Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

No, my company has not conducted work on the disposal of covered equipment since the submittal of the last form. Removal and destruction of all Huawei hardware is complete.

Yes, my company has conducted work on the replacement of covered equipment and services since the submittal of the last form. Optimization work has indicated the need for 2 additional gap sites: Hooker Rural & Ponderosa. Ponderosa site went live in December of 2024. Hooker Rural is ongoing and expected to be live by 4/30/2025. Optimization of Hooker Rural and Ponderosa is expected to be completed by 6/30/2025.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We are finding that some equipment and services are commercially available, and some are not. Full funding of the program has given PTSI the reassurance that necessary work will be covered by the program. Previous remarks and updates as well as internal labor choices to save on cost were made when the risk of no reimbursement hindered our decision to fully complete the project.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

PTSI is pleased to hear of full funding appropriations and is looking forward to a small extension. The reassurance that our hard work will be fully refunded eliminates previous risk concerns about finishing the job without guarantees on funding reimbursement.
