## Explanation of Effort and Availability of Commercial Equipment

\*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Same challenges as last report not able to buy needed replacement equipment if FCC is only reimbursing 40% of cost. Our position is being required to replace our Huawei gear as a member of a winning CAF2 bidding consortium represents a "government taking" under the constitution and the FCC needs to figure out how to pay 100% of costs.

\*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Same as last report, gear has longer lead times and higher prices.

\* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

If you have not yet completed the removal, replacement, and/or disposal process, what estimated percentage of the removal, replacement, and/or disposal process have you completed?
