Yes, my company has conducted work on the removal of covered equipment between July 1 and today. Since July, we have replaced a few Mini-CMTS locations with Calix GPoN. The Huawei equipment at that location was removed. Equipment from MDU's who went to another provider was also removed.

No, my company has NOT conducted work on the disposal of covered equipment between July 1 and today. We are storing the current removed equipment to dispose of equipment in bulk as we remove more equipment.

Yes, my company has conducted work on the replacement of covered equipment and services between July 1 and today. We have replaced some Mini-CMTS location with Calix GPoN.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

We are finding that some equipment and services are commercially available, and some are not. We have worked directly with the vendor to try to obtain accelerated delivery times and prioritized equipment based upon location.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

We are finding commercially available equipment to have long lead times in the marketplace. Most of the equipment that we have ordered will not be delivered until Q1-Q3 of 2023.
