Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Our company has completed the migration of customers to our new facilities. All ZTE equipment previously reported has been removed, replaced (with Nokia equipment), and destroyed. We continue to submit invoices in the SCRP Filing Portal for reimbursement.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Our company was in an equipment-positive situation with the exception of certain network cards and optics. In several instances, we were forced to secure equipment from companies that we typically do not work with as Nokia had long lead times for some items. Overall, we did not experience an equipment shortage on the larger ticket items as we placed orders for that equipment very early on in the project.
