Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

My company is working on this process. No, my company has not conducted work on the removal of covered equipment since the submittal of the last form. Removal work is 100% complete. Yes, my company has conducted work on the disposal of covered equipment since the submittal of the last form. The RRU from the Renco Tower in Perryton, TX has been shipped to our disposal partner. PTSI is still waiting for final certification of disposal. No, my company has not conducted work on the replacement of covered equipment and services since the submittal of the last form. PTSI has completed all replacement work to date.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We are finding that some equipment and services are commercially available, and some are not. PTSI has simply been waiting for our vendor partners to complete their work.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

PTSI has found that excessive RFI's are wastefully increasing the overall cost of the program. In addition, the total stop on processing invoices when a modification is submitted creates a concern for PTSI in the timely reimbursement of our funds. PTSI is anxiously awaiting the full funding of this National Security Threat based program.

Timeline Deviation: PTSI is still waiting on certification of destruction on hardware.
