Hello Tom,

Thanks for all your help in Las Vegas.

This auction could go much smoother by just going down the list. Those that are interested on certain broadcast construction permits bid on them at the time. Once the highest bid is determined that construction permit is gone. Most auctions work well this way.

I am confused with Activity Rules, Reducing Eligibility, 9 bids and waivers and tied bids and keeping the auction open to the final construction permit is gone (stopping rule).

I like everything else about the auction.
