negligible damage and will not adversely affect me in any way at all. Yet I do believe that there must be some sort of boundary or guideline that prevents a company from taking and using the private information of any person who visits their site without specific consent. I don't get a phone call from Target on my mobile when I enter a store.

Thank you,

Company Complaining About: Norton

Description

I have had Norton for over 10 years and renewal has always gone smoothly, but this year I purchased a Norton package that would cover 10 devices. Long story short I put this new renewal on my brother and his wife and the two in my home. I had to call Norton because of complications on all 4 of the devices and every time they asked permission to enter my computer to find out the problem. Two of the four was said to have a Trojan Horse virus. These computers was all working fine with no [problems. Of course Norton said they could fix the problem but it would cost me an additional \$199.00 for one year up to 5 years for #399.00. My brother paid for a 3 year deal for #299.00. I think it is a scam of some sorts to make people pay more money and if the original Norton was working properly then I shouldn't have gotten the virus in the first place. I would like for someone to look into this because there are a lot of people that are getting ripped-off and Norton is profiting from this scam.

Description

I am getting a system error trying to get back into the ads manager to continue my campaign at (b) (6), and he seems to think the problem is with me. He states I have to produce my drivers license or download an app that I will not do. The connection is blocked trying to get to ads manager like someone blocked read/write permissions for the folder on the server where I am concerned, but your guy wasn't interested in that possibility. He was more interested in my being screwed over/hacked than look at the Facebook system. This was working on my tablet so this is not an excuse and neither is desktop to mobile formatting that this is just pixels and does not have to be a reduction of functions. He is hurting my communications with prejudice. By: (b) (6), all rights reserved, without prejudice, sui juris.

Date: 9/20/2016 9:56:39 AM

City/State/Zip: Pacific Grove, California 93950

Company Complaining About: Comcast

Description

This is a follow-up to your previous request #1018346 "comcast setting up secret e..."

to FCC,

recently I filed this complaint about a fake email address set up by comcast in my name. Comcast reply was they value my privacy and other corporate nonsense. That is not my question and that is not the answer.

My question is, who opened that account in my name.

Comcast is also saying they tried to resolve the issue. That is a lie.

I have been in contact with comcast several times in the past, maybe as many as ten times including being in their office returning defective equipment and not once did they mention they happened to have an email account they opened in my name.

It was a technician who blurted out that email address to me on the phone and when I questioned him it turned out to be in my name.

Comcast is now saying it is a proxy event or some ridiculous nonsense.

kevinab15@comcast.net is not computer generated. and if it is then there is another serious problem with comcast security and customer identity theft.

Now, in my mind this is identity theft because they avoided telling me about this account.

comcast recently called me and tried to get me to close one account but I refused because I wanted a resolution to my question before I do anything.

Who opened that account in my name. I want names of the individuals who initiated the account setup without calling me or at least sending me an email saying they had opened an account in my name without my permission..

thank you

Ticket: # 1209681 - Windstream Refuses to Provide Service

Date: 9/20/2016 9:04:02 PM

City/State/Zip: Brighton, Colorado 80601

Company Complaining About: Windstream Communications

Description

Dear FCC,

The Windstream Communications company is deliberately refusing me service by continuing to make me provide personal information to them but they never are satisfied.

I called Windstream on or about September 19, 2016 to setup internet service on my new apartment in Lincoln Nebraska to begin that service on September 23, 2016. I attempted to use my two businesses' EIN (Employer Identification Number) numbers to setup service in lieu of my Social Security (SSN) number. They were ok initially accepting those numbers but then their Credit Department rejected both of them. After two unsuccessful attempts I ended up providing them my SSN. Windstream then said that since I had provide them with three different numbers and now they needed to see my Driver's License to ensure I wasn't using someone else's credentials. I was moving from Colorado to Lincoln Nebraska and I agreed to provide my License to them at their office in Lincoln Nebraska when I arrived in town.

Today September 20, 2016 and I went to their office in person to provide them my Driver's License. They then requested to see my Passport too, I was lucky to have had it in my car, so I gave it to them as well. They then said I needed to provide them my actual Social Security card. I told them that I don't have the card with me. They then refused me service again.

I am having trouble understanding why a State issued Driver's License and a Federal Government issued Passport is not acceptable? At this point I believe they are making me jump through unnecessary hoops for retaliation for providing them with my Employer Identification Numbers (EIN) initially.

Having me show up in person to their office in order to provide them with Identification should have been enough. Please let me know why Windstream Communications can continue to refuse service to me even after I met their minimum request?

Thank You.

Respectfully,

[Ticket: # 1209716 - Verizon's lack of exporting capability for e-mail](#)

Date: 9/20/2016 9:18:03 PM

City/State/Zip: Greenlawn, New York 11740

Company Complaining About: Verizon

Description

I am trying to switch my e-mail account from Verizon to another carrier. However, Verizon does not allow the transfer of e-mail contact lists out from Verizon or the export of any folders containing one's own personal information if you cancel service with Verizon. Their on-line computer program is therefore restricting access to information that rightly belongs to the owner of the account. The reps and techies that work at Verizon have confirmed this after long conversations with them to try to get around Verizon's system. This is an unacceptable situation for anyone who wishes to switch carriers. It is as if Verizon owns your e-mails. The FCC should determine if this is legal, and I would ask you to investigate the situation because it applies to an issue that affects a great number of people. N

Ticket: # 1209729 - Facebook and LinkedIn "fraudulent Friend Request practices" need to stop

Date: 9/20/2016 9:30:46 PM

City/State/Zip: Williston, North Dakota 58801

Company Complaining About: Nemont

Description

Facebook and it's sister website Linked-In fraudulent Friend Request practices need to stop. These sites (servers or programmers) are sending phony friend requests, and perhaps accepting them. Similar to recent Wells Fargo Bank creating fictitious accounts to boost revenue. I again recently got a Friend Request via Linked-In and asked the person = she did not send it - the machine did it "by itself". She also said she has gotten friend requests from herself on Linked-In??? I have nothing against Mr. Zuckerberg (spelling?) but perhaps his Terminator style Cyber-Dyne system is growing by itself and trying to take over. Perhaps his company is based on growth of people and connections and How Many Eyeballs are viewing their advertisements = thereby making him worth 4 billion when instead it might only actually be 1.2 billion net worth. Similarly on Facebook, some time ago a fellow accepted my Friend Request - but I never sent one = we are already friends for years. Now yesterday the machine said a request was sent to him again. He (supposedly) accepted my non-sent request a year ago, and now he is sent another? The lady here in town also related she got a phone call from someone across the nation asking what was going on with her making a friend request to him on Linked-In. Some of it seems to be related to people who come from a similar geographic area. Sometimes it is random, such as a guy listed as my friend that I never heard of him until I paged down the list.

Since these apparently deliberate efforts also probably qualify as junk mail =

Perhaps you can fix this as an electronic communication / programmer issue. If not I can check with the FTC or Wall St. Journal or the stock exchange and ask them to be my friend instead.

Thank you,

(b) (FCC 1st Class license holder)

Hi, i was on FB and my Phone started making some type of loud alert. It took me forever to get it to turn off, it was from (b) (6). To my knowledge i have never spoken to him, did not know him. I am not used to rec'ng phone calls at 1:42 am and i was trying to get it to stop ringing. My Husband was sleeping and it was LOUD. A horrible shrieking noise. Finally i was able to stop it, i think he called twice. I looked for his name and found out he was a FB Friend. I am not sure if i added him, i was told he was one of many on FB that went to my H S. So he may have asked to be my FB Friend and i accepted since from (b) (6), my old H S. I am Friends with many of them on FB. I found that we were FB Friends, i unfriended him and blocked him so he could not contact me again. He used Messenger to call me, i am used to the message part, not calling someone on telephone with it?? I posted on FB that he was calling me at 2 am. To pass it on. Since i had blocked him i was unable to report him to FB. A Friend of mine said you might be able to help me. He has not tried to contact me since then that i know of since i blocked him. Nor has he asked mutual friends to contact me to apologize for contacting me at 2 am. This happened Mon night, Sept 19, 2016. Thanks!

Ticket: # 1210096 - Re: Cox Cable

Date: 9/21/2016 8:30:50 AM

City/State/Zip: Las Vegas, Nevada 89144

Company Complaining About: Cox

Description

This is a follow-up to your previous request #1096170 "Cox Cable "

To whom it may concern,

On about September 16, 2016 at 12:21 pm, I received a call from Cox Communications, Jesse, who is Larry's Associate. I stated to him that I had told Larry and I sent a letter, that I did not want them to call me.

Jesse stated he knew that and that if I would give him a moment of my time he was reaching out to see what they could do for me. He didn't call to see what they could do for me he called to see what information he could get out of me. He questioned me over and over trying to get me to tell him which tech gave me information, especially information about the Node and the information about the poor input of the line coming in to the house. Than he brought up the credit that was given to me since I put the internet back to where we had before. Like I told him why pay for something when there is no change in service.

I said that I told the manager at the service department that put the account back to where it was that I didn't want Larry's \$18 credits. He was trying to make it look like Cox was doing me a great service. He then stated that our service must be doing well since I haven't called. I said NO, what's the point! It has gotten a little better since they fixed the main box, but we still have such a lag at times that with that many people on this node it's not going to change. I either have to accept it or bring it to the attention of others.

He said that they watch and it shows no problem. The cost is great to change anything that doesn't need to be fixed. Like I told him that what he is seeing is not the case because what we experience shows something different.

Jesse spent an hour and 17 minutes questioning me, trying to get names or times of the people that I talk to who gave me information. Like I told him, why would one of their COX techs tell me that he was told that I was on Basic Internet when I'm paying for 150 mb? He couldn't tell me.

I also asked him why the last Tech that was here explaining everything to me, from start to finish, stayed for over 15 minutes inputting what was going on the service call so they knew what was wrong here. When he came back over a couple of days later he said he never said that. Makes me think what he was told that he was not allowed to tell the customers nothing?

Like I told Jesse, if only Cox would give their customers receipts or a copy of the work order, of what has been done and if any charges, than customers and techs are covered of any misunderstanding and that customers are not surprised with a bill they did not agree to.

I want this harassment stopped.

City/State/Zip: Ithaca, New York 14850

Company Complaining About: Verizon

Description

Callername.com is a website that offers reverse look up of phone numbers. It publishes consumers' names and cities of residence, and offers an opt-out system to remove or edit the listing. This opt-out requires the consumer to receive a code to her cell phone via call or text message. There is no human contact person listed anywhere on the site, and no way to contact a person to request aid with removal of private cell phone number information. Customers cannot contact a person for assistance with removal, and repeated attempts to contact the company via its own web form have proven useless so far. No one has replied.

Description

I applied for a position with Amazon through a Craigslist ad, however, I withdrew the application. Amazon, or its recruiting department, keeps emailing me. On these emails are other people's email addresses. I keep responding to be removed from the email list as I am no longer interested in the position and because I do not wish my email address to be distributed to others. I have not received a response and Amazon keeps emailing me.

Ticket: # 1212517 - Willful exposure of private user information by Facebook

Date: 9/21/2016 11:49:45 PM

City/State/Zip: Fresno, California 93720

Company Complaining About: Facebook

Description

Facebook Inc. willfully and deliberately fails to abate or provide end users a means to abate security breaches of private identifying information. Facebook provides only a limited menu driven reporting system, which is wholly inadequate to resolve cloned accounts accompanied by unlawful capture of a user's original account having access to virtually unlimited other "friended" private accounts and their contained private information. Facebook willfully and deliberately fails to provide end users any direct means to report such serious security breaches and/or to initiate protective actions. As such, Facebook has and continues to expose and endanger likely tens of thousands of user accounts, user identities, and both private and U.S. Government agencies.

Description

The website is www.2040-cars.com

This website is highly suspicious of a potential hacking source. The sheer volume of vehicles advertised insinuates lots of commerce is generated through the website for purchasing exotic cars yet (1) there is only 1-way communication (2) the website is domiciled in England even though it shows an elaborate and extensive domestic presence (3) I am worried that when you fill out their inquiry form they can hack into mobile devices to obtain person information because there are, there are vulnerabilities in networks, (4) usually people who shop for old cars are older people and they are the most vulnerable as they aren't as tech-Saavy (5) I have seen many scams in this particular commerce (collector cars and RVs) via Oogle.com, and they prey after old people and the biggest red flag is (6) the prices, widespread are too good to be true but what is so strange is each car looks like it is coming from specific sellers, specific cities but doesn't share their names.it is sooooo suspicious and now I am calling my bank to shut down any card put on my phone. Please let me know. I can't find any activity of people who have used the site but it seems like a huge company. I could be wrong but highly suspicious

Company Complaining About: Yahoo

Description

I was going to make a purchase from Hay House where my sign in is my Yahoo email account. When I went to sign in at Yahoo I got this message about a security breach: "We have confirmed, based on a recent investigation, that a copy of certain user account information was stolen from our network in late 2014 by what we believe is a state-sponsored actor. The account information may have included names, email addresses, telephone numbers, dates of birth, hashed passwords (the vast majority with bcrypt) and, in some cases, encrypted or unencrypted security questions and answers. The ongoing investigation suggests that stolen information did not include unprotected passwords, payment card data, or bank account information; payment card data and bank account information are not stored in the system that the investigation has found to be affected." I immediately wanted to remove my birth date from my account information, but was unable to do so. What is a state-sponsored actor? When I went to the "Contact Us" button I was directed to unhelpful, confusing messages. None which addressed removing my personal information. Considering the breach, I should have the right to remove my birth date immediately. In their "community" section, other users also complained. What recourse do I have?

Company Complaining About: Verizon Wireless

Description

Purchased cell phone Jan. 2016 to get away from the 3000 harassing calls from card services. I did not sign up to access my wireless account on my phone due to advertisements. Last week I received a email on my phone from Verizon Wireless, stating that my account had been breached and my password had to be reset. If I did not request the reset, I was to contact customer service. I did so immediately but was told that they could not access my account without me signing into it and that the new password they sent me was no good even though it stated it would remain the same until changed. I had to set up security questions, passwords and other info to find out what was going on. Since, they continue to send advertisements in the middle of the night, 1:03, 1:13,1:32 AM. I have contacted them three times and asked that they stop, yet they continue. They falsely forced me to create an account, now they harass me in the middle of the night.

thank you.

Ticket: # 1216544 - Spoofing Email X-Originating-IP

Date: 9/23/2016 5:07:35 PM

City/State/Zip: Renton, Washington 98058

Company Complaining About: Comcast

Description

For almost a year I was daily receiving dozens of cold calls and spam emails from overseas outbound call centers hired by recruiting firms (some based in state and some out of state). Many use profiling services like JobDiva to harvest job candidate profiles from the major job boards (Dice, Monster, etc.). When asked where they are calling from many lie and say some location in the US. One, after being caught and asked why he was lying, said "It's my job." I then asked him if his employer was recording the phone call, to which he replied "Yes." (Xoriant, listen here: ((b) (6))

(Here in Washington State recording a phone call without announcing to all parties that the phone call is being recorded is illegal and violation of RCW 9.73.030. These kinds of scripted, rude, and aggressive tactics are "standard industry practice" typical of overseas call centers in India and elsewhere. There are hundreds (if not more) of these call centers daily engaging in mass cold calling and emailing. They by large all use the same script and technological smoke screens (spoofing of email's X-Originating-IP, lying about where they are calling from, lying about substantive issues regarding employment, illegally recording phone conversations, in some cases asking candidates for full SSN and full date of birth, etc.) They are hired by US recruiting companies or in some cases are setup and owned by Indians who then use the call center to ply these deceptive and manipulative business practices to wage-scalp unwary US high-tech workers by getting them to accept W-2 status while they take right off the top 50% or more from the direct client bill rate. These are body shops that often provide minimal benefits while reaping huge profits. With regards to the illegal recording of phone calls by these companies is there anything the attorney general's office can do?

This morning They provided a link to go to but I then realized it was a scam but I thought my friend had been caught in it. Later in the morning I received a text asking "if I done it yet". I knew then that she and I were both being scammed so I replied that I had reported this to the FBI and FCC. I haven't heard back from them. As a precaution, I contacted Facebook Customer Service and got a man named (b) (6) who it turned out was also a scam wanting entry to my system and my friends for a fee. She and I have been friends since high school and now are 72. We unfriended each other as a precaution. Are we in jeopardy?

Ticket: # 1218359 - Time Warner Cable has been purposely and systematically making changes to my account without my authorization

Date: 9/25/2016 12:21:18 PM

City/State/Zip: Groveport, Ohio 43125

Company Complaining About: Time Warner

Description

This is going to be a long complaint as it requires some backstory to fully understand.

I am a former Time Warner Cable employee. I worked there between 2007 to July of 2015.

From the time my employment started with Time Warner Cable I had issues. 2 months before I was hired to work there Time Warner Cable started double charging my checking account for my monthly payments. However this balance was never being applied to my account. This went on for a total of 3 months.

During my first week of employment I was approached by HR about a past due balance on my account. They were going to terminate my employment if this balance wasn't paid in full. I was already working with their billing department and my bank on the double charges but this was the first I had heard of the funds they were withdrawing not being applied to my account.

After countless hours of phone calls between my bank and Time Warner Cable I eventually learned that not only were they double charging me the funds they were taking were being applied to a different customers account. By the time this issue was resolved and I was allowed to maintain my employment Time Warner Cable had overcharged me by \$600.

This leads to the second issue. As an employee I was not allowed to have these funds returned to me. Instead, according to their policy, all they could do is credit my TWC employee account. There would be no reimbursement to these funds without me willingly terminating my employment.

While this issue doesn't have any direct relation to my complaint, I feel it is noteworthy enough to point at.

During 2011-2012 I was still employed at TWC. I had recently applied and interviewed for a position with their IT team as a Windows Systems Admin. The interview went incredibly well and I was offered the position and I accepted. This is where issue 2 occurs and is important as it shows a willingness for retaliation and provides a motivating factor for the actual complaint.

At the time of the job offer I was working in TWC's Tier 3 department. This department is the highest level of customer support that is offered, it's where all other issues are escalated. From network backbone issues to BBB complaints.

It turns out that internally if an employee wants to change departments, and it's not considered a promotion, they have to receive written approval from their Manager. This position was considered a lateral move internally.

My Manager refused to sign off on it, thus denying me the ability to transfer. A complaint was filed by the Director of IT with our Corporate HR. After many hours of interviews both in person with the Regional Director of HR and with a representative of HR my manager was put on unpaid leave for 2 weeks and this incident went on her permanent employee record. However, I was still not allowed to transfer out of the department. Instead I was promoted to a Lead position in the Tier 3 department, where I would still have to report directly to the manager that was put on unpaid leave.

I continued my employment with TWC for another 3 years where I was repeatedly met with hostility from the manager and blatant attempts of retaliation. During this time I had leave requests denied for my wife's surgery and my job performance was consistently scrutinized far beyond that of my colleagues.

In July of 2015 I couldn't take it anymore and I resigned, effective immediately. Since my TWC account was an employee account I contacted employee services to have it switched from an employee account to a residential account. This is where my official complaint begins.

1. When my account was switched to a residential account it was put in at the most expensive rate possible. Literally every possible package that could be added to my account, except the home security, was added to my account. My initial monthly statement was \$400 a month.

Upon discovering this I spent 6 hours on the phone and over 2 hours in chat getting it resolved. This was not a change I authorized as I had submitted specific paperwork to employee services regarding the changes I was requesting to my account prior to my resignation.

3 to 4 months after getting this issue resolved my home phone number was disconnected but I continued to be charged for the service. The phone number had been de-provisioned in their backend system known as OMSe. I know this for a fact because working with OMSe was part of my day to day job duties while I was working with TWC and I confirmed this while working with their support. To make matters worse the number was released back to the original LEC. TWC had reverse slammed my phone number and in itself is worthy of a separate FCC complaint.

It took me 4 months to have my phone number restored. 4 months where I was charged for phone service without a working number.

The most recent incident is the basis of my complaint. 1 week ago I lost access to all my email addresses. This isn't an issue where the password was changed. TWC, again with my authorization, made changes to my account by deleting ALL my email addresses from my account and assigned an unknown email address to my account. Again, I worked daily with the tool used to migrate and manage email addresses so I am very familiar with the process of how email addresses are migrated. This is yet another act of blatant retaliation since the time I submitted my resignation. The email addresses themselves cannot be recreated or restored because the domain they were on is no longer available. I literally have no way for them to be restored.

Unfortunately I need high speed Internet for my employment as it requires me to be on-call and work from home when necessary. There are no other high speed Internet providers in my area, I'm not even able to get DSL. This is not a rural community but TWC still holds a monopoly over this area.

I am currently stuck with a high speed Internet provider that is systematically continuing to find ways to damage me 14 months after I willingly terminated my employment. During this 14 months I have spent a total of 9 months having issue fixed on my residential account due to changes made that were absolutely not authorized. I am at my wits end and I am at a point where the only option I see available is to sell my home of 13 years so I can move where an alternate ISP is available.

Ticket: # 1218378 - Stalker App

Date: 9/25/2016 12:48:52 PM

City/State/Zip: Altadena, California 91001

Company Complaining About: AT&T

Description

(b) (6) have stalked me for over a year now. Mr (b) (6) has made claims that he has accessed my personal medical records (while working for Arcadia Methodist on a county contract), and has used software that has hacked my phone and computer (purchased from "a guy in the russian mafia"). Most of which seems plausible because currently at this moment, he is screaming outside my window " go ahead, call homeland security, youre already dead to me. There's no hope for you. I won't quit until you die".

I have a neighbor (b) (6) that has been accessing the personal networks of the residents of (b) (6) for financial gain. He is a cluster-b type ASPD stalker who is gaslighting residents while stealing identities for the russian/armenian mafia. He is skillful in manipulating the LASD when called by residents. Currently these people have the neighborhood in a state of fear. He has recently lost his marriage, his job, and is a compulsive gambler and has threatened to use his ties to the armenian mafia to shut me up. This computer that I am using has been compromised. I had someone look into the nature of the threat and they determined that it was a bot looking for constant intrusion using proxy IP's and a MAC changer. He figured this out and began harassing me outside my window telling me that he had access to my payroll account and opened up a \$5000 credit card in my name. I immediately sent a tip to the FBI cybersecurity page and followed up with a request for a SAR with ADP. Since then, Mr. (b) (6) his hired a thug (b) (6) - who recruits more thugs and criminals) and a videographer, Cleon Allen, to stalk me and follow me to my job, where I am the night manager in charge of balancing the registers and the safe. I think other neighbors data may be compromised as well.

(b) (6) constantly threatens to assault my exwife (b) (6)) and daughter (b) (6) (b) (6) t) and stalk me to work. He typically hires a driver and harasses me on the way to work to work taking video. if he can he will bribe an employee at Bella Sol Spa or a trainer at Le Club Sportif (they share the same building as my job) to rent a space and take audio while gaslighting and harassing me while I work. If they cannot, they will occupy the parking lots in the Petco mall, the Waba grill mall, or in the back parking lot for (b) (6)). From there, they will take whatever video they can and harass our customers and say that they work for a lawyer When I return from work, they brazenly threaten to rob the store and shoot me in the process. At night, they try to wake me at 12:30/3:30 and 6:30am "until I get a heart attack". You can hear their harassment from (b) (6) - 3 houses below mendocino. The whole neighborhood is in a state of fear.He constantly threatens that he is "gearing up his whole family". He is showing signs of serious antisocial behavior.This is looking like a gang being formed or a lone-wolf murder-suicide if things dont go his way.

Please keep in mind that all the crimes stated and the people he has hired are sponsored by a check he gets from LA county

Ticket: # 1218412 - The most dishonest and unprofessional service provider**Date:** 9/25/2016 1:27:24 PM**City/State/Zip:** Tampa, Florida 33626**Company Complaining About:** Frontier Communications

Description

It all started since frontier took over Verizon in April and everything just took a detour and a different level of service, Lots of confusions and service outages have been happening here in Florida and it's not just me who is having issues but am sure there lots of other consumers who are suffering right now. From a 5 star service from Verizon to a 2 star service from frontier. There is no words that could explain the level of customer service I have been witnessing since they started and every time am just left out very upset and disappointed. Very uncaring reps with lots of confusions and no one knows what's going on also every time you speak with someone you receive different and mixed up information. I have reached to a point that I can't handle it anymore and was just left hopeless with no options as their team is not willing to help or cooperate to earn my business.

Here is my whole experience until today:

As I said it all started back in April and at first before frontier took over we had our account under my father's name and we decided to change to under my name since I was the person making the payments out of my card every time with Verizon. Since then all the confusions started and it took about 3 to 4 to settle everything back to normal. Me trying to get in touch with the the customer service center as they had lots of confusions on my bill and every time am getting different prices and over charges and no one could figure out why. I have spent all of my time trying to explain myself to all these reps again and again and every time am given different and wrong information. With Verizon I used to pay around \$80 a month from my services and it was on an agreement as well. Since day one with Frontier everything was confusing as far as my bill and other fees and I never paid the exact amount I used to pay with Verizon.

I spoke with couple reps and explained to them my frustration and I was told by one rep that I have been paying the wrong amount for my services with Frontier and that the the price am suppose to pay is \$64 + fees and taxes and the rep confirmed that with me during the call and said you should see it take place from your next bill going forward and this never happened. I was getting charged the same amount with late fees as their online was system was having issues and was not reflecting the right info as the paper bills they used to send so they made us pay for their fault and added all those late fees to our accounts as we were not sure when is our due date and what's the right amount to be paid. On top of that i was advised to create a new account since I changed the account under my name and I did create a new account to discover that it will even make it a bigger confusion and the system wasn't able to settle down and reflect the right info as per the account. It's just a one line of service to the same location and we just changed the name I really didn't know it was gonna be such a nightmare.

At this point I was just very unhappy and wanted to speak with someone in-charge who could do something or take a decision. Called the customer service line spoke with a rep and explained the issues I have and the rep confirmed that she could see an order for the price of \$64 and that it needs a manager's approval to be posted to the account. I was told that the manager is not on her desk and that she is going to call me on the beginning of the week and until today am still waiting for this manager to call me. I couldn't wait anymore and I kept calling again and trying to get in touch with someone from their social media team and i finally spoke with some one from their escalation team and I explained to him everything and again was promised that he will process the price that i was

quoted by the rep and he will post it to my account. For the second time nothing happened and I just kept getting those false promises from people who represent Frontier and who really never cared about their customers. MORE AND MORE AND MORE just kept happening every time I spoke with someone from Frontier and lots of promises that I was given and never ever happened. Here is a list of Promises and Violations that Frontier did that is against all rules and books of Customer service and Federal laws that protect the consumer rights.

List of Promises:

- Promising me with a quote and a price for Frontier services of \$64
- Promising me with a full refund of all those late fees that I was charged
- Promising me that a Manager will get in touch with you
- Promising me with a \$20 broadband discount for a year

List of Violations:

- Disrespected me as a consumer and offended me in every way possible
- Breaking a Federal Law that protects consumer privacy and information
- Upgrading my services without any type of permission form the account holder
- Accessing our accounts without my Verbal permission as per the Federal Laws.
- Disconnecting calls before reaching out to a manager

What Frontier just did to me is considered a Crime in the field of communications and Under the Federal Laws and as per Federal Communications Commission that protects the consumer rights. All these calls are being recorded for a reason and they are saved on their system as well as on my phone as I have a full record of all these calls and conversations that is an evidence in this case and for further investigations.

Frontier needs to take an immediate and appropriate action towards all these false promises and violations or I will be taking it to the next step with a Formal and Legal action/Lawsuit against Frontier and it will include:

Federal Communications Commission
Better Business Bureau
Florida Department of State

I hope this time that their management will take my concerns seriously and make sure that their consumers are happy with the service they are receiving and not being cheated or lied to.

Description

My email has been hacked and disgusting and untrue information (supposedly) said by me is being distributed to people I know, my colleagues at work and acquaintances. Very good friends and family have not been affected. It travels with me... if I go to Massachusetts, or Manhattan, (I live in the suburbs of NY) it travels with me. I have never seen these message(s) (there may be more than 1), but I am being publicly shamed over something I have never done. I have never said anything hateful about any group of people nor have I even thought it, but I believe these messages are offensive and I see disgust and disdain on people's faces. People are also angry at me and some want to hurt me - strangers walk in front of me on the sidewalk with threatening glances. It is extremely upsetting. I've called Verizon and my local police but nothing has been done. I have yelled at my computer (in my home) with some unkind words... I can't comprehend what is going on -- but it has made my life extremely difficult. We are Verizon FIOS. This also travels to my cellphone. People know where I am at every moment -- they read my texts, emails--- there is no privacy. Thank you.

Description

I do website work / consult for a local preschool. We've noticed some false reviews being posted in an attempt to discredit and defame the school and key staff. The Online companies that provide the forum for these reviews also claim privacy policies. These policies claim to protect the identity of the reviewer and attempt to shield the online company from any negative ramifications. In essence any business that is confronted by one of these "Internet Trolls" has no recourse or way to confront their accuser.

I am requesting that new regulations be established that requires companies like Google, Yelp, YP, etc to disclose the identities of reviewers upon demand. In addition, these companies should be required to provide a means to remove postings that can be proved to be fake or never a customer of the company they are reviewing.

Date: 9/27/2016 12:59:29 PM

City/State/Zip: Westland, Michigan 48186

Company Complaining About: AT&T

Description

On Friday September 22, someone called AT&T wireless and was able to access my account without my permission. They made a payment on my account, which bounced at my bank because I didn't expect a payment to come through and I didn't have the funds in the checking account to cover it. They inquired about unlocking a device and upgrading an account. I called the fraud management department and they say they can't help me because they don't deal with that kind of issue. They didn't know where to refer me or how to investigate the problem. They transferred me to department after department which led to no resolution and they won't refund the payment that was made without my permission. My account was accessed without my permission and they were able to gain knowledge of my account without my permission.

Ticket: # 1221968 - Comcast email botted to subscribe to Trump & GOP mailing

Date: 9/27/2016 1:29:52 PM

City/State/Zip: Gaithersburg, Maryland 20878-1807

Company Complaining About: Comcast

Description

I received an email today "Getting closer: " from "contact@firedupconservative.com" with the Donald Trump, Jr. tag asking me to contribute to his campaign.

Since I am a "registered" Independent and have never registered as a Republican I was surprised. So I scrolled to the bottom to get to the law required 'unsubscribe' link and clicked on it.

At the unsubscribe site it asked for email address (which was (b) (6)) which I entered. However, I rarely if ever use this email for much of anything. It comes with the Xfinity service.

However, I saw a link that stated "How was I added". So I clicked on it just to see.

It indicated that I had "opted in on Sept 23, 2016".

That was a lie.

Then as I am typing this another came in to yet a different email address, rickpres01@me.com. This is used some, but is still older and the email I submit above is the preferred one I use.

Since I did not authorize either of these mailings, nor did I enroll in any Trump or Conservative site I find I have only one conclusion.

Either they are using hacked into server emails or they are using an email bot, a data gatherer that has gotten access to a potential huge list of email addresses.

It is also possible that they are now using emails hacked from the Democratic party recent hack. I do get emails from them, but that was the result of my viewing a client's request to see what he had created in 2006 or so. The only common spot is the (b) (6) as that was my primary email back in 2006.

Description

We've gone through routers, modems, and all computers. They've gotten into thousands of dollars of Apple products. Cell phone numbers have been switched and we've moved from AT&T to Verizon. We're pretty computer savvy and no matter what we do, they're a step ahead. They've locked us out of every account and they've been able to see everything we do on the internet. We've bought several new devices and they've gotten into those too. We own a DJ business and have lost thousands of dollars due to our dwindling reputation of being able to perform. We've consulted several computer professionals and paid out hundreds in fees to get the hack fixed without any success. We've been told that the FCC may be our only chance to fix the problem.

Date: 9/27/2016 3:40:23 PM

City/State/Zip: Altadena, California 91001

Company Complaining About: AT&T

Description

I have a neighbor (b) (6) that has been accessing the personal networks of the residents of (b) (6) for financial gain. He is a cluster-b type ASPD stalker who is gaslighting residents while stealing identities for the russian/armenian mafia. He is skillful in manipulating the LASD when called by residents. Currently these people have the neighborhood in a state of fear. He has recently lost his marriage, his job, and is a compulsive gambler and has threatened to use his ties to the armenian mafia to shut me up. This computer that I am using has been compromised. I had someone look into the nature of the threat and they determined that it was a bot looking for constant intrusion using proxy IP's and a MAC changer. He figured this out and began harassing me outside my window telling me that he had access to my payroll account and opened up a \$5000 credit card in my name. I immediately sent a tip to the FBI cybersecurity page and followed up with a request for a SAR with ADP. Since then, Mr. (b) (6) has hired a thug (b) (6) t- who recruits more thugs and criminals) and a videographer, (b) (6), to stalk me and follow me to my job, where I am the night manager in charge of balancing the registers and the safe. I think other neighbors data may be compromised as well.

Marshall Watkins constantly threatens to assault my exwife ((b) (6)) and daughter ((b) (6) (b) (6)) and stalk me to work. He typically hires a driver and harasses me on the way to work to work taking video. if he can he will bribe an employee at Bella Sol Spa or a trainer at Le Club Sportif (they share the same building as my job) to rent a space and take audio while gaslighting and harassing me while I work. If they cannot, they will occupy the parking lots in the Petco mall, the Waba grill mall, or in the back parking lot for Bella Sol spa (b) (6). From there, they will take whatever video they can and harass our customers and say that they work for a lawyer. When I return from work, they brazenly threaten to rob the store and shoot me in the process. At night, they try to wake me at 12:30/3:30 and 6:30am "until I get a heart attack". You can hear their harassment from (b) (6) - 3 houses below mendocino. The whole neighborhood is in a state of fear. He constantly threatens that he is "gearing up his whole family". He is showing signs of serious antisocial behavior. This is looking like a gang being formed or a lone-wolf murder-suicide if things dont go his way.

(b) (6) have stalked me for over a year now. Mr (b) (6) has made claims that he has accessed my personal medical records (while working for Arcadia Methodist on a county contract), and has used software that has hacked my phone and computer (purchased from "a guy in the russian mafia"). Most of which seems plausible because currently at this moment, he is screaming outside my window " go ahead, call homeland security, youre already dead to me. There's no hope for you. I won't quit until you die". Please keep in mind that all the crimes stated and the people he has hired are sponsored by a check he gets from LA county

Every thing I look at on the internet is being distorted. It seems to be on my Verizon Wireless, xfinity account, yahoo, Bank of America, ect. I have reason to believe my networks are being tampered with. I have tons of pictures from my ex's phone that give me good reason for this. I also have filed a formal police report. My ex states when confronted with this his co worker whom helps him with his phone troubles was just in trouble for hacking, his co-worker's phone was confiscated by the "FBI". Also Xfinity has come to my home telling me there was interference with my service. I am at a public library as my networks are being tampered with. I changed my phone # and device with Verizon Wireless. My calls also get rerouted so I am in doubt that I am even speaking with a actual representative. I would like submit tons of photos taken on my phone.

Ticket: # 1223173 - Comcast Internet-Predatory and Deceptive Sales Tactics plus unethical account opening

Date: 9/27/2016 8:57:43 PM

City/State/Zip: Boynton Beach, Florida 33426

Company Complaining About: Comcast

Description

I recently had to change addresses and thus, change the default billing/service location for my Comcast Internet. This is now the second time this deceptive practice has occurred and I am now certain it is some sort of manipulation of sales to open a new account each time I change addresses, regardless.

Issue:

I called Comcast to update my billing address.

Comcast said that I was unable to keep my current account/current equipment at my new address, literally only 5 miles away.

Comcast operator told me that this would be strictly clerical.

Comcast operator exclusively told me that this would not result in a HARD credit bureau inquiry.

Comcast operator confirmed again, after I specifically stated, I do not want to change the service or continue service if they will do ANOTHER hard inquiry after being a 4 year customer with 0.00 delinquency.

Comcast operator attempted to upsell me on TV package, phone package etc, all while reassuring me that this was all just clerical.

Result:

Comcast did indeed do a hard inquiry on my credit bureaus, affecting my inquiry count for the year and negatively affecting my credit score, credit management, and overall financial portfolio.

Comcast also issued me the same equipment that I already had, all of this was another bait and switch scheme.

Sep 9, 1:28 PM EDT

I recieved a \$385.00 charge to my account from a company named My Identity Shield. I have never heard of thi company and they have never made any contact with me. The only thing I know is that they charged my account for a service I did not request and do not have. I attempted to call them several times and each time they put me on hold and did not return to the call for more than 30 minutes several times and each time they eventually hung up without returning to the call. When I did actually speak to someone, as soon as I mentioned the name of the company she hung up the phone. I have already filed a fraud complaint with my bank. I want to make sure that this company is not doing this to other people who do not pay as close attention to their bank accounts. I looked on their website and it says the services cost at maximum \$19.95 per month which still does not add up to the \$385 that was charged to my account.

Ticket: # 1224367 - Comcast/Xfinity Wifi broadcasts**Date:** 9/28/2016 2:31:55 PM**City/State/Zip:** Eugene, Oregon 97404**Company Complaining About:** Comcast

Description

In the past few months I have begun to notice that a public wifi signal SSID "xfinitywifi" that will allow me to sign on if I have a user/pw with the company. I have enquired at my local comcast/xfinity office and they tell me that this signal is broadcast by xfinity customers when using their service and their (rented) 803.11 routers. My concerns are as follows:

1) When I ask my neighbors who use xfinity internet services & equipment if they know that they are broadcasting this signal they tell me they have no idea. Comcast assured me that they were informed. there seems to be a discrepancy here. I wonder how Comcast convert a private residence (and the customer's power) into a service they offer to the public without the customer granting permission?

2) Comcast informed me that the public wifi signal in no way reduces the throughput of the router, but this cannot be the case since I regularly experience network slowdowns in my "up to 150 Gb" service that is explained by the company as "service load issues." It seems to me that the customer is likely sharing network capacity on the Comcast router with public internet traffic. I don't see how the customer is compensated for this.

3) When my devices are reattaching to a wifi network after being offline, the xfinitywifi network has often forced a connection. I was informed by Comcast customer service that if the "xfinitywifi" broadcast was a problem I should "Forget Network" and it will stop attaching. I followed that instruction and the problem persists. I wonder if Comcast is using its network to "push" this network connection to devices. If this is the case, then I wonder under what authority does Comcast do this? Thank you for looking into this practice or, if you have already, letting me know your thoughts/conclusions.

Ticket: # 1224539 - att.net email in Connecticut

City/State/Zip: West Haven, Connecticut 06516

Company Complaining About: AT&T

Description

att.net and yahoo.com personal email are linked together. Because of the yahoo breach we need to change our password. Since ATT sold to Frontier Communications in Connecticut this has become impossible to do. ATT digital life, email password reset team and customer service 1-877-5267-2988, 1-877-267-2230, 1-877-285-0144, all reply they have no access to Connecticut. Yahoo.com customer service replied they can not access because the yahoo.com email is linked to att.net. I have been contacting place after place and still do not have an answer; how to change my att.net email password. How did this get so out of hand. This problem should not exist. When the sale from ATT to Frontier Communications took place in Connecticut this should have been addressed to change all att.net emails in Connecticut to Frontier Communications.

PLEASE provide me with a solution to this problem: I would like to change my password belonging to my att.net account in Connecticut. Communications today should be better than this. Again PLEASE provide me with a solution to this problem: I would like to change my password belonging to my att.net account in Connecticut.

Att Gigapwer service tracks online users activity when on their Gigapower transport layer. I as an individual (not the contract holder), a user on a network have no notice of invasion of privacy at any time. I also have no way to opt out of ATT tracking my online activity. This a difference from other tracking services that are in browsers, applications etc where I can elect to opt out of tracking. ATT opt out is held at the contract service level thereby denying transparency and consent to users who unknowingly sign into their network. This should be a violation and ATT should do more to enable opting out on a per user basis.

Company Complaining About: Complete Body Health & Wellness Clubs

Description

I received a solicitation from a health club I visited via email on 8/8. I replied that I was uninterested and further received unwanted communications on 8/17, 9/23, 9/28, and 9/29. With each email I have replied asking to be unsubscribed as the email offered not automated fashion to unsubscribe. Further, I phoned the sales rep that was in the signature line yesterday again complaining and received another solicitation today.

Company Complaining About: Comcast

Description

To Whom it May Concern,

I am a professor at a University, and despite my SPAM software I received the following email from a source unknown to me regarding "my subscription" to something I NEVER subscribed to be a part of. I feel this email is threatening to my position and fear it is some sort of practical joke or attempt to have me click on something that will harm my computer.

Please advise asap, as I cannot click on the links to UNSUBSCRIBE (even though I never SUBSCRIBED in the first place). I have never gone on this website, so I am not sure how they would have my work place email? Again, I feel this is a very insulting and threatening email.

Thanks so much for helping me.

Best Regards,

Company Complaining About: Empowr

Description

I had received an email from a trusted friend of mine to join Empowr, so I clicked, thinking it was legit which also allowed them to have access to all my gmail contacts. They then proceeded to email all my 500+ email contacts with my name attached to join. When I realized this, I deleted my account immediately. Some weeks later it more emails went out on my behalf. I realized I had to revoke their access to my gmail accounts. I did this and also deleted my 500+ contacts just to be safe.

The emails are still being sent on my behalf to my prior contact list. The email they send out as my email address as the subject. I have sent them messages to stop and have been ignored.

I am a Comcast customer, and while browsing a page, the page suddenly shut down and was replaced by a 2016 Comcast Opinion Survey >>> Friday, September 30, 2016 survey. I could not get out of the page or go back without filling it out. Then they tried to force me to accept a "gift," all of which had a fee involved. I tried to leave a comment, but it would not accept it.
