**Assignment/Transfer**

**Partition/Disaggregation**

**Spectrum Leasing**

# Assignment of MVDDS licenses

- Assignment and transfer of MVDDS licenses is permitted. (See 47 C.F.R. § 1.948)
- Assignee/transferee must be eligible to hold MVDDS license. (See 47 C.F.R. § 101.1412 for eligibility restrictions for cable operators.)

# Partitioning and Disaggregating

- See 47 C.F.R. § 101.1415.
- MVDDS licensees are not permitted to disaggregate spectrum.
- MVDDS licensees are permitted to partition their MVD licenses along county borders – Parishes in Louisiana and Territories in Alaska.
- Unjust enrichment payments are due the Commission if the assignee does not meet the eligibility criteria for the original licensee.
- The parties to a partitioning application must certify that one or both of the parties will satisfy the construction requirements set forth in 47 C.F.R. § 101.1413.

# Spectrum Leasing

MVDDS licensees are permitted to lease spectrum.

(See Second Report and Order, Order on Reconsideration, and Second Further Notice of Proposed Rule Making - FCC 04-167 – Adopted: July 8, 2004 Released: September 2, 2004)

Licensees that obtained their MVD geographic license(s) with a bidding credit will be required to pay the Commission an unjust enrichment payment when they seek Commission approval of a long term de facto transfer lease and the lessee does not meet the eligibility standards for the bidding credit that was used by the licensee to obtain the license.

All long term de facto transfer lessees must comply with the cable operators eligibility restrictions outlined in 47 C.F.R. § 101.1412.
