Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Yes, my company has conducted work on the removal of covered equipment since the submission of the last form. PTCI recently discovered they have a Renco tower in Perryton Texas that was found to still have some Huawei hardware on the tower. This equipment was not caught in the first equipment audit conducted during the application period but was discovered in a recent equipment audit. Since discovering the Huawei hardware, the RRU has been removed, is currently stored, and will be shipped for disposal/certification of disposal soon. No, my company has not conducted work on the disposal of covered equipment since the submittal of the last form. *Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

Yes, we are finding that equipment and services are commercially available.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.

We are in the process of complying with the requirements of the reimbursement program. We have not yet met all benchmarks laid out in the timeline, but we anticipate that the timeline still accurately reflects our project plan. PTSI is very concerned about the underfunded status of the SCRP program. PTSI has complied with all guidance and policies of the program and has currently invested funding to replace, remove, and destroy Huawei network components. Our current expenditures have exceeded the allocation provided. PTSI is hopeful that Congress will alleviate this National Security Threat funding issue with haste.
