Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Since our previous status update, we have replaced our third microwave path and taken down 5 more sites. Additionally, we've powered down our switching equipment. Only 9 sites remain to be removed. Once all the covered equipment has been removed from our network, we will proceed to utilize ATR for the compliant disposal of equipment.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Equipment was commercially available.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

Currently, we don't foresee a need to extend the RRD Term. While we've made notable progress with the funds we have, the expenses for the SCRIP program are set to exceed our funding allocation. Obtaining more funds for the full costs of SCRIP would provide financial stability moving forward.
