FCC Announces Spectrum Auction Schedule for 1998

This Public Notice apprises potential applicants of important dates for several auctions that will be conducted in 1998. The dates listed below may be subject to change. A brief summary of the wireless services to be auctioned is provided below. More detailed information concerning each of these auctions has been provided or will be provided at a later date. The wireless services to be auctioned are:

**Local Multipoint Distribution Service ("LMDS"):** This auction will consist of 986 LMDS licenses in the 28 GHz and 31 GHz bands. Two licenses will be offered in each of 493 Basic Trading Areas ("BTAs") and BTA-like areas in the United States. One license, in frequency block A, will authorize service on 1,150 megahertz of spectrum in both the 28 GHz and 31 GHz bands. The second license, in frequency block B, will authorize service on 150 megahertz of spectrum in the 31 GHz band. Each frequency block encompasses the following spectrum:

- **Block A (1,150 megahertz):** 28 GHz band: 27,500 - 28,350 MHz and 29,100 - 29,250 MHz and 31 GHz band: 31,075 - 31,225 MHz.

- **Block B (150 megahertz):** 31 GHz band: 31,000 - 31,075 and 31,225 - 31,300 MHz.

---

1 Block A of the New York BTA is encumbered by a pre-existing licensee in the New York Metropolitan Statistical Area. The incumbent licensee, CellularVision of New York, is entitled to interference protection.

2 Operations to take place in the 29,100 - 29,250 MHz band are governed by 47 C.F.R. §§ 101.103(g) and (h), 101.113(c), 101.133(d), and 101.147(t), which are new provisions designed to facilitate the sharing of this spectrum by LMDS, GSO/FSS gateways, and MSS feeder link licenses. These provisions allow only hub-to-subscriber transmissions by LMDS licensees in this band.
Key Dates:

- Short form (FCC Form 175) Application Deadline: January 20, 1998
- Upfront Payment Deadline: February 2, 1998
- Mock Auction Date: February 13, 1998
- Auction Commencement Date: February 18, 1998

220 MHz Service: This auction will consist of 908 licenses in the Phase II 220 MHz service, with three nationwide, 30 Regional Economic Area Groupings ("220 MHz REAGs") and 875 Economic Area ("EA") licenses. The licenses encompass the following channels:

<table>
<thead>
<tr>
<th>Nationwide Block</th>

### Key Dates:

- **Short form (FCC Form 175) Application Deadline:** April 20, 1998
- **Upfront Payment Deadline:** May 4, 1998
- **Auction Commencement Date:** May 19, 1998

The FCC services also tentatively plans to conduct spectrum auctions for the following services:

- **Broadband Personal Communications Services ("PCS")**
  - **C Block Re-auction**
  - **39 GHz**
  - **Paging (929 - 931 MHz band)**
  - **800 MHz Specialized Mobile Radio ("SMR")**
    - (Lower 80 and General Category Channels)
  - **Location Monitoring Services ("LMS")**
  - **Public Coast Stations**
  - **Pending Analog Broadcast Licenses for**
    - Commercial Radio and Television Stations

- **FCC Auctions Telephone Number and Internet Site:** All interested parties should contact the FCC National Call Center at 888-CALL-FCC (888-225-5322), Option #2, to request to be put on the mailing list for bidder information packages for the auction or auctions in which they are interested in participating. By doing so, potential applicants ensure that they will receive a bidder information package detailing the specific terms and conditions of the auction. This is the only telephone number to contact to be placed on a mailing list for upcoming auctions.

In order to keep apprised of the FCC’s auction schedule (which is subject to change),
Bidders Alerts:

- The Commission does not approve any individual investment proposal, nor does it provide a warranty with respect to any license being auctioned. Potential applicants and investors are reminded that winning a license in an FCC spectrum auction is not a guarantee of success in the marketplace.

- The FCC makes no representations or warranties about the use of spectrum for particular services. Applicants should be aware that an FCC auction represents an opportunity to become an FCC licensee, subject to certain conditions and regulations. An FCC auction does not constitute an endorsement by the FCC of any particular services, technologies, or products, nor does an FCC license constitute a guarantee of business success. Applicants should perform their individual due diligence before proceeding, as they would with any new business venture.

- The Federal Trade Commission (FTC) has found that some unscrupulous individuals have designed investment schemes around licenses auctioned or to be auctioned by the FCC. Investors or potential investors with inquiries or complaints about specific investment offerings may call the National Fraud Information Center, 1-800-876-7060, or visit that organization's Internet web site at www.fraud.org. They may also may contact their state attorney general or state corporations office. The FTC and the Securities and Exchange Commission (SEC) receive complaints on investment fraud and offer consumer education materials. Investors or potential investors may contact the FTC at (202) 326-3128 or visit its Internet web site at www.ftc.gov, and may contact the SEC at (202) 942-7040 or visit its Internet web site at www.sec.gov.

- Potential applicants should also be aware that several pending rulemaking proceedings are considering changes to many of the Commission's auctions rules, including whether to continue to permit small businesses to pay for licenses won in installment payments. Changes are also being considered with respect to the

---

attribute of gross revenues of investors in and affiliates of small businesses, and 
have been adopted with respect to foreign ownership of U.S. telecommunications 
facilities. Finally, potential applicants should be aware that when FCC licenses 
are subject to auction (i.e., because they are mutually exclusive) the recently 
enacted Balanced Budget Act of 1997 calls upon the Commission to prescribe 
methods by which a reasonable reserve price will be required or a minimum 
opening bid established, unless the Commission determines that a reserve price or 
minimum bid is not in the public interest. The Commission is presently 
considering the use of minimum opening bids in the LMDS auction, and will 
comply with the requirements of the Balanced Budget Act with respect to the 
other auctions listed herein.

For further information contact LaVonia Connelly, Ruby Hough, or Lisa Hartigan, 
Auctions and Industry Analysis Division, Wireless Telecommunications Bureau, at (202) 418-0660.
