Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

No, my company has not conducted work on the removal of covered equipment since the submittal of the last form. All of the covered equipment that can be removed at this point has been removed. The remainder cannot be removed until the new network is built. No, my company has not conducted work on the disposal of covered equipment since the submittal of the last form. Removed equipment is stored and will be destroyed when more covered equipment can be removed from the network. Yes, my company has conducted work on the replacement of covered equipment and services since the submittal of the last form. Nemont continues to installed new equipment limited only by the lack of full funding by the government.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Yes, we are finding that equipment and services are commercially available.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

Until there is full funding, Nemont cannot complete the network swapout without seriously impacting their customers and the roamers from other networks who utilize the existing network. We will deploy as much network as we can given the partial funding available. The continued delay in full funding will seriously impact our original timeline. Nemont will require at least one extension to complete. The longer funding is delayed the more time it will take to complete.

Timeline Deviation: Nemont's original timeline was developed with the assumption that full funding would be made available to the company. As of this report, less than 40% of the estimated funds needed to complete this project have been awarded. Nemont has adjusted its project and subsequent timeline for completion as a result.
