Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

NfinityLink continues seeking additional staff for completing replacement, engineering, warehousing, and employee housing efforts in order to meet program requirements. It should be noted that it is difficult to locate and hire qualified applicants that possess the technical expertise and experience needed for these industry specific jobs. We continue the process of moving customers to the TiVo Platform. We were finally able to lease and occupy a suitable facility February 2024. The most significant issue facing our efforts is the lack of adequate funding. It appears that Federal Funding of the remainder of the project is unlikely; therefore, we have devoted significant engineering and administrative resources in search of viable alternative solutions that would allow us to comply with the program.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Currently we are able to find commercially available equipment with reasonable lead times.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

Yes No

*The filer has indicated no to a question in this section, please provide additional information.

NfinityLink continues to work diligently to comply with the submitted timeline, but compliance is/has been significantly impacted by the fact that the program was not fully funded. As previously mentioned, we are in search of alternative solution(s) that would allow us to comply with the timeline. Additional extension request will likely be required.
