Explanation of Effort and Availability of Commercial Equipment

*Provide an explanation of efforts undertaken, and challenges encountered, in permanently removing, replacing, and disposing of covered communications equipment or service.

Full vetting of vendors continues and a review of financials is being completed to ensure the project can move forward. Again, because the program has not been fully funded, we continue to experience difficulty implementing a network plan that makes business sense long-term.

*Explain whether you are finding commercially available equipment in the marketplace. If not, then explain efforts taken to obtain replacement equipment.

As previously filed, equipment is available within the commercial marketplace, but lead times continue to present an issue and, ultimately, impact our ability to deploy the replacement network.

* If there is additional information relevant to the preceding questions or that you believe the Commission should be aware of, please include the information below.
