Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

MHG Telco LLC has been working with Upstate construction on removal and installation on a number of sites. Huawei equipment has been properly disposed according to SCRP disposal guidelines. MHG Telco has been working with T3 on integrating replace sites and testing performance and interoperability. However, MHG Telco has continued to encounter challenges. These include, in particular: (1) winter climate conditions that have limited construction activities for the past several months; (2) limitations in the availability of field labor personnel to handle construction activities; (3) continued supply chain issues; and (4) the need to wait for the additional funding recently authorized by Congress to become available. Despite these obstacles, we continue to explore options and refine our plans so that we can keep the project moving once circumstances permit, consistent with our current deadlines. Please do not hesitate to reach out to our representative, Brian Gelfand, with any questions.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

MHG Telco has select T3 broadband and upstate construction to conduct its replacement, removal, and disposal process
